PIAA COMPREHENSIVE INITIAL PRE-PARTICIPATION PHYSICAL EVALUATION

INITIAL EVALUATION: Prior to any student participating in Practices, Inter-School Practices, Scrimmages, and/or Contests, at any PIAA member school in any school year, the student is required to (1) complete a Comprehensive Initial Pre-Participation Physical Evaluation (CIPPE); and (2) have the appropriate person(s) complete the first six Sections of the CIPPE Form. Upon completion of Sections 1 and 2 by the parent/guardian; Sections 3, 4, and 5 by the student and parent/guardian; and Section 6 by an Authorized Medical Examiner (AME), those Sections must be turned in to the Principal, or the Principal's designee, of the student's school for retention by the school. The CIPPE may not be authorized earlier than June 1st and shall be effective, regardless of when performed during a school year, until the latter of the next May 31st or the conclusion of the spring sports season.

SUBSEQUENT SPORT(S) IN THE SAME SCHOOL YEAR: Following completion of a CIPPE, the same student seeking to participate in Practices, Inter-School Practices, Scrimmages, and/or Contests in subsequent sport(s) in the same school year, must complete Section 7 of this form and must turn in that Section to the Principal, or Principal's designee, of his or her school. The Principal, or the Principal's designee, will then determine whether Section 8 need be completed.

B. Understanding of eligibility rules: I hereby acknowledge that I am familiar with the requirements of PIAA concerning the eligibility of students at PIAA member schools to participate in Inter-School Practices, Scrimmages, and/or Contests involving PIAA member schools. Such requirements, which are posted on the PIAA Web site at www.piaa.org, include, but are not necessarily limited to age, amateur status, school attendance, health, transfer from one school to another, season and out-of-season rules and regulations, semesters of attendance, seasons of sports participation, and academic performance.

Parent's/Guardian's Signature _____Date____/____/_____

C. Disclosure of records needed to determine eligibility: To enable PIAA to determine whether the herein named student is eligible to participate in interscholastic athletics involving PIAA member schools, I hereby consent to the release to PIAA of any and all portions of school record files, beginning with the seventh grade, of the herein named student specifically including, without limiting the generality of the foregoing, birth and age records, name and residence address of parent(s) or guardian(s), residence address of the student, health records, academic work completed, grades received, and attendance data.

Parent's/Guardian's Signature _____Date____/____/_____

D. Permission to use name, likeness, and athletic information: I consent to PIAA's use of the herein named student's name, likeness, and athletically related information in video broadcasts and re-broadcasts, webcasts and reports of Inter-School Practices, Scrimmages, and/or Contests, promotional literature of the Association, and other materials and releases related to interscholastic athletics.

Parent's/Guardian's Signature _____Date____/____/_____

E. Permission to administer emergency medical care: I consent for an emergency medical care provider to administer any emergency medical care deemed advisable to the welfare of the herein named student while the student is practicing for or participating in Inter-School Practices, Scrimmages, and/or Contests. Further, this authorization permits, if reasonable efforts to contact me have been unsuccessful, physicians to hospitalize, secure appropriate consultation, to order injections, anesthesia (local, general, or both) or surgery for the herein named student. I hereby agree to pay for physicians' and/or surgeons' fees, hospital charges, and related expenses for such emergency medical care. I further give permission to the school's athletic administration, coaches and medical staff to consult with the Authorized Medical Professional who executes Section 6 regarding a medical condition or injury to the herein named student.

F. CONFIDENTIALITY: The information on this CIPPE shall be treated as confidential by school personnel. It may be used by the school's athletic administration, coaches and medical staff to determine athletic eligibility, to identify medical conditions and injuries, and to promote safety and injury prevention. In the event of an emergency, the information contained in this CIPPE may be shared with emergency medical personnel. Information about an injury or medical condition will not be shared with the public or media without written consent of the parent(s) or guardian(s).

SECTION 3: UNDERSTANDING OF RISK OF CONCUSSION AND TRAUMATIC BRAIN INJURY

What is a concussion?
A concussion is a brain injury that:

- Is caused by a bump, blow, or jolt to the head or body.
- Can change the way a student's brain normally works.
- Can occur during Practices and/or Contests in any sport.
- Can happen even if a student has not lost consciousness.
- Can be serious even if a student has just been "dinged" or "had their bell rung."

All concussions are serious. A concussion can affect a student's ability to do schoolwork and other activities (such as playing video games, working on a computer, studying, driving, or exercising). Most students with a concussion get better, but it is important to give the concussed student's brain time to heal.

What are the symptoms of a concussion?
Concussions cannot be seen; however, in a potentially concussed student, ***one or more*** of the symptoms listed below may become apparent and/or that the student "doesn't feel right" soon after, a few days after, or even weeks after the injury.

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Bothered by light or noise
- Feeling sluggish, hazy, foggy, or groggy
- Difficulty paying attention
- Memory problems
- Confusion

What should students do if they believe that they or someone else may have a concussion?

- **Students feeling any of the symptoms set forth above should immediately tell their Coach and their parents.** Also, if they notice any teammate evidencing such symptoms, they should immediately tell their Coach.
- **The student should be evaluated.** A licensed physician of medicine or osteopathic medicine (MD or DO), sufficiently familiar with current concussion management, should examine the student, determine whether the student has a concussion, and determine when the student is cleared to return to participate in interscholastic athletics.
- **Concussed students should give themselves time to get better.** If a student has sustained a concussion, the student's brain needs time to heal. While a concussed student's brain is still healing, that student is much more likely to have another concussion. Repeat concussions can increase the time it takes for an already concussed student to recover and may cause more damage to that student's brain. Such damage can have long term consequences. It is important that a concussed student rest and not return to play until the student receives permission from an MD or DO, sufficiently familiar with current concussion management, that the student is symptom-free.

How can students prevent a concussion? Every sport is different, but there are steps students can take to protect themselves.

- Use the proper sports equipment, including personal protective equipment. For equipment to properly protect a student, it must be:
  The right equipment for the sport, position, or activity;
  Worn correctly and the correct size and fit; and
  Used every time the student Practices and/or competes.
- Follow the Coach's rules for safety and the rules of the sport.
- Practice good sportsmanship at all times.

If a student believes they may have a concussion: Don't hide it. Report it. Take time to recover.

I hereby acknowledge that I am familiar with the nature and risk of concussion and traumatic brain injury while participating in interscholastic athletics, including the risks associated with continuing to compete after a concussion or traumatic brain injury.

SECTION 4: UNDERSTANDING OF SUDDEN CARDIAC ARREST SYMPTOMS AND WARNING SIGNS

What is sudden cardiac arrest?

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens blood stops flowing to the brain and other vital organs. SCA is NOT a heart attack. A heart attack may cause SCA, but they are not the same. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the heart to suddenly stop beating.

How common is sudden cardiac arrest in the United States?

There are about 300,000 cardiac arrests outside hospitals each year. About 2,000 patients under 25 die of SCA each year.

Are there warning signs?

Although SCA happens unexpectedly, some people may have signs or symptoms, such as:

- dizziness
- lightheadedness
- shortness of breath
- difficulty breathing
- racing or fluttering heartbeat (palpitations)
- syncope (fainting)
- fatigue (extreme tiredness)
- weakness
- nausea
- vomiting
- chest pains

These symptoms can be unclear and confusing in athletes. Often, people confuse these warning signs with physical exhaustion. SCA can be prevented if the underlying causes can be diagnosed and treated.

What are the risks of practicing or playing after experiencing these symptoms?

There are risks associated with continuing to practice or play after experiencing these symptoms. When the heart stops, so does the blood that flows to the brain and other vital organs. Death or permanent brain damage can occur in just a few minutes. Most people who have SCA die from it.

Act 59 – the Sudden Cardiac Arrest Prevention Act (the Act)

The Act is intended to keep student-athletes safe while practicing or playing. The requirements of the Act are:

Information about SCA symptoms and warning signs.

- Every student-athlete and their parent or guardian must read and sign this form. It must be returned to the school before participation in any athletic activity. A new form must be signed and returned each school year.
- Schools may *also* hold informational meetings. The meetings can occur before each athletic season. Meetings may include student-athletes, parents, coaches and school officials. Schools may also want to include doctors, nurses, and athletic trainers.

Removal from play/return to play

- Any student-athlete who has signs or symptoms of SCA must be removed from play. The symptoms can happen before, during, or after activity. Play includes all athletic activity.
- Before returning to play, the athlete must be evaluated. Clearance to return to play must be in writing. The evaluation must be performed by a licensed physician, certified registered nurse practitioner, or cardiologist (heart doctor). The licensed physician or certified registered nurse practitioner may consult any other licensed or certified medical professionals.

I have reviewed and understand the symptoms and warning signs of SCA.

NORTH EAST SCHOOL DISTRICT EXTRA-CURRICULAR ACTIVITIES RULES AND REGULATIONS

All students who participate in extra-curricular activities sponsored by North East School District shall automatically abide by these rules:

a) Promptness and attendance when a sponsor is relying on students to be at a prescribed place at a specific time. Failure to be present and prompt can cause delays on transportation and in the entire activity.

b) All school rules prescribed in the discipline code apply to school activities with penalties listed.

c) Participation in a school function is part of a student's education. Thus, school officials will encourage participation of all students who do so with the proper attitude such as willingness to work, attend practice, etc.

Failure to abide by the above rules will result in suspension or expulsion from the activity enforced by the sponsor and other penalties provided in the discipline code.

EXTRA-CURRICULAR ACTIVITIES ARE DEFINED AS activities that are not included as part of the daily academic curriculum in the school district. Activities covered by this code include any and all organizations that do not award a grade as condition for participation.

Students who participate in extra-curricular activities are expected to agree to and abide by the following rules:

1. ATTENDANCE FOR THE FULL SCHOOL DAYS IS ABSOLUTELY NECESSARY FOR PARTICIPATION IN EXTRA-CURRICULAR ACTIVITIES. Each student is in school to gain an education as the prime purpose. Participation in extra-curricular activities is one of the by-products. ABSENCE FROM OR TARDINESS TO SCHOOL AUTOMATICALLY EXCLUDES A STUDENT FROM PARTICIPATION ON THAT DAY. Allowances will be made for reasons of school visitations or doctor's appointments. Students may be required to present a signed appointment card in the case of a doctor's appointment. Unusual cases will be evaluated by the athletic director or principal on an individual basis.

2. The use and/or possession of alcoholic beverages or un-prescribed drugs on school property, school buses, or during activities under school jurisdiction absolutely forbidden to all students. A student guilty of breaking this rule shall be immediately dismissed from all extra-curricular activities for a period of 45 school days. During this suspension student are also prohibited from participating in any weekend (Sat/Sun) extra-curricular activity. This extra-curricular activity suspension does not affect the students' attendance at school related social functions such as dances, concerts, plays, commencement, etc. Second offenders that same school year shall be suspended from all extra participation for one calendar year.

3. The use and/or possession of tobacco, inhalers, vapor· devices, or any other contraband outlined in the student handbook on school property, school buses or during activities under school jurisdiction is forbidden to all students. Any student guilty of breaking this rule should be immediately suspended from activities for five (5) school days. Second offenders shall be immediately dismissed from participating in all extra-curricular activities for 45 SCHOOL DAYS. During the suspension students are also prohibited from participating in any weekend (Sat/Sun) activity. NOTE: Suspension from extra-curricular activities as described in items 2 and 3 does not automatically prohibit a student from attending school dances, assemblies, plays, concerts, ceremonies, etc. In addition, attendance of athletic events as a spectator is also permissible unless otherwise prohibited by the Administration. EXAMPLE: Should any member of the student body be found guilty of use and/or possession of alcoholic beverages, un-prescribed drugs or tobacco (as defined in items 2 and 3) he/she would be suspended from all extracurricular activities for 45 school days. If the student planned to participate in an upcoming athletic season, he/she would be ineligible to participate until the 45 school day suspension is completed.

4. Students who participate in extra-curricular activities are representatives of our school and shall set a superior standard of behavior. Students can and will be suspended or even dismissed from the extra-curricular activity for conduct detrimental to the activity or the school for receiving an excess of detentions for rule infractions. Students who are on out-of-school suspension are prohibited from participation in extra-curricular activities for the duration of their suspension.

5. Students shall strive for academic achievement. A student is required to pass seven out of eight classes to retain eligibility. A student failing a single class will be required to attend the tutorial period dally of the course he/she is failing. Should a student have an unexcused absence from the tutorial session, he/she will become ineligible immediately for that week, failure to do so will result in suspension from the activity for at least one week. Eligibility will be checked on a weekly basis.

6. Each student is to strive to be loyal to the coach or the advisor and abide by the rules and regulations of their activity and their school. The school District's rules shall be considered as minimum standards and can be exceeded when the particular charter or needs of the local program so indicate. Such rules and regulations are subject to approval by the building principal.

7. Any student who feels that he/she has been unjustly accused or punished too severely has the right to appeal in a hearing in a procedure outline in the Student Handbook. In the event of an appeal, the decision of the Administration will remain in effect until the appeal process has been completed.

RE: STUDENT ATHLETIC INSURANCE

Since the North East School District does not purchase Interscholastic Athletic Insurance coverage, it is necessary to assure that all athletes are properly covered in the event of an accidental athletic injury. Accordingly, before any student athlete can engage in any team or individual practices, competitions or activities, the information requested below must be supplied to the Athletic Director via the head coach.

Coaches are hereby directed to not allow any participation of an athlete in any interscholastic sports activity until the information below is supplied.

If parents do not have health insurance, then parents agree to be fully responsible for health care costs arising out of student's participation in athletics. Parents agree to hold harmless indemnify and defend the North East School District from any and all claims, causes of action or loss arising out of or related to the student's participation in athletics.
