Face Covering Protocol for Students, Staff and Visitors 2020-2021 School Year

Revised to include DOH Guidance as of 8/17/20

The World Health Organization has declared the current outbreak of COVID-19 a global pandemic. On July 1, 2020, the PA Secretary of Health issued an Order requiring all individuals to wear a face covering when they leave their homes. On August 10, 2020, the Board of School Directors approved the Health and Safety Plan which included face covering for students. *The DOH is requiring students wear face covering at all times while in school, even when six feet of social distancing can be achieved.*

When worn properly, face covering helps reduce the spread of the coronavirus [COVID-19] by reducing droplet transmission between people. As a reminder, face coverings in conjunction with increased physical distancing, frequent hand washing, and our cleaning and disinfecting routines assists in mitigation of the spread of COVID-19.

Face covering means a covering of the nose and mouth that is secured to the head with ties, straps, or loops over the ears or is wrapped around the lower face. A face covering can be made of a variety of synthetic or natural fabrics, including cotton, silk, or linen, and, for the purposes of our Health and Safety Plan as well as the Governor's Order, face covering is mandatory.

Guidance

- Face coverings must be worn by all students, staff, contractors, and visitors (including parents and guardians), while on our property, including student drop-off and pickup.
- Face coverings may be removed to eat or drink during breaks and lunch periods; however, at those times, physical distancing should be practiced.
- Staff and students should remain mindful not to unnecessarily touch masks except for removal for meals and breaks.
- When masks are removed, they should be placed below the chin, in a pocket or on the lap. Masks should not be placed on tabletops or other communal surfaces.
- It is also recognized that some students and clients may be unable to wear masks for medical reasons. To offer the best service please provide written documentation to be marked in our records.
- In accordance with the Department of Health July 16, 2020 update:

- Children two years and older are required to wear a face covering unless they have a medical or mental health condition or disability, documented in accordance with Section 504 of the Rehabilitation Act or IDEA, that precludes the wearing of a face covering in school. Accommodations for such students should be made in partnership with the student's health care provider, school nurse, and IEP/504 team.
- Teach students and families how to properly wear a face covering (cover nose and mouth), to maintain hand hygiene when removing the face covering for meals and physical activity, how to replace and maintain (washing regularly) a cloth face covering.
- If a faculty member has a compromised situation at home, a sign will be posted outside the classroom, and masks are mandatory at all times in that classroom.

Message from the Principal

Dear Student and Parent(s):

Meadville Area Middle School (MAMS) is the bridge between Meadville's small, neighborhood elementary schools and the larger senior high school. We are committed to creating a student-centered environment based on high standards, expectations, and goals that nurtures each child's social, emotional, physical and academic development. Our dream is to create a close-knit partnership of home, school, community, and school board that challenges each of us to grow and that works together to guide, reinforce, and support our students as they lay a foundation for life-long learning. Our **Purpose** is to *discover what is possible*. To achieve our Purpose, we establish and maintain connections with each of **Our People**-Faculty & Staff, Students, Parents, Community, and School Board and work tirelessly to achieve **Success**, which we define as the *creation of a thriving learning community*. We know we are making progress in achieving Success when *Our People* voluntarily invest their time and energy in the MAMS community.

We encourage parents to:

- A.) Ask how things went at school.
- B.) Ask to look at homework.
- C.) Communicate often with teachers.

Best wishes for an exciting 2020-2021 school year.

Philosophy of Meadville Area Middle School

To help bridge the gap between the elementary and the secondary experience, Meadville Middle School provides a student-centered education based on high standards, expectations and goals. The focus is on each student's academic, social, emotional and physical growth. A close-knit partnership of home, school and community is essential to guide, reinforce and support students as they lay a foundation for lifelong learning. In order to help achieve this philosophy, the "Where Everyone Belongs" (WEB) program has been implemented to transition elementary Students to the Middle School and make them feel comfortable.

I. ATTENDANCE

Attendance & Extra-Curricular Activities

1. Pupils taking part in extra-curricular activities such as athletics, plays, musicals, and other school activities shall be in attendance at least half the day on the day on which the event is held. This also applies to practice. **PUPILS MUST BE IN ATTENDANCE BY 12:00 p.m. IN ORDER TO BE CONSIDERED PRESENT ONE HALF-DAY.** A half-day absence must be excused/legal in order to participate.
2. Exceptions may be made in the case of appointments when a prior excuse has been submitted and approved. Exceptions may also be made in the case of emergencies.
3. Under no circumstances may a student who has been absent for the day, unless prior approval of the absence has been granted (i.e. college visit, doctor's appointment), be allowed to practice or participate in any extra-curricular activity on the day of the absence.
4. If a student is absent 20 or more days in a semester, that student may not participate in a P.I.A.A. practice or event until that student is present 60 school days.

Attendance Procedures

The Board of Directors of Crawford Central School District requires that school aged pupils enrolled in the schools of this district attend school regularly in accordance with the laws of the

state. The educational program offered by this district is predicated upon the presence of the pupil and requires continuity of instruction and classroom participation.

The regular contact of pupils with one another in the classroom and participation in well-planned instructional activities under the supervision of competent teachers is vital to this purpose.

Meadville Area Middle School follows pupil accounting procedures established by the Pennsylvania Compulsory School Attendance Laws. Since good attendance and grades are highly correlated, Meadville Area Middle School attempts to build close contact with parents through the Attendance Office.

Students are reminded that attendance records become part of their permanent school record and can have beneficial or detrimental results depending upon the record established.

Class Tardiness

Students are considered tardy to class if they are not inside the room when the lights dim. In such cases, teachers are to assign a teacher detention. In cases of chronic tardiness, students will be referred to the office for stronger disciplinary action. Tardiness to class beyond ten (10) minutes will constitute a class cut. If a student is out of a class beyond ten (10) minutes and abuses the hall pass, it will be considered a cut.

Early Dismissal

Students may be excused from school for medical appointments, counseling sessions, etc. In such cases, appointments should be scheduled for the afternoon session when possible. A signed excuse from parents must be submitted to the attendance office prior to school on the day of the appointment.

Students who are attending an appointment in the morning are required to return to school as soon as possible for the remaining class sessions. All students MUST report back in at the office.

All early dismissals require signed excuses from PARENTS prior to the school day beginning. Students will NOT receive an excused absence for the following reasons:

1. Going out of town unless to a doctor's appointment. (Doctor's appointment card must accompany request to be excused).
2. Hair appointments.
3. Church for a short period of time when church services are held before and after school.
4. Personal reasons.
5. Babysitting.
6. Any other excuse which does not fall under school attendance guidelines.

Appointments WILL BE VERIFIED from time to time by calling the place of the appointment. Early dismissal excuses from parents need a doctor's name, phone number and parent signature before being accepted. Faxes are acceptable with a parent signature. Phone calls from parents may be directed to the administration for verification. The only other permissible early dismissal is reason of illness or injury. In such cases, the school nurse must

grant the excuse after contact with parents. Please refer to the section on Health Services for further guidelines concerning illness at school.

IN NO INSTANCE MAY A STUDENT EXCUSE HIM/HERSELF EARLY WITHOUT REPORTING TO THE HEALTH ROOM. Students that do not follow this procedure will face disciplinary action.

Legality of Absence

Attendance shall be required of all students enrolled in the schools during the days and hours that the school is in session, except that a principal or designee may excuse a student for temporary absences when she/he receives satisfactory evidence of such mental, physical, or other urgent conditions, which may reasonably cause the student's absence.

The Board considers the following conditions to constitute reasonable cause for absence from school:

- | | |
|----------------------------------|-----------------------------------|
| 1. Illness | 6. *Educational tour/trip* |
| 2. Death in the immediate family | 7. Quarantine |
| 3. Religious holidays | 8. Delay or absence of school bus |
| 4. Impassable roads | 9. Court appearance |
| 5. Emergency - "Urgent reasons" | 10. College visitation |

* Parents desiring to take their children on a vacation/educational trip must submit to the administration the destination of the trip and/or a description of the educational value. The request should be made at least **one week** prior to taking the trip. The proper form can be acquired at the attendance office.

NOTE: Unexcused refers to students over the age of seventeen (17); unlawful refers to students under the age of seventeen (17).

Unexcused and unlawful absences include:

1. Parental neglect - Parent knows of the absence (examples: unauthorized trips, baby-sitting, errands, housework, driver's test, oversleeping).
2. Illegal employment
3. Truancy - Absence without parental knowledge
4. Leaving school during school hours without school permission
5. Returning from school function late
6. Unexcused tardy

Acceptability of excuses will be determined by the school attendance officials. Notification of the school DOES NOT ensure that an excuse will be considered legal.

If a student is absent for other than the above reasons, he/she will be considered unexcused and unlawfully absent. The first time an unlawful absence occurs the parent will receive a first warning letter. A second warning letter will be sent to the parent after the second unlawful absence.

Any additional unlawful absences during the student's school career can result in parents being fined and referred under act 333 to child welfare authorities.

Students who are absent without parental knowledge and approval are considered TRUANT and will be assigned to Saturday detention.

As a general rule, all academic work lost during unexcused or unlawful absences may not be made up and is recorded as zero.

Make-Up Work After Absence

Students are required to make up all work missed during all LEGAL ABSENCES AND SUSPENSIONS. Work must be made up according to the following guidelines:

1. It is the responsibility of the student to make-up work or make arrangements to make-up, missed work upon the DAY OF RETURN TO SCHOOL.
2. **Make-up work must be completed within an equal number of days absent.**
3. A student who has been suspended will have two weeks to complete make-up work per board policy 233.
4. Under extenuating circumstances, the teacher and/or principal may extend the time in which work may be completed, but not the time for making arrangements to do so.
5. In the case of a student who has a one day absence on the day of a scheduled test or pre- assigned term paper or project, that student should expect to fulfill the obligation upon the DAY OF RETURN.
6. Students who have not made up required work at the end of a grading period will receive a grade of (I) incomplete. Failure to submit required make-up work within the two-week period will result in conversion of the incomplete grade to an "F."

Parent Sponsored Educational Tours and Trips

Students must follow the following guidelines to be eligible to leave school to attend an educational trip or tour:

- A. Present a written request from his/her parent or legal guardian indicating:
 - 1) The dates of absence.
 - 2) Educational merits of the proposed trip.
 - 3) The names of all adult chaperones.
- B. Acquire signatures from all subject teachers on the form provided by the attendance secretary. Teacher signatures indicate their knowledge and awareness of your impending absence.
- C. Return the signed form to the attendance secretary at the end of the school day.

This information is to be provided to the attendance secretary for administrative approval a minimum of **ONE WEEK** prior to the absence. Failure to get approval of the administration will render all missed days as unexcused absences. The principal shall have the authority to limit the number of days of excused absence for educational trips. Any UNAPPROVED trip will result

in unexcused absences and NO CLASS WORK WILL BE PERMITTED TO BE MADE UP. Family vacations and educational trips will be unexcused if students are on a medical notice at time of request.

The student is responsible for obtaining all assignments that were to be completed during the period of the trip. All work must be submitted to the teacher within an equal number of days absent.

NOTE: Trips will not be approved unless a parent or legal guardian accompanies the student for the entirety of the trip.

Procedure Regarding All Excused/Unexcused Absences

A parental excuse (excused absence) will be accepted for any day's absence to a total of ten (10) days absence throughout the school year. A doctor's excuse will be accepted for any absence during the year to prevent the accumulation of ten (10) parental excuses. The doctor's excuse must be given to the attendance secretary on the student's return to school and no later than three days thereafter.

Students who are absent from school for any reason are still responsible for meeting their course requirements. We understand that many absences are unavoidable, and some students fall behind due to attendance reasons. For this purpose, we have implemented the following procedure to help insure academic proficiency.

1. ***Ten Days Excused/Unexcused*** – Letter sent to parents stating the district will require a written medical excuse for each day's absence from that time until the end of the school year.

Requirement for Medical Excuses

Any pupil absent ten (10) or more days will be placed in the category of continued or repeated illness which may require the student to provide a medical excuse which will permit him/her to make up lost work.

Family vacations and educational trips will be considered unexcused if students are on medical notice at time of request. The administration reserves the right to make exceptions on a case-by-case basis.

The following is a copy of the policy as adopted by the Board of Directors:

The Crawford Central Board of School Directors believes that regular attendance in school is a necessary condition for a student to secure maximum benefit from the public-school programs being provided. It is hereby authorized that the school administration is empowered to require that a student provide a medical statement or excuse from a licensed practitioner of the healing arts for every absence from school, subsequent to that student having accumulated absences of ten (10) school sessions and/or ten (10) school days in any school term. Failure to provide the requested medical excuse may result in such absence being classified as unexcused and/or unlawful depending upon the age of the student.

For Homebound Instruction, the parent must secure a form from the Building Principal for the doctor to complete. The form must be returned to the Building Administrator in charge of attendance. Final approval is granted from the Director of Special Services.

Tardiness to School “A Little Late Is Too Late”
--

Tardiness to school is greatly discouraged due to its impact on the learning process and the fact that tardies become part of the permanent record. Students that are tardy **MUST** report directly to the guidance office for an admit slip. This must be accomplished regardless of the time that you arrive. Excuses are required and follow the guidelines of an absence. If a medical excuse is required for an absence, a medical excuse is required for a tardy to be considered excused.

Students that are habitually tardy will be subject to detention and possible suspension according to the following school policy.

1. 4 – 6 unexcused tardies – Lunch detention will be assigned for that day.
2. 7 – 10 unexcused tardies – Formal detention will be assigned.
3. 11 or more unexcused tardies – Letter sent home/parent notified by administration/ with stronger consequences possible (ex. Formal detention, Saturday detention, in-school suspension, suspension).

Students that arrive after 12:00 noon are considered to be absent for half of a day. Please refer to Legality of Absence (pages 7-8).

Teenage Pregnancy and Homebound Instruction
--

The Crawford Central School District encourages all pregnant teenagers and teenage parents to finish school and thus be better equipped as parents and responsible citizens. The legal requirements for these students are pertinent in the areas of attendance and use of Homebound Instruction.

The Public- School Code, Section 1327, requires compulsory attendance and Sections 1301 and 1302 grant all school district residents a right to free school privileges.

Becoming or being a parent does not in itself qualify a student for Homebound Instruction. A student should receive Homebound Instruction only when there is a serious illness or disability as certified by a physician. If a student has complications from the pregnancy or delivery, it is not unreasonable for the physician to certify the debilitating effects of attendance and recommend Homebound Instruction. The physician must certify in writing that school attendance would be physically harmful to the student before Homebound Instruction may be approved.

Regular procedures for reporting absence should be followed for absences due to childbirth.

What to Do When You Are Absent

Whenever a student is absent from school, his/her parents or guardians should call the school providing the student's name, grade and reason for absence. Students are not to report themselves

as absent nor should friends, neighbors, brothers, and sisters, etc., make such calls. Calls should be placed to the attendance secretary at 333-1188 any time before 9:00 a.m.

When the student returns to school, they must present a written excuse from home on the DAY OF RETURN. The reason for absence must be clearly stated with a parental signature. Even though a call is made, an excuse is required.

Failure to present an excuse within three school days of return to school will result in absences recorded as UNEXCUSED and/or UNLAWFUL.

II. GENERAL INFORMATION

Announcements

General announcements are made each day prior to school during first period. Those made should be as brief as possible and generally be of interest to the entire student body.

To Have an Announcement Made:

All student announcements must have approval by a club or activity advisor and be submitted to the office secretary prior to 8:30 a.m. each school day. No announcements will be made without proper approval. Coaches may only announce cancellations of a scheduled practice or event.

AHERA

The AHERA (Asbestos Hazard Emergency Response Act) regulations require that building occupants, and their legal guardians, are informed at least once each school year of inspections, response actions, and post response action activities which are planned or in progress on a school building. Crawford Central School District is responsible for this notification.

To view progress or completion of all asbestos-related activities for the school your child attends, please contact the Instructional Support Center, Building, Grounds and Transportation Department. If you have any further questions, please contact the Building Principal.

Assemblies

Several assemblies will be held throughout the year. These programs are provided for the benefit of the student body. Students' conduct at the assembly should be guided by consideration for the interests of others. Please cooperate with the following expectations for assembly conduct:

1. Come to the event quietly.
2. Hands and feet to self.
3. Exchange appropriate applause at correct times.
4. Enjoy the event by sitting quietly.
5. Raise hand to speak.

Disruptive behavior during assemblies may result in the cancellation of scheduled events for a specified period. Students disruptive at assemblies will be scheduled to a study hall during all events for the remainder of the school year. Further disciplinary action deemed appropriate by administration will be taken.

Books

Class textbooks are the property of the school and must be maintained in the best possible condition for those using these materials the following year. Students **MUST** keep textbooks covered at all times. In addition, care should be taken to keep all unnecessary papers from collecting in the text as they damage the binding.

Students turning in books with damage will be assessed a rebinding fee or the replacement cost of the book. Lost books are the responsibility of the student and a replacement cost will be assessed to the student.

Cafeteria

The middle school cafeteria is operated as a service to all students and is not established to show a profit. It provides a variety of menu items and is also available for those that prefer to bring food from home. All students, whether they purchase food from the cafeteria or bring a lunch from home, are expected to eat in the commons area. In the operation of child feeding programs, no child will be discriminated against because of race, sex, color, national origin, age or disability.

Food and drinks are not to be in the halls, classrooms, or removed from the commons area.

Cafeteria Procedures During Lunch

All lunches are "closed". This means that you **MUST** report to the commons as you would any scheduled class. Students must remain in the commons throughout the entire period unless prior approval or a pass has been granted to report to another area. Students are not to leave the school or the school grounds during lunch under any circumstances. Students that leave the grounds or the building will face disciplinary action.

Students are asked to follow these guidelines during lunch:

1. Report to the commons during your scheduled lunch and remain there for the entire period.
2. See one of the teachers who are monitoring lunch if you need a hall pass. Hall passes will only be issued for the library or nurse.
3. Outside visitors are not permitted during lunch.
4. Use proper manners and keep the tables and floor as clean as possible. Place all refuse in the provided containers.
5. **NEVER** remove food or drinks from cafeteria.
6. Use of restroom is granted with permission from Monitor.
7. Ask permission to get ice cream or to go back to the serving area.
8. Wait until duty person dismisses your table before leaving the cafeteria.

Candy Sales

All activity candy sales are limited to outside of school only. Students are not permitted to carry candy from class to class or to sell it between or during classes. Candy may be sold before or after school only. Any candy brought to school must remain locked in the student's locker. Students are responsible for any candy they accept to sell. Theft of candy does not relinquish the student's responsibility to pay for it. Any selling of candy in school before the end of the day will result in disciplinary action by teaching and administrative staff.

Card Playing

Students are not permitted to play cards in study hall or anywhere else in the school.

Crawford Central School District – Student Dress Code

The Crawford Central School District believes that student dress and grooming should promote safe schools and effective learning environments. The district recognizes that student's style of dress and/or grooming may reflect individual preference; however, such preferences must be selected within the constraints of reasonable rules and appropriate standards that are consistent with the maintenance of an effective learning atmosphere and good personal hygiene. Therefore, the district expects each student's attire and grooming to promote a positive, safe and healthy environment within the school. Specifically, students are expected to comply with the following dress and grooming guidelines:

Field Trips

School-sponsored field trips are often held as part of the educational program. All trips must be chaperoned by a member or members of the faculty. In addition, a permission slip signed by the parent or guardian will be required of all students participating.

It is the goal of the Meadville Area Middle School to provide an end of year field trip for eighth grade students and a field day for seventh grade students. A student **may not** attend the field trip or field day if any of the following occur:

1. Any student who has been assigned a **combination of 5** or more formals, Saturday detentions, or in school suspensions.
2. Any student who has **3** or more in- school suspensions, **3** one-day suspensions, a **3-day** suspension, **or a combination of each**.
3. Any student who receives a **5** or **10-day** suspension.
4. Any student who is not passing for the year by the end of the **third nine weeks** will be automatically eliminated from the field trip or activity.
5. Any student who has been excused/unexcused for more than twenty (20) days.

Fire Evacuation Plan

A fire evacuation plan is posted in each room. Students should become familiar with the particular plan and route used by each room. Use the following guidelines during all emergency drills:

1. When the fire alarm sounds, the teacher in charge will tell the students how to proceed.
2. Running and loud talking are absolutely forbidden during the drill.
3. Students are to remain with their classes and move a minimum of 50 feet from the building
4. Teachers will take their attendance book to account for all their students.
5. Accounting slips on attendance are to be sent to the base of the center stairs, in front of the school.
6. Administrators, secretaries, and teachers without classes will account for the students.
7. The alarm will sound again to signal the time to re-enter the building.
8. Students will re-enter the building in a line and will remain quiet.

Food/Drink, Backpacks & Coats

The following guidelines have been adopted by the Crawford Central School Board as safety issues were addressed:

1. No food/drink is permitted to be consumed in hallways or taken to class without medical or administrative permission.
2. Students are not permitted to carry book bags (backpacks) from class to class.
3. Students are not permitted to wear coats in class.

Hall Pass

Students are not required to have a hall pass when leaving the classroom. However, if a student abuses this privilege, he/she will be placed on a hall pass through the office. This hall pass must be signed by the teacher noting both the times leaving and returning to class. Each month teachers will be given an updated list of students requiring hall passes to leave classrooms.

High Honors and Honor Roll

The policy states grade 7-12, High Honors is 95% or higher combined averages of all classes which meets 5 days a week. Honor roll is 83-94% of all averages of all classes which meets 5 days a week. Students must achieve at least a 70% in every class calculated using a non-weighted scale. At the end of the school year, the guidance office will award a High Honors certificate to students who achieved High Honors 3 out of 4 quarters for the school year.

Homebound Instruction

Provisions can be made for homebound instruction for students who are unable to attend school for an extended period of time (maximum of five hours per week). A physician's statement as to the reason for disability and the length of time for the disability must accompany the request. Becoming or being a parent does not, in itself, qualify a student for Homebound instruction. The parent through the school principal should initiate a request for homebound instruction.

Homeless Youth Education

The McKinney-Vento Homeless Act defines the term "homeless children and youths" as individuals who lack a fixed, regular, and adequate nighttime residence. The categories of children who are "homeless" include the following:

- Children and youth who are sharing the housing of others due to loss of housing, economic hardship or similar reason; are living in motels, hotels, trailer parks or camping grounds due to lack of alternative adequate accommodations; are living in emergency or transitional shelters; are abandoned in hospitals; or are awaiting foster care placement;
- Children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
- Children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
- "migratory children" who qualify as homeless under federal law because the children are living in circumstances described above. The term "migratory children" means children who are or whose parent(s) or spouse(s) are migratory agricultural workers, including migratory dairy workers or migratory fishermen, who have moved from one school district to another in the preceding 36 months in order to obtain temporary or seasonal employment.
- Children and youths "awaiting foster care placement," which means children who are placed in shelters, emergency foster care, transitional foster care or respite care. These placement settings are intended to be short term, and do not typically last longer than 30 days. If the placement exceeds 30 days, contact should be made with the child welfare worker and the Homeless Liaison to determine if there is any valid reason for the child to still be awaiting foster care placement."

The Homeless Liaison can inform parents or guardians of educational rights and related opportunities available to their children. Contact: Alisa Willey, Director of Special Services, 814-724-3128 for additional information.

Inclement Weather

If the school is on a 2-hour delay or closed due to inclement weather or other emergencies, Blackboard Connect will be activated and announcements will be made on local radio and television stations, Armstrong Cable station 72/201, www.craw.org and on Crawford Central School District Facebook and Twitter accounts. When a 2- hour delay is called, a decision to close school for the entire day will be made by 7:30 a.m. If the decision is made to stay with the 2-hour delay, students will be required to be in class by 10:30 a.m.

Laptops

Information on laptops can be obtained at www.craw.org

Locks and Lockers

School lockers are school property loaned to the student for the student's convenience. It is the sole responsibility of the student to keep his/her locker clean and in proper order. An assigned locker is the temporary personal property of an individual. It is not to be defaced by decals, writing or permanently attached pictures. This type of damage as well as any other mutilation is protected by state law and will be so handled. It is suggested that magnets be used as opposed to tape to hold materials to the lockers.

Students are not to share their lockers with other students and are encouraged to always secure their lockers with the combination lock. Do not share your combination with anyone. Our policy is one student per locker.

Any repairs or adjustments needed to a locker should be reported to the office with a complete description of the problem detailed on a sheet of paper.

If at any time, the administration has information that may indicate the presence of weapons, drugs, alcohol, stolen items, or any illegal material in a student's locker, that locker may be searched by the administration without a search warrant.

Search dogs may be used in the school and/or on school property.

Lost & Found

All lost articles will be kept in the main office of the middle school. Lost articles should be claimed as soon as possible. Articles unclaimed after a reasonable period of time will not be retained.

Student Assistance Program

Many students are troubled by problems which not only interfere with their educational performance, but with their physical, mental, social and emotional development as well. When students are troubled, so are the teachers, counselors, administrators, and other school staff. The Student Assistance Program (SAP) is a systematic, professional and realistic response to student problems.

At the heart of SAP is the core team which is made up of school administrators, guidance counselors, school nurses, teachers and consultants from community agencies. Team members have been trained to: **Identify** students who are troubled by physical, social, emotional, or chemical use problems which are, in some way, affecting their school performance; **Intervene** and refer students and families for an assessment if warranted; **Focus** on educational concerns; **Utilize** school staff and community resources when necessary; and **Enlist** the support and involvement of parents/guardians in helping the student.

Students come to the SAP program in different ways. Anyone can refer a student to the Student Assistance Program. Any school staff member, a student's friend or family member can let a SAP team member know that they are worried about someone. The student themselves can even go directly to a SAP team member to ask for help. Once referred, the SAP team will obtain parent/guardian permission to become involved.

Students and parents should not feel embarrassed or uncomfortable about asking for extra help when it is needed. Through the SAP process, your student assistance team can help you find services and assistance within the school, and, if needed, in the community. The goal of the SAP is to help students succeed in school by removing the barriers that may prevent this from occurring.

Student Use of Scaffolding and Ladders Prohibited
--

The School District is required to protect students from known dangerous situations. Consequently, if school personnel who supervise students permit a student to stand on scaffolding, a ladder, a table, or a chair for a project, the District would be exposing the student to a dangerous situation, which could result in him/her suffering serious bodily injury or death. If the student was injured or killed as a result of a fall from any of these, the District could be subject to liability.

Furthermore, an offer by the student or his/her parents to sign a release or indemnification agreement (which attempts to hold the School District harmless from liability in the event of any accident) must also be rejected. Ultimately, the courts may conclude that the conduct was irresponsible and may determine the release or indemnification agreement to be null and void.

Incidents of sexting on School District property will result in a student receiving a minimum three-day out-of-school suspension, and local law enforcement authorities will be contacted by the School District.
4. If a student is using his or her cell phone in order to transmit the contents of a test, then the student’s cell phone will be confiscated until the student’s parent or guardian comes to the principal’s office in order to retrieve the cell phone. Co-Curricular/Interscholastic Participants Policy
--

The Crawford Central School District recognizes and affirms the individual value and potential of each member of its school community. This policy has been developed to uniformly guide the students during their participation in co-curricular/interscholastic activities. Each coach/advisor is responsible for reviewing the policy with every student involved in the activity. A parent/guardian is required to sign and return the policy verifying his/her knowledge and acceptance of the guidelines.

This policy deals with substance abuse by students involved in the extra-curricular/interscholastic activities program offered by the school district. Students involved in the illegal substance abuse/use jeopardize their participation in these programs. The full policy is available in the principal's office or from your coach/advisor. All students planning to participate in the extra-curricular/ interscholastic program of the school district should familiarize themselves with this policy.

Spectator Behavior

Meadville Middle School students are expected to show sportsman-like conduct at all home and away events. It is important that students have knowledge of the following:

1. School and game officials reserve the right to refuse admission to school property and to remove from school property any person or persons who violate rules of good conduct.
2. Alcoholic beverages are prohibited on school property.
3. Obscene cheers and gestures, erratic behavior and unsportsmanlike-like conduct will not be tolerated.
4. Posters and signs are forbidden to be displayed by spectators or affixed to gymnasium or lobby wall (exception permanent season posters).
5. Artificial noisemakers (bells, horns, wood clackers, etc.) are not permitted in the gym.
6. Home and visiting cheerleaders may use megaphones but must keep them in their possession at all times.
7. Smoking is prohibited on school property during all events.

Sports/Performing Arts Eligibility

PROCEDURE FOR DETERMINING ELIGIBILITY

Article IX, section 2 of the P.I.A.A. Bylaws sets only the minimum academic standards for interscholastic athletic eligibility. Since standards are minimum standards (pass “at least four full-credit subjects), member schools may adopt higher or more stringent academic standards, but may not lower academic standards.

The CCSD Board has determined that it is a privilege for students to participate in Interscholastic and Co-Curricular programs. Therefore:

1. All students participating in Interscholastic and Co-Curricular programs shall be evaluated on a weekly basis by the administration.
 2. Students must be passing all classes with a “D” or better to be eligible for participation in Interscholastic and Co-Curricular programs.
 3. Students who are ineligible for a total of 3 weeks, either consecutively or cumulatively will be terminated from that program for the remainder of that season.
 4. Eligibility is checked on Friday of each week for the following Sunday to Saturday.
 5. If deemed ineligible, that student will not participate in any athletic/extracurricular activity during the period commencing Sunday and extending through the following Saturday.
- * Students who are ineligible will not be permitted to practice.
 - * Coaches may arrange tutoring for "ineligible" student as a means to assist the student athlete to become eligible.
 - * A student that is ineligible due to illness or injury for two consecutive weeks or longer must produce a written physician’s approval prior to resuming in any athletic endeavor.

NOTE: A student may become ineligible because of attendance reasons. (See "Attendance & Extra-Curricular Activities")

Suspensions:

In no case will a student serving an in-school or out of school suspension be eligible to practice or perform in an athletic event UNTIL the discipline obligation has been satisfied and he/she has returned to regular classes. Specifics are as follows:

1. Any discipline assignment not satisfied on Friday would make a student ineligible over

the weekend.

2. An assignment completed on Friday would make a student ineligible for participation that day. The student would, however, become eligible for Saturday events.

V. Guidance

Guidance Services are available for every student in Meadville Middle School. Services provided include: school sponsored testing, educational planning, career awareness, grade level orientations, individual/group counseling and developmental guidance activities. Students and/or parents wishing to visit a counselor should contact the secretary in the guidance office to arrange for an appointment. The guidance telephone number is 337-1310 ext. 119.

<h3>Schedule Change Policy</h3>

Parents and students are given ample time to review their major course recommendations as well as their music and language course selections. **Consideration for a schedule change after the start of the school year will be discussed only for the following reasons:**

1. Scheduling error.
2. Improper level or sequence as determined by the teacher, counselor, or administrator.
Any change under this provision requires the notification of the student, teacher, principal, counselor, and parent.

Students will not be automatically removed from classes due to failing grades. Careful consideration will be given to the reasons for the failure. **Note: Before a schedule is changed, parent contact by the teacher has to occur first.** Requests for a schedule change are handled by a guidance counselor and administrator.

VI. Health Services

Health Room Procedures - During school hours the school nurse will administer first aid to students who have accidents, are ill, or have other emergencies. The program is not responsible for definitive treatment.

When a student finds it necessary to see the nurse, he/she must first secure a pass from the teacher before reporting to the medical room. Report **DIRECTLY** to the nurse's office. Failure to do so will be considered a class cut.

NOTE: Any student who misses a class due to illness must report to the nurse or be charged with a class cut and disciplinary action.

If the school nurse determines that a student is ill and should be sent home, a parent or guardian must be contacted so that parental permission can be obtained to release the student from school. It is the responsibility of the parents to provide transportation home.

Administration of Medication - State law prohibits school personnel from giving medication or treatments to students in school unless ordered in writing by a physician. See "Guidelines for the Administration of Medication to Students During School Hours".

Physicals - Vision tests, height and weight measurements are done annually on all students. All pupils in grades 7 and 11 and others who have a hearing problem will receive an audiometric test. Scoliosis screening is performed on 7th grade students.

Physical examinations are required for juniors and for students moving from other school districts into the Crawford Central School District without health records. These examinations must be done by a private physician. Proper forms are provided by the school nurse.

Anyone having a special health problem, i.e., diabetes, epilepsy, a heart condition is urged to discuss this with the school nurse so that he/she will receive the appropriate medical attention during the school day.

Accidents and Injuries - Parents are responsible for all costs associated with emergency transportation, and/or treatment due to accidents that occur in school or at school related activities.

Accident Reports - It is the policy of the Crawford Central School District that any student injured at school or while participating in any extra-curricular activity must have an accident report filed within 48 hours of the accident. Forms are completed by the school nurse.

Guidelines for the Administration of Medication to Students during School Hours

The Crawford Central School District recognizes that parents have the primary responsibility for the health of their children. The school and classroom are not clinical settings; therefore, the district strongly recommends that medication be given in the home. The district does realize that in special situations, the health of some children requires that they receive medication while in school. Parents must confer with the child's physician to arrange medication time intervals to avoid school hours whenever possible or to comply with this policy.

The School Nurse or a Registered Nurse will administer all regularly scheduled medications.

It is the parent's right to come to school to administer medication to his/her own child.

When medication absolutely must be given during school hours, the following procedures must be followed:

PRESCRIPTION AND NON-PRESCRIPTION MEDICATIONS:

1. The physician must complete an order for the administration of medication during school hours. The form is available from the school nurse.
2. A parent must sign a consent form for the administration of medications during school hours.
3. All medication to be given during school hours should be delivered directly to the school nurse, school principal or his/her designee by the parent or a responsible adult.
4. A supply of the medication must be delivered to school in a pharmaceutically dispensed, properly labeled container.
5. A medication log will be kept for any child receiving medication during school hours from Crawford Central School Personnel.
6. All medication will be kept in a locked container or cabinet.

ADMINISTRATION OF TEMPORARY MEDICATIONS:

It is recognized that a student may need to receive medications administered at school for a temporary period of time. To do so, the following regulations must be met:

1. The parent /guardian must send in a note including the following information:
 - a. Name of the medication.
 - b. The reason the medication is being given.
 - c. The time and frequency the medication is to be taken.
 - d. The number of days the medication is to be taken.
2. If the medication is to be taken for longer than three (3) weeks, the student's doctor and parent must complete and sign the request for administration of medication form.
3. The student **must** register the medication (present the note and medication to the nurse).
4. After the medication is registered, a student may either carry a daily amount of medication or keep a supply of the medication locked in the health office for administration according to the doctor's/parent's guidelines.

SELF-ADMINISTRATION

Students may self-administer prescription or non-prescription medications in accordance with the district policy for administration of medications. Self-medication is permitted for non-scheduled medications only. Parent's requesting the self-administration of medications for their child must include a statement releasing the school of any responsibility for the benefits or consequences of the medication and acknowledging that the school bears no responsibility for ensuring that medication is taken.

ASTHMA INHALERS / EPIPENS

Students may possess and self-administer an asthma inhaler or an EpiPen. In order to do so, the student must:

1. Demonstrate the capability for self-administration or have their parent or physician indicate that the student is capable of responsibly using and safeguarding the medication.
2. Notify the school nurse following each use of the inhaler or EpiPen.
3. Not permit or provide the use of the inhaler or EpiPen by other school children.

Failure to comply with these guidelines may result in the confiscation of the asthma inhaler or EpiPen and the loss of privileges for self-administration.

In order to comply with the school's Drug & Alcohol Policy, students may neither store in desks and lockers nor carry a **supply** of prescription or non-prescription medication at school.

A student **may not** carry on their person **any** medication that is not properly registered with the nurse or principal/designee.

VII. MAMS PARENT ACTION COMMITTEE

The purpose of Meadville Area Middle School Parent Action Committee (MAMSPAC) is to enhance and support the educational experience at MAMS, to develop a closer connection between school, community and home by encouraging parent and community involvement and to improve the environment at MAMS through volunteer and financial support.

All parents or guardians of any child currently enrolled at MAMS and all members of the school staff may become active members of the MAMSPAC. MAMSPAC meetings are held the first **Thursday** of every month from 6:00 p.m. to 7:00 p.m. in the Commons at MAMS. The following dates are for 2020-2021: 9/3, 10/1, 11/5, 12/3, 1/7, 2/4, 3/4, 4/8, 5/6, 6/3.

VIII. School Bus Regulations

We will post bus routes on our website, www.craw.org, 7 – 10 days prior to the first day of school. Please check for your route information on our website prior to contacting our office.

The District recognizes the need to maintain proper standards of conduct for the safety of students who ride school buses and for the drivers who drive them. The Crawford Central School District's Board has adopted Policy 810.2 School Bus Electronic Surveillance on July 29, 2013:

“ To maintain proper standards of conduct for the safety of students who ride school buses and for the drivers who drive them. The use of video/audio recordings may be placed on transportation vehicles to assist administration, contractors and drivers for the purpose of observing behavior and preventing violation of bus rules and regulations.”

Please inform your child that behavioral issues on the bus can lead to the privilege of provided transportation to and from school being revoked.

Bus assignments for transportation to and from school are given to pupils whose homes are so located as to justify such assignments. **It is a violation** for pupils to ride a bus other than the one to which they are assigned or to leave the bus at a stop other than their assigned stop.

Regular routes for morning transport of students and afternoon return will be as follows:

1. Student(s) Pick-up and Drop-off

Students will only be permitted to have one pick-up location and one drop-off location. The pick-up location and drop-off location do not need to be the same. Both locations must be within the school's attendance area. An example would be (AM pick-up at *home address* and PM drop-off at *care provider*.)

Split days per week with **multiple pick-up and drop-off locations are not permitted.** An example would be (M,W,F AM pick-up/drop off at *home address* T,TH at *daycare*.)

We will provide transportation to daycares that are located in your student's school zone but not if they are in the school's walk zone. Schedules will follow same directive as above for split days.

Past practice in transporting students in a split custody situation, by court order, will remain the same with parents submitting the requests to the school or the Transportation Office prior to school starting and only to the school after the year has begun.

2. Group Stops

Implementing more group stops along the routes will continue in 2020-2021 school year. As routes are set, consideration for group stops will be closely monitored for safety as well as efficiency.

3. Use of Bus Notes

Bus notes are not permitted.

4. Route Elimination/Consolidation

As the routes are being constructed for 2020-2021 school year, the District will attempt to consolidate existing routes for full ridership as permitted by statutes. Again, safety and ride time of the students will be the prominent thought as these routes are designed to run as efficiently as possible.

Parents/guardians – please recognize that bus assignments cannot be customized to meet every individual need and still be part of an efficient and economical transportation system. **Please have your student(s) to their stop on time, dressed for conditions, and following appropriate safety practices.**

Students who ride buses to and from school are expected to conduct themselves in an acceptable manner. Bus conduct guidelines in effect in the Crawford Central School District are as follows:

A. Bus Loading

1. Be ready and waiting for the bus 5 minutes prior to scheduled pick-up time.
2. Use caution when going to bus stops and while waiting for bus arrival.
3. Be considerate of private property.
4. Wait for bus to come to a complete stop and red lights are flashing before attempting to board the bus in an orderly fashion. If crossing the road, look both ways for traffic and wait for bus driver to motion for you to cross.
5. Upon boarding go directly to your assigned seat or the next available seat and remain seated entire time on bus.

B. While on the Bus

1. Keep head, hands and arms inside the bus.
2. Keep aisle clear.
3. Loud talking and boisterous conduct is not permitted. Ordinary conversation is permitted.
4. Destruction of property, seats, windows, etc., will result in payment for all damages by the parent(s) / guardian(s).
5. Do not throw anything out of the bus windows.
6. Do not tamper with the bus or any of its equipment.
7. Scuffling, fighting, horseplay, smoking, and profane/indecent language are prohibited.
8. Pets are not permitted on school vehicles unless, they would be a registered service animal.

C. When Leaving the Bus

1. Students may not leave the bus at any stop other than the assigned stop(s).
2. The driver will not discharge riders at places other than the regular bus stops unless authorized by school officials.
3. Be alert to directions from the driver at all times. If there is a need to cross the road, look both ways for traffic and wait for bus driver to motion for you to cross.

D. Extra-curricular Trips

1. The above rules and regulations apply to any trip under school sponsorship.

E. Evacuation Drills and Emergencies

1. The purpose of school evacuation drills is to have each pupil riding on a bus know exactly what to do in case of an emergency. All bus riders **MUST** cooperate fully with the bus driver and the assigned helpers during evacuation drills. Pupils must observe absolute silence during evacuation drills.

F. Bus Driver Rights and Responsibilities

1. Students transported in a school bus shall be under authority of, and responsible to, the driver of the bus. Continued disorderly conduct, or persistent refusal to submit to the authority of the driver, shall be sufficient reason for a student to be denied transportation in accordance with regulations of the governing board of the District. The driver of the bus shall exercise proper supervision of students under their care and agree to abide by all rules and regulations established by the School District regarding the transportation of students.
2. Bus drivers are authorized to assign seats to students.
3. No bus driver shall require any student to leave the bus before such student has reached his/her designated stop.
4. No bus driver shall refuse to transport a student until informed by a building principal or the Transportation Office that official action has been taken denying transportation.

G. Disciplinary Action

Disciplinary actions for violating school bus regulations may be handled in the following manner:

1. **1st Offense** – Bus driver will immediately submit a written report to the Transportation Contractor. This report will be sent to the building principal for disciplinary action and written parent notification.

2. **2nd Offense** - Same procedure as 1st offense. Suspension of bus privileges for one (1) day.
3. **3rd Offense** - Same procedure as 1st offense. Suspension of bus privileges for three (3) days.
4. **4th Offense** Same procedure as 1st Offense. Suspension for bus privileges for five (5) days.
5. **5th Offense** Same procedure as 1st Offense. Suspension of bus privileges for ten (10) days.
6. **6th Offense** Loss of bus privileges for remainder of school year.

H. Illegal Substances

Illegal substances, tobacco, e-cigarettes, weapons, and alcohol are strictly prohibited on a school bus and possession could result in automatic suspension of bus privileges.

NOTE: 1. Suspension of school bus privileges does not relieve the parent(s)/guardian(s) of their responsibility insofar as the compulsory attendance laws apply. Absence from school for the above reason is considered as an unexcused/unlawful absence.

While bus accidents are considered rare taking into account the volume of students transported on a daily basis, they do occur. Accident scenes can often result in mass confusion. This memo, while not intended to cover all possible scenarios, is intended to provide some general guidelines to follow in the event of a bus accident. Common sense should be used. You should be familiar with these procedures if you are involved with the transportation of school students. The primary intent of this memo is to provide for the continued well being of all Crawford Central School District Students and their families. Rest assured that the Crawford Central School District Superintendent and administration are available to assist you in the event that a bus accident does occur.

School bus accidents involving no injuries or only minor injuries (while in route to or from school): In the event of a minor school bus accident involving no injuries or only minor injuries (while in route to school), the following procedures should be followed:

1. Contact Crawford Central School District Administration: 724-3960.
2. Secure bus roster and determine what students were on the bus. Contact principal of destination school(s) informing them of the bus number, listing of students riding the bus, and any accident information that is known so that parents of children involved in the accident who call the school can be informed.
3. If the school bus is drivable, the bus driver should drive the bus to the destination school building or some other agreed upon location where all students involved in the accident can be checked/treated by a school nurse prior to returning to class. All parents not already contacted should be notified by the destination school's principal or designee and informed of the accident and their child's condition. If the bus is not drivable, the bus driver or contractor shall make alternative arrangements to transport students to their destination school and to pick up any remaining students along the route.

4. The school nurse shall advise the Transportation Coordinator in writing as to the status of all students who were involved in the accident.

School bus accidents involving injuries where medical attention is necessary:

1. Call 911 immediately. Reassure students that emergency help is on the way. Locate the bus roster and determine which students were on the bus at the time of the accident.
2. Contact Crawford Central School District Administration.
3. Contact principal of destination school(s) informing them of the bus number, names of students on the bus at the time of the accident, and any accident information available so that parents of children involved in the accident who call the school can be kept informed. Be careful not to give out confidential information to persons not entitled to receive such information (i.e. television, radio, newspaper reporters). Only the Crawford Central School District Superintendent is authorized to issue a press release concerning a bus accident.
4. All students should remain on the bus unless a dangerous situation exists that would warrant otherwise. It would be more dangerous and more difficult to treat injured students wandering around outside the bus than if contained within the bus. The response by emergency personnel on the scene will determine the course of action to be taken.

If students require transportation to a medical center for treatment, medical center personnel will notify parents/guardians as soon as possible after arrival at the medical center. To facilitate this process, confidential contact information will need to be provided by school district administration as soon as possible. The bus number along with a roster noting all students on the bus at the time of the accident should be faxed to Crawford Central Administration. Emergency contact information will then be compiled and faxed back to the medical center so that parent can be notified.

Students under the age of 18 cannot refuse medical treatment. Once treatment is provided by a medical center to a minor, an adult must authorize further treatment if necessary and/or pick up the student and sign all release documentation. If injuries are minor, the student may return to school at the parent's discretion but should be monitored by the school nurse.

Any student that is not transported to a medical center for treatment shall be transported to the destination school building to be evaluated by a school nurse. If not already contacted, the principal of the destination school or a designee shall be responsible for contacting the remaining parents to inform them of the accident and their child's condition. The school nurse shall advise the Transportation Coordinator in writing as to the status of each student evaluated and provide follow-up to students injured when they return to school. The bus contractor shall deliver a properly completed "School Bus Accident Report" to the Transportation Coordinator within 48 hours of the accident.

Minor school bus accidents during non-school hours (involving no injuries or injuries which do not require immediate medical attention):

In the event that a school bus is involved in an accident during non-school hours and there are no injuries (or only minor injuries), the school district official riding the bus shall ask each student individually if they were injured or not, taking written note of their individual responses. Based on this information, the school district official shall determine whether: 1) a school nurse should be contacted to evaluate students, or 2) the students can be released directly to their parents upon arriving back at the point of origination. If a school nurse is deemed necessary, a convenient location should be decided where each student can be evaluated. All students shall remain on the bus until they are checked by the school nurse unless a parent/guardian requests that their child be released into their custody (in which case a parent's signature authorizing the child's release with a statement that they are assuming full responsibility shall be obtained).

The school district official riding the bus or the school nurse shall inform the Transportation Coordinator in writing as to the status of each student riding the bus. If deemed necessary, the schools district official riding the bus will be responsible for notifying parents of the accident. If the bus is not operable, the driver or the contractor shall arrange alternative transportation.

School bus accidents during non-school hours (involving injuries, which require immediate medical treatment):

In the event that a school bus is involved in an accident during non-school hours and there are injuries which require immediate medical attention, the bus driver or school district official riding the bus should call 911 and attempt to keep all students calm. Unless a dangerous situation exists, all students should remain on the bus until emergency personnel arrive. It would be more dangerous and more difficult to provide treatment to students wandering around outside the bus. No one shall leave the accident scene until released by emergency personnel. An attempt should be made to provide whatever basic medical attention is available to any injured person until emergency personnel arrive. Once on the scene, emergency personnel shall determine the type of advanced medical treatment necessary.

Students under the age of 18 cannot refuse medical treatment provided by emergency medical personnel. Any student taken to a medical center for treatment under the age of 18 will require that an adult (parent/custodian) be notified to authorize additional treatment or to sign release documentation. The school district official riding the bus should have a complete listing of all students riding the bus with emergency contact information. This is very important as this information will be needed by medical center staff to quickly contact parents of students taken to the medical center. While medical center staff will contact parents of students treated, it will be the responsibility of the school district official riding the bus or a designee to contact all remaining parents of students who were on the bus. The school district official on the bus or the driver (if uninjured) shall notify Crawford Central Administration Officials of the accident as soon as possible.

All students not requiring immediate medical attention shall remain on the bus until emergency personnel release them. A parent may request to take their minor student off the bus

prior to such a release by providing a signature to the school district official riding the bus. If the bus is not drivable, the bus driver shall make arrangements for alternative transportation. If the bus is drivable, uninjured students shall be transported to a location mutually agreed upon by school district officials where parents may pick up the remaining students. The school district official riding the bus is responsible for remaining at this location until all parents are contacted and students are picked up. The school nurse shall be informed of the accident so that follow-up with all students can be made when they return to school. The Transportation Coordinator shall be informed by the school nurse in writing as to the status of each student riding the bus.

The bus contractor shall provide the school district with a properly completed “School Bus Accident Report” within 48 hours of the accident so that the Transportation Coordinator can file the report with the Bureau of Traffic Safety Operations. No one other than the Superintendent is authorized to release information to a news agency relative to the accident.

IX. Discipline Guidelines

School-Wide Positive Behavior

The Meadville Area Middle School implements an evidence-based approach for school-wide discipline called School-Wide Positive Behavior Intervention and Supports (SWPBIS). This systems approach establishes the social culture needed for MAMS to be an effective learning environment for all students. PBIS ensures that all students have the social and emotional skills necessary to succeed in and out of school. It helps teach students expected behaviors and social skills, applies data-based decision making to discipline, academics, social and emotional learning, and creates student and behavioral health and academic support systems. This approach uses a three-tiered approach to interventions. MAMS has developed student expectations for the lunchroom, hallway, restroom, classroom, assembly, and athletic events. Each set of expectations contains a word which will make it easy for the students to state, write, and follow.

Student Behavior: Levels of Misconduct and Consequences

The rules established in this handbook help to provide a safe, purposeful learning environment conducive to the educational process.

DEFINITIONS:

Classroom Detention (Personal) – This is assigned and carried out by the classroom teacher in accordance with that particular teacher’s classroom rules. This form of detention is usually assigned after school. Parents will receive a detention slip stating date and time of personal detention and classroom rule(s) not followed. Parents must sign detention slip to be returned with student. Failure to serve a personal detention will result in the student being referred to the

school administration. Parents should be given a minimum of 24 hours notice. Parental contact is required for repeated detention notices.

Lunch Detention – This is assigned and carried out by the school administration and teachers. This form of detention is assigned during the students’ regular scheduled lunch period. Students will report to the office or teacher’s classroom with their lunch if they are purchasing a school lunch. A packed lunch is optional and is permitted in the detention room. Students assigned lunch detentions are NOT PERMITTED to go to the cafeteria to purchase any additional food items. Students purchasing their lunch are limited to the “Main Event”.

*If you happen to be absent on the day you are to take personal detention, you MUST serve it the day of your return to school. Failure to serve a personal detention AUTOMATICALLY results in receiving a FORMAL DETENTION.

*Students that receive a formal detention from one of the principals will be reminded the day of the detention. If you are absent the day you are to serve FORMAL, you MUST fulfill this obligation on the next scheduled formal detention. Failure to serve a formal detention AUTOMATICALLY results in receiving a SATURDAY DETENTION.

The lists below are intended to serve as examples. They are by no means all-inclusive. The administration reserves the right to make final decisions in all matters of school discipline.

Other student problems that place a student at risk will be referred for evaluation to alternate agencies.

UNCOOPERATIVE BEHAVIOR - Shall be defined as any resistance or refusal, either verbal, physical or passive, on the part of the student to comply with the reasonable request or recommendations of a staff member at the time that the student is apprehended using or in possession of drugs or mood-altering chemicals. Defiance, assault and deceit shall constitute examples of uncooperative student behavior.

INTRODUCTION

The procedures incorporated in this policy have been formulated for the effective enforcement of this policy in a fair and consistent manner. Recognizing that drugs, mood-altering chemicals and/or alcohol use and abuse may be indicative of the disease process of chemical dependency, every effort will be made to offer the student the help and assistance he or she would receive for any other illness. Early identification and referral of a student evidencing a problem with chemical or alcohol abuse or dependency will be the primary goal. Disciplinary procedures will be administered with the best interests of the student and the student body in mind.

Due consideration has been given to the legal rights and responsibilities of the school administration, staff, students and parents/guardians. Section 1317 of the Pennsylvania School Code specifies that "every teacher, vice-principal and principal in the public schools shall have the right to exercise the same authority as to conduct and behavior over the pupils attending his school, during the time they are in attendance, including the time required in going to and from their home, as the parents, guardians or persons in parental relation to such pupils may exercise over them".

XI. Student Rights and Responsibilities

This policy on Student Rights, Responsibilities and Discipline shall be in effect in the Crawford Central School District.

I. Free Education and Attendance

- A. All people residing in the Crawford Central School District between the ages of five and twenty-one years are entitled to a free and full education in the District's public schools.
- B. Parents or guardians of all children between the ages of eight and seventeen are required by compulsory attendance law to ensure that their children attend an approved educational institution, unless legally excused.
 - 1. Unlawful and/or Unexcused Absences: Students who are absent from school or class may be subject to suspension or expulsion (See Pennsylvania School Code, Article XIII, Sections 1301 through 1357). Students who are 17 years of age or older are subject to withdrawal from school upon accumulation of 20 or more days of unexcused absence in any school term.
 - 2. Tardiness to School or Class: Continual violation of school regulations as to class and school tardiness may result in suspension from school or class.
 - 3. The school administration is empowered to require that a student provide a medical statement, or excuse, from a licensed practitioner of the healing arts for every absence from school, subsequent to that student having accumulated absences of 9 school days in any school term. Failure to provide the requested medical excuse may result in such absence being classified as Unexcused.
- C. Students may not be asked to leave school merely because they have reached seventeen years of age if they are fulfilling their responsibilities as students, as defined hereafter. A student may not be excluded from the public schools or from extra-curricular activities because of being married or pregnant.
- D. In cases of pregnancy, participation in extra-curricular activities or in physical education shall be based on the health and welfare of the student. In matters of question a physical examination shall be required.
- E. No student will be denied access to a free and full public education on account of race, religion, sex, or national origin.
- F. Students shall be permitted to make up work missed while absent within the following guidelines:
 - 1. The student should recognize that it is in his/her own best interest to complete work as quickly as possible.
 - 2. The student is responsible to contact the teacher to find out what needs to be made up and to make arrangements for taking tests, etc.
 - 3. A student has three days from the date of re-admission after an absence to make up missed work (i.e., homework, tests, quizzes, etc.).
 - 4. When circumstances warrant, (such as a prolonged absence of three days or more) the student should be given an extended period of time to make up work, with the length of that period to be agreed upon by the student, teacher and principal.
 - 5. Pre-assigned term papers and projects are due on the date of re-admission unless appropriate arrangements have been made with the teacher.

II. Student Responsibilities

- A. Student responsibilities include regular school attendance, conscientious effort in classroom work, and conformance to school rules and regulations. Most of all, students share with the administration and faculty a responsibility to develop a climate within the school that is conducive to wholesome learning and living.
- B. No student has the right to interfere with the education of his/her fellow students. It is the responsibility of each student to respect the rights of teachers, students, administrators and all others who are involved in the educational process.
- C. It is the responsibility of the students to:
 - 1. Express their ideas and opinions in a respectful manner so as not to offend or slander others.
 - 2. Be aware of all rules and regulations for student behavior and conduct themselves in accord with them.
 - 3. Be willing to volunteer information in matters relating to the health, safety, and welfare of the school community and the protection of school property.
 - 4. Be willing to volunteer information in disciplinary cases and cooperate with school staff should he/she have knowledge of importance in relation to such cases.
 - 5. Dress and groom themselves so as to meet fair standards of safety and health, and so as not to cause substantial disruption to the educational processes.
 - 6. Assume that until a rule is waived, altered or repealed, it is in full effect.
 - 7. Assist the school staff in operating a safe school for all students enrolled therein.
 - 8. Be aware of and comply with state and local laws.
 - 9. Exercise proper care when using public school facilities and equipment.
 - 10. Attend school daily, except when excused, and be on time to all classes and other school functions.
 - 11. Make all necessary arrangements for making up work when absent from school.
 - 12. Pursue and attempt to complete satisfactorily the courses of study prescribed by state and local school authorities.
 - 13. Avoid inaccuracies and indecent or obscene language and illustrations in student newspapers or publications.
 - 14. Avoid indecent or obscene language and gestures.
 - 15. Avoid active or passive discrimination against another student or group of students because of sex, race, color, creed, social status or political following
 - 16. Refrain from public displays of affection such as hugging and kissing.

III. General Policy Concerning Rules

- A. Building principals shall distribute to all their students a complete list of student rules. New rules or changes in existing rules should become effective at the start of a new school year or semester. Administrators and teachers who introduce new rules or changes in existing rules for students under their supervision shall make known precise statements of the regulations. This should be done at least three days prior to the effective date. This

is in order to facilitate student awareness of the rules and the fair, uniform enforcement of these regulations. All rules must conform to School Board Policy.

- B. The Pennsylvania School Code provides that teachers, administrators and other school officials have the right to exercise the same authority as to conduct and behavior over pupils attending their school, during the time they are in attendance, including the time required going to and from their homes, as parents, guardians, or persons in parental relation to such pupils may exercise over them.
- C. Discipline, including self-discipline, is necessary to prepare the student mentally for learning and to provide an atmosphere in which learning can take place, thus permitting the student to develop to the maximum of his potential. These basic concepts are embodied in educational philosophy of the Crawford Central School District.
- D. Since discipline begins in the home between parent/guardian and child and continues in the classroom with the relationship between teacher and pupil, each individual along the way should have a mutual responsibility for the maintenance of that discipline and for enforcement of rules governing behavior in the schools.
- E. Direct, personal, and active responsibility for school rules throughout the district shall be shared among parents, students, teachers, administrators, and School Board Members.
- F. The School Board has the authority to make reasonable and necessary rules governing the conduct of students in school. The rule-making power, however, is not unlimited: It must operate within statutory and constitutional restraints. A School Board has only those powers that are enumerated in the laws of the state, or which may reasonably be implied or necessary for the orderly operation of the school.
- G. It is the intent of the Crawford Central School Board not to make rules which are arbitrary, capricious or outside their grant of authority from the General Assembly. The rules must pass the test of fairness and reasonableness. A rule is generally considered reasonable if it uses a rational means of accomplishing some legitimate school purpose.
- H. School rules are assumed to be "reasonable" until they are rescinded or waived. Students, therefore, should obey school rules while working through channels to help change those of which they do not approve.
- I. Within his/her classroom or area of assignment, the teacher is responsible for establishing what he/she considers to be an appropriate climate for learning. A professional employee of the school district shall be permitted to exercise authority without interference from individual students or groups of students or from school employees having limited control over students.
- J. Parents/guardians retain the right to consult with school authorities (Board, administrators, teachers) on implementation of this policy statement. The School District recognizes that parents/guardians have the primary responsibility for the behavior of their children. Parents/guardians are asked to see that their children understand and abide by this policy and assume the responsibilities enumerated in this document.
- K. Grievance Procedure: Students and parents/guardians will have the right to appeal to the school principal, the superintendent of schools and the School Board should they feel that imposed discipline is unjust. However, in the case of an appeal, the original decision will be in effect until a final ruling is made.

IV. Use of Physical Restraint

Under the "in loco parentis" doctrine, teachers and school officials may administer reasonable and necessary physical restraint.

- A. To quell a disturbance
- B. To obtain possession of weapons and/or other dangerous objects
- C. To provide adequate self-defense
- D. To protect persons or property
- E. To eliminate activities disruptive to the learning process and normal function and operation of school

V. Dismissal from Class

- A. When a student has been dismissed from class for any reason, he may be readmitted:
 - 1. After consultation with the teacher involved.
 - 2. After consultation with the teacher and principal.
 - 3. After consultation with the teacher, principal and guidance counselor.
 - 4. After consultation with the teacher, principal, guidance counselor and parents/guardian.
- B. A student may be readmitted to a similar class consultation with the teachers involved, the principal and the guidance counselor
- C. If agreement for re-admittance to the class cannot be arranged, the problem will be referred to the superintendent of schools or his designee whose decision will be final. These types of cases shall be arbitrated as quickly as possible to avoid loss of class time (within five days).
- D. Until a final decision is reached the student will not attend the class or classes involved but will be considered to be in suspension status from that class.

VI. Exclusion from School (Suspensions and Expulsions)

- A. Exclusions from school. (Suspension and Expulsion)
 - 1. The board of school directors shall define and publish the types of offenses that would lead to exclusion from school. Exclusions affecting certain exceptional students shall be governed by 22 PA Code 13.62 and 341.91 (relating to right to education and disciplinary exclusions of certain handicapped student from special education placement).
 - 2. Exclusion from school may take the form of suspension or expulsion.
 - a. Suspension is exclusion from school for period of 1 to 10 consecutive days.
 - (i) Suspensions may be given by the principal or person in charge of the public school.
 - (ii) No student shall be suspended until the student has been informed of the reasons for the suspension and given an opportunity to respond. Prior notice of the intended suspension need not be given when it is clear that the health safety or welfare of the student community is threatened.
 - (iii) The parents and the superintendent of the district shall be notified immediately in writing when the student is suspended.

- (iv) When the suspension exceeds 3 school days, the student and parent shall be given the opportunity for an informal hearing consistent with the requirements set forth in Article IX (relating to hearings).
 - (v) Students shall be notified of their right to make-up academic work missed during the suspension period.
 - b. Exclusion from school by the board of education for a period exceeding 10 school days or permanent expulsion from the school rolls.
 - (i) If the parents or guardian are unable to provide for the required education, they must within 30 days submit to the school district written evidence so stating. The District then has the responsibility to make some provision for the student's education. If 30 days pass without the district receiving satisfactory evidence that the required education is being provided to the student, it must again contact the parent, and pending the parent's or guardian's provision of such education, the district must make some provision for the student's education or proceed under paragraph (c) or do both.
 - (ii) If the approved educational program is not complied with, the school district may take action in accordance with Chapter 63 of the Juvenile Act (42 PA C.S. 6301-6308), to ensure that the child will receive a proper education.
- B. Exclusion from classes -- in-school suspension.
 - 1. No student may receive an in-school suspension unless the student has been informed of the reasons for the suspension and has been given an opportunity to respond before the suspension becomes effective.
 - 2. Communication to the parents or guardian shall follow the suspension action taken by the school.
- C. Students shall be permitted to make up exams and work missed while being disciplined by suspension within the following guidelines:
 - 1. A student has three days from the date of re-admission from school suspension to make-up missed work (i.e., homework, tests, quizzes, etc.) while suspended from class or classes.
 - 2. The student is responsible to contact the teacher to find out what needs to be made up and to make arrangements for taking tests, etc.
- D. In cases of suspension, a student will be prohibited from attending or participating in all school activities for the term of the suspension. In cases of expulsion, the Board shall determine whether the expelled student may attend school activities.
- E. If, when expulsion proceedings are initiated, it is determined by the superintendent after an informal hearing, that a student's presence in his/her normal class would constitute a threat to the health, safety, morals or welfare of others, and it is not possible to hold an Expulsion Hearing within the period of a suspension, the student may be excluded from school for more than ten school days, provided the expulsion hearing is not unreasonably delayed. Any student so excluded shall be provided with alternative instruction.
- F. Students who are less than seventeen years of age are still subject to the compulsory school attendance law even though expelled and must attend school. The responsibility for placing the student in school rests initially with the student's parents or guardian. However, if the student is unable to attend another public school, cannot afford to attend

or is unable to be accepted at a private school, the student's school district has the responsibility to make some provision for the child's education either through instruction in the home or by readmitting the child. If none of these alternatives is acceptable, the school district must act in accordance with the provisions of the Juvenile Act of 1972 to ensure that the child will receive a proper education

VII. Hearings

A. Informal suspension

1. The purpose of the informal suspension hearing is to enable the student to meet with the appropriate school officials to explain the circumstances surrounding the event for which the student is being suspended, to demonstrate that there is a case of mistaken identity or to show that there is some compelling reason why the student should not be suspended. The informal suspension hearing also encourages the student's parents or guardian to meet with the principal to discuss ways by which future offenses can be avoided.
2. This hearing shall take place within the first five (5) school days of suspension.
3. At the suspension hearing, the following due process requirements are to be observed:
 - a. Notification of the reasons for the suspension in writing given to the parent or guardian and to the student.
 - b. Sufficient notice of the time and place of the suspension hearing.
 - c. The right to cross-examine any witnesses.
 - d. The student's right to speak and produce witnesses on his/her own behalf.
4. In case of a suspension of a student, any information or testimony concerning the incident shall be classified as Category B information and shall remain confidential unless the parent/guardian gives written permission for its release to identified sources. Said release shall be directed to the Board.

B. Expulsion Hearings (School Board)

1. Education is a fundamental right and students must be afforded all appropriate elements of due process if they are to be excluded from school. In a case involving a possible expulsion, the student is entitled to an Expulsion Hearing, which is a fundamental element of due process.
2. At the Expulsion Hearing, the following due process requirements are to be observed:
 - a. Notification of the charges in writing, sent to the parents or guardian by certified mail, and to the student, if the student is 18 years old or older.
 - b. Sufficient notice of the time and place of the hearing.
 - c. The right to an impartial tribunal.
 - d. The right to be presented with the names of witnesses against the student, and copies of the statements and affidavits of those witnesses.
 - e. The right to be represented by counsel.
 - f. The right to demand that any such witnesses appear in person and answer questions or be cross-examined.
 - g. The student's right to testify and produce witnesses on his/her own behalf.
 - h. A record must be kept of the hearing by a court reporter. The student is entitled, at the student's expense, to a copy of the transcript.
 - i. The proceeding must be held with all reasonable speed.

- j. The hearing shall be held in private unless the student or parent requests a public hearing.
3. Crawford Central School District Hearing Procedure
 - a. Time of Hearing: The hearing shall be held within fifteen (15) school days of the notification of charges unless the parties agree to extend the time for the hearing.
 - b. Student Under Temporary Expulsion: If, when Expulsion proceedings are initiated, it is determined by Superintendent after an informal hearing, that a student's presence in his/her normal class would constitute a threat to the health, safety, morals, or welfare of others, and is not possible to hold an Expulsion Hearing within the period of a suspension, the student may be excluded from school for more than ten (10) school days, provided the Expulsion hearing is not unreasonably delayed. Any student so excluded shall be provided with alternative instruction.
- C. Hearing Procedure
1. The President of the Board of School Directors or his/her nominee shall preside at all hearings.
 2. It shall be the duty of the Chairperson to instruct the accused student, his/her parents or guardian or their counsel, that the student accused is not compelled to testify, and his/her refusal to testify shall not be construed as an admission of guilt.
 3. Hearings shall be private unless the accused student, his/her parent/guardian or their counsel request that the hearing be public. Such request must be in writing and must be received by the Board twenty-four (24) hours before the hearing begins. Hearings shall be attended by the following: Members of the Board or a duly authorized committee of the Board (preferably composed of no fewer than three members of the School Board), Board Solicitor, court reporter, the student accused, his/her parents/guardian, their respective counsel, and all witnesses to be called by the parties involved. At the request of any of the parties involved, or the Board, witnesses may be separated.
 4. All witnesses shall be sworn by the court reporter or the Chairman of the Board.
 5. The Board, its solicitor, the student and/or his/her parent or guardian, or counsel for either of them, shall have the right to examine and cross-examine all witnesses.
 6. Only relevant and competent evidence shall be received and considered by the Board, but district rules of legal evidence shall not be followed so that every opportunity may be afforded by the Board to hear and obtain all relevant pertinent facts.
 7. The accused student's past record shall not be consulted or any testimony pertaining thereto received in evidence, until after the Board determines the guilt or innocence of the student accused. If the student is found guilty, the Board has the right to review past academic and discipline reports to determine the student's penalty.
 8. The testimony of all witnesses shall be recorded by the court reporter so that it may be transcribed later if required.
 9. After the evidence is closed, the accused student, his/her parent/guardian or their legal counsel, may make a summation of the testimony and argument, not to exceed 15 minutes in length.
- D. Disposition of the case
1. As promptly as is possible after said hearing is closed, the full Board shall convene to consider the evidence and, by majority of members present by roll call vote,

- determine the guilt or innocence of the accused student, and shall further determine the penalty, if any. The Board may reprimand, suspend, or expel.
2. If the charges are sustained, the Board shall prepare a written adjudication which shall include findings of fact and conclusions setting forth in summary the evidence and the reasons for its decision and penalty imposed, if any. It shall transmit, by certified mail, a copy thereof to the student accused or to his/her parents/guardian and to their counsel, not later than five (5) days from the date of such Board meeting.
 3. In case of an Expulsion of a student, any information or testimony concerning the incident shall be classified as Category B information, and shall remain confidential, unless the parent/guardian gives written permission for its release to identified sources. Said release shall be directed to the Board.
 4. If the Board shall find in favor of the student, all references to the alleged incident shall be removed from the student's records.
 5. Where the student is dissatisfied with the results of the hearing, recourse can be had to the appropriate state or federal court.

VIII. Freedom of Expression

A. Policy Statement on Freedom of Expression

1. The right of public students to freedom of speech was affirmed by the United States Supreme Court in the case of *Tinker V. DesMoines. Community School District*, 393 U.S. 503 (1969), where the Court said:

"It can hardly be argued that students or teachers shed their constitutional rights to freedom of speech or expression at the school house gate. Students in school as well as out of school are "persons" under the Constitution. They are possessed of fundamental rights which the State must respect, just as they themselves must respect, their obligations to the State. In our system, students may not be regarded as closed-circuit or only that which the State chooses to communicate. They may not be confined to the expression of those sentiments that are officially approved. In the absence of a specific showing of constitutionally valid reasons to regulate their speech, students are entitled to freedom of expression of their views."

The right is qualified, however. The U.S. Supreme Court stated that:

"But conduct by the student, in class or out of it, which for any reason whether it stems from time, place, or type of behavior - materially disrupts class work or involved substantial disorder or invasion of rights of others, is, of course, not immunized by the constitutional guarantee of freedom of speech."

2. Students have the right to express themselves in any manner unless such expression directly interferes with the educational process, threatens immediate harm to the welfare of the school or community, or encourages unlawful activity, or interferes with another individual's rights.
3. Students may use publications, handbills, announcements, assemblies, group meetings, buttons, armbands, and any other means of common communication, provided that the use of public school communications facilities shall be in accordance with the regulations of the authority in charge of those facilities.

Students have the responsibility to be aware of these feelings and opinions of others and to give others a fair opportunity express their views.

B. Bulletin Boards

1. The principal of each building will designate certain bulletin boards for school announcements. In addition, bulletin board space will be provided for the use of students and student organizations.
2. The following general limitations on postings are applied:
 - a. The principal will prohibit material which is obscene according to the current legal definitions; which is libelous, or which inflames or incites students to create a clear and present danger of the commission of unlawful acts or of physical disruption of the orderly operation of the school.
 - b. Identification on any posted notice will be required of student or student groups, including the name of at least one person of the group, posting such notice.
 - c. The principal will require that notices or other communications be officially dated before posting, and that such material be removed after a prescribed reasonable time to assure full access to the bulletin boards.

C. School Newspapers and Publications

1. Students have the responsibility to refrain from libel and obscenity and to observe the rules for responsible journalism. Within these bounds, students have a right and are free as editors of other newspapers to report the news and to editorialize.
2. The principal or his/her designated advisor will supervise student run newspapers published with school equipment and remove obscene or libelous material. In addition, he/she will edit material that would cause a substantial disruption or material interference with school activities.
3. The above is subject to the following:
 - a. School officials will not censor or restrict material simply because it is critical of the school or its administration.
 - b. Rules of the school prior submission for review of obscene or libelous material, and material advocating illegal actions, will be reasonable and not calculated to delay distribution.
 - c. Each principal will establish prior approval procedures. They will identify to whom the material is to be submitted, the criteria by which the material is to be evaluated, and a limitation on the time within which a decision must be made. If the prescribed time for approval elapses without a decision, the literature will be considered as authorized for distribution.
4. Students who are not members of the newspaper staff and other members of the school community will have access to its pages. The criteria for submission of material by non-staff members will be prepared, published and distributed to all students by the principal or his/her designate.
5. Newspaper staff members will be held responsible for materials which are libelous or obscene, and such publications may be prohibited by the building principal.

D. Unofficial Publications

The constitutional right of freedom of speech guarantees the freedom of public school students to publish on their own, materials other than those sanctioned by the school. The school has no responsibility to assist students or to provide facilities in the publishing of such materials, nor may the school be held responsible for any statements published in

them. The newspaper staff members themselves have sole responsibility for any statements published. Unofficial publications have moral and legal obligations to observe the rules of responsible journalism.

E. Distribution of Literature, Leaflets and Newspapers

1. Courts have ruled that school authorities may prohibit the distribution or dissemination of student-oriented material on school grounds only when such material would materially and substantially interrupt the educational process or intrude upon the rights of others (the rationale of the United States Supreme Court in the Tinker case).
2. Students have the right to distribute leaflets, newspapers and other printed material adjacent to school property without any restriction by school authorities. However, the School Board of Directors has the right to have printed material submitted to the appropriate school official prior to distribution within the school for the purpose of determining whether distribution would result in substantial disruption of, or material interference with school activities. Such material shall be submitted to the principal not less than three (3) school days prior to the expected date of distribution. Before distribution can be denied, the threat of disturbance must be real and not immaterial. Also, the Board will assert the right of those who have approved materials to distribute them in a peaceful and lawful manner.
3. The school principal may set forth the time and place of distribution so that distribution would not materially and substantially interfere with the requirements of appropriate discipline in the operation of the school. A proper time and place set for distribution is one which would give the students the opportunity to reach fellow students. The place of such activity may be restricted to permit the normal flow of traffic within the school and at exterior doors.
4. All printed matter and petitions distributed on school property shall bear the name and sponsoring organization and the name of one individual of such organizations.

F. Buttons, Badges and Armbands

The wearing of buttons, badges, armbands or other insignia bearing slogans or saying by students will be permitted even though unpopular with students or school district employees unless one of the following conditions is determined by the principal.

1. The wearing of the material would lead to a substantial disruption of, or material
2. Interference with school activities.

clear and present danger of the commission of unlawful acts.

4. The message expressly or by implication is obscene according to current legal definitions, or libelous.
5. The wearing of the objects presents a clear and present danger to the physical safety of the wearer or others involved with the school process.

G. Access to School Facilities

Students may have access to school facilities and equipment under the following conditions.

1. With written approval of the parent and/or principal and of the teacher or other person responsible for the facility and/or equipment desired. Approvals shall be filed in the school office.
2. The student has had adequate training in the use of the specified equipment. Use of

power driven equipment, other than simple office machines and audiovisual equipment, shall not be permitted

3. Use of the facility or equipment will in no way conflict with the instruction, extracurricular or maintenance program.
4. No equipment shall leave the school location in which it is normally used.
5. Group use shall require a faculty sponsor to be present
6. Use of the facility or equipment could not result in more than incidental expense to the district.
7. Approval for student use of facilities and/or equipment shall mean use of students who reside in the Crawford Central School District attendance area only, and not for other students or non-students.

H. Flag Salute and the Pledge of Allegiance

It is the responsibility of every citizen to show proper respect to his/her country and its flag. However, students may decline to recite the Pledge of Allegiance and may refrain from saluting the flag on the basis of personal belief or religious convictions. This right has been affirmed by the United States Supreme Court in the case of *West Virginia State Board of Education v. Barnette*, 319 U. S.624 (1943). Students who choose to refrain from such participation shall respect the rights and interests of classmates who do wish to participate in a meaningful ceremony. A student who chooses not to participate may either stand or sit, remaining respectfully silent.

IX. Confidential Communications

- A. Information received from a student in confidence by:
 1. A guidance counselor; or
 2. A school nurse; or
 3. A school psychologist in public or private schools while in the course of that person's professional duties in privileged information to the extent that it cannot be divulged in any legal proceeding, civil or criminal, without the consent of the student, or if still a minor, the student's parents/guardian.
- B. However, such information may be revealed without the student's consent to the student's parents/guardian to teachers or to principals.
- C. An exception to the above is information revealed by the student concerning child abuse, neglect, or injury, which all school personnel are under legal duty to report to the authorities.

X. Student Records

Under certain circumstances a student has a right to examine his/her records. (See Crawford Central School District Policy on Collection, Maintenance and Dissemination of Pupil Records)

XI. Searches

- A. School authorities may search a student's locker and seize any illegal materials. Such materials may be used as evidence against the student in disciplinary juvenile or criminal proceedings.
- B. School lockers are school property loaned or rented to the student for the student's convenience. School authorities may search the student's locker without prior warning in seeking contraband, because, standing in loco parentis school authorities are charged with the safety of all students under their care and supervision. Such a search is not an "illegal" search under the Fourth Amendment to the Federal Constitution, but reasonable exercise of board power in the interests of health, welfare, and safety of all school students. Courts have reasoned that the school extends locker use to students only for legitimate purposes.
- C. Students should be informed of the conditions governing use of school lockers when locker assignments are made.
- D. Searches should only be made by an official duly authorized for that purpose by the principal. The search of a particular locker should only be made upon a reasonable assumption that the student is secreting evidence of an illegal act.
- E. Blanket searches of every locker should not be permitted except for an emergency.
- F. Search of a student's person should be done by school officials of the same sex as the student being searched.

XII. Implementation

- A. Because of the great differences in building design and student body make up, each building head and/or discipline committee shall establish discipline rules and procedures within the context of this policy.
- B. In no way will a student's or parent's/guardian's legal right be infringed upon in the implementation of this policy. No students should be subjected to excessive degrading or humiliating punishment. Each student has the right to be treated with decency and understanding. It is the intention of the Crawford Central School District to emphasize efforts to correct and prevent misbehavior rather than simply punish misbehavior and also to encourage self-discipline on the part of students at all levels.
- C. All professional employees of the school district should be most alert for indications of possible developing problem areas of students within the schools and report the same to persons who are best able to aid in deterring the problem. These persons include school psychologists, guidance counselors, and attendance officers.
- D. As much as possible, parents and students will be involved in resolving discipline questions. Parents/guardians might serve as advisors to a school's discipline committee, and ways of emphasizing their primary responsibility for their children's behavior should be developed. At the secondary level in particular, students should have a means of being involved in their development and implementation of discipline codes and procedures for their building.
- E. All disciplinary offenses should be considered on an individual basis. Students should not be punished as a group at large for the offenses of known or unknown individuals.

- F. Crawford Central School Board will establish a committee to review this policy on a yearly basis. The School Board will give, to the fullest extent permissible, legal and financial support to teachers and administrators in the enforcement of the provision of this policy and will, where necessary, file charges against flagrant violators of the policy.

Annual Public Notice of Special Education & Early Intervention Services and Programs

It is the responsibility of the Pennsylvania Department of Education to ensure that all children with disabilities residing in the Commonwealth, regardless of the severity of their disability, and who are in the need of special education and related services, are identified, located, and evaluated. This responsibility is required by a federal law called the Individual with Disabilities Education Act (IDEA).

The IDEA required each state educational agency to publish a notice to parents in newspapers or other media before any major identification location or evaluation activity. The IDEA requires this notice to contain certain information. Pennsylvania law requires each school district to fulfill this notice requirement by providing an annual public notice.

The school district is required by the IDEA to provide a free appropriate public education to children with disabilities who need special education and related services. Pennsylvania has adopted state laws which conform with the IDEA and which school districts must follow. In Pennsylvania a school age child with disabilities who needs special education and related services is identified as a child with a disability. Students are exceptional if they need specially designed instruction and have one or more of the physical or mental disabilities:

- | | |
|-----------------------|--|
| Autism/Pervasive | Development Disorder Orthopedic Impairment |
| Deaf-Blindness | Other Health Impairment |
| Deafness | Specific Learning Disability |
| Emotional Disturbance | Speech or Language Impairment |
| Hearing Impairment | Traumatic Brain Injury |
| Mental Retardation | Visual Impairment Including Blindness |
| Multiple Disabilities | |

In Pennsylvania, students also qualify as exceptional if they require specially designed instruction and are determined to be mentally gifted. Also, school districts are required to conduct child find activities for children who may be eligible for gifted services via 22 PA Code Chapter 16. For additional information regarding gifted services, the parent may refer to 22 PA Code Chapter 16. If a student is both gifted and eligible for Special Education, the procedures in IDEA and chapter 14 shall take precedence.

Early Intervention:

IDEA requires the provisions of a free appropriate public education (FAPE) to children with disabilities between 3 years of age and the school district's age of beginners. In Pennsylvania, a child between 3 years of age and the school district's age of beginners who has a developmental delay or one or more of the physical or mental disabilities listed above is identified as a child with a disability. Developmental delay is defined as a child who is less than the age of

beginners and at least three years of age and is considered to have a developmental delay when one of the following exists: (i) the child's score, on a developmental assessment device, and assessment instrument which yields a score in months, indicates that the child is delayed by 25% of the child's chronological age in one or more developmental areas, or (ii) the child is delayed in one or more of the developmental area, as documented by test performance or 1.5 standard deviations below the mean on standardized tests. Developmental area includes cognitive, communicative, physical, social/emotional and self-help. For additional information you may contact the Early Intervention Program Supervisor, Northwestern Tri-County Intermediate Unit 5, 252 Waterford Street, Edinboro, PA 16412 Phone: 1-800-677-5610. These children are afforded the rights of school age exceptional children, including screening, evaluation, individualized education program planning, and provisions of appropriate programs and services. The Pennsylvania Department of Educational is responsible for providing programs and services to these children under Act 212 or 1990, the Early Intervention Services System Act.

Evaluation:

When screening indicates that a student may be exceptional, the school district will seek parental consent to conduct an evaluation. "Evaluation" means procedures used to determine whether a child has a disability and the nature and extent of the special education and related services that meet the child's needs. The term means procedures used selectively with an individual child and does not mean basic tests administered to or procedures used with all children.

In Pennsylvania, this evaluation is called a multidisciplinary evaluation (MDE). It is conducted by a multidisciplinary team (MDT), which must include a school psychologist, a teacher and the parents. The MDE process must be conducted in accordance with specific timelines and use procedural safeguard procedures. For example, test and procedures used as part of the multidisciplinary evaluation may not be racially and culturally biased.

The MDE process results in a written evaluation report called an (ER). This report makes recommendations about a student's eligibility for special education based on the presence of a disability and the need for specially designed instruction. The evaluation report also makes recommendations for educational programming regardless of whether or not the team recommend that the student is exceptional. Once parental consent for an evaluation is obtained, the school district has timelines and procedures specified by law, which it must follow.

Parent who think their child is a child with a disability may request, at any time that the school district conduct a multidisciplinary evaluation. This request should be made in writing to the Coordinator of Special Education Office. If a parent makes an oral request for a multidisciplinary evaluation the school district shall provide the parent with a form for written permission. Instructional support (IS) activities or RtII do not serve as a bar to the right of a parent to request, at any time, including prior to or doing the provision of instructional support activities, a multidisciplinary evaluation. For information about procedure applicable to your child, contact the school which your child attends. Telephone numbers and addresses can be found at the end of this notice. Parents of preschool age children three through five may request an evaluation in writing by addressing a letter to the Early Intervention Program Supervisor at Northwest Tri-County Intermediate Unit 5, 252 Waterford Street, Edinboro, PA 16412, 1-800-

677-5610. Parents also have the rights to obtain an independent educational evaluation. The school district must provide to parents, on request, information about where an independent educational evaluation may be obtained.

Consent:

School entities cannot proceed with an evaluation, or which the initial provision of special education and related services, without the written consent of the parents. For additional information related to consent, please refer to the Procedural Safeguards Notice which can be found at the PATTAN website at www.pattan.net. Once written parental consent is obtained, the school district, intermediate unit or charter school will proceed with the evaluation process. If the parent disagrees with the evaluation, the parent can request an independent education evaluation at public expense.

Program Development:

Once the evaluation process is complete, a team of qualified professionals and the parents determine whether the child is eligible. If the child is eligible, the individualized education program (IEP) team meets, develops the program, and determines the educational placement. Once the IEP team develops the program, and determines the educational placement, school district staff, intermediate unit staff, or charter school staff will issue a notice of recommended educational placement/prior written notice. Your written consent is required before initial services can be provided. The parent had the right to revoke consent after initial placement.

Educational Placement:

A single test or procedure may not be the sole factor in determining that a child is exceptional. The IEP team must include a district representative, the student's teacher, special education teacher and the parents. If the student is determined to be exceptional an IEP will be developed. An IEP describes a student's current educational levels, goals, and objectives, and the individual programs and services, which the student will receive. IEP's are reviewed on an annual basis. The IEP team will make decisions about the type of services, the level of intervention and the location of intervention. Placement must be made in the least restrictive environment in which the student's needs can be met with special education and related services. All students with disabilities must be educated to the maximum extent appropriate with children who are not disabled.

Services for Protected Handicapped Students:

Students who are not eligible to receive special education programs and services may qualify as protected handicapped students and therefore be protected by other federal and state laws intended to prevent discrimination. The school district must ensure that protected handicapped students have equal opportunity to participate in the school program and extracurricular activities to the maximum extent appropriate for the individual student.

In compliance with state and federal law, the school district will provide to each protected handicapped student without discrimination or cost to the student or family, those related aides, services, or accommodations which are needed to provided equal opportunity to participate in and obtain the benefits of the school program and extracurricular activities to the maximum

extent appropriated to the student's abilities. In order to qualify as a protected handicapped student the child must be of school age with a physical or mental disability, which substantially limits or prohibits participation in or access to an aspect of the school program.

These services and protections for protected handicapped students are distinct from those applicable to all eligibility or exceptional students enrolled (or seeking enrollment) in special education programs. The school district or parent may initiate an evaluation of a student under the laws, which protect handicapped students. Parents who wish to have a child evaluated should contact the building principal or the Office of Special Education.

Confidentiality:

Each school district protects the confidentiality of personally identifiable information regarding its exceptional and protected handicapped students in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA) and other applicable federal and state laws.

The Family Educational Rights and Privacy Act (FERPA) afford parents and students over 18 years of age ("eligibility students") certain rights with respect to the student's education records. The age of majority in Pennsylvania is 21. These rights are:

- 1.) The right to inspect and review the student's education records within 45 days of the day the school receives request for access.
Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
- 2.) The right to request the amendment of student's education records that the parent or eligible student believes are inaccurate or misleading.
Parents or eligible students may ask the school to amend a record that they believe is inaccurate. They should write the school principal (or appropriate school official) and clearly identify the part of the record they want changed and specify why it is inaccurate. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
- 3.) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosures without consent. One exception, which permits disclosure without consent is disclosure to school officials with legitimate education interests. A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school has contracted to perform a special task (such as a attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her task.

A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibility.

- 4.) The right to file a complaint with the U.S. Department of Education concerning alleged failure by the school district to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Complaints Office
U.S. Department of Education
400 Maryland Avenue, S.W.
Washington, DC 20202-4605

The school district maintains its education records in compliance with the guidelines for the collection, maintenance and dissemination of pupil records. Category “A” data which includes the minimal personal data necessary for operation of the school district will be maintained for a minimum time period of 100 years. Category “B: data which includes verified information of clear importance, but not absolutely necessary to the school, over time, in helping the child or in protecting others will be maintained until the child leaves school. Category “C” data which includes potentially useful information, but not yet verified or clearly needed beyond the immediate present, will be reviewed at least once a year and destroyed as soon as its usefulness has ended.

In addition, the school district may release “directory information” without parental consent unless a prior written objection to the release of such information is provided to the school district by the parent(s). “Directory information” includes the following: student’s name, address, telephone listing, date and place of birth, photographs, videotapes, major fields of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, duties of attendance, honors and awards received. If you object to the disclosure of this information, you must submit a written letter of objection to the school district. Written objections for students 3-5 years old should be mailed to Northwest Tri-county Intermediate Unit 5, 252 Waterford Street, Edinboro, PA 16412.

For additional information related to student records, the parent can refer to the FERPA at the following URL: <http://www.ed.gov/policy/gen/quid/fpc/ferpa/index.html>

Procedural Safeguards:

Procedural Safeguards protect the rights of parents and students. These safeguards include the following: Parent’s consent is always required prior to:

Conducting an initial (for the first time) evaluation or a reevaluation.

Initially placing a child with a disability in a special education program.

Disclosing to unauthorized persons personally identifiable information.

The school district must notify parents in writing whenever it wants to begin, change, or discontinue special education and related services. Along with this notification, the school district will provide the parents with a comprehensive, written description of their rights.

Parents who disagree with such actions proposed or refused by the school district have the right to request a hearing by an impartial third party using a procedure called due process.

Before a due process hearing will take place, the district must convene a preliminary meeting with the parent and the relevant member(s) of the IEP team in an attempt to resolve issues without the need for a due process hearing.

Pennsylvania has also made mediation services available throughout the Commonwealth at Commonwealth expense. Mediation services help parents and agencies involved in a dispute over special education to attempt to reach a mutually agreeable settlement with the assistance of an impartial mediator. Mediation is completely voluntary. Mediation does not deny or delay a party's right to a due process hearing.

School districts also have the right to initiate due process in certain situations. During a due process procedure, a student must remain in the last agreed upon educational placement (a status called pendency). Due process procedures are governed by timelines and procedures in Pennsylvania law.

Throughout due process, an attorney may represent parents. Due process hearings are oral personal hearings and are open to the public, unless the parents request a closed hearing. The decision of the hearing officer shall include finding of fact, a discussion, and conclusions of law. The decision of the hearing officer may be appealed to the appropriate court.

Each school district must make available, upon request, printed information regarding special education programs and services and parent due process rights. This printed information is available from each building principal and/or the Office of Special Education.
