

Lap Pool Repair News

Notification

**Wednesday, July 29th - Monday, August 10th
(Weather Permitting)**

The coping repair on the Lap Pool will begin on Wednesday, July 29th.

During the repair of the Lap Pool, several areas will be closed as a precautionary measure. These closed areas include the Lap Pool, the Splash Pad, the deck surrounding both the Lap Pool and Splash Pad, and the first section of parking spaces on the lower deck of the Lodge parking lot.

For your safety, please use the rear pool gate to enter the Lagoon Pool and Jacuzzi. To utilize the Locker Room facilities, please enter the Fitness Center through the breezeway between the Lodge and Fitness Center. Entry into the rear pool gate and Fitness Center will require the use of your access card. The first section of parking spaces will be used as a staging area for the removal of the coping. When approaching the poolside area and maneuvering through the parking lot, please use extreme caution as the Challenger Pool repair team will be transporting heavy materials through the parking lot and onto the pool deck, throughout the course of the repairs on both pools.

Once the repair to the Lap Pool is complete, the team will transition to the Lagoon Pool. A few days prior to the transition, the community will receive an eblast notification of the transition, closures, and the reopening of the Lap Pool. While we recognize these closures are an inconvenience, it is necessary for the safety of you and your family.

We truly appreciate your cooperation and patience throughout this process.

Please direct all questions and concerns to the District Staff and/or the Board of Supervisors.
