Non-human Vertebrate Animal

Controlled Substances, Pathogens*, or Recombinant DNA

Human or Animal Tissue

**All bacteria, fungi, etc. isolated from the environment should be considered potentially pathogenic. *We suggest the use of invertebrates (crayfish, insects, worms, etc.) instead of vertebrate animals whenever possible.*

**Human blood projects should be avoided unless you have each blood sample tested for AIDS and Hepatitis by both antibody and antigen tests.*

Awards reminder: All 1st, 2nd & 3rd place Overall winners receive cash awards. Schools compete for Sweepstakes Awards. In addition, two or three Senior Overall winners earn a trip to compete at the International ISEF in Los Angeles, CA.

Deserving students (not always medal winners) in all categories compete for other prizes, including cash, flash drives, I-pods, and memberships. In the past, Science Fair Special Awards were given by AEP SWEPCO, Biomedical Research Foundation, the BPCC Foundation, LSUHSC Feist Weiller Cancer Center, American Chemical Society, ARK-LA-TEX Gem & Mineral Society, LA Forestry & Agriculture Department, Sci-Port Discovery Center, North LA AHEC, Walter B. Jacobs Nature Center, Broadcom Masters, U.S. Navy, U.S. Army, & the U.S. Air Force.
