December 15, 2020

The Preserve at Wilderness Lake CDD celebrates being recognized as a Special Districts Program Award recipient for 2020, presented by Government Technology magazine and AT&T. Tish Dobson, the Lodge Manager, was selected as a "Technology Innovation Leadership" award winner and was recognized at the [2020 Year In Review & Recognition Summit](#) on December 15, 2020. The event presented a unique opportunity to hear from district leaders nationwide, as they shared their best practices and showcased innovation, in response to adapting to the uncertainties and disruptions of 2020.

The Special Districts Awards Program is designed to recognize innovation and leadership within special district agencies across the country. This year, the nominating committee was looking for notable examples of how special districts applied innovative technologies and leadership to response and recovery efforts as they relate to COVID-19. The evaluation committee reviewed the nominations in three categories and selected the award recipients. Submissions were entered by the public and/or private sector.

Award Categories

Technology Innovation: Citizens

Technology Innovation: Operations

Technology Innovation: Leadership

About The Preserve at Wilderness Lake CDD

The Preserve at Wilderness Lake CDD is an award-winning Master Planned community nestled off of US HWY 41, between State Rd. 54 & State Rd. 52.
