Comments

Discussion about the CONS CTS leading to a job. Industry partners confirmed that the certification would not necessarily be enough for a job but would hire a person with the cert vs. someone who didn't have any education. Other's voiced a concern about the program not being stackable with the CONS AS degree. Other courses that could be helpful were beginning Spanish and hands on construction classes in the certification. Another idea pitched was to offer more options for other courses and not limit it to constructions courses. There were requests for more classes to be offered in the evening. Mark Jusselin asked for these ideas to be taken up by the curriculum subcommittee for further investigation.

Meeting Adjourned at 5:00 pm
