Re: Request for Qualifications for Professional Engineering Services  
Riverwood Community Development District

Dear Mr. Faircloth:

Barraco and Associates, Inc. (BAI) is pleased to submit this Statement of Qualifications to the Riverwood Community Development District (CDD) to serve as District Engineer.

BAI proposes Carl A. Barraco, Sr., P.E., to serve as District Engineer, with assistance from Carl Barraco, Jr., P.E., Frank Savage, and Douglas Tarn. Mr. Barraco, Sr.'s experience with CDDs is diversified, including serving as CDD Supervisor for two independent Districts in Lee County for a combined tenure of eight years, assisting with the establishment of 27 CDDs, and serving as District Engineer for 27 Districts over the years. The Firm currently serves as District Engineer for 21 CDDs. This experience provides a thorough knowledge of CDDs including their operating procedures and budgets. Mr. Savage and Mr. Tarn assist Mr. Barraco with a number of the Firm's current CDD responsibilities including meeting attendance, project management, field operations and construction services. Many CDDs do not have daily engineering issues; therefore, in order to preserve the CDD budget, BAI confirms with the respective CDD Manager whether the District Engineer's presence is needed or requested for each scheduled CDD BOS meeting.

Barraco and Associates appreciates this opportunity to provide the Firm's qualifications for District Engineer for the Riverwood Community Development District and we look forward to the opportunity to provide professional services to the Riverwood CDD.

If you should have any questions or require additional information, please advise.

Very truly yours,

**BARRACO AND ASSOCIATES, INC.**

Carl A. Barraco, P.E.

# Qualifications

ability/adequacy

**B**arraco and Associates, Inc. (BAI) was established in 1998; however, the firm's senior principals have worked together for 40 years in Southwest Florida. This history of shared work experience provided the solid foundation on which to build the firm and quickly established BAI as a regional leader of professional consulting firms in Southwest Florida.

BAI is headquartered in Fort Myers, blocks from the Lee County Government and Public Works offices as well as the City of Fort Myers City Hall and other federal, state and local review agencies including the South Florida Water Management District, Florida Department of Environmental Protection, Florida Department of Transportation, and U.S. Army Corps of Engineers. Our proximity, coupled with interaction on numerous projects over the years, has secured a working knowledge and skillful aptitude of the criteria, processes, policies and procedures utilized for planning, permitting, designing and construction of projects in Southwest Florida. This experience has afforded BAI valuable insights to the various public information approaches along with a history of precedents, agency staff and working relationships among the involved entities. Project management is not an exact science and this experience is critical to implementing a timely project process.

The diversity of Barraco and Associates' expertise is illustrated in the following abbreviated list of professional consulting services provided by BAI staff.

## ENGINEERING SERVICES

- ✦ Community Development Districts - District Engineer Duties
- ✦ Engineering Cost Analysis
- ✦ Traffic Impact Statements
- ✦ Utility Design

- ✦ Stormwater Management
- ✦ Roadway Design
- ✦ Permitting
- ✦ Utility Coordination
- ✦ Emergency Preparedness Plans
- ✦ Signing and Marking Design
- ✦ Access Management
- ✦ Project Management
- ✦ Intersection Design
- ✦ Maintenance of Traffic Plans
- ✦ Expert Witness
- ✦ Design Alternatives
- ✦ Construction Plan Preparation
- ✦ Technical Specifications

## CONSTRUCTION ADMINISTRATION SERVICES

- ✦ Construction Engineering and Inspection (CEI)
- ✦ Assistance with Contractor Selection
- ✦ Design and Constructability Reviews
- ✦ Observation Activities
- ✦ Obtain Record Information
- ✦ Shop Drawing Reviews
- ✦ Contractor Pay Request Review
- ✦ Testing Materials & Result Review
- ✦ Pre-Construction Meeting
- ✦ Public Information Facilitation
- ✦ Public Involvement Workshops

## SURVEYING & MAPPING

- ✦ Boundary and Control Surveys
- ✦ Sketches and Legal Descriptions
- ✦ Topographic Surveys
- ✦ Subdivision Platting
- ✦ Construction Stakeout
- ✦ GPS Services
- ✦ Deed Research
- ✦ Mortgage Inspections
- ✦ Right-of-Way Surveys
- ✦ Jurisdictional Surveys

## PLANNING

- ✦ Planned Development Rezoning
- ✦ Special Exceptions and Variances
- ✦ Community Planning
- ✦ Developments of Regional Impact (DRI)
- ✦ Due Diligence/Feasibility Study
- ✦ Comprehensive Plan Amendments
- ✦ Conflict Resolution
- ✦ Public Involvement & Facilitation
- ✦ Design Guidelines
- ✦ Zoning
- ✦ Master Concept Plans

## Proposed Personnel

BAI currently employs 58 staff members. Key management members of Barraco and Associates include Carl A. Barraco, P.E. - President, Carl Barraco, Jr., P.E. - Vice President, Wes Kayne, P.E. - Vice President of Engineering, Scott Wheeler, P.S.M. - Vice President of Surveying, Vincent Barraco, Jr., P.E. - Vice President/BAI North, Douglas Tarn - Construction Engineering Manager, and Vincent Cautero, AICP - Vice President of Land Planning.

For the Riverwood Community Development District, BAI proposes Carl A. Barraco, Sr., P.E., as District Engineer, with Carl Barraco, Jr., P.E., proposed as Assistant District

Engineer, Frank Savage as CDD Project Manager, and Douglas Tarn as Construction Services Manager. Regular District meeting attendance will be handled by Mr. Barraco, Sr. or Mr. Savage, with Mr. Barraco, Jr., P.E., providing personnel backup for CDD meetings, and Mr. Tarn will handle construction services requests.

Carl A. Barraco, Sr., P.E.  
District Engineer

Carl Barraco, Jr., P.E.  
Assistant District Engineer

Frank Savage  
CDD Project Manager

Douglas Tarn  
Construction Services

Resumes for Messrs. Barraco, Savage, and Tarn, as well as additional BAI team members whose services may be utilized, are provided on pages 5 through 10, with licensing and certifications provided on pages 11 through 14.

## Past Experience and Performance for Typical CDD Projects

As further detailed in the GSA SF 330 forms provided within this submittal, BAI has provided services to establish 27 Community Development Districts; performed District Engineer services for a total of 27 CDDs over the years; and is currently the District Engineer for 21 CDDs. In conclusion, our three references include a CDD Manager, a CDD Attorney, and a long term client who has significant experience with CDDs.

qualifications

## **Approach to Providing Engineering Services to CDDs**

BAI's approach to providing engineering services to CDDs is rooted in our extensive experience and understanding of the myriad, evolving responsibilities of a CDD throughout its ongoing life cycle. Prioritizing timely, well-informed and transparent communication, with a focus on educating and advising the CDD as to its obligations and responsibilities, particularly as the CDD Board of Supervisors shifts from developer to residential control, is paramount to being a successful District Engineer. BAI also emphasizes relationship building, and takes pride in maintaining strong, collegial relationships with many of the leading management and counsel entities in this area. Additionally, BAI understands CDDs vary greatly when it comes to size and budget, and we aim to help identify and navigate issues which may put a strain on the budgetary considerations of a CDD through assistance in establishing systems and processes for identification and prioritization of issues which may reasonably come before the CDD.

## **MBE Status**

BAI is not a certified MBE firm; however, the firm utilizes MBE subconsultants when additional consultant assistance may be required and certified MBE consultants who provide specific required services are available.

## **Willingness to Meet Time/Budget Requirements**

With 27 years of experience, BAI takes great pride in the firm's track record of providing timely and efficient professional services to its clients. If a situation arises wherein additional in-house staff assistance is needed to meet a deadline or maintain a project schedule, BAI has the staffing available to reallocate resources to ensure project schedules and budgets are maintained throughout the duration of the project. BAI staff members understand one of the most significant measures of the success of a project is whether or not the project budget and schedule are maintained.

## **Geographic Location of Headquarters & Local Offices**

BAI headquarters is located on historic McGregor Boulevard in Fort Myers. The office is physically located at:

2271 McGregor Boulevard, Suite 100  
Fort Myers, Florida 33901

The BAI office is 37 miles from the Riverwood development.

## **Current and Projected Workloads**

Please refer to the Current and Projected Workload Chart provided on page 15 of this response.

## **Volume of Work Previously Awarded by CDD**

The firm has not provided any services to the Riverwood CDD.

## **Licenses**

Copies of the Firm's licenses and individual professional licenses are provided on pages 11 through 14.

Carl A. Barraco, along with his associates, formed Barraco and Associates, Inc., in April 1998. Prior to this time he was a senior shareholder and served on the Board of Directors of a large Southwest Florida engineering and surveying firm.

Mr. Barraco has been providing engineering services in Southwest Florida for 41 years. His professional experience is well diversified as illustrated below:

#### ◆ Current CDD clients:

Bayside/Bay Creek	Orange Blossom Ranch
Blue Lake	Paseo
Catalina at Winkler Preserve	River Hall
Coral Creek	Saltleaf
Corkscrew Farms	Stonewater
Del Webb Oak Creek	Tuckers Pointe
Kingston One	V-Dana
Lucaya	Victory Park
Mirada	Waterford Landing
Moody River Estates	WildBlue
Orange Blossom Groves	

◆ Principal in Charge for **U.S. 41 Transmission Line Improvements (Alico Road to Colonial Boulevard, Phases 1A-1, 2A-West and 2A-East)** project for Lee County Utilities consisted of replacing existing forcemain and watermain from south of Old Gladiolus Drive to north of Crystal Drive in Fort Myers. To alleviate impacts to traffic, BAI successfully designed and coordinated the construction of watermain and forcemain directional bores beneath U.S. 41 and many side roads. To minimize construction costs and maintain an effective design, BAI coordinated with FDOT for simultaneous installation of the new 8-foot sidewalk being constructed within U.S. 41 right-of-way.

◆ **Orange Blossom Ranch/Orange Blossom Groves** - Engineer of Record for a ±1,600-unit residential development including 258 townhomes and 1,342 single family units located off Oil Well Road in Collier County.

◆ **Isles of Collier Preserve**, Phases 1-10 - Principal in Charge for the ±700 unit residential subdivision with associated Preview Center and Amenity Center located in Collier County, Florida.

◆ Project Engineer for **Paseo**, a 444-acre, 1,149 unit residential subdivision located in Fort Myers, Florida. Services included providing for infrastructure including all drainage, water and sewer design.

◆ Project Engineer for full infrastructure to support the **River Hall** subdivision, a 2,000-acre, 1,199-unit residential subdivision, located off S.R. 80 in Lee County. Included infrastructure design and construction of over 20 miles of multiple diameter watermains, 18 miles of gravity sewer, 8.5 miles of forcemain including a Lee County Utilities 4,500 LF forcemain within SR 80 ROW.

◆ Project Engineer/Manager for **Somerset at the Plantation**, a 1,269-acre, 530-unit subdivision located in Fort Myers, Florida. Services included providing for infrastructure including all drainage, water and sewer design, permitting and certifications.

M.S. - Real Estate, 2009

University of South Florida  
B.S. - Civil Engineering, 2007

### PROFESSIONAL CERTIFICATIONS

Florida P.E. #81259 - 2016

### PROFESSIONAL AFFILIATIONS

American Society of Civil Engineers

Florida Engineering Society

Lee Building Industry Association  
Board of Directors

Carl A. Barraco, Jr., P.E. rejoined Barraco and Associates in his current capacity as a Professional Engineer/Project Manager in November 2013. Mr. Barraco has worked intermittently for the firm since 2005 in the fields of engineering and surveying while obtaining his undergraduate and post graduate degrees.

**Mr. Barraco has approximately 18 years of experience in the civil engineering/land development industry.** His experience includes serving as Project Manager and Professional Engineer on projects ranging from small commercial projects to residential projects spanning hundreds of acres. Mr. Barraco's responsibilities include engineering design, project management and the procurement of new clients and projects for the firm.

Projects for which Mr. Barraco has been responsible for project management and/or engineering design include:

- ❖ **Stonewater:** The project consists of 327 single family units with supporting infrastructure. Mr. Barraco is the project manager for this project overseeing coordination for the project design, coordination with the Client as well as municipalities and regulatory agencies. The Stonewater project required a substantial amount of coordination with the City of Cape Coral utility staff to ensure the Stonewater design was completed in sync with the City of Cape Coal Utility Expansion North 2 (UEP2) project.
- ❖ **Sandoval Apartments (Coralina):** The project consists of 184 apartment units and supporting infrastructure situated on  $\pm 10.84$  acres. Mr. Barraco is Engineer of Record for this project as well as project manager. The Sandoval project included coordination with other local firms to ensure the design of the utility and roadway infrastructure was consistent with the utility and roadway infrastructure designed for the expansion of Sandoval Parkway.
- ❖ **Westbrook:** The Westbrook project consists of 345 single family units, amenity center and supporting infrastructure situated on  $\pm 105$  acres. Mr. Barraco is the project manager for this project overseeing coordination for the project design, coordination with the Client as well as municipalities and regulatory agencies. Westbrook required extensive coordination with Lee County Department of Transportation to complete the redesign and construction of the turn lanes on Three Oaks Parkway and on Winged Foot Drive.

#### EDUCATION

**Florida Gulf Coast University**  
**M.S., Applied Mathematics, 2018**

**University of Florida**  
**B.A., Mathematics, 2003**

Frank Savage entered the civil engineering discipline in March 2006 when he joined Barraco and Associates, Inc. as an Assistant Project Manager, where he was employed until June 2012, before re-entering the field in August 2023, giving Mr. Savage over seven years of experience in the field of engineering.

Mr. Savage represents the District Engineer for various Community Development Districts (CDDs), where he works in conjunction with the District Manager, District Counsel, and District Board of Supervisors to provide professional services, recommendations and guidance related to District-owned and operated facilities. Mr. Savage has represented, or currently represents, the District Engineer for the following CDDs:

- |                                |                         |
|--------------------------------|-------------------------|
| ✦ Bayside/Bay Creek            | ✦ Orange Blossom Groves |
| ✦ Blue Lake                    | ✦ Orange Blossom Ranch  |
| ✦ Catalina at Winkler Preserve | ✦ Paseo                 |
| ✦ Coral Creek                  | ✦ River Hall            |
| ✦ Corkscrew Farms              | ✦ Saltleaf              |
| ✦ Del Webb Oak Creek           | ✦ Treeline Preserve     |
| ✦ Kingston                     | ✦ Tuckers Pointe        |
| ✦ Lucaya                       | ✦ V-Dana                |
| ✦ Mirada                       | ✦ WildBlue              |
| ✦ Moody River Estates          | ✦ Victory Park          |

Mr. Savage has concentrated his efforts on overseeing the design, permitting, construction and certification of utilities and water management systems for commercial and residential developments. His experience includes, but is not limited to, the following residential, commercial, and governmental projects on which he performed the duties of Lead Project Manager:

- ✦ Hendry/LaBelle Sports Complex: Responsible for SFWMD, FDEP and City of LaBelle permitting and certification; observation and coordination of construction activities; utility turnover to City of LaBelle Utilities.
- ✦ Curcione Medical Center: Responsible for Lee County, FGUA, ECWCD, HRS and FDEP permitting and certification; observation and coordination of construction activities; utility turnover to FGUA.
- ✦ Avalon Preserve: Responsible for Lee County, SFWMD, HRS and FDEP permitting and certification; utility turnover to Lee County Utilities.
- ✦ FDEP and HRS permitting and certification; utility turnover to Gateway Services District.

Mr. Savage brings extensive experience from other fields, including education, data analytics, and personal insurance and finance, which provides him with unique insights and perspectives to troubleshoot issues as they arise with projects he manages.

2002-2005, Honorably Discharged

Douglas Tarn joined the construction administration team at Barraco and Associates, Inc. in May 2007. **Mr. Tarn has provided project management and construction observation services for over 16 years** on projects since joining the firm, including the following:

✦ **Orange Grove Boulevard-Hancock Bridge Parkway to Pondella Road**, Lee County – This Lee County Utilities project consisted of replacing 10” water main on the east side of Orange Grove Boulevard from just south of Hancock Bridge Parkway to Pondella Road. The project included replacing existing storm drainage as well as installing new storm drainage to make improvements within the right-of-way. Over one mile of sidewalk was removed and replaced. Additional work included roadway and driveway repairs where new water main was installed. Mr. Tarn served as project manager.

✦ **The U.S. 41 Transmission Line Improvements (Alico Road to Colonial Boulevard, Phases 1A-1, 2A-West and 2A-East)** project for Lee County Utilities (LCU) consisted of replacing existing forcemain and watermain from south of Old Gladiolus Drive to north of Crystal Drive in Fort Myers. In order to alleviate impacts to traffic, BAI successfully designed and coordinated the construction of watermain and forcemain directional bores beneath U.S. 41 and many side roads. To minimize construction costs and maintain an effective design, BAI coordinated with FDOT for the simultaneous installation of the new 8-foot sidewalk being constructed within the U.S. 41 right-of-way. Mr. Tarn assisted with construction observations and project management for this LCU project.

✦ BAI performed **CEI and GIS services for State Road 739** (total length of 1.336 miles) for the City of Fort Myers. Most notable service provided was maintaining water and sewer service for residences and businesses during construction along the corridor. GIS services included providing as-built information after utilities were installed. Mr. Tarn served as the Senior Utility Inspector and Project Manager.

✦ For the **City of Fort Myers’ Metro Parkway Utilities Relocation** project from Dr. Martin Luther King, Jr. Boulevard to Hanson Street on Evans Avenue and Fowler Street to Industrial Street on Hanson Street, Mr. Tarn witnessed and inspected the removal and installation of force main, gravity sewer, and water main. Other responsibilities included maintaining daily construction reports and client and contractor interface. This project was completed in 2008, ahead of schedule and under budget, and was constructed under a JPA between the City of Fort Myers and the FDOT.

## SCOTT WHEELER, P.S.M. VICE PRESIDENT OF SURVEYING Project Surveyor

### EDUCATION

**Cypress Lake High School 1981**

### PROFESSIONAL REGISTRATION

**Professional Surveyor & Mapper  
LS5949 - Florida, 1999**

### PROFESSIONAL AFFILIATIONS

**National Society of Professional  
Surveyors & Mappers**

**American Congress of Surveying  
& Mapping**

**Florida Surveying & Mapping  
Society**

**Certified Survey Technician III**

Scott Wheeler joined the surveying profession immediately after graduation from high school in 1981 and began working on a survey crew as a rodman, working his way up to instrumentman and party chief. In 1987, he was transferred to an office position as a survey technician. In 1991, Mr. Wheeler became a Certified Survey Technician through the American Congress of Surveying and Mapping. In 1999, Mr. Wheeler became a licensed Surveyor and Mapper in the State of Florida. **Mr. Wheeler brings 43 years of surveying experience** to the team.

Mr. Wheeler joined Barraco and Associates in 1999 as Vice President of Surveying. In this capacity Mr. Wheeler was responsible for the organization and implementation of a new department and the addition of professional services offered by BAI. Mr. Wheeler oversaw the hiring of survey personnel and the acquisition of necessary equipment to outfit survey field crews. Mr. Wheeler's responsibilities include reviewing new projects to determine requirements, available resources and scheduling constraints; setting overall guidelines for work completion; as well as executing effective methods to monitor project progress and efficiency. Since starting the department for Barraco and Associates, surveying has become an integral component of the services provided to the company's clients and currently provides personnel for three field crews.

Mr. Wheeler has provided technical support on a number of right-of-way plans for the Florida Department of Transportation. In the private sector Mr. Wheeler has extensive experience with the production of record plats for Private Equity Group, PulteGroup, CalAtlantic, Lennar, WCI Communities, Bonita Bay Group, Land Solutions, Inc., and numerous others. These duties included calculations for the field crews and producing computer aided drawings and plat sheets. Mr. Wheeler has also provided services for the following projects:

- ✦ Lee County Department of Transportation right-of-way surveys for Three Oaks Parkway and Williams Road
- ✦ Record plats for WildBlue, Westbrook, Tidewater, Mediterra, Paseo, River Hall, Pelican Landing, Bonita Bay and numerous other subdivision plats in Lee and Collier counties.
- ✦ Boundary surveys within the City of Fort Myers, Lee, Charlotte, Collier, Hendry and DeSoto counties.

While at Barraco and Associates, Mr. Wheeler has provided surveys for residential and commercial projects. This experience includes the utilization of a Global Positioning System to provide utility locations for record drawings.

2023-2025**

Vincent (Vince) Cautero graduated from Buffalo State College in 1980 with a Bachelor of Science degree in Urban and Regional Analysis and Planning. He continued his education at the University of Illinois at Urbana-Champaign where he received a Master of Urban Planning degree in 1982. Mr. Cautero achieved his professional certification as a Certified Planner in 1997.

Mr. Cautero's career has included work in both the private and public sectors as he served as Community Development Director for five local governments, and as Vice President of Planning Services for three consulting firms, all in the State of Florida. His areas of expertise include land use, comprehensive planning, zoning analysis, code drafting, policy analysis, and community development.

Most recently, prior to joining Barraco and Associates, Mr. Cautero was the Community Development Director for the City of Cape Coral, Florida, from 2013 - 2023. His responsibilities included administrative oversight over five divisions (Building, Code Compliance, Permitting Services, City Planning, and Land Development) and 184 full-time employees, as well as the preparation and monitoring of the annual Department budget of over \$23 million.

Mr. Cautero's responsibilities include project coordination in the preparation and presentation of rezonings and Comprehensive Plan Amendments. Serving as an expert in zoning and land use planning, Mr. Cautero has provided testimony on hundreds of cases through public hearing processes in five Florida local governments: the counties of Citrus, Collier, and Hendry, and the cities of Cape Coral and Marco Island. Additionally, Mr. Cautero represented Hendry County in a Comprehensive Plan lawsuit in 2013, Collier County in an eminent domain case in 2005, and Lee County in an eminent domain case in 2025.

Notable clients with whom Mr. Cautero has worked include:

- ✦ Gates-McVey
- ✦ Habitat for Humanity of Collier County
- ✦ City of Okeechobee, Florida
- ✦ Hendry, Lee and Collier Counties
- ✦ Collier Enterprises
- ✦ Advanced Housing Corporation
- ✦ Six L Farms
- ✦ Williams Farms
- ✦ Fort Myers 21, LLC
- ✦ Southern Gulf Construction

# *State of Florida*

## *Department of State*

I certify from the records of this office that BARRACO AND ASSOCIATES, INC. is a corporation organized under the laws of the State of Florida, filed on March 5, 1998.

The document number of this corporation is P98000021404.

# PROPOSERS CERTIFICATION

STATE OF FLORIDA COUNTY OF LEE

I, Carl A. Barraco, of Barraco and Associates, Inc. (name of company), submitting to furnish the following described materials, equipment, and/or services to the Riverwood Community Development District (the "RCDD") District Engineer Services (professional engineering services).

## HEREBY CERTIFIES THAT:

1. Proposer has thoroughly inspected the specifications or request for proposals and understands the terms and conditions thereof and they are incorporated by reference in the proposal for said goods or services, and have verified measurements, if applicable.
2. The proposal is firm and binding and shall be valid for not less than sixty (60) days from the date of bid opening. A longer time may be set out in the bid, the proposal, or as negotiated between the proposer and the RCDD.
3. The proposal is made by a person authorized to bind the proposer.
4. The proposal is made without unlawful collusion between another proposer or potential proposer, or with any officer or employee of the RCDD.
5. The proposal is in full compliance with the Copeland Anti-kickback statute.
6. The proposer does not discriminate on the basis of race, color, national origin, sex, religion, age, or handicapped status in employment or in the provision of services.

NOTARY PUBLIC-STATE OF FLORIDA

My Commission Expires Aug 16 2027

Commission No. HH 414784

**SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(a),  
FLORIDA STATUTES, ON PUBLIC ENTITY CRIMES**

**THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.**

1. This sworn statement is submitted to the Riverwood Community Development District (the "RCDD") by:

Carl A. Barraco, President

(Print individual's name and title)

For: Barraco and Associates, Inc.

(Print name of entity submitting sworn statement)

Whose business address is: 2271 McGregor Boulevard, Suite 100, Fort Myers, FL 33901

And (if applicable) its Federal Employer Identification Number (FEIN) is: 65-0832228

(If the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement \_\_\_\_\_.)

2. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), FLORIDA STATUTES, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), FLORIDA STATUTES, means a finding of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), FLORIDA STATUTES, means:

- a. A predecessor or successor of a person convicted of a public entity crime; or
- b. an entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one (1) person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one (2) person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding thirty-six (36) months shall be considered an affiliate.

5. I understand that a "person" as defined in Paragraph 287.133(1)(e), FLORIDA STATUTES, means any natural person or entity organized under the laws of any state of the United States with the legal

power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

6. Based on information and belief, the statement, which I have marked below, is true in relation to the entity submitting this sworn statement (indicate which statement applies).

X Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

\_\_\_\_\_ The entity submitting this sworn statement, or one (1) or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. (Attach a copy of the final order)

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICE FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES, FOR CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

Date: April 30, 2025

RE: **PROFESSIONAL ENGINEERING SERVICES**

Dear Selection Committee Members:

We appreciate the opportunity to respond to the Riverwood Community Development District's Request for Qualifications for Professional Engineering Services. It would be our pleasure to provide services to the Riverwood Community Development District. We are certain that CPH exceeds the Riverwood Community Development District's qualification requirements for the following reasons:

- **CPH's Ability to Meet the Riverwood Community Development District's Requirements Are Unmatched:** CPH is a multi-disciplinary engineering firm recognized for providing superior quality services to our clients in an efficient and effective manner. CPH has been providing consulting services for over 44 years; we believe that this experience is imperative to successfully execute the wide variety of projects that this contract may bestow. With nearby offices in Fort Myers and Sarasota; CPH is eager and ready to provide services for any project under this contract. We have an available staff of over 420 personnel and are ready to serve Riverwood Community Development District.
- **Experience Working Under Continuing Contracts:** We have worked with many of our clients for more than 40 years. These long-term relationships have afforded us many opportunities to meet our clients' needs and perform municipal engineering services. Our team has extensive experience working under continuing contracts and is well-equipped to support both scheduled projects and unplanned emergencies. We currently serve numerous clients throughout Florida, including Heritage Bay CDD, The Quarry CDD, and Heritage Lakes Park CDD; the municipalities of Naples, Punta Gorda, Oviedo, Orlando, Maitland, Ocoee, Sanford, Oakland, Mount Dora, Winter Springs, Altamonte Springs, Lake Mary, Titusville, Clermont, Daytona Beach, South Daytona, Palm Coast, Edgewood, Haines City, Lake Alfred, Kissimmee, West Melbourne, Groveland, Largo, Tampa, New Smyrna Beach, Orange City, Ormond Beach, Port Orange, Eustis, Cape Coral, DeLand, and DeBary; as well as Orange, Seminole, Volusia, Bay, and the Counties of Osceola, Volusia, Lee, Collier, Seminole, Lake, Bay, and Polk County School Districts, serving as their Continuing Services Engineer. We take great pride in these ongoing partnerships and remain committed to delivering responsive, reliable, and effective engineering support.
- **CPH's Local Availability and National Support:** CPH has team members located less than 37 miles from the District at 2216 Altamont Ave., Fort Myers, FL 33901. These staff members have active working experience in and around the area. Our team is very familiar with local conditions, design guidelines, and has excellent working relationships with local regulatory/review agencies.

We appreciate the opportunity to submit our qualifications and look forward to continuing our successful relationship with the Riverwood Community Development District.

Sincerely,  
**CPH Consulting, LLC**

D. ORGANIZATIONAL CHART OF PROPOSED TEAM

CPH has assembled a vastly diverse and highly qualified team with experience in all discipline areas requested by Riverwood Community Development District. Our team is capable of providing services for every project that will emerge under this contract. The CPH Team Organizational Chart (provided below) depicts the overall reporting and communication hierarchy as well as project roles and responsibilities in relation to the District's scope of services.

**E. RESUMES OF KEY PERSONNEL PROPOSED FOR THIS CONTRACT***(Complete one Section E for each key person.)*

<b>12. NAME</b> <b>Kyle M. Bechtelheimer, P.E.</b>		<b>13. ROLE IN THIS CONTRACT</b> <b>Municipal Market Director</b>		<b>14. YEARS EXPERIENCE</b>	
				<b>a. TOTAL</b> 11 Years	<b>b. WITH CURRENT FIRM</b> 8 Years
<b>15. FIRM NAME AND LOCATION (City and State)</b> CPH Consulting, LLC   Fort Myers, FL					
<b>16. EDUCATION (DEGREE AND SPECIALIZATION)</b> B.S. in Environmental Engineering, University of Central Florida				<b>17. CURRENT PROFESSIONAL REGISTRATION (STATE AND DISCIPLINE)</b> Professional Engineer - FL (No. PE86673)	
<b>18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)</b> N/A					

**19. RELEVANT PROJECTS**

	(1) TITLE AND LOCATION (City and State)	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)
<b>a.</b>	<b>City of Coconut Creek – Vinkemulder Rd. Water and Sewer Improvements</b> Coconut Creek, FL	2021	2023
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Project Manager - The City of Coconut Creek contracted CPH to design water and sewer infrastructure for a large agriculturally zoned, residential community, that is currently on private well and septic systems. CPH evaluated the best options for the conversion and worked closely with the City and the community to design the best solution for the large agricultural lots based on their septic tank locations and total sewer flows. The design included over a mile of water and a mile of wastewater infrastructure to serve the community.		
<b>b.</b>	<b>Coconut Creek Main Street Sewer Modeling</b> Coconut Creek, FL	2023	N/A
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Project Manager - CPH completed a hydraulic model of the City of Coconut Creek's sanitary sewer system, with the goal to analyze how the new Mainstreet Development could best connect to the City's system. In addition, CPH was tasked with determining if any upsizing of the City's system would be required to take the additional flow generated by the Development. CPH worked closely with the Developer's engineer for sizing the proposed lift station and selecting the proper pipe sizes for connections to the City's system.		
<b>c.</b>	<b>Esplanade at Aventura</b> Aventura, FL	2014	2024
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Project Manager - CPH provided site planning and civil design services for a large redevelopment project in South Florida. The Esplanade at Aventura featured a contemporary open-air collection of shops and restaurants, envisioned as a vibrant shopping and entertainment village that complements Aventura Mall's indoor offering, yet provided its own unique destination. Esplanade at Aventura was a complete redevelopment of the 12.3 acres owned by Sears Holdings that previously featured a Sears full-line store, Sears Auto Center, and adjacent surface parking areas. The new development included quality retail and restaurants, office space, a hotel, and ample parking, as well as a Sears presence.		
<b>d.</b>	<b>Pembroke Pines Human Services Campus</b> Ochopee, FL	2023	2024
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Project Manager - CPH is working with the City of Pembroke Pines to review and analyze the existing water and sewer infrastructure within their Human Services Campus. The Campus includes over 210,000 gallons per day of water and wastewater usage, with over 2 miles of water and wastewater mains. This infrastructure has aged past its useful life and is in need of replacement or repair. CPH is performing route survey, hydraulic modeling, design, permit, and construction engineering and inspections for the project.		

**E. RESUMES OF KEY PERSONNEL PROPOSED FOR THIS CONTRACT***(Complete one Section E for each key person.)*

<b>12. NAME</b> <b>Albert Lopez</b>	<b>13. ROLE IN THIS CONTRACT</b> <b>Program Manager</b>	<b>14. YEARS EXPERIENCE</b> <b>a. TOTAL</b> <b>24 Years</b>		<b>b. WITH CURRENT FIRM</b> <b>24 Years</b>	
<b>15. FIRM NAME AND LOCATION (City and State)</b> CPH Consulting, LLC   Fort Myers, FL					
<b>16. EDUCATION (DEGREE AND SPECIALIZATION)</b> University of Puerto Rico, Civil Engineering Technology			<b>17. CURRENT PROFESSIONAL REGISTRATION (STATE AND DISCIPLINE)</b> SFWMD Erosion Control Inspector Certification Traffic Control (TTC) Intermediate Course		
<b>18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)</b>					
<b>19. RELEVANT PROJECTS</b>					
<b>a.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Cape Coral SE 47th Terrace Complete Street Improvements</b> Cape Coral, FL		<b>(2) YEAR COMPLETED</b> <b>PROFESSIONAL SERVICES</b> 2017		<b>CONSTRUCTION (If applicable)</b> 2018
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b>				
	Project Engineer - The project included reconstruction of an existing roadway to conversion to a complete street and the creation of a downtown district. The improvements included sidewalks with pavers, landscaping, road reconstruction, removal of on-street parking to increase the width of the pedestrian area, off-street parking modification, streetlights, traffic analysis and calming, including adding a roundabout at one of the busiest intersections, raised mid-block pedestrian crossings, street furniture, ADA improvements, and drainage modifications/upgrades. CPH also designed the utility upgrades/modifications, including a new upsized water main, new force main, and a new reclaimed water main. Design services also included modifications to the City's Club Square, such as added sidewalks, bio-retention swales, entrance feature, ADA improvements, landscaping, and streetlights.				
<b>b.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>City of Cape Coral Median Landscape Improvements</b> Cape Coral, FL		<b>(2) YEAR COMPLETED</b> <b>PROFESSIONAL SERVICES</b> 2019		<b>CONSTRUCTION (If applicable)</b> N/A
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b>				
	Project Engineer - CPH provided the City of Cape Coral with planning and landscape architectural services to establish design templates for median improvements for roadways throughout the City. The purpose of the project was to ensure consistency regarding plant species, landscaping themes, and intensities on City roadways. As a part of the project, CPH reviewed past improvements and the City's current design standards and conducted site visits of over 12 roadways. Through various meetings with City staff and public outreach, CPH prepared multiple landscape themes that were developed in 1-mile segments that could be applied to roadway improvements to City-owned R/W. The deliverable included an overall themed template, plant palette, and opinion of probable cost for each template and 1-mile segment. The design templates assumed 20-ft-wide median in a curbed roadway, with a design speed of 45 MPH, and utilized the FDOT Florida Green Book standards in addition to City standards.				
<b>c.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Continuing Services Contract – Heritage Bay Community Development District</b> Fort Myers, FL		<b>(2) YEAR COMPLETED</b> <b>PROFESSIONAL SERVICES</b> Since 2016		<b>CONSTRUCTION (If applicable)</b> Varies Per Project
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b>				
	Project Engineer - CPH has provided services under our continuing contract with the Heritage Bay Community Development District for a variety of projects.				
<b>d.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Heritage Bay CDD – Lake Bank Restoration</b> Fort Myers, FL		<b>(2) YEAR COMPLETED</b> <b>PROFESSIONAL SERVICES</b> 2017		<b>CONSTRUCTION (If applicable)</b> 2020
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b>				
	Project Engineer - As the District Engineer, CPH provided the design, permitting, and construction administration services for the Heritage Bay Lake Bank Restoration Project. The project consisted of re-stabilizing 2,400 LF± of lake banks due to damage caused by Hurricane Irma. The project included determining whether stabilizing the bank with rip-rap or installing a sea wall was most feasible. CPH provided the District with a cost benefit analysis, which was used to justify the decision to use rip-rap to re-stabilize the lake banks. The design included re-grading the lake banks, installation of FDOT-approved geosynthetic fabric, and the installation of rip-rap. This design included a large anti-scour keyway, which provided more protection against sliding and wave action during a large storm event. CPH provided construction administration that included regular inspections and weekly construction progress reports. CPH ensured that work was performed according to the design plans.				
<b>e.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>The Quarry CDD Continuing Services Contract</b> Naples, FL		<b>(2) YEAR COMPLETED</b> <b>PROFESSIONAL SERVICES</b> Ongoing		<b>CONSTRUCTION (If applicable)</b> Ongoing
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b>				
	Project Engineer - Continuing Services Contract. Projects include major shoreline restoration project which resulted in over \$3.5 Million in construction cost.

<b>a.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Miramar's Regional Park - 9/11 Memorial</b> Miramar, FL			<b>(2) YEAR COMPLETED</b>	
				<b>PROFESSIONAL SERVICES</b> 2021	<b>CONSTRUCTION (If applicable)</b> 2023
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Civil Engineer - Planning and design consulting services for the 9/11 Memorial at Miramar's Regional Park. CPH provided architectural, landscape architecture, MEP, civil, and wayfinding/signage services for the development of the new feature, which provides a gathering space to reflect and includes two structures as a focal point of the memorial from the Twin Towers.				
<b>b.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Rockland Key Fleet Management Facility</b> Monroe County, FL			<b>(2) YEAR COMPLETED</b>	
				<b>PROFESSIONAL SERVICES</b> 2024	<b>CONSTRUCTION (If applicable)</b> 2026 (Est)
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Civil Engineer - Monroe County is developing a new Fleet Management Facility to support their vehicle maintenance needs. CPH has designed a primary building with a two-story administrative area, office spaces, break rooms, and a 10-bay repair garage featuring mezzanine storage, a welding room, and a crane rail for equipment lifting. The facility will also include a two-pump fueling station with a decorative canopy and a one-story vehicle wash building with water recycling capabilities. The design features a "Key West aesthetic" with decorative concrete, painted accents, and metal roofing. CPH is providing comprehensive design services, with completion expected in Q3 2024 and construction anticipated to finish in 2025.				
<b>c.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Monroe County Fire Station – Cudjoe Key</b> Monroe County, FL			<b>(2) YEAR COMPLETED</b>	
				<b>PROFESSIONAL SERVICES</b> 2018	<b>CONSTRUCTION (If applicable)</b> 2021
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Civil Engineer - Pre-design phase/programming, schematic design, design development, construction documents, bidding and permitting assistance, and construction administration for a new 7,500-SF fire station on Cudjoe Key. The overall project included three drive-thru bays, native landscape materials requiring minimum irrigation, workout room, large kitchen, outdoor spaces for building users, roof materials with high solar reflectance, hurricane-resistant glazing, door and roof systems, building insulation with high R-value, low-E glazing system, site lighting and interior lighting with LED fixtures, HVAC equipment with high efficiency, water heaters with high efficiency, construction waste control and recycling, flood protection, and a diesel generator.				
<b>d.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Wedge Preserve Park</b> Parkland, FL			<b>(2) YEAR COMPLETED</b>	
				<b>PROFESSIONAL SERVICES</b> 2025	<b>CONSTRUCTION (If applicable)</b> 2026 (Est)
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Civil Engineer - Planning, design, permitting, and construction administration for the development of a new regional community park. The new park is approximately 36 acres and is partially funded through a FDEP grant. As part of the planning process, the team evaluated three distinct options to create an environmental park that merged active with passive recreation. Amenities that were considered include sand volleyball, pickleball, "Bank Shot" basketball course, Ninja Warrior course, trails, water features including environmental overlooks and preserves, softball fields, multi-purpose fields, and playgrounds.				
<b>e.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Pembroke Pines Human Services Campus</b> Ochopee, FL			<b>(2) YEAR COMPLETED</b>	
				<b>PROFESSIONAL SERVICES</b> 2023	<b>CONSTRUCTION (If applicable)</b> 2024
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Civil Engineer - CPH is working with the City of Pembroke Pines to review and analyze the existing water and sewer infrastructure within their Human Services Campus. The Campus includes over 210,000 gallons per day of water and wastewater usage, with over 2 miles of water and wastewater mains. This infrastructure has aged past its useful life and is in need of replacement or repair. CPH is performing route survey, hydraulic modeling, design, permit, and construction engineering and inspections for the project.

b.	(1) TITLE AND LOCATION (City and State) <b>US 17-92 RiverWalk, Phase II - III (FDOT LAP)</b> Sanford, FL		(2) YEAR COMPLETED
			PROFESSIONAL SERVICES 2013
			CONSTRUCTION (If applicable) 2015 (Phase II) 2021 (Phase III)
(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <b>PROJECT INCLUDED:</b> Stormwater Engineer - Phase II - The FDOT LAP project included 1.5 miles of 10–14-ft-wide trail, replacement of 5,500 feet of seawall along Lake Monroe, trailhead parking, a prefabricated pedestrian bridge over Mill Creek, hardscaping, landscaping, and lighting. Phase III - CPH provided planning, survey, and design services for a new 1.7-mile, 12-ft-wide trail that was part of a multi-phase project funded through a joint partnership with FDOT. This project followed the complete streets design elements with the provision of a multi-use trail, roadway safety improvements, traffic-calming design, roadway & trail lighting, utility design, structural seawall design, drainage improvements/design, irrigation design, beautification, hardscape and landscape design, scenic overlooks of Lake Monroe, way-finding design, pedestrian mid-block crossings (rectangular rapid flashing beacons), traffic studies, survey, and wetland mitigation.			
c.	(1) TITLE AND LOCATION (City and State) <b>Town of Oakland Water System Improvements Project</b> Oakland, FL		(2) YEAR COMPLETED
			PROFESSIONAL SERVICES 2013
			CONSTRUCTION (If applicable) 2015
(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <b>PROJECT INCLUDED:</b> Stormwater Engineer - Planning, design, permitting, bid, and construction administration for improvements to the Town of Oakland's water system. The improvements were originally recommended in the master plan effort by CPH previously performed for the Town. The improvements included the following: 0.500-million-gallon ground storage tank; 3,750 gallon/minute high service pumping (one @ 750 GPM/two @ 1,500 GPM); 1,415 LF of 8-inch replacement raw water main; 217 LF of 12-inch new raw water main; 170 LF of 16-inch potable water main; 350 SF electrical/pump building; extensive landscape architecture to help screen the ground storage tank; conversion of existing passive park to an active park including future splash pad; and SCADA upgrade and improvements.			
d.	(1) TITLE AND LOCATION (City and State) <b>Wedge Preserve Park</b> Parkland, FL		(2) YEAR COMPLETED
			PROFESSIONAL SERVICES 2025
			CONSTRUCTION (If applicable) 2026 (Est)
(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <b>PROJECT INCLUDED:</b> Stormwater Engineer - Planning, design, permitting, and construction administration for the development of a new regional community park. The new park is approximately 36 acres and is partially funded through a FDEP grant. <b>12. NAME</b> <b>Roberto "Robbie" Gonzalez, P.E.</b>	<b>13. ROLE IN THIS CONTRACT</b> <b>Utilities</b>	<b>14. YEARS EXPERIENCE</b> <b>a. TOTAL</b> <b>30 Years</b>		<b>b. WITH CURRENT FIRM</b> <b>12 Years</b>	
<b>15. FIRM NAME AND LOCATION (City and State)</b> CPH Consulting, LLC   Fort Myers, FL					
<b>16. EDUCATION (DEGREE AND SPECIALIZATION)</b> M.S. in Environmental Sciences, University of Central Florida B.S. in Mechanical & Environmental Engineering, University of Central Florida			<b>17. CURRENT PROFESSIONAL REGISTRATION (STATE AND DISCIPLINE)</b> Professional Engineer - FL (No. 56875)		
<b>18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)</b>					
<b>19. RELEVANT PROJECTS</b>					
a.	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Toho Water Authority (Toho) Program Management Services (PMO)</b> Kissimmee, FL		<b>(2) YEAR COMPLETED</b> <b>PROFESSIONAL SERVICES</b> Ongoing		<b>CONSTRUCTION (If applicable)</b> 2027 (Est.)
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Utilities Engineer - CPH is providing staff augmentation and Program Management Services for the Toho Water Authority's Utility Infrastructure Capital Improvement Program. Services include design management of consultant-assigned projects, acting as Toho staff to provide design reviews, project guidance, approvals, monitoring performance and schedules, conducting weekly meetings, and other technical consultation in the completion of projects under the program. Projects include pipelines, pump stations, and treatment plants associated with their water and wastewater systems. As part of the contract, CPH is providing staff services to oversee construction as well, including acting as owner's representative, construction manager, and full-time on-site inspector. The PMO contract includes providing design and permitting of assigned projects not assigned to a Toho Consultant.				
b.	<b>(1) TITLE AND LOCATION (City and State)</b> <b>NCRWTP – Chlorine And Ammonia Control Feed Systems</b> Collier County, FL		<b>(2) YEAR COMPLETED</b> <b>PROFESSIONAL SERVICES</b> 2016		<b>CONSTRUCTION (If applicable)</b> 2018
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Utilities Engineer - Design and Construction Services of chlorine and ammonia control feed systems—designed upgrades and improvements to automate both chlorine and ammonia systems to effectively form and control chloramines. Chlorine dosages set to pace flow from NF and RO membranes separately because the NF system has different chlorine demands from the RO system. Proposed improvements to the chloramination system were integrated into the existing SCADA system. The HMI screens were updated and modified to allow the operators to observe and control the chloramination. Construction plans and technical specifications were developed for the County to bid the improvements to prequalified contract electricians.				
c.	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Town of Oakland Master Water Plan</b> Oakland, FL		<b>(2) YEAR COMPLETED</b> <b>PROFESSIONAL SERVICES</b> 2020		<b>CONSTRUCTION (If applicable)</b> N/A
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Utilities Engineer - The master plan effort included coordination with Town staff on gathering historic water use data, monthly operating reports, yearly connection figures, and other planning information to develop population and water use projections for a 20-year planning horizon. An important task of the work included an assessment of the existing infrastructure and water treatment plant capabilities, as well as developing a water model of the distribution system. The water system model, once calibrated, was used to analyze high water-use scenarios as a means to verify deficiencies and needed improvements of the Town's existing water system. The results of the model assisted CPH with the overall evaluation and allowed for a more detailed recommendation of the various alternative water system improvements.				
d.	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Haines City Master Wastewater Plans</b> Haines City, FL		<b>(2) YEAR COMPLETED</b> <b>PROFESSIONAL SERVICES</b> 2021		<b>CONSTRUCTION (If applicable)</b> N/A
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Utilities Engineer - CPH provided hydraulic modeling and master wastewater planning services to the City of Haines City. As part of our services, we observed historical changes to existing flows, developed projected future flows, evaluated the treatment facilities, and collect/transmission infrastructures. The intent of the Master Wastewater Plan was to describe the existing facilities, assess current and future needs, and to develop alternative recommendations for the City to consider as capital improvement projects (CIP). A 20-year planning horizon was developed for the master plans, and it included hydraulic analysis of the existing force main system. The recommended capital improvement projects were provided in 5-year time periods through the 20-year planning period.				
e.	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Potable Water and Wastewater Master Plans</b> Lake Alfred, FL		<b>(2) YEAR COMPLETED</b> <b>PROFESSIONAL SERVICES</b> 2022		<b>CONSTRUCTION (If applicable)</b> N/A
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Utilities Engineer - The City requested CPH to prepare potable water and wastewater master plans to be used as a basis of planning for current and future infrastructure improvements to cover a 20-year utility planning horizon. Population projections and hydraulic modeling were used to identify deficiencies in the system and recommends possible solutions to the deficiencies.

18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)			
19. RELEVANT PROJECTS			
a.	(1) TITLE AND LOCATION (City and State) <b>Wildwood WRF BNR Improvements and Expansion</b> Wildwood, FL		(2) YEAR COMPLETED
			PROFESSIONAL SERVICES 2024
			CONSTRUCTION (If applicable) 2026 (Est.)
(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE			
<b>PROJECT INCLUDED:</b> Wastewater Engineer - CPH is providing professional engineering design, permitting, and preconstruction services associated with the interim/short-term improvements to the existing treatment facility and the new 8.0 MGD AADF WRF (long-term improvements). The new treatment facility shall be capable of producing an AWT effluent and meet all Class I Reliability criteria. The proposed infrastructure includes a mechanical screening system, master lift station, EQ Basin, 5-Stage BIODENIPHON BNR Treatment System, reaeration basin/secondary clarifier flow splitter box, RAS/WAS pump system, tertiary filtration system, high-level disinfection system, biosolids dewatering screw press system, chemical storage and feed systems along with three electrical buildings and associated controls, instrumentation and SCADA systems. The project is being designed in three phases as part of a CMAR delivery method.			
b.	(1) TITLE AND LOCATION (City and State) <b>City of Mount Dora – Wastewater Treatment Facility (WWTF) No. 1</b> Mount Dora, FL		(2) YEAR COMPLETED
			PROFESSIONAL SERVICES 2023
			CONSTRUCTION (If applicable) TBD
(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE			
<b>PROJECT INCLUDED:</b> Wastewater Engineer - The City owns/operates the Mount Dora Wastewater Treatment Facility (WWTF) No. 1, which is classified as a Secondary Treatment plus Filtration Facility (Category I, Class B). The WWTF currently has permitted treatment capacity of 1.5 MGD AADF. The oxidation ditch, secondary clarifiers, and filter are showing signs of corrosion and age, and the City also wants to improve the effluent quality to advanced wastewater treatment (AWT). The project includes upgrading the Mount Dora WWTF No.1 to meet AWT effluent criteria through the construction of a 4-stage Bardenpho (BNR) Treatment Process and increasing permitted capacity to the existing WWTF to 2.0MGD (adding additional capacity by 0.5 MGD-AADF). CPH assisted the City in obtaining \$1.5 million in cost-share grant funding from the Saint John's River Water Management, and \$24.0 million from a Florida Department of Environmental Protection SRF loan (0% financing).			
c.	(1) TITLE AND LOCATION (City and State) <b>SSA-ESA 36" Water Main and 24" Reclaimed Water Main &amp; J. Lawson Repump Station Project</b> Orange County, FL		(2) YEAR COMPLETED
			PROFESSIONAL SERVICES 2018
			CONSTRUCTION (If applicable) 2021
(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE			
<b>PROJECT INCLUDED:</b> Wastewater Engineer - CPH provided engineering services to OCU for the connection of the Southern Service Area to the Eastern Service Area with the potable water and reclaimed water system and repump station. These services included preliminary design report, final design, MOT design, survey, environmental assessment, geotechnical investigation, bidding, and construction administration. The project includes the installation of approximately 7 miles of parallel 36-inch potable water main and 24-inch reclaimed water main from J. Lawson Blvd. to Moss Park Rd via a combination of directional drill, jack and bore, and open-cut installation. The project corridor was through multiple jurisdictions which required coordination and permitting with Tavistock, GOAA, CSX, City of Orlando, Orange County, and CFX. The re-pump station includes general piping, a building, pumps, electrical equipment, controls and future chlorination feed equipment, stand-by generator and aboveground fuel tank, general site grading, and improvements.			
d.	(1) TITLE AND LOCATION (City and State) <b>CR 557 12" and 16" Force Main</b> Lake Alfred, FL		(2) YEAR COMPLETED
			PROFESSIONAL SERVICES 2023
			CONSTRUCTION (If applicable) 2024
(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE			
<b>PROJECT INCLUDED:</b> Wastewater Engineer - CPH was selected to provide services for a force main for the City of Lake Alfred. The work includes design for a force main (FM) from the north end of CR 557 at the intersection of CR 557A. The FM runs south to Swoope Road, then east and then south, crossing a CSX RR R/W and US 17-92, then runs east to a tie-in point near the City wastewater treatment facility. The work includes approximately 1,300 LF of 12" FM and 20,000 LF of 16" FM designed and constructed in five phases. Work includes wetland permitting, CSX permitting, and FDOT permitting, as well as Polk County R/W permitting.			
e.	(1) TITLE AND LOCATION (City and State) <b>Eatonville West and East Side Wastewater Improvements</b> Eatonville, FL		(2) YEAR COMPLETED
			PROFESSIONAL SERVICES 2015
			CONSTRUCTION (If applicable) 2017
(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE			
<b>PROJECT INCLUDED:</b> Wastewater Engineer - The project included replacement of portions of the Town's existing sanitary sewer system because of sewer backups and overflow issues. It was believed that the main cause of the problem was because the sanitary sewer pipes and manholes were constructed very shallow and had less than minimum slopes. In addition, much of the collection system was constructed in the 1940s and early 1950s of vitrified clay pipe and were susceptible to cracks and breaks. Specifically, the project included replacement of gravity sanitary sewer lines, service laterals and manholes, replacement and relocation of an existing lift station, abandonment of an existing force main, and the elimination of an existing lift station, and all road replacement and/or restoration necessary to complete the project. The project was bid in two phases, and CPH served as full-time resident project representative for the West and East Side Wastewater Improvements.

				<b>PROFESSIONAL SERVICES</b> 2017	<b>CONSTRUCTION (If applicable)</b> 2019
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Utilities Engineer - The St. Johns Parkway Reuse Line Project is an 8-inch reclaimed water main project along the right-of-way (R/W) of St. Johns Parkway from Racetrack Road to Espada Lane in St. Johns County, FL. CPH will provide engineering services for preliminary design, final detailed design, permitting, estimating, and bid phase services for approximately 4,600 linear feet of 8-inch PVC DR 18 reclaimed water main. The overall length of the proposed water main route is 4,600 linear feet.				
<b>c.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>OUC Permit Management Services</b> Orlando, FL			<b>(2) YEAR COMPLETED</b>	
				<b>PROFESSIONAL SERVICES</b> Ongoing	<b>CONSTRUCTION (If applicable)</b> Varies Per Project
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Utilities Engineer - CPH is providing permit management services to Orlando Utilities Commission through a master services agreement. The services include oversight of required documents for submittal according to permitting department standards or City/County code. This documentation includes the applications and figures needed for each specific permit. Deliverables include the approved Right-of-Way or Engineering permit from the local governing agency. As part of the contract CPH coordinated Utility Notification Letters, submits/delivers right-of-way applications and supporting documents, discusses and addresses agency comments, and manages submitted permits via permitting departments tracking system.				
<b>d.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Toho Water Authority (Toho) Program Management Services (PMO)</b> Kissimmee, FL			<b>(2) YEAR COMPLETED</b>

<b>16. EDUCATION (DEGREE AND SPECIALIZATION)</b> B.S. in Environmental Engineering and Civil Engineering (double major), University of Central Florida		<b>17. CURRENT PROFESSIONAL REGISTRATION (STATE AND DISCIPLINE)</b> Professional Engineer - FL (No. 86595)	
<b>18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)</b>			

**19. RELEVANT PROJECTS**

	(1) TITLE AND LOCATION (City and State)	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)
<b>a.</b>	<b>Orange City Septic to Sewer – Community Redevelopment Area: South Zone</b> Orange City, FL	2024	TBD
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Hydraulic Modeling Engineer - To meet constraints and requirements of the FDEP and SJRWMD, Orange City obtained CPH's services to assist with the multi-phased conversion of residential, industrial, and commercial properties from septic tanks to a centralized sewer-collection system. CPH provided design and permitting services for the conversion of approximately 118 residential and commercial properties. The design included installation of 9,349 LF of 8" sanitary sewer pipe and 47 manholes at various depths; 118 sewer laterals with cleanouts; installation of 436 LF of 4" PVC force main; installation of 400 LF of 2" HDPE force main via directional drill; installation of 215 LF of 20" steel casing via jack and bore through FDOT R/W; and two, 6" water main relocations. Pipe installation will consist of open cut trench and jack and bore installation methods. The jack and bore is necessary to avoid open cutting a heavily traveled state road avoiding congestion and disruption to the public. Additionally, the design included removal and replacement of asphalt roadways, sidewalks, driveways, curbing, landscaping, and overall site restoration.		
<b>b.</b>	<b>Raw Water Supply Line and 30" Force Main Relocation</b> Pembroke Pines, FL	2021	2022
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Hydraulic Modeling Engineer - Project includes design of 1.1 miles of horizontal directionally drilled 30-inch HDPE raw water main from wellfield to water treatment plant for the City of Pembroke Pines. Design also includes pigging station for easy access to pig the system, by-pass valving, pigging discharge, and relocation of 600 LF of 30-inch DIP sewer force main.		
<b>c.</b>	<b>SSA-ESA 36" Water Main and 24" Reclaimed Water Main &amp; J. Lawson Repump Station Project</b> Orange County, FL	2018	2021
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Hydraulic Modeling Engineer - CPH provided engineering services to OCU for the connection of the Southern Service Area to the Eastern Service Area with the potable water and reclaimed water system and repump station. These services included preliminary design report, final design, MOT design, survey, environmental assessment, geotechnical investigation, bidding, and construction administration. The project includes the installation of approximately 7 miles of parallel 36-inch potable water main and 24-inch reclaimed water main from J. Lawson Blvd. to Moss Park Rd via a combination of directional drill, jack and bore, and open-cut installation.		
<b>d.</b>	<b>Eatonville West and East Side Wastewater Improvements</b> Eatonville, FL	2015	2017
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Hydraulic Modeling Engineer - The project included replacement of portions of the Town's existing sanitary sewer system because of sewer backups and overflow issues. It was believed that the main cause of the problem was because the sanitary sewer pipes and manholes were constructed very shallow and had less than minimum slopes. In addition, much of the collection system was constructed in the 1940s and early 1950s of vitrified clay pipe and were susceptible to cracks and breaks. Specifically, the project included replacement of gravity sanitary sewer lines, service laterals and manholes, replacement and relocation of an existing lift station, abandonment of an existing force main, and the elimination of an existing lift station, and all road replacement and/or restoration necessary to complete the project. The project was bid in two phases, and CPH served as full-time resident project representative for the West and East Side Wastewater Improvements.		
<b>e.</b>	<b>Simpson Road 30" Water Main Project</b> Kissimmee, FL	2015	2016
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Hydraulic Modeling Engineer - For this project, TWA needed to extend a 30-inch water main from their Parkway Water Treatment Plant north along Simpson Road to just south of Boggy Creek Road. This phase of the Project consisted of approximately 5,300 LF of conventionally installed Ductile Iron 30-inch water main right-of-way, and 1,080 LF of 30-inch fusible PVC installed within 1,060 LF of directionally drilled 36-inch fusible PVC casing pipe across the Florida Turnpike.

**19. RELEVANT PROJECTS**

	(1) TITLE AND LOCATION (City and State)	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)
<b>a.</b>	<b>Orlando Sanford International Airport Terminal Expansion</b> Sanford, FL	2018	2021
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Structural Engineer - The project included expansion of the terminal as well as extensive renovations to the existing passenger, security, and food service areas equaling 140,000 SF. The project included access improvements to the terminal area, addition of a new traffic signal, phasing and coordination with terminal management, airlines, and concessionaires. Additional coordination was required with Transportation Security Administration (TSA) on the new Consolidated Screening Area and with U.S. Customs and Border Patrol (CBP) for the Federal Inspection Station (FIS) improvements.		
<b>b.</b>	<b>Bartow Public Works Administration and Solid Waste Administration Buildings</b> Bartow, FL	Ongoing	TBD
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Structural Engineer - CPH is providing services to the City of Bartow for the development of new office buildings for the City's Public Works and Solid Waste Departments. The project includes the development of one main prototype and the site adaptation of that prototype for the second facility. CPH's services include due diligence/site investigation, conceptual planning, design, permitting, and bidding support of the proposed buildings. The total improvements include 8,000 SF of new buildings (4,000-SF prototype/public works building and 4,000-SF site adaptation/solid waste administration building). As a part of the project, CPH's team developed a masterplan for each site, including assessment of the existing structures on each project site to develop a master phasing and future expansion plan for each facility. CPH provided an assessment of the adequacy of parking, utilities, and development guidelines for each site. CPH services included site survey, environmental and ecological surveys, programming, conceptual design, design development/construction documents and permitting.		
<b>c.</b>	<b>Englewood Warehouse &amp; Maintenance Office</b> Englewood, FL	2016	2017
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Structural Engineer - This is a new facility, for Englewood Water District, that consists of a new, 22,200-SF maintenance warehouse and office building. This project is primarily a pre-engineered metal building with a masonry wainscot along the main entrance. This facility will store non-combustible material. The office component is approximately 10,000 SF and the remaining area is in the warehouse. The walls are metal panel, and the roof will be standing seam. All associated structural, civil, mechanical, plumbing, and electrical engineering is included.		
<b>d.</b>	<b>OUC Warehouse Expansion and Improvements Design-Build</b> Orlando, FL	2016	2017
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Structural Engineer - The project consisted of a new, 9,506-SF pre-engineered metal building warehouse addition that ties into the existing warehouse building for the Orlando Utilities Commission. This facility stores non-combustible material. This project also includes a new pre-manufactured modular structure located within the existing warehouse. This serves as the new breakroom and restrooms for the facility. All associated structural, mechanical, electrical, and civil engineering is included within the design.		
<b>e.</b>	<b>Monroe County Fire Station – Cudjoe Key</b> Monroe County, FL	2018	2021
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Structural Engineer - Pre-design phase/programming, schematic design, design development, construction documents, bidding and permitting assistance, and construction administration for a new 7,500-SF fire station on Cudjoe Key. The overall project included three drive-thru bays, native landscape materials requiring minimum irrigation, workout room, large kitchen, outdoor spaces for building users, roof materials with high solar reflectance, hurricane-resistant glazing, door and roof systems, building insulation with high R-value, low-E glazing system, site lighting and interior lighting with LED fixtures, HVAC equipment with high efficiency, water heaters with high efficiency, construction waste control and recycling, flood protection, and a diesel generator.

<b>a.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Cape Coral SE 47th Terrace Complete Street Improvements</b> Cape Coral, FL		<b>(2) YEAR COMPLETED</b>		
			<b>PROFESSIONAL SERVICES</b> 2017	<b>CONSTRUCTION (If applicable)</b> 2018	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Project Engineer - The project included reconstruction of an existing roadway to conversion to a complete street and the creation of a downtown district. The improvements included sidewalks with pavers, landscaping, road reconstruction, removal of on-street parking to increase the width of the pedestrian area, off-street parking modification, streetlights, traffic analysis and calming, including adding a roundabout at one of the busiest intersections, raised mid-block pedestrian crossings, street furniture, ADA improvements, and drainage modifications/upgrades. CPH also designed the utility upgrades/modifications, including a new upsized water main, new force main, and a new reclaimed water main. Design services also included modifications to the City's Club Square, such as added sidewalks, bio-retention swales, entrance feature, ADA improvements, landscaping, and streetlights.				
<b>b.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>DeLand Roundabout</b> DeLand, FL		<b>(2) YEAR COMPLETED</b>		
			<b>PROFESSIONAL SERVICES</b> 2017	<b>CONSTRUCTION (If applicable)</b> 2017	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Project Engineer - Design and analysis services for the construction of a multi-lane roundabout along US 17-92. As one of the first multi-lane roundabouts on a State Road in Florida (1st in District 5), the design team worked closely with FDOT District 5 and the FDOT Central Office to design and permit this intersection to service a Commercial Development along a very congested corridor.				
<b>c.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>US 17-92 RiverWalk, Phase II - III (FDOT LAP)</b> Sanford, FL		<b>(2) YEAR COMPLETED</b>		
			<b>PROFESSIONAL SERVICES</b> 2013	<b>CONSTRUCTION (If applicable)</b> 2021	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Project Engineer - Phase II - The FDOT LAP project included 1.5 miles of 10-14-ft-wide trail, replacement of 5,500 feet of seawall along Lake Monroe, trailhead parking, a prefabricated pedestrian bridge over Mill Creek, hardscaping, landscaping, and lighting. Phase III - CPH provided planning, survey, and design services for a new 1.7-mile, 12-ft-wide trail that was part of a multi-phase project funded through a joint partnership with FDOT. This project followed the complete streets design elements with the provision of a multi-use trail, roadway safety improvements, traffic-calming design, roadway & trail lighting, utility design, structural seawall design, drainage improvements/design, irrigation design, beautification, hardscape and landscape design, scenic overlooks of Lake Monroe, way-finding design, pedestrian mid-block crossings (rectangular rapid flashing beacons), traffic studies, survey, and wetland mitigation.				
<b>d.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Bay County Sidewalk Design (FDOT LAP) – Frankford Avenue</b> Bay County, FL		<b>(2) YEAR COMPLETED</b>		
			<b>PROFESSIONAL SERVICES</b> 2015	<b>CONSTRUCTION (If applicable)</b> 2015	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Project Engineer - CPH provided engineering services for the design of sidewalks along Frankford Avenue from 16th Street to 23rd Street (0.90 miles). The project was funded with FHWA funds (FPID 435256-1-38-01) provided through Local Agency Program (LAP) agreement with FDOT D3. Services provided included 3D laser scanning, design and permitting, utility coordination, public involvement, bid phase services, multi-agency coordination, and swale analysis.				
<b>e.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>US 17-92 RiverWalk, Phase II - III (FDOT LAP)</b> Sanford, FL		<b>(2) YEAR COMPLETED</b>

<b>c.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Monroe County – Rockland Key Fleet Management Facility</b> Monroe County, FL		<b>(2) YEAR COMPLETED</b>		
			<b>PROFESSIONAL SERVICES</b> 2024	<b>CONSTRUCTION (If applicable)</b> 2026 (est.)	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Landscape Architect - Monroe County required a new Fleet Management Facility for their Public Works and other departments to maintain their fleet of vehicles. CPH has designed three new structures as part of the facility. The primary building includes a two-story Fleet Management administrative area with office spaces, workstations, a customer service area, employee break rooms, and support spaces. In addition, there is a one-story high, 10-bay repair garage with mezzanine storage, a welding room, a tire-change room, and oil/chemical storage room complete the main building. A crane rail is incorporated into 60% of the repair garage space for vehicle and equipment lifting. The site will also include a two-pump fueling station with decorative standing-seam metal roofing canopy to allow the county fleet to fuel their vehicles on site. The facility also includes a one-story vehicle wash building with capability to recycle the wash water on site. The design incorporates a "Key West aesthetic" using decorative form-liner, tilt-up, concrete construction, painted field and accent features, and a standing-seam metal roofing for this new facility. CPH is providing full-service architecture, master planning, interior design, civil/site design, landscape architecture, structural engineering, and MEP engineering services for the facility. The design will be completed in Q3 2024 and construction is anticipated to be completed in 2025.				
<b>d.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Casselberry Wirz Park Planning &amp; Design</b> Casselberry, FL		<b>(2) YEAR COMPLETED</b>		
			<b>PROFESSIONAL SERVICES</b> 2019	<b>CONSTRUCTION (If applicable)</b> N/A (Conceptual Design Only)	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Landscape Architect - Planning, conceptual design, and final design for the reinvestment and updating of Wirz Park to convert the facility into a regional facility with multiple uses. The team provided the project in two phases, with the first phase focused on a master plan with an estimated budget. To develop the master plan, the team held multiple design charrettes and public workshops to establish the vision for the updated facility, as well as garner public support. The project documents and funding were then placed as part of a voter referendum, and after approval CPH provided final design for the park. As part of the overall park the new design included a new entrance, relocation of maintenance building, expansion of the existing community building, new outdoor terrace, event patio with 20' x 20' pavilion, splash pad, zero-entry pool with interactive features, 5-lane/25-meter pool, shade structures, volleyball courts, basketball courts, playground, and trail upgrades.

<b>19. RELEVANT PROJECTS</b>					
<b>a.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Turtle Beach Park Site Improvements</b> Sarasota, FL		<b>(2) YEAR COMPLETED</b>		
			PROFESSIONAL SERVICES 2015	CONSTRUCTION (If applicable) 2017	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Environmental Scientist - CPH worked with Sarasota County to design and permit site improvements and amenities at Turtle Beach Park. CPH provided Sarasota County with site planning, engineering, permitting, landscape design, environmental, and bidding/construction administration services. The improvements included a canoe and kayak launching facility, playground facility, gazebo, multiple pavilion structures, parking lot expansion, and new sidewalks to connect the new amenities to the existing site amenities. Many of the improvements were seaward of the Coastal Construction Control Line. Additionally, several of the improvements were adjacent to Blind Pass Lagoon, where Water Course Buffer requirements and a sensitive Environmental Ecosystem are crucial to the unique design and associated permitting.				
<b>b.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Lakewood Ranch Park Improvements</b> Bradenton, FL		<b>(2) YEAR COMPLETED</b>		
			PROFESSIONAL SERVICES 2012	CONSTRUCTION (If applicable) 2014	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Environmental Scientist - CPH provided Manatee County design services for park improvements. The proposed improvements included the addition of new buildings, trails, pavilions, playgrounds, and parking areas. A new "park plaza" is the focal point of the park and helps tie the existing amenities to the improvements. CPH also provided a master plan update of the park, including vehicular and pedestrian upgrades, park plaza, pavilions, and other upgrades to merge the existing park with the proposed park amenities.				
<b>c.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Blind Pass Park Improvements</b> Sarasota, FL		<b>(2) YEAR COMPLETED</b>		
			PROFESSIONAL SERVICES 2011	CONSTRUCTION (If applicable) 2012	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Environmental Scientist - CPH was retained by Sarasota County for site planning, engineering, environmental services, permitting, bidding, and construction administration services for improvements at Blind Pass Park. Improvements included construction of a new restroom, with ADA parking and access, sidewalks, water lines, stormwater treatment system, and a new septic drain field for Blind Pass Park, located on the barrier island of Manasota Key at 6725 Manasota Key Road, in Sarasota, Florida.				
<b>d.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Manasota Beach Park Restroom and Concession Stand</b> Sarasota, FL		<b>(2) YEAR COMPLETED</b>		
			PROFESSIONAL SERVICES 2011	CONSTRUCTION (If applicable) 2012	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Environmental Scientist - CPH was retained by Sarasota County for site planning, engineering, environmental services, permitting, bidding and construction administration services. Project included construction of a new restroom and multi-purpose building, with ADA parking and access, stormwater treatment system, and new septic system for Manasota Beach Park. The project incorporated green building practices and the site plan needed to work with existing architectural elements as well as the beautiful view of the beach enjoyed by vehicles approaching the park.				
<b>e.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Manatee County- Kingfish Boat Ramp</b> Manatee County, FL		<b>(2) YEAR COMPLETED</b>		
			PROFESSIONAL SERVICES 2020	CONSTRUCTION (If applicable) Ongoing	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Environmental Scientist - CPH is providing redevelopment of existing Kingfish Boat Ramp to include replacement/addition of boat ramp single launch lanes, paving of gravel parking lot, reconfiguration of parking area and additional trailer parking spaces, addition of a stormwater management facility, new dock/pile system, and new sea wall. The redevelopment will substantially increase opportunity for tourism and economic development in the area by providing access to coastal waters for the opportunity of experiencing Florida's iconic sportfishing and wildlife. Innovative techniques used to design the seawall: wave action against seawall, dock, and boat ramp were modeled using computational fluid dynamics and numerical modeling software to determine the necessary reinforcement of the structures.

**19. RELEVANT PROJECTS**

	(1) TITLE AND LOCATION <i>(City and State)</i> <b>Apopka - Public Services Department Fleet Facility Design</b> Apopka, FL	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2023	CONSTRUCTION <i>(If applicable)</i> TBD
<b>a.</b>	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> MEP Engineer - The purpose of this project is to provide programming, schematic design, and final design services for a new Fleet Services Building located at the Public Services Department's facilities at 748 East Cleveland Street. The building is anticipated to be a single story, 20,000-SF facility with multiple drive-through service bays, offices, breakroom, parts storage, and bathrooms. The project goal is to develop a building layout that accommodates the City's fleet service requirements and to do so in a manner that is coordinated with the City's Facility Master Plan that was completed by CPH.		
	(1) TITLE AND LOCATION <i>(City and State)</i> <b>Camp Helen State Park Administration Building</b> Panama City Beach, FL	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2023	CONSTRUCTION <i>(If applicable)</i> TBD
<b>b.</b>	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> MEP Engineer - The Florida Department of Environmental Protection needed a new expanded administration building for the Camp Helen State Park in Panama City, FL. CPH was selected to design the new one-story, 2,215-SF facility to house an expanded interpretive center, a new reception/gift shop space, new administrative offices, and a staff breakroom. The new facility design is also being designed to be fully accessible. In addition, CPH designed an ADA accessible path from the main parking lot down to the beach access.		
	(1) TITLE AND LOCATION <i>(City and State)</i> <b>Bartow Public Works Administration and Solid Waste Administration Buildings</b> Bartow, FL	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES Ongoing	CONSTRUCTION <i>(If applicable)</i> TBD
<b>c.</b>	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> MEP Engineer - CPH is providing services to the City of Bartow for the development of new office buildings for the City's Public Works and Solid Waste Departments. The project includes the development of one main prototype and the site adaptation of that prototype for the second facility. CPH's services include due diligence/site investigation, conceptual planning, design, permitting, and bidding support of the proposed buildings. The total improvements include 8,000 SF of new buildings (4,000-SF prototype/public works building and 4,000-SF site adaptation/solid waste administration building). As a part of the project, CPH's team developed a masterplan for each site, including assessment of the existing structures on each project site to develop a master phasing and future expansion plan for each facility. CPH provided an assessment of the adequacy of parking, utilities, and development guidelines for each site. CPH services included site survey, environmental and ecological surveys, programming, conceptual design, design development/construction documents and permitting.		
	(1) TITLE AND LOCATION <i>(City and State)</i> <b>Wedge Preserve Park</b> Parkland, FL	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2025	CONSTRUCTION <i>(If applicable)</i> 2026 (est.)
<b>d.</b>	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> MEP Engineer - Planning, design, permitting, and construction administration for the development of a new regional community park. The new park is approximately 36 acres and is partially funded through a FDEP grant. As part of the planning process, the team evaluated three distinct options to create an environmental park that merged active with passive recreation. Amenities that were considered include sand volleyball, pickleball, "Bank Shot" basketball course, Ninja Warrior course, trails, water features including environmental overlooks and preserves, softball fields, multi-purpose fields, and playgrounds.		
	(1) TITLE AND LOCATION <i>(City and State)</i> <b>Leesburg Teen Center</b> Leesburg, FL	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES 2020	CONSTRUCTION <i>(If applicable)</i> 2022
<b>e.</b>	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> MEP Engineer - A 10,000-SF addition to an existing recreation center, the Leesburg Teen Center is multi-use facility that houses afterschool programs for youths ages 5-18. The programs are operated by the Boys & Girls Club of Central Florida and the building includes game rooms, computer labs, art and music spaces, offices, and a food preparation space. The addition also serves as a re-imaging of the main entry into the existing recreation center. The addition is organized functionally to separate the spaces by age groups, with the teens located to the rear of the spaces and the younger children at the front. Both age groups have exterior dining and activity patios to extend the opportunities for learning and engagement beyond the interior confines of the facility.		

**E. RESUMES OF KEY PERSONNEL PROPOSED FOR THIS CONTRACT***(Complete one Section E for each key person.)*

<b>12. NAME</b> <b>Thomas J. Galloway, PSM</b>		<b>13. ROLE IN THIS CONTRACT</b> <b>Surveyor</b>		<b>14. YEARS EXPERIENCE</b>	
				<b>a. TOTAL</b> 34 Years	<b>b. WITH CURRENT FIRM</b> 23 Years
<b>15. FIRM NAME AND LOCATION (City and State)</b> CPH Consulting, LLC   Fort Myers, FL					
<b>16. EDUCATION (DEGREE AND SPECIALIZATION)</b> B.S. in Surveying and Mapping, University of Florida				<b>17. CURRENT PROFESSIONAL REGISTRATION (STATE AND DISCIPLINE)</b> Professional Surveyor & Mapper - FL (No. 6549) NCEES Council No. 1291	
<b>18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)</b> N/A					
<b>19. RELEVANT PROJECTS</b>					
<b>a.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>OUC Warehouse Expansion and Improvements Design-Build</b> Orlando, FL		<b>(2) YEAR COMPLETED</b>		
			PROFESSIONAL SERVICES 2016	CONSTRUCTION (If applicable) 2017	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Surveyor - The project consisted of a new, 9,506-SF pre-engineered metal building warehouse addition that ties into the existing warehouse building for the Orlando Utilities Commission. This facility stores non-combustible material. This project also includes a new pre-manufactured modular structure located within the existing warehouse. This serves as the new breakroom and restrooms for the facility. All associated structural, mechanical, electrical, and civil engineering is included within the design.				
<b>b.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>DeBary Public Safety Complex</b> DeBary, FL		<b>(2) YEAR COMPLETED</b>		
			PROFESSIONAL SERVICES 2014	CONSTRUCTION (If applicable) 2015	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Surveyor - CPH provided architectural design and construction documents for a 5,600-SF Public Safety Complex, including offices and operational facilities for local law enforcement. The style of the building uses colonial detailing with a "temple front" façade, divided light windows, pitched roof, stone wainscot, and white trims. CPH also provided site civil and master planning for future development. The project included meeting/training rooms, bill payment/secured entry, server and backup systems, offices, and holding cells. Due to the high security need, areas included bullet-proof glass and monitored access.				
<b>c.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Orlando Sanford International Airport Terminal Expansion</b> Sanford, FL		<b>(2) YEAR COMPLETED</b>		
			PROFESSIONAL SERVICES 2018	CONSTRUCTION (If applicable) 2021	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Surveyor - The project included expansion of the terminal as well as extensive renovations to the existing passenger, security, and food service areas equaling 140,000 SF. The project included access improvements to the terminal area, addition of a new traffic signal, phasing and coordination with terminal management, airlines, and concessionaires. Additional coordination was required with Transportation Security Administration (TSA) on the new Consolidated Screening Area and with U.S. Customs and Border Patrol (CBP) for the Federal Inspection Station (FIS) improvements.				
<b>d.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>IAA Specialty Parking Lot Relocation</b> Sanford, FL		<b>(2) YEAR COMPLETED</b>		
			PROFESSIONAL SERVICES 2012	CONSTRUCTION (If applicable) 2013	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Surveyor - In conjunction with land acquisition measures for the extension of Runway 9L-27R at Orlando Sanford International Airport, the relocation of parking areas was required as part of the land acquisition measures for the property. CPH had previously prepared three parking expansions for the IAA property and was selected in conjunction with IAA and the Sanford Airport Authority to perform the design of the relocation. CPH was tasked with the design and permitting of the 3.35-acre parking area with a wet retention pond. Site challenges required creative permitting solutions with the crossing of an existing stormwater pond for access, and the creation of a wet detention pond around an existing wetland. No impacts to the wetlands were included in the design, but impacts to upland cut ditches were included but did not require mitigation. CPH provided surveying, environmental, and civil engineering design services for the parking area as well as RPR services during construction.				
<b>e.</b>	<b>(1) TITLE AND LOCATION (City and State)</b> <b>Runway 9L-27R Extension</b> Sanford, FL		<b>(2) YEAR COMPLETED</b>		
			PROFESSIONAL SERVICES 2010	CONSTRUCTION (If applicable) 2013	
	<b>(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE</b> <b>PROJECT INCLUDED:</b> Surveyor - CPH was tasked with the surveying, design, permitting, and bidding of a 1,400 LF extension from 9,600 LF to 11,000 LF of the Orlando-Sanford International Airport's main commercial runway as part of our continuing services contract with the Sanford Airport Authority. CPH was responsible for the project management, surveying, utility relocates, perimeter security roadway, stormwater management system design/permitting, public roadway closure/access remedy, and fencing plan. CPH's team was also responsible for airfield and taxiway design, airfield lighting, NAVAIDS relocation, MALSR relocation, and Localizer/Glideslope relocation. CPH also provided post-design services including construction project management, inspection service, and project closeout assistance, as well as coordination with the FAA representatives, contractor questions, and construction document compliance.

a.	(1) TITLE AND LOCATION <i>(City and State)</i> <b>City of Sanford - Downtown Lift Station &amp; Vacuum</b> Sanford, FL			(2) YEAR COMPLETED	
				PROFESSIONAL SERVICES 2024	CONSTRUCTION <i>(If applicable)</i> 2025
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE <b>PROJECT INCLUDED:</b> Inspector - CPH provided design and construction services. This project consists of installing two new lift stations that will replace two existing vacuum pits and converting one existing vacuum pit to a gravity manhole with all associated piping, fittings, and control panels. Challenges with this project include coordination with multiple prominent business owners and tight alleyways full of existing underground utilities.				
b.	(1) TITLE AND LOCATION <i>(City and State)</i> <b>OUC-Watermain Replacement Design, Hughey Avenue, Division Avenue, &amp; Garland Avenue</b> Orlando, FL			(2) YEAR COMPLETED	
				PROFESSIONAL SERVICES 2021	CONSTRUCTION <i>(If applicable)</i> 2024
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE <b>PROJECT INCLUDED:</b> Inspector - The project included 5,300 LF of 20-inch DIP water main to replace the existing 24-inch water main along Hughey Avenue from Livingston Street to just north of South Street and along Division Avenue from just north of Anderson Street to Gore Street. This project also included installation of approximately 1,000 LF of DIP water main to replace the existing 24-inch water main along Garland Avenue from Washington Street to Robinson Street and along Washington Street from Garland Avenue to Hughey Avenue. Also, the abandonment of approximately 700 LF of 24-inch water main on Garland Avenue from Robinson Street to Livingston Street.				
c.	(1) TITLE AND LOCATION <i>(City and State)</i> <b>SR 46 Utility Relocations</b> Sanford, FL			(2) YEAR COMPLETED	
				PROFESSIONAL SERVICES 2016	CONSTRUCTION <i>(If applicable)</i> 2017
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE <b>PROJECT INCLUDED:</b> Inspector - CPH provided design, permitting, and CEI services for the relocation of existing utilities along a 2.7-mile stretch of SR 46 between Mellonville Ave. and SR 415 in the City of Sanford, Florida. The overall project included 10,100 ft of new 12-inch water main; 675 ft of new 6-10-inch water main; 4,200 ft directional drill 12-inch water main; 8,100 ft of new 6-8-inch force main; 900 ft directional drill 6-8-inch force main; 1,590 ft of new 10-inch sanitary sewer and manholes; 2,350 ft of new 20-inch reclaimed water main; one new Master Meter Assembly; and the removal of approximately 26,900 ft of existing water main, force main, sanitary sewer, and reclaimed water main.				
d.	(1) TITLE AND LOCATION <i>(City and State)</i> <b>Palm Coast WWTP No. 2- AWT MBR</b> Bay County, FL			(2) YEAR COMPLETED	
				PROFESSIONAL SERVICES 2015	CONSTRUCTION <i>(If applicable)</i> 2017
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE <b>PROJECT INCLUDED:</b> Inspector - CPH designed the City of Palm Coast WWTP No. 2. The WWTP No. 2 provides advanced treatment of wastewater (AWT) using the Membrane Bioreactor (MBR) technology. The process includes pre-treatment, flow equalization basins, anaerobic basins, pre-anoxic basins, aeration basins, post-anoxic basins, MBR basins, disinfection basins, and sludge dewatering. The reclaimed water will be reused as much as possible for irrigation of the residential, commercial, and other public accessible areas. The plant is rated at an initial capacity of 2.0 MGD expandable to 6.0 MGD. CPH has assisted the City in obtaining an SRF loan for the construction of the WWTF No. 2, the associated sewage force main/pump station, and the reclaimed water backup discharge system. CPH designed and permitted a wetlands discharge system for backup and wet weather disposal along with a regional reclaimed water system serving throughout the City and performed all CEI services during the construction.

21. TITLE AND LOCATION (City and State)		22. YEAR COMPLETED	
<b>Continuing Services Contract – Riverwood Community Development District</b> Englewood, FL		PROFESSIONAL SERVICES 2013	CONSTRUCTION (If applicable) 2016
23. PROJECT OWNER'S INFORMATION			
a. PROJECT OWNER Riverwood Community Development District	b. POINT OF CONTACT NAME Justin Faircloth, CAM, CDM, District Manager	c. POINT OF CONTACT PHONE 239.785.0675	
24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)			
<p>CPH held a continuing services contract with the Riverwood CDD located in Englewood, FL from 2013 to 2016. CPH provided services under our contract with the Riverwood CDD for projects that include:</p> <p><b>Stormwater and Lake Assessment</b> - CPH was responsible for conducting inspections and the analysis of stormwater management systems, lakes, and wetland preserve areas. Considerations included permit compliance, proper system function and safety, and aesthetic concerns for the residents and the District. Resulting assessment reports included identification and documentation of problems or concerns along with options and recommendations for corrective action, priorities and cost estimates for budgeting purposes. Also included are recommended routine maintenance actions, schedules, and budgets.</p> <p><b>2015 Resurfacing Project</b> - CPH designed the micro-surfacing of approximately 31,129 LF (5.9 miles) of residential roadway within the Riverwood Community. The project included the installation of various FDOT curb and gutter types to improve drainage. The project also included the installation of various FDOT sidewalks, curb ramps, and detectable warning devices that adhere to current ADA requirements. Signing and pavement markings that meet current criteria were also part of the project scope.</p> <p><b>Signal Improvement Plans for Charlotte County at S.R. 776 &amp; Riverwood Drive</b> - CPH designed traffic signalization at the previously unsignalized intersection of S.R. 776 and Riverwood Drive. This plan was put together based on behalf of the Riverwood CCD organization, and not the FDOT or Charlotte County. First, CPH performed traffic studies to determine the signal timing required, as well as verify that the queue length was adequate at the existing turn lanes for a left-turn protected only movement on SR-776, as required by FDOT District 1 requirements. CPH also performed the survey of the intersection for the project. Afterwards, the signalization plans that were prepared included adding three mast-arm structures, lengthening the existing northbound turn lane on SR-776 to provide adequate queue length, and adding a marked crossing with pedestrian signals across the southern approach to the intersection on SR-776.</p> <p><b>Hydraulic Modeling Services (Potable Water &amp; Irrigation Water Systems)</b> - CPH created a hydraulic model of Riverwood CDD's existing potable water and irrigation water systems. Our report provided a spring-board for the appropriate future upgrades to resolve the CDD's water related concerns. The report provided ways for the CDD to improve potable water quality (e.g., pipe looping options and pigging/cleaning of the interior pipe walls). Increasing pressure to the homes was addressed and CPH recommended for an additional interconnect with Charlotte County Utilities was made. The irrigation system recommendations included a watering schedule and consideration of increasing pumping capacities, if needed.</p> <p><b>Community Center Building Evaluation</b> - CPH was responsible for the evaluation of the existing activity center for mold, leaks, as well as upgrades and modification of the HVAC and electrical system. CPH prepared cost estimates for suggested repairs and provided recommendations for design improvements.</p>

<b>23. PROJECT OWNER'S INFORMATION</b>				
a. PROJECT OWNER Dunes Community Development District	b. POINT OF CONTACT NAME Tim Sheahan, P.E., Utility Manager	c. POINT OF CONTACT PHONE 386.445.9045		
<b>24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)</b> <p>CPH has provided services under our continuing contract with the Dunes Community Development District for projects that include:</p> <p><b>Miscellaneous Mapping/Drafting Services</b> – Conversion of the District's existing AutoCAD drawings into multiple 11 x 17 sheets also suitable for 24 x 36 reproduction; revised formatting items as appropriate for the drawing scale ensuring a clear and legible final product.</p> <p><b>Filter Line Design &amp; Permit Preparation</b> – Design and permit preparation for a filter line extension of approximately 150 LF from the existing sequencing batch reactors to the existing filters to increase reliability and redundancy at the District's existing wastewater treatment plant.</p> <p><b>Hammock Dunes &amp; Camino Del Mar Parkway Milling and Resurfacing Design, Bidding &amp; Construction Assistance</b> – Design, bidding, and construction assistance services associated with the mill and resurface of the asphalt portions of the bridge approaches to the Hammock Dunes Bridge and Camino Del Mar Parkway, including the intersection of Camino Del Mar Parkway and Hammock Dunes.</p> <p><b>Computer Model Development for a Reclaimed Water Interconnect Between the Dunes and the City of Palm Coast</b> – Development of a hydraulic model of a reclaimed water interconnect between DCDD and the City of Palm Coast.</p> <p><b>Reclaimed Water Computer Model Development</b> – Development of a hydraulic model of the reclaimed water distribution system.</p> <p><b>Design, Permitting, Bidding, and Construction Services for Water Supply Wells</b> – Design and permitting for a new potable water supply well (5W) and replacement of wells 1W and 2W with a new non-potable well, 6W; abandonment of wells 1W and 2W after new well 6W placed on line.</p> <p><b>Water and Wastewater Facilities Review and Capacity Analyses</b> – CPH was awarded Engineering Services for the Water and Wastewater Facilities Review Project with the Dunes Community Development District. The District owns and operates a 500,000-gallon-per-day wastewater treatment plant, a reclaimed water pump station, and a 720,000-gallon-per-day water treatment plant. The services provided include: (1) Water Treatment Plant Capacity Analysis Report; (2) Water Treatment System Evaluation; (3) Wastewater Treatment Plant Capacity Analysis report; (4) Wastewater Treatment System Evaluation. As part of the services, CPH also made recommendations on process selection and schedule for implementation in order to continue to serve the District's customers.</p> <p><b>Reclaimed Water Storage Ponds No. 1 and 4 Liner Replacement</b> - CPH prepared the package for soliciting bids to place the liners of the reclaimed water storage ponds No.1 and 4, including plans, specifications, bid package, bidding addendums, bid evaluation, and award.</p> <p><b>Construction Engineering and Inspection Services for Pond Liner Project</b> – Construction engineering services during construction of a project involving removal and replacement of pond liners inside existing effluent storage ponds 1 and 4 located at the District's WWTP facility; observation of work for compliance with plans and specifications provided on a consistent basis.</p> <p><b>WWTP Expansion</b> - CPH was selected to provide planning, design, and permitting services for the Dunes WWTP improvements. The current Dunes WWTP includes three SBR trains (0.125 MGD, 0.125 MGD, and 0.25 MGD, respectively) for a total capacity of 0.5 MGD. The engineering design services CPH provided include: addition of equalization basin for the existing treatment facility and the new expansion; SBR treatment process expansion; aerobic digester improvements; sludge thickening improvements; and addition of men's and women's restrooms and a storage room. CPH is responsible for reviewing the existing conditions and the infrastructures, and developing the best approaches for the Dunes WWTP improvements.</p>

### 24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

The Caspersen Beach Park Improvements included the addition of two new restrooms. CPH provided the following services: site planning, engineering, environmental services, permitting, and bidding/construction administration services. The project includes approximately 4100 LF of new 4" watermain and 3100 LF of 2" forcemain with two lift stations and a new watermain for Caspersen Beach Park. The project also included the addition of new ADA parking and access, sidewalks, and stormwater treatment system. Work included investigation of site constraints, modeling of projects water and wastewater, analysis of existing lift stations, preparing a water study based on similar projects, development of Low Impact Design (LID) elements including two rainwater collection cisterns, stormwater engineering, and site improvements.

For the Blind Pass Park Project services included site planning, engineering, environmental services, permitting, bidding and construction administration services for construction of a new restroom, with ADA parking and access, sidewalks, water lines, stormwater treatment system and a new septic drain field for Blind Pass Park, located on the barrier island of Manasota Key at 6725 Manasota Key Road, in Sarasota, Florida. Initial work included investigation of site constraints, establishing the client's program needs for the site and developing a preliminary site plan. The constraints analysis included aspects such as coastal construction regulations, flood elevations, protected species survey, wetland and protected habitat delineation, and geotechnical investigation.

CPH provided site planning, engineering, environmental services, permitting, bidding and construction administration services for the Manasota Beach Park Restroom and Concession Stand. The improvements included construction of a new restroom and multi-purpose building, with ADA parking and access, stormwater treatment system, and new septic system. Initial work included investigation of site constraints, establishing the client's needs for the site and developing a preliminary site plan. The constraints analysis included aspects such as coastal construction regulations, flood elevations, protected species survey, wetland and protected habitat delineation, and geotechnical investigation. The project incorporated green building practices and the site plan needed to work with existing architectural elements as well as the beautiful view of the beach enjoyed by vehicles approaching the park. CPH worked with the County to establish and use "branding elements" that are unique to Sarasota County Beach Parks. In addition to restrooms, the facility incorporated a concession building, lifeguard break room/treatment room and a work station for local law enforcement.

21. TITLE AND LOCATION (City and State) <b>Manatee County- Kingfish Boat Ramp</b> Manatee County, FL		22. YEAR COMPLETED	
		PROFESSIONAL SERVICES 2020	CONSTRUCTION (If applicable) Ongoing (On Hold for Funding)
23. PROJECT OWNER'S INFORMATION			
a. PROJECT OWNER Manatee County	b. POINT OF CONTACT NAME Angela Honts, PMP	c. POINT OF CONTACT PHONE 941.748.4501	
24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)			
<p>Redevelopment of existing Kingfish Boat Ramp owned and maintained by Manatee County Parks and Natural Resources. The proposed improvements include replacement/addition of boat ramp single launch lanes, paving of gravel parking lot, reconfiguration of parking area and additional trailer parking spaces, addition of a stormwater management facility, new dock/pile system, and new sea wall. The project is proposed to be completed in two phases. The first phase will consist of parking lot, sea wall/dock, stormwater, and boat ramp improvements within the existing project boundary. The second phase of the project will consist of parking lot improvements that will expand into a new project boundary with additional area provided by FDOT SR64 improvements. Overall, the project is very personal to the local residential and fishing community on the west coast of Florida, with users ranging from Tampa down to North Sarasota. The boat ramp provides excellent access to inshore fishing grounds and the open waters of the Gulf of Mexico (Skyway Bridge), making it the most popular destination for private and charter boats within Manatee County. The redevelopment will substantially increase opportunity for tourism and economic development in the area by providing access to coastal waters for the opportunity of experiencing Florida's iconic sportfishing and wildlife. Innovative techniques used to design the seawall: wave action against seawall, dock, and boat ramp were modeled using computational fluid dynamics and numerical modeling software to determine the necessary reinforcement of the structures.</p> <p><b>Unique Challenges:</b></p> <ul style="list-style-type: none"> <li>• Coordination with FDOT to maximize boat ramp improvements and avoid conflicts with proposed SR 64 roadway and bridge improvements. Including increasing property boundaries (currently Manatee County leases property from FDOT).</li> <li>• Coordination with FDOT to maximize stormwater treatment efficiency with joint pond system serving roadway and Kingfish Boat Ramp improvements</li> <li>• Addition of stormwater treatment system to capture run-off from project site that is flat and currently runs-off into Jones Bayou</li> <li>• Coordination with City of Holmes beach Mayor and Staff for local preferences, such as preserving Austrailian Pine Trees, Holmes Beach monument sign, neighboring residential areas, and low impact development strategies.</li> </ul>

### 24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

CPH provided planning, design, permitting, and construction administration for the development of a new regional community park in Parkland, Florida. The new park is approximately 36 acres and is partially funded through a FDEP grant. As part of the planning process, the team evaluated three distinct options to create an environmental park that merged active with passive recreation. Amenities that were considered include sand volleyball, pickleball, "Bank Shot" basketball course, Ninja Warrior course, trails, water features including environmental overlooks and preserves, softball fields, multi-purpose fields, and playgrounds.

### 24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

CPH provided professional design and construction engineering services for improvements of SE 47th Terrace, from Coronado Parkway to Del Prado Blvd. The project included reconstruction of an existing four-lane section utilizing roadway dieting to incorporate complete streets principles. The goal of the project was to provide corridor safety and ADA upgrades as well as create a new downtown core. The 0.90-mile project included sidewalks with pavers, landscaping, road reconstruction, removal of on-street parking to increase the width of the pedestrian area, off-street parking modification, streetlights, traffic analysis and calming including adding a roundabout at one of the busiest intersections, raised mid-block pedestrian crossings, street furniture, removable bollards at each intersection, ADA improvements, and drainage modifications/upgrades.

As part of the intersection safety improvements one of the intersections was converted to a single-lane roundabout with a 98-ft inscribed circle. The entry lanes for the north-south direction required reducing the four-lane roadway to a two-lane roadway prior to entering the roundabout. The roundabout also included raised, traversable, curbed islands along the outer circle to keep the fastest-path speeds low, but still allow the design vehicles (WB-50, city bus, and emergency vehicles) to safely maneuver through the roundabout. CPH also worked with the City and stakeholders on access management to improve driver and pedestrian safety throughout the corridor.

CPH also designed the utility upgrades/modifications, including a new upsized water main, new force main, and a new reclaimed water main for the length of the project. Design services also included modifications to the City's Club Square, such as added sidewalks, bio-retention swales, entrance feature, ADA improvements, landscaping, and streetlights. The new pedestrian and roadway lighting system also included electrical outlets for special events, Wi-Fi hotspots, and CCTV security system throughout the corridor.

### 24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

CPH provided planning, survey, and design services for a 1.7-mile extension to the Sanford RiverWalk project. The RiverWalk project included extending the multi-use trail along Lake Monroe and designing streetscape/traffic calming elements to create a Complete Street corridor.

The roadway improvements for this project followed the complete street design elements. In addition to the multi-use trail, the roadway safety improvements included the multiple traffic-calming elements to increase safety. These included two roundabouts, three mini-roundabouts, roadway chicaning to incorporate landscaped medians, raised mid-block crossings, bike lanes, and added on-street parking. The two roundabouts created book-end entry features to signify the entrance to the RiverWalk corridor. The single-lane roundabout included a three-leg roundabout with a 120-ft inscribed circle. The two-lane roundabout at the interchange with Interstate 4 included a 180-ft inscribed circle with two right-turn slip lanes. The three mini-roundabouts created entry features to the Central Florida Zoo and two residential neighborhoods, and all included 80-ft inscribed circles with decorative traversable center islands.

The multi-use trail extension connects the RiverWalk Ph II trail (previously designed by CPH) to the adjacent Seminole County Rinehart Trail, the downtown Sanford RiverWalk Trail system, and the Florida Coast-to-Coast trail. Additionally, this segment of trail completed the largest remaining gap within the Lake Monroe Trail Loop system that spans both Seminole and Volusia Counties.

CPH services for this project also included roadway & trail lighting, utility design, structural seawall design, drainage improvements/design, irrigation design, beautification, hardscape and landscape design, scenic overlooks of Lake Monroe, and wetland mitigation. The project included funding through a Local Joint Project Agreement between the City of Sanford, Seminole County, and the FDOT. CPH was also involved with facilitating the transfer of ownership of the US-17-92 corridor within the project limits, from the FDOT to the City of Sanford.

### 24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

CPH was awarded the design and permitting for the City of Largo's \$53 million Wastewater Reclamation Facility (WWRF) Biological Treatment Improvements project as part of a Design/Build Team with CPH as the designer and Kiewit Infrastructure South as the contractor. The City received an Administrative Order (AO) from FDEP in 2012 for exceeding the WWRF's total nitrogen (TN) loading limits to Feather Sound, requiring the City to reduce the effluent TN concentration for surface water discharge. Even though the WWRF was meeting Advanced Wastewater Treatment limits of 5/5/3/1, these reductions were insufficient to enable the City to achieve the required annual nitrogen loading limits to Feather Sound. To meet the TN loading allocation, CPH designed biological treatment process upgrades of this 18-MGD wastewater plant to achieve further reductions in TN than those required of the Advanced Wastewater Treatment (AWT) standards. By optimizing and automating the current biological process, predictable reductions of nitrates can be accomplished, reducing the loading on secondary downstream processes. Treating public access reclaimed water independent of surface water discharge also provides a reduction in loading to processes dedicated to the further reduction of nitrates. This combined reduction in loading allows for optimization of those secondary processes dedicated to the further reduction of nitrates, enabling the City to meet the TN loading limits to Feather Sound as required by permit. In addition to complying with the permitted TN limits, CPH's unique design provides operational cost savings by reducing maintenance requirements and consolidating equipment (plant blowers), methanol dosage reduction, operational cost reduction, electrical system improvements, instrumentation system improvements, and an efficient natural biological process that uses less energy. The chief benefit of the AWWTF Biological Treatment Improvements Project is the significant reduction in nitrogen discharged to the Bay. A reduction in nitrogen loadings is anticipated to enhance the Bay through seagrass recovery, improved water quality, reduced algal blooms, protected marine life, and re-stored habitats, coastal uplands, and tidal tributaries. Further, it is expected to improve the quality of living for the residents who use the Tampa Bay for fishing and other recreational activities.

## H. ADDITIONAL INFORMATION

CITY OF  
**SANFORD**  
ECONOMIC DEVELOPMENT  
DEPARTMENT

**October 30, 2024**

CPH Consulting, LLC  
500 West Fulton Street  
Sanford, FL 32771

**To Whom It May Concern,**

It is my pleasure, on behalf of the City of Sanford, to recommend CPH for their outstanding architectural and engineering design services. Our partnership with CPH has made a remarkable difference in our community, and we are consistently impressed by their professionalism, innovative solutions, and attentiveness to our needs.

The CPH team has provided an extensive suite of services, including architectural design, civil and landscape architecture, utility design, as well as structural, mechanical, electrical, and plumbing engineering, surveying, and construction administration. Their meticulous approach and dedication to quality were key in ensuring the successful, timely, and high-standard completion of our projects.

CPH's responsiveness, technical expertise, and client-centered approach were evident at every project phase. They addressed our needs promptly and thoroughly, making them a trusted partner among city officials and staff. We wholeheartedly recommend CPH to any organization looking for a skilled and reliable design firm.

For any questions regarding our experience with CPH, please feel free to contact me—my information is found below.

Sincerely,

Brady Lessard

February 22, 2021

To Whom It May Concern:

CPH, Inc. (CPH) provided services for the Dunes Community Development District's (DCDD) expansion and upgrade at our wastewater treatment plant. We have been pleased with the services provided and are happy to provide this letter as a reference for the firm and their project team.

We selected CPH to provide planning, design, permitting, and construction services for the DCDD WWTP improvements which included capacity upgrades and the design of associated sludge digesting and drying facilities. CPH was responsible for reviewing the existing conditions and the infrastructures and developing the best approaches for the DCDD WWTP improvements. Overall, the WWTP expansion included: (1) addition of equalization basins for the existing treatment facility and the new expansion; (2) addition of a SBR treatment process; (3) new aerobic digesters; (4) sludge thickening improvements by adding two dewatering boxes; (5) demolition of the existing digesters and the use of this space for a new storage building; and (6) all the associated electrical and control improvements. CPH is currently working on re-rating the WWTP to obtain more treatment capacity.

The team at CPH worked in conjunction with our administration and operations staff to provide a design that minimized impacts to plant operations and met our budgetary goals. We have found the team members to be innovative and responsive. I would highly recommend CPH and their staff members for wastewater treatment and utility engineering projects.

Should you have any specific questions about the information above please do not hesitate to contact me.

Sincerely,

Gregory L. Paugh, P.E.  
District Manager  
Dunes Community Development District

June 3, 2021

City of Orlando  
Wastewater Division  
5100 L.B. Mcleod Road  
Orlando, FL 32811

To Whom It May Concern:

CPH has worked with the City of Orlando, Water Reclamation Division (WRD), on multiple projects and is currently retained as one of the City's continuing consulting utility engineers. CPH has prepared design plans for main relocations, lift station upgrades, chlorine scale replacement at Conserv II, and other utility related projects. CPH has also worked alongside the City on the challenging I-4 Ultimate project conducting plan and specifications reviews and full-time inspection services. The WRD has found the CPH staff to be innovative, professional, reliable, and responsive and provide a quality service.

I believe that CPH provides excellent engineering services and the WRD has no reservations about having CPH continue to provide engineering services.

Should you have any specific questions about the information above please do not hesitate to contact me.

Sincerely,

Chuck Shultz, P.E.  
Assistant Division Manager, City of Orlando Water Reclamation Division

March 08, 2019

CPH, Inc.  
 500 West Fulton Street  
 Sanford, FL 32771

To Whom It May Concern:

It is my pleasure to provide CPH, Inc. (CPH) with this letter of recommendation. Their staff was professional, inventive, dependable, and responsive. They offer architecture, site/civil design, landscape architecture, utility design, structural design, mechanical/electrical/plumbing, survey and construction administration services.

CPH recently provided architectural design and construction documents for a 22,200 SF square foot maintenance warehouse and office building. This project was primarily a pre-engineered metal building with a masonry wainscot along the main entrance. This facility was designed in mind to store non-combustible material. The office component was approx. 10,000 SF and the remaining area was in the warehouse. The walls were designed as metal panels and the roof was done as a standing seam. CPH was also responsible for all associated structural, civil, mechanical, plumbing, and electrical design.

District officials and staff members have been pleased with the cost, quality, and responsiveness from the CPH team. We recommend CPH for any architectural and engineering services you might require.

Should you have any specific questions about the information above please do not hesitate to contact me.

Sincerely,

Keith R. Ledford, Jr., PE  
 Technical Support Manager

CPH, Inc.  
500 West Fulton Street  
Sanford, FL 32771

To Whom It May Concern:

It is my pleasure to provide CPH, Inc. (CPH) with this letter of recommendation. The staff is professional, inventive, dependable, and responsive. They have architecture, site/civil design, landscape architecture, utility design, structural design, mechanical/electrical/plumbing, survey and construction administration services.

CPH was commissioned to design a new 9,000 SF, Neighborhood Resource Center for the City of Leesburg. CPH is responsible for full design services including survey, civil, landscape, architectural and MEP. The Center will include meeting room spaces for large and small groups, a computer lab, office space for local community service providers, conference rooms for miscellaneous social groups, and a Kitchen / Café facility.

CPH played a large part in obtaining the community's favor for this project. It took multiple organized public involvement meetings, in which two key architectural components were identified, too get this project off the ground. Through CPH's efforts, and in order to meet the community's needs, the decision was made to incorporate a community kitchen and café within the building and to design the meeting spaces with the intent of being multifunctional.

This facility was designed to be utilized as an educational facility, as well, where the City could offer classes on important life skills like cooking. In order to ensure the community center met these needs CPH developed a space program for the facility. They were able to design a café with both indoor and outdoor seating elements while incorporating key infrastructure elements for the commercial kitchen until the equipment could be purchased at a later date. The flexible meeting space was accomplished by designing large meeting rooms with folding partitions to support smaller or larger groups. The end result was a flexible, cost effective, user-friendly neighborhood resource center with the potential for future development when the City needs it.

City officials and staff members have been pleased with the quality and responsiveness from the CPH team. They truly have gone above and beyond for any need that arose during our time working together. We highly recommend CPH for any architectural and engineering services you might require. If you have any questions, please do not hesitate to contact me.

Sincerely,

Mr. Ken Thomas, Director  
City of Leesburg Resource Center  
1041 CR 468  
Leesburg, Florida 34748

## MINORITY BUSINESS ENTERPRISE

CPH is committed to meeting or exceeding the M/WBE participation goals for this contract. CPH has established working relationships with many minority firms in the area.

### **COMMITMENT TO DIVERSITY AMONG THE FIRM**

CPH has a culturally and ethnically diverse workplace from its leaders to its employees. CPH employs a workforce that is reflective of many nationalities and cultures. We have established programs and policies for recruiting and retaining minority and women engineers and staff, and strongly encourage all of our employees to become involved in our communities. It is the policy of CPH to provide equal employment opportunity at all times in all actions related to employment without regard to race, color, religion, gender, citizenship status, age, national origin, disability, veteran status, sexual orientation, or any other status protected by state or federal law. This policy applies to recruiting, hiring, training, promotion, evaluation, termination, compensation, benefits eligibility, working conditions, and all other aspects of employment. The Firm supports a policy of actively recruiting and retaining a diverse workforce to support both our Equal Employment Opportunity Policy and our business objective to provide the highest quality service possible. CPH is committed to fostering an inclusive atmosphere that seeks actively to employ people of diverse backgrounds at all levels of the Company, including top management and leadership.

## METHODS AND CONTROLS TO BE UTILIZED TO BALANCE AND MAINTAIN QUALITY, SCHEDULE, AND BUDGET

---

CPH is uniquely qualified to provide design services for Riverwood Community Development District. The team located in our Fort Myers office includes engineers, designers, surveyors, environmental scientists, and administrative personnel. CPH is currently finishing design services for other clients, but is actively seeking work for our staff. As a result, our staff is available and has the capacity to perform projects as they are assigned. CPH is committed to meeting budget and schedule requirements. CPH has developed a reputation for cost effective, quality-engineering services through a philosophy of strong project management. Operating under aggressive deadlines and close coordination with District Staff, we commit to manage each work assignment under this contract based upon the following philosophies:

- By proposing a project manager with experience working in Florida.
- Frequently involving District staff in meetings to expedite decision-making.
- Utilizing email and short memoranda to document progress of construction. Reporting status of the budget on a monthly basis in report form to District Staff.
- Preparing and distributing a Project Specific Workplan that details the following:

**What is to be done** – Define a scope of services by bringing in the stakeholders up front to discuss the project goals and objectives.

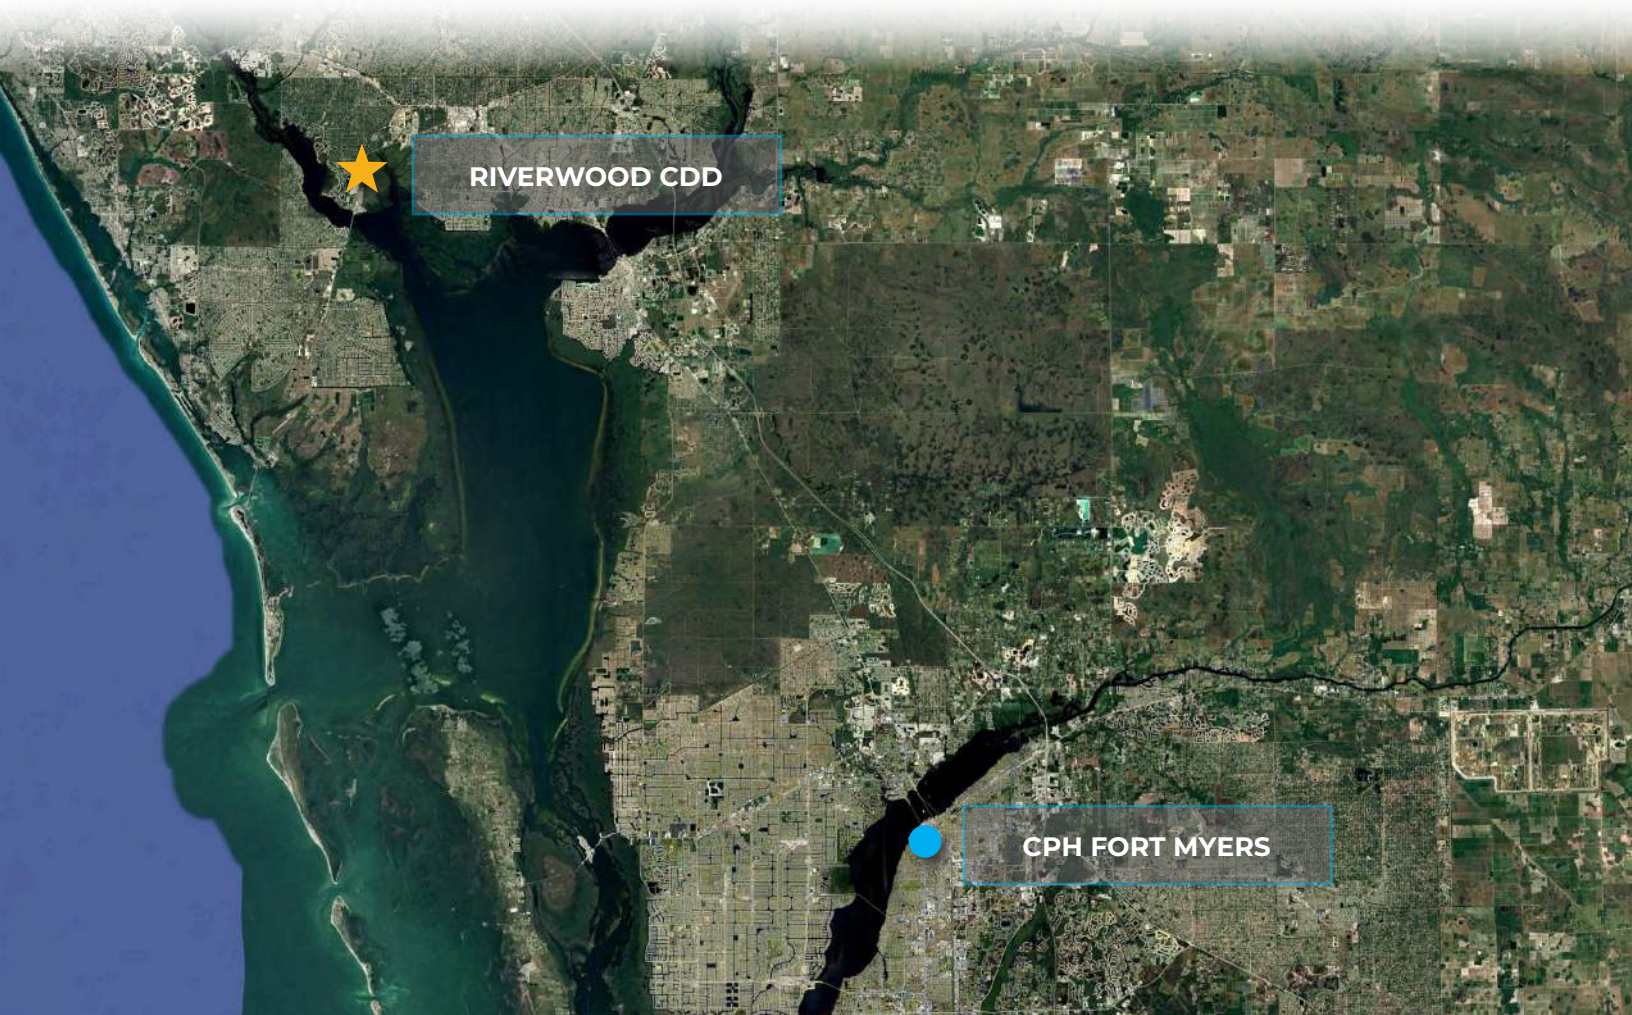

**Who is going to do it** – Monitor staffing usage, needs, and expenditures bi-weekly through our accounting software.

**When it will be done** – Maintain the Project Schedule using Microsoft Project software for scheduling and tracking.

**How much it will cost** – Monitor the estimated construction cost using trend reports prepared monthly and based on the most up-to-date data available from published prices and any known quantity revisions for the past month.

**How it will be controlled** – CPH will strive to provide quality service within the project schedule and require Quality Assurance/Quality Control (QA/QC) procedures to be identified in the initial internal project kick-off meeting. Time for QA/QC is incorporated into the project schedule; therefore, it will not delay project milestones. CPH has developed an extensive QA/QC procedure and incorporates it into each of its projects to ensure client satisfaction.

# OFFICE LOCATION

CPH has 19 offices throughout the United States, with support of approximately 425+ personnel throughout the company to assist in any project that may arise under this contract. The District will have the direct commitment of the CPH Fort Myers office, located at **2216 Altamont Avenue, Ft. Myers, FL 33901**.

OFFICE	ADDRESS	DISTANCE FROM DISTRICT
CPH FORT MYERS	2216 Altamont Avenue, Ft. Myers, FL 33901	37 Miles   50 Minutes
CPH SANFORD (HEADQUARTERS)	500 West Fulton Street, Sanford, FL 32771	189 Miles   3 Hours

## CURRENT AND PROJECTED WORKLOAD

*Our team has the staffing and availability to start working on the District's project immediately. CPH will work diligently to provide the services for the District in the time frames requested. CPH is uniquely qualified to provide these services as a result of the staffing capacity of the firm.*

We are well-staffed, equipped with our nearby Fort Myers location, and believe that we and our team members can provide a high-quality, professional service to the District that is completely responsive and cost effective. The graph depicts our current contracted backlog with no consideration for any additional work. The current workload will spread over 13 months. Our current production capability is \$6,500,000 per month. Through our 420+ full-time staff members, CPH's current contracted backlog requires approximately \$5,850,000 per month. Currently CPH has an additional \$1 Million production capacity through our current staff, and has available capacity and resources to dedicate to the District.

## VOLUME OF WORK AWARDED BY THE DISTRICT

From 2013 to 2016, CPH held a Continuing Services Contract with the Riverwood Community Development District (CDD) in Englewood, Florida. During this time, CPH successfully delivered a range of planning, design, and engineering services to support the District's infrastructure and community development goals. Representative projects completed under this contract include:

- Stormwater and Lake Assessment 2015 Resurfacing Project
- WWTP Groundwater Modeling Well
- WWTP Pre-Fabricated Storage Building
- Activity Center Inspection
- GIS Mapping
- Irrigation Water Use Permit
- Lake Study and Pond Evaluation
- CEI Services WWTP Odor Control
- Enrio Beach Club Survey Inspection
- Activity Center 2 MEP Improvements
- Signal Improvement Plans for Charlotte County at S.R. 776 & Riverwood Drive
- Hydraulic Modeling Services (Potable Water & Irrigation Water Systems)
- Community Center Building Evaluation

Riverwood Community Development District  
210 North University Drive, Suite 702  
Coral Springs, FL 33071

**Re: Riverwood Community Development District - Professional Engineering Services**

Dear Supervisors:

As an experienced District Engineer to Chapter 190 Community Development Districts in South Florida, it is clear that the role of District Engineer is to provide the Board of Supervisors with unbiased, accurate engineering knowledge in common-sense language. Board members needing to make necessary fiscal decisions that impact the health and safety of current and future residents depend upon clear, timely answers on engineering related matters. We have more than seven decades of experience in Lee and Collier Counties and more than four decades with the proposed personnel that will work for the Riverwood Community Development District (CDD). We have assisted many CDDs with the transition from developer control to community ownership, and we are ready to be your trusted and independent partner. Our project manager for this District will be Chris Beers. He has over 30 years of experience in civil engineering working for municipal governments.

In addition to the District Engineer, you will receive the support of a team of qualified professionals with the knowledge of stormwater management, current environmental issues, transportation/ roadway/pedestrian safety and enhancement design, utility design, landscape design and construction management/observation along with current permitting requirements in order to efficiently maintain or expand the District's services that are being provided to its residents. Our team is known for providing outstanding service as well as always being mindful of our client's time and budgetary needs. Our clients find that our vast experience and dedication to professionalism bring success to their projects. Please see our CDD list below:

We appreciate the opportunity to submit our qualifications and look forward to the opportunity to build our relationship with the Riverwood Community Development District. Please do not hesitate to contact me should you have any questions during your review of our proposal.

a. Ability & Adequacy of Professional Personnel

### Depth of Experience

Centuries of combined experience has immersed our team of licensed professionals into Florida's geography, giving a rare perspective into development of the area and an appreciation of the changes.

### Full Range of Services

Specialized teams of licensed engineers, land planners, landscape architects, surveyors, ecologists, water resources experts, transportation and utility designers provide a variety of specialized services.

### Long Term Commitment

Our team's average tenure with Johnson Engineering is 13 years, 53% of our employees have been here for more than 10 years, and an unprecedented 21% have been with us for more than 20 years, showing our team's continuity and dedication to the area.

### Firm Overview

When Johnson Engineering was established in 1946, much of Florida was an undisturbed land. More than 79 years later we have seen booms in development and a tremendous population growth alter the landscape permanently. We have been assisting private companies, city, county, federal, and state government through these changes and challenges by offering expertise in a broad spectrum of disciplines.

Just as Florida has transformed dramatically over the years, so has Johnson Engineering. What started as one man surveying Southwest Florida, has developed into a cohesive team of 130 professional civil engineers, ecologists, scientists, geologists, surveyors and mappers, certified land planners and landscape architects, located throughout Florida.

### We have 79 years of professional experience and 49 years of District work throughout Florida.

Our extensive list of well-known residential communities, roads, schools, hospitals, airports, resorts, shopping centers, and commercial developments, show our experience and continued responsibility in developing Florida's communities.

Our team has worked closely together on the following CDD's.

- |                                       |                                       |

| ↪ Parklands West CDD                  | ↪ Wynnmere East CDD                   |

## CAPABILITIES SUMMARY

We have an experienced team of professionals located throughout Florida, many of whom have considerable Special District experience. Our extensive list of well-known Florida Special District's, residential communities, roads, schools, hospitals, airports, shopping centers, resorts and commercial developments show our continued responsibility in developing Florida's communities.

### LAND DEVELOPMENT

Project Management / Coordination • Due Diligence  
Site Design • Cost Estimation • Permitting  
Construction Observation & Administration  
Single Family Communities • Multi-Family Residential  
Assisted Living • Commercial • Industrial • Medical  
Institutional • Educational • Recreational

### PLANNING

Feasibility & Assessment Studies • Master Planning &  
Urban Design • Neighborhood & Sector Planning  
Comprehensive Planning & Zoning • Facility Planning  
Corridor Planning • Local Government Planning  
Public Engagement • GIS Services  
Code Writing Redevelopment Planning

### SURVEYING & MAPPING

Subsurface Utility Engineering & Mapping (SUE)  
Hydrographic Surveying • Transportation Surveying  
Bathymetric Surveying • ALTA Surveys  
Boundary Surveys • Construction Layout  
Platting • Record Surveys  
Sketches and Legal Descriptions

### ECOLOGICAL/ENVIRONMENTAL CONSULTING

Wetland Delineation, Assessments & Permitting  
Protected Species Surveys, Permitting & Relocations  
Mitigation Design & Monitoring  
Marine & Coastal Environmental Services  
Airport Wildlife Hazard Services  
Drone Services  
Geographic Information Systems

### STORMWATER MANAGEMENT

Surface Water Master Planning • Surface Water  
Retrofit • BMP Selection and Design  
Hydrologic, Hydraulic & Water Quality Modeling  
Federal, State and Local Surface Water Permitting  
Flow & Stage Monitoring • Water Quality Treatment  
Special Governments • Filter Marsh Design

### WATER QUALITY STUDIES

Stormwater/Surface Water Quality Studies  
Groundwater Quality Studies • Estuarine/Coastal  
Water Quality Studies • Subaqueous Sediment  
Characterization • TMDL Pollutant Loading  
Determination • EPA Section 319 and FDEP SWAG  
Assistance • Microbial Source Tracking • Quality  
Assurance Project Plan • Non-point Source Evaluation

### WATER SUPPLY

Hydrogeological Investigations  
Water Resource Assessments • Water Use, Water  
Supply System Permitting • Well & Wellfield Design  
Regional Water Supply Planning  
Groundwater Modeling • Deep Injection Wells  
Alternative Water Supplies Studies

### ENVIRONMENTAL ASSESSMENT

Phase I Environmental Site Assessments (ESAs)  
Phase II Environmental Site Assessments (ESAs)  
NPDES Compliance Monitoring  
Permit Compliance Monitoring and Reporting  
Filter Marsh Efficiency Evaluation  
Water Use Accounting Method Calibration  
BMAP Nutrient Removal Project Assessment

### GEOGRAPHICAL INFORMATION SYSTEMS

ESRI-based GIS Services • Mobile Online Map  
(ArcGIS Online) • Custom Client Online Map Services  
Geodatabase Development and Implementation  
CAD-GIS-DGN Conversions • High Accuracy GNSS  
(GPS) Data Collection • Advanced Modelbuilder  
& Python Scripting • LiDAR Derivative Products  
Cartographic Visualization • Aerial Photo Processing

### TRANSPORTATION DESIGN

Roadway Design • Signalization Design  
Resurfacing, Rehabilitation and Restoration  
Street Lighting Design • Traffic Analyses  
Roundabout Design • Signalization Design  
Corridor Planning • Bicycle, Transit,  
and Pedestrian Facilities

### CONSTRUCTION ENGINEERING & INSPECTION

Roadway Construction  
Bridge Construction  
Roadway Resurfacing Rehabilitation Restoration  
Major Drainage Structures Construction  
Private Development Construction Assistance  
Grant Funded Construction Oversight / Compliance

### LANDSCAPE ARCHITECTURE

Landscape/Hardscape/Irrigation Design • Conceptual  
Design • Commercial Design • Community  
Revitalization & Amenity Design • Streetscape Design  
Park Design • Visualization & Graphic Design  
Construction Documents & Observation  
Arboricultural Consulting Services • Plan Review  
Services • Community/Institutional/Hospitality Design

### UTILITIES

Utility Planning • Subsurface Utility Engineering (SUE)  
Data Collection & Analysis • Hydraulic Modeling  
Pipeline Design • Pump Station Design,  
Evaluation, and Operational Controls  
Utility Permitting • Project Management CEI

### ELECTRICAL ENGINEERING (EI&C)

Switchgear, Motor Control Centers, and Generators  
Power Distribution Equipment • Lighting  
Process & Industrial Control  
Systems Integration and Commissioning  
Electrical Systems Analysis (Short Circuit and  
Protective Coordination)  
SCADA Architecture, Networking & Telemetry

### SPECIAL DISTRICT ASSISTANCE

Stormwater Management • Water Use  
Environmental • Planning  
Landscape Architecture  
Surveying & Mapping • Utilities  
Roadway/Traffic Studies  
Geographic Information Systems (GIS)  
Construction Engineering & Inspection (CEI)

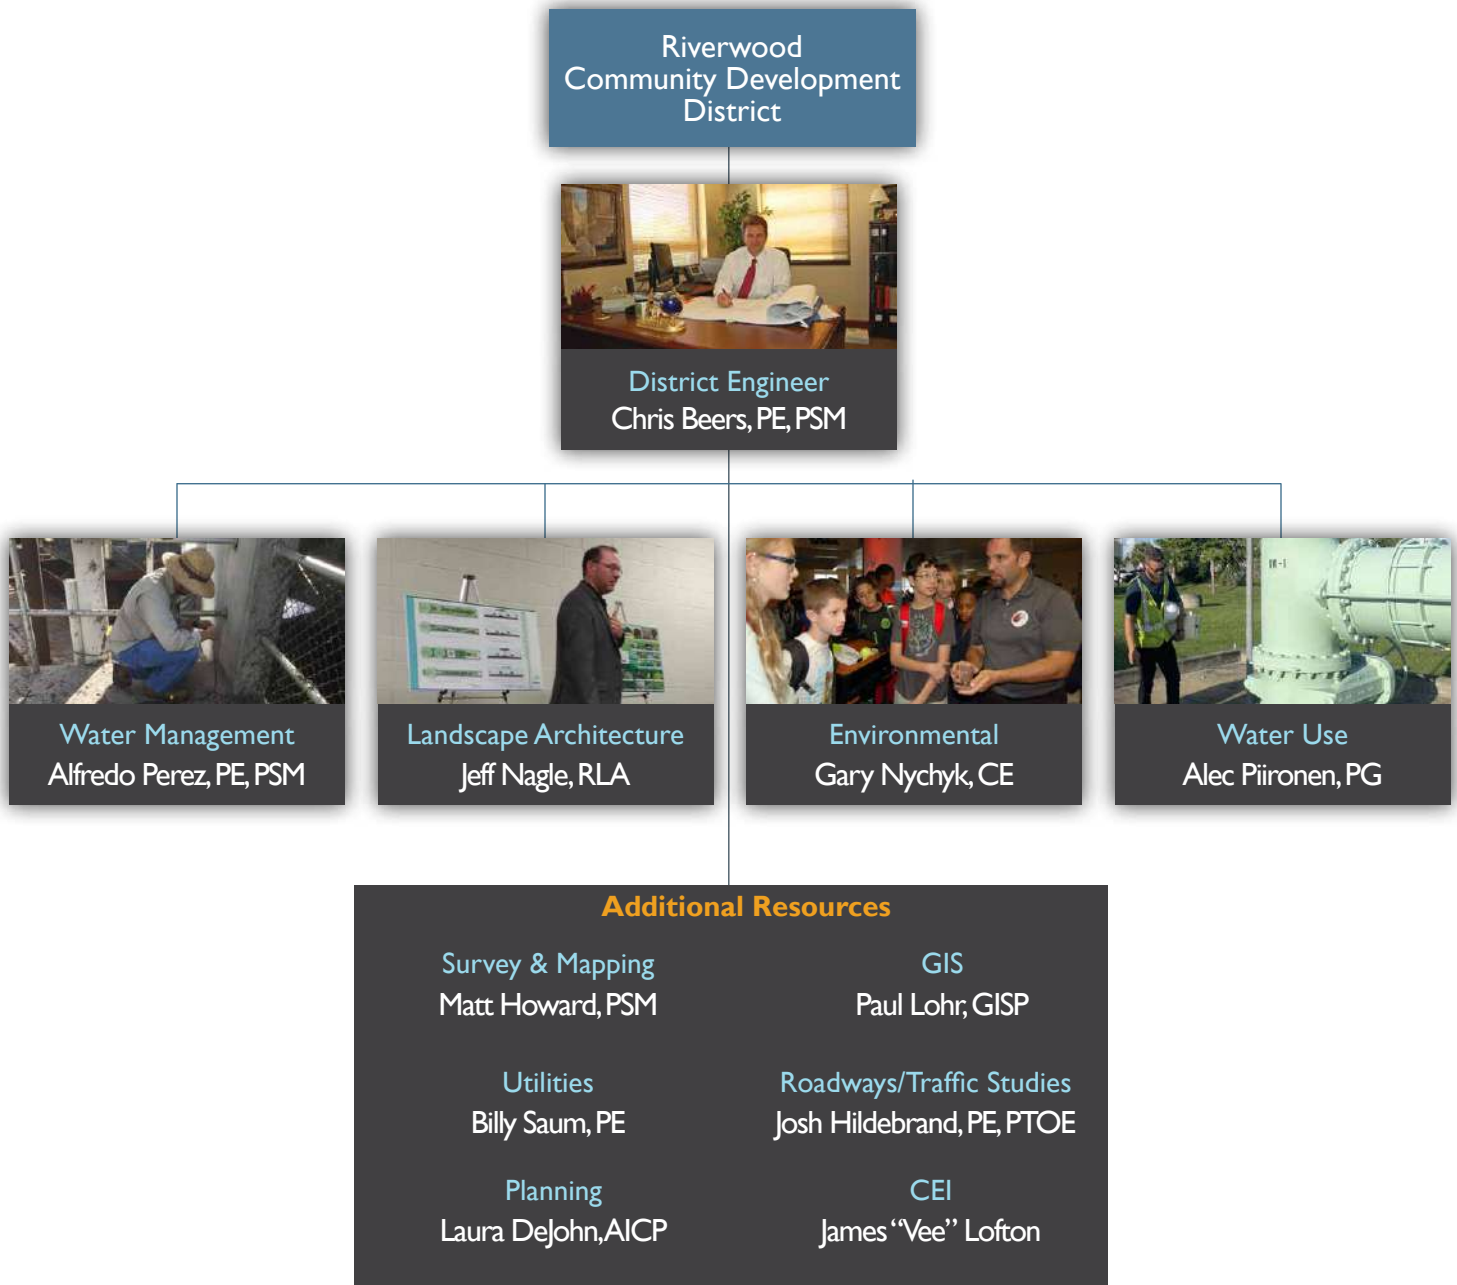

## ORGANIZATIONAL STRUCTURE

Johnson Engineering is a corporation led by seven Board of Directors and is comprised of six specialized market groups. Each market group is led by a key officer whose job is to provide beneficial decision making for the company and integrate these decisions with the other market groups.

## ASSIGNED TEAM ORGANIZATIONAL CHART

Below is our proposed team we have hand selected to best serve the needs of the CDD. Our team is available and ready to start immediately.

## TEAM BIOS

**Chris Beers, PE, PSM - District Engineer**

Chris is the branch manager of our Charlotte County office and has 31 years of experience. He has successfully managed and led many Charlotte County projects including sidewalks (paths), storm structures, regional parks, roadways, bridges and others. He has managed land development projects in Florida, Utah, Kentucky, and Indiana. He is well versed in numerous engineering disciplines, as well as environmental components of the projects he has managed. As the manager of our Charlotte County office, Chris is very familiar with the local stakeholders and issues.

**Alfredo Perez, PE, PSM - Water Management**

Alfredo has 28 years of experience. Alfredo works on a variety of projects entailing various disciplines of engineering which include groundwater, utilities, surface water, construction inspection, report writing, and field data collection. Alfredo is currently more involved in the water resources discipline assisting with environmental resource permitting and surface water management systems. However, he continues to aid in other areas of engineering which consist of surveying and mapping, plan production/ QAQC, and preparing project specifications.

**Jeff Nagle, RLA - Landscape Architecture**

Jeff joined Johnson Engineering in 2012 as a principal landscape architect. Jeff brings a versatile skill set and a reputation built on providing the highest quality of service to both public and private sector clients, including CDDs, with on-time and on-budget deliverables. Having worked in both the public and private sector, Jeff brings a broad range of experience to apply in practice, using an innovative management approach to guide projects from the planning and design phase, through permitting, development and construction. Jeff's specialties include master planning, parks and recreation, streetscapes, roadway, environmental reclamation and mitigation, low impact development, and lighting design.

**Gary Nychyk, CE - Environmental**

Gary is an ecologist whose primary focus is on vegetation mapping, wildlife surveys, protected species management plans, wetland jurisdictional determinations, and wetland mitigation monitoring. He is an Authorized Gopher Tortoise Agent and maintains 11 ultrasonic acoustic recorders used to survey for the endangered Florida bonneted bat. He also conducts Stormwater Pollution Prevention Plan and Spill Prevention Control and Countermeasures annual site compliance evaluations and training events at Southwest Florida International Airport and Page Field General Aviation Airport. He works closely with the USACE, the SFWMD, FDEP, FDEM, FWC, USFWS as well as local city and county agencies.

**Alec Piironen, PG - Water Use**

Alec joined Johnson Engineering in 2022 and is a hydrogeologist in the company's water resources group. He is responsible for performing hydrogeologic investigations, water resource assessments, aquifer performance testing, support in hydrologic monitoring program development efforts, and water management district water use and Florida Department of Environmental Protection (FDEP) permitting. Additionally, Alec joined Johnson Engineering with a combined six years of experience working as a geologist/engineering technician with other Environmental Consulting Firms, where he worked on a variety of landfill construction and monitoring, contaminate investigation and remediation, and environmental compliance projects.

**Kevin RisCassi, PSM - Survey & Mapping**

Kevin has 33 years of experience successfully providing both residential and commercial clients with control, boundary, topographic, route, and hydrographic surveys, as well as right of way mapping on transmission lines, and construction staking. He has also been developing our subsurface utility engineering (SUE) services. He helped in the design and acquisition our current Vac-Truck which we added to our fleet in 2007 along with our Ground Penetrating Radar equipment. He has managed several projects for Florida Power and Light, Lee County Electric Co-Op, Fort Myers Utilities, Charlotte County Utilities, Collier County Utilities and private contractors in design and as-built phases with required subsurface utility deliverables.

**Billy Saum, PE - Utilities**

Billy has been with Johnson Engineering since 2015. He is a professional engineer and project manager for utility related projects. Billy has experience in project management, pump station and pipeline design, FDOT utility coordination and adjustments, hydraulic modeling and calculations, pump selecting, construction administration, plan production, and permitting for clients throughout South Florida. Billy also has extensive experience in pump station data collection and performance analysis for hundreds of pump stations in South Florida. Recently, he has designed and managed various pump station rehabilitation and emergency power resiliency projects for municipal wastewater systems. While most of his experience thus far has been with municipal projects, he has completed various assignments for commercial and residential projects as well.

**Josh Hildebrand, PE, PTOE - Transportation**

In 2007, Josh began his professional career and has since served as a team member in the transportation services division at Johnson Engineering. He has worked on various projects throughout Southwest Florida and is familiar with traffic studies, supervision of traffic data collection, roadway design, pathway design, construction, and the permitting procedures of the local municipalities. Josh has worked on 100+ traffic / construction feasibility-related engineering studies, roadway and drainage design projects within public right-of-way. This experience provides him with a unique understanding of the development of corridor and intersection design, parking demand, traffic generation, ADA compliance-related challenges, and the permitting requirements on both private and public capital improvement projects.

**Paul Lohr, GISP - Geographic Information Systems (GIS)**

Paul began working for Johnson Engineering in 2000 as an engineering technician and now serves as a senior Geographic Information Systems (GIS) analyst. He is a certified GIS Professional, with a large portion of his work effort being devoted to GIS specialization including analysis, map production, data setup and management, integration of GIS and GPS hardware/software and development of web-based GIS mapping applications. Paul assisted Johnson Engineering in obtaining the ArcGIS Online Specialty certification. Paul is knowledgeable in a variety of GIS and CAD applications and is familiar with several scripting and programming languages.

**Laura DeJohn, AICP - Planning**

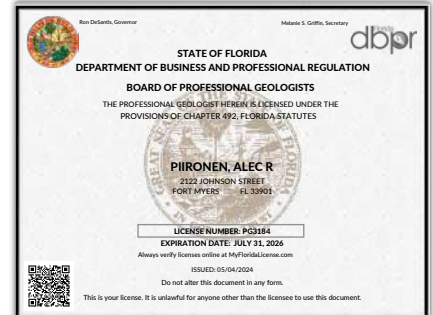

A Certified Planner since 2001, Laura has more than 25 years of professional experience in both public and private sector planning, including five years as a planner for the City of Naples. As Johnson Engineering's Director of Planning & Landscape Architecture, Laura manages projects involving development feasibility studies and site assessments, monitoring reports, code writing, preparation and presentation of land use and zoning applications, site design, master planning, and community visioning. Her experience includes entitlement of new development and redevelopment projects; architectural design review; annexation; and incentive-based codes. She has presented for the American Institute of Architects of Southwest Florida, FGCU, and the Florida Chapter of the American Planning Association, and is an appointed member of the Collier County Development Services Advisory Committee.

**James "Vee" Lofton - CEI**

Vee is director of the construction engineering & inspection (CEI) team. He has 37 years of experience in roadway and bridge construction, project administration, and inspection in both traditional design-bid-build and design-build. His extensive experience also includes interstate highways and bridges, pile driving, earthwork, sub grade and base construction, asphalt paving, drainage items, and all types of utilities and related relocations. He specializes in document control for both quality assurance and quality control testing. His previous experience as a consultant program manager with the Florida Department of Transportation (FDOT) gives him a unique perspective of the bidding process, construction techniques utilized, as well as an understanding of the maintaining agency's needs.

## BUSINESS & PROFESSIONAL LICENSES/ CERTIFICATIONS

---

b. Certified Minority Business Enterprise

Johnson Engineering is not a certified minority business. However, we take great pride in being an equal opportunity employer. **We are committed to promoting other MBEs.** Our goal is to establish a team in the best interest of our clients, while maintaining the standard of quality our firm and clients demand.

Once selected, we will work closely with the CDD to identify other potential minority teaming opportunities.

#### Equal Opportunity/Affirmative Action Employer

Johnson Engineering is an Equal Employment Opportunity and Affirmative Action Employer and seeks to recruit qualified women, qualified minorities, qualified individuals with disabilities and qualified protected veterans. It is the policy of Johnson Engineering not to discriminate against any employee or applicant for employment based on race, gender, age, disability or national origin or because he or she is a qualified individual with a disability, a disabled veteran, a newly separated veteran, a campaign veteran or an armed forces service medal veteran.

---

c. Willingness to Meet Time & Budget

## WILLINGNESS TO MEET TIME & BUDGET

As noted in our organizational chart, Chris Beers, PE, PSM will be the District Engineer for this CDD if Johnson Engineering is selected. Support will also be provided by Alfredo Perez, PE, PSM, Gary Nychyk, CE, and Jeff Nagle, RLA, to name a few.

Gary Nychyk has helped many special districts navigate environmental issues and Jeff Nagle has assisted in landscape enhancements throughout Florida. Alfredo Perez has assisted on many of the CDDs undertaking pond/lake inspections, drainage system inspections, roadway and sidewalk assessments, and construction observation.

Additionally, we have a staff of more than 130 to assist whenever needed.

The growth of Johnson Engineering's Special District clientele is a testament to the past performance we have provided and will continue to provide to the respective Districts we serve. Many of the Districts are managed by the same management company as well as the same District Manager indicating a trust in our abilities to perform when needed.

As you can see, we have an established track record of successfully providing district engineering services locally to multiple community development districts over the last decade and a half.

Per the Consultants Competitive Negotiations Act, fees are not part of the qualifications review. However, if selected, Johnson Engineering will submit its standard hourly rates to the District for discussion as part of the contract negotiation process.

---

## d. Past Performance

## PREVIOUS CDD DISTRICT ENGINEER EXPERIENCE & REFERENCES

### RIVERWOOD CDD District Engineer

Inframark  
Mr. Robert Koncar  
5911 Country Lakes Drive  
Fort Myers, FL 33905  
(904) 626-0593  
[Bob.Koncar@inframark.com](mailto:Bob.Koncar@inframark.com)

Johnson Engineering is one of two firms providing engineering services for this district. Our focus is on water management, environmental, road, and landscape needs with the other firm focused on the utility plants operated by the District. The District has several water management permits, which we are assisting with budgeting to meet permit requirements.

### SARASOTA NATIONAL CDD District Engineer

Wrathell, Hunt & Associates  
Mr. Chuck Adams  
9220 Bonita Beach Road,  
Suite 214  
Bonita Springs, FL 34135  
(239) 498-9020  
[adamsc@whhassociates.com](mailto:adamsc@whhassociates.com)

The Sarasota National CDD encompasses an area of approximately 2,400+ acres in unincorporated Sarasota County, Florida and is generally located south of U.S. 41 and east of Jacaranda Blvd in Venice, FL. Infrastructure consists of public roadways, storm water management, potable water, wastewater, irrigation and reuse, landscaping, environmental facilities, and off-site improvements. The Sarasota National CDD is a local, special-purpose government entity authorized by Chapter 190 of the Florida Statutes as amended, and was established on November 1, 2006.

### THE BROOKS OF BONITA SPRINGS CDD District Engineer

Wrathell, Hunt & Associates  
Mr. Chuck Adams  
9220 Bonita Beach Road,  
Suite 214  
Bonita Springs, FL 34135  
(239) 498-9020  
[adamsc@whhassociates.com](mailto:adamsc@whhassociates.com)

Johnson Engineering is the District Engineer for The Brooks of Bonita Springs CDD in South Lee County, Florida. Our team provides professional engineering services, including establishment, reports for bonds, assisting during the construction and development process, as well as during the operation and maintenance of the CDD.

### VERANDAH WEST CDD District Engineer

Wrathell, Hunt & Associates  
Mr. Chuck Adams  
9220 Bonita Beach Road,  
Suite 214  
Bonita Springs, FL 34135  
(239) 498-9020  
[adamsc@whhassociates.com](mailto:adamsc@whhassociates.com)

Johnson Engineering prepared the original Engineer's Report and amendments along with the other items in the community. During construction, portions of the community assets were reviewed by our team prior to acquisition by the CDD. This included review of construction documents, onsite testing and certifications to the regulatory agencies. We also helped with delineation of conservation areas and private lands within the District for the division of maintenance responsibilities.

## MEDITERRA

### District Engineer

Wrathell, Hunt & Associates  
Mr. Chuck Adams  
9220 Bonita Beach Road,  
Suite 214  
Bonita Springs, FL 34135  
(239) 498-9020  
[adamsc@whhassociates.com](mailto:adamsc@whhassociates.com)

Johnson Engineering has been the District Engineer at Meditterra since 2002. Work has included pay request review for release of bond funds, stormwater pond evaluations, fire safety related to naturally vegetated areas, and littoral vegetation maintenance.

## PELICAN MARSH CDD

### District Engineer

Dorrill Management Group  
Mr. W. Neil Dorrell  
5672 Strand Court, Suite 1  
Naples, FL 34110  
(239) 592-9115  
[nsdorrell@aol.com](mailto:nsdorrell@aol.com)

Johnson Engineering has provided general engineering services for the Pelican Marsh CDD in North Collier County, Florida since 2002. The services we have provided the District include reviewing the stormwater system when flooding has occurred throughout the community, reviewing offsite impacts of existing and proposed facilities affecting the stormwater system and assisting with improving the access control facilities, and reviewing roadway signage and sight distance issues. In 2017, the community began a multi-year roadway paving project of the main CDD roads. Our transportation group provided a pavement condition report and Construction, Engineering, and Inspection (CEI) services during the project to monitor contractor performance and verify invoicing quantities.

## CORY LAKES CDD

### District Engineer

Mr. Larry Krause  
1540 International Parkway  
Suite 2000  
Lake Mary, FL 32746  
(813) 565-4663

Johnson Engineering is the District Engineer for the Cory Lakes Community Development District. This District has an extensive stormwater system consisting of several interconnected lakes and wetlands. Our work has included assisting the District to replace large concrete stormwater structures that were in desperate need of repair as well as assisting with general maintenance issues related to failing inlets, pipes and drainage ditches. Other services have included ADA surveys, new concrete sidewalks and assistance with concrete bridge repairs.

## CYPRESS SHADOWS CDD

### District Engineer

Inframark  
Mr. Bryan Radcliff  
2005 Pan Am Circle Ste 300  
Tampa, Florida 33607  
(813) 873-7300  
[bryan.radcliff@inframark.com](mailto:bryan.radcliff@inframark.com)

Johnson Engineering began providing professional engineering services for the Cypress Shadows CDD following a request for qualifications in 2020, a few years after it transferred to a resident-majority board. Our work commenced with research into the existing permits, plans, plats, and related documents which were used to develop a tabular listing and multiple maps that identified the areas of the community owned and operated by the CDD. We may also provide general engineering services for the CDD, including preparation of reports, meeting attendance, reports for bonds, feasibility studies, and assistance during construction.

## PARK PLACE CDD

### District Engineer

Inframark  
Mr. Gene Roberts  
2005 Pan Am Circle Ste 300  
Tampa, Florida 33607  
(813) 873-7300 ext 116  
[gene.roberts@inframark.com](mailto:gene.roberts@inframark.com)

As District Engineer for the Park Place CDD, Johnson Engineering has provided general engineering services related to traffic calming, roadway repairs and improvements (asphalt and brick pavers), ADA compliance, vendor/contractor selection and oversight, parking assessments and inspection of stormwater detention ponds as well as a other professional services on an as-needed basis. By closely coordinating with the District Manager and communicating effectively with the Board, we have been able to assist the District in maintaining its infrastructure at an acceptable level.

## PINE AIR LAKES CDD

### District Engineer

Governmental Mgmt. Services  
Mr. Rich Hans  
5701 North Pine Island Road,  
Suite 370  
Fort Lauderdale, FL 33321  
(954) 721-8681  
[rhans@govmgtsvc.com](mailto:rhans@govmgtsvc.com)

Johnson Engineering provides professional engineering services for Pine Air Lakes Community Development District located in Collier County, Florida. The work includes establishment, reports for bonds, assisting during the construction and development process, as well as during the operation and maintenance of the CDD. Our environmental team is currently providing preserve maintenance by overseeing exotic vegetation maintenance events.

## LAKEVIEW PLANTATION CDD

### District Engineer

Governmental Management  
Services - Central Florida, LLC  
Mr. George Flint  
135 West Central Blvd, Suite 320  
Orlando, FL 32801  
(407) 841-5524  
[gflint@gmscfl.com](mailto:gflint@gmscfl.com)

Johnson Engineering provides professional engineering services for Lakeside Plantation Community Development District. We service as District Engineer in the areas of stormwater management, environmental issues, transportation/roadway issues, utility design, landscape design, and construction management and observation, along with current permitting requirements in order to efficiently maintain or expand the District's services that are being provided to its residents.

## SUNCOAST CDD

### District Engineer

Inframark  
Ms. Jayna Cooper  
2654 Cypress Ridge Blvd., Ste 101  
Wesley Chapel, FL 33544  
(813) 608-8242  
[jayna.cooper@inframark.com](mailto:jayna.cooper@inframark.com)

Johnson Engineering was selected to provide professional engineering services for the Suncoast Community Development District in Pasco County, Florida in August 2013. Our work has included inspection of stormwater detention ponds (for SWFWMD Certification), review of and recommendations pertaining to contractor proposals, facilitating discussions between the Board of Supervisors and County staff, identifying and reporting roadway structural issues and responding to resident inquiries. Our landscape team designed the replacement of existing turf grass within the County ROW along the community's main entry road with a Florida Friendly and aesthetically pleasing landscape treatment. The design required consideration of the roadway landscape restrictions which limited the plant selections to grasses and groundcover to avoid frangibility concerns of trees within the roadway corridor.

## LONGLEAF CDD

### District Engineer

Inframark  
Ms. Jayna Cooper  
2654 Cypress Ridge Blvd., Ste 101  
Wesley Chapel, FL 33544  
(813) 608-8242  
[jayna.cooper@inframark.com](mailto:jayna.cooper@inframark.com)

Johnson Engineering has provided professional engineering services for the Longleaf Community Development District in Pasco County, Florida since 2009. The work includes establishment, reports for bonds, processing National Pollutant Discharge Elimination System (NPDES) permit compliance, assisting during the construction and development process, as well as during the operation and maintenance of the CDD. Additional services have included sidewalk/ADA surveys, resolution of trip hazards as a result of tree roots, solving drainage issues, pavement condition surveys, construction administration and observation, and regular communication with District Staff.

## FOREST CREEK CDD

### District Engineer

Inframark  
Mr. Andrew Mendenhall  
2654 Cypress Ridge Blvd. Suite 101  
Wesley Chapel, FL 33544  
(813) 991-4014  
[andymendenhall@inframark.com](mailto:andymendenhall@inframark.com)

Johnson Engineering provides general engineering services to the Forest Creek Community Development District. As District Engineer, we have assisted the District with its needs in the areas of stormwater management, environmental issues, transportation/roadway issues, survey, project bidding and construction observation as well as any additional services on an as-needed basis. Projects have included, but were not limited to, sidewalk repairs, roadway repaving, review of vegetative growth in conservation/preservation areas and permit research.

## CDD CLIENT REFERENCES

5680 W. CYPRESS STREET T: 813-397-5120  
SUITE A F: 813-873-7070  
TAMPA, FL 33607 WWW.MERITUSDISTRICTS.COM

Subject: Johnson Engineering, Inc.

To Whom It May Concern:

We have worked with Johnson Engineering, Inc. in their capacity as District Engineer for nearly a decade. They are responsive to the needs of the community by working diligently with the Board of Supervisors through our management office and in conjunction with District Counsel. Their firm provides a broad spectrum of services which allows them to do most projects without outside assistance.

They assign a project manager to the Community Development District and then, through that person, bring in other team members as needed. Johnson Engineering has in-house expertise to accomplish groundwater management, surface water management, environmental, transportation, landscape architecture, planning, utilities, surveying and site civil work.

They are a firm that we continually look forward to working with.

Sincerely,  
MERITUS DISTRICTS

Brian K. Lamb  
Chief Executive Officer  
5680 W. Cypress Street, Suite A  
Tampa, Florida 33607  
(813) 397-5120

"SYNONYMOUS WITH COMMUNITY SERVICE"

**Wratbell, Hart, Hunt and Associates, LLC**  
*Building client relationships one step at a time...*

Subject: Johnson Engineering, Inc.

To Whom It May Concern:

I have worked with Johnson Engineering, Inc. in their capacity as District Engineer for 17 years. They are responsive to the needs of the community by working diligently for the Board of Supervisors through our management office and in conjunction with the District Attorney. Their firm has a broad spectrum of services, which allow them to do most projects without the need for outside assistance.

They assign a project manager to the Community Development District and then, through that person, bring in other team members as needed. Johnsons Engineering has in-house expertise to accomplish ground water management, surface water management, environmental, transportation, landscape architecture, planning, utilities, surveying and site civil work.

We look forward to working with them on additional projects in the future.

Sincerely,

Chesley E. Adams Jr.  
Director of Operations

## APPROACH & IMPROVEMENT RECOMMENDATIONS

### Special District Experience

Our team has extensive Special Districts Experience (CDDs/CIDs) experience throughout Florida, as we are the District Engineer for many Special Districts. The work includes establishment, reports for bonds, and assistance during the construction and development process as well as ongoing services during the operation and maintenance of the District. During the construction and development process, we prepare the Engineer's Reports and amendments when needed, and review and approve requisitions from bond proceeds. After the work is complete or largely complete by the original developer, we participate in the long-term operation and maintenance with through facilities modifications, GATSB 34, upgrades to irrigation and maintenance facilities, as well as modifications to the water management system. We have assisted, and are currently assisting, Districts with sidewalk/ADA assessments, traffic signage and pavement marking surveys, ownership mapping, pavement condition assessments, drainage issue resolution, pond and wetland inspections, road resurfacing, and other improvement projects. We have also developed a Permit Criteria Manual to be used for new phases of development within the District limits of one of our clients.

On a regular basis (sometimes monthly), we survey our existing CID/CDD/HOA communities and provide a report to the District Manager identifying any safety or infrastructure concerns. Our reports have included photos and descriptions of lifted and/or cracked sidewalks (sometimes because of tree roots) related to ADA non-compliance, areas of ponding, slope erosion/failure, locations of faded traffic signs or pavement markings and locations of pavement failure. Solutions have included chemical grout injection to address sidewalk trip hazards, saving our clients time and money (we were able to address 10 times the number of trip hazard locations using this method verses the traditional sidewalk removal and replacement method for the same amount of money, freeing up funds for other projects). Root barriers have also been implemented in addressing the sidewalk locations being affected by tree roots. Our experience has shown that some issues can be resolved quickly and with minimal disruption to a community's residents by pursuing alternatives to construction.

### Stormwater Management Systems

Hundreds of stormwater management facilities in communities throughout Southwest Florida bear the professional seal of our staff. The members of our surface water management team of professionals have experience in everything from county-level surface water master planning to stormwater facility design for small businesses. Some of the most exciting projects come out of stormwater retrofits of existing communities, which can be some of the most challenging and complex. Many times, it is not physically or financially feasible to completely fix an existing problem. Our team of surface water professionals understand this and work with our clients and interested third parties to come up with the best financially-feasible solution. Water quality is now in the forefront of all retrofit projects. The flooding and water quality problems must be solved simultaneously even though their solutions often work at odds to each other. Our experience and understanding of the local hydraulics and hydrology of Collier and Lee Counties and surface water BMPs helps us solve both problems with one solution.

### Transportation

Our transportation team has assisted other local CID/CDDs/HOAs with their roadway maintenance issues by communicating solutions promptly as if they had their very own Public Works department. With more than 15 employees supporting him within our transportation market group, we are experienced in a wide of array of roadway design and construction inspection services. We are familiar with the requirements and operating procedures of many municipalities in Florida including the FDOT. We are also experienced in all manners of permitting associated with transportation improvements including FDOT pre-qualifications in the following areas: 3.1, 3.2, 6.1, 7.1, 7.2, 7.3, 8.1, 8.2, 8.4, 10.1, 10.4, 13.6, 15.

Our design services range from sidewalk ADA compliance reviews, corridor analyses, preliminary design studies, and intersection improvements to full scale major roadway design. Roadway design is intricately correlated with the adjacent development, drainage, utilities, and environment. With in-house expertise in these areas as well, we offer a comprehensive design and permitting service. We also have long standing relationships with proven consultants in the transportation sub-disciplines of traffic, lighting, and signalization. These relationships perfectly complement our core design, providing a complete and quality design product.

Our transportation group also offers construction engineering and inspection (CEI). With 10 FDOT certified roadway and utility construction inspectors, we have the means to make sure the design is constructed properly. Our inspection staff is also well versed in the construction and acceptance criteria of the local municipalities. On-site inspection is critical to ensure compliance not only with the plans, but with the specifications and contract documents. Inspection is often required in cases where improvements are to be turned over to a local municipality for maintenance. Our local experience and thorough expertise in all manners of transportation improvement projects will ensure a quality product is delivered in an efficient manner; from conception to completion.

### Environmental Monitoring Experience

Our team is adept at the preparation of all types of mitigation and environmental monitoring reports required by the South Florida Water Management District, Florida Department of Environmental Protection, U.S. Army Corps of Engineers, and any pertinent local agencies requiring this information. In addition, a mitigation monitoring protocol is established and designed as specified in the permits issued for development. We have implemented monitoring programs for a variety of mitigation areas ranging from under 10 acres to 13,000 acres. Components of typical monitoring programs include the establishment and analysis of vegetation monitoring transects, groundwater monitoring wells, mapping of invasive exotic vegetation, and identification and quantification of fish and macroinvertebrate species to assess wetland health and surface water quality within freshwater and estuarine wetland ecosystems.

### Utilities

Utilities play a fundamental part in our everyday lives, yet we take for granted the vast systems of water, irrigation and sewer lines that run beneath us, and the engineering it took to provide such consistent service. Our utilities market group is a highly motivated and energetic group of professionals dedicated to the water and wastewater industry. Our expertise has brought water to fire hydrants, homes, drinking fountains, and swimming pools throughout Florida and provided wastewater systems for entire communities. While Collier County Utilities provides services to your community, we stand ready to advise if difficulties arise.

## Landscape Architecture

It has been said, "You only get one chance to make a first impression." This adage expresses the primary reasons for developing beautiful landscapes and streetscapes along the main corridors and neighborhood entries within your community. The main portal into this existing residential neighborhood will set the stage for impressions of the community by residents and visitors. The character of this roadway should stand out and reflect that certain level of treatment and attention to detail that represents the lifestyle within the community. At the same time, it must emphasize a gracious welcoming into this neighborhood and the variety of amenities it provides.

Our guide for developing a beautiful landscape renovation design is our focus on complying with the Landscape Committee's goals and "Vision". For this community, the landscape renovation design could include:

- ✎ Utilizing "Florida Friendly" and native landscaping,
- ✎ Incorporating native and drought tolerant plantings,
- ✎ Minimizing landscape maintenance,
- ✎ Implementing sustainability with the elimination of standard irrigation practices,
- ✎ Compliance with sight visibility requirements,
- ✎ Proposed landscape enhancements that provide continuity with existing landscaping surrounding the project area.

Landscape Architecture Services for CDDs often include:

### Design Review for Building Guideline Compliance

- ✎ New construction
- ✎ Remodeling / Additions
- ✎ Color & material change recommendations & approvals

### Horticultural Maintenance

- ✎ Site walkthrough evaluation & report: Are you paying for too much maintenance? Occasional pruning vs. continual trimming
- ✎ Maintenance guide: Excessive trimming...it all looks the same! Fertilization for healthy plants, pest control recommendations

### Arboricultural & Coordination Services

- ✎ Tree trimming overview & recommendations. Trees can create ongoing concerns if left unattended... insurance implications!
- ✎ Coordinate work with Certified Arborists

### Design Upgrades to Maintain Property Values:

- ✎ Community "Branding" and Master Planning
- ✎ Refurbish declining plantings
- ✎ Site enhancements with sustainability techniques and Low Impact Development (LID) design
- ✎ Landscape modifications, revised plant palette suggestions for better curb appeal, less maintenance, reduced water consumption - sustainability/Florida Friendly/native
- ✎ Hardscape refurbishment: fences and buffers, pavements, signs, water features, pools and spas, recreation elements, image & identity, outdoor furniture, etc.
- ✎ Landscape lighting design/area lighting design
- ✎ Community "Branding" and Master Planning
- ✎ Site lighting design

### Irrigation

- ✎ Perform a wet check to evaluate proper design & operation
- ✎ Design modifications, upgrades & water use improvements
- ✎ Water source design and connections (well, potable or reclaim)

### Permitting & Compliance

- ✎ ADA Compliance Audits
- ✎ Tree removal permits
- ✎ Landscape & Irrigation Certification
- ✎ Local government permitting
- ✎ Landscape Construction Phase Services
- ✎ Plans Preparation
- ✎ Bidding Assistance
- ✎ Construction Observation & Reporting

## Geographic Information Systems (GIS)

Our team uses ESRI's ArcGIS technology to provide an array of interactive digital mapping, data management and spatial analysis and 3D modeling solutions. Tailored web-based applications can be developed for secured, client-only access or for public presentation of maps and support analysis of spatial data. Using GPS, conventional surveying and subsurface utility engineering, our team can provide GIS utility mapping, including asset management, inventories, systems analysis tools and real time system conditions and monitoring. We locate and identify the elements, attributes and condition of these networks and offer a true working model to our clients. We also offer the support, update, and maintenance of our GIS deliverables to ensure that our clients have the most up-to-date and accurate mapping resources available.

Johnson Engineering's GIS team has developed Mobile Mapping applications for iPhone and iPad devices, as well as for some Android and Blackberry mobile devices. These applications allow you to access and view your project specific data layers on your mobile device and see your current position relative to those layers with an aerial background using your device's GPS location information. Mobile maps are also viewable using standard desktop web browsers. Data layers vary from point based features to linear or polygon features. Our team currently employs this technology to assist field operations for environmental/species mapping, well locations and stormwater facilities.

### Mobile Mapping Application Benefits - ArcGIS Application - Uses

- Navigate to field features like wells, structures, monitoring stations, etc.
- Illustrate for clients, proposed conditions on site.
- Visualize multiple projects with aerial backgrounds.
- Locate and visualize existing/proposed underground facilities.
- Follow onsite drainage patterns and interaction with regional drainage features.
- Track and navigate to project assets and amenities
- Depict and navigate to Boundary Survey and Control monumentation.
- Overlay and visualize a variety of agency polygon coverages with your project limits like Land Use/Land Cover, Wetlands, Soils, Water Body IDs, FEMA Flood Lines, Zoning, Future Land Use, etc.

---

## e. Geographic Location

## OFFICE LOCATIONS

We have six offices located throughout Florida. Our Port Charlotte office will be the base of operations providing District Engineering Services to the Riverwood Community Development District, with support from our other staff.

Riverwood  
CDD

## f. Current & Projected Workloads

## CURRENT & PROJECTED WORKLOAD

All key team members have sufficient availability and are excited to dedicate their efforts to help the CDD. With a company of 130 experienced employees, we have the ability to accommodate your schedule.

**Current Percentage of Available Time of Key Personnel**

g. Volume of Work Previously Awarded to Consultant by District

As previously noted, we have been working with Special Districts for more than 48 years throughout the State of Florida. We have provided services related to drainage, survey, environmental issues, transportation/roadway issues, utility design, landscape design and construction management.

We have successfully interacted with the District Manager and District Counsel in their capacity at other Districts.

If selected, we are ready to assist the Board to achieve its goals and to contribute to the efficient operation and maintenance of the District's infrastructure.

h. SF330

<b>Johnson Engineering performed the survey, site design, permitting, Charlotte County site plan review, utility design/permitting, environmental, and landscape design for this new fire station on Palm Island. This project was unique as it was on a barrier island and had to abide by the Bridgeless Barrier Island Land Development Zoning code and regulations. Also, the property selection due diligence portion was extensive with the County requiring public meetings and presentation to the Fire Marshal and Board of County Commissioners. The property had gopher tortoises which required extensive environmental studies and gopher tortoise permitting and relocation. The project was completed on time and within budget.</b>					
(1) TITLE AND LOCATION (City and State)		(2) YEAR COMPLETED			
<b>West County Regional Park (Oyster Creek Park) Charlotte County, Florida</b>		PROFESSIONAL SERVICES <b>2006</b>		CONSTRUCTION (If applicable) <b>2007</b>	
b. (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE		<input checked="" type="checkbox"/> Check if project performed with current firm			
<b>This marquee park for the Charlotte County Regional Park system is located in Englewood on San Casa Road. It is a 175-acre park that includes 65+ acres of improvements consisting of three football fields, Cricket field, basketball, tennis, pool facilities, and 18,000 square foot 'state of the art' skate park, along with other amenities. The park has 3,700+ linear feet of nature trails and 3,000+ linear feet of pedestrian trails. Chris served as project manager, field engineer and the engineer of record during the construction phase, completion and agency close-out.</b>					
(1) TITLE AND LOCATION (City and State)		(2) YEAR COMPLETED			
<b>MURT Phase 2 &amp; 3 City of Punta Gorda, Florida</b>		PROFESSIONAL SERVICES <b>2012</b>		CONSTRUCTION (If applicable)	
c. (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE		<input checked="" type="checkbox"/> Check if project performed with current firm			
<b>Johnson Engineering is the engineer of record for Phase 2 and Phase 3 of the City's MURT along U.S. 41. These phases travel U.S. 41 from Airport Road to Aquí Esta and Monaco Drive to Taylor Road. It will also connect to the current Burnt Store/Jones Loop intersection improvements being constructed. This 10' wide path will help complete the City's master planned "Loop Around the City" and be a great resource for the City's residents. Chris Beers is the engineer of record and project manager and has been coordinating with City officials since the inception of the project. Much coordination with FDOT, FPL Fibernet, Railroad, Lighting and others is necessary for the completion of this project.</b>					
(1) TITLE AND LOCATION (City and State)		(2) YEAR COMPLETED			
<b>Eastport Master Planning Charlotte County, Florida</b>		PROFESSIONAL SERVICES <b>2018</b>		CONSTRUCTION (If applicable) <b>2018</b>	
d. (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE		<input checked="" type="checkbox"/> Check if project performed with current firm			
<b>Johnson Engineering provided professional planning and design services for approximately 691 acres located in the northwest quadrant of Interstate 75 and Harborview Road in Port Charlotte. The goal of this project was to create a long-term plan for future County facilities. We conducted interviews with personnel of five Departments/Divisions to determine anticipated needs and trends over a 20-year horizon to accommodate future growth of: Facilities Construction and Maintenance, Utilities (Loveland Complex, Administration, Warehouse), Community Services Maintenance and Natural Resources, Public Works Administration, Operations and Engineering. The Master Plan provides a framework and vision for the County to ensure adequate access, parking, water management, building space, yard areas, and open space are allocated within the County's government facility campus so they can meet future demands.</b>

	(1) TITLE AND LOCATION (City and State)	(2) YEAR COMPLETED	
		PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)
a.	<b>South Biscayne Drive Median Landscape Renovations City of North Port, FL</b>	<b>2014</b>	
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm This landscaping project of 1.5 miles of roadway median renovation is located within the ROW of South Biscayne Drive within in the City of North Port. The outdated landscape medians consisted of mainly of Cabbage Palms that were well beyond their peak of maturity. This renovation was the City's response to the surrounding residential community's desire to improve the neighborhoods main roadway character. The final design will include drought tolerant FL friendly plantings to reflect the character of the community and ensure durability, sustainability, and reduced maintenance requirements. Sustainable practices will include hydrant supplemented low volume irrigation, soil amendments with compost and water absorbing polymers to insure plant health and the removal of all turf areas to reduce maintenance effort and costs.		
b.	<b>West County Sheriff Station District 1 Charlotte County, FL</b>	<b>2018</b>	
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Johnson Engineering's landscape architectural team prepared landscape and irrigation design and construction plans for County permitting, bidding and construction of the new West County Sheriff Station site containing approximately 5.5 acres, located at the intersection of Sunnybrook Boulevard and Wilmington Boulevard in Englewood, Charlotte County. The landscaping design was unique on this project requiring compliance with not only Charlotte County's Land Development Code requirements but also with Homeland Security design requirements and implementing design principles of Crime Prevention Through Environmental Design (CPTED) for the placement of proposed landscaping materials due to the nature of the site use and heightened security requirements. Our team provided landscape architectural services for design, bidding assistance, and construction oversight on this project.		
c.	<b>Rotonda West Entry Signs Charlotte County, FL</b>	<b>2014</b>	<b>2014</b>
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Jeff was responsible for updating the their existing and deteriorating identity signs at five locations. The scope of this project included the development of a new sign that would embody the character of the community while being sensitive to the budget. Through a series of public meetings and concept development a new sign emerged to reflect this established community and its history.		
d.	<b>Harbor Trail &amp; Wayfinding Parmely Street Charlotte County, Florida</b>	<b>Ongoing</b>	<b>Ongoing</b>
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input type="checkbox"/> Check if project performed with current firm This project will both visually and physically enhance the existing corridor connection from the heavily traveled US 41 to the existing and historically significant Bayshore Live Oak Park. Landscape architectural design enhancements include a gateway entry sign at the US Highway 41 entry, way-finding signage for Bayshore Live Oak Park, accessible sidewalk, aesthetically enhanced street intersections, decorative roadway lighting including banners, enhanced and decorative regulatory signage, and visually pleasing Florida Friendly landscaping and low volume irrigation. The landscape architectural improvements were designed to improve both the pedestrian and vehicular experience within this roadway corridor and establish character branding within Charlotte Harbor.

		PROFESSIONAL SERVICES	CONSTRUCTION (If applicable)
a.	Southwest Florida International Airport - Midfield Terminal Expansion - Project Millennium/Fort Myers, Florida	Ongoing	
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Johnson Engineering's Environmental Department was responsible for providing environmental services required at the project site for SFWMD and USACOE permitting and the 7,000 acre offsite mitigation area. The extensive habitat mapping, species surveys, water level data and habitat evaluations formed the input for the overall Mitigation Park management plan and design. The design included over 500 acres of wetland creation and construction cost totaled \$7.4 million. Johnson Engineering also provided construction oversight for the Mitigation Park which in 2004 won a national award from the Airports Council International - North America for environmental excellence. Johnson Engineering currently serves as SWFIA's Environmental and Planning Consultant.		
b.	State Road 739 (Metro Parkway) Extension/Fort Myers, Florida	Ongoing	
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm Johnson Engineering conducted all the environmental permitting required for the extension of State Road 739 (Metro Parkway) from Six Mile Cypress Parkway to Alico Road. This project involved habitat mapping, protected species surveys, managing for Big Cypress fox squirrel and gopher tortoise involvement, state and federal wetland permitting, mitigation design and implementation. As compensation for wetland impacts associated with the roadway crossing of Six mile Cypress Slough, the wetland mitigation program includes over 284 acres of wetland restoration in Lee County's Six Mile Cypress Slough Preserve.		
c.	Boca Grande Causeway North Swing Bridge Replacement / Placida, Florida	2013	
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm The Johnson Engineering environmental team conducted all of the environmental permitting required for the replacement of the Boca Grande Causeway North Swing Bridge. Tasks included SFWMD and USACOE Environmental Resource and Federal Dredge and Fill Permitting, obtaining USACOE Section 408 Clearance for project involvement within the federal navigation channel, USCG Bridge Permitting, NMFS consultation for smalltooth sawfish (critical habitat), sea turtles and manatee, sea grass surveys, benthic surveys and protected species surveys, and preparation of Biological Assessment Report.		
d.	Pine Island Wastewater Treatment Plant/Pine Island, Florida	2005	
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm The Johnson Engineering Environmental team performed all permitting required for the construction of the Pine Island Wastewater Treatment Plant. This project involved working within three different bald eagle nests's primary and secondary zones, relocating gopher tortoises and beautiful pawpaw (an endangered plant), managing for Eastern indigo snakes, wetland impact permitting, mitigation design and implementation, restoring the Matlacha Wastewater Treatment Plant, and securing a submerged lands lease from FDEP.

a.	Misc. Wastewater Data Collection, Analysis, and Evaluation Collier County, Florida	2015 - Ongoing	N/A
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm This project consists of providing ongoing services for Collier County to determine wastewater system pressures and flow conditions. Billy is responsible for the project management, field data collection, coordination and meetings with Collier County Wastewater Collections and Engineering staff, data analysis, and system evaluation. The data and analysis are used to determine connection pressures to size pumps, determine pump station and force main flow capacity, and evaluate system performance to maximum efficiency and determine if systems are prone to inflow and infiltration (I&I) as a result of rainfall. This project is unique in that it utilizes real world collected data as the basis for determining system improvements to ensure facilities are properly sized to accommodate both existing and future wastewater generation.		
b.	Septic to Sewer Improvements: City of Clewiston, Florida	2020	Substantially Complete
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm This project consists of improvements to convert the existing septic system servicing a federal government facility to a centralized gravity sewer system. Billy is responsible for the project management, design, permitting, bidding assistance, and construction administration services. Billy is also the engineer of record for the project. The project includes the installation of 1,400 LF of 8" gravity sewer, 10 manholes, a 6-inch force main installed via directional drill underneath an existing canal, a duplex pump station, connections to the existing system, abandonment of the existing septic system, and restoration to all impacted areas. This project also included coordination with City, Contractor, and USACOE staff, and local businesses. The project is currently substantially completed, under budget, and ahead of schedule.		
c.	Hickory Road Water Main Improvements: Collier County, Florida	2019	2021
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm This project consisted of replacing an existing 16" water main that was failing with a new 20" water main pipeline within an existing built out residential area in Naples Florida. Billy was the project engineer during the design phase of the project and was also responsible for permitting, bidding assistance, and construction administration and was the engineer of record certifying the project. This project included the installation of 4,700 feet of 20" water main pipeline, various quantities of 8"-24" water main pipelines, an 18" diameter pipeline installed via directional drill underneath US-41, valves, hydrants, connections to existing systems, abandon the existing 16" water main in place, and restoration to all disturbed areas, including residential driveway replacements. This project also included extensive coordination with County and contractor staff, residences in the community, and FDOT staff. The project was completed within the schedule and budget.		
d.	Pump Station 300.06 Improvements: Collier County, Florida	2020	2022
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm This project consisted of improvements to the existing duplex pump station located in a residential community to meet the current standards and improvement operations. This project also consisted of acquiring a new easement from the nearby Condominium association to locate an emergency backup generator to power the pump station in the event of a power failure. Billy was the engineer of record for this project and performed project management, permitting, design and equipment selection, bidding assistance, and construction administration and inspection services. This project also included extensive coordination with County staff, and contractors and subcontractors, and residences of the community and condominium association boards.

Johnson Engineering is one of two firms providing engineering services for this district. Our focus is on water management, environmental, road, and landscape needs with the other firm focused on the utility plants operated by the District. The District has several water management permits, which we are assisting with budgeting to meet permit requirements.

 Johnson Engineering prepared the original Engineer's Report and amendments, along with the other items in the Verandah West Community, located in Lee County, Florida.

During construction, portions of the community assets were reviewed by our team prior to acquisition by the CDD. This included review of construction documents, on-site testing and certifications to the regulatory agencies. We also assisted with delineation of conservation areas and private lands within the District for the division of maintenance responsibilities.

Johnson Engineering is the District Engineer for the Cory Lakes Community Development District. This District has an extensive stormwater system consisting of several interconnected lakes and wetlands. Our work has included assisting the District to replace large concrete stormwater structures that were in desperate need of repair as well as assisting with general maintenance issues related to failing inlets, pipes and drainage ditches. Other services have included ADA surveys, new concrete sidewalks and assistance with concrete bridge repairs.

Johnson Engineering is the District Engineer for The Brooks CDD in South Lee County, Florida. Our team provides professional engineering services, including establishment, reports for bonds, assisting during the construction and development process, as well as during the operation and maintenance of the CDD.

During the construction and the development process, Johnson Engineering prepared Engineer's Reports and amendments, when needed, and reviewed and approved requisitions from bond proceeds. We participate in the operation and maintenance with the CDD through work of facilities modifications, GATSB 34, as well as modifications to the water management system. Our team also provides site planning, zoning and permit applications.

**24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT** *(Include scope, size, and cost)*

Johnson Engineering has provided general engineering services for the Pelican Marsh CDD in North Collier County, Florida since 2002. The services we have provided the District include reviewing the stormwater system when flooding has occurred throughout the community, reviewing offsite impacts of existing and proposed facilities affecting the stormwater system and assisting with improving the access control facilities, and reviewing roadway signage and sight distance issues.

Our engineering services have included preparing amended Engineer's Reports, review and approve requisitions, and an asset summary. We also provided site planning, zoning, and permit applications for perimeter fencing and an on-site maintenance facility which was completed in May 2010. An analysis of the affect of off-site developments that convey stormwater runoff through the community was made to minimize adverse impacts to the community. The analysis included monitoring of extreme rainfall events and observations of the piped conveyance system. We have also worked with the district attorney to establish values for infrastructure owned by the CDD that were going to be impacted by road widening projects and required adjustments.

Last fall, the community began a multi-year roadway paving of the main roads. Our transportation group provided a pavement condition report and construction engineering and inspection services during the completed paving project to monitor the contractors performance and verify invoicing quantities.

## H. ADDITIONAL INFORMATION

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

When Johnson Engineering was established in 1946, much of Florida was an undisturbed land. Now 79 years later we have seen a boom in development and a tremendous population growth alter the landscape permanently. Johnson Engineering has been helping guide private companies, city, county, state, and federal governmental institutions through these changes and the challenges they create.

Just as Florida has transformed dramatically over the years, so has Johnson Engineering. What started as one man surveying Florida's west coast has developed into a team of 130 professionals throughout Florida, offering their expertise in a broad spectrum of engineering disciplines. Our team provides civil engineering design for land development, planning and landscape architecture, utilities, transportation design, and construction engineering and inspection. Our surveying and mapping group specializes in utility mapping, transportation surveying, hydrographic surveying, and geographic information systems and our water resource management group provides environmental consulting, surface water management, water quality studies, and water supply services.

Our extensive list of well-known Florida airport facilities, roads, shopping centers, schools, hospitals, residential communities, resorts and commercial developments show our continued responsibility in developing Florida's communities.

The company has offices in Fort Myers, Port Charlotte, LaBelle, Clewiston, Lutz, and Naples.

While Johnson Engineering is focused on growing and evolving to continue serving the needs of Florida, it remains true to its past and the values upon which the company was founded.

### **Depth of Experience**

Centuries of combined experience has immersed our team of licensed professionals into Florida's geography, giving a rare perspective into development of the area and an appreciation of the changes.

### **Full Range of Services**

Specialized teams of engineers, planners, landscape architects, surveyors, ecologists, water resources experts, transportation and utility designers provide many aspects needed to complete your projects.

### **Long Term Commitment**

Our team's average tenure with Johnson Engineering is 13 years, 53% of our employees have been here for more than 10 years, and an unprecedented 21% have been with us for more than 20 years, showing our team's continuity and dedication to the area.

### **Local Presence**

We can provide invaluable historical data of the local area and our conveniently located offices allow us to provide prompt service and communication through every step of your project.

**MINUTES OF MEETING  
RIVERWOOD  
COMMUNITY DEVELOPMENT DISTRICT**

The regular meeting of the Board of Supervisors of the Riverwood Community Development District was held Tuesday, May 20, 2025 at 2:00 p.m. at the Riverwood Activity Center, located at 4250 Riverwood Drive, Port Charlotte, Florida 33953.

Present and constituting a quorum were:

Dr. Cameron McKee	Chairperson
Donald Hester	Vice Chairperson
Robert Humberstone	Assistant Secretary
Douglas Colwell	Assistant Secretary
Warren Sims, Jr.	Assistant Secretary

Also present were:

Justin Faircloth	District Manager
Scott Rudacille	District Counsel
Ron Lesinski	Access Supervisor
Matt Gillispie	Florida Utility Solutions
Ramona Elden	Riverwood Community Association
Jim Freeman	Riverwood Community Association
Various Residents	

*Following is a summary of the discussions and actions taken.*

**FIRST ORDER OF BUSINESS**

**Call to Order and Roll Call**

Mr. Faircloth called the meeting to order, and called the roll. A quorum was established.

**SECOND ORDER OF BUSINESS**

**Approval of the May 20, 2025 Agenda**

The following additions were requested:

- Item 6E – Riverwood Disaster Preparedness & Recovery Plan.
- Item 11Eii – Consideration of Duel Elliott to the Finance Committee.

There being no further amendments,

On MOTION by Mr. Hester, seconded by Mr. Sims, with all in favor, the Agenda for the Meeting was approved, as amended. (5-0)

**THIRD ORDER OF BUSINESS****Audience Comments on Agenda Items**

- A resident inquired about the Fiscal Year 2026 Budget.

**FOURTH ORDER OF BUSINESS****Consideration of RFQs for District Engineering Services**

- A. **Discussion of Evaluation Criteria**
- B. **Responses/Statements of Qualifications**
  - i. **CPH Corp.**
  - ii. **Barraco and Associates, Inc.**
  - iii. **Johnson Engineering**

- Mr. Faircloth commented on responses received. Discussion ensued regarding the proposals received, continuing the discussion to the next meeting, and the possibility of continuing the June 24, 2025 meeting to July 15, 2025 at 1:00 p.m. for the firms to have 20 minutes each to present their qualifications to the Board.

On MOTION by Mr. Hester, seconded by Mr. Colwell, with all in favor, consideration of RFQs for District Engineering Services was tabled to the June 24, 2025 Riverwood CDD Meeting, and the current submittal deadline shall be extended to June 16, 2025, to allow additional responses for inclusion in the June 24, 2025 Agenda Package. (5-0)

- The Board requested staff contact CPH and notify them of the extension of the RFQ, and notify Barraco & Associates, CPH, and Johnson Engineering that the Board discussed continuing the June 24, 2025 meeting to July 15, 2025 at 1:00 p.m. to allow them 20 minutes each to present their qualifications to the Board.

**FIFTH ORDER OF BUSINESS****Approval of Consent Agenda**

- A. **Approval of the Minutes of April 15, 2025 Regular CDD Meeting**
- B. **Acceptance of the Financial Report and Check Register as of April 2025**
- C. **Approval of the Minutes of April 10, 2025 Finance Committee Meeting**
- D. **Items Approved Via Resolution 2021-09**
  - i. **Aquatic Weed Control Planting Proposals for Preserve Areas E & K**
  - ii. **Cool Today HVAC Service & Maintenance Agreement**
  - iii. **Hughes Exterminators Service Agreement for Commercial Pest Management at the Wastewater Treatment Plant**

Mr. Faircloth presented the Consent Agenda, with the items as listed above, and requested any additions, corrections or deletions.

There being none,

On MOTION by Mr. Hester, seconded by Mr. Humberstone, with all in favor, the Consent Agenda, with the items as listed above, was approved. (5-0)

## SEVENTH ORDER OF BUSINESS

### Access Control Supervisor Report

- Mr. Lesinski reviewed his report with the Board and provided updates on usage and equipment.

## SIXTH ORDER OF BUSINESS

### Business Items

#### A. Sport Surfaces Contract Update

- Dr. McKee noted the project was moved to October, and that the contract has not been returned yet by Sport Surfaces from their initial review.

#### B. Rule Change Discussion

- Discussion of rule updates ensued. The Board requested this item be placed on the June 24, 2025 agenda, and Dr. McKee agreed to provide language on the proposed changes.

#### C. Consideration of Proposal From Rob Robertson with Property Jungle Tamer for Earth Work & Drainage Contouring on Parcel A

- Discussion ensued regarding the proposal.

On MOTION by Mr. Hester, seconded by Mr. Sims, with all in favor, Estimate 301 from Property Jungle Tamer in the amount of \$17,900 for earth work & drainage contouring on Parcel A, was approved. (5-0)

#### D. Consideration of Proposal from GENERX Generator for Backup Power for the Administration Building & Gatehouse

- The Board discussed the need for power backup to the Administration Building and gatehouse.

On MOTION by Dr. McKee, seconded by Mr. Hester, with all in favor, backup power for the Administration Building and gatehouse in an amount not to exceed \$75,000, was approved. (5-0)

- Dr. McKee noted another proposal from Kohler would be obtained for comparison to GENERX.

**E. Riverwood Disaster Preparedness & Recovery Plan**

This item was tabled to the June Meeting.

**EIGHTH ORDER OF BUSINESS**

**District Manager's Report**

**A. Report on Number of Registered Voters (1,447)**

Mr. Faircloth presented the Report to the Board, and noted this information is provided to the District on an annual basis, and further noted there are 1,447 registered voters in the District.

**B. Consideration of Resolution 2025-05, Approving the Proposed Fiscal Year 2026 Budget and Setting the Public Hearing for August 19, 2025**

- Discussion ensued regarding the Fiscal Year 2026 Budget. It was noted a decrease in assessments is being contemplated.
- Further discussion ensued regarding the budget and needs for roadways.
- The Board agreed to set the high-water mark at Fiscal Year 2025 assessment levels, and continue to review and adjust the Budget as they approach the Public Hearing date.

On MOTION by Mr. Humberstone, seconded by Dr. McKee, with all in favor, Resolution 2025-05, Approving the Budget for Fiscal Year 2026 and Setting a Public Hearing Thereon Pursuant to Florida Law, to be held Tuesday, August 19, 2025 at 2:00 p.m. at the Riverwood Activity Center, located at 4250 Riverwood Drive, Port Charlotte, Florida 33953, was adopted, as discussed. (5-0)

**C. Consideration of Resolution 2025-06, Adopting the Fiscal Year 2026 Meeting Schedule**

There being no comments or questions,

On MOTION by Mr. Hester, seconded by Mr. Sims, with all in favor, Resolution 2025-06, Adopting the Annual Meeting Schedule for Fiscal Year 2025/2026, was adopted, as presented. (5-0)

**D. Follow Up Items**

- Mr. Faircloth commented on actions taken with FPL for reimbursement for damages to the sewer infrastructure that had to be repaired and efforts to obtain the requested credit cards for District staff.

**NINTH ORDER OF BUSINESS****Attorney's Report**

- Mr. Rudacille discussed contracts and inquired as to how the Board would like him to review contracts going forward.
- Mr. Faircloth inquired about the backup power installation and noted if time was of the essence on the project, the Board may wish to grant a Supervisor authority to sign off on the proposal and contract once obtained and developed.

On MOTION by Mr. Hester, seconded by Dr. McKee, with all in favor, the Chairperson was authorized to determine a proposal for installation of stand-by power for the administration building and gatehouse, and execute a contract once developed by District counsel. (5-0)

**TENTH ORDER OF BUSINESS****Engineer's Report****A. Consideration of Proposal for Consultant from Johnson Engineering for Rivermarsh Sidewalk Project**

There being no comments or questions,

On MOTION by Dr. McKee, seconded by Mr. Sims, with all in favor, the proposal from Johnson Engineering to serve as consultant for the Rivermarsh sidewalk project was approved, and District Counsel was authorized to review the contract. (5-0)

**B. Consideration of Proposal from Velocity Engineering Services for Roadway Restriping Project**

There being no comments or questions,

On MOTION by Mr. Hester, seconded by Dr. McKee, with all in favor, the Proposal from Velocity Engineering Services for roadway restriping was approved, and the chairperson was authorized to execute once a contract was developed by District Counsel. (5-0)

**ELEVENTH ORDER OF BUSINESS****Other Committee Reports****A. Utilities Committee: Mr. Hester****i. Monthly Client Report**

- Mr. Hester and Mr. Gillispie discussed damage to an 8" main by FPL with a power pole installation after the last hurricane, and that staff already contacted FPL for reimbursement.

- Mr. Gillispie discussed repairs at the plant and savings on chlorine as a result of the pump replacement.
- Mr. Gillispie reviewed the monthly report with the Board.
  - ii. **FUS Estimate 3085 – Connection of Irrigation System to Potable Water to Reduce the Need for Flushing**
- The board discussed the estimate from FUS. Mr. Sims noted he would like a drawing of how the work would be completed. Mr. Hester noted he could have the drawing developed.

On MOTION by Mr. Hester, seconded by Dr. McKee, with Dr. McKee, Mr. Hester, Mr. Humberstone, and Mr. Colwell in favor and Mr. Sims opposed, estimate 3085 in the amount of \$3,465 per home for six homes to be connected to potable water as a test effort to see if the need for flushing could be reduced at a total cost of \$20,790 was approved. (4-1)

**B. Environmental Committee: Mr. Hester**

- Mr. Hester provided updates on Aquatic Weed Control and work completed by FL GIS.

**i. June 2025 Meeting Change**

- Mr. Hester noted a change was not needed.

**C. Beach Club Committee: Mr. Humberstone**

- Mr. Humberstone provided updates on insurance items.

**D. Campus Committee: Dr. McKee**

- Dr. McKee noted there was no meeting, but the Committee is looking at awnings and table options.

**i. June 2025 Meeting Change**

On MOTION by Mr. Hester, seconded by Mr. Humberstone, with all in favor, rescheduling of the June 3, 2025 Campus Committee Meeting to Tuesday, June 10, 2025 at 2:00 p.m., was approved. (5-0)

**E. Finance Committee: Mr. Humberstone**

**i. Riverwood CDD Financial Report**

- Mr. Humberstone reviewed the Financial Report with the Board.

233 **ii. Consideration of Duel Elliott to the Finance Committee**

234

235

236 On MOTION by Mr. Humberstone, seconded by Dr. McKee, with  
 237 all in favor, appointment of Duel Elliott to the Finance Committee,  
 238 was approved. (5-0)

239

240 **F. RV Park Committee: Mr. Colwell**

- 241 • Mr. Colwell provided updates on the solar lighting project.

242 **i. Resignation of Mr. Dave Hollern**

243

244 On MOTION by Dr. McKee, seconded by Mr. Sims, with all in  
 245 favor, the resignation of Mr. Dave Hollern, was accepted (5-0)

246

247 **ii. Meeting Schedule Change**

248

249 On MOTION by Mr. Colwell, seconded by Dr. McKee, with all in  
 250 favor, all future RV Park Committee Meetings shall be held the  
 251 second Wednesday at 9:00 a.m. (5-0)

252

253 **G. Riverwood Safety & Security Committee: Mr. Colwell**

- 254 • Mr. Colwell provided updates on actions being taken by the Committee.

255

256 **TWELFTH ORDER OF BUSINESS**

**RCA Items**

257 **A. General Manager Report**

258 This item was addressed earlier in the meeting.

259 **B. RCA Grounds Committee Liaison Report: Mr. Sims**

- 260 • Mr. Sims provided updates on actions being considered with the RCA Grounds  
 261 Committee.
- 262 • Mr. Faircloth noted the District received invoices from the RCA for March and  
 263 April and was holding those two invoices, as there were charges on the invoices to  
 264 cover a portion of Mr. Freeman's salary after review of the agreement and  
 265 consultation with District Counsel. Mr. Rudacille noted it was currently listed in  
 266 the agreement that the fees collected would serve as compensation to the RCA. Mr.  
 267 Faircloth also noted that Mr. Rudacille and himself discussed the insurance  
 268 provisions and shared the agreement with the District's insurer, and were awaiting  
 269 comment from them if any changes to the agreement may be necessary. Mr.

Rudacille noted an amendment to the agreement would be necessary to incorporate the District's contribution towards the general manager's salary and changes to the insurance items.

On MOTION by Dr. McKee, seconded by Mr. Hester, with all in favor, staff paying the RCA invoices with the charges toward the general manager's salary, was approved. (5-0)

### **THIRTEENTH ORDER OF BUSINESS**                      **Supervisor Comments**

- Mr. Sims commented on sidewalk damage.
- Dr. McKee thanked the Board and others for all the work they are doing.

#### **A. Committee Meeting Schedules**

There being no discussion, the next order of business followed.

### **FOURTEENTH ORDER OF BUSINESS**                      **Audience Comments**

Residents commented on the following items:

- The RCA Agreement.
- The CDD was thanked for responses to flooding concerns.
- Concern was expressed regarding flooding of Lake 55.
- Generator installation.
- Amenity usage.
- Parcel A.
- Proude Street water pressure.

### **FIFTEENTH ORDER OF BUSINESS**                      **Adjournment**

There being no further business,

On MOTION by Dr. McKee, seconded by Mr. Sims, with all in favor, the meeting was adjourned at 5:38 p.m. (5-0)

---

Dr. Cameron McKee  
Chairperson

Minutes- Finance Committee May 15, 2025

Attendees- Bob Humberstone, Liason, Kervin Urhahn, Craig Ziebell, Bill Mosca

### Quick recap

The finance committee reviewed utility accounts and tax collections, noting positive financial performance with operating expenses under budget and a projected profit in the Enterprise Fund. The committee discussed various infrastructure projects and potential funding mechanisms, including the creation of a separate storm drain fund and exploring investment options.

- [Bill to conduct a deep dive into investment options and present suggestions at the next Finance Committee meeting.](#)
- [Bob updated budget information to committee members before presenting to the board.](#)
- [Douglas Colwel to evaluate insurance coverage and provide a report on what needs to be done before the next meeting.](#)
- 

### Summary

#### Utility Accounts and Budget Review

The finance committee reviewed utility accounts, deciding to write off two inactive accounts with unpaid balances of \$46 each after multiple attempts to contact the owners failed. Denise reported that 98% of tax bills had been collected in April, with Inframart indicating that full collection was expected over time. The committee noted that operating expenses were 42,000 under budget year-to-date, and Bob mentioned plans to reclassify some items to reserves as the year progresses.

Bob reported that the general fund is in good shape, with a projected half million dollar profit in the Enterprise Fund before reserves. The main financial contingency is the storm drain system, which is currently being inspected, with preliminary findings expected by the end of the month. Craig and Kerwin discussed the possibility of creating a separate storm drain fund within the Enterprise Fund. They agreed to evaluate this option after receiving the final inspection results at the end of the month.

The meeting focused on several key topics: financial planning, project updates, and reserve fund discussions. Bob presented a preliminary budget for the upcoming year, noting that tax fees would not increase due to shifting expenses to the RCA. The committee reviewed various projects including Riverwood cleanup, preserve maintenance, and Tiki bar improvements. They discussed investment options, with Bill suggesting further exploration of Florida Prime and CD investments. The conversation ended with a review of insurance coverage and potential liabilities, particularly regarding sewer maintenance and pond dredging.

Below are the agenda items for the 24 June RCDD Board Mtg

**CDD Insurance**

**ANNUAL PREMIUMS**

Justin Faircloth, CAM, CDM, District Manager, has requested that our insurance agent structure all policy premiums due dates to be October 1, the beginning of our fiscal year. This would then provide a more straightforward method to track premiums and their due dates.

**Beach Club** items that are not insurable (non-structural assets)

- Walkway that is part of the pavilion
- Paving and striping
- Parking Lot

**Campus assets** that have not been previously insured

As it is rather challenging to place a value on our various aging structures, Egis Insurance has been researching multiple community property schedules (like Riverwood) to identify comparable assets such as our Geothermal Pool.

Our other assets, such as Ground Pools and Spas, listed below, have a wide range of values, depending on their type and size. Ismary is working on looking up these values and will advise us in the next several weeks, the following assets have not been insured.

<b>Property Not Covered, Self-Insured w/ Projected Values</b>
Decorative Fountain \$12K +
Dog Park \$10K
Lift Stations (21 - \$100k each)
Geothermal Pool & Spa Heaters (5)
Sewer plant Clarifiers
Sewer Plant Digester
Sewer Plant Surge Tank
Sewer Plant Sand Filter
Sewer Pant Gate & Operator
Campus In-Ground Pool & Spa

<b>Property Not Self-Insured w/ Projected Value</b>
Tennis 8 \$25K-\$50K each
Pickleball 8\$25K-\$50K each
South Parking Lot 8 \$0
West Parking Lot 11\$0
Bocce Courts 2
Pool 5

Thank you!

*Warm regards,*

[Douglas Colwell]

## OVERVIEW

### **Community Disaster Preparedness Plan**

**Natural disasters include hurricanes, floods, tornadoes, fires and other events.**

A top priority for management is the safety and well-being of the residents, especially during unexpected disasters. We understand the importance of being prepared and informed in an emergency.

This is an operational Emergency Management Plan for the management and employees of Riverwood, prepared by the Riverwood Community Association and the Riverwood Community Development District. Its guidelines are consistent with the plans developed by the State of Florida and Charlotte County.

Riverwood has initiated this plan to create awareness of emergency management at the County level and within the Riverwood community with these specific goals:

- Provide guidance to management and employees for disasters, storm preparation, survival, and recovery.
- Quantify general responsibilities of the management and staff in preparation for, during and recovery from a disaster event.

**The General Manager will declare the plan deactivated once the disaster threat has passed, and it is safe to return to normal operations.**

**Always prioritize the safety of employees and residents, be prepared to adapt plans based on the evolving situation.**

## **DISASTER READINESS CHECKLIST**

### ***Hurricanes -Tornados-Wildfires- Storm Surges***

Hurricanes, Tornados, Wildfires, Storm Surges and other disasters generate a series of threats to lives and property. The most obvious is the threat posed to buildings, equipment, and people by the effects of these events. This checklist will help prepare for a looming disaster's effect on our employees and community by highlighting activities that should be undertaken before, during, and following the event.

When the weather channels, news networks, NOAA (National Oceanic and Atmospheric Administration), National Hurricane Center issue a watch or warning, use the time available to begin taking the following steps:

#### **BEFORE THE EVENT**

- Stay up to date on the event's progress via radio, TV or NOAA Weather Radio (All Hazards) receivers.
- Determine safe evacuation routes inland as well as alternative routes.
- Review your Shelter-in-Place Plan, making sure your:
  - Disaster Kit is fully stocked.
  - First Aid Kit
  - Fresh batteries & supplies are fully stocked.
- Ensure you have an emergency communication plan in place prior to the event, evacuation, or threat.
- Backup all data on servers and personal computers. If the backup site is within the area that may be affected by the storm, take backup tapes with you in the evacuation.
- Ensure remote access to your company website and establish a team to manage updates to the site during and after the event.
- Turn off all non-critical devices such as server monitors and workstations and other non-essential electrical equipment.
- Check the integrity of the stand-by propane generator system uninterruptible power supply (UPS).
- Inspect and make emergency repairs to drains, gutters and flashing.
- Install windstorm shutters/plywood over windows and doors.
- Remove all loose debris.
- Anchor or relocate all nonessential equipment to a safe indoor location.
- Secure storage of flammable liquid drums, or move them to a sheltered area (but never into main facility areas)
- Anchor all portable buildings (e.g., trailers) to the ground.
- Secure all equipment.
- Make sure outdoor signs are properly braced.
- Ensure that the employees who volunteered to stay on site have proper supplies and equipment (drinkable water, nonperishable food, medicine, flashlights, walkie-talkies).
- Have cash on hand for post-windstorm needs, such as buying food and supplies, or paying employees and contractors (in the event of electric outages, banks and ATMs will not be operating.)
- Ensure you know which employees are certified in CPR, EMT, etc.
- Charge all electronic devices (mobiles phones or tablets, walkie-talkies, flashlights, etc.)
- Fill fuel jugs, jerry cans, fuel tanks on generators, fire pumps, and all vehicles.
- Remove as many goods as possible from the floor, place at higher elevations.
- Shut off propane gas supply to minimize fire loss, if needed.

- Disconnect the main electrical feeds to the facility, if possible, to prevent a potential fire caused by short-circuiting of damaged equipment.

## **DURING THE EVENT**

- Stay in constant contact with any personnel who are onsite to ensure their wellbeing.
- Patrol the property continuously and watch for roof leaks, loose roofing and building materials, fire or structural damage.
- During the height of a hurricane, flooding, or high-winds event, personnel should remain in a place that has been identified as safe from wind and flood.
- Constantly monitor any equipment that must remain online.
- During power failure, turn off electrical switches to prevent reactivation before necessary checks are completed.

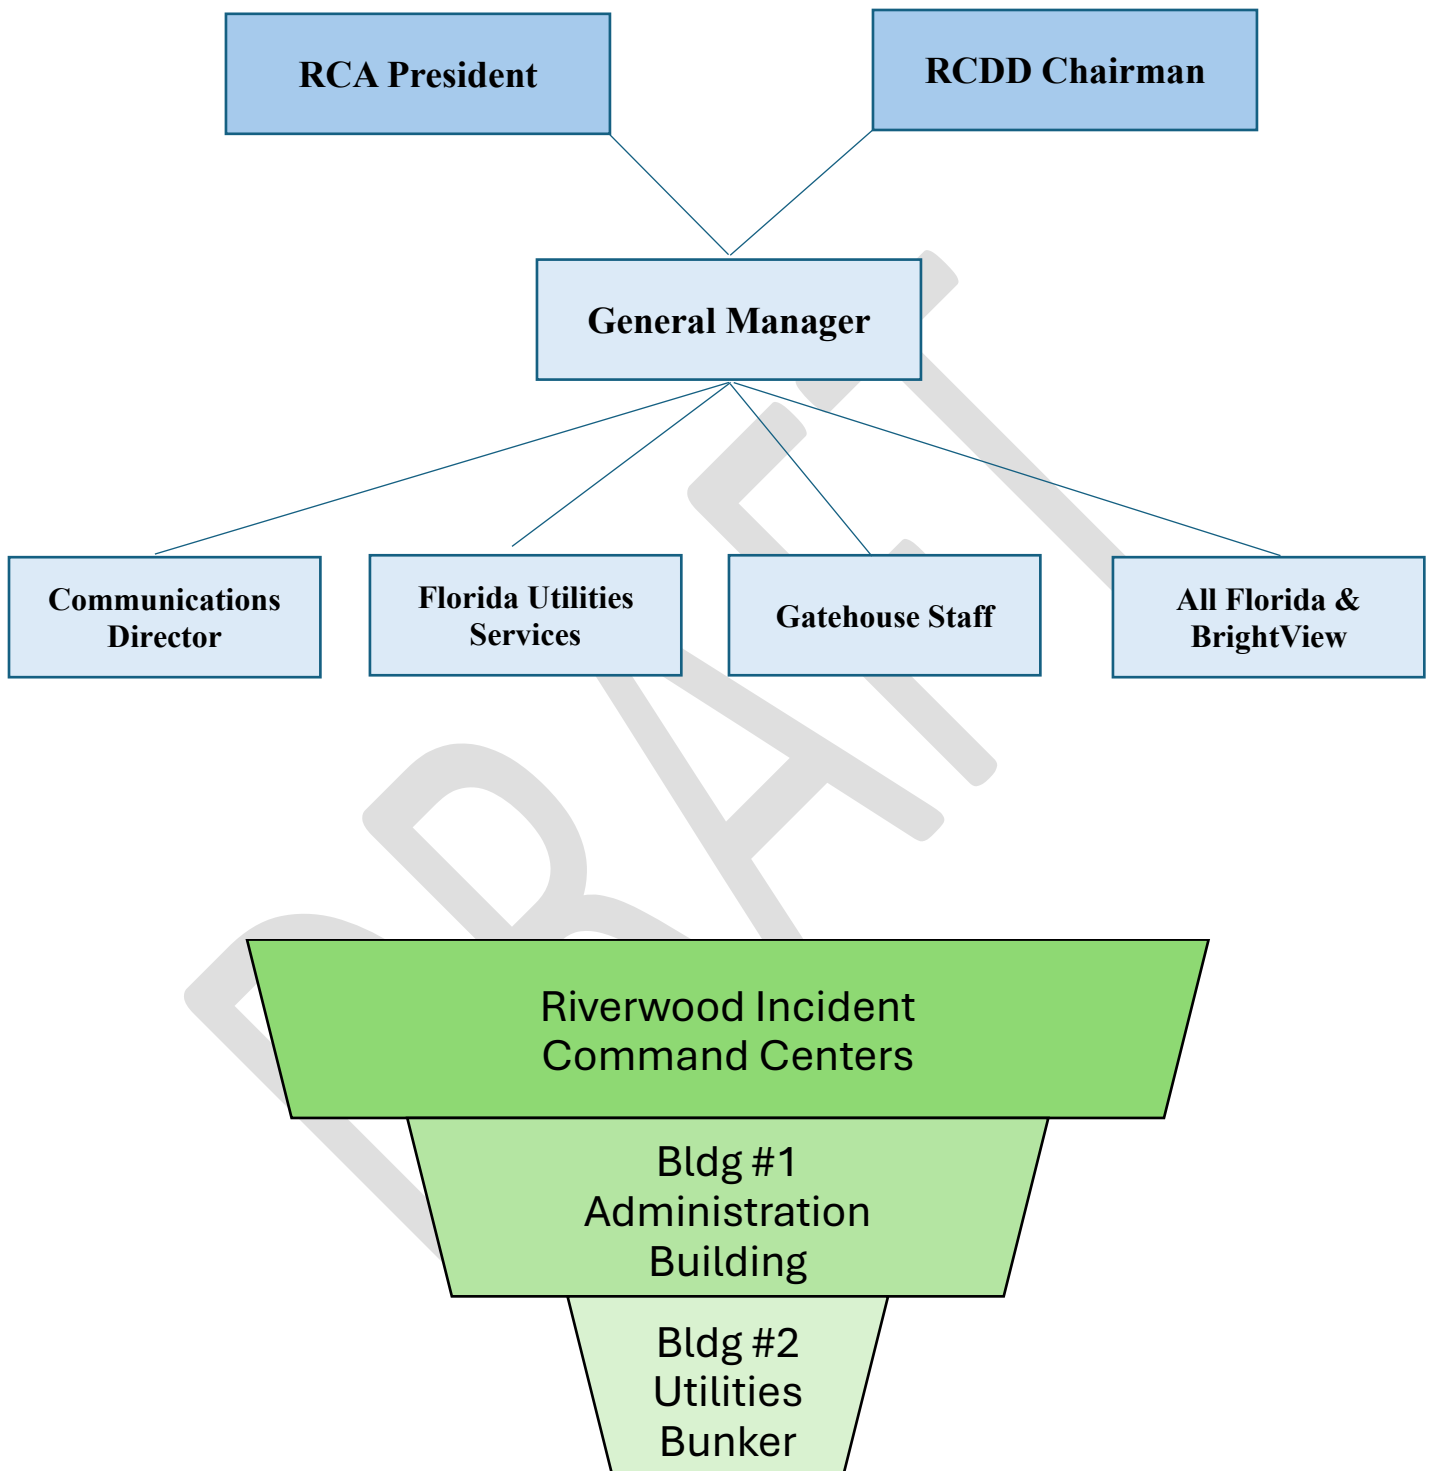

## **AFTER THE EVENT**

- Keep listening to radio, TV or NOAA Weather Radio All Hazards to make sure the storm has passed. Wait until an area is declared safe before entering to secure the site and survey damage.
- Secure 24-hour security if needed.
- Watch for closed roads. If you come upon a barricade or a flooded road, turn around, be safe.
- Survey for safety hazards such as live wires, leaking gas or flammable liquids, poisonous gases, and damage to foundations or underground piping.
- Continue to communicate with all key audiences until the crisis has passed.
- Consistency is important, especially with members of the media.
- Call in key personnel and notify contractors to start repairs.
- Ensure that all safety systems are fully implemented before work is allowed to begin.
- Require contractors to share responsibility for establishing fire-safe conditions before and during the job.
- Begin salvage as soon as possible to prevent further damage:
  - Cover broken windows and torn roof coverings immediately.
  - Separate damaged goods but beware of accumulating too much combustible debris inside a building.
  - Clean roof drains and remove debris from roof to prevent drainage problems.

## **ASSOCIATES/EMPLOYEES**

- Have all employees, vendors, residents contact information on hand.
- Use the E-Blast and Text Systems to keep all parties posted on status updates and next steps.
- Have mandatory “well-being, check-ins” with all employees who are operating on-site from main building every 60 minutes.
- During evacuation have a central point of contact for all employees, and ensure you know where your people are located.
- During evacuation consider your phones lines - redirection to cell phones, answering service, Google Voice,
- Following the storm, notify all critical people of the next steps, based on damage.
- Constantly refill company-owned vehicles and ensure that all devices are fully charged so they are ready for post-event action.
- Remove as many goods as possible from the floor.
- Disconnect the main electrical feeds to the facility, if possible, to prevent a potential fire caused by short-circuiting of damaged equipment. with the exception of the incident command center

## Emergency Management Team Organizational Chart

## INCIDENT COMMAND CENTER

In the event of, or in anticipation of, a natural or man-made disaster, the Incident Commander (Riverwood Manager) may activate the Incident Command Center. This decision will be made in conjunction with the President of the RCA and the Chairperson of the RCDD or their representative. This decision will be disseminated as quickly as possible to all Riverwood staff and residents to include the Riverwood Golf Course and Florida Utilities Services.

The Primary Incident Command Center (ICC) will be the Administration Building (Bld #1). Should the Primary site be unusable for any reason, the Incident Commander may activate a Secondary ICC at the Sewer Treatment Plant (Bld #2).

Activation of the ICC is to be considered an all-hands event. The Center will be manned with radio and Starlink communications from 6am to 10pm and will serve as the center for planning and coordination, information dissemination, and an emergency electrical power supply. There will be a scheduled meeting of all available Board members and appropriate personnel at 7am and 7pm daily until deemed otherwise by the Incident Commander or designee.

Following an assessment of all available information, the ICC will be deactivated by the Incident Commander or designee when deemed appropriate. Coordination of activities and subsequent meeting schedules will be determined at that time.

Following an appropriate interval, the Incident Commander will schedule a debrief for all Board members and involved personnel to review the Incident, issues faced, and lessons learned.

## MANAGEMENT RESPONSIBILITIES

**Riverwood Community General Manager:** Together with RCA President and RCDD Chairperson, determines extent of disaster and appropriate response. Acts as community quarterback before, during and after a disaster event.

**RCA President/Bruce Dorfman:** Focal point for communication between RCA Manager & staff, as well as RCA Board Directors.

**RCA Vice-President/ Kevin Tucker:** Assists the Presidents efforts and accepts responsibility in the absence of the President.

**RCA Treasurer/ John Larson:** Assist President and Vice-President as directed. Communication with the General Manager & staff regarding payment of bills.

**RCA Secretary/ Ramona Elden:** Assist President and Vice President as directed.

**RCA Member at Large/ Maureen Hoffer:** Assist President and Vice President as directed.

**RCDD Chairperson/ Dr. Cam McKee:** Focal point for communication between the General Manager and the RCDD campus staff and other Supervisors.

**RCDD Vice-Chairperson/ Don Hester:** Assists the Chairperson's efforts and accepts responsibility in the absence of the Chairperson. Serves as the Utilities liaison.

**RCDD Supervisor/ Bob Humberstone:** Assists the Chairperson's efforts and accepts responsibility in the absence of the Chairperson and Vice Chair. Serves as the Beach Club liaison.

**RCDD Supervisor/ Bob Sims:** Assists the Chairperson's efforts and serves as the Community Assets liaison.

**RCDD Supervisor/ Douglas Colwell:** Assists the Chairperson's efforts and serves as the Human Resources liaison.

*The Riverwood Boards have the responsibility of informing the residents in the event of a disaster event, and to maintain common property. To that end, the RCA President and the RCDD Chairperson will work with the General Manager to: Coordinate with County, State and Federal resources to maximize evacuation and recovery initiatives; Prepare for recovery by communicating with landscape vendors; Situationally manage the clean-up recovery as warranted by the severity of the event. This decision will then be communicated to the residents IF the situation is deemed to be severe.*

## **HIGH WIND PREPARATIONS PER BUILDING**

In the event of a hurricane, wind gusts that are forecasted at 45MPH or above, the gatehouse will prepare to shut down. Once winds are sustained at 30MPH or more, it's time to evacuate. This allows staff and their families to evacuate before the winds are over 45MPH and the bridges close.

### **GATEHOUSE**

- Secure computer data
- Inform staff of procedures & expectations.
- Open all gates for evacuation and emergency vehicles.
- Remove all lift arms and stack inside the gatehouse.
- Secure gatehouse.

### **CAMPUS- ADMINISTRATIVE BUILDING**

- Test/charge the Riverwood Radio Communication System (RRCS).
- Gather IT bags and laptops as well as Server Backup external drive.
- Secure petty cash boxes and empty the safe.
- Locate emergency kit and stage in command center.
- Protect/cover all desktop computers and remove all electronics from the floor and place them on the desks.
- Remove all items off Library floor and place on table.
- Place the entrance door mat inside Administrative entrance.

### **CAMPUS- ACTIVITIES BUILDING**

- Secure TVs in the Osprey Room closet.
- Remove all equipment from AV closet floor.
- Remove the big blue canopy and store in Activities Building.
- Remove all verandah furniture and store in Activities Building.
- Store gas grills in the Tiki Bar area and turn off gas supply.

### **CAMPUS- BOCCE/TENNIS/PICKLEBALL**

- Remove all canopies and store them in the Activities Building.
- Take down and store the flags in front of the Fitness Center.
- Store all garbage containers in the Activities Building.
- Secure the bike rack
- Remove the windscreens and store them in the Activities Building.

### **CAMPUS- RESORT POOL/TIKI BAR/CANOPY**

- Remove all pool furniture and place it in Activities Building/Eagle & Egret Rooms.
- Pull down Tiki Bar metal shutters/enclose are with metal panels.
- Remove the umbrellas and store in the Activities Building.
- Remove all planters and place in the Tiki Bar area.
- Remove all canopies and place them in the Activities Building.

## **RIVERWOOD POST DISASTER CLEAN-UP RESPONSIBILITIES**

All storms are individual, and clean-up decisions will be different as well. Decisions on what level of clean-up will be made jointly by the CDD Chair Supervisor, the RCA President and the Riverwood Community General Manager (GM). In all instances, the clean-up costs will be paid equally by the CDD and the RCA. With storms and other events that result in severe damages, as declared by the CDD Chair Supervisor, the RCA President and the GM, the following Disaster Recovery Plan will be implemented:

### **MAJOR EVENT CLEAN-UP PLAN**

Clean up activities will begin with the activation of the Incident Command Center (ICC). The ICC will be led by the Riverwood GM who will be the Incident Commander (IC) the RCA President and the CDD Chairman will work alongside the Incident Commander. Pre-disaster planning will have included contracts with Brightview/All Florida, or both, who upon contact from the GM, will immediately begin community wide clean up. All clean-up work will be performed in a manner that complies with the requirement of the Federal Emergency Management Association (FEMA, or its successor or assigns), to support reimbursement applications. This FEMA compliant work will be done in order to: (i) preserve CDD owned infrastructure and (ii) to allow emergency vehicles unimpeded access to infrastructure and all residences throughout the Community.

This debris removal work will, at the very least include: (i) the photographic identification and GPS location of all trees, limbs and other debris located in roads throughout the Community, (ii) to remove identified debris from the roadways to the sides of the traveled way and (iii) to photographically document the removal of such debris to the sides of the roadways. Upon the completion of the FEMA documentation, the debris will immediately be removed and staged on the CDD property behind the golf course maintenance building where it will be broken down into small units and trucked out of the Community for proper disposal.

The CDD shall pay the cost of debris removal relating to the FEMA application work. All other costs relating to disaster remediation shall be shared equally between the CDD and the RCA. Should the FEMA reimbursement application be denied, in whole or in part, the amount not reimbursed to the CDD, shall be shared equally between the CDD and the RCA.

## **ALL RIVERWOOD NEIGHBORHOODS**

The first priority of recovery is to clear roadways and utility facilities in order to permit emergency vehicles and utility services to access vital areas. Once the IC determines that this has been substantially accomplished neighborhood presidents and property managers will be notified that they may begin their individual lot/neighborhood clean-up and repair. It is the sole responsibility of the individual owners to properly remove storm debris (i.e. fallen trees tree limbs and related landscaping materials; also including building materials (“Storm Debris”) from their lots. Most storm recovery vendors in the area have call lists for pre-emergency registration. This gives priority to owners who take advantage of this service. It is recommended that owners call before an event occurs to be placed on these lists. All vendors must be licensed contractors in Florida and provide proof of insurance to be allowed entry. The Gate House will be instructed not to allow any clean-up vendors, other than Brightview and All Florida into the Community until the IC declares substantial removal of debris from roadways and utility services.

## **UNINCORPORATED AND SELF MAINTAINED NEIGHBORHOODS**

In any clean-ups, residents of unincorporated and self-maintained neighborhood, and the neighborhood presidents, will be notified when clean-up vendors are allowed to enter the Community. However, no vendors will be allowed to enter unless the Gate House has been notified to allow their entry. Owners and unincorporated neighborhood presidents will be instructed to place all debris on the grass or the sidewalk adjacent to their homes to be picked up by their recovery vendors. All vendors must be licensed contractors in Florida and provide proof of insurance and valid driver’s licenses. Owners and unincorporated neighborhood presidents will be instructed to ensure that Storm Debris is not placed in roadways. Such Storm Debris is to be removed from the Community by their recovery vendors.

## **INCORPORATED NEIGHBORHOODS**

In any clean-up, the president or property manager of the incorporated neighborhoods will be instructed to contact their landscape vendors to arrange for Storm Debris removal at their cost. No vendors will be allowed to enter until they are advised that entry is permitted. They will also be instructed not to place Storm Debris in roadways. However, no vendors, including incorporated neighborhood vendors, will be allowed to enter unless the Gate House has been notified to allow their entry. All vendors must be licensed contractors in Florida and provide proof of insurance and possess valid driver’s licenses. To be allowed entry.

## **GUARD HOUSE**

The Guard House Supervisor will be instructed not to allow any vendors access to the Community which has not been authorized by owners. Vendors will not be allowed into the Community until the IC declares that the roadway debris has been removed to the extent that it is now safe to allow clean-up vendors access. All vendors must be licensed contractors in Florida and provide proof of insurance and a valid Florida driver's license.

Vendors will be given written notice not to solicit business while in the Community and will be told that if that occurs, they will be prohibited from returning. Such notice will also make clear to vendors that it is their sole responsibility to remove all debris that they handle from the Community.

## **OVERVIEW**

### **Community Disaster Preparedness Plan**

**Natural disasters include hurricanes, floods, tornadoes, fires and other events.**

A top priority for management is the safety and well-being of the residents, especially during unexpected disasters. We understand the importance of being prepared and informed in an emergency.

This is an operational Emergency Management Plan for the management and employees of Riverwood, prepared by the Riverwood Community Association and the Riverwood Community Development District. Its guidelines are consistent with the plans developed by the State of Florida and Charlotte County.

Riverwood has initiated this plan to create awareness of emergency management at the County level and within the Riverwood community with these specific goals:

- Provide guidance to management and employees for disasters, storm preparation, survival, and recovery.
- Quantify general responsibilities of the management and staff in preparation for, during and recovery from a disaster event.

**The General Manager will declare the plan deactivated once the disaster threat has passed, and it is safe to return to normal operations.**

**Always prioritize the safety of employees and residents, be prepared to adapt plans based on the evolving situation.**

## **DISASTER READINESS CHECKLIST**

### ***Hurricanes -Tornados-Wildfires- Storm Surges***

Hurricanes, Tornados, Wildfires, Storm Surges and other disasters generate a series of threats to lives and property. The most obvious is the threat posed to buildings, equipment, and people by the effects of these events. This checklist will help prepare for a looming disaster's effect on our, employees and community by highlighting activities that should be undertaken before, during, and following the event.

When the weather channels, news networks, NOAA (National Oceanic and Atmospheric Administration), National Hurricane Center issue a watch or warning, use the time available to begin taking the following steps:

#### **BEFORE THE EVENT**

- Stay up to date on the event's progress via radio, TV or NOAA Weather Radio (All Hazards) receivers.
- Determine safe evacuation routes inland as well as alternative routes.
- Review your Shelter-in-Place Plan, making sure your:
  - Disaster Kit is fully stocked.
  - First Aid Kit
  - Fresh batteries & supplies are fully stocked.
- Ensure you have an emergency communication plan in place prior to the event, evacuation, or threat.
- Backup all data on servers and personal computers. If the backup site is within the area that may be affected by the storm, take backup tapes with you in the evacuation.
- Ensure remote access to your company website and establish a team to manage updates to the site during and after the event.
- Turn off all non-critical devices such as server monitors and workstations and other non-essential electrical equipment.
- Check the integrity of the stand-by propane generator system uninterruptible power supply (UPS).
- Inspect and make emergency repairs to drains, gutters and flashing.
- Install windstorm shutters/plywood over windows and doors.
- Remove all loose debris.
- Anchor or relocate all nonessential equipment to a safe indoor location.
- Secure storage of flammable liquid drums, or move them to a sheltered area (but never into main facility areas)
- Anchor all portable buildings (e.g., trailers) to the ground.
- Secure all equipment.
- Make sure outdoor signs are properly braced.
- Ensure that the employees who volunteered to stay on site have proper supplies and equipment (drinkable water, nonperishable food, medicine, flashlights, walkie-talkies).
- Have cash on hand for post-windstorm needs, such as buying food and supplies, or paying employees and contractors (in the event of electric outages, banks and ATMs will not be operating.)
- Ensure you know which employees are certified in CPR, EMT, etc.
- Charge all electronic devices (mobiles phones or tablets, walkie-talkies, flashlights, etc.)
- Fill fuel jugs, jerry cans, fuel tanks on generators, fire pumps, and all vehicles.
- Remove as many goods as possible from the floor, place at higher elevations.
- Shut off propane gas supply to minimize fire loss, if needed.

- Disconnect the main electrical feeds to the facility, if possible, to prevent a potential fire caused by short-circuiting of damaged equipment.

## **DURING THE EVENT**

- Stay in constant contact with any personnel who are onsite to ensure their wellbeing.
- Patrol the property continuously and watch for roof leaks, loose roofing and building materials, fire or structural damage.
- During the height of a hurricane, flooding, or high-winds event, personnel should remain in a place that has been identified as safe from wind and flood.
- Constantly monitor any equipment that must remain online.
- During power failure, turn off electrical switches to prevent reactivation before necessary checks are completed.

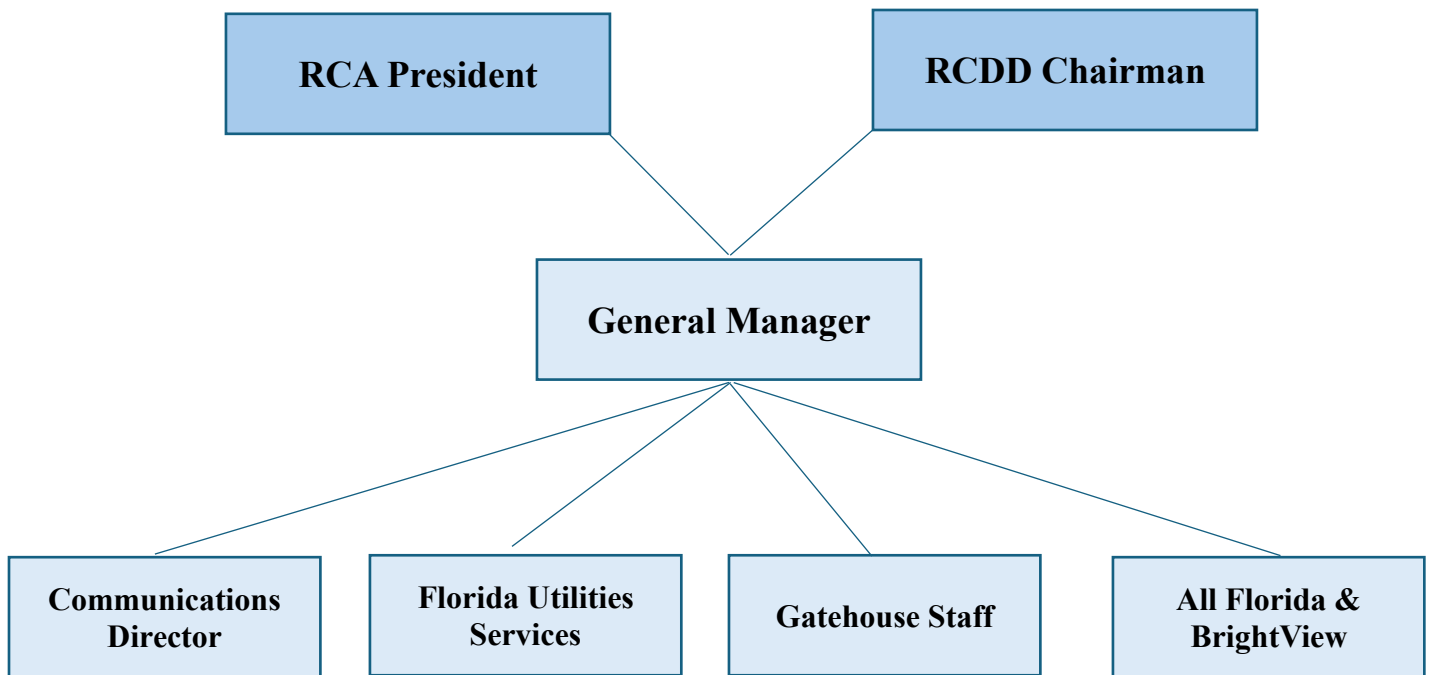

## **AFTER THE EVENT**

- Keep listening to radio, TV or NOAA Weather Radio All Hazards to make sure the storm has passed. Wait until an area is declared safe before entering to secure the site and survey damage.
- Secure 24-hour security if needed.
- Watch for closed roads. If you come upon a barricade or a flooded road, turn around, be safe.
- Survey for safety hazards such as live wires, leaking gas or flammable liquids, poisonous gases, and damage to foundations or underground piping.
- Continue to communicate with all key audiences until the crisis has passed.
- Consistency is important, especially with members of the media.
- Call in key personnel and notify contractors to start repairs.
- Ensure that all safety systems are fully implemented before work is allowed to begin.
- Require contractors to share responsibility for establishing fire-safe conditions before and during the job.
- Begin salvage as soon as possible to prevent further damage:
  - Cover broken windows and torn roof coverings immediately.
  - Separate damaged goods but beware of accumulating too much combustible debris inside a building.
  - Clean roof drains and remove debris from roof to prevent drainage problems.

## **ASSOCIATES/EMPLOYEES**

- Have all employees, vendors, residents contact information on hand.
- Use the E-Blast and Text Systems to keep all parties posted on status updates and next steps.
- Have mandatory “well-being, check-ins” with all employees who are operating on-site from main building every 60 minutes.
- During evacuation have a central point of contact for all employees, and ensure you know where your people are located.
- During evacuation consider your phones lines - redirection to cell phones, answering service, Google Voice,
- Following the storm, notify all critical people of the next steps, based on damage.
- Constantly refill company-owned vehicles and ensure that all devices are fully charged so they are ready for post-event action.
- Remove as many goods as possible from the floor.
- Disconnect the main electrical feeds to the facility, if possible, to prevent a potential fire caused by short-circuiting of damaged equipment. with the exception of the incident command center

## Emergency Management Team Organizational Chart

## **INCIDENT COMMAND CENTER ACTIVATION**

In the event of, or in anticipation of, a natural or man-made disaster, the Incident Commander (Riverwood Manager) may activate the Incident Command Center. This decision will be made in conjunction with the President of the RCA and the Chairperson of the RCDD or their representative. This decision will be disseminated as quickly as possible to all Riverwood staff and residents to include the Riverwood Golf Course and Florida Utilities Services.

The Primary Incident Command Center (ICC) will be the Administration Building (Bld #1). Should the Primary site be unusable for any reason, the Incident Commander may activate a Secondary ICC at the Sewer Treatment Plant (Bld #2).

Activation of the ICC is to be considered an all-hands event. The Center will be manned with radio and Starlink communications from 6am to 10pm and will serve as the center for planning and coordination, information dissemination, and an emergency electrical power supply. There will be a scheduled meeting of all available Board members and appropriate personnel at 7am and 7pm daily until deemed otherwise by the Incident Commander or designee.

Following an assessment of all available information, the ICC will be deactivated by the Incident Commander or designee when deemed appropriate. Coordination of activities and subsequent meeting schedules will be determined at that time.

Following an appropriate interval, the Incident Commander will schedule a debrief for all Board members and involved personnel to review the Incident, issues faced, and lessons learned.

## MANAGEMENT RESPONSIBILITIES

**Riverwood Community General Manager:** Together with RCA President and RCDD Chairperson, determines extent of disaster and appropriate response. Acts as community quarterback before, during and after a disaster event.

**RCA President/Bruce Dorfman:** Focal point for communication between RCA Manager & staff, as well as RCA Board Directors.

**RCA Vice-President/ Kevin Tucker:** Assists the Presidents efforts and accepts responsibility in the absence of the President.

**RCA Treasurer/ John Larson:** Assist President and Vice-President as directed. Communication with the General Manager & staff regarding payment of bills.

**RCA Secretary/ Ramona Elden:** Assist President and Vice President as directed.

**RCA Member at Large/ Maureen Hoffer:** Assist President and Vice President as directed.

**RCDD Chairperson/ Dr. Cam McKee:** Focal point for communication between the General Manager and the RCDD campus staff and other Supervisors.

**RCDD Vice-Chairperson/ Don Hester:** Assists the Chairperson's efforts and accepts responsibility in the absence of the Chairperson. Serves as the Utilities liaison.

**RCDD Supervisor/ Bob Humberstone:** Assists the Chairperson's efforts and accepts responsibility in the absence of the Chairperson and Vice Chair. Serves as the Beach Club liaison.

**RCDD Supervisor/ Bob Sims:** Assists the Chairperson's efforts and serves as the Community Assets liaison.

**RCDD Supervisor/ Douglas Colwell:** Assists the Chairperson's efforts and serves as the Human Resources liaison.

*The Riverwood Boards have the responsibility of informing the residents in the event of a disaster event, and to maintain common property. To that end, the RCA President and the RCDD Chairperson will work with the General Manager to: Coordinate with County, State and Federal resources to maximize evacuation and recovery initiatives; Prepare for recovery by communicating with landscape vendors; Situationally manage the clean-up recovery as warranted by the severity of the event. This decision will then be communicated to the residents IF the situation is deemed to be severe.*

### **HIGH WIND PREPARATIONS PER BUILDING**

In the event of a hurricane, wind gusts that are forecasted at 45MPH or above, the gatehouse will prepare to shut down. Once winds are sustained at 30MPH or more, it's time to evacuate. This allows staff and their families to evacuate before the winds are over 45MPH and the bridges close.

#### **GATEHOUSE**

- Secure computer data
- Inform staff of procedures & expectations.
- Open all gates for evacuation and emergency vehicles.
- Remove all lift arms and stack inside the gatehouse.
- Secure gatehouse.

#### **CAMPUS- ADMINISTRATIVE BUILDING**

- Test/charge the Riverwood Radio Communication System (RRCS).
- Gather IT bags and laptops as well as Server Backup external drive.
- Secure petty cash boxes and empty the safe.
- Locate emergency kit and stage in command center.
- Protect/cover all desktop computers and remove all electronics from the floor and place them on the desks.
- Remove all items off Library floor and place on table.
- Place the entrance door mat inside Administrative entrance.

#### **CAMPUS- ACTIVITIES BUILDING**

- Secure TVs in the Osprey Room closet.
- Remove all equipment from AV closet floor.
- Remove the big blue canopy and store in Activities Building.
- Remove all verandah furniture and store in Activities Building.
- Store gas grills in the Tiki Bar area and turn off gas supply.

#### **CAMPUS- BOCCE/TENNIS/PICKLEBALL**

- Remove all canopies and store them in the Activities Building.
- Take down and store the flags in front of the Fitness Center.
- Store all garbage containers in the Activities Building.
- Secure the bike rack
- Remove the windscreens and store them in the Activities Building.

#### **CAMPUS- RESORT POOL/TIKI BAR/CANOPY**

- Remove all pool furniture and place it in Activities Building/Eagle & Egret Rooms.
- Pull down Tiki Bar metal shutters/enclose are with metal panels.
- Remove the umbrellas and store in the Activities Building.
- Remove all planters and place in the Tiki Bar area.
- Remove all canopies and place them in the Activities Building.

## **RIVERWOOD POST STORM CLEAN-UP RESPONSIBILITIES**

The Riverwood Community Association (RCA) and the Riverwood Community Development District (RCDD), working as 1 Riverwood, have each approved the same plan for community restoration and clean-up following a major disaster (the “Plan”), which defines post event responsibilities.

All storms are individual and clean-up decisions will be different as well. Decisions on what level of clean-up will be made jointly by the RCDD Chair Supervisor, the RCA President and the Property Manager. In all instances, the clean-up costs will be paid equally by the RCDD and the RCA. With storms that result in severe damages, as declared by the RCDD Chair Supervisor, the RCA President and the Property Manager, the following Disaster Recovery Plan will be implemented:

### **MAJOR EVENT RESTORATION PLAN**

Clean up activities will begin with the activation of the Incident Command Center (ICC) which will be housed in the Campus Office, if available. If it is not functional then it will be moved to the Water Treatment Plant. The ICC will be led by the Riverwood Manager who will be the Incident Commander (IC) the RCA President and the RCDD Chairman will work alongside the Incident Commander.

Pre-disaster planning will have included contracts with Brightview/All Florida, or both, who upon contact from the Manager, will immediately begin community wide clean up. All clean-up work will be performed in a manner that complies with the requirements of the Federal Emergency Management Association (FEMA, or its successor or assigns), to support reimbursement applications. This FEMA compliant work will be done in order to: (i) preserve RCDD owned infrastructure and (ii) to allow emergency vehicles unimpeded access to infrastructure and all residences throughout the Community.

Upon the completion of the FEMA documentation, the debris will immediately be removed and staged on the RCDD property where it will be broken down into small units and trucked out of the Community by Charlotte County.

The RCDD will pay the cost of debris removal relating to the FEMA application work. All other costs relating to disaster remediation shall be shared equally between the RCDD and the RCA. Should the FEMA reimbursement application be denied, in whole or in part, the amount not reimbursed to the RCDD, shall be shared equally between the RCDD and the RCA.

### **ALL RIVERWOOD NEIGHBORHOODS**

The first priority of recovery is to clear roadways and utility facilities in order to permit emergency vehicles and utility services to access vital areas. Once the IC determines that this has been substantially accomplished neighborhood presidents and property managers will be notified that they may begin their individual lot/ neighborhood clean-up and repair. It is the sole responsibility of the individual owners to properly remove storm debris (i.e. fallen trees tree limbs and related landscaping materials; also including building materials (“Storm Debris”) from their lots. Most storm recovery vendors in the area have call lists for pre-emergency registration. This gives priority to owners who take advantage of this service. It is recommended that owners call before an event occurs to be placed on these lists.

All vendors must be licensed contractors in Florida and provide proof of insurance and a valid driver's license to be allowed entry.

The Gate House will be instructed not to allow any clean-up vendors, other than Brightview and All Florida into the Community until the IC declares substantial removal of debris from roadways and utility services.

### **UNINCORPORATED AND SELF MAINTAINED NEIGHBORHOODS**

In any clean-ups, residents of unincorporated and self-maintained neighborhood, and the neighborhood presidents, will be notified when clean-up vendors are allowed to enter the Community. However, no vendors will be allowed to enter unless the Gate House has been notified. Owners and unincorporated neighborhood presidents will be instructed to place all debris on the grass or the sidewalk adjacent to their homes to be picked up by their recovery vendors. Owners and unincorporated neighborhood presidents will be instructed to ensure that Storm Debris is not placed in roadways. Such Storm Debris is to be removed from the Community by their recovery vendors, at the neighborhood or owner's expense.

### **INCORPORATED NEIGHBORHOODS**

In any clean-up, the president or property manager of the incorporated neighborhoods will be instructed to contact their landscape vendors to arrange for Storm Debris removal at their cost. No vendors will be allowed to enter until they are advised that entry is permitted. They will also be instructed not to place Storm Debris in roadways. However, no vendors, including incorporated neighborhood vendors, will be allowed to enter unless the Gate House has been notified to allow their entry.

### **GUARD HOUSE**

The Guard House Supervisor will be instructed not to allow any vendors access to the Community which have not been authorized by owners. Vendors will not be allowed into the Community until the IC declares that the roadway debris has been removed to the extent that it is now safe to allow clean-up vendors access. All vendors must be licensed contractors in Florida and provide proof of insurance and a valid Florida driver's license.

Vendors will be given a written notice not to solicit business while in the Community and will be told that if that occurs, they will be prohibited from returning. Such notice will also make clear to vendors that it is their sole responsibility to remove all debris that they handle from the Community.

### **PAYMENT OF RECOVERY EXPENSES**

Upon substantial completion of the recovery and restoration work, a determination will be made by the RCA Board and the RCDD Supervisors regarding the need to pursue a special assessment pursuant to the RCA Declaration to pay for the costs of the clean-up. A special assessment will only be sought if recovery related reserves and FEMA funds are insufficient to cover all costs.

The deficiency, if there is one, will be divided equally between the RCA and the RCDD. If a State of Emergency by the State of Florida or Charlotte County, has been declared, the RCA Board is permitted by law to adopt a special assessment by majority vote. The RCDD will recover its deficiency by the imposition of an additional ad valorem tax.

Owners should be aware that most homeowners' insurance policies include coverage for what is referred to as a Loss Assessment Clause. This coverage will be listed on the Declaration Sheet of your policy. It is intended to cover, among other things, special assessments made by HOAs for uninsured events. Check with your insurance agent for more details.

**6B**

## Riverwood West End (Administration) Parking Lot

Supervisor Bob Sims

Riverwood Community Development District

## Executive Summary

This report addresses the existing condition of one of two parking areas on the Riverwood Activity Campus identified for milling and resurfacing. Of concern is the west end parking lot. The parking lot services the Administration Building, Activity Building and two sports facilities. The asphalt lot, regarding vehicular traffic, is a high-volume area and is the older of the two parking lots. This report is based on a visual examination of the storm water gutters and drainage systems, concrete curbs, fences, electrical outlets, and the condition of the 30-year-old asphalt road.

I examined the parking lot on June 1, 2025, immediately following an average storm at the beginning of the rainy season.

An overview of the findings is as follows:

1. Storm water gutter and drainage system are partially blocked.
2. Concrete curbs are cracked and deteriorated.
3. Aging wooden fences are dry rotted, damaged and fragile.
4. Electrical safety issues exist on the parking lot island.
5. Asphalt is in poor condition.

This report addresses immediate restoration of the affected areas and proposes some new construction options. In the event excessive ground deterioration is discovered during the project, a Value Engineering (VE) Study will be necessary to address the design and repair of the drainage system.

The Administration Parking Lot Project is anticipated to begin this month with a completion date of October 30, 2025.

## OVERVIEW

The Riverwood West End Parking Lot Project encompasses 11,376 square yards of asphalt parking lot and its infrastructure. [Figure 1] This report describes the conditions of the parking lot, storm water gutters and drainage systems, concrete curbs, fences, and electrical outlets, as observed the day of a summer storm, and provides a preliminary outline for restoration and construction phases.

FIGURE 1

## Visual Observation

### DRAINAGE SYSTEM

A visual assessment of the west end parking lot was conducted immediately following the June 1<sup>st</sup> 2025 storm. The water drainage system located on both sides of the center island was partially blocked preventing water from reaching the storm drainpipe located at the north end of the parking lot island. The gutter and river rock between the north end and the center of the island appeared to drain properly to the north end (*see fig 2*).

FIGURE 2

The river rock between the center and south end of the island is restricted from flowing and

revealed an excessive amount of water remaining and pooling in the south end parking spaces and the golf cart area. (*see Fig. 3*) The remaining parking spaces were sufficiently drained. It could not be determined if the north end storm drainpipe is blocked.

FIGURE 3

## FENCING

The fences (*see Fig 4*) are aesthetically pleasing and prevent residents from walking over the grating. In addition, the fences maintain separation of the golf cart parking spaces from the vehicular parking spaces.

The white-washed wooden fences are dry-rotted, structurally deteriorating and in need of replacement.

FIGURE 4

## CONCRETE CURBS

Concrete curbs are cracked and broken at various locations in the parking lot (*see Fig 5*).

FIGURE 5

## ELECTRICAL

While inspecting the parking lot island, an exterior electrical outlet was observed without a weather proofing cover (*see Fig 6*). The Ground Fault Indicator (GFI) could not be found to test the outlet. This unprotected outlet and any other additional electrical issues should be immediately addressed by scheduling an

inspection and replacement by a licensed electrical contractor. Issues like this need to be resolved prior to the milling and resurfacing of the parking lot in the event a new electrical conduit needs to be installed.

FIGURE 6

## ASPHALT

The surface contains “alligator” and “block” cracking, edge cracking, and utility cut patching (*see Fig 7*). There are signs of depression in the wheel path noticeable after a rainfall (also known as rutting). Car stops appear to be in good condition. Roadway striping is cracked and faded.

FIGURE 7

## Findings & Recommendations

- **Storm water gutter and drainage systems are partially blocked and require clearing.**

**Recommendation:** From an economic perspective, RCDD may consider approaching Brightview to submit a proposal to remove the river rock, remove the drainage system grating, clean the open gutters and restore clean river rock over filter fabric and add new grating.

Should the drainage issue persist, the Board may consider a Value Engineering (VE) Study to help decide the best approach to resolving the drainage problem. A VE Study will gather information, utilize creative thinking, evaluate the results, develop a plan, then present the plan to the Board and implement the approved plan. The VE Study proposes an organized and systematic approach to providing all necessary functions at the lowest cost. The VE Study could reveal that redesigning and constructing a new drainage system is mandatory to overcome the flooding issue. The VE Study could be performed by **Velocity**.

- **Concrete curbs are cracked and deteriorated and need replacement.**

**Recommendation:** Hire a concrete contractor (RCDD has used DeClercq in the past).

- **Aging wooden fences need replacement.**

**Recommendation:** obtain a proposal from a third-party contractor to remove existing fences and replace them with a new fence on both sides of the parking island to maintain separation between golf carts and automobiles. The fences will also serve to block passage of golf cart and pedestrian traffic over the new drainage grates.

- **Electrical safety issues exist on the parking lot island.**

**Recommendation:** Hire a licensed electrician to complete an assessment and make repairs.

- **Asphalt is in poor condition requiring milling, resurfacing, and striping.**

**Recommendation:** the RCDD should consider hiring **Velocity Engineering Services** to prepare the RFP to obtain bids from roadway contractors. Note: In 2024, Velocity Engineering Services prepared RFPs for several RCA roadwork projects and the RCA Board was satisfied with Velocity's work product.

### Other thoughts...

The RFP should be an itemized roadway proposal that separates the **Riverwood West End Parking Lot Project** from the **Fairway Lakes Neighborhood Project** roadway proposal currently under consideration by the RCDD. Combining the two roadway resurfacing projects would save on contractor mobilization costs.

Possibly the **Re-striping Project** (Riverwood and Club Drive, and Willow Bend RD.) could be rescheduled to coincide with the **Riverwood West End Parking Lot Project**.

**The goal, including float-time (*dash lines*), is to complete the Riverwood West End Parking Lot Project before October 30, 2025.**

Anticipated Schedule			
Item	SOW	Contractor	Duration*
1	Remove, clean, and restore drainage gutter system	Brightview	2-months
2	Concrete curb repairs	DeClercq	1-month
3	Electrical repairs	TBD	3-weeks
4	Remove and replace fences	TBD	1-month
5	Mill & Resurface Asphalt, car stops & striping	PMI	2-months
6	Fairway Lakes Mill & Resurface ( <i>optional</i> )	PMI	1-month

- Duration includes bids, awards, and construction.

Estimated Schedule and Float-time					
Item	JUNE	JULY	AUGUST	SEPTEMBER	OCTOBER
1					
2					
3					
4					
5					
6					

**Recommend that items 1-4 should be completed before commencing items 5 and 6.**

*Note:* It is recommended that Items 1 through 4 be complete before the start of the asphalt installation.

**6C**

## Section 4 RIVERWOOD CAMPUS RULES

**Section 4.1 General.** This section sets forth the rules and fees for the use of the Riverwood Campus facilities.

**Section 4.2 Definition of Terms.** These Definitions apply to Section 4 through Section 8 of this document.

- A. **Adult** is a person who is 18 years of age or older.
- B. **Facilities** shall include all RCDD-owned buildings, outdoor sports facilities, pool area, courtyards, Dog Park, equipment, parking lots, fishing lake, RV storage area, and RCDD common areas.
- C. **Homeowner** is a person or entity owning a residential property within Riverwood
- D. **House Guest** is a person staying with the Resident overnight, and registered as described in Section 4.7 herein.
- E. **Host** is a Resident or Lessee, who invites a person to use the Facilities.
- F. **Household Members** are persons residing at a residential property with a Homeowner or Lessee.
- G. **Lessee** is a person who is formally, in writing leasing Riverwood residential property from the owner of that property and is registered with the RCA management office. **Long Term Lessee** is a person who leases a home within Riverwood with a lease term of **three (3)** consecutive months or more. **Short Term Lessee** is a person who leases a home within Riverwood with a lease term of less than **three (3)** consecutive months.
- H. **Non-Resident Full Fee Payer** is a Non-Resident who desires to use all of the Facilities and pays the full user fee(s). This category is limited to a total of 20 persons.
- I. **Non-Resident Limited Fee Payer** is a Non-Resident who desires to use the **Sports Facilities (Tennis, Pickleball, Croquet or Bocce)** and pays the limited user fee(s). This Category **includes** Existing Non-Resident Limited Fee Payers as of October 19, 2021.
- J. **RCA** shall mean the Riverwood Community Association.
- K. **RCDD** shall mean the Riverwood Community Development District.
- L. **Resident** is a Riverwood Homeowner, Lessee or Household Member.
- M. **Riverwood Access Control Identification Badge** (or ID Badge) is Identification issued to Resident or Non-Resident Limited or Full Fee Payer. ID Badges contain a chip that allows access to the Pool and Fitness Center as well as other areas designated by the RCDD Board. Photo ID Badges are issued to Homeowners and Long-Term Lessees and their Household members. Temporary ID Badges are issued to Short Term Lessees for a fee.
- N. **Riverwood Campus** shall mean all buildings, sports courts, dog park, pool, canopy areas, and parking lots owned by the RCDD at Riverwood Drive and Willow Bend.
- O. **Staff** shall be the entity or individuals as may be designated by the RCDD and/or RCA Boards to manage and operate the Facilities (either Employees or Management Services Company).
- P. **Team** is a group of individuals who have organized together to play a sport (such as tennis, **pickleball**, croquet or bocce ball) or some other activity (such as bridge, or chess).
- Q. **Vendor** is a business that provides services within Riverwood.
- R. **Visitor** is a guest of a Homeowner who is not staying overnight. **Frequent Visitor** is a person who visits a Homeowner or Long-term Lessee on a regular basis and has been designated by the Homeowner or Long-term Lessee through the process provided in Section 7.4. Frequent Visitors shall not include Vendors.
- S. **Access Device Form** – the application form for a Vehicle Access Device is available on the Riverwood Website, Riverwoodcdd.org or through the Golf Club. **Frequent Visitor Access Form** – Use the GateHouse Portal (<https://riverwood.gatehouseportal.com/>) or the GateHouse App. **Vendor Access Form** - Use the GateHouse software or the GateHouse App.

**Section 4.3 Rights and Privileges.** The rights and privileges granted herein are subject to the Rules of the RCDD. All Persons utilizing the Facilities shall comply with all RCDD Rules. Failure to do so may result in loss of the right and privilege to use the Facilities.

**Section 4.4 Residents Use of Facilities.** Residents shall have the right to use the Facilities. Residents may invite House Guests and Visitors to use the Facilities subject to the provisions contained in these Rules. Residents are responsible for Household Members, House Guests and Visitors while they are using the Facilities.

**Section 4.5 Registered Lessees.** Prior to a Lessee taking possession of a Homeowner's property and using the Facilities, the Homeowner must complete an RCA Lease Notification Form and pay the lease processing fee. The Homeowner shall provide the Lessee with the RCDD Rules, RCA covenants and RCA policies. The Homeowner shall not have the right to use the Facilities during a Lessee's occupancy of the Homeowner's property. Lessee's rights and privileges are not transferable. The Homeowner can obtain a Riverwood Access Control ID Badge for use by the Lessee. The card will be operational during the Lease Period. The card may be reactivated at no charge for future lessees. Lessee Access Control ID Badges will be charged according to Appendix B.

**Section 4.6 Non-Resident Users.**

- A. **Non-Resident Full Fee Payer.** A non-resident who desires to use the Campus Facilities may do so upon payment of the annual fee, as set forth herein. Non-Resident Full Fee Payers are allowed full use of the Riverwood Facilities with the exception of the Beach Club and RV Parking Area. Non-Resident Full Fee Payers are not allowed to bring Visitors onto the Riverwood Campus Facilities.
- B. **Non-Resident Limited Fee Payer.** A non-resident who desires to use any of the Sports Amenities (Tennis, Pickleball, Croquet or Bocce) may do so upon payment of the annual fee. The non-resident fee payer can access the designated sports facility, restrooms, parking lot, in addition to attending meetings and amenity sports events. The total of non-resident limited fee payers should not exceed twenty (20) for all sports amenities and only if the sports amenity has sufficient space available. If a non-resident wishes to participate in more than one sport they will be required to obtain a Full membership.
- C. **Non-Resident Full Fee Payer and Non-Resident Limited Fee Payer member totals should not exceed 20 people.**
- D. **The RCA has the authority to terminate Non-Resident Full Fee Payer or Non-Resident Limited Fee Payer membership.**
- E. See Appendix B for current rates for this category.

**Section 4.7 House Guests and Visitors.**

- A. Residents may register House Guests staying overnight in a Riverwood residence for use of the Campus Facilities with Access Control using the GateHouse Application or by phone. For the duration of the stay, House Guests are allowed to use the Facilities without being accompanied by the Host.
- B. **A Resident can invite a Visitor to the Riverwood Campus Facilities. However, for sports amenities it should be kept to a minimum and should only be during non-primetime sport resident usage. A visitor should always be accompanied by a resident. Sports League play is excluded from this rule.**
- C. Visitors may not attend Riverwood Classes, Events, or Games. House Guests may attend Riverwood Classes, Events, or Games, but Residents will have priority.

**Section 4.8 Riverwood Teams.** Only Riverwood Residents, Non-Resident Full Fee Payers and Limited Fee Payers may participate on Riverwood Teams. The RCA will monitor sports amenity teams to ensure that the particular facility is not overcrowded and Residents are not unduly deprived of the use of the specific facility.

**A. Scheduling-Process.**

To reserve a Facility, a Usage Request Form must be completed by a Resident or Non-Resident Full Fee Payer and submitted to the RCDD and RCA Staff who will schedule as appropriate.

**B. Campus Facilities**

1. Tennis, Pickleball, Bocce, Croquet the Fitness Center, the Library, the Arts and Crafts Room, Swimming Pool, Spa, Patios, and the Dog Park shall be collectively referred to as the Campus Facilities.
2. Tennis, Pickleball, Bocce and Croquet (Future)
  - a. Scheduling. Scheduling courts can be accomplished by accessing the *Reserve My Court* website. ([www.reservemycourt.com](http://www.reservemycourt.com))
3. Bocce. Soft soled shoes are required at all times. All equipment must be returned to storage after play.
4. Croquet. Courts may be reserved with the RCA Staff. Soft-soled shoes or sneakers are required at all times. Players must set up the court prior to play and the last scheduled players must break it down and store the equipment after completing play.
5. Fitness Center.
  - a. All fitness equipment is used at the users' own risk. Soft-soled athletic shoes are required. Food and beverages (other than water in a plastic container) are not permitted in the Fitness Center.
  - b. Users must bring their own towel(s).
  - c. Equipment should be cleaned after use with the provided wipes or paper towels and cleaner. All mobile equipment and free weights should be returned to their original position, and fans and television turned off after use. Equipment may not be removed from the Fitness Center at any time. Due to ADA requirements fitness equipment cannot be moved within the Fitness Center.
  - d. Maximum time on fitness equipment is 30 minutes if others are waiting.
  - e. Riverwood ID Badges are required for entry to the Fitness Center and must be produced when requested by RCA or RCDD Staff.
6. Library and Technology
  - a. Library. Book and puzzle check outs are on an honor system. Newspapers and/or magazines are not to be removed from the library.
  - b. Technology. An unsecured Wi-Fi connection is available at the Campus Facilities. Excessive and/or illegal downloads are not allowed.
  - c. No food or drink other than water is allowed in the Library.

**6.6 Enforcement.** The provisions of this Section 6 may be enforced in accordance with procedures described in Section 4.20.

## **Section 7 – Vehicle Access and Campus Access ID Badges**

**Section 7.1 General.** As a convenience to the community, it is the policy of Riverwood to grant electronic access device access to Homeowners and their Household Members, Long Term Lessees, Non-Resident Fee Payers, Non-Resident Golf Club Members, and RCA/RCDD/Golf Club Staff.

All other House Guests, Visitors, Frequent Visitors, Short term Lessees, and Vendors will receive a paper pass with an expiration date. The GateHouse software system, including the GateHouse App, is available on the RCA website for Homeowners to register their visitors. The access control supervisor may be reached at (941) 764-6822.

This section sets forth the rules and fees for vehicle access to Riverwood, and is intended to supplement the provisions of Section 4.

**Section 7.2 Definitions.** See Section 4.2 for Definitions.

**Section 7.3 Vehicle Access Devices** Vehicle Access Device holders will have automated entry access through all Riverwood gates. A maximum of five (5) access devices will be issued per residential household. If a household needs more than five (5) access devices, the Homeowner or Long-term Lessee may petition the RCDD for approval of additional access devices based upon a demonstration of mitigating circumstances.

The petition shall be heard by the Safety and Access Control Committee, who will make a recommendation to the RCDD Board for final determination. Access device installation times will be posted at the guard house and at the RCDD Office. Access devices shall not be transferred to any vehicle other than the one to which the access device was assigned and installed.

The following classifications are eligible to receive a vehicle access device:

- a. **Homeowners/Residents.** Homeowners, after registering with the RCA will provide the access control supervisor with their ownership status and provide a vehicle registration for each vehicle, they wish to have an access device installed. A Homeowner may obtain an access device for a commercial vehicle that is parked overnight at the Homeowner's property. The access control supervisor will validate information and install an access device on the vehicle(s).
- b. **Long-term Lessees/Residents.** The Homeowner must register the Long-term Lessees with the RCA. The Long-term Lessee, after registering with the RCA, will obtain an access device from the access control supervisor for each vehicle. The Long-term Lessee will provide the supervisor with a vehicle registration for each vehicle. The Long-term Lessee must provide the current lease including lease duration dates. The access control supervisor will validate information and install an access device on vehicle. The access device will be deactivated on the day after the expiration date of the lease.

**Non-Resident Full Fee Members and 12-Month Golf Club Members.** Non- resident Full Fee Members, **Non-Resident Limited Fee payer** and 12 Month Golf Club Members are eligible for a vehicle access device during the term of their membership. Golf Club management and the

RCA/RCDD management will provide the access control supervisor with a current list of their non-resident members **and golf memberships** including the current dates of their membership. The access control supervisor

## APPENDIX B CAMPUS FEE SCHEDULE

### A. Non-Resident User Fees (Non-Refundable).

1. User fees are due no later than January 1 of each year, cover the period January 1 through December 31, shall not be prorated for less than the full year, and once paid, shall not be refunded. However, proration may be permitted for new members, providing the prorate share of the current year fees and the following year fees are paid in a lump sum at the time of application.
2. Payers (Full & Limited) limited to **20 people.**
3. The following fees are currently in effect. Florida sales tax will be added to the amount:

#### **Full Fee Payers Effective**

#### **Annual**

Annual Fee/Self & one Household member

\$5,000

**Annual for Additional Household Members (each)**

\$ 500

**Recommended new fee will based on RCDD and RCA fees.  
Example RCDD current fee for Riverwood Development C & M  
is \$2036.55 and RCA fee \$1540 Total fee would be \$3576.55**

#### **Limited Fee Payers: Annual Fee**

Annual Fee/Self

\$ 850

Annual Fee/Self & one Household member

\$1,200

<b>Recommended NEW ANNUAL FEE</b>	<b>SELF</b>	<b>\$ 750</b>
<b>SELF &amp; ADDITIONAL</b>	<b>HOUSEHOLD MEMBER</b>	<b>\$1,000</b>

### B. Facility Fees (Non-Refundable) Sales tax will be added.

CDD Rental Fees are as follows:

Activity Center – one third of building: \$75

Activity Center – entire building \$200

Canopy Area: \$50

Tiki Bar Area: \$25

Refundable Damage/Cleaning Deposit: \$250 per event

### C. Replacement Riverwood Campus Access ID Badge (non-refundable)

(Sales tax will be added)

#### **Annual**

Replacement ID Badge Fee

\$25

Unreturned Rental Unit ID Badge Fee  
Car Access Control Device  
Control Device for all  
Non-owners

\$25 Unreturned Rental  
\$25 Vehicle Access

## DISASTER LAW AND CONSULTING, LLC

---

### **CONTRACT FOR DISASTER RECOVERY SERVICES AND FEMA APPEALS**

THIS CONTRACT FOR DISASTER RECOVERY SERVICES AND FEMA APPEALS (“Contract”) is entered into as of the last date found below by and between Disaster Law and Consulting, LLC, (“**CONTRACTOR**”), and the Riverwood Community Development District of Port Charlotte, Florida (“**RCDD**”). The terms and conditions of this Contract are as follows:

1. **Contract Purpose:** CONTRACTOR will assist RCDD with their recovery from declared federal disasters, including the filing and processing of appeals with the Federal Emergency Management Agency (FEMA). Such services will include working with FEMA and the State of Florida to process all of RCDD’s damage claims resulting from Hurricane Ian as efficiently and expeditiously as possible. As requested, CONTRACTOR will also assist RCDD with any disaster planning or any other matters relating to emergency management, as specifically directed by the RCDD.
2. **Role of Contractor:** CONTRACTOR agrees to provide the services as detailed and itemized below. CONTRACTOR will begin work immediately upon execution of this Contract or as directed by the RCDD.
  - A. CONTRACTOR’s primary role is to take whatever steps are necessary to assist RCDD with the recovery of funds spent as a result of the damage caused by Hurricane Ian, which has been declared as a major disaster and is known as DR-4673-FL. These steps shall include assistance with the filing of an initial Request for Public Assistance, participation in FEMA meetings, and the submission of documentation to FEMA for reimbursement of costs. All actions taken by CONTRACTOR shall only be completed at the direction and approval of RCDD.
  - B. CONTRACTOR shall provide all the services necessary for RCDD to develop, process, and administer their projects relating to damage resulting from Hurricane Ian, including working with both FEMA and the Florida Division of Emergency Management.
  - C. CONTRACTOR will assist with the administration of the Public Assistance program for RCDD and ensure that RCDD meets all financial, administrative, bookkeeping, and monitoring requirements established by the federal grants.
  - D. CONTRACTOR will collaborate with RCDD’s administration and other applicable persons/groups as necessary to complete the activities required to successfully process

RCDD's damage claims through FEMA's Public Assistance program.

- E. CONTRACTOR** will maintain accounts and records, including personnel, property, and financial records, adequate to identify and account for all costs pertaining to the Contract and such other records as may be deemed necessary by RCDD to ensure proper accounting for all project funds. These records shall be made available to RCDD or any authorized representative and shall be retained for five (5) years after the expiration of this Contract unless permission to destroy them is granted by RCDD.
- F. CONTRACTOR** will identify, draft, develop, and submit, all FEMA Public Assistance appeals as necessary and appropriate and as directed by RCDD. CONTRACTOR will provide all necessary assistance to RCDD to bring each appeal to a conclusion.
- G. CONTRACTOR** will provide monthly invoices to RCDD. CONTRACTOR will use standard accounting procedures in calculating such costs and shall make its books relating to this Contract available for inspection by representatives of RCDD at any time upon request.
- 3. Term of Contract:** The term of this Contract shall extend from the date of final execution below, to October 31, 2024, and the term may be extended in yearly increments by mutual written agreement of the parties. The Contract may be terminated by either party for convenience at any time with 10-day notice.
- 4. Compensation:** It is agreed that RCDD will contract with CONTRACTOR for services at the rate of \$250 per hour. We may retain other contractors to work on RCDD projects [with your explicit permission] and their rates will vary. We will provide RCDD with a monthly invoice that is to be paid within 30 days of receipt.
- 5. Independent Contractor:** CONTRACTOR specifically acknowledges that it is not an employee or agent of RCDD but rather is an independent contractor in all respects and for all purposes.
- 6. Notice and Contact:** The name and contact information of CONTRACTOR's Contract Manager is:

Tony Ettore  
 3122 Mahan Drive  
 Suite 801-224  
 Tallahassee, Florida 32308  
[tony@dlc-law.org](mailto:tony@dlc-law.org)  
 850-445-2306

The name and contact information of RCDD's Contract Manager is:

John Mercer / Justin Faircloth

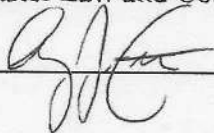

4250 Riverwood Drive  
Port Charlotte, FL 33953

---

7. **Modification:** Modifications to this Contract shall only be valid if reduced to writing and duly signed by each of the parties. Any such modifications shall be attached to the original Contract.
8. **Counterparts:** This Contract may be executed in counterparts any one of which may be taken as an original.
9. **Governing Law:** This Contract shall be governed by and enforced in accordance with the laws of the State of Florida without giving effect to the conflict of law principles thereof. Venue shall be proper for any disputes pursuant to this Contract in Charlotte County, Florida. The parties specifically waive their right to a jury trial in any action brought to enforce the terms of this Contract.

**IN WITNESS WHEREOF**, the parties hereto have caused this Contract for Disaster Recovery Services and FEMA Appeals to be executed by their undersigned officials as duly authorized.

## **RIVERWOOD COMMUNITY DEVELOPMENT DISTRICT CONTRACTOR ADDENDUM**

This Addendum shall apply to all contracts entered into by the Riverwood Community Development District (the “District”) with persons or entities (the “Contractor”) providing services to the District. The provisions of this Addendum shall prevail over any terms contained in a contract with Contractor.

### **INSURANCE**

- A. Before performing any work, Contractor shall procure and maintain, during the life of the Agreement, unless otherwise specified, the insurance listed below.
  - (1) Workers’ Compensation coverage, Workers' Compensation insurance on behalf of all employees who are to provide a service under this Contract, as required under applicable Florida Statutes AND Employer's Liability with limits of not less than \$100,000.00 per employee per accident, \$500,000.00 disease aggregate, and \$100,000.00 per employee per disease.
  - (2) Commercial General Liability “occurrence” coverage in the minimum amount of \$1,000,000 combined single limit bodily injury and property damage each occurrence and \$3,000,000 aggregate, including personal injury, broad form property damage, products/completed operations, broad form blanket contractual and \$100,000 fire legal liability.
  - (3) Automobile Liability Insurance for bodily injuries in limits of not less than \$1,000,000 combined single limit bodily injury and for property damage, providing coverage for any accident arising out of or resulting from the operation, maintenance, or use by Contractor of any owned, non-owned, or hired automobiles, trailers, or other equipment required to be licensed. Said insurance shall also to include insured/underinsured motorist’s coverage in the minimum amount of \$100,000 when there are owned vehicles.
- B. District, its staff, consultants, agents and supervisors shall be named as an additional insured on all policies required (excluding worker’s compensation). Contractor shall furnish District with the Certificate of Insurance evidencing compliance with this requirement. No certificate shall be acceptable to District unless it provides that any change or termination within the policy periods of the insurance coverage, as certified, shall not be effective within thirty (30) days of prior written notice to District. The policies of insurance shall be primary and written on forms acceptable to the District and the insurance coverage shall be from a reputable insurance carrier acceptable to District, who licensed to conduct business in the State of Florida, and such carrier shall have a Best’s Insurance Reports rating of at least A-VII.
- C. If Contractor fails to have secured and maintained the required insurance, District has the right (without any obligation to do so, however), to secure such required insurance

in which event, Contractor shall pay the cost for that required insurance and shall furnish, upon demand, all information that may be required in connection with District's obtaining the required insurance.

### INDEMNIFICATION

Contractor does hereby indemnify and hold harmless Owner, its officers, agents, and employees, and the Riverwood Community Association, Inc, and its officers agents and employees, from liabilities, damages, losses and costs, including but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness or intentional wrongful misconduct of Contractor and persons or entities employed or utilized by Contractor in the performance of this Contract.

In any and all claims against Owner or any of its agents, officers or employees, or against the Riverwood Community Association, Inc., or any of its agents, officers or employees, by Contractor, any employee of Contractor, any subcontractor, anyone directly or indirectly employed by any of the them, or anyone for whose acts any of them may be liable, the indemnification obligation under the previous paragraph shall not be limited in any way as to the amount or type of damages, compensation or benefits payable by or for Contractor or any subcontractor under workers' compensation acts, disability benefit acts, or other employee benefit acts.

### PUBLIC RECORDS

To the extent applicable, Contractor shall comply with the requirements of Florida's Public Records laws, specifically including the following:

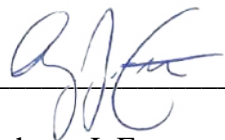

- A. Contractor shall keep and maintain public records that ordinarily and necessarily would be required to perform the services described in this Agreement.
- B. Contractor shall provide the public with access to public records on the same terms and conditions as specified in the District's lawfully enacted Rules and policies, or as otherwise provided by law, and at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.
- C. Contractor shall ensure that public records which are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.
- D. Contractor shall meet all requirements for retaining public records, and shall, upon termination of the Agreement, transfer at no cost to the District all public records in the possession of the Contractor and destroy any duplicate records that are exempt or confidential and exempt from public records disclosure requirements.
- E. All records stored electronically shall be provided by Contractor to the District in a format that is compatible with the District's information technology systems.

IF CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTRACTOR SHOULD CONTACT THE CUSTODIAN OF PUBLIC RECORDS, SANDRA DEMARCO, AT (954) 753-5841 EXT 40532; 210 NORTH UNIVERSITY DRIVE, SUITE 702, CAPE CORAL, FLORIDA 33071; Sandra.Demarco@inframark.com.

E-VERIFY

Section 448.09, Florida Statutes, makes it unlawful for any person to knowingly employ, hire, recruit, or refer, for private or public employment, an alien who is not duly authorized to work in the United States. Section 448.095, Florida Statutes, prohibits public employers, contractors, and subcontractors from entering into a contract unless each party to the contract registers and uses E-Verify. The Contractor hereby represents that it is in compliance with the requirements of Sections 448.09 and 448.095, Florida Statutes. The Contractor further represents that it will remain in compliance with the requirements of Sections 448.09 and 448.095, Florida Statutes, during the term of this contract. The Contractor hereby warrants that it has not had a contract terminated by a public employer for violating Section 448.095, Florida Statutes, within the year preceding the effective date of this contract. If the Contractor has a contract terminated by a public employer for any such violation during the term of this contract, it shall provide immediate notice thereof to the District.

# RIVERWOOD CDD

May Monthly Client Report

June 17th, 2025

*Florida Utility Solutions, Inc*

## Summary

Operations at the facilities throughout the month were in accordance with contract and regulatory requirements.

## Items Requiring Approval

We would ask your consideration and approval of the following:

Request	Impact	Est. Cost

## Operations

- **Compliance**

All Wastewater Plant requirements were met.

All Water distribution requirements were met.

- **Reuse Pump Station Status:**

Reuse pump system has worked as intended.

- **Performance metrics:**

### Wastewater Treatment Plant

- 6.225 million gals of wastewater received in May

### Water Treatment

- 4.260 million gals of water metered at Riseley Ave between 4/22/25-5/22/25
- 4.233 million gals of water billed from CCU between 4/22/25-5/22/25
- 293 thousand gals of water metered at Proude St. between 4/22/25-5/22/25
- 304 thousand gals of water billed from CCU between 4/22/25-5/22/25

### Reuse

- Received from Charlotte County Utilities- 33.667 MG of reuse
- 5.973 million gals of reuse produced by Riverwood discharged into the pond
- Irrigation pump station pumped 34.882 MG gallons

<b>Performance Metrics</b>	<b>Current Month May 2025</b>	<b>Prior Month April 2025</b>	<b>Prior Year May 2024</b>
Wastewater treated	6,225,000	6,039,000	2,834,000
Sludge produced and disposed	0	54,000	48,000
Reclaimed Water Produced (irrigation)	34,882,000	19,300,000	33,236,000
Number of line breaks	0	0	0
Hydrants flushed	8	8	21
Valves Exercised	7	7	12
Meters Read	1,134	1,134	1,134
<b>Consumables</b>	<b>Current Month</b>	<b>Prior Month</b>	<b>Prior Year</b>
Chlorine Usage - WWTP	2,146	2,051	2,617
Chlorine Usage – Irrigation	0	280	427

## Maintenance and Repair

- Installation of conveyor system complete (permit requirement)
- Replaced crushed valve boxes
- Performed pressure checks at homes and flows at fire hydrants
- Installed meter and sewer connection for new construction home
- Install macerator pump to pump liquid from dumpster back into the plant
- Fixed low pressure issue for homeowners
- Jetted 6" clogged sewer lateral
- Completed remediation work to homeowner's satisfaction in Vizcaya

### Preventive Maintenance

- Inspected all pump stations weekly
- Flushed water at sample locations
- Odor control weekly checks performed
- Plant generator inspections completed
- Greased all pumps and motors

### Water Meters –

- Meters raised – 0
- Meters to be raised – 0
- Zero Usage Total- NA

## Health & Safety

- Zero LTIs and OSHA recordable incidents occurred during the month
- Safety training includes daily tailgate talks concerning daily events –confined space, lightning safety, seatbelts, housekeeping, and other safety related concerns

## Personnel

- Mitch Gilbert – Florida Utility Solutions - Manager
- Taran Brown Jr., Marcos Benavidez– certified operators
- Florida Utility Solutions rotates service technician weekly at Riverwood
- Alana Faircloth & Maribeth Richards – compliance and clerical/administrative
- Matt Gillispie-Utility Manager

## Community Involvement

- Visitors to the project/client
  - Mitch Gilbert – weekly
