INDEPENDENT AUDITOR'S REPORT

To the Board of Supervisors
Meadow Pointe II Community Development District

Report on the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, and each major fund of the *Meadow Pointe II Community Development District* (the "District"), as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, and each major fund of the District as of September 30, 2025, and the respective changes in financial position and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (GAS), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and GAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis starting on page 3, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated June 26, 2026, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Our discussion and analysis of *Meadow Pointe II Community Development District's* (the "District") financial accomplishments provide an overview of the District's financial activities for the year ended September 30, 2025. Please read it in conjunction with the District's Independent Auditor's Report, financial statements and accompanying notes.

This information is being presented to provide additional information regarding the activities of the District and to meet the disclosure requirements of Governmental Accounting Standards Board Statement (GASB) No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments* issued June 1999.

Financial Highlights

- The assets of the District exceeded its liabilities at September 30, 2025 by \$21,220,416, an increase in net position of \$572,946 in comparison with the prior year.
- At September 30, 2025, the District's governmental funds reported a fund balance of \$9,801,035, an increase of \$581,880 in comparison with the prior year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the *Meadow Pointe II Community Development District's* financial statements. The District's financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements include all governmental activities that are principally supported by special assessment revenues. The District does not have any business-type activities. The governmental activities of the District include general government, physical environment, culture and recreation, transportation, and public safety related functions.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District has one fund category: Governmental Funds.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, debt service fund and capital projects fund, which are considered to be major funds.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with the budget.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-Wide Financial Analysis

Statement of Net Position - The District's net position was \$21,220,416 at September 30, 2025. The following analysis focuses on the net position of the District's governmental activities.

	2025	2024
Assets, excluding capital assets	\$ 9,901,196	\$ 9,331,887
Capital Assets, net of depreciation	17,859,932	18,229,335

Net position, ending	<u>\$ 21,220,416</u>	<u>\$ 20,647,470</u>

As noted above and in the statement of activities, the cost of all governmental activities during the year ended September 30, 2025 was \$2,919,322. The majority of these costs are comprised of physical environment and culture and recreation expense.

Financial Analysis of the Government's Funds

The District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. The focus of the District's governmental funds is to provide information on near - term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. At September 30, 2025, the District's governmental funds reported combined ending fund balances of \$9,801,035. Of this total, \$86,575 is nonspendable, \$2,990,361 is restricted, \$3,152,234 is assigned, and the remainder of \$3,571,865 is unassigned.

The general fund balance increase of \$507,532 in the current year was due to decreased expenditures. The debt service fund did not change significantly. The capital projects fund increased by \$73,349 due to interest income.

General Fund Budgetary Highlights

An operating budget was adopted and maintained by the governing board for the District pursuant to the requirements of Florida Statutes. The budget is adopted using the same basis of accounting that is used in preparation of the fund financial statements. There were no amendments to the September 30, 2025 general fund budget. The legal level of budgetary control is at the fund level.

Capital Asset and Debt Administration

Capital Assets - At September 30, 2025, the District had \$17,859,932 invested in assets, net of accumulated depreciation. More detailed information about the District's capital assets is presented in the notes to the financial statements.

Capital Debt - At September 30, 2025, the District has \$6,430,000 in bonds outstanding. More detailed information about the District's capital debt is presented in the notes to the financial statements.

Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources; however, in the statement of net position the cost of those assets is recorded as capital assets. Depreciation on capital assets is not recognized in the governmental fund statement; however, it is reported as an expense in the statement of activities.

Capital outlay	49,755	
Depreciation expense	<u>(419,158)</u>	(369,403)

Repayments of bond principal are expenditures in governmental funds while repayments reduce liabilities in the statement of net position. Also, governmental funds report the effect premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

Bond Principal	360,000

NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The *Meadow Pointe II Community Development District*, (the "District") was established on October 7, 1994 by Pasco County Ordinance 94-13 pursuant to the Uniform Community Development District Act of 1980, otherwise known as Chapter 190 Florida Statutes. The Act provides, among other things, the power to manage basic services for community development, the power to borrow money and issue bonds, and the power to levy and assess non-ad valorem assessments for the financing and delivery of capital infrastructure. The District was established for the purpose of financing and managing the acquisition, construction, maintenance and operation of a portion of the infrastructure necessary for community development within the District.

The District is governed by the Board of Supervisors (the Board), which is composed of five members. The Supervisors are elected on an at large basis by the owners of the property within the District. The Board of Supervisors of the District exercise all powers granted to the District pursuant to Chapter 190, Florida Statutes.

The Board has the final responsibility for:

1. Assessing and levying assessments.
2. Approving budgets.
3. Exercising control over facilities and properties.
4. Controlling the use of funds generated by the District.
5. Approving the hiring and firing of key personnel.
6. Financing improvements.

The financial statements were prepared in accordance with Governmental Accounting Standards Board ("GASB") Statements 14, 39, and 61. Under the provisions of those standards, the financial reporting entity consists of the primary government, organizations for which the District Board of Supervisors is considered to be financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that, if excluded, the financial statements of the District would be considered incomplete or misleading. There are no entities considered to be component units of the District; therefore, the financial statements include only the operations of the District.

Government-Wide and Fund Financial Statements

The financial statements include both government-wide and fund financial statements.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants, contributions, and investment income that are restricted to meeting the operational or capital requirements of a particular function or segment and 3) operating-type special assessments that are treated as charges for services (including assessments for maintenance and debt service). Other items not included among program revenues are reported instead as *general revenues*.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement* focus and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Assessments are recognized as revenues in the year for which they are levied.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the modified *accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting; however, debt service expenditures are recorded only when payment is due.

Assessments, including debt service assessments and operation and maintenance assessments, are non-ad valorem assessments imposed on all lands located within the District and benefited by the District's activities. Operation and maintenance special assessments are levied by the District prior to the start of the fiscal year which begins October 1st and ends on September 30th. These assessments are imposed upon all benefited lands located in the District. Debt service special assessments are imposed upon certain lots and lands as described in each resolution imposing the special assessment for each series of bonds issued by the District.

Assessments and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Only the portion of assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following governmental funds, which are considered to be major funds:

General Fund - is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Debt Service Fund - accounts for the accumulation of resources for the annual payment of principal and interest on long-term debt.

Capital Projects Fund - accounts for the financial resources to be used for the acquisition or construction of major infrastructure within the District.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

Restricted Assets - These assets represent cash and investments set aside pursuant to bond covenants.

Deposits and Investments - The District's cash and cash equivalents are considered to be cash on hand and demand deposits.

Investments of the District are reported at fair value and are categorized within the fair value hierarchy established in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*. The District's investments consist of investments authorized in accordance with Section 218.415, Florida Statutes.

Prepaid Items - Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets - Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, sidewalks and similar items), are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	10 - 20
Infrastructure	10 - 30
Machinery and equipment	3 - 20
Vehicles	10 - 15

Long Term Obligations - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of premiums or discounts.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums and discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

Deferred Outflows/Inflows of Resources - In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District does not have any item that qualifies for reporting in this category for the year ended September 30, 2025.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District does not have any item that qualifies for reporting in this category for the year ended September 30, 2025.

Net Position Flow Assumption - Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted- net position and unrestricted- net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted - net position to have been depleted before unrestricted-net position is applied.

Fund Balance Flow Assumptions - Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balance Policies - Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either commitment (committed fund balance) or an assignment (assigned fund balance).

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The committed fund balance classification includes fund balance amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The Board of Supervisors is the highest level of decision-making authority for the government that can, by adoption of an ordinance or resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance or resolution remains in place until a similar action is taken to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The Board of Supervisors has authorized the District Manager to assign amounts for specific purposes. The Board of Supervisors may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above an additional action is essential to either remove or revise a commitment.

Other Disclosures

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

New Accounting Standards

In fiscal year 2025, the District has not implemented any new accounting standards with a material effect on the District's financial statements.

NOTE 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

The District is required to establish a budgetary system and an approved annual budget for the General Fund. Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. All annual appropriations lapse at the fiscal year end. The legal level of budgetary control is at the fund level. Any budget amendments that increase the aggregate budgeted appropriations, at the fund level, must be approved by the Board of Supervisors.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

1. Each year the District Manager submits to the District Board a proposed operating budget for the fiscal year commencing the following October 1.
2. Public hearings are conducted to obtain taxpayer comments.
3. Prior to October 1, the budget is legally adopted by the District Board.
4. All budget changes must be approved by the District Board.
5. The budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America.

NOTE 3 DEPOSITS AND INVESTMENTS

Deposits

The District's cash balances were entirely covered by federal depository insurance or by a collateral pool pledged to the State Treasurer. Florida Statutes Chapter 280, "Florida Security for Public Deposits Act", requires all qualified depositories to deposit with the Treasurer or another banking institution eligible collateral equal to various percentages of the average daily balance for each month of all public deposits in excess of any applicable deposit insurance held. The percentage of eligible collateral (generally, U.S. Governmental and agency securities, state or local government debt, or corporate bonds) to public deposits is dependent upon the depository's financial history and its compliance with Chapter 280. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses.

Cash balances of \$22,475 are held as deposits for fitness facility member access cards. This cash is considered restricted as it is refundable to the members.

NOTE 3 DEPOSITS AND INVESTMENTS (CONTINUED)

Investments

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

Under GASB 72, assets or liabilities are classified into one of three levels. Level 1 is the most reliable and is based on quoted prices for identical assets, or liabilities, in an active market. Level 2 uses significant other observable inputs when obtaining quoted prices for identical or similar assets, or liabilities, in markets that are not active. Level 3 is the least reliable, and uses significant unobservable inputs that uses the best information available under the circumstances, which includes the District's own data in measuring unobservable inputs.

Instead of establishing a written investment policy, the District elected to limit investments to those approved by Florida Statutes and the District Trust Indenture. Authorized District investments include, but are not limited to:

1. The Local Government Surplus Funds Trust Fund (SBA);
2. Securities and Exchange Commission Registered Money Market Funds with the highest credit quality rating from a nationally recognized rating agency;
3. Interest-bearing time deposits or savings accounts in qualified public depositories;
4. Direct obligations of the U.S. Treasury;

Investments made by the District at September 30, 2025 are summarized below.

Investment Type	Fair Value	Credit Rating	Weighted Average Maturity
US Bank Commercial Paper	\$ 2,987,564	A1	N/A
Money Market Funds	6,078,447	N/A	N/A
	<u>\$ 9,066,011</u>		

Credit Risk:

The District limits credit risk by restricting authorized investments to those described which are either backed by the full faith and credit of the United States Government or maintain the highest credit quality ratings of Moody's or S&P.

Custodial Credit Risk:

In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District requires that bank deposits be secured as provided by Chapter 280, Florida Statutes. This law requires local governments to deposit funds only in financial institutions designated as qualified public depositories by the Chief Financial Officer of the State of Florida, and creates the Public Deposits Trust Fund, a multiple financial institution pool with the ability to assess its member financial institutions for collateral shortfalls if a default or insolvency has occurred. At September 30, 2025, all of the District's bank deposits were in qualified public depositories.

For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At September 30, 2025, none of the investments listed are exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form.

Concentration of Credit Risk:

There is no limit on the amount the District may invest in any one issuer.

NOTE 3 DEPOSITS AND INVESTMENTS (CONTINUED)

Interest Rate Risk:

The District does not specifically address interest rate risk; however, their practice is to apply the prudent-person rule: Investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital, and in general, avoid speculative investments. The District invests to provide sufficient liquidity to pay obligations as they come due.

NOTE 4 CAPITAL ASSETS

Capital asset activity for the year ended September 30, 2025 was as follows:

	Beginning Balance	Additions	Disposals	Ending Balance

Depreciation was charged to physical environment expense.

NOTE 5 ASSIGNED FUNDS

The District has assigned \$3,152,234 of the general fund balance for use as follows; \$1,840,397 for future repair and replacement of roadways, \$248,157 for pond repair, \$188,390 for sidewalk repair, \$31,000 for gate repair, \$245,185 for renewal and replacement and \$599,105 has been budgeted as a general operating reserve, representing approximately three months of operations expense.

NOTE 6 LONG-TERM LIABILITIES

Series 2018 Special Assessment Revenue Bonds - Public Offering

On October 1, 2018, the District issued \$8,425,000 of Special Assessment Revenue Bonds Series 2018 consisting of \$3,465,000 Serial Series 2018 due from May 1, 2020 to May 1, 2029 with interest rates ranging from 2.375% to 3.500%; \$1,750,000 Term Bonds Series 2018 due on May 1, 2033 with a fixed interest rate of 3.875% and \$3,210,000 Term Bonds Series 2018 due on May 1, 2039 with a fixed interest rate of 4.125%. Interest is due semiannually on each May 1 and November 1. Principal on the Series 2018 Bonds is due annually commencing May 1, 2020 through May 1, 2039.

The Series 2018 Bonds are subject to redemption at the option of the District prior to their maturity and extraordinary mandatory redemption prior to their maturity in the manner determined by the Bond Indenture.

The Bond Indenture requires that the District maintain adequate funds in a reserve account to meet the debt service reserve requirement as defined in the Indenture. The requirement was met at September 30, 2025.

The Bond Indenture has certain restrictions and requirements relating principally to the use of proceeds to pay for the infrastructure improvements and the procedures to be followed by the District on assessments to property owners. The District agreed to levy special assessments in annual amounts adequate to provide payment of debt service and to meet the reserve requirements. The principal and interest on the Series 2018 Special Assessment Revenue Bonds issued under the Indenture are secured by all revenues received by the District from Series 2018 assessments levied and collected on the District lands benefited by the 2018 Project.

As of September 30, 2025, total principal and interest remaining on the Series 2018 Bonds totaled \$8,526,758. For the year ended September 30, 2025, \$619,614 principal and interest was paid. Special assessment revenue pledged was \$620,719.

Long-term debt activity for the year ended September 30, 2025 was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities:					
Bonds Payable:					
Revenue Bond Series 2018	\$ 6,790,000	\$ -	\$ (360,000)	\$ 6,430,000	\$ 360,000

NOTE 6 LONG-TERM LIABILITIES (CONTINUED)

At September 30, 2025, the scheduled debt service requirements on the bonds payable were as follows:

<u>Year Ending September 30,</u>	<u>Governmental Activities</u>	
	<u>Principal</u>	<u>Interest</u>
2026	\$ 360,000	\$ 248,892
2027	370,000	237,634
2028	380,000	225,566
2029	395,000	212,646
2030	410,000	198,820
2031 - 2035	2,310,000	741,580
2036 - 2039	2,205,000	231,620
	<u>\$ 6,430,000</u>	<u>\$ 2,096,758</u>

NOTE 7 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. These risks are covered by commercial insurance from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage during the last three years.

NOTE 8 INTERFUND

At September 30, 2025, the General Fund owed the Debt Service Fund \$2,797 for assessments not yet transferred. During the year, the Debt Service Fund transferred \$6,652 to the Capital Projects Fund as allowed in the bond indenture.

COMPLIANCE SECTION

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Supervisors
Meadow Pointe II Community Development District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (government auditing standards), the financial statements of the governmental activities, and each major fund of the *Meadow Pointe II Community Development District* (the "District") as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated June 26, 2026.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

Board of Supervisors
Meadow Pointe II Community Development District

Report on the Financial Statements

We have audited the financial statements of the *Meadow Pointe II Community Development District*, (the "District") as of and for the fiscal year ended September 30, 2025, and have issued our report thereon dated June 26, 2026.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* and Independent Auditor's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, rules of the Auditor General. Disclosures in those reports, which are dated June 26, 2026, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, require that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report. There were no such findings in the preceding financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. This information has been disclosed in the notes to the financial statements.

Financial Condition and Management

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify of the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the District. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Specific Information

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)7, Rules of the Auditor General, the District reported:

- a. The total number of District employees compensated in the last pay period of the District's fiscal year as not applicable.
- b. The total number of independent contractors to whom nonemployee compensation was paid in the last month of the District's fiscal year as 14.
- c. All compensation earned by or awarded to employees, whether paid or accrued, regardless of contingency n/a.
- d. All compensation earned by or awarded to nonemployee independent contractors, whether paid or accrued, regardless of contingency as \$213,670.

- e. Each construction project with a total cost of at least \$65,000 approved by the District that is scheduled to begin on or after October 1 of the fiscal year being reported, together with the total expenditures for such project as zero.
- f. A budget variance based on the budget adopted under Section 189.016(4), Florida Statutes, before the beginning of the fiscal year being reported if the District amends a final budget under Section 189.016(6), Florida Statutes, see budget statement.

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)9, Rules of the Auditor General, the District reported:

- a. The rate or rates of non-ad valorem special assessments imposed by the district as:

Operations and maintenance	\$ 1,017.12
Trash	216.00
Village reserves	31.89 - 342.22
Deed	51.87
Debt Service	51.77 - 565.54
- b. The total amount of special assessments collected by or on behalf of the District as \$3,065,815.
- c. The total amount of outstanding bonds issued by the District and the terms of such bonds as see notes to financial statements.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board of Supervisors and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH
THE REQUIREMENTS OF SECTION 218.415, FLORIDA STATUTES**

Board of Supervisors
Meadow Pointe II Community Development District

We have examined Meadow Pointe II Community Development District's (the District) compliance with the requirements of Section 218.415, Florida Statutes, during the year ended September 30, 2025. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States and, accordingly, included examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2025.

REQUEST FOR PROPOSALS LANDSCAPE MAINTENANCE SERVICES**

EVALUATION CRITERIA

1. Personnel & Equipment (20 Points Possible) (____Points Awarded)

This category addresses the following criteria: skill set and experience of key management and assigned personnel, including the project manager and other specifically trained individuals who will manage the property; present ability to manage this project; proposed staffing levels; capability of performing the work; geographic location; subcontractor listing; inventory of all equipment; etc. Skill set includes certification, technical training, and experience with similar projects. Please include resumes, certifications, etc., with proposal. Please also provide evidence of the proposer's ability to meet deadlines and be responsive to client needs.

2. Experience (25 Points Possible) (____Points Awarded)

A full twenty-five (25) points will be awarded to the Proposer which clearly distinguishes past & current record and experience of the Proposer in similar projects; volume of work previously awarded to the firm; past performance in any other contracts; etc.

3. Understanding Scope of RFP (15 Points Possible) (____Points Awarded)

This category addresses the following issues: Does the proposal demonstrate an understanding of the District's needs for the services requested? Does it provide all information as requested by the District including pricing, scheduling, staffing, etc.? Does it demonstrate clearly the ability to perform these services? Were any suggestions for "best practices" included? Does the proposal as a whole appear to be feasible, in light of the scope of work? Did the contractor use the forms provided from the Project Manual in responding to the proposal?

4. Financial Capacity (5 Points Possible) (____Points Awarded)

This category addresses whether the Proposer has demonstrated that it has the financial resources and stability as a business entity necessary to implement and execute the work. Proposer should include proof of ability to provide insurance coverage as required by the District as well as audited financial statements, or similar information.

5. Price (20 Points Possible) (____Points Awarded)

Twenty (20) points will be awarded to the Proposer submitting the lowest bid for Parts 1 - 4 (the Contract Amount). AN AVERAGE OF ALL THE YEARS' PRICING IS TO BE CONSIDERED WHEN AWARDING POINTS FOR PRICING - THE INITIAL TERM AND THE FIRST, SECOND, THIRD, AND FOURTH ANNUAL RENEWALS. All other proposers will receive a percentage of this amount based upon a formula which divides the low bid by the proposer's bid and is then multiplied by the number of points possible in this part of the Price evaluation.

EXAMPLE: Contractor "A" turns in a bid of \$210,000 and is deemed to be low bid and will receive the full 20 points. Contractor "B" turns in a bid of \$265,000. Bid "A" is divided by Bid "B" then multiplied by the number of points possible (20). $(210,000/265,000) \times 20 = 15.85$, therefore, Contractor "B" will receive 15.85 of 20 possible points. Contractor "C" turns in a bid of \$425,000. Bid "A" is divided by Bid "C" then multiplied by the number of points possible (20). $(210,000/425,000) \times 20 = 9.88$, therefore, Contractor "C" will receive 9.88 of 20 points.

6. Reasonableness of ALL Numbers (15 Points Possible) (____Points Awarded)

Up to fifteen (15) points will be awarded as to the reasonableness of ALL numbers, quantities & costs (including, but not limited to fertilizer quantities, mulch quantities based on Contractor's field measurements) provided, including the Essential Services as well as unit costs from the additional schedules.

Proposer's Total Score (100 Points Possible) (____Points Awarded)

Re: Re-bidding of landscape maintenance for Meadow Pointe II CDD

Dear Justin:

This letter agreement authorizes OLM, Inc. to rebid the landscape maintenance for the Meadow Pointe II CDD.

OLM will modify and update the current specifications as needed and will coordinate the bid process, conducting an on-site prebid meeting. Bids will be submitted to the District Office and OLM will receive bids via email from the bidding contractors. OLM will then verify accuracy, evaluate bids, and provide a bid summary package with detailed pricing backup.

After final dollar amounts are agreed upon, OLM will assist in the preparation of final contracts ready for execution. The fee for this will be \$2,800.

Please sign below authorizing us to begin and return via email.

Do not hesitate to call if you have any questions.

Sincerely,

Paul Woods

RESOLUTION 2026-14

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE MEADOW POINTE II COMMUNITY DEVELOPMENT DISTRICT DECLARING A VACANCY PURSUANT TO SECTION 190.006(3)(b), FLORIDA STATUTES; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Meadow Pointe II Community Development District (“District”) is a local unit of special-purpose government created and existing pursuant to Chapter 190, *Florida Statutes*; and

WHEREAS, on November 3, 2026, three (3) members of the Board of Supervisors (“Board”) are to be elected by the “Qualified Electors” of the District, as that term is defined in Section 190.003, *Florida Statutes*; and

WHEREAS, the District published a notice of qualifying period set by the Pasco County Supervisor of Elections at least two (2) weeks prior to the start of said qualifying period; and

WHEREAS, at the close of the qualifying period, no one qualified to run for the available seat designated as “Seat 2”; and

WHEREAS, pursuant to Section 190.006(3)(b), *Florida Statutes*, the Board shall declare Seat 2 vacant, effective the second Tuesday following the general election, and a Qualified Elector is to be appointed to such seat within ninety (90) days thereafter; and

WHEREAS, the Board finds that it is in the best interests of the District to adopt this Resolution declaring Seat 2 as vacant.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE MEADOW POINTE II COMMUNITY DEVELOPMENT DISTRICT:

SECTION 1. The following seat is hereby declared vacant effective as of November 17, 2026: Seat 2 (currently held by Kyle Molder).

SECTION 2. Until such time as the Board nominates a Qualified Elector to fill the vacancy declared in Section 1 above, the incumbent Supervisor for Seat 2 shall remain in office.

SECTION 3. This Resolution shall become effective upon its passage.

PASSED AND ADOPTED this 17th day of July 2026.

MEADOW POINTE II CDD
ENGINEERS REPORT FOR JULY 15th, 2026 BOARD MEETING

Discussion items:

New Building Construction – The next project team meeting is scheduled for 07/17/26, the following is the latest information from the last project team meeting, this information was discussed at the last BOS meeting. The project team met to review the conceptual design and project budget for the new building, with the Board reaffirming its preferred construction budget target of approximately \$3.5 million while recognizing flexibility up to approximately \$4.0 million if necessary. The team agreed to continue identifying cost-saving opportunities that preserve the building's functionality and long-term value before considering any reduction in the size of the main assembly hall. Discussion also included maintaining the current conceptual occupancy of approximately 135 occupants versus reducing capacity to approximately 100 occupants if required to meet budget constraints. At this time, the preference is to maintain the larger concept while evaluating other cost reductions. Paul will also review existing clubhouse room sizes and floor plans once provided by the District to assist in refining the design.

The team identified several potential scope reductions to help manage project costs, including removing decorative awnings, monument signage, most landscaping and irrigation, and various site amenities such as the flagpole, benches, tables, and waste receptacles from the construction contract, allowing these items to be furnished separately by the District. Additional savings will be evaluated by removing the maintenance building mezzanine, reviewing alternative interior finish materials, and simplifying select restroom finishes while maintaining durability. The possibility of District staff performing interior painting was discussed but was not recommended due to warranty, insurance, and coordination considerations. The project remains in the conceptual design phase, and the design team will continue working closely with the CMAR through schematic design to refine the project scope and update cost estimates as the design progresses to ensure alignment with the Board's budget objectives.

Next Steps

Once fixture counts, building information, survey data, and updated design files are received, the design team will reconvene to:

1. Finalize the preferred pool layout.
2. Confirm restroom and equipment building requirements.

3. Refine grading and drainage concepts.
4. Update the planning-level construction cost estimate for presentation to the Board.

Lap Pool – The next project team meeting is scheduled for 07/17/26, the following is the latest information from the last project team meeting, this information was discussed at the last BOS meeting. The project team met to continue refining the conceptual design for the proposed lap pool expansion and discussed several key design and coordination items. A primary discussion focused on the project delivery approach, including whether Avcon's civil engineering services should remain under a separate contract or be incorporated as a subconsultant to Borelli Group. George will review the proposals with Chandra and provide a recommendation on the preferred contractual structure. The team also evaluated the proposed lap pool location and determined that, based on current site constraints, including code requirements, the existing pool, splash pad, pond proximity, excavation limits, and required deck clearances, the current conceptual location is likely close to the practical limit. Additional evaluation will be completed to determine whether minor adjustments can be made while maintaining constructability and required setbacks.

The meeting also addressed several facility and infrastructure considerations associated with the pool expansion. Preliminary input from the aquatic design team indicates that additional restroom facilities will likely be required, pending verification of existing fixture counts, code-required fixture calculations, and compliance with maximum walking distance requirements. The proposed pool will also require a dedicated equipment building to house the mechanical systems, with the current concept combining restroom and equipment functions into a single structure adjacent to the new pool. The team will continue evaluating the building layout, grading and drainage between the existing and proposed pools, potential pond and permitting impacts, and the design of the mechanical yard, including appropriate screening for air-source heat pumps while maintaining required access and ventilation.

Next Steps

Once fixture counts, building information, survey data, and updated design files are received, the design team will reconvene to:

1. Finalize the preferred pool layout.
2. Confirm restroom and equipment building requirements.
3. Refine grading and drainage concepts.
4. Update the planning-level construction cost estimate for presentation to the Board.

Warning Gate at Wrencrest Drive: BDi completed an updated draft application for the new soft gate on Wrencrest Drive including supporting documents from application checklist. District staff has submitted the updated application. The County has approved to waive the new application fees.

Dog Park at Iverson: We have received the updated irrigation plan from Juniper and are reviewing the plan and the application packet for submission. We have attached the irrigation plan to this report.
