The Board heard a brief presentation from Roger Wright, with Burns & McDonnell and Dale Hayes, with Cornerstone Energy Services, both of them representing Duke Energy. They explained how Duke Energy is preparing to upgrade the power lines and poles that run through the community at spots and how they are requesting new easements at locations where the new poles will be installed. Mr. Babbar indicated that he will review the easement documents for the District. This topic is to be placed on the August agenda for the Board’s consideration of the easement requests.
Mr. Scott Paige addressed the Board regarding his interest in the tree replacement plan.

Mr. Ramon Reyes addressed the Board regarding information on items that were actually HOA related.

Mr. Nate Johns addressed the Board regarding the recycled waste collection schedule.

THIRD ORDER OF BUSINESS

A. Field Operations Manager

The Board received an update from Tyree Brown regarding his Field Inspection Report. Mr. Brown asked Scott Carlson, with LMP, to provide the Board with a history of irrigation inspections and repairs that had been made by LMP as a response to the Board’s previous concerns about annuals dying in flower beds. Mr. Carlson discussed an irrigation proposal that was previously presented but never approved. Mr. Cox indicated that he will locate the proposal and have it approved.

Mr. Brown discussed the issue of Dog Fennel weed growing in the grass barrier around ponds in the community. It was explained that Aquatic Systems had opined that the weed was outside of the water level where they treat and was growing from the riparian grass barrier around the pond edge. Mr. Brown explained that the Dog Fennel could not be treated by LMP because it was on the pond bank and too close to the water. Mr. Bennett, with LMP, added that the removal of the Dog Fennel from the riparian barrier around the pond required too much labor. As of the conclusion of the discussion, it was not determined what action would be taken regarding the Dog Fennel.

Mr. Brown discussed the Washingtonian Palm that had been removed and the Board requested that he seek a proposal to have it replaced with a Queen Palm.

Mr. Brown discussed the Board’s interest in having street trees removed in those areas where they were damaging sidewalks and/or roadways. The Board discussed 21 locations that had been identified as currently causing issues. The Board approved to have Mr. Brown seek a proposal for the removal of the 21 trees; to perform the locates for the replacement trees; for the sodding and other requirements resulting from the tree removals and to present these to the Board at the August 14, 2019 Board meeting.

On a Motion by Ms. Sholl, seconded by Ms. Rae, with all in favor, the Board of Supervisors approved to have Mr. Brown seek a proposal for the removal of the 21 trees; to perform the locates for the replacement trees; for the sodding and other requirements resulting from the tree removals and to present these to the Board at the August 14, 2019 Board meeting, for the Meadow Pointe IV Community Development District.
The Board discussed the current street tree removal polices with regards to how to handle those trees that are determined, by Mr. Brown, to be ones causing damage and those that simply want to be replaced by the resident. The Board initially determined that the ones causing damage would be funded by the CDD while the ones that the resident wanted replaced would be funded by the resident. Mr. Babbar indicated that he will work on the restructuring of the polices and bring them back to the Board at the August 14, 2019 Board meeting.

Mr. Brown requested the Mr. Bennett explain to the Board why LMP could not do any landscaping around the hardscape monument at the Highway 54 entrance. Mr. Bennett explained that there was a silt fence installed and that inside the silt fence area, it was considered a construction area and they could not do work within the area. With regards to the District’s payment for work not then being done, Mr. Carlson informed the Board that once the silt fence was removed, LMP would clean up the area at no cost to the District. The Board requested that staff attempt to determine if there were options of getting approval to have the area improved by contacting Mr. Lee Arnold. The Board also requested the Ms. Stewart research to determine if CDD bond funds were used to construct the hardscape.

B. District Engineer

Ms. Stewart provided the Board with an update of the pot hole situation and how the County was responding to those issues. She explained that she would be bring a proposal to the August 14, 2019 Board meeting from Precision Sidewalks for the repair of sidewalks throughout the community.

Ms. Stewart informed Ms. Fischer that the large backflow preventor that was discussed at the last meeting was actually the responsibility of the HOA and not the County or the CDD. Ms. Stewart did indicate that she was having a vendor come look at the backflow preventor.

SEVENTH ORDER OF BUSINESS  
Discussion of Waste Collection Services

The Board received an update from Mr. Cox regarding how it was now determined that the number of homes being serviced by Waste Collections had increased from 381 to 714. Mr. Cox explained that payment for the 714 was commencing effective for the month of June. He noted that the cost would nearly double based on the rates in the current contract and that the proposed budget for FY 19/20 would need to be changed to reflect that cost. The Board concluded that the revised agreement would need to include the once-a-week recycled waste pickup. Ms. Fischer requested that staff research to determine if those residents in Meadow Pointe North were paying CDD assessments that should include waste collection the same as other residents.
