12/29/25 – Field Management Report

www.inframarkims.com

Inspected on: 12/29/2025 by: Tim Hall

1. Lake Management

The water levels in the lakes were a lot lower this month. Algae is still present in a few of the lakes but still generally minor in nature. Overall, the lakes appear to be in good shape.

- a. **Algae on Lakes:** Algae levels were better (lower) than what was observed in October except for floating mat in Lake 15. Minor surface algae was also noted in Lakes 10, 11, 14, 16, 19, and 25.

Lake 15

Lake 25

- b. **Filamentous Algae:** No issues observed

- c. **Littorals:** Plantings installed on south side of Lake 10 last year are doing well. Plantings on east shore of Lake 5 this year are looking stressed, maybe due to lower water levels.

Lake 10

Lake 5

- i. **Alligator Flag in Lakes:** The north shoreline of Lake 18 still looks good.

- ii. **Weeds:** No issues observed.
- iii. **Alligator Weed in Lakes:** No issues observed.
- iv. **Brazilian Pepper:** No issues noted.
- v. **Cattails in Lakes:** No issues observed.
- vi. **Climbing Hemp Vine in Lakes:** No issues observed.
- vii. **Chara in Lakes:** Observed in Lakes 22 and 25.

Lake 22

Lake 25

- viii. **Hydrilla in Lakes:** No issues observed.
- ix. **Illinois Pond Weed in Lakes:** No issues observed.
- x. **Palms on Lake Banks:** No issues observed.
- xi. **Red Ludwigia in Lakes:** No issues noted.
- xii. **Sedges in Lakes:** No issues observed.

xiii. **Spatterdock/Lily Pads in Lakes:** Noted in Lakes 7 and 13.

Lake 7

Lake 13

xiv. **Torpedo Grass in Lakes:** Has been sprayed in several lakes. Minor remnants noted in Lakes 2, 7, 21, and 23.

Lake 2

Lake 21

d. **Trash in Lakes:** Debris noted in Lake 3.

Lake 3

e. **Bulkheads:** No issues observed, weeds noted appear to have been sprayed.

f. **Clippings in Lakes:** No issues noted.

g. **Other issues:** No issues noted.

2. **Lake Bank Erosion:** No major issues noted. Lake 19 north bank erosion may be worsening.

Lake 19

Lake 7 west bank erosion between houses becoming worse.

Lake 7

3. Storm Drainage System

- a. **Outfall Structures:** Water has dropped well below all outfall structures.

Lake 5

Lake 24

- b. **Roadway Catch Basins:** Southwest bag may need maintenance soon.

12 inch clearance in SW bag

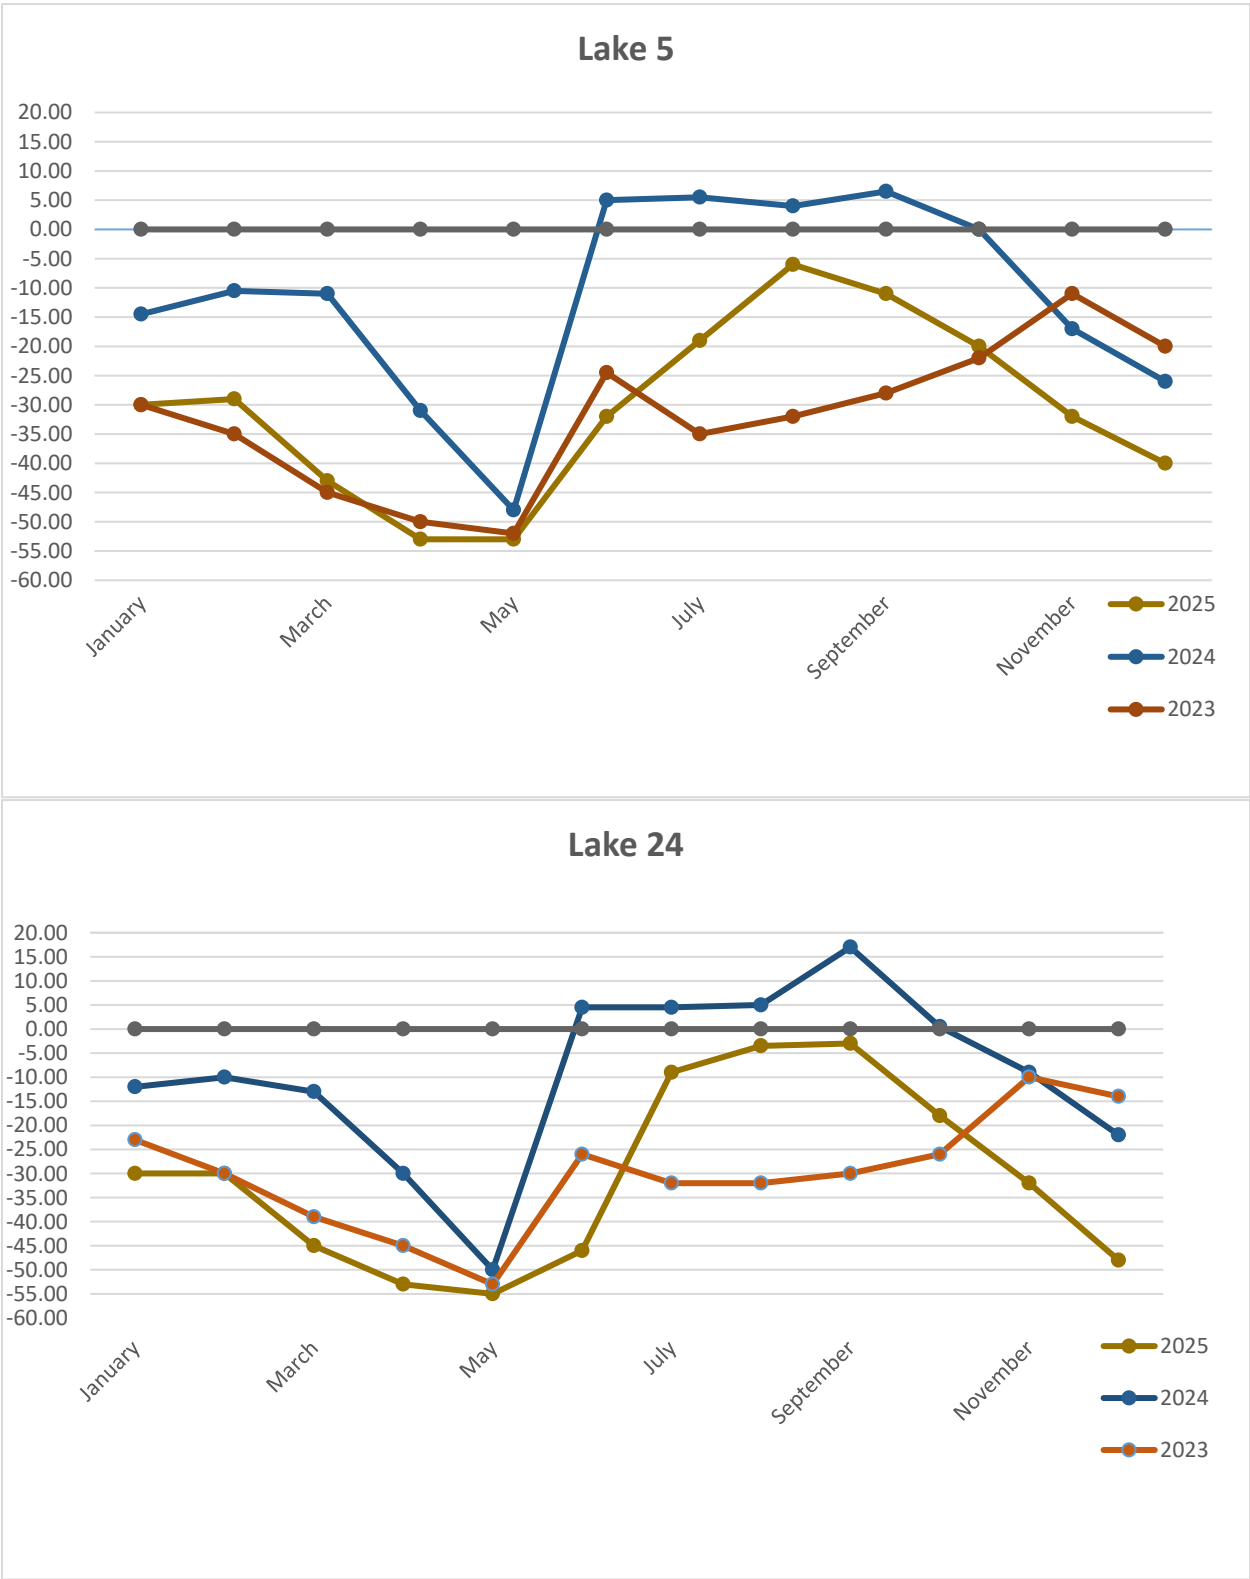

16 inch clearance in NW bag

- c. **Storm Drain:** No issues observed.
- d. **Catch Basins:** No issues noted
- e. **Inter-Connect/Drain Pipes:** No issues noted.
- f. **Lake Drainage Pipes:** No issues noted
- g. **Swales:** No issues noted.

- 4. Irrigation Water Use as Reported to SFWMD:** Total annual allocation is limited at 218 MG and total maximum monthly allocation is limited at 29.3407 MG per the SFWMD water use permit. 2024 usage was well below the allowed allocation and 2025 use is also below so far.

Month	HOA	Golf			TOTAL
October 2024	5.828 MG	5.555 MG			11.383 MG
November 2024	11.416 MG	6.343 MG			17.759 MG
December 2024	12.066 MG	5.832 MG			17.898 MG
2024 TOTALS	81.234 MG	70.292 MG			151.526 MG
January 2025	6.032 MG	4.212 MG			10.244 MG
February 2025	8.791 MG	5.468 MG			14.259 MG
March 2025	4.822 MG	3.032 MG			7.854 MG
April 2025	12.754 MG	5.231 MG			17.985 MG
May 2025	13.894 MG	2.171 MG			16.065 MG
June 2025	5.467 MG	3.231 MG			8.698 MG
July 2025	4.725 MG	4.854 MG			9.579 MG
August 2025	2.388 MG	6.245 MG			8.633 MG
September 2025	15.715 MG	6.618 MG			22.333 MG
October 2025	8.772 MG	7.039 MG			15.811 MG
November 2025					
December 2025					
2025 TOTALS	83.360 MG	48.101 MG			131.461 MG

5. Lake Elevations

6. Fountains & Aeration: All fountains were working at the time of the site visit.

Most diffusers were working except for lakes 18 and 25.

Lake Number	Aerator Status	Notes
1	Good	
2	Good	
3	Good	
4	Good	
5	Good	
6	Good

21	Good	
22	Good	
23	Good	
24	Good	
25	Not working	None of the diffusers were apparent

7. Boundary Wall: Vegetation still relatively clear along north fences.

Looking west from FPL Easement

Looking east of FPL

Vegetation starting to grow into fence in Southeast corner by I-75.

North side of SE fence

South side of SE fence

8. Pump House: East overhead light was still not working this could be an issue with additional equipment storage blocking access around. Old supply pipe has been plugged and does not appear to be leaking water into pumphouse.

9. **Preserves:** Not fully inspected this month. Borders of C3 and C4 were reviewed with Altessa residents on 12/7/25. Noted some encroachment of preserve vegetation over the preserve boundary into hedges belonging to Altessa. Coordinated with Solitude during site visit on 12/22/25. Expect a price from Solitude at January meeting to cut back preserve borders along north side of C3 and south side of C4.

Someone dropped an oak tree behind building on south side of C4 into the preserve. Solitude to include cost to remove this tree from preserve.

Plantings next to structure at the southwest end of Lake 5 have died. Two or three alternate plants should be installed to block view of structure. Cocoplum appears to be doing well in that area.

10. Fish/Wildlife Observations:

- | | | | |
|---|--|-------------------------------------|--|
| <input checked="" type="checkbox"/> Bass | <input type="checkbox"/> Bream | <input type="checkbox"/> Catfish | <input checked="" type="checkbox"/> Gambusia |

Vasari CDD December 2025 Lake

Inspection Report

Below are my observations on December 22, 2025

Lake 1- Lake looks good.

Lake 2- Lake looks good.

Lake 3- Lake looks good.

Lake 4- Minor surface algae present.

Lake 5- Lake looks good.

Lake 6- Lake looks good. Falling leaves observed throughout the lake.

Lake 7 - New patches of floating crested heart need treatment.

Lake 8- Lake looks good.

Lake 9- Patches of marine niaid present in lake.

Lake 10- Surface algae present in and around littorals.

Lake 11- Lake looks good

Lake 12- lake looks good.

Lake 13- Lake looks good.

Lake 14- Surface/Planktonic algae present.

Lake 15 - Surface algae present.

Lake 16- Lake looks good.

Lake 17- planktonic algae present.

Lake 18- Lake looks good.

Lake 19- Lake looks good

Lake 20- Lake looks good.

Lake 21- Lake looks good.

Lake 22- Surface algae in and around littorals.

Lake 23- Lake looks good.

Lake 24- weed regrowth within rip rap requires treatment.

Lake 25 - Lake looks good.

All observations have been forwarded and reviewed by the operations team

#24W New 5hp Ftn

We replaced the fountain at #24W with a new Maven Aeration F5, 5hp 3-tier w/ color-changing LED lights. Completed on 12/01/2025

#24W with red lights

#24W with green lights

#22E running after repair

We repaired the fountain at #22E on 12/18/25. Repairs included new pump, motor and submersible motor cable.

#17W motor replaced

#17W running after repair

#16 old motor

#16 control panel after repair

#16 running after repair

We repaired the fountain at #16 on 12/18/25.

Repairs included new pump, motor, starter box, breakers, load center and submersible motor cable.

#17W had the motor replaced on 12/22/25.

We were able to get the motor replaced under warranty.

#1 melted black leg

#1 terminal bar replaced

#1 running after repairs

12/22/25 it was discovered that the entrance fountain #1 was not running due to some melted electrical components.

It appears that a wire was loosely installed from factory, we replaced the part and cleaned up the wiring. All ok at departure.

December 22, 2025

To the Board of Supervisors
 Vasari Community Development District
 Lee County, Florida

We have audited the financial statements of Vasari Community Development District ("District") as of and for the fiscal year ended September 30, 2025, and have issued our report thereon dated December 22, 2025. Professional standards require that we advise you of the following matters relating to our audit.

We have also examined the District's compliance with the requirements of Section 218.415, Florida Statutes, in accordance with Rule 10.556(10) of the Auditor General of the State of Florida during the fiscal year ended September 30, 2025 which was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants.

Our Responsibility in Relation to the Financial Statement Audit

Our responsibility, as described by professional standards, is to form and express an opinion(s) about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the District solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process.

However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

Any findings regarding significant deficiencies or material weaknesses in internal control over financial reporting, material noncompliance, or other matters noted during our audit, **if any**, are communicated in separate reports included in the District's financial report—titled *Independent Auditor's Report on Internal Control Over Financial Reporting and Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards and Management Letter Pursuant to the Rules of the Auditor General of the State of Florida*.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, and our firm, have complied with all relevant ethical requirements regarding independence.

With respect to financial statement preparation, the following safeguards are in place:

- Management made all decisions and performed all management functions;
- A competent individual was assigned to oversee the services;
- Management evaluated the adequacy of the services performed;
- Management evaluated and accepted responsibility for the result of the service performed; and
- Management established and maintained internal controls, including monitoring ongoing activities.

Qualitative Aspects of the Entity's Significant Accounting Practices

Significant Accounting Policies

Management is responsible for selecting and applying appropriate accounting policies. A summary of the significant accounting policies adopted by the District is included in Note 2 to the financial statements. There were no new accounting policies adopted and no changes in existing significant accounting policies or their application during the fiscal year, other than those described in Note 2, if any. No matters came to our attention that, under professional standards, we are required to inform you about concerning (1) the methods used to account for significant unusual transactions or (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments normally reflect management's knowledge and experience about past and current events and assumptions about future events.

Certain accounting estimates, if present, may be particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them could differ markedly from management's current judgments.

In connection with our audit, we considered the reasonableness of the accounting estimates used by management. The most sensitive accounting estimate(s) affecting the financial statements **included, as applicable:**

- Management's estimate of the useful lives of capital assets.
- Management's estimate of the liability for employee compensated absences.
- Management's estimate of the Net Other Post-Employment Benefits (OPEB) liability.
- Management's estimate of the Net Pension Liability.

If none of the above estimates or other sensitive estimates were applicable in the current year, this section should be read to indicate that no such significant accounting estimates were identified.

We evaluated the key factors and assumptions used by management to develop the estimate(s) and determined that they were reasonable in relation to the financial statements taken as a whole.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the District's financial statements **included, as applicable**:

- Long-term liabilities related to bonds payable and debt service requirements.
- Litigation, claims, and assessments related to pending legal matters; and
- Pension and Other Post-Employment Benefit (OPEB) plan disclosures.

If no such disclosures were identified for the current year, this section should be read to indicate that we did not note any financial statement disclosures involving significant judgment or sensitivity.

Circumstances Affecting the Auditor's Report

Professional standards require us to communicate any circumstances that affect the form or content of our auditor's report. **If applicable**, such circumstances—such as a modification of opinion, an emphasis-of-matter or other-matter paragraph, or a reference to substantial doubt about the District's ability to continue as a going concern—are described in our auditor's report included in the District's financial report. If no such circumstances existed, this section should be read to indicate that our report was unmodified.

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Corrected Misstatements

Professional standards require us to communicate all material misstatements identified and corrected during the audit. Management has corrected all misstatements that were identified as a result of our audit procedures. Any such audit adjustments, **if applicable**, are summarized in the accompanying schedule of journal entries. If none were identified, this section should be read to indicate that we did not note any misstatements that were material, individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the District's financial statements or the auditor's report. No such disagreements arose during the course of the audit.

Representations Requested from Management

Professional standards require that we obtain certain written representations from management as part of our audit. We have received such representations in a letter. A copy of this letter is available for your review upon request.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the District, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, significant events or transactions that occurred during the year, operating and regulatory conditions affecting the entity, and operational plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the District's auditors.

As noted previously in this letter, any current-year findings identified during our audit are communicated in our separate reports titled *Independent Auditor's Report on Internal Control Over Financial Reporting and Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards* and *Management Letter Pursuant to the Rules of the Auditor General of the State of Florida*. If no findings were identified, this section should be read to indicate that we did not note any additional significant matters or findings requiring communication to those charged with governance.

This report is intended solely for the information and use of the Board of Supervisors and management of the District and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT

To the Board of Supervisors
 Vasari Community Development District
 Lee County, Florida

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Vasari Community Development District, Lee County, Florida (the "District") as of and for the fiscal year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2025, and the respective changes in financial position thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information Included in the Financial Report

Management is responsible for the other information included in the financial report. The other information comprises the information for compliance with FL Statute 218.39 (3) (c) but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2025, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

December 22, 2025

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of Vasari Community Development District, Lee County, Florida ("District") provides a narrative overview of the District's financial activities for the fiscal year ended September 30, 2025. Please read it in conjunction with the District's Independent Auditor's Report, basic financial statements, accompanying notes and supplementary information to the basic financial statements.

FINANCIAL HIGHLIGHTS

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year resulting in a net position balance of \$16,056,436.
- The change in the District's total net position in comparison with the prior fiscal year was \$389,948, an increase. The key components of the District's net position and change in net position are reflected in the table in the government-wide financial analysis section.
- At September 30, 2025, the District's governmental funds reported combined ending fund balances of \$1,537,987, a decrease of (\$145,931) in comparison with the prior fiscal year. The total fund balance is non-spendable for prepaids and deposits, restricted for debt service, assigned to reserves, and the remainder is unassigned fund balance which is available for spending at the District's discretion.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as the introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: **1)** government-wide financial statements, **2)** fund financial statements, and **3)** notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

1) Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual amount being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements include all governmental activities that are principally supported by special assessment revenues. The District does not have any business-type activities. The governmental activities of the District include the general government (management) and maintenance (operations) functions.

2) Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District has one fund category: governmental funds.

OVERVIEW OF FINANCIAL STATEMENTS (Continued)

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains two governmental funds for external reporting. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the general and debt service funds, both funds are considered to be major funds.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with the budget.

3) Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data included in the government-wide and fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of an entity's financial position. In the case of the District, assets exceeded liabilities at the close of the most recent fiscal year.

Key components of the District's net position are reflected in the following table:

NET POSITION SEPTEMBER 30,		
	2025	2024
Current and other assets	\$ 1,567,368	\$ 1,710,805
Capital assets, net of depreciation	15,904,376	16,031,111
Total assets	17,471,744	17,741,916
Current liabilities	45,308	50,428
Long-term liabilities	1,370,000	2,025,000
Total liabilities	1,415,308	2,075,428
Net position		
Net investment in capital assets	14,534,376	14,006,111
Restricted for debt service	292,624	261,646
Unrestricted	1,229,436	1,398,731
Total net position	\$ 16,056,436	\$ 15,666,488

The District's net position reflects its investment in capital assets (e.g. land, land improvements, and infrastructure) less any related debt used to acquire those assets that is still outstanding. These assets are used to provide services to residents; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

The restricted portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position may be used to meet the District's other obligations.

The District's net position increased during the most recent fiscal year. The majority of the increase represents the extent to which ongoing program revenues exceeded the cost of operations and depreciation expense.

Key elements of the change in net position are reflected in the following table:

CHANGES IN NET POSITION FOR THE FISCAL YEAR ENDED SEPTEMBER 30,		
	2025	2024
Revenues:		
Program revenues	\$ 1,552,395	\$ 1,554,933
General revenues	84,917	81,000
Total revenues	1,637,312	1,635,933
Expenses:		
General government	183,827	165,493
Maintenance and operations	1,014,654	316,783
Interest	48,883	66,832
Total expenses	1,247,364	549,108
Change in net position	389,948	1,086,825
Net position - beginning	15,666,488	14,579,663
Net position - ending	\$ 16,056,436	\$ 15,666,488

As noted above and in the statement of activities, the cost of all governmental activities during the fiscal year ended September 30, 2025, was \$1,247,364. The costs of the District's activities were primarily funded by program revenues which consisted mainly of assessments for the prior and current fiscal years. The remainder of the current fiscal year revenue is interest revenue. In total, expenses, including depreciation, increased from the prior fiscal year. The increase in current fiscal year expenses is primarily the result of lake shoreline restoration expenses incurred during the current fiscal year.

GENERAL BUDGETING HIGHLIGHTS

An operating budget was adopted and maintained by the governing board for the District pursuant to the requirements of Florida Statutes. The budget is adopted using the same basis of accounting that is used in preparation of the fund financial statements. The legal level of budgetary control, the level at which expenditures may not exceed budget, is in the aggregate. Any budget amendments that increase the aggregate budgeted appropriations must be approved by the Board of Supervisors. The general fund budget for the fiscal year ended September 30, 2025 was amended to increase appropriations by \$257,321.

CAPITAL ASSETS AND DEBT ADMINISTRATIONCapital Assets

At September 30, 2025, the District had \$18,489,620 invested in land and land improvements, and infrastructure. In the government-wide financial statements depreciation of \$2,585,244 has been taken, which resulted in a net book value of \$15,904,376. More detailed information about the District's capital assets is presented in the notes of the financial statements.

Capital Debt

At September 30, 2025, the District had \$1,370,000 in Bonds outstanding for its governmental activities. More detailed information about the District's capital debt is presented in the notes of the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The District does not anticipate any major projects or significant changes to its infrastructure maintenance program for the subsequent fiscal year. In addition, it is anticipated that the general operations of the District will remain fairly constant.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, land owners, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the financial resources it manages and the stewardship of the facilities it maintains. If you have questions about this report or need additional financial information, contact the Vasari Community Development District's Finance Department at 2005 Pan Am Circle, Suite 300, Tampa, Florida, 33607.

**VASARI COMMUNITY DEVELOPMENT DISTRICT
LEE COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 - NATURE OF ORGANIZATION AND REPORTING ENTITY

Vasari Community Development District ("District"), located in Lee County, was created on June 21, 2001 pursuant to the Uniform Community Development District Act of 1980, otherwise known as Chapter 190, Florida Statutes, by City of Bonita Springs Ordinance. The Act provides among other things, the power to manage basic services for community development, power to borrow money and issue bonds, and to levy and assess non-ad valorem assessments for the financing and delivery of capital infrastructure.

The District was established for the purposes of financing and managing the acquisition, construction, maintenance and operation of a portion of the infrastructure necessary for community development within the District.

The District is governed by the Board of Supervisors ("Board"), which is composed of five members. The Supervisors are elected by qualified electors within the District. The Board of Supervisors of the District exercise all powers granted to the District pursuant to Chapter 190, Florida Statutes.

The Board has the responsibility for:

1. Assessing and levying assessments.
2. Approving budgets.
3. Exercising control over facilities and properties.
4. Controlling the use of funds generated by the District.
5. Approving the hiring and firing of key personnel.
6. Financing improvements.

The financial statements were prepared in accordance with Governmental Accounting Standards Board ("GASB") Statements. Under the provisions of those standards, the financial reporting entity consists of the primary government, organizations for which the District is considered to be financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that, if excluded, the financial statements of the District would be considered incomplete or misleading. There are no entities considered to be component units of the District; therefore, the financial statements include only the operations of the District.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Government-Wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment. Operating-type special assessments for maintenance and debt service are treated as charges for services and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not included among program revenues are reported instead as *general revenues*.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The government-wide financial statements are reported using the *economic resources measurement* focus and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Assessments are recognized as revenues in the year for which they are levied. Grants and similar items are to be recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement* focus and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Assessments

Assessments are non-ad valorem assessments on benefited lands within the District. Assessments are levied to pay for the operations and maintenance of the District. The fiscal year for which annual assessments are levied begins on October 1 with discounts available for payments through February 28 and become delinquent on April 1. The District's annual assessments for operations and debt service are billed and collected by the County Tax Assessor/Collector. The amounts remitted to the District are net of applicable discounts or fees and include interest on monies held from the day of collection to the day of distribution.

Assessments and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. The portion of assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period.

The District reports the following major governmental funds:

General Fund

The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Debt Service Fund

The debt service fund is used to account for the accumulation of resources for the annual payment of principal and interest on long-term debt.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first for qualifying expenditures, then unrestricted resources as they are needed.

Assets, Liabilities and Net Position or Equity**Restricted Assets**

These assets represent cash and investments set aside pursuant to Bond covenants or other contractual restrictions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities and Net Position or Equity (Continued)

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand and demand deposits (interest and non-interest bearing).

The District has elected to proceed under the Alternative Investment Guidelines as set forth in Section 218.415 (17) Florida Statutes. The District may invest any surplus public funds in the following:

- a) The Local Government Surplus Trust Funds, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act;
- b) Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency;
- c) Interest bearing time deposits or savings accounts in qualified public depositories;
- d) Direct obligations of the U.S. Treasury.

Securities listed in paragraphs c and d shall be invested to provide sufficient liquidity to pay obligations as they come due. In addition, surplus funds may be deposited into certificates of deposit which are insured and any unspent Bond proceeds are required to be held in investments as specified in the Bond Indenture.

The District records all interest revenue related to investment activities in the respective funds and reports its investments at fair value.

Inventories and Prepaid Items

Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets (e.g., roads, sidewalks and similar items) are reported in the governmental activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Infrastructure	7 - 40

In the governmental fund financial statements, amounts incurred for the acquisition of capital assets are reported as fund expenditures. Depreciation expense is not reported in the governmental fund financial statements.

Unearned Revenue

Governmental funds report unearned revenue in connection with resources that have been received, but not yet earned.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities and Net Position or Equity (Continued)

Long-Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized ratably over the life of the Bonds. Bonds payable are reported net of applicable premiums or discounts. Bond issuance costs are expensed when incurred.

In the fund financial statements, governmental fund types recognize premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Fund Equity/Net Position

In the fund financial statements, governmental funds report non spendable and restricted fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Assignments of fund balance represent tentative management plans that are subject to change.

The District can establish limitations on the use of fund balance as follows:

Committed fund balance – Amounts that can be used only for the specific purposes determined by a formal action (resolution) of the Board of Supervisors. Commitments may be changed or lifted only by the Board of Supervisors taking the same formal action (resolution) that imposed the constraint originally. Resources accumulated pursuant to stabilization arrangements sometimes are reported in this category.

Assigned fund balance – Includes spendable fund balance amounts established by the Board of Supervisors that are intended to be used for specific purposes that are neither considered restricted nor committed. The Board may also assign fund balance as it does when appropriating fund balance to cover differences in estimated revenue and appropriations in the subsequent year's appropriated budget. Assignments are generally temporary and normally the same formal action need not be taken to remove the assignment.

The District first uses committed fund balance, followed by assigned fund balance and then unassigned fund balance when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Assets, Liabilities and Net Position or Equity (Continued)****Fund Equity/Net Position (Continued)**

Net position is the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net position in the government-wide financial statements are categorized as net investment in capital assets, restricted or unrestricted. Net investment in capital assets represents net position related to infrastructure and property, plant and equipment. Restricted net position represents the assets restricted by the District's Bond covenants or other contractual restrictions. Unrestricted net position consists of the net position not meeting the definition of either of the other two components.

Other Disclosures**Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 3 - BUDGETARY INFORMATION

The District is required to establish a budgetary system and an approved Annual Budget. Annual Budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund. All annual appropriations lapse at fiscal year-end.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- a) Each year the District Manager submits to the District Board a proposed operating budget for the fiscal year commencing the following October 1.
- b) Public hearings are conducted to obtain public comments.
- c) Prior to October 1, the budget is legally adopted by the District Board.
- d) All budget changes must be approved by the District Board.
- e) Annual budgets are adopted on a basis consistent with generally accepted accounting principles.
- f) All annual appropriations lapse at fiscal year-end.

NOTE 4 - DEPOSITS AND INVESTMENTS**Deposits**

The District's cash balances were entirely covered by federal depository insurance or by a collateral pool pledged to the State Treasurer. Florida Statutes Chapter 280, "Florida Security for Public Deposits Act", requires all qualified depositories to deposit with the Treasurer or another banking institution eligible collateral equal to various percentages of the average daily balance for each month of all public deposits in excess of any applicable deposit insurance held. The percentage of eligible collateral (generally, U.S. Governmental and agency securities, state or local government debt, or corporate bonds) to public deposits is dependent upon the depository's financial history and its compliance with Chapter 280. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses.

NOTE 4 - DEPOSITS AND INVESTMENTS (Continued)**Investments**

The District's investments were held as follows at September 30, 2025:

	Amortized Cost	Credit Risk	Maturities
First American Government Obligation Fund CL Y	\$ 312,493	S&P AAAM	Weighted average of the fund portfolio: 45 days
Total Investments	<u>\$ 312,493</u>		

Credit risk – For investments, credit risk is generally the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Investment ratings by investment type are included in the preceding summary of investments.

Concentration risk – The District places no limit on the amount the District may invest in any one issuer.

Interest rate risk – The District does not have a formal policy that limits investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates.

However, the Bond Indenture limits the type of investments held using unspent proceeds.

Fair Value Measurement – When applicable, the District measures and records its investments using fair value measurement guidelines established in accordance with GASB Statements. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques.

These guidelines recognize a three-tiered fair value hierarchy, in order of highest priority, as follows:

- *Level 1:* Investments whose values are based on unadjusted quoted prices for identical investments in active markets that the District has the ability to access;
- *Level 2:* Investments whose inputs - other than quoted market prices - are observable either directly or indirectly; and,
- *Level 3:* Investments whose inputs are unobservable.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the entire fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Money market investments that have a maturity at the time of purchase of one year or less and are held by governments other than external investment pools should be measured at amortized cost. Accordingly, the District's investments have been reported at amortized cost above

NOTE 5 – INTERFUND RECEIVABLES AND PAYABLES

Interfund receivables and payables at September 30, 2025, were as follows:

Fund	Receivable	Payable
General	\$ 4,089	\$ -
Debt Service	-	4,089
Total	<u>\$ 4,089</u>	<u>\$ 4,089</u>

The outstanding balances between the funds result primarily from the time lag between the dates that the transactions are recorded in the accounting system and payments between the funds are made. In the case of the District, the balances between the general fund and the debt service fund relates to trustee fees paid from the general fund on behalf of the debt service fund.

NOTE 6 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended September 30, 2025, was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance
<u>Governmental activities</u>				
Capital assets, not being depreciated				
Land and land improvements	\$ 13,708,904	\$ -	\$ -	\$ 13,708,904
Total capital assets, not being depreciated	13,708,904	-	-	13,708,904
Capital assets, being depreciated				
Infrastructure - water control and other	4,780,716	-	-	4,780,716
Total capital assets, being depreciated	4,780,716	-	-	4,780,716
Less accumulated depreciation for:				
Infrastructure - water control and other	2,458,509	126,735	-	2,585,244
Total accumulated depreciation	2,458,509	126,735	-	2,585,244
Total capital assets, being depreciated, net	2,322,207	(126,735)	-	2,195,472
Governmental activities capital assets, net	\$ 16,031,111	\$ (126,735)	\$ -	\$ 15,904,376

Depreciation expense was charged to the maintenance and operations function.

NOTE 7 – LONG-TERM LIABILITIES

On August 15, 2012, the District issued Capital Improvement Revenue Refunding Bonds, Series 2012 due May 1, 2027, with a fixed interest rate of 2.79%. The Bonds were issued to exchange the District's outstanding Capital Improvement Revenue Refunding Bonds, Series 2008. Interest is to be paid semiannually on each May 1 and November 1. Principal on the Bonds is to be paid serially commencing May 1, 2013 through May 1, 2027.

The Series 2012 Bonds are subject to redemption at the option of the District prior to their maturity and are subject to extraordinary mandatory redemption as outlined in the Third Supplemental Trust Indenture.

The Bond Indenture established a debt service reserve requirement as well as other restrictions and requirements relating principally to the use of proceeds and the procedures to be followed by the District on assessments to property owners. The District agrees to levy special assessments in annual amounts adequate to provide payment of debt service and to meet the reserve requirements. The District was in compliance with the requirements at September 30, 2025.

Changes in long-term liability activity for the fiscal year ended September 30, 2025, were as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
<u>Governmental activities</u>					
Bonds payable:					
Series 2012	\$ 2,025,000	\$ -	\$ 655,000	\$ 1,370,000	\$ 675,000
Total	\$ 2,025,000	\$ -	\$ 655,000	\$ 1,370,000	\$ 675,000

NOTE 7 – LONG-TERM LIABILITIES (Continued)

At September 30, 2025, the scheduled debt service requirements on the long-term debt were as follows:

Year ending September 30:	Governmental Activities		
	Principal	Interest	Total
2026	\$ 675,000	\$ 38,223	\$ 713,223
2027	695,000	19,391	714,391
Total	<u>\$ 1,370,000</u>	<u>\$ 57,614</u>	<u>\$ 1,427,614</u>

NOTE 8 – FACILITIES MAINTENANCE AGREEMENT

In a prior fiscal year, the District and Vasari Country Club Master Association Inc. ("HOA") executed a facilities maintenance agreement relating to the eastern boundary landscaping and buffer improvements. Pursuant to the agreement, the HOA will operate and maintain the improvements for the duration of the agreement and also fund such operations and maintenance. The District will be responsible for funding major capital repairs or replacements to the buffer improvements which in the aggregate would exceed \$10,000.

NOTE 9 - MANAGEMENT COMPANY

The District has contracted with a management company to perform management advisory services, which include financial and accounting services. Certain employees of the management company also serve as officers of the District. Under the agreement, the District compensates the management company for management, accounting, financial reporting, and other administrative costs.

NOTE 10 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District has obtained commercial insurance from independent third parties to mitigate the costs of these risks; coverage may not extend to all situations. There were no settled claims during the past three years.

**VASARI COMMUNITY DEVELOPMENT DISTRICT
LEE COUNTY, FLORIDA
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**

The District is required to establish a budgetary system and an approved Annual Budget for the general fund. The District's budgeting process is based on estimates of cash receipts and cash expenditures which are approved by the Board. The budget approximates a basis consistent with accounting principles generally accepted in the United States of America (generally accepted accounting principles).

The legal level of budgetary control, the level at which expenditures may not exceed budget, is in the aggregate. Any budget amendments that increase the aggregate budgeted appropriations must be approved by the Board of Supervisors. The general fund budget for the fiscal year ended September 30, 2025 was amended to increase appropriations by \$257,321.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Supervisors
Vasari Community Development District
Lee County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Vasari Community Development District, Lee County, Florida (the "District") as of and for the fiscal year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our opinion thereon dated December 22, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH THE
 REQUIREMENTS OF SECTION 218.415, FLORIDA STATUTES, REQUIRED BY
 RULE 10.556(10) OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA**

To the Board of Supervisors
 Vasari Community Development District
 Lee County, Florida

We have examined Vasari Community Development District, Lee County, Florida's ("District") compliance with the requirements of Section 218.415, Florida Statutes, in accordance with Rule 10.556(10) of the Auditor General of the State of Florida during the fiscal year ended September 30, 2025. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the specified requirements referenced in Section 218.415, Florida Statutes. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the examination engagement.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the fiscal year ended September 30, 2025.

This report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, management, and the Board of Supervisors of Vasari Community Development District, Lee County, Florida and is not intended to be and should not be used by anyone other than these specified parties.

December 22, 2025

**MANAGEMENT LETTER PURSUANT TO THE RULES OF
THE AUDITOR GENERAL FOR THE STATE OF FLORIDA**

To the Board of Supervisors
Vasari Community Development District
Lee County, Florida

Report on the Financial Statements

We have audited the accompanying basic financial statements of Vasari Community Development District, Lee County, Florida ("District") as of and for the fiscal year ended September 30, 2025, and have issued our report thereon dated December 22, 2025.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters based on an audit of the financial statements performed in accordance with *Government Auditing Standards*; and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated December 22, 2025, should be considered in conjunction with this management letter.

Purpose of this Letter

The purpose of this letter is to comment on those matters required by Chapter 10.550 of the Rules of the Auditor General for the State of Florida. Accordingly, in connection with our audit of the financial statements of the District, as described in the first paragraph, we report the following:

- I. Current year findings and recommendations.**
- II. Status of prior year findings and recommendations.**
- III. Compliance with the Provisions of the Auditor General of the State of Florida.**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, as applicable, management, and the Board of Supervisors of Vasari Community Development District, Lee County, Florida and is not intended to be and should not be used by anyone other than these specified parties.

We wish to thank Vasari Community Development District, Lee County, Florida and the personnel associated with it, for the opportunity to be of service to them in this endeavor as well as future engagements, and the courtesies extended to us.

December 22, 2025

REPORT TO MANAGEMENT

I. CURRENT YEAR FINDINGS AND RECOMMENDATIONS

None

II. PRIOR YEAR FINDINGS AND RECOMMENDATIONS

None

III. COMPLIANCE WITH THE PROVISIONS OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

Unless otherwise required to be reported in the auditor's report on compliance and internal controls, the management letter shall include, but not be limited to the following:

1. A statement as to whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report.

There were no significant findings and recommendations made in the preceding annual financial audit report for the fiscal year ended September 30, 2024.

2. Any recommendations to improve the local governmental entity's financial management.

There were no such matters discovered by, or that came to the attention of, the auditor, to be reported for the fiscal year ended September 30, 2025.

3. Noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance.

There were no such matters discovered by, or that came to the attention of, the auditor, to be reported, for the fiscal year ended September 30, 2025.

4. The name or official title and legal authority of the District are disclosed in the notes to the financial statements.

5. The District has not met one or more of the financial emergency conditions described in Section 218.503(1), Florida Statutes.

6. We applied financial condition assessment procedures, and no deteriorating financial conditions were noted as of September 30, 2025. It is management's responsibility to monitor financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

7. Management has provided the specific information required by Section 218.39(3)(c) in the Other Information section of the financial statements on page 23.
