Section 1 Rules of Procedure

Section 1.1 General.

- A. The Riverwood Community Development District (the “District”) was created pursuant to the provisions of Chapter 190, Florida Statutes and was established to provide for the ownership, operation, maintenance, and provision of various capital facilities and services within its jurisdiction. The purpose of these rules (the “Rules”) is to describe the general operations of the District.
- B. Definitions located within any section of these Rules shall be applicable within all other sections, unless specifically stated to the contrary.

Specific Authority: §§ 190.011, 120.53(4)(a), Fla. Stat.

Law Implemented: §§ 190.011(5), 120.53(4)(a), Fla. Stat.

Section 1.2 Board of Supervisors; Officers and Voting.

- A. Board of Supervisors. The Board of Supervisors of the District (the “Board”) shall consist of five (5) members. Members of the Board must be residents of the State of Florida and citizens of the United States. The Board shall exercise the powers granted to the District.
- B. Term of Officers. Board members shall hold office for the term specified by Section 190.006, Florida Statutes. If, during the term of office, any Board Member(s) vacates their office, the remaining member(s) of the Board shall fill the vacancies by appointment for the remainder of the term(s).
- C. Vacancies: Quorum. Three (3) members of the Board physically present at the same location shall constitute a quorum for the purposes of conducting business and exercising its powers and for all other purposes. However, if three (3) or more vacancies occur at the same time, a quorum is not necessary to fill the vacancies. Action taken by the Board shall be upon a majority vote of the members present, unless otherwise provided in the Rules or required by law. Members of the board, as well as staff or employees of the District may be present by telephone, provided that the quorum is present at the meeting location and that such telephone attendance is accomplished by speaker-so that all present may hear and respond to the comments of the party attending by telephone. Nothing herein shall require the district to permit members of the public to attend a meeting by telephone.
- D. Officers. At the first Board meeting after each election, the newly-elected Board members shall take office. To the extent practicable, at this meeting the Board shall elect a chair and a secretary, and may elect such other officers as the Board deems necessary, including a Vice Chair, Treasurer, Assistant Treasurer, and Assistant

Secretary. The Chair and Vice Chair shall be members of the Board, but other officers need not be.

1. The Chair must be a member of the Board. If the Chairman resigns from that Office or ceases to be a member of the Board, the Board shall select a Chair, after filling the board vacancy. The Chair may be authorized to sign checks and warrants for the district, countersigned by the treasurer or other persons authorized by the board. The chair may convene and conduct all meetings of the Board. In the event the chair is unable to attend a meeting, the vice chair or other member of the Board may convene and conduct the meeting.
2. The Vice Chair shall be a member of the Board and shall have such duties and responsibilities as specifically designated by the Board from time to time. If the Vice Chair resigns from that office or ceases to be a member of the Board, the Board shall select a Vice Chair to serve the remainder of the term, after filling the Board vacancy.
3. The Secretary of the Board serves at the pleasure of the Board and need not be a member of the board. The Secretary shall be responsible for maintaining the minutes of Board meetings and may have other duties assigned by the Board from time to time. The District Manager may serve as Secretary.
4. The Treasurer need not be a member of the Board but must be a resident of Florida. The Treasurer shall perform duties described in Section 190.007(2) and (3), Florida Statutes, as well as those assigned by the Board from time to time. The Treasurer shall serve at the pleasure of the Board.

- E. Committees. The Board may establish committees of the Board, either on a permanent or temporary basis, to perform specifically designated functions. Committees may include individuals who are not members of the Board. Such functions may include, but are not limited to, contract negotiations, personnel matters, and budget preparation.
- F. Record Book. The Board shall keep a permanent record book entitled "Record of Proceedings of the Riverwood Community Development District", in which shall be recorded minutes of all meetings, resolutions, proceedings, certificates, bonds given by all employees and corporate acts.
- G. Meetings. The Board shall establish a schedule of regular meetings and may also meet upon call of the chair or three board members. Nothing herein shall prevent the Board from holding other meetings as it deems necessary or from canceling any regularly scheduled meetings. A previously noticed regular meeting may be canceled, provided the notice of cancellation shall be given in substantially the same manner as notice for the meeting or in such other manner as may provide substantially equivalent notice of cancellation. All meetings of the board shall be open to the public and governed by the provisions of Chapter 286, Florida Statutes.
- H. Voting Conflict of Interest. The Board shall comply with Section 112.3143, Florida Statutes, so as to ensure the proper disclosure of conflicts of interests on matters coming before the Board for a vote. For the purposes of this section, "voting conflict

of interest" shall be governed by Chapters 112 and 190, Florida Statutes, as amended from time to time.

When a Board member knows that he/she has a conflict of interest on a matter coming before the Board, the member should notify the Board's Secretary prior to participating in any discussion with the Board on the matter. The member shall publicly announce the conflict of interest at the meeting. This announcement shall appear in the minutes of the meeting. The Board's secretary shall prepare a memorandum of voting conflict which shall then be signed by the Board member that had the conflict.

B. Records Custodian

C. Records Retention

The Records Custodian shall maintain a permanent records book entitled “Record of Proceedings of Riverwood Community Development District”, which shall contain the minutes of all meetings, resolutions, proceedings, certificates, bonds given by all employees, and any and all corporate acts. **This book shall be maintained in Charlotte County, Florida.** The Records Custodian shall ensure that all public records of the District, as defined in Chapter 119, Florida Statutes, are retained and disposed of in accordance with the General Records Schedule GS1-SL for State and Local Government Agencies, as may be amended from time to time.

Records requests shall be fulfilled as quickly as reasonably possible, given the nature of the request.

F. Confidential or Exempt Information

If any portion of a public records request includes information that is confidential or exempt from inspection under Florida law, the Records Custodian shall, if possible, redact the confidential or exempt information and provide the remainder of the record for inspection. If confidential or exempt information is withheld from the records inspection, the Records Custodian shall state the basis for the exemption, including the statutory citation. If so requested by the requestor, the Records Custodian shall state in writing and with particularity the reasons for the conclusion that the record is exempt or confidential.

G. Copying of Records

The Records Custodian, or his or her designee, shall furnish copies of public records upon prior payment of the copying fees (See Appendix E)

All expenditures in excess of 10% of any line item in the budget must be approved by the board in advance of incurring such expense; however, in the case of an emergency expenditure affecting the health, safety or welfare of the District, its residents, or landowners, such expenditures must be approved in advance by the chair, or in the absence of the Chair, the Vice Chair.

Notice of emergency rules shall be published as soon as possible in a newspaper of general circulation in the District. The District may use any procedure which is fair under the circumstances in the adoption of an emergency rule as long as

Section 3.25 Private Fire Service Connection: A private fire service connection is to be used for fire purposes only and is to have no connection whatsoever with any service lines that may be used for other than fire purposes, and because of the danger of pollution, shall have no connection with any other source of supply with the exception in case a tank or fire pump is installed as secondary supply. There shall be a backflow preventer installed by the consumer at his expense in each District connection to prevent the water from secondary supplies from flowing into District mains.

The consumer shall not draw any water whatsoever through this connection for any purpose except the extinguishing of fires, or for periodic tests of the fire system, which tests shall be made in the presence of a representative of the District. Any authorized representative of the District shall have free access to the building at any reasonable time for the purpose of inspecting any equipment.

The consumer shall set in this connection at the point of delivery, a weighted check valve fitted with by-pass on which shall be set a meter, installed by the District at consumer's expense, the purpose of which shall be to indicate whether or not water is being used through this connection and for the further purpose of showing any leakage, if same exists. All meters shall become the property of the District.

Section 3.26 Termination of Service:

A. All utility service shall be pursuant to proper permit or application, which procedure accords the District the opportunity to provide for orderly expansion of facilities and regulation thereof in a manner calculated to ensure continuous service to all consumers. Inherent in this obligation is the governmental prerogative of necessity to terminate consumption which is adverse to the continuous, orderly and uninterrupted operation and maintenance of its utility service. Accordingly, the District reserves the right by unilateral act in its sole discretion, to refuse service, or to terminate service temporarily or to discontinue service in all instances when conditions exist which would constitute an emergency of public concern, or when the providing of any service would constitute a threat to the safety, health or welfare of consumers generally or a significant portion of the consumer population.

B. When discontinuance or termination of service can be remedied by an act of the consumer; District shall provide notice of remedial action to the consumer in order that service may be continued uninterrupted. The District shall have the authority to interrupt, discontinue, or terminate service, for any of the following reasons, after consumer has been notified and has failed to take the prescribed remedial action:

1. Failure to pay required deposits for service.
2. Failure of consumer to meet provisions of agreements with the District.
3. Failure to correct deficiencies in piping or other components upon consumer's property after reasonable notice thereof.
4. Use of service for any property or purpose other than described in the permit or application.
5. Failure to pay user fees for service rendered.

Section 3.27 Rate Schedule: The Schedule of Water and Sewer Rates, Fees and Charges is pursuant to Appendix A. This Schedule may be amended from time to time by rule of the Board of Supervisors upon public notice and at least one public hearing.

Section 3.28 General. The District owns, operates and maintains water treatment and distribution and sewage collection, also treatment and disposal systems which serve residents within the District's service area. The adopted level of service for these facilities is 225 gallons per day per equivalent residential connection ("GPD/ERC"), and the District shall not make new service connections which would cause the District's system to exceed the adopted level of service. New development may require the extension of mains to provide service, as well as expansion of facilities to accommodate new development. In some instances, the District in anticipation of expansion of its system due to growth and development has already provided mains for services thereof. The cost of providing extensions, modifications and expansions of facilities is to be borne by property owners, builders, or developers within the District's service area to defray costs of these extensions, modifications, and expansions. The allocable share of each is to be charged as described herein. It is the declared policy of the District by this Rule to

establish a uniform method of determining charges for availability of services so that all such contributions shall be non-discriminatory among the various consumers served by the District's systems and shall be applied as nearly as possible with uniformity to all consumers within the District's service areas. District specifically reserves its rights to fix and determine rates, fees, charges and contributions required for the provisions, consumption, operation, maintenance, extension and expansion of its utility services provided herein and as authorized by law. Each consumer is hereby notified that the District, in the exercise of its governmental responsibility to provide for the welfare of all consumers of its utility services, has the authority and responsibility to amend its schedules of rates, fees charges, and contributions from time to time to ensure the perpetuation of service.

Section 3.29 Easements and Rights of Way: As a prerequisite to the construction of any water distribution or sewage collection system proposed to be connected to the facilities of the District, developer shall agree to grant District such easements or rights of way corresponding with the installation of the proposed facilities. Such grant or conveyance shall be in the form satisfactory to the District. Such conveyances, when located on the property shall be made without cost to the District. District reserves the right to require such easement or right of way to the point at which the meter is proposed to be installed or at the point of delivery of service, being the point at which the meter is proposed to be installed or at the point of delivery of service, being the point at which the facilities of District joins with consumers. Such easements and right of way shall be conveyed and accepted upon completion, approval and acceptance of the work done by the developer.

Section 3.30 Inspection: The District shall inspect the installation of all water distribution or sewage collection facilities installed by developer or developer's contractors, which facilities are proposed to be transferred to District's ownership, operation and control. In the event that gravity sewer facilities are to remain under ownership, operation and control of the developer as a private system, the district reserves the right to inspect installation of the gravity sewage collection facilities for the purpose of determining if the system has excessive infiltration. These systems must meet the same infiltration criteria as that of district owned systems. Such inspections are intended to assure that water and sewer lines and/or lift stations are installed in accordance with approved designs and are further consistent with the criteria and specifications governing the kind of and quality of such installation. Representatives of the District may be present at tests of component parts of water distribution or sewage collection systems for the purpose of determining that the system, as constructed, conforms to District's criteria for exfiltration, infiltration, pressure testing, line and grade. Such tests will be performed by developer or developer's contractor, but only under direct supervision of the engineer of record or his authorized inspector. The results of such testing shall be certified at least 48 hours prior to any inspections or testing performed in accordance with these regulations.

Section 3.31 Transfer of Contributed Property - Bills of Sale: Each developer who has constructed portions of the water distribution and sewage collection system prior to

interconnection with District's existing facilities, shall convey such component parts of water distribution and sewage collection system to District by bill of sale in form satisfactory to the district to ensure that the water distribution and sewage collection system proposed to be transferred to District is free of all liens and encumbrances.

Any facilities in the category of consumers' lines, plumbers' lines or consumer's installation, located on the discharge side of the water meter or on the consumer's side of the point of delivery of service shall not be transferred to district and shall remain the property the maintenance responsibility of developer or subsequent consumers.

District shall not be required to accept title to any component part of the water distribution or sewage collection system as constructed by developer until the District Engineer has approved the construction of said lines, accepted the tests to determine that such construction is in accordance with the criteria established by District and the Board of Supervisors has evidenced its acceptance of such lines for District's ownership, operation and maintenance.

Developer shall maintain accurate cost records establishing the construction costs of all utility facilities constructed by developer and proposed to be transferred to District. Such cost information shall be furnished to the District concurrently with the bill of sale and such cost information shall be prerequisite for the acceptance by District of the portion of water distribution and sewage collection system construction by developer.

District may refuse connection and deny the commencement of service to any consumer seeking to be connected to portions of the water distribution and sewer collection system installed by developer until such time as the provisions of this paragraph have been fully met by developer or developer's successors or assigns.

Section 3.32 Utility Inspection Fees: The cost of engineering inspection of the required improvements shall be paid by the developer at the time the D.E.P. application is executed by the District.

Section 3.33 Refundable Advances: The District may require, in addition to the contribution provisions set forth herein, a refundable advance by developer to further temporarily defray the cost of any off site extension of water and/or sewer mains and pumping stations necessary to connect the developer's property with the terminus of the District's water and sewer facilities adequate in size to provide service to the subject property. However, this rule recognizes instances in which a developer may be required to advance hydraulic share applicable to other undeveloped property in order that offsite facilities may be constructed to serve the District's master plan. All amounts expended by developer, over and above developer's hydraulic share for offsite facilities shall be refunded to developer in accordance with terms and conditions of a refunding agreement which the District will execute with developer. The refunding agreement shall provide for a plan of refund based upon connection of other properties, to the extent of their hydraulic share, which properties will be served by the offsite facilities installed by the developer. Notwithstanding the provisions of this section, the District will limit the life

of such refund agreement to a term of not more than five (5) years or until such time as the utility is sold to another entity after which time any portion of the refund agreement will have lapsed and thereafter, such refund agreement will be canceled. In no event shall developer recover an amount greater than the difference between the capitalized cost of such offsite improvements and developer's own hydraulic share of such improvements. The District shall not include any interest upon the refund of developer's advance.
