

Why students choose CAOLA

"Taking classes online allows me to work whenever I please and I am able to take courses that either are not offered at my school or I have been unable to take due to scheduling problems."

"Classes through CAOLA offer more courses than are available traditionally at our school. Also, it is a good way to allow for more classes in a marking period so as to accumulate more credits."

"I have flexibility with my schedule; I can travel but still have a way to maintain my school work."

"As a student I really enjoyed working on CAOLA courses. I was able to recover 2.75 credits in 3 different subjects. I'm so glad to be graduating. Thanks, credit recovery!"

"I have suffered with migraines for my entire life. CAOLA allows me to take off when I am suffering from a bad migraine and work mornings, afternoons, evenings and weekends when I am feeling good. Overall it has been a such a wonderful experience and I am so glad I have this option!"

CAOLA
Stay the Course

A Revolution in Online Education

Stay the Course

Stay in your own school district and learn from home!

CAOLA is a revolutionary program that offers a ton of benefits to K-12 students. First, you will stay enrolled in your local school district. You'll earn a diploma from your high school and can participate in school-sponsored and athletic activities. All while learning from home.

CAOLA uses learning programs designed to be fun and engaging. You can select from a broad range of more than 400 courses and electives designed around your academic interests. Courses that lead

to high-demand, high-paying careers such as Robotics, Health Science and Business Management. You can even earn industry certifications before graduation, offering you the first step in your career choice. Everything is focused on your success during and after school.

CAOLA offers flexible learning options to fit your needs. Learn at the right pace for you, at the time and place that you choose.

Be part of the Revolution!

Learn in New Ways

- Multimedia mix of streaming videos
- Podcasts, text and voice discussion forums
- Interactive gaming environments
- Project-based learning
- On-demand synchronous tutoring
- Career and technical education

Do you think that online classes are just text and questions on a computer screen? **Not CAOLA courses!** You'll be fully engaged by our expertly designed courses that address multiple learning styles. Students in K-12 learn through a mix of streaming videos, activities, podcasts, text and voice discussion forums, blog writing, web exploration and research, an interactive gaming environment, custom textbooks, on-demand tutoring and more.

CAOLA offers the ultimate in flexibility

You can learn by taking all your classes online... or just a few. Students can take any traditional classes during the school day and supplement their schedule with additional online courses. We offer over 400 courses to enrich,

enhance and expand your learning while enjoying a blended traditional and online learning experience.

Academic Mentors

You're not alone in your learning journey. Your local school district will provide you with a mentor, who will develop a close relationship with your family so that you can work together to help you achieve success.

The support of your parents

CAOLA believes that parent/guardian communication and involvement is essential to your success in the online learning environment. A Parent Portal offers all parents/guardians immediate 24/7 access to your grades so they can help support your progress.

CAOLA is the Perfect Choice!

- Students with disabilities can be served in our online environment
- Flexible schedules for students with jobs, family obligations or children
- Learning for students with health issues or social challenges who may be missing a significant amount of time in the classroom

Options for Every Learner

- Full-time online curriculum and single course options
- On site or remote classes
- Unique STEM and foreign language courses
- Career electives that lead to industry certifications
- Credit recovery, summer school and advanced placement
- Option for half-day vocational or technical school students
