REPORT OF INDEPENDENT AUDITORS

To the Board of Supervisors
The Verandahs Community Development District
Pasco County, Florida

Report on Audit of the Financial Statements

Opinion

We have audited the financial statements of the governmental activities and each major fund of The Verandahs Community Development District (the "District"), as of and for the year ended September 30, 2023, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of The Verandahs Community Development District as of September 30, 2023, and the respective changes in financial position and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS), and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

To the Board of Supervisors
The Verandahs Community Development District

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year beyond the financial statement date, including currently known information that may raise substantial doubt thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

To the Board of Supervisors
The Verandahs Community Development District

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards Board* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated October 25, 2024 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations and contracts.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering The Verandahs Community Development District's internal control over financial reporting and compliance.

The Verandahs Community Development District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2023

Management's discussion and analysis of The Verandahs Community Development District's (the "District") financial performance provides an objective and easily readable analysis of the District's financial activities. The analysis provides summary financial information for the District and should be read in conjunction with the District's financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

The District's basic financial statements comprise three components; 1) *Government-wide financial statements*, 2) *Fund financial statements*, and 3) *Notes to financial statements*. The *Government-wide financial statements* present an overall picture of the District's financial position and results of operations. The *Fund financial statements* present financial information for the District's major funds. The *Notes to financial statements* provide additional information concerning the District's finances.

The *Government-wide financial statements* are the **statement of net position** and the **statement of activities**. These statements use accounting methods similar to those used by private-sector companies. Emphasis is placed on the net position of governmental activities and the change in net position. Governmental activities are primarily supported by special assessments.

The **statement of net position** presents information on all assets and liabilities of the District, with the difference between assets and liabilities reported as net position. Net position is reported in three categories: 1) net investment in capital assets, 2) restricted, and 3) unrestricted. Assets, liabilities, and net position are reported for all Governmental activities.

The **statement of activities** presents information on all revenues and expenses of the District and the change in net position. Expenses are reported by major function and program revenues relating to those functions are reported, providing the net cost of all functions provided by the District. To assist in understanding the District's operations, expenses have been reported as governmental activities. Governmental activities financed by the District include general government, physical environment, culture/recreation and debt service.

Fund financial statements present financial information for governmental funds. These statements provide financial information for the major funds of the District. Governmental fund financial statements provide information on the current assets and liabilities of the funds, changes in current financial resources (revenues and expenditures), and current available resources.

The Verandahs Community Development District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2023

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Fund financial statements include a **balance sheet** and a **statement of revenues, expenditures and changes in fund balances** for all governmental funds. A **statement of revenues, expenditures, and changes in fund balances – budget and actual** is provided for the District's General Fund. *Fund financial statements* provide more detailed information about the District's activities. Individual funds are established by the District to track revenues that are restricted to certain uses or to comply with legal requirements.

The *government-wide financial statements* and the *fund financial statements* provide different pictures of the District. The *government-wide financial statements* provide an overall picture of the District's financial standing. These statements are comparable to private-sector companies and give a good understanding of the District's overall financial health and how the District paid for the various activities, or functions, provided by the District. All assets of the District, including capital assets are reported in the **statement of net position**. All liabilities, including principal outstanding on bonds are included. The **statement of activities** includes depreciation on all long-lived assets of the District, but transactions between the different functions of the District have been eliminated in order to avoid "doubling up" the revenues and expenses. The *fund financial statements* provide a picture of the major funds of the District. In the case of governmental activities, outlays for long lived assets are reported as expenditures and long-term liabilities, such as general obligation bonds, are not included in the fund financial statements. To provide a link from the *fund financial statements* to the *government-wide financial statements*, reconciliations are provided from the *fund financial statements* to the *government-wide financial statements*.

Notes to financial statements provide additional detail concerning the financial activities and financial balances of the District. Additional information about the accounting practices of the District, investments of the District, capital assets and long-term debt are some of the items included in the *notes to financial statements*.

Financial Highlights

The following are the highlights of financial activity for the year ended September 30, 2023.

- ◆ The District's total assets and deferred outflows of resources exceeded total liabilities by \$1,968,342 (net position). Net investment in capital assets for the District was \$1,416,078. Restricted net position was \$30,530 and unrestricted net position was \$521,734.
- ◆ Revenues from governmental activities totaled \$864,891 and expenses from governmental activities totaled \$662,213.

TO NET POSITION OF GOVERNMENTAL ACTIVITIES
September 30, 2023

Total Governmental Fund Balances	\$ 676,119
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital assets, land, \$3,576,042, infrastructure, \$982,564, buildings, \$398,851, and equipment, \$32,000, net of accumulated depreciation, \$(455,051), used in governmental activities are not current financial resources, and therefore, are not reported at the fund level.	4,534,406
The deferred amount on refunding is recorded as other debt service costs at the fund level, however, at the government-wide level it is recognized as a deferred outflow of resources and amortized over the life of the bonds.	7,897
Long-term liabilities, bonds payable, \$(3,200,000), and financed purchase payable, \$(3,413), are not due and payable in the current period, and therefore, are not reported at the fund level.	(3,203,413)

Net Change in Fund Balances - Total Governmental Funds	\$ 58,246
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation. This is the amount of depreciation in the current period.	(51,139)
Repayments of long-term debt are expenditures at the fund level, but the repayment reduces long-term liabilities at the government-wide level.	193,428
Deferred amount on refunding is amortized over the life of the bonds as interest. This is the current period amortization.	(628)
At the government-wide level, interest is accrued on outstanding bonds; whereas at the fund level, interest expenditures are reported when due. This is the change in accrued interest in the current period.	2,771

The Verandahs Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2023

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's more significant accounting policies are described below.

1. Reporting Entity

The District was established on July 25, 2006, pursuant to the Uniform Community Development District Act of 1980, Chapter 190, Florida Statutes, as amended (the "Act"), by Ordinance 06-20 of the Pasco County Board of County Commissioners as a Community Development District. The District was established for the purposes of financing and managing the acquisition, construction, maintenance and operation of the infrastructure necessary for community development within its jurisdiction. The District is authorized to issue bonds for the purpose, among others, of financing, funding, planning, establishing, acquiring, constructing district roads, landscaping, and other basic infrastructure projects within or outside the boundaries of the The Verandahs Community Development District. The District is governed by a five-member Board of Supervisors. The District operates within the criteria established by Chapter 190, Florida Statutes.

As required by GAAP, these financial statements present the The Verandahs Community Development District (the primary government) as a stand-alone government. The reporting entity for the District includes all functions of government in which the District's Board exercises oversight responsibility including, but not limited to, financial interdependency, selection of governing authority, designation of management, significant ability to influence operations and accountability for fiscal matters.

Based upon the application of the above-mentioned criteria as set forth by the Governmental Accounting Standards Board, the District has identified no component units.

2. Measurement Focus and Basis of Accounting

The basic financial statements of the District are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

The Verandahs Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2023

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

a. Government-wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Government-wide financial statements report all non-fiduciary information about the reporting government as a whole. These statements include all the governmental activities of the primary government. The effect of interfund activity has been removed from these statements.

Governmental activities are supported by special assessments and interest. Program revenues are netted with program expenses in the statement of activities to present the net cost of each program.

Amounts paid to acquire capital assets are capitalized as assets, rather than reported as an expenditure. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as an other financing source.

Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure.

b. Fund Financial Statements

The underlying accounting system of the District is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the primary government's governmental funds are presented after the government-wide financial statements. These statements display information about major funds individually.

Governmental Funds

The District classifies fund balance according to Governmental Accounting Standards Board Statement 54 – Fund Balance Reporting and Governmental Fund Type Definitions. The Statement requires the fund balance for governmental funds to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

The District has various policies governing the fund balance classifications.

Nonspendable Fund Balance – This classification consists of amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact.

Restricted Fund Balance – This classification includes amounts that can be spent only for specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

Assigned Fund Balance – This classification consists of the Board of Supervisors' intent to be used for specific purposes but are neither restricted nor committed. The assigned fund balances can also be assigned by the District's management company.

Unassigned Fund Balance – This classification is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications. Unassigned fund balance is considered to be utilized first when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Fund Balance Spending Hierarchy – For all governmental funds except special revenue funds, when restricted, committed, assigned, and unassigned fund balances are combined in a fund, qualified expenditures are paid first from restricted or committed fund balance, as appropriate, then assigned and finally unassigned fund balances.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

b. Fund Financial Statements (Continued)

Governmental Funds (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are considered to be available when they are collected within the current period, or soon thereafter, to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Interest associated with the current fiscal period is considered to be an accrual item and so has been recognized as revenue of the current fiscal period.

Under the current financial resources measurement focus, only current assets and current liabilities are generally included on the balance sheet. The reported fund balance is considered to be a measure of “available spendable resources”.

Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources are expended, rather than as fund assets. The proceeds of long-term debt are recorded as an other financing source rather than as a fund liability.

Debt service expenditures are recorded only when payment is due.

3. Basis of Presentation

a. Governmental Major Funds

General Fund – The General Fund is the District’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

3. Basis of Presentation (Continued)

a. Governmental Major Funds (Continued)

Debt Service Fund – Accounts for debt service requirements to retire the capital improvement bonds which were used to finance the construction of District infrastructure improvements.

b. Non-current Governmental Assets/Liabilities

GASB Statement 34 requires that non-current governmental assets, such as infrastructure and improvements, and non-current governmental liabilities, such as general obligation bonds and developer obligations be reported in the governmental activities column in the government-wide Statement of Net Position.

4. Assets, Deferred Outflows of Resources, Liabilities, and Net Position or Equity

a. Cash and Investments

Florida Statutes require state and local governmental units to deposit monies with financial institutions classified as "Qualified Public Depositories," a multiple financial institution pool whereby groups of securities pledged by the various financial institutions provide common collateral from their deposits of public funds. This pool is provided as additional insurance to the federal depository insurance and allows for additional assessments against the member institutions, providing full insurance for public deposits.

The District is authorized to invest in those financial instruments as established by Section 218.415, Florida Statutes. The authorized investments consist of:

1. Direct obligations of the United States Treasury;
2. The Local Government Surplus Funds Trust or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperative Act of 1969;
3. Interest-bearing time deposits or savings accounts in authorized qualified public depositories;
4. Securities and Exchange Commission, registered money market funds with the highest credit quality rating from a nationally recognized rating agency.

a. Cash and Investments (Continued)

Cash equivalents include time deposits and all highly liquid debt instruments with original maturities of three months or less and held in a qualified public depository as defined by Section 280.02, Florida Statutes.

b. Restricted Net Position

Certain net position of the District is classified as restricted on the statement of net position because their use is limited either by law through constitutional provisions or enabling legislation; or by restrictions imposed externally by creditors. In a fund with both restricted and unrestricted net position, qualified expenses are considered to be paid first from restricted net position and then from unrestricted net position.

c. Capital Assets

Capital assets, which include land, buildings, infrastructure, and equipment, are reported in the governmental activities column.

The District defines capital assets as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of two years. The valuation basis for all assets is historical cost.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation of capital assets is computed and recorded by utilizing the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows:

Infrastructure	40 years
Buildings	20 years
Equipment	5 years

d. Deferred Outflows of Resources

Deferred outflows of resources is the consumption of net position by the government that is applicable to a future reported period. Deferred amount on refunding is amortized and recognized as a component of interest expense over the life of the bond.

e. Budgets

Budgets are prepared and adopted after public hearings for the governmental funds, pursuant to Chapter 190, Florida Statutes. The District utilizes the same basis of accounting for budgets as it does for revenues and expenditures in its various funds. The legal level of budgetary control is at the fund level. All budgeted appropriations lapse at year end. Formal budgets are adopted for the general and debt service funds. As a result, deficits in the budget columns of the accompanying financial statements may occur.

NOTE B – CASH AND INVESTMENTS

All deposits are held in qualified public depositories and are included on the accompanying balance sheet as cash and investments.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk; however, they follow the provisions of Chapter 280, Florida Statutes regarding deposits and investments. As of September 30, 2023, the District's bank balance was \$525,719 and the carrying value was \$506,592. Exposure to custodial credit risk was as follows; the District maintains all deposits in a qualified public depository in accordance with the provisions of Chapter 280, Florida Statutes, which means that all deposits are fully insured by Federal Depositors Insurance or collateralized under Chapter 280, Florida Statutes.

Investments

As of September 30, 2023, the District had the following investments and maturities:

<u>Investment</u>	<u>Maturities</u>	<u>Fair Value</u>
First American Government Obligation Fund	18 days*	<u>\$ 154,385</u>

The District categorizes its fair value measurement within the fair value hierarchy established by generally accepted accounting principles. The fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The District uses a market approach in measuring fair value that uses prices and other relevant information generated by market transactions involving identical or similar assets, liabilities, or groups of assets and liabilities.

The Verandahs Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2023

NOTE B – CASH AND INVESTMENTS (CONTINUED)

Investments (Continued)

Assets or liabilities are classified into one of three levels. Level 1 is the most reliable and is based on quoted price for identical assets, or liabilities, in an active market. Level 2 uses significant other observable inputs when obtained quoted prices for identical or similar assets, or liabilities, in markets that are not active. Level 3 is the least reliable and uses significant unobservable inputs that uses the best information available under the circumstances which includes the District's own data in measuring unobservable inputs.

Based on the criteria in the preceding paragraph, the investment listed above is a Level 1 asset.

Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The District's investments in managed money markets are limited by state statutory requirements and bond compliance. The District has no investment policy that would further limit its investment choices. As of September 30, 2023, the District's investments in First American Government Obligation Fund was rated AAAm by Standard's and Poor.

Concentration of Credit Risk

The District places no limit on the amount it may invest in any one fund. The investments in First American Government Obligation Fund represent 100% of District's total investments.

The types of deposits and investments and their level of risk exposure as of September 30, 2023 were typical of these items during the fiscal year then ended. The District considers any decline in fair value for certain investments to be temporary.

NOTE C – SPECIAL ASSESSMENT REVENUES

Assessments are non-ad valorem assessments on benefited property within the District. Operating and Maintenance Assessments are based upon the adopted budget and levied annually at a public hearing by the District. Debt Service Assessments are levied when bonds are issued and collected annually. The District may collect assessments directly or utilize the uniform method of collections (Chapter 197.3632, Florida Statutes). Direct collected assessments are due as determined by annual assessment resolution adopted by the Board of Supervisors. Assessments collected under the uniform method are due and payable on November 1 or as soon as the assessment roll is certified and delivered to the Tax Collector. Per Section 197.162, Florida Statutes discounts are allowed for early payment at the rate of 4% in November, 3% in December, 2% in January, and 1% in February. Taxes paid in March are without discount.

All unpaid assessments become delinquent as of April 1. Virtually all unpaid assessments are collected via the sale of tax certificates on, or prior to, June 1; therefore, there were no material amounts receivable at fiscal year-end. Assessment levied for the 2022-2023 fiscal year were levied in September 2022.

Summary of Significant Bond Resolution Terms and Covenants

The District levies special assessments pursuant to Section 190.022, Florida Statutes and the assessment rolls are approved by resolutions of the District Board. The collections are to be strictly accounted for and applied to the debt service of the bond series for which they were levied. The District covenants to levy special assessments in annual amounts adequate to provide for payment of principal and interest on the bonds. Payment of principal and interest is dependent on the money available in the debt service fund and the District's ability to collect special assessments levied.

The Series 2016 Bonds are subject to redemption at the option of the District prior to their maturity, in whole or in part, at a redemption price equal to the principal amount of the Series 2016 Bonds to be redeemed, together with accrued interest to the date of redemption. The Series 2016 Bonds are subject to extraordinary mandatory redemption prior to maturity in the manner determined by the Bond Registrar if certain events occurred as outlined in the Trust Indenture.

The Bond Indenture provides for a Debt Service Reserve Fund, which shall be held by the Trustee separate and apart from all other funds. The following is a schedule of reserve requirements and balances in the reserve accounts at September 30, 2023:

	Reserve Balance	Reserve Requirement
Capital Improvement Revenue Refunding Bonds, Series 2016	\$ 77,188	\$ 77,188

NOTE F – FINANCED PURCHASE PAYABLE

During the year ended September 30, 2019, the District entered into a financed purchase agreement for certain fitness equipment. The agreement has an end of finance purchase option which qualifies it as a financed purchase; therefore, the asset has been recorded at the present value of future minimum payments.

The annual requirements to amortize the principal and interest of the financed purchases as of September 30, 2023 were as follows:

Year Ending September 30,	Amount
<u>2024</u>	<u>\$ 3,562</u>
Less: amount representing interest	<u>(149)</u>
Present value of minimum lease payments	<u><u>\$ 3,413</u></u>

NOTE G – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance. There were no claims or settled claims from these risks that exceeded commercial coverage in the last three years.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Supervisors
The Verandahs Community Development District
Pasco County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements, as listed in the table of contents, of The Verandahs Community Development District, as of and for the year ended September 30, 2023, and the related notes to the financial statements, which collectively comprise the basic financial statements and have issued our report thereon dated October 25, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit, we considered The Verandahs Community Development District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of The Verandahs Community Development District's internal control. Accordingly, we do not express an opinion on the effectiveness of The Verandahs Community Development District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

To the Board of Supervisors
The Verandahs Community Development District

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether The Verandahs Community Development District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

To the Board of Supervisors
The Verandahs Community Development District
Pasco County, Florida

Report on the Financial Statements

We have audited the financial statements of The Verandahs Community Development District as of and for the year ended September 30, 2023, and have issued our report thereon dated October 25, 2024.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Florida Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* and our Independent Auditor's Report on an examination conducted in accordance with *AICPA Professionals Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated October 25, 2024, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report. There were no findings or recommendations in the preceding financial audit report.

Financial Condition and Management

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not The Verandahs Community Development District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific conditions met. In connection with our audit, we determined that The Verandahs Community Development District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

To the Board of Supervisors
The Verandahs Community Development District

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for The Verandahs Community Development District. It is management's responsibility to monitor The Verandahs Community Development District's financial condition; our financial condition assessment was based in part on the representations made by management and the review of the financial information provided by the same as of September 30, 2023.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Specific Information

The information provided below was provided by management and has not been audited; therefore, we do not express an opinion or provide any assurance on the information.

As required by Section 218.39(3)(c) and Section 218.32(1)(c), Florida Statutes, and Section 10.554(1)(i)6, Rules of the Auditor General, The Verandahs Community Development District reported:

**INDEPENDENT ACCOUNTANTS' REPORT/COMPLIANCE WITH
SECTION 218.415, FLORIDA STATUTES**

To the Board of Supervisors
The Verandahs Community Development District
Pasco County, Florida

We have examined The Verandahs Community Development District's compliance with Section 218.415, Florida Statutes during the year ended September 30, 2023. Management is responsible for The Verandahs Community Development District's compliance with those requirements. Our responsibility is to express an opinion on The Verandahs Community Development District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about The Verandahs Community Development District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on The Verandahs Community Development District's compliance with the specified requirements.

In our opinion, The Verandahs Community Development District complied, in all material respects, with the aforementioned requirements during the year ended September 30, 2023.
