REPORT OF INDEPENDENT AUDITORS

To the Board of Supervisors
South Fork Community Development District
Hillsborough County, Florida

Report on Audit of the Financial Statements

Opinion

We have audited the financial statements of the governmental activities and each major fund of South Fork Community Development District (the "District"), as of and for the year ended September 30, 2025, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2025, and the respective changes in financial position and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS), and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

To the Board of Supervisors
South Fork Community Development District

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts, and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis be presented to supplement the basic financial statements.

To the Board of Supervisors
South Fork Community Development District

Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the *Governmental Accounting Standards Board* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the financial report. The other information comprises the information for compliance with Florida Statutes 218.39(3)(c) but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated June 22, 2026 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations and contracts and grant agreements and other matters.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**South Fork Community Development District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2025**

Management's discussion and analysis of South Fork Community Development District's (the "District") financial performance provides an objective and easily readable analysis of the District's financial activities. The analysis provides summary financial information for the District and should be read in conjunction with the District's financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

The District's basic financial statements comprise three components; 1) *Government-wide financial statements*, 2) *Fund financial statements*, and 3) *Notes to financial statements*. The *Government-wide financial statements* present an overall picture of the District's financial position and results of operations. The *Fund financial statements* present financial information for the District's major funds. The *Notes to financial statements* provide additional information concerning the District's finances.

The *Government-wide financial statements* are the **statement of net position** and the **statement of activities**. These statements use accounting methods similar to those used by private-sector companies. Emphasis is placed on the net position of governmental activities and the change in net position. Governmental activities are primarily supported by special assessments.

The **statement of net position** presents information on all assets and liabilities of the District, with the difference between assets and liabilities reported as net position. Net position is reported in three categories; 1) net investment in capital assets, 2) restricted, and 3) unrestricted. Assets, liabilities, and net position are reported for all Governmental activities.

The **statement of activities** presents information on all revenues and expenses of the District and the change in net position. Expenses are reported by major function, and program revenues relating to those functions are reported, providing the net cost of all functions provided by the District. To assist in understanding the District's operations, expenses have been reported as governmental activities. Governmental activities financed by the District include general government, physical environment and debt service.

Fund financial statements present financial information for governmental funds. These statements provide financial information for the major funds of the District. Governmental fund financial statements provide information on the current assets and liabilities of the funds, changes in current financial resources (revenues and expenditures), and current available resources.

**South Fork Community Development District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2025**

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Fund financial statements include a **balance sheet** and a **statement of revenues, expenditures and changes in fund balances** for all governmental funds. A **statement of revenues, expenditures, and changes in fund balances – budget and actual** is provided for the District's General Fund. *Fund financial statements* provide more detailed information about the District's activities. Individual funds are established by the District to track revenues that are restricted to certain uses or to comply with legal requirements.

The *government-wide financial statements* and the *fund financial statements* provide different pictures of the District. The *government-wide financial statements* provide an overall picture of the District's financial standing. These statements are comparable to private-sector companies and give a good understanding of the District's overall financial health and how the District paid for the various activities, or functions, provided by the District. All assets of the District, including improvements and infrastructure are reported in the **statement of net position**. All liabilities, including principal outstanding on bonds are included. The **statement of activities** includes depreciation on all long lived assets of the District, but transactions between the different functions of the District have been eliminated in order to avoid "doubling up" the revenues and expenses. The *fund financial statements* provide a picture of the major funds of the District. In the case of governmental activities, outlays for long lived assets are reported as expenditures and long-term liabilities, such as special assessment bonds, are not included in the fund financial statements. To provide a link from the *fund financial statements* to the *government-wide financial statements*, a reconciliation is provided from the *fund financial statements* to the *government-wide financial statements*.

Notes to financial statements provide additional detail concerning the financial activities and financial balances of the District. Additional information about the accounting practices of the District, investments of the District, capital assets and long-term debt are some of the items included in the *notes to financial statements*.

Financial Highlights

The following are the highlights of financial activity for the year ended September 30, 2025.

- ◆ The District's total assets and deferred outflows of resources exceeded total liabilities by \$289,839 (net position). Unrestricted net position for Governmental Activities was \$452,558. Governmental Activities restricted net position was \$296,944 and net investment in capital assets was \$(459,663).
- ◆ Governmental activities revenues totaled \$847,866 while governmental activities expenses totaled \$579,737.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Financial Analysis of the District

The following schedule provides a summary of the assets, deferred outflows of resources, liabilities and net position of the District and is presented by category for comparison purposes.

Net Position

	Governmental Activities	
	2025	2024
Current assets	\$ 468,127	\$ 258,135
Restricted assets	406,822	374,776
Capital assets, net	1,585,402	1,760,196
Total Assets	2,460,351	2,393,107
Deferred outflow of resources	54,994	61,546
Current liabilities	255,506	257,943
Non-current liabilities	1,970,000	2,175,000
Total Liabilities	2,225,506	2,432,943
Net investment in capital assets	(459,663)	(478,298)
Net position - restricted	296,944	261,883
Net position - unrestricted	452,558	238,125
Total Net Position	\$ 289,839	\$ 21,710

The increase in current and restricted assets is related to revenues exceeding expenditures at the fund level in the current year.

The decrease in capital assets was due to depreciation in the current year.

The decrease in non-current liabilities is the result of principal payments on long-term debt during the current year.

Net Position - End of Year	<u><u>\$ 289,839</u></u>	<u><u>\$ 21,710</u></u>

The decrease in physical environment is primarily due to the decrease in depreciation in the current year.

The decrease in interest and other charges is related to the decrease in outstanding long-term debt in the current year.

The activity for the year consisted of depreciation of \$174,794.

General Fund Budgetary Highlights

The budget exceeded actual governmental expenditures primarily due to less renewal and replacement costs and pond reserve expenditures than were anticipated.

The September 30, 2025 budget was not amended.

Debt Management

Governmental Activities debt includes the following:

- ◆ On October 1, 2015, the District issued \$3,870,000 Series 2015 Special Assessment Refunding Bonds. These bonds were issued to refund and redeem the outstanding Series 2003, 2004 A-1, and 2004 A-2 Bonds. The District issued Series 2015 A-1, A-2, and A-3 Bonds for \$1,930,000, \$415,000, and \$1,525,000, respectively. The balance outstanding at September 30, 2025 was \$2,175,000.

Economic Factors and Next Year's Budget

South Fork Community Development District does not expect any economic factors to have any significant effect on the financial position or results of operations of the District in fiscal year 2026.

Net Change in Fund Balances - Total Governmental Funds \$ 246,068

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the costs of those assets is allocated over their estimated useful lives as depreciation. This is the amount of depreciation in the current year. (174,794)

Repayment of bond principal is an expenditure at the fund level, but the repayment reduces long-term liabilities in the Statement of Net Position. 200,000

The deferred outflow of resources for refunding of debt is recognized as a component of interest expense in the Statement of Activities, but not at the fund level. This is the amount of current year interest. (6,552)

In the Statement of Activities, interest is accrued on outstanding bonds; whereas at the fund level, interest expenditures are reported when due. This is the net amount between the prior year and the current year accruals. 3,407

South Fork Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2025

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of South Fork Community Development District (the "District") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's more significant accounting policies are described below.

1. Reporting Entity

The District was established on July 29, 2003, by Hillsborough County Ordinance 03-19 and the provisions of the Uniform Community Development District Act of 1980, Chapter 190, Florida Statutes, as amended (the "Act"), as a Community Development District. The District was established for the purposes of financing and managing the acquisition, construction, maintenance and operation of the infrastructure necessary for community development within its jurisdiction. The District is authorized to issue bonds for the purpose, among others, of financing, funding, planning, establishing, acquiring, constructing or re-constructing, enlarging or extending, equipping, operating and maintaining water management, water supply, sewer and waste water management, bridges or culverts, district roads, landscaping, street lights and other basic infrastructure projects within or outside the boundaries of the South Fork Community Development District. The District is governed by a five-member Board of Supervisors, who are elected for terms of four years. The District operates within the criteria established by Chapter 190, Florida Statutes.

The reporting entity for the District includes all functions of government in which the District's Board exercises oversight responsibility. Oversight responsibility includes, but is not limited to, financial interdependency, selection of governing authority, designation of management, significant ability to influence operations and accountability for fiscal matters. As required by GAAP, these financial statements present the South Fork Community Development District (the primary government) as a stand-alone government.

Based upon the application of the above-mentioned criteria as set forth in principles established by the Governmental Accounting Standards Board, the District has identified no component units.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting

The basic financial statements of the District are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

a. Government-wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Government-wide financial statements report all non-fiduciary information about the reporting government as a whole. These statements include the governmental activities of the primary government. The effect of interfund activity has been removed from these statements.

Governmental activities, which normally are supported by special assessments and interest, are reported separately from business-type activities. Program revenues include charges for services, and payments made by parties outside of the reporting government's citizenry if that money is restricted to a particular program. Program revenues are netted with program expenses in the statement of activities to present the net cost of each program.

Amounts paid to acquire capital assets are capitalized as assets, rather than reported as an expenditure. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as an other financing source.

Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure.

b. Fund Financial Statements

The underlying accounting system of the District is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the primary government's governmental funds are presented after the government-wide financial statements. These statements display information about major funds individually.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

b. Fund Financial Statements (Continued)

Governmental Funds

The District classifies fund balance in accordance with Governmental Accounting Standards Board Statement 54 – Fund Balance Reporting and Governmental Fund Type Definitions. The Statement requires the fund balance for governmental funds to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

The District has various policies governing the fund balance classifications.

Nonspendable Fund Balance – This classification consists of amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact.

Restricted Fund Balance – This classification includes amounts that can be spent only for specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

Assigned Fund Balance – This classification consists of the Board of Supervisors' intent to be used for specific purposes but are neither restricted nor committed.

Unassigned Fund Balance – This classification is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications. Unassigned fund balance is considered to be utilized first when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Fund Balance Spending Hierarchy – For all governmental funds except special revenue funds, when restricted, committed, assigned, and unassigned fund balances are combined in a fund, qualified expenditures are paid first from restricted or committed fund balance, as appropriate, then assigned and finally unassigned fund balances.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are considered to be available when they are collected within the current period, or soon thereafter, to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

South Fork Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2025

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

b. Fund Financial Statements (Continued)

Governmental Funds (Continued)

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Interest associated with the current fiscal period is considered to be an accrual item and so has been recognized as revenue of the current fiscal period.

Under the current financial resources measurement focus, only current assets and current liabilities are generally included on the balance sheet. The reported fund balance is considered to be a measure of “available spendable resources.” Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources were expended, rather than as fund assets. The proceeds of long-term debt are recorded as an other financing source rather than as a fund liability.

Debt service expenditures are recorded only when payment is due.

3. Basis of Presentation

a. Governmental Major Funds

General Fund – The General Fund is the District’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Debt Service Fund – The Debt Service Fund accounts for debt service requirements to retire certain special assessment bonds which were used to finance the construction of District infrastructure improvements and finance certain additional improvements. The bond series is secured by a pledge of debt service special assessment revenues in any fiscal year related to the improvements. A lien is placed on all benefited land in relationship to the debt outstanding.

NOTES TO FINANCIAL STATEMENTS
September 30, 2025

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3. Basis of Presentation (Continued)

b. Non-current Governmental Assets/Liabilities

GASB Statement 34 requires that non-current governmental assets, such as capital assets, and non-current governmental liabilities, such as special assessment bonds, be reported in the governmental activities column in the government-wide statement of net position.

4. Assets, Deferred Outflows of Resources, Liabilities and Net Position or Equity

a. Cash and Investments

Florida Statutes require state and local governmental units to deposit monies with financial institutions classified as "Qualified Public Depositories," a multiple financial institution pool whereby groups of securities pledged by the various financial institutions provide common collateral from their deposits of public funds. This pool is provided as additional insurance to the federal depository insurance and allows for additional assessments against the member institutions, providing full insurance for public deposits.

The District is authorized to invest in those financial instruments as established by Section 218.415, Florida Statutes. The authorized investments consist of:

1. Direct obligations of the United States Treasury;
2. The Local Government Surplus Funds Trust or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperative Act of 1969;
3. Interest-bearing time deposits or savings accounts in authorized qualified public depositories;
4. Securities and Exchange Commission, registered money market funds with the highest credit quality rating from a nationally recognized rating agency.

Cash equivalents include time deposits and certificates of deposit with original maturities of three months or less and held in a qualified public depository as defined by Section 280.02, Florida Statutes.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

**4. Assets, Deferred Outflows of Resources, Liabilities and Net Position or Equity
(Continued)**

b. Restricted Assets

Certain net position of the District is classified as restricted assets on the statement of net position because their use is limited either by law through constitutional provisions or enabling legislation; or by restrictions imposed externally by creditors. In a fund with both restricted and unrestricted assets, qualified expenses are considered to be paid first from restricted net position and then from unrestricted net position.

c. Capital Assets

Capital assets, which include infrastructure and improvements other than buildings, are reported in the applicable governmental activities column.

The District defines capital assets as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. The valuation basis for all assets is historical cost.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation of capital assets is computed and recorded by utilizing the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows:

Infrastructure	20-30 years
Improvements	15-20 years

d. Deferred Outflow of Resources

Deferred outflow of resources is the consumption of net position by the government that is applicable to a future reported period. Deferred amount on refunding is amortized and recognized as a component of interest expense over the life of the bond.

**South Fork Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2025**

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4. Assets, Deferred Outflows of Resources, Liabilities and Net Position or Equity (Continued)

e. Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the financial statement date and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

f. Budgets

Budgets are prepared and adopted after a public hearing for the governmental funds, pursuant to Chapter 190, Florida Statutes. The District utilizes the same basis of accounting for budgets as it does for revenues and expenditures in its various funds. The legal level of budgetary control is at the fund level. All budgeted appropriations lapse at year end. Formal budgets are adopted for the general and debt service funds. As a result, deficits in the budget variance columns of the accompanying financial statements may occur.

NOTE B – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

“Total fund balances” of the District’s governmental funds, \$861,499, differs from “net position” of governmental activities, \$289,839, reported in the Statement of Net Position. This difference primarily results from the long-term economic focus of the Statement of Net Position versus the current financial resources focus of the governmental fund balance.

Capital related items

When capital assets (property, plant and equipment that are to be used in governmental activities) are purchased or constructed, the cost of those assets is reported as expenditures at the fund level. However, the Statement of Net Position included those capital assets among the assets of the District as a whole.

NOTE B – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONTINUED)

1. Explanation of Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position (Continued)

Long-term debt transactions

Long-term liabilities applicable to the District’s governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities (both current and long-term) are reported in the Statement of Net Position. Balances at September 30, 2025 were:

Bonds payable	<u>\$ (2,175,000)</u>
---------------	-----------------------

Deferred outflow of resources

Deferred outflow of resources applicable to the District’s governmental activities are not current financial resources and therefore, are not reported as fund deferred outflow of resources.

Deferred amount on refunding	<u>\$ 54,994</u>
------------------------------	------------------

Accrued interest

Accrued liabilities in the Statement of Net Position differ from the amount reported at the fund level due to accrued interest on bonds.

Accrued interest on bonds payable	<u>\$ (37,056)</u>
-----------------------------------	--------------------

2. Explanation of Differences Between the Governmental Fund Operating Statements and the Statement of Activities

The “net change in fund balances” for government funds, \$246,068, differs from the “change in net position” for governmental activities, \$268,129, reported in the Statement of Activities. The differences arise primarily from the long-term economic focus of the Statement of Activities versus the current financial resources focus of the governmental funds. The effect of the differences is illustrated below.

**South Fork Community Development District
 NOTES TO FINANCIAL STATEMENTS
 September 30, 2025**

NOTE B – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONTINUED)

2. Explanation of Differences Between the Governmental Fund Operating Statements and the Statement of Activities (Continued)

Capital related items

When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures at the fund level. However, in the Statement of Activities, the costs of those assets is allocated over their estimated useful lives and reported as depreciation. As a result, fund balances decrease by the amount of financial resources expended, whereas net position decreases by the amount of depreciation charged for the year.

Depreciation	\$ <u>(174,794)</u>
--------------	---------------------

Long-term debt transactions

Repayments of bond principal are reported as an expenditure at the fund level and, thus, have the effect of reducing fund balance because current financial resources have been used.

Debt principal payments	\$ <u>200,000</u>
-------------------------	-------------------

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures at the fund level.

Net change in accrued interest payable	\$ 3,407
Decrease in deferred amount on refunding	<u>(6,552)</u>
Total	<u>\$ (3,145)</u>

NOTE C – CASH AND INVESTMENTS

All deposits are held in qualified public depositories and are included on the accompanying balance sheet as cash and investments.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk; however, they follow the provisions of Chapter 280, Florida Statutes regarding deposits and investments. As of September 30, 2025, the District's bank balance was \$442,150 and the carrying value was \$441,991. Exposure to custodial credit risk was as follows. The District maintains all deposits and certificates of deposit in a qualified public depository in accordance with the provisions of Chapter 280, Florida Statutes, which means that all deposits are fully insured by the Federal Deposit Insurance Corporation or collateralized under Chapter 280, Florida Statutes.

**South Fork Community Development District
NOTES TO FINANCIAL STATEMENTS

NOTE C – CASH AND INVESTMENTS (CONTINUED)

Investments

As of September 30, 2025, the District had the following investments and maturities:

<u>Investment</u>	<u>Maturity Date</u>	<u>Fair Value</u>
First American Government Obligations Fund	45 days*	<u>\$ 406,822</u>

*Maturity is a weighted average maturity.

The District categorizes its fair value measurements within the fair value hierarchy recently established by generally accepted accounting principles. The fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The District uses a market approach in measuring fair value that uses prices and other relevant information generated by market transactions involving identical or similar assets, liabilities, or groups of assets and liabilities.

Assets or liabilities are classified into one of three levels. Level 1 is the most reliable and is based on quoted price for identical assets, or liabilities, in an active market. Level 2 uses significant other observable inputs when obtaining quoted prices for identical or similar assets, or liabilities, in markets that are not active. Level 3 is the least reliable and uses significant unobservable inputs that use the best information available under the circumstances, which includes the District's own data in measuring unobservable inputs.

Based on the criteria in the preceding paragraph, the First American Government Obligations Fund is a Level 1 asset.

Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The District's investments are limited by state statutory requirements and bond compliance. The District has no investment policy that would further limit its investment choices. As of September 30, 2025, the District's investments in First American Government Obligations Fund were rated AAAM by Standard & Poor's.

South Fork Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2025

NOTE C – CASH AND INVESTMENTS (CONTINUED)

Concentration of Credit Risk

The District places no limit on the amount it may invest in any one fund. The investment in First American Government Obligations Fund is 100% of the District’s total investments.

The types of deposits and investments and their level of risk exposure as of September 30, 2025 were typical of these items during the fiscal year then ended. The District considers any decline in fair value for certain investments to be temporary.

NOTE D – SPECIAL ASSESSMENT REVENUES

Special assessment revenues recognized for the 2024-2025 fiscal year were levied in August 2024. All taxes are due and payable on November 1 or as soon as the assessment roll is certified and delivered to the Tax Collector. Per Section 197.162, Florida Statutes discounts are allowed for early payment at the rate of 4% in November, 3% in December, 2% in January, and 1% in February. Taxes paid in March are without discount.

All unpaid taxes become delinquent as of April 1. Virtually all unpaid taxes are collected via the sale of tax certificates on, or prior to, June 1; therefore, there were no material taxes receivable at fiscal year end.

NOTE E – CAPITAL ASSETS

Summary of Significant Bonds Resolution Terms and Covenants

The District levies special assessments pursuant to Section 190.022, Florida Statutes and the assessment rolls are approved by resolutions of the District Board. The collections are to be strictly accounted for and applied to the debt service of the bond series for which they were levied. The District covenants to levy special assessments in annual amounts adequate to provide for payment of principal and interest on the bonds. However, payment of principal and interest is dependent on the money available in the debt service fund and the District's ability to collect special assessments levied.

NOTE F – LONG-TERM DEBT (CONTINUED)

Special Assessment Debt with Governmental Commitment (Continued)

The bonds are subject to extraordinary mandatory redemption prior to maturity, in whole on any date, or in part on an interest payment date, without premium, together with accrued interest to the redemption date if monies are available to retire the debt in accordance with the provisions of the indenture.

The bond resolution and the trust indenture provide for the establishment of certain accounts and an order in which revenues are to be deposited into these accounts. The accounts include a construction, revenue, redemption, reserve, interest and prepayment account and are maintained by a trustee.

The bond indenture provides for Debt Service Reserve Funds, which shall be held by the Trustee separate and apart from all other funds. The following is a schedule of reserve requirements and balances in the reserve accounts at September 30, 2025:

	Reserve Balance	Reserve Requirement
Series 2015 A-1	\$ 38,408	\$ 38,254
Series 2015 A-2	\$ 8,507	\$ 8,302
Series 2015 A-3	\$ 28,424	\$ 28,385

The Series 2015 bonds were issued to refund the outstanding Series 2003, 2004 A-1, and 2004 A-2 Special Assessment Bonds. The Series 2015 Bonds bear an interest rate of 4% with the Series 2015 A-1 of \$1,930,000 due from November 1, 2015 to May 1, 2033, the Series 2015 A-2 of \$415,000 due from November 1, 2015 to May 1, 2034, and the Series 2015 A-3 of \$1,525,000 due from November 1, 2015 to May 1, 2035.

NOTE G – RISK MANAGEMENT

The government is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance. These risks are covered by commercial insurance from independent third parties. There were no claims or settled claims from these risks that have exceeded commercial coverage for each of the past three years.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Supervisors
South Fork Community Development District
Hillsborough County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements, as listed in the table of contents, of South Fork Community Development District, as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the basic financial statements and have issued our report thereon dated June 22, 2026.

Report on Internal Control Over Financial Reporting

In planning and performing our audit, we considered South Fork Community Development District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of South Fork Community Development District's internal control. Accordingly, we do not express an opinion on the effectiveness of South Fork Community Development District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

To the Board of Supervisors
South Fork Community Development District

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether South Fork Community Development District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

To the Board of Supervisors
South Fork Community Development District
Hillsborough County, Florida

Report on the Financial Statements

We have audited the financial statements of South Fork Community Development District as of and for the year ended September 30, 2025, and have issued our report thereon dated June 22, 2026.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Florida Auditor General.

Other Reports and Schedule

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* and our Independent Auditor's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated June 22, 2026, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been made to address findings and recommendations made in the preceding financial audit report. There were no findings or recommendations in the preceding financial audit report.

To the Board of Supervisors
South Fork Community Development District

Financial Condition and Management

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, requires us to apply appropriate procedures and communicate the results of our determination as to whether or not South Fork Community Development District met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that South Fork Community Development District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for South Fork Community Development District. It is management's responsibility to monitor South Fork Community Development District's financial condition; and our financial condition assessment was based in part on the representations made by management and the review of the financial information provided by the same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Specific Information

The information below was provided by management and has not been audited by us; therefore, we do not express an opinion or provide any assurance on the information.

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)7, Rules of the Auditor General, South Fork Community Development District reported:

- 1) The total number of District employees compensated in the last pay period of the District's fiscal year as: 0

**INDEPENDENT ACCOUNTANTS' REPORT/COMPLIANCE
WITH SECTION 218.415, FLORIDA STATUTES**

To the Board of Supervisors
South Fork Community Development District
Hillsborough County, Florida

We have examined South Fork Community Development District's compliance with Section 218.415, Florida Statutes during the year ended September 30, 2025. Management is responsible for South Fork Community Development District's compliance with those requirements. Our responsibility is to express an opinion on South Fork Community Development District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about South Fork Community Development District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on South Fork Community Development District's compliance with the specified requirements.

In our opinion, South Fork Community Development District complied, in all material respects, with the aforementioned requirements during the year ended September 30, 2025.

SOUTH FORK CDD
ENGINEER’S REPORT FOR JULY 2026 BOS MEETING

Ongoing Projects Report and Updates:

3 Way Stop at Ambleside Blvd and Summerfield – Email communication from County

My name is John Merine, and I am a Traffic Engineer with Hillsborough County BOCC. We received your request regarding a marked crosswalk at the intersection of Ambleside Boulevard and Golden Silence Drive. A crosswalk analysis was conducted for this location. While the intersection does not meet the minimum criteria for the installation of a new marked crosswalk and Rectangular Rapid Flashing Beacon (RRFB) due to low pedestrian volumes, several factors support consideration of pedestrian safety improvements. Over the past five years, there have been five crashes at the intersection, including one fatal crash and one bicycle-related crash. Additionally, there have been eleven (11) crashes along the Ambleside Boulevard corridor in the immediate vicinity of the intersection.

Based on the crash history, the lack of existing pedestrian crossing opportunities along Ambleside Boulevard, documented speeding concerns, and the presence of an elementary school bus stop, staff recommends the installation of a marked crosswalk with RRFB at this location.

Additionally, the intersection of Ambleside Boulevard and Summerfield Drive is scheduled to be converted to all-way stop control. These improvements are anticipated to be implemented by the end of the fiscal year. If you have any questions, please feel free to contact me. A copy of the crosswalk analysis is attached for your reference.

In addition, at the end of this report is the Hillsborough County traffic report related to this email communication.

Golden Silence Tree Trimming –

Based on plat documents and property appraiser information, South Fork CDD is responsible for a 10ft landscape buffer easement along Ambleside. This easement runs from the back side of the sidewalk towards the residential lots. The county owns and maintains all of the road and ROW of Golden Silence Drive. The ROW is defined from the back of sidewalk to back of sidewalk. Back of sidewalk means that portion of the sidewalk adjacent to the residential lots. Plat documents provided.

Pond Bank Restoration and Stabilization Project –

The next pond on the list for pond bank restoration and stabilization work is pond 3 or pond 8. The work to be completed is the bank along the residential properties and wrapping around corners were deemed appropriate. The recommended pond with approximate cost to come under separate cover.

Recommend district update the pond project priority list to reflect current conditions and costs.

Executive Summary

Bala Consulting Services, LLC (BCS) conducted a Rectangular Rapidly Flashing Beacon (RRFB) and crosswalk evaluation study at the intersection of Ambleside Blvd and Golden Silence Dr located at the main entrance to the South Fork Subdivision located in Riverview, Hillsborough County, Florida.

The purpose of this study is to determine if an RRFB and crosswalk should be installed at this intersection to facilitate pedestrian traffic flow across Ambleside Blvd at Golden Silence Dr where the two sides of the South Fork Subdivision are connected.

Based on the results of the analysis, field observations by a registered professional engineer, and engineering judgement, the following recommendation was developed.

While this intersection does not meet the minimum criteria for installing a new marked crosswalk and RRFB due to the lack of pedestrian volumes, there have been five intersection crashes including a fatality and a bicycle crash. Additionally, there have been eleven (11) crashes along the corridor in the nearby vicinity. Based on the crash data, lack of crossings along Ambleside Blvd, the consistent speeding, and the presence of an elementary school bus stop, a marked crosswalk with RRFB should be considered.

1. Introduction

This report summarizes the traffic study prepared for the intersection of Ambleside Blvd and Golden Silence Dr. New crosswalk evaluation criteria was evaluated as specified in the FDOT TEM (Traffic Engineering Manual, 2024) with guidance from the Manual on Uniform Traffic Control Devices (MUTCD, Federal Highway Administration, 2023) for installation of an RRFB in consideration of the existing traffic conditions at the study intersection. Section 5.2.5.2 of the TEM provides several criteria for installation of an RRFB, including the presence of a marked special emphasis crosswalk. Additionally, Section 4L.01 of the MUTCD states that RRFB's are to be used to provide supplemental emphasis to pedestrian, school, and trail warning signs at marked crosswalks across uncontrolled approaches. Since the existing conditions did not include a marked crosswalk at the subject intersection, evaluation of the outlined criteria provided in Section 5.2.4 and 5.2.5 of the TEM were adhered to in developing recommendations as to the validity of installing a special emphasis marked crosswalk and RRFB at the subject location.

Figure 1: Site Location Map

2. Existing Conditions

The intersection of Ambleside Blvd and Golden Silence Dr is in Riverview, Hillsborough County, Florida, within the South Fork Subdivision. Ambleside Blvd is accessed via US 301 on the eastern end and connects approximately 3 miles to the east at Pradera Reserve Blvd. The intersection of Golden Silence Dr and Ambleside Blvd connects to the community pool and amenities on the north leg. There is also an Elementary School Bus Stop at the subject intersection for Summerfield Crossings Elementary School. **Figure 1** shows the site location map. Approach photos are shown in **Figures 2 thru 5**. The Elementary School bus stop map is shown in **Figure 6**.

Ambleside Blvd is a 4-lane divided residential arterial collector roadway from US 301 to Galway Sand Rd and then transitions to a 2-lane undivided road to its eastern limit at Pradera Reserve Blvd with a posted speed limit of 35 MPH throughout. Ambleside Blvd has a context classification of Suburban Residential (C3R). Twelve-hour Pedestrian Counts for 3 days on Weds April 10th, Thurs the 11th, and Sat the 13th of 2024 show an average of approximately 1.5 to 2 pedestrians crossing per hour during that time frame. It can be estimated that Ambleside Blvd has more than 2,000 vehicles per day on its busiest days. The only locations to cross Ambleside Blvd are at the signalized intersection at US 301, the 4-way stop at Clement Pride Blvd, and at the 4-way stop at Pradera Reserve Blvd. There is a 5' sidewalk along both sides of the road, and bike lanes throughout on both sides of the roadway.

Golden Silence Dr is a County maintained two-lane minor residential roadway connecting a section of the South Fork subdivision across Ambleside Blvd, stretching approximately ½ a mile total. The posted speed limit is 25 MPH. Golden Silence Dr has one lane for left, through, and right turning movements on the south approach controlled by a STOP sign. The north leg connects to one of the community pools within the South Fork Subdivision. The Stop bars and stop signs are in decent condition. There are no crosswalk markings at any approach, nor are there any bike lanes on Golden Silence Dr. There is an existing sidewalk on both sides of the road along Golden Silence Dr.

Future Conditions:

A review of the Hillsborough County Capital Improvement Program does not indicate any upcoming projects near the subject intersection.

Pedestrian Volumes:

Twelve-hour pedestrian counts for this intersection were collected from 7 AM to 7 PM on Wednesday, Thursday, and Saturday April 10th, 11th, and 13th, 2024, respectively. The pedestrian volumes were used to evaluate if a new marked crosswalk, RRFB, or other traffic control measures are needed to improve pedestrian mobility and safety. The pedestrian and bicycle volumes for the three days of 12-hour pedestrian counts are shown below in **Table 1**.

Table 1: Twelve Hour Pedestrian Volumes

The pedestrian volume data is provided in **Appendix A**. Pedestrian volumes crossing Ambleside Blvd were highest during 4:00 – 5:00 PM on Saturday, 4/13/2024, with ten (10) crossing across Ambleside Blvd. The highest weekday pedestrian volumes occurred on Wednesday, 4/10/2024, between 11:00 AM and noon, with six (6) pedestrian crossings across Ambleside Blvd. Overall, the total volumes were low, averaging between 1.0 and 2.3 pedestrians or bicyclists per hour.

Corridor Speeds:

Corridor speed data was collected on Ambleside Blvd at two locations: one was west of Golden Silence Dr, the other was west of Summerfield Blvd. Both sites had speed data collected on Thursday, April 9th, 2026, and on Saturday, April 11th, 2026.

The 50% speeds ranged from 37 to 40 MPH. 85th percentile speeds ranged from 42 to 46 MPH. 10 MPH Pace ranged from 33 to 44 MPH. Results are summarized below in **Table 2** below.

Overall speeds along Ambleside Blvd were well above the 35 MPH posted speed limit, averaging approximately 39 MPH. Speed Data is included in **Appendix B** of this report.

4. Crash Analysis

Crash data was analyzed for five years from January 2021 – December 2025. Both the Crash Data Management System (CDMS) and Signal 4 Analytics crash data were reviewed to ensure that all crashes were accounted for in the analysis. Crash Analysis was conducted for both the intersection of Ambleside Blvd and Golden Silence Dr, as well as a 0.67-mile-long segment of Ambleside Blvd between Trinity Leaf Place to just west of Summerfield Blvd to assess overall corridor safety.

Intersection Analysis:

There were five (5) crashes at this intersection during the five-year period. There were three (3) left-turn crashes, one (1) bicycle crash, and one (1) rear-end crash. There was one (1) fatal, zero (0) incapacitating, one (1) non-incapacitating crash, one (1) possible, and two (2) property damage only crashes.

The lone fatal crash occurred on Friday, December 20th, 2024, at 6:30 PM when a westbound left turning vehicle turned in front of an eastbound through vehicle resulting in the eastbound vehicle striking the passenger side of the westbound left turning vehicle. The driver of the westbound vehicle making a left turn subsequently passed away at the hospital due to sustained injuries. The lack of seat belt use may have been a contributing factor to the severity of the injuries.

There was one (1) bicycle crash which occurred on Monday, March 6th, 2023, at 12:10 PM when a motorist making a northbound left turn out of Golden Silence Dr crashed into a westbound bicyclist in the eastbound bicycle lane on the south side of Ambleside Blvd. The bicyclist fell to the pavement and suffered non-life-threatening injuries and was later transported to Tampa General Hospital.

There have been zero (0) pedestrian crashes in the last 5 years.

Intersection Crash Analysis is shown in **Table 3**.

Table 3: Intersection Crash Analysis

Corridor Crash Analysis:

Between 2021 and 2025, there were eleven (11) crashes along Ambleside Blvd from Trinity Leaf PI to just west of Summerfield Blvd, excluding the intersection of Golden Silence Dr. Of the eleven (11) corridor crashes, there were six (6) hit fixed object crashes,

four (4) angle and left-turn crashes, and one (1) rear-end crash. There were zero (0) fatal crashes, one (1) incapacitating crash, three (3) non-incapacitating crashes, two (2) possible injury crashes, and five (5) property damage only crashes.

Of the six (6) hit fixed object crashes, four (4) were related to speeding along Ambleside Blvd, and did include the one (1) incapacitating crash which occurred at 8:11 PM on January 13th, 2022 when a speeding vehicle lost control and ran off the road in the vicinity of Trinity Leaf Place.

There were zero (0) pedestrian or bicycle crashes along the corridor in the last 5 years.

Corridor Crash Analysis is shown in **Table 4**.

5. TEM and MUTCD Crosswalk and RRFB Evaluation

To determine whether the study intersection of Ambleside Blvd and Golden Silence Dr meets the criteria for a new crosswalk and RRFB, the FDOT Traffic Engineering Manual (TEM) Sections 5.2.5.1 and 5.2.5.2, and Manual on Uniform Traffic Control Devices (MUTCD) Sections 3C and 4L were reviewed. The TEM provides selection criteria for new marked crosswalks and provides criteria for installation of Rectangular Rapid Flashing Beacons (RRFB). The MUTCD states that RRFBs shall only be installed to function as a warning beacon and shall only be used to supplement a post mounted Pedestrian, School, or Trail Crossing Warning Sign located immediately adjacent to a marked crosswalk. Based on this guidance, evaluation was conducted for a new crosswalk under TEM section 5.2.5.1 and MUTCD Section 3C.02, while noting the requirements needed for installation of an RRFB from TEM Section 5.2.5.2 and MUTCD Section 4L.

TEM Section 5.2.5.1 Selection Criteria for a Marked Crosswalk:

- Proximity to significant generators and attractors: Document pedestrian generators and attractors to illustrate pedestrian routes in relation to any proposed marked crosswalk locations.
- Any midblock or unsignalized intersection under consideration for a marked crosswalk should have either of the following characteristics:
 - A well-defined spatial pattern of pedestrian generators, attractors, and flow (across a roadway) between them; or
 - A well-defined pattern of existing pedestrian crossings.
- Recommended Levels of Pedestrian Demand: The pedestrian volume threshold for a new marked crosswalk is 20 or more pedestrians during a single hour (any four consecutive 15-minute periods) of an average day. Pedestrian volume demand data is not needed for the following conditions:
 - Pedestrian crosswalks within a school zone
 - Pedestrian crosswalks under the following Context Classifications:
 - C2T Rural Town
 - C3C Suburban Commercial
 - C4 Urban General
 - C5 Urban Center
 - C6 Urban Core
- Crosswalks threshold at midblock or unsignalized intersection connecting a shared use path: To promote the use of shared use paths and reduce the occurrence of multiple roadway crossings, crossing locations connecting to a shared use path may use a 50 percent reduction to the recommended pedestrian threshold.
- Minimum Location Characteristics:

- A minimum vehicular volume of 2,000 Average Daily Traffic (ADT) along the roadway segment.
- Minimum distance to nearest alternative intersection or crossing location:
 - The minimum distance to nearest alternative intersection or crossing location is 300 feet.
 - A proposed crossing location that falls between 100 and 300 feet from an alternative existing crossing may be considered if it is more practical for pedestrian use.
- Adjacent signalized intersection: The proposed location must be outside the influence area of adjacent signalized intersections, including the limits of the auxiliary turn lanes.

MUTCD Section 3C.02 Application of Crosswalk Markings:

- At uncontrolled approaches, an engineering study should be performed before a marked crosswalk is installed. The following criteria should be considered:
 - Total number of approach lanes
 - The presence of a median
 - Pedestrian ages and abilities
 - Pedestrian and bicyclist delays
 - Location or frequency of public transit stops
 - Speed limit or the 85th-percentile speed
 - The horizontal and vertical geometry of the crossing location
 - The possible consolidation of multiple crossing points
 - The availability of street lighting
 - Other appropriate factors

TEM Section 5.2.5.2 Criteria for Rectangular Rapid Flashing Beacons (RRFB):

- Limit the use to the roadways with the following conditions:
 - Posted speed limit of 35 mph or slower
 - A marked special emphasis crosswalk
 - Maximum of four (4) through lanes (both directions) irrespective of median presence, or five (5) lanes with a median refuge island (Note: For locations with five (5) lanes with a Two-Way Left-Turn Lane, a refuge island or raised median needs to be present for RRFB application).

MUTCD Chapter 4L. Rectangular Rapid Flashing Beacons:

- Section 4L.01: Application of RRFBs:
 - A pedestrian-activated and/or bicyclist-activated rectangular rapid flashing beacon (RRFB) may be used to provide supplemental emphasis to pedestrian, school, and trail warning signs at marked crosswalks across uncontrolled approaches.

- An RRFB shall only be installed to function as a Warning Beacon (see Section 4S.03). Except as otherwise provided in this Chapter, all other provisions of the MUTCD applicable to Warning Beacons shall apply to RRFBs.
- An RRFB shall only be used to supplement a post-mounted W11-2 (Pedestrian), S1-1 (School), or W11-15 (Trail) crossing warning sign with a diagonal downward arrow (W16-7P) plaque, or an overhead mounted W11-2, S1-1, or W11-15 crossing warning sign, located at or immediately adjacent to a marked crosswalk.
- Except for crosswalks across the approach to or egress from a roundabout, or crosswalks across free flow turn lanes separated by a channelizing island, an RRFB shall not be used for crosswalks across approaches controlled by YIELD signs, STOP signs, traffic control signals, or pedestrian hybrid beacons.

For Ambleside Blvd and Golden Silence Dr, the following information was gathered to determine if a marked crosswalk and RRFB should be installed:

New Marked Crosswalk and RRFB Criteria		
Location: Ambleside Blvd & Golden Silence Dr		
TEM Section 5.2.5.1&2 Criteria for Marked Crosswalk & RRFB	Location Description:	Uncontrolled intersection
	Generators & Attractors:	Elementary School Bus stop Neighborhood pool, playground, and tennis court.
	Is there a well-defined spatial pattern of pedestrian flow across the subject location (Describe):	The intersection averages about 2 pedestrians per hour crossing Ambleside Blvd at Golden Silence Dr with a max of 10 in one hour from 4:00 - 5:00 PM on a Saturday.
	Pedestrian volume during a single hour of an average day (20 or more required):	Ten (10) was the maximum number of pedestrians crossing Ambleside Blvd in a single hour, which occurred between 4:00 and 5:00 PM on Saturday 4/13/2024. Six (6) in one hour occurred between 11:00 AM and noon on Weds, 4/10/2024, which was the next highest.
	Does location meet one of these volume demand exceptions: 1.) School Zone; 2.) C2T Rural Town; 3.) C3C Suburban Commerical; 4.) C4 Urban General; 5.) C5 Urban Center; 6.) C6 Urban Core	This location is not in a school zone and has context classification of C3R Suburban Residential, which does not meet any of the exceptions.
	Shared Use Paths may use a 50% reduction in the recommended pedestrian volume requirement:	N/A
	Minimum vehicular volume of 2,000 ADT along the roadway segment:	While vehicular volumetric data was not available for this study, based on field observations and the number of homes and neighborhoods connected to Ambleside Blvd, that the AADT is greater than 2,000 AADT.
	The minimum distance to nearest alternative intersection or crossing location is 300 feet:	The nearest crossing location is 3,800 feet away at the intersection of Ambleside Blvd and US 301.
	The proposed location is outside the influence area of adjacent signalized intersections:	There are no existing turn lanes or traffic signals nearby

MUTCD Section 3C.02 Application of Crosswalk Mark	Total number of approach lanes:	There is a total of 4 lanes (2 westbound and 2 eastbound), bike lanes on both sides, and a 25-ft landscaped median on Ambleside Blvd with no auxiliary or turn lanes.
	Presence of a median:	Yes, 25-ft landscaped median
	Pedestrian ages and abilities:	Mostly adults with a few children
	Pedestrian and bicycle delays:	Little to no delay observed
	Location / frequency of transit stops:	There are no public transit stops on Ambleside Blvd, but there is an elementary school bus stop
	Speed limit / 85th % speed (RRFB application requires 35 MPH or slower):	The posted speed limit on Ambleside Blvd is 35 MPH and Golden Silence Dr is 25 MPH
	Horizontal / vertical geometry:	There is a horizontal curve on Ambleside Blvd approximately 500 feet to the west of the subject intersection.
	Possible consolidation of multiple crossing points:	N/A
	Availability of street lighting:	Existing street lighting is available on both sides of the road
	Other factors:	This location is an elementary school bus stop, has had one (1) bicycle crash in five years, overall ped volumes are low. Landscaped median and horizontal curve in road create sight obstructions.

Review of the pedestrian volumes reveals that the total volumes are minimal, averaging less than 2 pedestrians per hour, with a max of 14 pedestrians in an hour. Further, there horizontal curve in the road 500 feet to the west along with the landscaped median island cause a sight obstruction for motorists along Ambleside Blvd that would obscure their visibility of pedestrians in the roadway; therefore, this is not an ideal location to encourage pedestrian crossing activity. For these reasons, **it is not recommended to install a new crosswalk with RRFB** due to the minimal crash experience, low pedestrian volumes, and the presence of a nearby horizontal curve, and landscaped median.

6. Recommendations

Based on the results of the analysis, field observations by a registered professional engineer, and engineering judgement, the following recommendation was developed.

While this intersection does not meet the minimum criteria for installing a new marked crosswalk and RRFB due to the lack of pedestrian volumes, there have been five intersection crashes including a fatality and a bicycle crash. Additionally, there have been eleven (11) crashes along the corridor in the nearby vicinity. Based on the crash data, lack of crossings along Ambleside Blvd, the consistent speeding, and the presence of an elementary school bus stop, a marked crosswalk with RRFB should be considered.

DEDICATION:

The undersigned as owners, mortgagee or other person, corporation, or entity having a record interest in the lands subdivided and platted into the subdivision of SOUTH FORK UNIT 4, hereby makes the following dedications:

- All roads, streets and rights-of-way are dedicated to Hillsborough County for public use, and for utility and drainage purposes incidental thereto.
- All areas marked on the plat as "5' Utility Easement" and "10' Utility Easement" are hereby dedicated to such providers of street lights, telephone utilities, electrical utilities, cable television utilities, and other public or quasi-public utilities, as selected and permitted access by South Fork, L.L.C., or its assignee or successors in interest, for use as non-exclusive easements for the purpose of installation and maintenance of utilities, together with access rights thereto.
- The Lift Station shown on the plat as Tract "C" is hereby dedicated to Hillsborough County for public use, together with the obligation of maintenance thereof.
- All "Landscape Buffer," "Drainage" and "Drainage and Ingress/Egress" areas as shown on the plat are dedicated to the South Fork Community Development District ("CDD"). The CDD shall maintain the improvements to these easements, and Hillsborough County is granted access to these easements for purposes that are incidental to the maintenance of the public roads, streets and rights-of-way.
- All "Sanitary Easements" as shown on the plat are dedicated to Hillsborough County for public use related to sanitary sewer purposes.
- All "TECO Easements" as shown on the plat are dedicated to the Tampa Electric Company for construction, installation, operation and maintenance of electrical utility service, together with the right of access to the easement.
- Tracts "A," "B," "D," "E," "F," and "G" (including Wetland Conservation Area "A") as shown hereon are hereby retained by the owner for conveyance to the CDD by separate instrument, said Tracts will be maintained by the owner, his assigns and designees.
- South Fork, L.L.C., shall retain ownership of Tracts "E1" and "F1" as shown herein for future development.

PLAT NOTES:

- Bearings are based on the North line of the S.W.1/4 of the N.W.1/4 Section 16, Township 31 South, Range 20 East, being a grid bearing of N 89°57'15" E.
- Coordinates, in feet, shown hereon refer to the Transverse Mercator Grid System for the West Zone of the State of Florida and reflect the 1983 North American Datum (1990 Re-adjustment) and are based on Geodetic Control points BALM and DN-K.
- Drainage Easements shall not contain permanent improvements, including but not limited to sidewalks, driveways, impervious surfaces, patios, decks, pools, air conditioners, structures, utility sheds, poles, fences, sprinkler systems, trees, shrubs, hedges and landscaping plants other than grass, except for landscaping of stormwater detention and retention ponds as required by the land development code. This note shall appear on each affected deed.
- The Wetland Conservation Areas shall be retained in a natural state pursuant to the Hillsborough County Land Development Code (LDC) as amended; the Hillsborough County Environmental Protection Act; and Chapter 1-11, Rules of the Hillsborough County Environmental Protection Commission. In addition, a 30 foot setback from the Wetland Conservation Area is required and shall conform to the provisions stipulated within the Hillsborough County Land Development Code.
- Subdivision plats by no means represent a determination on whether properties will or will not flood. Land within the boundaries of this plat may or may not be subject to flooding; the Development Services Division has information regarding flooding and restrictions on development.
- NOTICE: This plat, as recorded in its graphic form, is the official depiction of the subdivided lands described herein and will in no circumstances be supplanted in authority by any other graphic or digital form of the plat. There may be additional restrictions that are not recorded on the plat that may be found in the public records of this county.
- Nothing shall be placed or constructed, permanently or temporarily, on, in, or above the 20' wide Sanitary Sewer Easement running between Lots 57 and 58, Block E and out to the Ambleside Boulevard right-of-way.

PLAT NOTES

1. Subdivision plat by no means represent a determination on whether properties will or will not flood. Land within the boundaries of this plat may or may not be subject to flooding; the Development Services Division has information regarding flooding and restrictions on development.
2. Drainage easements shall not contain permanent improvements. Including but not limited to sidewalks, driveways, impervious surfaces, patios, decks, pools, air conditioners, structures, utility sheds, poles, fences, sprinkler systems, trees, shrubs, hedges, and landscaping plants other than grass, except for landscaping of storm water detention and retention ponds as required by the Land Development Code. This note shall appear on each affected deed.
3. All lots will be built and maintained by the individual lot owners according to the approved lot grading plans on file at the Hillsborough County permit service center. This note will appear on each deed.
4. Grid Bearings shown hereon are tied to the State of Florida Plane Coordinate System (FLORIDA WEST ZONE 0902 - NORTH AMERICAN DATUM OF 1983 ADJUSTMENT OF 1990) By GPS observations originating from and adjusted to National Geodetic Survey Control Stations BALM AND DN-K, more specifically the East line of the Northeast Quarter of the Southeast Quarter of Section 17-31-20, being S 00°06'08"E.
5. The Wetland (Conservation/Preservation) Area shall be retained in a natural state pursuant to the Hillsborough County Land Development Code (LDC) as amended; the Hillsborough County Environmental Protection Act, Chapter 84-446; and Chapter 1-11, Rules of the Hillsborough County Environmental Protection Commission. In addition, a (30/50)-foot setback from the Wetland (Conservation/Preservation) Area is required and shall conform to the provisions stipulated within the Hillsborough County Land Development Code.
6. NOTICE: This plat as recorded in its graphic form is the official depiction of the subdivided lands described herein and will in no circumstances be supplanted in authority by any other graphic or digital form of the plat. There may be additional restrictions that are not recorded on this plat that may be found in the public records of this county.
7. Site Assessments

Pond 1

Comments:

Pond 1 looks great.

Routine maintenance has resulted in minimal new invasive growth. No issues were observed with algae, submerged, weeds or shoreline weeds. Previous treatments have targeted Shoreline weed growth on the exposed sediment around the perimeter and positive results have been seen. The water level has remained at a low level.

Pond 2

Comments:

Pond 2 looks good.

Previous treatments have shown positive results in the reduction of minor amounts of algae and Slender Spike Rush. No issues were observed with algae, submersed weeds, or shoreline weeds. The water level has increased to a normal level.

Pond 3

Comments:

Normal growth observed.

A minor amount of new growth was observed in the littoral shelf area. This was previously targeted for treatment and new growth has occurred since the last treatment. Follow up treatments in this area will be continued. No issues were observed with algae or submersed weeds. The water level has remained low.

Pond 4

Comments:

Pond 4 looks good.

No issues were observed with algae, submersed weeds, or shoreline weeds. Previously shoreline weeds were targeted for treatment and have shown positive results. Any new growth observed will continue to be targeted for treatment. The littoral shelf area was targeted for invasive grass growth. The water level has remained at a low level. A very minimal amount of new lily growth was observed and will be targeted for treatment during the routine maintenance visit.

Pond 5

Comments:

Pond 5 looks good.

Previously Planktonic algae was targeted for treatment and positive results continue to be seen. The exposed sediment around the perimeter was also spot treated for Torpedograss and other shoreline weeds. No issues were observed and the water level has remained low.

Pond 6

Comments:

Pond 6 looks good.

No issues were observed with algae, submersed weeds, or other invasive shoreline weeds. Shoreline weeds were previously treated and positive results were seen. The water level on this pond has remained at a low level.

Pond 7

Comments:

Pond 7 looks good.

A minor new growth of invasive vegetation was targeted for treatment on the littoral shelf. Due to low water level conditions, the littoral shelf has experience a recent growth of invasive species. This will continue to be targeted for treatment during the upcoming visits. No issues were observed with algae, submersed weeds, or shoreline weeds.

Pond 8

Comments:

Pond 8 looks good.

No issues were observed with algae or shoreline weeds. Previously the exposed sediment around the shoreline was spot treated for Torpedograss and other shoreline weeds. The water level has continued to increased due to the repair of the outflow structure. The water level is just below a normal level.

Pond 9

Comments:

Pond 9 looks good.

Previous treatments have targeted Torpedograss and other shoreline weeds around the shoreline perimeter. Minimal amounts in a state of decay remain. If any new growth is observed it will be targeted for treatment. No other issues were observed. The water level has increased and is near a normal level.

Pond 10

Comments:

Pond 10 looks good overall.

A minor new growth on the edge of the littoral shelf was previously treated and some new growth remains. This new growth mainly consisted of Dog Fennel, Torpedograss, and smartweed. Follow up treatments for this area will be performed as needed. The previous cattail regrowth was treated and positive results were seen. The open water area looks great. The water level has remained at a low level. Very minimal algae was observed and will be targeted for treatment.
