It was not triggering or anything.</p> <p>8/8 The bad battery caused the clock to be incorrect, so I'm not quite sure when the air is occurred showing communication errors got a stuck gate alert, but without proper clock, I'm not sure what happened and when. Both sides should communication loss. The side closer to the entry gate indicated a stuck arm. ### PAYING YOUR BILL

You are responsible for all legitimate, undisputed charges on your bill. Paying by check authorizes Frontier to make a one-time electronic funds transfer from your account, as early as the day your check is received. When making an online payment, please allow time for the transfer of funds. If funds are received after the due date, you may be charged a fee, your service may be interrupted, and you may incur a reconnection charge to restore service. A fee may be charged for a bank returned check. Continued nonpayment of undisputed charges (incl. 900 and long distance charges) may result in collection action and a referral to credit reporting agencies, which may affect your credit rating.

### IMPORTANT MESSAGES

You must pay all basic local service charges to avoid basic service disconnection. Failure to pay other charges will not cause disconnection of your basic service but this may cause other services to be terminated. Frontier Bundles may include charges for both basic and other services. Frontier periodically audits its bills to ensure accuracy which may result in a retroactive or future billing adjustment. Internet speed, if noted, is the maximum wired connection speed for selected tier; Wi-Fi speeds may vary; actual and average speed may be slower and depends on multiple factors. Performance details are at [frontier.com/internetdisclosures](https://frontier.com/internetdisclosures).

### PAYING YOUR BILL

You are responsible for all legitimate, undisputed charges on your bill. Paying by check authorizes Frontier to make a one-time electronic funds transfer from your account, as early as the day your check is received. When making an online payment, please allow time for the transfer of funds. If funds are received after the due date, you may be charged a fee, your service may be interrupted, and you may incur a reconnection charge to restore service. A fee may be charged for a bank returned check. Continued nonpayment of undisputed charges (incl. 900 and long distance charges) may result in collection action and a referral to credit reporting agencies, which may affect your credit rating.

### IMPORTANT MESSAGES

You must pay all basic local service charges to avoid basic service disconnection. Failure to pay other charges will not cause disconnection of your basic service but this may cause other services to be terminated. Frontier Bundles may include charges for both basic and other services. Frontier periodically audits its bills to ensure accuracy which may result in a retroactive or future billing adjustment. Internet speed, if noted, is the maximum wired connection speed for selected tier; Wi-Fi speeds may vary; actual and average speed may be slower and depends on multiple factors. Performance details are at [frontier.com/internetdisclosures](https://frontier.com/internetdisclosures).

### SERVICE TERMS

Frontier's Terms include a binding arbitration provision to resolve customer disputes ([frontier.com/terms/arbitration](https://frontier.com/terms/arbitration)). **Video and Internet services are subscription-based and are billed one full month in advance. Video and/or Internet service subscription cancellations and any early termination fees are effective on the last day of your Frontier billing cycle. ## Important Rate information for Commercial and Industrial Customers

**Beginning in January 2026, updated rates will take effect based on the Florida Public Service Commission's December 2024 approval.** This adjustment supports investments that strengthen reliability, harden the grid and expand fuel-saving energy sources – improvements designed to build a stronger, more efficient energy system and help lower customer costs over time.

**The fuel charge will also be adjusted in January to reflect actual costs from 2025 and projected expenses for 2026.** The cost of fuel is passed directly to customers with no markup or profit to Tampa Electric.

**The temporary storm surcharge ends in August 2026, so your bills will be lower in September through December 2026.**

This storm surcharge pays for restoration following the historic and destructive 2024 hurricane season. To lessen the impact on customers, the surcharge was spread over 18 months (March 2025-August 2026).

**Commercial and industrial customers will see increases between 2% and 10% depending on usage. Refer to the table for rates that begin January 2026.**

## Important Rate information for Commercial and Industrial Customers

**Beginning in January 2026, updated rates will take effect based on the Florida Public Service Commission's December 2024 approval.** This adjustment supports investments that strengthen reliability, harden the grid and expand fuel-saving energy sources – improvements designed to build a stronger, more efficient energy system and help lower customer costs over time.

**The fuel charge will also be adjusted in January to reflect actual costs from 2025 and projected expenses for 2026.** The cost of fuel is passed directly to customers with no markup or profit to Tampa Electric.

**The temporary storm surcharge ends in August 2026, so your bills will be lower in September through December 2026.**

This storm surcharge pays for restoration following the historic and destructive 2024 hurricane season. To lessen the impact on customers, the surcharge was spread over 18 months (March 2025-August 2026).

**Commercial and industrial customers will see increases between 2% and 10% depending on usage. Refer to the table for rates that begin January 2026.**

## MEMORANDUM

**To:** Golden Lakes Community Development District Board of Supervisors

**From:** Steven C. Shealey, PE, District Engineer

**Re:** February 2026 Engineer's Report

**Date:** January 23, 2025

The following is an update on ongoing activities and issues related to the District since your last meeting in October.

1. **Outfall Structure and Skimmer Repairs:** We completed the bid documents to get quotes to repair the Pond 100 outfall structure on hole 13 to include replacing the skimmer and applying an epoxy sealer to extend the life on the concrete structure as requested by the Chairman in July. We also included a bid alternate to complete the same repairs on the Pond. The bid specifications were provided to three contractors that expressed an interest in performing this work. Bids were due back on January 20 but we extended the bid date to January 27 because the bidders were having issues getting quotes from their suppliers.

We hope to have the quotes for the February meeting.

2. On September 24, we received an email from Ryan Roberts advising that the skimmer on the Pond A2 outfall structure was broken. We requested quotes from AAA and Garner to install the new skimmer. As of December 31, 2025 we received one quote (from AAA) in the amount of \$5,590.21. We have been unable to get another quote. We requested Board approval to award this work to AAA. At the time of this report the skimmer had been fabricated and was scheduled for installation by early February.
3. At the last meeting we were asked to look at how a crosswalk and new stop signs might be laid out at the intersection of Eagle Ridge Boulevard and Eagle Ridge Loop. After doing some research, we have determined that this area will work for the crosswalk, but we will need to add ADA compliant ramps on each end which will add a bit to the cost. Also attached is the request for quotes that we have prepared and sent out to obtain proposals for this work along with a drawing on how this would work. We are still working to get quotes on this work.
4. Broken Curb Inlet Repairs: The District Manager has asked us to revisit this issue that was tabled by the Board in April of 2025. We reviewed curb inlet designs from several State transportation departments and looked at several local instances of cities in Polk County armoring damaged curb inlets. We identified one realistic option as shown in the photos below.

This option would add a steel top plate and face to the damaged inlets to help prevent future damage. We asked AAA Top Quality Asphalt to get us an estimated budget to fabricate and install one of these armor plates and that cost was \$6,360. This cost includes fabrication and installation, and it would take a

January 23, 2026

minimum of two weeks to fabricate the plate for each structure. We had budget priced 4 options for this work as follows but expect that they might be slightly more expensive now:

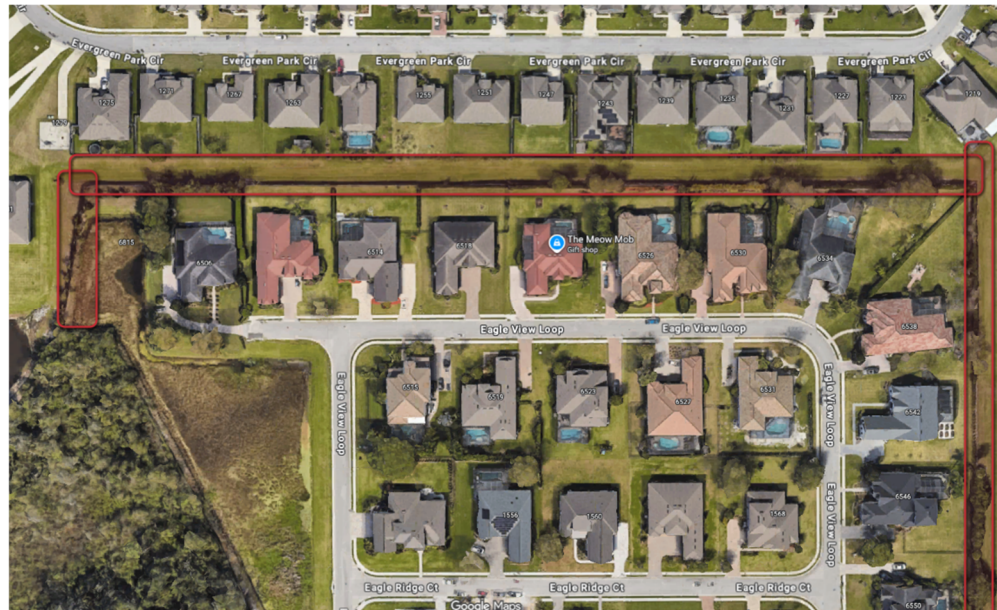

Curb Inlet Repair Options	
Repair	Cost per Structure
Remove broken concrete, cut off rebar and epoxy coat to prevent rust damage	\$1400 each
Remove broken concrete, reform and repour concrete to original shape.	\$2,000 each
Remove broken concrete, reform and repour concrete to original shape, add steel armor plate	\$6,360 each
Replace broken inlet top	\$8,000 each

- Overgrown Drainage Area: On January 12, the Board Chair emailed a question about the overgrown drainage area that receives the discharge from Pond A3. There is a privacy fence along the north side of Eagle Ridge Boulevard, and this drainage area is north of that privacy fence. This drainage ditch existed prior to the development of Eaglebrooke North and transmits offsite flows through the original Eaglebrooke development. We had our survey staff locate the property line and most of the drainage ditch and overgrowth is outside of the CDD's property.

There is a 30' dedicated drainage and utility easement covering the overgrown area that was dedicated for public use on the plat for the adjacent development. We have asked Scott Clark to provide an opinion on this easement as to whether the CDD could use it to maintain that area.

6. Preserves Fence Trees: On January 14, the Board Chair emailed asking if the CDD had the authority/access to remove trees from the fence between the Preserves and Hallam Preserve. This fence is on the south side of a drainage easement owned by the Hallam Preserves HOA. My initial response was no but I do have contacts with the Hallam Preserves HOA. I reached out to their Manager and asked if the CDD could access that easement to remove the trees. His response was that he doubted it would be permitted but that he would bring it up at their next Board meeting. He did say (and I agree) that any homeowner in Eaglebrooke has the right to remove that portion of any tree on their side of the property line.
