

Swimming Pool Update

Attention Residents

We have received confirmation from the Pool Contractor that the pool resurfacing has been substantially completed, and the pool has been refilled with water.

The Contractor is anticipating having the project wrapped up by the end of the week. Once completed, the new finish will need about two weeks to cure. During the next week, District Staff will be working on finalizing plans for reopening the pool in a limited capacity. It is important that residents understand that initial limitations will include reduced capacity and reduced hours in order to comply with the recommendations of the Insurance Carrier and District Counsel. The limitations will be relaxed as we move through the summer season.

Additional communication regarding opening dates and guidelines will be sent once we have confirmation of completion. If anyone has any questions regarding the pool or amenities, please contact the Amenity Manager at tony@firstcoastcms.com. If you have any questions regarding the CDD, please contact Lesley Gallagher at lgallagher@rizzetta.com.
