Nex Trex Recycling Challenge at NEES!

Dear Families,

North East Elementary School has a great recycling opportunity! Trex is offering a community recycling challenge. Our school will collect specific types of used plastic, weigh it each month, log the results, and then drop the plastics at one of their collection sites. They will then recycle the plastic and donate a composite bench to our school made from the recycled plastics!

The children will learn more about this challenge in the upcoming weeks. The goal is to collect 1000 lbs of plastic! This sounds like a daunting task but it is much easier than you think, since we use SO MUCH PLASTIC daily!

Please see the list of accepted plastics on the back of this page. Send your plastics to school with your child. The collection bins are located in the core areas and near the pool entrance!

Please send an email if you have any questions-askrekla@nesd1.org.

Let's keep the plastics we use out of the landfill and earn a beautiful recycled bench for our school!

THANK YOU for all your efforts!
