SCHOOL HEALTH PROGRAM

The goal of the Pennsylvania School Health Program is to keep children as healthy as possible. With the health and safety of the students in mind, the following mandated school screenings are done each year.

The required physical, may be given by the child's pediatrician or personal care physician; however, documentation of that physical must be turned into the school nurse. You will be notified in writing if your child is due for a physical. For students in the required grades, the school physician will be available for this mandated physical.

Following the required screening, you will be notified if your child did not pass the screening or if the nurse feels that your child needs a follow up for further evaluation.

INJURY, ILLNESS, HOSPITALIZATIONS, ETC

If a child is injured or becomes ill at school, the parents/guardians will be notified. If the parents/guardians are not available, then the person designated on the Emergency Call and Parent Permission Card will be contacted. Emergency contacts need to be in the local area, so their response time does not endanger the child. Be sure to keep the school informed of any changes to telephone numbers, emails, addresses, places of employment, and emergency contacts.

The Pennsylvania Dept. of Health mandates the School Health Program maintain confidential health records on every student in grades K-12. Please let the nurse know if your child's health status changes, if there has been a hospitalization, an illness, injury, or concussion recently. The nurse, along with teachers and guidance counselors, can make any health accommodations to ensure your child's wellness, safety, and continued participation in school.

MEDICATIONS

If necessary for your child to receive medication during the school hours, please consult the Crawford Central School District Medications policy - See Guidelines for Administration of Medication to Students During the School Hours. The nurse can provide you with the required forms that need to be completed by you and the prescribing physician, or licensed prescriber **BEFORE** the medication can be given at school. See Appendix for Medication Administration Consent and Licensed Prescriber Order Form.

Medication **MUST** be provided in the original pharmacy container, or original packaging properly labeled with child's name, medication, dose, time, and route of administration.

A select few over-the-counter (OTC) medications may be administered by the nurse according to standing medication orders provided by the school physician and parent/guardian consent. See appendix for Emergency Call and Parent Permission Card for approved OTC medications.

Remember the nurse is willing to answer any questions or concerns you may have regarding your child's health or medication. ***No medications including over-the-counter as well as prescribed medications are to be kept by the student.*** See Crawford Central School District Drug & Alcohol Policy.

Nondiscrimination Statement and Complaint Procedure

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, age or disability. Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA Director, Office of Civil Rights, Room 326-W, Whitten Building, 14th and Independence Avenue SW, Washington, DC 20250-9410 or call (202) 720-5964 (voice or TDD). USDA is an equal opportunity provider and employer.

CLASSROOM SNACKS

Any food or drink items to be shared with classmates must be in "store bought" prepackaged, unopened, sealed containers. For the safety of all children, homemade items will no longer be distributed at school. In following the district's wellness policy, we encourage healthy drinks and snacks.

DEVELOPMENTAL GUIDANCE PROGRAM

The developmental guidance program is a school board approved program that emphasizes both social and emotional development. In past years, issues such as self-esteem, conflict resolution, respect, responsibility, cooperation and teamwork have been addressed. In addition, the guidance counselor may also run group counseling and individual counseling sessions as needed. Counselors also perform academic screenings and assist with school and state assessments. The counselor is part of the building Core Team and makes arrangements for further needed referrals to the School psychologist or community agencies. The counselor works collaboratively with parents, staff, students and agencies to make elementary school a positive experience.

PARENT TEACHER ORGANIZATIONS (P.T.O.)

The P.T.O. is an active and vital part of the elementary school experience. A common goal is to provide a forum for parents and teachers to work together to provide the finest quality elementary school education to every child who attends school. Fundraisers during the year provide field trips, gym equipment, educational materials, assemblies, accu-cut equipment and library materials. P.T.O. committees work with the school for various special activities.

Check your school calendar for meeting dates. We welcome all who are interested in the welfare of the children. Speakers and programs are also provided at some of the meetings. P.T.O. committees are formed for various school activities during the year. Parental involvement is welcomed.

FIELD TRIPS

Walking:

It is helpful to have a blanket permission slip allowing your child to go on walking field trips. Your child's teacher will let you know when and where these field trips are scheduled.

Bus Field Trip:

A permission slip will be sent home by your child's teacher prior to the bus field trip. It is necessary that this field trip request be signed and returned in advance so that your child has permission to attend the bus field trip. Without it, your child will not be permitted to attend the designated field trip.

Information about these activities will be provided on the school's monthly calendar. Parental permission slips will not be required for district or building wide activities.

CHANGE OF ADDRESS AND OTHER INFORMATION

It is the responsibility of parents to inform the school of address changes, phone numbers, and other important information in case of emergency or other important reasons. **Please call the school office with any changes.**

NON-INSTRUCTIONAL ITEMS

The classroom teacher or principal may hold any item that distracts from the learning in a CCSD classroom. In order to retrieve the item, the parent/guardian may be required to see the principal.

CHILD CUSTODY ISSUES

It is the responsibility of parents to provide the school with a current copy of any court orders involving student(s) and records. The school will make a copy of your current court order. The school can only take action on the most current court documentation that has been provided to the school office.

LOST AND FOUND

Lost items are placed in the Lost and Found in each school. Unclaimed items will be donated to charity or provided to students in need. Parents and students are encouraged to look through the Lost and Found to locate missing things. Valuable and important items are discouraged from being brought to school. It is recommended that parents mark clothing, book bag, and other items with the child's name.

SCHOOL CLOSING INFORMATION

The Superintendent of Crawford Central School District has the authority to authorize a two-hour delay or close schools due to inclement weather. Once the decision has been made for a two-hour delay, continue to monitor the media. There is a possibility that it could lead to a closure. Typically, this decision is made during the early morning hours. Information is distributed to parents in the following ways:

Automated Calling System- School notification system is used to notify parents using the phone number listed in the Student Information System.

Purpose

In accordance with the Board's philosophy to provide a quality educational program to all district students to increase the English language proficiency of students who are English Learners (EL), the district shall provide an effective Language Instruction Educational Program (LIEP) that meets the needs of English Learners. The goal of the LIEP shall be to demonstrate success in increasing English language proficiency and student academic achievement so that EL students can attain the academic standards adopted by the Board and achieve academic success. EL students shall be identified, assessed and provided appropriate instruction in accordance with the LIEP, and shall be provided an equitable opportunity to achieve their maximum potential in educational programs and extracurricular activities, consistent with federal and state laws and regulations. [\[1\]\[2\]\[3\]\[4\]\[5\]](#)

Authority

The Board shall approve a LIEP to provide English Language Development instruction (ELD) to EL students as part of the approved curriculum, in order to develop the English language proficiency of EL students. The district shall provide EL students with both planned ELD instruction and modifications in content instruction and assessments for all curricular areas, based on the provisions of the LIEP. The LIEP shall be thoughtfully and deliberately planned and evaluated in accordance with state and federal laws and regulations, and shall meet the needs of the district's EL students. The LIEP shall be based on effective research-based theory, implemented with sufficient resources and appropriately trained staff, and shall meet the following requirements: [\[1\]\[2\]\[3\]\[4\]\[5\]\[6\]](#)

1. Aligned to state academic content standards for the appropriate grade levels of EL students.
2. Include ELD instruction delivered by properly certified English as a Second Language (ESL) teachers, and other certified content area teachers working in conjunction with ESL certified teachers.
3. Incorporate the use of state assessments and ELD criteria.
4. Provide equitable access to content for EL students at all proficiency levels.
5. Provide equitable access to enrollment in courses or academic programs for which EL students are otherwise eligible.

The Board directs the LIEP to be evaluated for effectiveness based on student outcomes at least annually, and the results documented in accordance with state and federal laws and regulations, and state guidelines. [\[6\]\[7\]\[8\]\[9\]](#)

The district's LIEP and evaluation results of the LIEP shall be made available to district staff working with EL students and parents/guardians of EL students.

The Board may address EL students and programs in the district's comprehensive planning process.

The Board may contract with Northwest Tri-County Intermediate Unit No. 5 for ELD services and programs.

Delegation of Responsibility

The Superintendent or designee shall implement and supervise a LIEP that ensures appropriate instruction in each school and complies with federal and state laws and regulations.

The Superintendent or designee shall ensure that the district complies with all federal and state laws and regulations, and program requirements, for ELD program funding, including required reports in the form prescribed by the state.[9]

The Superintendent or designee, in conjunction with appropriate stakeholders, shall develop administrative regulations regarding the LIEP and provision of services to EL students.

Guidelines

Identification and Placement of EL Students

The district shall establish procedures for identifying and assessing the needs of students whose dominant language is not English. In order to identify which students are potential English Learners, the Home Language Survey shall be completed for each student upon enrollment in the district, and shall be maintained as part of the student's education records.[1][10][11]

EL students shall be appropriately placed in accordance with the LIEP within the first thirty (30) days of the school year, or within fourteen (14) days of enrollment.[12]

Program Access

EL students shall have equitable access to and be encouraged to participate in all academic and extracurricular activities available to district students.[13][14][15][16]

Assessment

The district shall annually administer required assessments to EL students to measure students' English Language proficiency and progress in reading, writing, speaking and listening/understanding. Assessment results shall be maintained in the student's education records. Parents/Guardians may not opt students out of English language proficiency assessments.[9]

EL students shall participate in all annual state or locally required assessments, with accommodations where applicable, and meet established academic standards and graduation requirements, in accordance with law, regulations and Board policy.[4][7][8][9][17][18][19][20][21][22][23]

Program Exit

The district shall include uniform provisions in the LIEP, in accordance with state required criteria, for:[8][9]

1. Reclassifying EL students as former EL students when they attain English language proficiency.
2. Actively monitoring and reporting the progress of former EL students for a period of two (2) years following reclassification and program exit.
3. Redesignating former EL students as active EL students if they struggle academically based on persistent language barriers.

Staff Qualifications and Professional Development

Certified employees and appropriate support staff, when necessary, shall provide the LIEP. The district shall ensure that all teachers providing ELD instruction hold the appropriate certification and can demonstrate academic language proficiency both in English and in the language used for instruction in their classroom.

[8][24]

Non-ESL staff shall incorporate ELD into all classes for EL students, as well as provide supports, modifications and accommodations for curricular content to enable EL students to achieve academic standards.

The district shall provide appropriate training in ELD for all professional staff as part of the Professional Development Plan.[7][25]

Special Education and Gifted Education Services

EL students may be eligible for special education services when they have been identified as a student with a disability and it is determined that the disability is not solely due to lack of instruction or proficiency in the English language.[26][27]

EL students may be eligible for gifted education services, when identified in accordance with law, regulations and Board policy. The district shall ensure that assessment of a student for gifted education services screens for intervening factors, such as English language proficiency, that may be masking gifted abilities.[28]

Students participating in ELD instruction who are eligible for special education services shall continue receiving ELD instruction, in accordance with their Individualized Education Program (IEP) or Gifted Individualized Education Plan (GIEP), at the appropriate proficiency and developmental level.[26][27][28]
Parent/Family Engagement and Communication

Communications with parents/guardians shall be in the mode and language of communication preferred by the parents/guardians.[3][29][30]

Within thirty (30) days of the beginning of each school year, or within fourteen (14) days of enrollment during the school year, the district shall notify parents/guardians of students identified as EL about the process for identifying their children as EL, the results of that process, and the recommended program placement. The district shall also provide parents/guardians with detailed information regarding the LIEP, the benefits of ELD instruction for their children, and an explanation of the program's effectiveness.[6] Parents/Guardians shall be regularly apprised of their child's progress, including achievement of academic standards and assessment results.[22][31]

The district shall maintain an effective means of outreach to encourage parental involvement in the education of their children.[6][7][8][29][30]

Parental Right to Opt Out of ELD Programs and Services -

Parents/Guardians of EL students have the right to refuse specialized programs and services that may be part of the LIEP for their child. A parent's/guardian's decision to refuse programs or services must be informed and voluntary; the district shall not influence a parent's/guardian's decision in any way, or make any program or placement determinations without parental notification and an opportunity to opt the student out of programs and services.[3][6]

The district shall make a parental waiver form available for parents/guardians to opt their EL child out of ELD programs and services.

The district shall document all notifications made to parents/guardians regarding assessment and recommended placements and programs for EL students, and whether or not a parental waiver form is received. When a waiver form is not received from the parent/guardian, the district shall proceed with the recommended placement.

EL students who have a parental waiver for ELD programs and services shall be assessed on English language proficiency annually, and shall be provided with supports and accommodations to participate in general curricular and extracurricular programs, in order to meet academic standards and graduation requirements.

[4][5][22]

Parents/Guardians of EL students who have been opted out of ELD programs and services shall be notified of their child's progress, including achievement of academic standards and assessment results, and shall be provided with opportunity and a form to opt their child back into ELD programs and services.[22][31]

The term may include an educational assignment in an alternative education program, provided the program does not include a program for disruptive youth established pursuant to Article XIX-C of the Pennsylvania Public School Code.[\[9\]](#)

Delegation of Responsibility

The Superintendent or designee shall annually notify students, persons in parental relation, staff and local Magisterial District Judges about the district's attendance policy by publishing such policy in student handbooks, newsletters, district website and other efficient communication methods.[\[1\]\[11\]](#)

The Superintendent or designee, in coordination with the Attendance Officer, shall be responsible for the implementation and enforcement of this policy.

The Superintendent or designee shall develop administrative regulations for the attendance of students which:

1. Govern the maintenance of attendance records in accordance with law.[\[12\]\[13\]](#)
2. Detail the process for submission of requests and excuses for student absences.

Guidelines

Compulsory School Attendance Requirements

All students of compulsory school age who reside in the district shall be subject to the compulsory school attendance requirements.[\[5\]](#)

A student shall be considered in attendance if present at any place where school is in session by authority of the Board; the student is receiving approved tutorial instruction, or health or therapeutic services; the student is engaged in an approved and properly supervised independent study, workstudy or career education program; or the student is receiving approved homebound instruction.

The following students shall be excused from the requirements of attendance at district schools, upon request and with the required approval:

 - b. The student's participation has been approved by the Superintendent or designee.
 - c. The adult directing and supervising the tour or trip is acceptable to the parents/guardians and the Superintendent.
11. College or postsecondary institution visit, with prior approval.

The district may limit the number and duration of nonschool-sponsored educational tours or trips and college or postsecondary institution visits for which excused absences may be granted to a student during the school year.

Temporary Excusals -

The following students may be temporarily excused from the requirements of attendance at district schools:

1. Students receiving tutorial instruction in a field not offered in the district's curricula from a properly qualified tutor approved by the Superintendent, when the excusal does not interfere with the student's regular program of studies.[\[5\]\[14\]\[17\]](#)
2. Students participating in a religious instruction program, if the following conditions are met:[\[27\]\[29\]](#)
 - a. The person in parental relation submits a written request for excusal. The request shall identify and describe the instruction, and the dates and hours of instruction.

Absences shall be treated as unlawful until the district receives a written excuse explaining the absence, to be submitted within three (3) days of the absence.

A maximum of ten (10) days of cumulative lawful absences verified by notification from a person in parental relation shall be permitted during a school year. All absences beyond ten (10) cumulative days shall require an excuse from a licensed health care provider.

Unexcused/Unlawful Absence

For purposes of this policy, absences which do not meet the criteria indicated above shall be considered an unexcused/unlawful absence.

An out-of-school suspension may not be considered an unexcused absence.[\[9\]](#)

Parental Notification -

District staff shall provide notice to the person in parental relation upon each incident of an unexcused/unlawful absence.

Enforcement of Compulsory Attendance Requirements

Student is Truant -

When a student has been absent for three (3) days during the current school year without a lawful excuse, district staff shall provide notice to the person in parental relation who resides in the same household as the student within ten (10) school days of the student's third unexcused absence.[\[30\]](#)

The notice shall:[\[30\]](#)

1. Be in the mode and language of communication preferred by the person in parental relation;
2. Include a description of the consequences if the student becomes habitually truant; and
3. When transmitted to a person who is not the biological or adoptive parent, the notice shall also be provided to the child's biological or adoptive parent, if the parent's mailing address is on file with the school and the parent is not precluded from receiving the information by court order.

The notice may include the offer of a School Attendance Improvement Conference.[\[30\]](#)

School Attendance Improvement Conference -

District staff shall notify the person in parental relation in writing and by telephone of the date and time of the School Attendance Improvement Conference.[\[30\]](#)

The purpose of the School Attendance Improvement Conference is to examine the student's absences and reasons for the absences in an effort to improve attendance with or without additional services.[\[9\]](#)

The following individuals shall be invited to the School Attendance Improvement Conference:[\[9\]](#)

1. The student.
2. The student's person in parental relation.
3. Other individuals identified by the person in parental relation who may be a resource.
4. Appropriate school personnel.
5. Recommended service providers.

Neither the student nor the person in parental relation shall be required to participate, and the School Attendance Improvement Conference shall occur even if the person in parental relation declines to participate or fails to attend the scheduled conference.[\[30\]](#)

The outcome of the School Attendance Improvement Conference shall be documented in a written

School Attendance Improvement Plan. The Plan shall be retained in the student's file. A copy of the Plan shall be provided to the person in parental relation, the student and appropriate district staff.[\[30\]](#)
The district may not take further legal action to address unexcused absences until after the date of the scheduled School Attendance Improvement Conference has passed.[\[30\]](#)

Student is Habitually Truant -

When a student under fifteen (15) years of age is habitually truant, district staff:[\[31\]](#)

1. Shall refer the student to:
 - a. A school-based or community-based attendance improvement program; or

1. Refer the student to a school-based or community-based attendance improvement program; or
2. File a citation in the office of the appropriate Judge against the student or the person in parental relation who resides in the same household as the student.

District staff may refer a student who is fifteen (15) years of age or older to the local children and youth agency, if the student continues to incur additional unexcused absences after being referred to a school-based or community-based attendance improvement program, or if the student refuses to participate in such program.[\[31\]](#)

Regardless of age, when district staff refer a habitually truant student to the local children and youth agency or file a citation with the appropriate Judge, district staff shall provide verification that the district held a School Attendance Improvement Conference.[\[31\]](#)

Filing a Citation -

A citation shall be filed in the office of the appropriate Judge whose jurisdiction includes the school in which the student is or should be enrolled.[\[32\]](#)

Additional citations for subsequent violations of the compulsory school attendance requirements may only be filed against a student or person in parental relation in accordance with the specific provisions of the law.[\[32\]](#)

Special Needs and Accommodations

If a truant or habitually truant student may qualify as a student with a disability, and require special education services or accommodations, the Director of Special Education shall be notified and shall take action to address the student's needs in accordance with applicable law, regulations and Board policy.[\[33\]](#)[\[34\]](#)[\[35\]](#)[\[36\]](#)

For students with disabilities who are truant or habitually truant, the appropriate team shall be notified and shall address the student's needs in accordance with applicable law, regulations and Board policy.[\[33\]](#)[\[34\]](#)[\[36\]](#)

Discipline

The district shall not expel or impose out-of-school suspension, disciplinary reassignment or transfer for truant behavior.[\[30\]](#)

Book	Policy Manual
Section	200 Pupils
Title	Student Discipline
Number	218
Status	Active
Adopted	November 25, 2013
<u>Purpose</u>	

The Board finds that student conduct is closely related to learning. An effective educational program requires a safe and orderly school environment.

Since discipline begins in the home between parent/guardian and child and continues in the classroom with the relationship between teacher and student, each individual should have a mutual responsibility for the maintenance of that discipline and for enforcement of rules governing behavior in the schools.

Direct, personal, and active responsibility for school rules throughout the district shall be shared among parents/guardians, students, teachers, administrators, and School Board members.

Authority

The Board shall establish fair, reasonable and nondiscriminatory rules and regulations regarding the conduct of all students in the school district during the time they are under the supervision of the school or at any time while on school property, while present at school-sponsored activities, and while traveling to or from school and school-sponsored activities.[1][2][3][4][5]

The Board shall adopt a code of student conduct to govern student discipline, and students shall not be subject to disciplinary action because of race, sex, color, religion, sexual orientation, national origin or handicap/disability. Each student must adhere to Board policies and the code of student conduct governing student discipline.[6][2][3][4][5][7]

The Board prohibits the use of corporal punishment by district staff to discipline students for violations of Board policies and district rules and regulations.[8]

Any student disciplined by a district employee shall have the right to notice of the infraction and the right to appeal to the building principal, Superintendent and the Board. In the case of an appeal, the original disciplinary decision shall be in effect until a final decision is made.[9]

Suspensions and expulsions shall be carried out in accordance with Board policy.[9]

In the case of a student with a disability, including a student for whom an evaluation is pending, the district shall take all steps required to comply with state and federal laws and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.[10][11][5][12][13][14]

Off-Campus Activities

This policy shall also apply to student conduct that occurs off school property and would otherwise violate the code of student conduct if any of the following circumstances exist:

1. The conduct occurs during the time the student is traveling to and from school or traveling to and from school-sponsored activities, whether or not via school district furnished transportation.
2. The student is a member of an extracurricular activity and has been notified that particular offcampus conduct could result in exclusion from such activities.[15][16][17]
3. Student expression or conduct materially and substantially disrupts the operations of the school.
4. The conduct involves the theft or vandalism of school property.

Delegation of Responsibility

The Superintendent or designee shall ensure that reasonable and necessary rules and regulations are developed to implement Board policy governing student conduct.

School rules are assumed to be reasonable until they are rescinded or waived. Students, therefore, should obey school rules while working through channels to effect change.

Building principals should make available to their students a complete list of student rules as found in the student handbook.

All rules must conform to Board policy. Whenever reasonably possible, new rules or changes in existing rules should become effective at the start of a new school year. In the event a new rule needs to be instituted after the start of the school year, administrators and teachers who introduce new rules or changes in existing rules for students under their supervision should, whenever reasonably possible, make known precise statements of the rules or regulations and their effective dates at least three (3) school days prior to the effective date in order to facilitate student awareness of the rules and fair, uniform enforcement.

The Superintendent or designee shall publish and distribute to all staff, students and parents/guardians the rules and regulations for student behavior contained in the code of student conduct, the sanctions that may be imposed for violations of those rules, and a listing of students' rights and responsibilities. A copy of the code of student conduct shall be available in each school library and school office and printed in the student handbooks.[\[2\]\[7\]](#)

The Superintendent or designee shall establish a committee to review the code of student conduct as it pertains to this policy on a yearly basis. Any revisions to the code of student conduct shall be subject to Board approval.

The building principal shall have the authority to assign discipline to students, subject to the policies, rules and regulations of the district and to the student's due process right to notice, hearing, and appeal.[\[18\]\[19\]](#)

Teaching staff and other district employees responsible for students shall have the authority to take reasonable actions necessary to control the conduct of students in all situations and in all places where students are within the jurisdiction of this district, and when such conduct interferes with the educational program of the schools or threatens the health and safety of others.[\[18\]](#)

Reasonable force may be used by teachers and school authorities under any of the following circumstances: to quell a disturbance, obtain possession of weapons or other dangerous objects, for the purpose of self-defense, and for the protection of persons or property.[\[8\]](#)

All employees of the district should be alert and responsible for identifying possible problems within the schools and should report the same to persons who are best able to aid in deterring the problem by utilizing all resources that are available and appropriate.

Parents/Guardians may consult with school authorities on implementation of this policy. The Board recognizes that parents/guardians have the primary responsibility for the behavior of their children.

Parents/Guardians are asked to ensure that their children understand and abide by this policy and assume the responsibilities enumerated in the code of student conduct and student handbook.

Referral to Law Enforcement and Reporting Requirements

For reporting purposes, the term incident shall mean an instance involving an act of violence; the possession of a weapon; the possession, use, or sale of a controlled substance or drug paraphernalia as defined in the Pennsylvania Controlled Substance, Drug, Device and Cosmetic Act; the possession, use, or sale of alcohol or tobacco; or conduct that constitutes an offense listed under the Safe Schools Act.[\[20\]\[21\]\[22\]](#)

The Superintendent or designee shall immediately report required incidents and may report discretionary incidents committed by students on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity to the local police department that has jurisdiction over the school's property, in accordance with state law and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.[\[23\]\[20\]\[21\]\[25\]\[26\]\[14\]](#)

The Superintendent or designee shall notify the parent/guardian of any student directly involved in an incident as a victim or suspect, as soon as practicable. The Superintendent or designee shall inform the parent/guardian whether or not the local police department that has jurisdiction over the school has been or may be notified of the incident. The Superintendent or designee shall document attempts made to reach the parent/guardian.[\[21\]\[27\]\[14\]](#)

In accordance with state law, the Superintendent shall annually, by July 31, report all new incidents to the Office for Safe Schools on the required form.[\[20\]\[28\]\[29\]\[31\]\[32\]\[14\]](#)

Guidelines

All disciplinary offenses should be considered on an individual basis. Students should not be punished as a group at large for the offenses of known or unknown individuals.

Detention

The Board recognizes that there are alternatives in the disciplining of students and permits the use of detention as a legitimate practice.

The Superintendent or designee is authorized to develop administrative regulations for the detaining of students after regularly scheduled school hours within these constraints:

1. Students receive at least one-day notice prior to the day of detention.
2. Elementary students' parents/guardians are notified at least one (1) day prior to the day of detention.

Book	Policy Manual
Section	200 Pupils
Title	Student Complaint Process
Number	219
Status	Active
Adopted	November 25, 2013

Purpose

The Board recognizes that students have the right to request redress of complaints. In addition, the Board believes that the inculcation of respect for established processes is an important part of the educational process. Accordingly, individual and group complaints shall be recognized, and appropriate appeal procedures shall be provided.

Definition

For purposes of this policy, a student complaint shall be one that arises from actions that directly affect the student's participation in an approved educational program.

Authority

The Board and its employees shall recognize the complaints of students, provided that such complaints are submitted according to the established Board policy and administrative regulations developed by the Superintendent or designee.

The student should first make the complaint known to the staff member most closely involved or, if none is identifiable, his/her guidance counselor; and both shall attempt to resolve the issue informally and directly.

For complaints which must move beyond the first level, the student shall prepare a written statement of his/her complaint, which shall set forth the specific nature of the complaint, a brief statement of the facts giving rise to it, and the relief sought by the student.

The complaint may then be submitted, in turn, to the building principal, the Superintendent and the Board, with a suitable period of time allowed at each level for the hearing of the complaint and the preparation of a response.

At each level, the student shall be afforded the opportunity to be heard personally by the school authority.

The student may seek the help of a parent/guardian at any level.

A student shall not be subjected to any reprisals because of filing a complaint.

Book	Policy Manual
Section	200 Pupils
Title	Searches
Number	226
Status	Active
Adopted	November 25, 2013

Purpose

The Board acknowledges the need to respect the rights of students to be free from unreasonable searches and seizures while fulfilling the district's interest in protecting and preserving the health, safety and welfare of the school population, enforcing rules of conduct, and maintaining an appropriate atmosphere conducive to learning.

Authority

School officials have the authority to lawfully search students or their belongings, including lockers, desks, automobiles, electronic devices, purses, backpacks, clothing, and other possessions, without a warrant, when in school, on school grounds or when otherwise under school supervision, if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the school population, or evidence that there has been a violation of the law, Board policy, or school rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched.

[\[9\]\[1\]\[2\]\[10\]](#)

The district has a compelling interest in protecting and preserving the health, safety and welfare of the school population, which under certain circumstances may warrant general or random searches of students and their lockers, desks, vehicles or other belongings without individualized suspicion, for the purpose of finding or preventing entry onto school property of controlled substances, weapons or other dangerous materials.[\[5\]\[6\]\[7\]](#)

Delegation of Responsibility

The Board authorizes the administration to conduct searches of students or their belongings, including lockers, desks, automobiles, electronic devices, purses, backpacks, clothing, and other possessions in accordance with the standards set forth in this policy.

The Superintendent or designee, in consultation with the district solicitor, shall develop guidelines and procedures to implement this policy, and shall ensure that school staff who are involved in carrying out searches or determining when searches will be conducted receive appropriate periodic training about such procedures and currently applicable legal standards.[\[2\]](#)

Students, parents/guardians and staff shall be notified at least annually, or more often if deemed appropriate by administration, about the standards and procedures in effect pursuant to this policy.

Guidelines

Individualized Suspicion Searches

Students or their belongings, including lockers, desks, automobiles, electronic devices, purses, backpacks, clothing, and other possessions, may be searched without a warrant when in school, on school grounds or when otherwise under school supervision, if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the school population, or evidence that there has been a violation of the law, Board policy, or school rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched.[\[2\]](#)

In determining whether reasonable suspicion exists, the principal or designee always should be able to articulate what is being looked for, and why it is thought to be located in the particular place to be searched. The scope of a search should be limited to the place or places the item sought is believed to be. Examination by school staff of text messages, call logs, files, images or other data contained in a student's mobile telephone or other electronic device, without the student's consent, constitutes a search that must be justified by reasonable suspicion that material in violation of law, district policy or school rules, or evidence of such a violation, is contained in the particular files, directories or other data locations being examined in the device.

Random or General Searches Without Individualized Suspicion

Under certain circumstances, random or general searches of students and their belongings, including student lockers or vehicles parked on school property, may be conducted during the school day or upon entry into school buildings or school activities, in the absence of suspicion focused on a particular student or students, for the purpose of finding or preventing entry onto school property or activities of controlled substances, weapons or other dangerous materials. Such searches normally will be conducted in a minimally intrusive manner using screening methods such as dogs or other animals trained to detect controlled substances, explosives or other harmful materials by smell, as well as metal detectors and other technology. When such screening methods provide a reasonable suspicion that particular students, items or places possess or contain controlled substances, weapons or other dangerous material, screening may be followed by physical searches of those particular students, items or places on an individualized basis. Random or general searches for weapons may be conducted when there are circumstances, information or events tending to indicate increased likelihood that students may be armed or headed for physical confrontation because of community strife or tensions, or as a continuation or escalation of a prior incident, in or out of school, which threatens to spill over into school, into a school-sponsored activity, or into other times and places that students are under school supervision.

Random or general searches for controlled substances may be conducted when there are circumstances, events or information tending to indicate significant drug use, possession or trafficking among students in school.

Random or general searches not based on individualized suspicion must be approved in advance by the Superintendent or designee, in consultation with the district solicitor. Coordination with law enforcement officials will be accomplished as provided in the memorandum of understanding with the applicable law enforcement agency.[8]

Searches Upon Consent

Searches may be conducted at any time, with or without reasonable suspicion, if the student has given knowing and voluntary consent specific to the place to be searched.

The administration may establish rules and procedures governing certain privileges enjoyed by students, such as the privilege of parking a vehicle on school grounds, that make the student's consent to random searches or inspections a condition of access to the privilege.[6]

Searches by or at the Request of Law Enforcement Officials

The legal standards governing searches initiated by school officials are less strict than the standards applicable to law enforcement authorities in many situations. When searches of students, student belongings, vehicles or lockers are conducted by or at the request of law enforcement officials, with or without the involvement of school staff, the law enforcement officials are solely responsible for ensuring that a warrant has been issued or that the circumstances otherwise permit the search to be lawfully conducted in accordance with the standards applicable to law enforcement actions. School staff will not interfere with or obstruct searches initiated by law enforcement, but may assist when law enforcement officials have requested such assistance and have represented that a warrant has been issued or that they otherwise have proper authority for a lawful search.[8]

Locker Inspections and Searches

Lockers are assigned to or otherwise made available to students as a convenience for the safe storage of books, clothing, school materials and limited personal property, and to facilitate movement between classes and activities and to and from school. Such lockers are and shall remain the property of the school district, and to the extent students have any expectation of privacy of lockers at all, it is very limited.

No student may place or keep in a locker any substance or object that is prohibited by law, Board policy or school rules, or that constitutes a threat to the health, safety or welfare of the occupants of the school building or the building itself. Students are required to ensure that their lockers do not contain spoiled food items or beverages, or soiled clothing which may attract pests, create odors or cause unhealthy conditions. A student locker may be opened and inspected for cleanliness, with or without the consent of the student,

whenever there are odors, pests or other indications that a locker contains spoiled food, soiled clothing in need of laundering or similarly unhealthy matter.

Students are exclusively responsible for locking their assigned lockers to ensure the security of their personal belongings and school property entrusted to them. Students are permitted to secure their assigned lockers only with locks provided by the district, or if the district does not provide locks, personal combination locks for which the combination has been provided to designated school staff.

Prior to an individual locker search or inspection, the student to whom the locker is assigned shall be notified and be given a reasonable opportunity to be present. However, when there is a reasonable suspicion that a locker contains materials which pose a threat to the health, welfare or safety of the school population, student lockers may be searched without prior notice to the student.

The principal or a designated staff person shall be present whenever a student locker is inspected for cleanliness or is searched. The principal or designee shall maintain written records of all occasions when a locker is searched or inspected. Such records shall include the reason(s) for the search, persons present, objects found and their disposition.

Searches Involving Removal of Clothing or Examination Beneath Clothing

Searches of students involving the removal of undergarments or examination beneath undergarments are subject to stricter standards than are required to justify other searches of a student's person or belongings. Such searches are permitted only when the basis for suspicion establishes either:

1. That the reasons for believing that the items being searched for are concealed specifically inside undergarments are stronger reasons than grounds that would support only a more general reasonable suspicion that the student is in possession of the items or has them somewhere on the student's person; or,
2. That the quantity or nature of the items being sought present a higher level of danger to the school population than other kinds of contraband.

Searches involving the removal of or examination beneath any clothing of a student, other than jackets, coats or other outerwear, shall be conducted only by a staff person of the same gender as the student, with at least one (1) other staff person of the same gender present as a witness, and in a location assuring privacy from observation by persons not involved in the search or of the opposite sex.

Searches involving the removal of undergarments or examination beneath undergarments will be conducted only after consultation with the district solicitor.

Handling and Disposal of Items Found in the Course of Searches

Any items or material found during a search or inspection, the student's possession of which is in violation of law, district policies or school rules, or otherwise is evidence of such a violation, may be confiscated, and may be used as evidence in student discipline proceedings or a criminal investigation, even if such items or material were not the original objective of the search or inspection.

The principal shall be responsible to ensure that confiscated items or material are properly inventoried and secured until the conclusion of disciplinary action, if any, and are then properly disposed of if not appropriate to be returned to the student. Items or materials that are evidence of a criminal offense, or that are not lawful for ordinary citizens to possess will be promptly turned over to proper law enforcement authorities for custody or disposal.

In the case of a student with a disability, including a student for whom an evaluation is pending, the district shall take all steps required to comply with state and federal laws and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.[\[7\]\[8\]\[9\]\[10\]\[32\]\[25\]](#)

The Superintendent or designee shall develop administrative regulations to identify and control substance abuse in the schools which:

No student may be admitted to a program that seeks to identify and rehabilitate the potential abuser without the intelligent, voluntary and aware consent of the student and parent/guardian.

Anabolic Steroids

The Board prohibits the use of anabolic steroids by students involved in school-related athletics, except for a valid medical purpose. Body building and muscle enhancement, increasing muscle bulk or strength, or the enhancement of athletic ability are not valid medical purposes. Human Growth Hormone (HGH) shall not be included as an anabolic steroid.[\[27\]](#)

Students shall be made aware of the dangers of steroid use; that anabolic steroids are classified as controlled substances; and that their use, unauthorized possession, purchase, or sale could subject students to suspension, expulsion and/or criminal prosecution.[\[28\]](#)[\[20\]](#)

The following minimum penalties are prescribed for any student athlete found in violation of the prohibited use of anabolic steroids:[\[31\]](#)

1. For a first violation, suspension from school athletics for the remainder of the season.

Title	Suspension and Expulsion
Number	233
Status	Active
Adopted	November 25, 2013
<u>Purpose</u>	

The Board recognizes that exclusion from the educational program of the schools, whether by suspension or expulsion, is the most severe sanction that can be imposed on a student and one that cannot be imposed without due process. The Board shall define and publish the types of offenses that would lead to exclusion from school. Exclusions affecting students with disabilities shall be governed by applicable state and federal law and regulations.[\[1\]\[2\]\[3\]\[14\]\[15\]](#)[\[5\]](#)

Authority

The Board may, after a proper hearing, suspend or expel a student for such time as it deems necessary, or may permanently expel a student.[\[6\]\[1\]\[7\]](#)

Guidelines

Exclusion From School - Suspension

The principal or person in charge of the school may suspend any student for disobedience or misconduct for a period of one (1) to ten (10) consecutive school days and shall immediately notify the parent/guardian and the Superintendent in writing when the student is suspended.[\[6\]\[1\]](#)

No student may be suspended without notice of the reasons for which s/he is suspended and an opportunity to be heard on his/her own behalf before the school official who holds the authority to reinstate the student. Prior notice is not required where it is clear that the health, safety or welfare of the school population is threatened. Suspensions may not be made to run consecutively beyond the ten-school day period.[\[1\]](#) When a suspension exceeds three (3) school days, the student and parent/guardian shall be given the opportunity for an informal hearing with the designated school official. Such hearing shall take place as soon as possible after the suspension, and the district shall offer to hold it within the first five (5) days of the suspension.[\[1\]\[7\]](#)

Informal hearings under this provision shall be conducted by the building principal.

Purpose of Informal Hearing

The purpose of the informal hearing is to permit the student to explain the circumstances surrounding the event leading to the suspension, to show why the student should not be suspended, and to discuss ways to avoid future offenses.[\[7\]](#)

Due Process Requirements for Informal Hearing

1. The student and parent/guardian shall be given written notice of the reasons for the suspension.[\[7\]](#)
2. The student and parent/guardian shall receive sufficient notice of the time and place of the informal hearing.
3. The student may question any witnesses present at the informal hearing.
4. The student may speak and produce witnesses who may speak at the informal hearing.
5. The school district shall offer to hold the informal hearing within five (5) days of the suspension.

Exclusion From Class - In-School Suspension

No student may receive an in-school suspension without notice of the reasons for which s/he is suspended and an opportunity to be heard prior to the time the suspension becomes effective. The parent/guardian shall be informed of the suspension action taken by the school.[\[2\]](#)

Should the in-school suspension exceed ten (10) consecutive school days, the student and parent/guardian shall be offered an informal hearing with the building principal. Such hearing shall take place prior to the eleventh day of the in-school suspension. The procedure shall be the same as the procedure for informal hearings held in connection with out-of-school suspensions.[\[2\]\[7\]](#)

The district shall provide for the student's education during the period of in-school suspension.[\[2\]](#)

Expulsion

Expulsion is exclusion from school by the Board for a period exceeding ten (10) consecutive school days. The Board may permanently expel from the district rolls any student whose misconduct or disobedience warrants this sanction. No student shall be expelled without an opportunity for a formal hearing before the Board or a duly authorized committee of the Board, and upon action taken by the Board after the hearing. Expulsion of a student shall be by a majority vote of the full Board.[\[6\]\[1\]\[7\]](#) Expulsion Hearings

A formal hearing shall be required in all expulsion actions.[\[6\]\[1\]\[7\]\[8\]](#)

The formal hearing shall observe the due process requirements of:[\[7\]](#)

1. Notification of the charges in writing by certified mail to the student's parent/guardian.
2. At least three (3) days' notice of the time and place of the hearing, which shall include a copy of this policy, hearing procedures, and notice of the right to representation by legal counsel. A student may request the rescheduling of the hearing when s/he demonstrates good cause for an extension.
3. The hearing shall be private unless the student or parent/guardian requests a public hearing.
4. Representation by counsel at the parent's/guardian's expense and parent/guardian may attend the hearing.
5. Disclosure of the names of witnesses against the student and copies of their written statements or affidavits.
6. The right to request that witnesses against the student appear in person and answer questions or be cross-examined.
7. The right to testify and present witnesses on the student's behalf.
8. A written or audio record shall be kept of the hearing and a copy made available to the student at the student's expense, or at no charge if the student is indigent.
9. The hearing shall be held within fifteen (15) school days of the notice of charges, unless a delay is mutually agreed to by both parties or is delayed by:
 - a. The need for laboratory reports from law enforcement agencies.
 - b. Evaluations or other court or administrative proceedings are pending due to a student's invoking his/her rights under the Individuals with Disabilities Education Act (IDEA).

- c. Delay is necessary due to the condition or best interests of the victim in cases of juvenile or criminal court involving sexual assault or serious bodily injury.

10. Notice of a right to appeal the results of the hearing shall be provided to the student with the expulsion decision.

Adjudication

A written adjudication shall be issued after the Board has acted to expel a student. The adjudication may include additional conditions or sanctions.[9]

Attendance/School Work During Suspension and Prior to Expulsion

Students serving an out-of-school suspension must make up missed exams and work, and shall be permitted to complete assignments pursuant to the following guidelines:[1][10]

1. A student has two (2) weeks from the date of readmission following suspension to make up missed work (i.e., homework, tests, quizzes, etc.).
2. The student is responsible to contact the teacher to find out what needs to be made up and to make arrangements for taking tests and completing assignments.

Students who are facing an expulsion hearing must be placed in their normal classes if the formal hearing is not held within the ten-school day suspension.

If it is not possible to hold the formal hearing within the first ten (10) school days, the school district may exclude such a student from class for up to five (5) additional – fifteen (15) total – school days if, after an informal hearing, it is determined that the student's presence in his/her normal class would constitute a threat to the health, safety or welfare of others.

Any further exclusion prior to a formal hearing may be only by mutual agreement. Such students shall be given alternative education, which may include home study.

In cases of in-school or out-of-school suspension, a student shall be prohibited from attending or participating in all school activities for the term of the suspension. In cases of expulsion, a student shall be prohibited from attending or participating in all school activities for the term of the expulsion.

Attendance/School Work After Expulsion

Students who are under seventeen (17) years of age are still subject to compulsory school attendance even though expelled and shall be provided an education.[11]

The parent/guardian has the initial responsibility of providing the required education and shall, within thirty (30) days, submit written evidence to the school that the required education is being provided or that they are unable to do so. If the parent/guardian is unable to provide for the required education, the school district shall, within ten (10) days of receipt of the parent's/guardian's notification, make provision for the student's education.

The district may provide an educational program to the student immediately upon expulsion and may waive the 30-day period, at its discretion.

Students With Disabilities

A student with a disability shall be provided educational services as required by state and federal laws and regulations and Board policies.[11][5]

Delegation of Responsibility

The Superintendent or designee shall develop administrative regulations to implement this policy which include:

1. Publication of a code of student conduct, in accordance with Board policy on student discipline.[12]
2. Procedures that ensure due process when a student is being deprived of the right to attend school.

3. Regulations regarding student records which require that records of disciplinary suspension be maintained in accordance with Board policy on student records.[13]
4. The name of a student who has been disciplined shall not become part of the agenda or minutes of a public meeting, nor part of any public record of the Board. Such students may be designated by code.
5. Any student who has been expelled may apply for readmission to school upon such conditions as may be imposed by the Board.

Last Reviewed	May 11, 2017

The Board believes that all students have a right to a safe and healthy school environment. The district, schools, and community have an obligation to promote mutual respect, tolerance, and acceptance.

Purpose

The Board is committed to providing a safe, positive learning environment for district students. The Board recognizes that bullying creates an atmosphere of fear and intimidation, detracts from the safe environment necessary for student learning, and may lead to more serious violence. Therefore, the Board prohibits bullying by district students.

Definitions

Bullying means an intentional electronic, written, verbal or physical act or series of acts directed at another student or students, which occurs in a school setting that is severe, persistent or pervasive and has the effect of doing any of the following:[\[1\]](#)

1. Substantial interference with a student's education.
2. Creation of a threatening environment.
3. Substantial disruption of the orderly operation of the school.

Bullying, as defined in this policy, includes cyberbullying.

School setting means in the school, on school grounds, in school vehicles, at a designated bus stop or at any activity sponsored, supervised or sanctioned by the school.[\[1\]](#)

Authority

The Board prohibits all forms of bullying by district students.[\[1\]](#)

The Board expects students to conduct themselves within their levels of development, maturity and demonstrated capabilities with a proper regard for:[\[2\]](#)

1. The rights and welfare of other students and school staff.
2. The educational purpose underlying all school activities.
3. The care of school facilities and equipment.

The Board encourages students who have been bullied to promptly report such incidents to the building principal or designee.

The Board directs that complaints of bullying shall be investigated promptly, and corrective action shall be taken when allegations are verified. Confidentiality of all parties shall be maintained, consistent with the district's legal and investigative obligations. No reprisals or retaliation shall occur as a result of good faith reports of bullying.

Delegation of Responsibility

Each student shall be responsible to respect the rights of others and to ensure an atmosphere free from bullying.

Since students learn by example, school administrators, faculty, staff and volunteers should be commended for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate bullying.

The Superintendent or designee shall develop administrative regulations to implement this policy.

The Superintendent or designee shall ensure that this policy and administrative regulations are reviewed annually with students.^[1]

The Superintendent or designee, in cooperation with other appropriate administrators, shall review this policy every three (3) years and recommend necessary revisions to the Board.^[1]

District administration shall annually provide the following information with the Safe School Report:^[1]

1. Board's Bullying Policy.
2. Report of bullying incidents.
3. Information on the development and implementation of any bullying prevention, intervention or education programs.

Guidelines

The code of student conduct, which shall contain this policy, shall be disseminated annually to students.^{[1][3][4]}

This policy shall be accessible in every classroom. The policy shall be posted in a prominent location within each school building and on the district website.

Education

The district may develop and implement bullying prevention and intervention programs. Such programs shall provide district staff and students with appropriate training for effectively responding to, intervening in and reporting incidents of bullying.^{[5][1][7]}

Complaint Procedure

The Board directs the building principal or designee at each school to be responsible for receiving complaints alleging violations of this policy. All school employees, as well as all other members of the school community, including students, parents/guardians, volunteers and visitors, are required to report alleged violations of this policy to the building principal or designee.

While submission of the report form is not required, the reporting party is encouraged to use the report form available from each building principal or available at the district's central office. This ensures a way of monitoring repeated offenses in order to determine appropriate consequences and/or remedial measures. Oral reports also shall be considered official reports. Reports may be made anonymously, but formal action for violations of the code of student conduct may not be based solely on the basis of an anonymous report.

District Action

The Board directs the building principal or designee to be responsible for determining whether an alleged act constitutes a violation of this policy. In so doing, the building principal or designee shall conduct a prompt, thorough and complete investigation of each alleged incident.

For every incident of bullying, the district must respond appropriately to the individual(s) who committed the act. The district shall set the range of responses, including individual, classroom, school and/or district response, as appropriate, in accordance with established administrative regulations.

Consequences for Violations

The Board directs the Superintendent or designee to develop and implement administrative regulations that ensure both appropriate consequences and remedial responses for a person who commits one or more acts of bullying.

Authority

The Board shall make the district's public records available for access and duplication to a requester, in accordance with law, Board policy and administrative regulations.^{[2][3][4][5]}

Delegation of Responsibility

The Board shall designate an Open Records Officer, who shall be responsible to:^[6]

1. Receive written requests for access to records submitted to the district.
2. Review and respond to written requests in accordance with law, Board policy and administrative regulations.
3. Direct requests to other appropriate individuals in the district or in another agency.
4. Track the district's progress in responding to requests.
5. Issue interim and final responses to submitted requests.

6. Maintain a log of all record requests and their disposition.
7. Ensure district staff are trained to perform assigned job functions relative to requests for access to records.

Upon receiving a request for access to a record, the Open Records Officer shall: [\[6\]\[16\]\[24\]](#)

1. Note the date of receipt on the written request.
2. Compute and note on the written request the day on which the five-day period for response will expire.
3. Maintain an electronic or paper copy of the written request, including all documents submitted with the request, until the request has been fulfilled.
4. If the written request is denied, maintain the written request for thirty (30) days or, if an appeal is filed, until a final determination is issued or the appeal is deemed denied.

Guidelines

Requesters may access and procure copies of the public records of the district during the regular business hours of the administration offices. [\[5\]](#)

A requester's right of access does not include the right to remove a record from the control or supervision of the Open Records Officer.

The district shall not limit the number of records requested. [\[2\]](#)

When responding to a request for access, the district is not required to create a record that does not exist nor to compile, maintain, format or organize a record in a manner which the district does not currently use. [\[8\]](#) Information shall be made available to individuals with disabilities in an appropriate format, upon request and with sufficient advance notice. [\[9\]\[10\]\[11\]](#)

The district shall post at the administration office and on the district's website, if the district maintains a website, the following information: [\[4\]\[12\]](#)

1. Contact information for the Open Records Officer.
2. Contact information for the state's Office of Open Records or other applicable appeals officer.
3. A form which may be used to file a request, with a notation that the state Office of Open Records form may also be used if the district decides to create its own form.
4. Board policy, administrative regulations and procedures governing requests for access to the district's public records. Request for Access

A written request for access to a public record must be addressed to the Open Records Officer. [\[4\]\[12\]\[13\]](#)

Written requests may be submitted to the district in person, by mail, to a designated facsimile machine, and to a designated email address.

Each request must include the following information: [\[5\]\[13\]](#)

1. Identification or description of the requested record, in sufficient detail.
2. Name and address of the individual to receive the district's response.

The district shall not require an explanation of the reason for the request or the intended use of the requested record, unless otherwise required by law. [\[13\]](#)

Fees

Except for the duplication fee established by the state, the Board shall approve a list of reasonable fees relative to requests for public records. The district shall maintain a list of applicable fees and disseminate the list to requesters.[\[14\]](#)

No fee may be imposed for review of a record to determine whether the record is subject to access under law.[\[14\]](#)

Prior to granting access, the district may require prepayment of estimated fees when the fees required to fulfill the request are expected to exceed \$100.[\[14\]](#)

The Superintendent may waive duplication fees when the requester duplicates the record or the Superintendent deems it is in the public interest to do so.[\[14\]](#)

Response to Request

District employees shall be directed to immediately forward requests for access to public records to the Open Records Officer.[\[6\]\[15\]](#)

Upon receipt of a written request for access to a record, the Open Records Officer shall determine if the requested record is a public record and if the district has possession, custody or control of that record.[\[16\]](#) The Open Records Officer shall respond as promptly as possible under the existing circumstances, and the initial response time shall not exceed five (5) business days from the date the written request is received by the Open Records Officer.[\[16\]](#)

The initial response shall grant access to the requested record; deny access to the requested record; partially grant and partially deny access to the requested record; notify the requester of the need for an extension of time to fully respond; or request more detail from the requester to clearly identify the requested material. If the district fails to respond to a request within five (5) business days of receipt, the request for access shall be deemed denied.[\[16\]](#)

Extension of Time

If the Open Records Officer determines that an extension of time is required to respond to a request, in accordance with the factors stated in law, written notice shall be sent within five (5) business days of receipt of request. The notice shall indicate that the request for access is being reviewed, the reason that the review requires an extension, a reasonable date when the response is expected, and an estimate of applicable fees owed when the record becomes available.[\[16\]\[17\]](#)

Up to a thirty-day extension for one (1) of the listed reasons does not require the consent of the requester. If the response is not given by the specified date, it shall be deemed denied on the day following that date. A requester may consent in writing to an extension that exceeds thirty (30) days, in which case the request shall be deemed denied on the day following the date specified in the notice if the Open Records Officer has not provided a response by that date.

Granting of Request

If the Open Records Officer determines that the request will be granted, the response shall inform the requester that access is granted and either include information on the regular business hours of the administration office, provide electronic access, or state where the requester may go to inspect the records or information electronically at a publicly accessible site. The response shall include a copy of the fee schedule in effect, a statement that prepayment of fees is required in a specified amount if access to the records will cost in excess of \$100 and the medium in which the records will be provided.

A public record shall be provided to the requester in the medium requested if it exists in that form; otherwise, it shall be provided in its existing medium. However, the district is not required to permit use of its computers.[\[5\]](#)

The Open Records Officer may respond to a records request by notifying the requester that the record is available through publicly accessible electronic means or that the district shall provide access to inspect the record electronically. If the requester, within thirty (30) days following receipt of the district's notice, submits a written request to have the record converted to paper, the district shall provide access in printed form within five (5) days of receipt of the request for conversion to paper.

[\[5\]\[18\]](#)

A public record that the district does not possess but is possessed by a third party with whom the district has contracted to perform a governmental function and which directly relates to that governmental function shall be considered a public record of the district. When the district contracts with such a third party, the district should require the contractor to agree in writing to comply with requests for such records and to

provide the district with the requested record in a timely manner to allow the district to comply with law.[\[19\]](#)

If the Open Records Officer determines that a public record contains information both subject to and not subject to access, the Open Records Officer shall grant access to the information subject to access and deny access to the information not subject to access. The Open Records Officer shall redact from the record the information that is not subject to access. The Open Records Officer shall not deny access to a record if information is able to be redacted.[\[20\]](#)

If the Open Records Officer responds to a requester that a copy of the requested record is available for delivery at the administration office and the requester does not retrieve the record within sixty (60) days of the district's response, the district shall dispose of the copy and retain any fees paid to date.[\[21\]](#)

Notification to Third Parties

When the district produces a record that is not a public record in response to a request, the Open Records Officer shall notify any third party that provided the record to the district, the person that is the subject of the record, and the requester.[\[22\]](#)

The Open Records Officer shall notify a third party of a record request if the requested record contains a trade secret or confidential proprietary information, in accordance with law and administrative regulations.[\[22\]](#)

Denial of Request

If the Open Records Officer denies a request for access to a record, whether in whole or in part, a written response shall be sent within five (5) business days of receipt of the request. The response denying the request shall include the following:[\[16\]](#)[\[23\]](#)

1. Description of the record requested.
2. Specific reasons for denial, including a citation of supporting legal authority.
3. Name, title, business address, business telephone number, and signature of the Open Records Officer on whose authority the denial is issued.
4. Date of the response.
5. Procedure for the requester to appeal a denial of access.

The Open Records Officer may deny a request for access to a record if the requester has made repeated requests for that same record and the repeated requests have placed an unreasonable burden on the district.[\[19\]](#)

The Open Records Officer may deny a request for access to a record when timely access is not possible due to a disaster, or when access may cause physical damage or irreparable harm to the record. To the extent possible, a record's contents shall be made accessible even when the record is physically unavailable.[\[19\]](#) Information that is not subject to access and is redacted from a public record shall be deemed a denial.[\[20\]](#)[\[23\]](#)

If a written request for access to a record is denied or deemed denied, the requester may file an appeal with the state's Office of Open Records within fifteen (15) business days of the mailing date of the Open Records Officer's response or deemed denial.[\[24\]](#)

Number	815
Status	Active
Adopted	August 25, 2014

Purpose

The Board supports use of computers, Internet and other network resources in the district's instructional and operational programs in order to facilitate learning, teaching and daily operations through interpersonal communications and access to information, research and collaboration.

The district provides students, staff and other authorized individuals with access to the district's computers, electronic communication systems and network, which includes Internet access, whether wired or wireless, or by any other means.

The Internet, computers and network resources are viewed as instructional learning tools for the purposes of integrating 21 Century resources and tools that support teaching and student learning. The Board acknowledges that electronic information research skills are important to the preparation of students as citizens and future employees, and believes these assets offer vast, diverse and unique resources to them. The Board's goal is to promote educational excellence by providing Internet, computers and network resources in a controlled environment to students; however, the use of these technologies is not a substitute for, and must not interfere with, the acquisition of other essential academic skills.

The Board provides Internet, computers and network resources, including email, primarily for educational purposes. District staff are permitted reasonable, limited use of these resources for incidental personal use outside of work time, provided such use is in accordance with Board policy, district rules and administrative regulations.

Authority

The availability of access to electronic information does not imply endorsement by the district of the content, nor does the district guarantee the accuracy of information received. The district shall not be responsible for any information that may be lost, damaged or unavailable when using the network or for any information that is retrieved via the Internet.

The district shall not be responsible for any unauthorized charges or fees resulting from access to the Internet or other network resources.

The Board declares that Internet, computer and network use is a privilege, not a right. The district's Internet, computer and network resources are the property of the district. Users shall have no expectation of privacy in anything they create, store, send, delete, receive or display on or over the district's Internet, computers or network resources, including personal files or any use of the district's Internet, computers or network resources. The district reserves the right to monitor, track, and log network access and use; monitor fileserver space utilization by district users; or deny access to prevent unauthorized, inappropriate or illegal activity and may revoke access privileges and/or administer appropriate disciplinary action. The district shall cooperate to the extent legally required with the Internet Service Provider (ISP), local, state and federal officials in any investigation concerning or related to the misuse of the district's Internet, computers and network resources.

[\[4\]](#)[\[5\]](#)[\[6\]](#)

The use of personal electronic or communication devices on the district's network is permitted only on designated networks with prior authorization from the building principal. When a user connects a personal device to a district-operated network, s/he is agreeing to the requirements contained in this policy and should consider his/her personal device subject to the same levels of monitoring and access as any district-owned, leased, or licensed technology device. These devices, once in a district building, may not be allowed to connect to an outside network in an attempt to circumvent district-owned technology protection measures.[7]

Specifically, the district operates and enforces a technology protection measure(s) that blocks or filters access to inappropriate matter by minors on its computers used and accessible to adults and students. The technology protection measure shall be enforced during use of computers with Internet access.[\[15\]](#)[\[2\]](#)[\[3\]](#)

Upon request by students or staff, the Superintendent or designee shall expedite a review and may authorize the disabling of Internet blocking/filtering to enable access to specific sites containing appropriate material that are inappropriately blocked through technology protection measures but are not prohibited by this policy.[\[15\]](#)

Upon request by students or staff, building administrators may authorize the temporary disabling or adjusting of Internet blocking/filtering to enable access to specific sites for bona fide research or for other lawful purposes. Written permission from the parent/guardian is required prior to disabling Internet blocking/filtering for specified sites for a student's use. If a request for temporary disabling of Internet blocking/filtering for specified sites is denied, the requesting student or staff member may appeal the denial to the Superintendent or designee for expedited review.[\[16\]](#)[\[2\]](#)

The district shall inform staff, students, parents/guardians and other users about this policy through employee and student handbooks, posting on the district website, and by other appropriate methods. A copy of this policy shall be provided to parents/guardians, upon written request.[\[15\]](#)

Users of district networks or district-owned equipment shall, prior to being given access or being issued equipment, sign user agreements acknowledging awareness of the provisions of this policy, and awareness that the district uses monitoring systems to monitor and detect inappropriate use and may use tracking systems to track and recover lost or stolen equipment.

Students, staff and other authorized individuals have the responsibility to respect and protect the rights of every other user in the district and on the Internet.

Building administrators shall make initial determinations of whether inappropriate use has occurred.

The procedures shall include but not be limited to:[\[2\]\[3\]\[17\]](#)

The Board shall ensure that this policy is posted on the district's publicly accessible website in accordance with law.[\[2\]](#)

Delegation of Responsibility

The district shall annually notify parents/guardians, employees and the public of this policy and established complaint procedures via the district website, newsletters, posted notices and/or other efficient communication methods.

Guidelines

General Complaint Procedure

It is the intent of the Board that complaints, concerns and suggestions be addressed and/or resolved at the lowest appropriate level.

At all levels of this procedure, district employees shall make a determination as to whether the complaint should proceed as outlined in this policy or if the complaint should be submitted through a specialized complaint process addressed in a separate Board policy, district procedure or administrative regulation that is directly related to the nature of the complaint.

General complaints about Board policy and district procedures, programs, instruction, operations, facilities and personnel shall begin with an informal, direct discussion between the complainant and the district employee who is most directly involved.

The employee shall attempt to provide a reasonable explanation or take appropriate action within the employee's authority. The employee shall report the matter and the resolution to the building principal or immediate supervisor.

When an informal discussion fails to resolve the complaint, the following procedure shall be used.

First Level - If a satisfactory resolution is not achieved by discussion with the employee, the complainant shall submit a written complaint to the building principal or designee and a conference shall be scheduled with the complainant. The written complaint shall include the contact information of the person or group filing the complaint, the specific nature of the complaint, a brief statement of relevant facts, how the complainant has been affected adversely, and the action requested. The building principal or designee shall provide a written response to the complainant.

Second Level - If a satisfactory resolution is not achieved through a conference with the building principal or designee, the complaint shall be referred to the Superintendent or designee. The Superintendent or designee shall review the complaint and may schedule a conference with the complainant. The Superintendent or designee shall provide a written response to the complainant.

Third Level - If a satisfactory resolution is not achieved through referral to the Superintendent or designee or if resolution of the complaint is beyond his/her authority and requires Board action, the Superintendent or designee shall refer the complaint to the Board.

The Board after reviewing all information relative to the complaint, shall provide the complainant with its written response. The Board may, at its discretion, grant a hearing before the Board or a committee of the Board. If a hearing is granted, the complainant shall be advised of the Board's response, in writing, no more than thirty (30) days following the hearing.

Any requests, suggestions or complaints first directed to individual Board members and/or the Board shall be referred to the Superintendent for consideration, investigation and action. If further action is warranted, based on the initial investigation, such action shall be in accordance with the procedures outlined above.

1. On-site visit to the building that is the subject of the complaint.
2. Opportunity to present evidence by all individuals and/or organizations involved.

1. Name of the individual or organization filing the complaint.
2. Nature of the complaint.
3. Summary of the investigation.
4. Recommended resolution.
5. Reasons for the recommended resolution.

The volunteer position is not a right, but rather a privilege that is conferred by the Board and the administration. As such, any volunteer position may be eliminated at any time. Furthermore, any volunteer may be dismissed from service as a volunteer for any reason or no reason.

The Board shall provide volunteers with the same general liability insurance coverage as provided for employees of the district, while performing their volunteer services.

The district's insurance will be in excess of any other insurance which may be available to the volunteer.

The District’s Board Policy 103 “Discrimination/Title IX Sexual Harassment Affecting Students” and the associated Attachment 2 “Discrimination Complaint Procedures” and Attachment 3 “Title IX Sexual Harassment Procedures and Grievance Process for Formal Complaints” are set forth in full on the District’s website and can be accessed at: <https://www.crow.org/about-us/district-policies-info>.

Definitions

“*Discrimination*” shall mean to treat individuals differently, or to harass or victimize based on a protected classification including race, color, age, creed, religion, sex, sexual orientation, ancestry, national origin, marital status, pregnancy and/or handicap/disability.

“*Harassment*” is a form of discrimination based on the protected classifications listed above consisting of unwelcome conduct such as graphic, written, electronic, verbal or nonverbal acts including offensive jokes, slurs, epithets and name-calling, ridicule or mockery, insults or put-downs, offensive objects or pictures, physical assaults or threats, intimidation or other conduct that may be harmful or humiliating or interfere with a person’s school or school-related performance when such conduct is:

1. sufficiently severe, persistent or pervasive; and
2. A reasonable person in the complainant’s position would find that it creates an intimidating, threatening or abusive educational environment such that it deprives or adversely interferes with or limits an individual or group of the ability to participate in or benefit from the service, activities or opportunities offered by the District or a school.

It shall be a violation of this policy to harass a student or District employee. Bullying can be a form of harassment. A student’s sending, sharing, viewing, selling, purchasing or otherwise disseminating of obscene, pornographic, lewd, sexually explicit or nude images, photographs or video content of another student may be considered harassment.

“*Title IX Sexual Harassment*” - means conduct on the basis of sex that satisfies one or more of the following:

1. A district employee conditioning the provision of an aid, benefit, or district service on an individual’s participation in unwelcome sexual conduct, commonly referred to as *quid pro quo sexual harassment*.
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive and objectively offensive that it effectively denies a person equal access to a district education program or activity.
3. Sexual assault, dating violence, domestic violence or stalking.
 - a. *Dating violence* means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim and where the existence of such a relationship is determined by the following factors:

- i. Length of relationship.
 - ii. Type of relationship.
 - iii. Frequency of interaction between the persons involved in the relationship.
- b. *Domestic violence* includes felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving federal funding, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction.
- c. *Sexual assault* means a sexual offense under state or federal law that is classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation.
- d. *Stalking*, under Title IX means stalking on the basis of sex, for example when the stalker desires to date a victim. Stalking means to engage in a course of conduct directed at a specific person that would cause a reasonable person to either:
- i. Fear for their safety or the safety of others.
 - ii. Suffer substantial emotional distress

Such conduct must have taken place during a district education program or activity and against a person in the United States to qualify as sexual harassment under Title IX. An education program or activity includes the locations, events or circumstances over which the district exercises substantial control over both the respondent and the context in which the harassment occurs. Title IX applies to all of a district's education programs or activities, whether such programs or activities occur on-campus or off-campus.

Violations of this **Harassment/Sexual Harassment/Title IX Sexual Harassment Policy**, as set forth more fully in Board Policy 103 "Discrimination/Title IX Sexual Harassment Affecting Students" and associated Attachments 2 and 3, including acts of retaliation as described in the policy, or knowingly providing false information, may result in disciplinary consequences under applicable Board policy and procedures. This Policy prohibits individuals from knowingly submitting false information during the Title IX grievance process outlined in Attachment 3 of Policy 103 and during other grievance or hearing processes established by Board policy and procedures and/or the Student Code of Conduct. A violation of this prohibition by district students may lead to discipline up to and including referral for expulsion.

Reports of Title IX Sexual Harassment and Other Discrimination and Retaliation and Grievance Procedure:

The Board encourages students and third parties who believe they or others have been subject to Title IX sexual harassment, other discrimination or retaliation to promptly report such incidents to the building principal or the Title IX Coordinator, even if some elements of the related incident took place or originated away from school grounds, school activities or school conveyances. A person who is not an intended victim or target of discrimination but is adversely affected by the offensive conduct may file a report of discrimination.

The student's parents/guardian or any other person with knowledge of conduct that may violate this policy is encouraged to immediately report the matter to the building principal or the Title IX Coordinator.

A school employee who suspects or is notified that a student has been subject to conduct that constitutes a violation of this policy shall immediately report the incident to the building principal or Title IX Coordinator, as well as properly making any mandatory police or child protective services reports required by law.

If the building principal is the subject of a complaint, the student, third party or a reporting employee shall report the incident directly to the Title IX Coordinator.

The complainant or the individual making the report may use the Discrimination/Sexual Harassment/Bullying/Hazing/Dating Violence/Retaliation Report Form which has been developed for purposes of reporting an incident or incidents in writing; however, verbal reports of an incident or incidents shall be accepted, documented and the procedures of this policy and the relevant attachments followed. A copy of this Report Form can be accessed on the District's website at: <https://www.craw.org/about-us/district-policies-info>, and through the building principal or the Title IX Coordinator.

The building principal shall promptly notify the Title IX Coordinator of all reports of discrimination, Title IX sexual harassment or retaliation. The Title IX Coordinator shall promptly contact the complainant regarding the report to gather additional information as necessary, and to discuss the availability of supportive measures as defined by Title IX. The Title IX Coordinator shall consider the complainant's wishes with respect to supportive measures.

The Title IX Coordinator shall conduct an assessment to determine whether the reported circumstances are most appropriately addressed through the District's Discrimination Complaint Procedures (Attachment 2 to Policy 103) or if the reported circumstances meet the definition of Title IX sexual harassment and shall be addressed through the Title IX Sexual Harassment Procedures and Grievance Process for Formal Complaints (Attachment 3 to Policy 103). Those procedures are lengthy and copies of the procedures are not reproduced in full in this Student Handbook but can be accessed on the District's website at: <https://www.craw.org/about-us/district-policies-info> and/or hard copies are available in the building principal's office and through the Title IX Coordinator.

Notice to Parents

According to state and federal special education regulations, annual public notice to parents of children who reside within a school district is required regarding child find responsibilities. School districts, intermediate units and charter schools are required to conduct child find activities for children who may be eligible for services via Section 504 of the Rehabilitation Act of 1973. For additional information related to Section 504/Chapter 15 services, the parent may refer to Section 504, Chapter 15, and the Basic Education Circular entitle Implementation of Chapter 15. Also, school districts are required to conduct child find activities for children who may be eligible for gifted services via 22 PA Code Chapter 16. For additional information regarding gifted services, the parent may refer to 22 PA Code Chapter 16. If a student is both gifted and eligible for Special Education, the procedure in IDEA and Chapter 14 shall take precedence.

This notice shall inform parents throughout the school district, intermediate unit, and charter schools of the child identification activities and of the procedures followed to ensure confidentiality of information pertaining to students with disabilities or eligible young children. In addition to this public notice, each school district, intermediate unit and charter schools shall publish written information in the handbook and on the website.

Children ages 3-21 can be eligible for special education programs and services.

If parents believe that the child may be eligible for special education, the parent should contact the school district where the child attends or the Director of Special Education for the NW Tri-County Intermediate Unit identified at the end of this public notice. Children age three through the age of admission to first grade are also eligible if they have developmental delays and, as a result, need special education and

related services. Developmental delay is defined as a child who is less than the age of beginners and at least three years of age and is considered to have a developmental delay when one of the following exists: (i) The child's score, on a developmental assessment device, on an assessment instrument which yields a score in months, indicates that the child is delayed by 25 percent of the child's chronological age in one or more developmental areas, or (ii) The child is delayed in one or more of the developmental areas, as documented by test performance of 1.5 standard deviations below the mean on standardized tests. Developmental areas include cognitive, communicative, physical, social/emotional and self-help. For additional information you may contact the Early Intervention Department at the Intermediate Unit. (See Evaluation Process below for contact info.)

Evaluation Process

Each school district, intermediate unit and charter schools have a procedure in place by which parents can request an evaluation. For information about procedures applicable to your child, contact the school, which your child attends. Parents of preschool age children, age three through five, may request an evaluation in writing by addressing a letter to the Early Intervention Supervisor, NW Tri-County Intermediate Unit #5, 252 Waterford St., Edinboro, PA 16412 or call 1-800-677-8461.

Consent

School entities cannot proceed with an evaluation or reevaluation, or with the initial provision of special education and related services, without the written consent of the parents. For additional information related to consent, please refer to the Procedural Safeguards Notice which can be found at the PaTTAN website at www.pattan.net. Once written parental consent is obtained, the school district, intermediate unit, charter schools, or PRRIs will proceed with the evaluation process. If the parent disagrees with the evaluation, the parent can request an independent education evaluation at public expense.

Program Development

Once the evaluation process is completed, a team of qualified professionals and the parents determine whether the child is eligible. If the child is eligible, the individualized education program (IEP) team meets, develops the program, and determines the educational placement. Once the IEP team develops the program and determines the educational placement, school district staff, intermediate unit staff or charter school staff will issue a notice of recommended educational placement/prior written notice. Your written consent is required before initial services can be provided. The parent has the right to revoke consent after initial placement.

Confidentiality of Information

The school districts, intermediate units, charter schools and PRRIs maintain records concerning all children enrolled in the school, including students with disabilities. All records are maintained in the strictest confidentiality. Your consent, or consent of an eligible child who has reached the age of majority under State law, must be obtained before personally identifiable information is released, except as permitted under the Family Education Rights and Privacy Act (FERPA). The age of majority in Pennsylvania is 21. Each participating agency must protect the confidentiality of personally identifiable information at collection, storage, disclosure, and destruction stages. One official at each participating agency must assume responsibility for ensuring the confidentiality of any personally identifiable information. Each participating agency must maintain, for public inspection, a current listing of the names and positions of those employees within the agency who have access to personally identifiable information.

In accordance with 34 CFR § 300.624, please be advised of the following retention/destruction schedule for the Pennsylvania Alternate System of Assessment (PASA), Pennsylvania System of School Assessment (PSSA), and Keystone Exam related materials:

- PSSA, Keystone Exam, and PASA test booklets will be destroyed one year after student reports are delivered for the administration associated with the test booklets.

Homeless Act: McKinney Vento Act

About Homeless Act-McKinney Vento Act

The McKinney–Vento Homeless Education Assistance Act guarantees a free and appropriate public education for all homeless children and youth. [B.E.C. 42 U.S.C. 11431](#) outlines procedures for deciding school placement, enrolling students, and determining responsibility. Federal and state laws make our responsibility clear.

McKinney-Vento Act Basics At-a-Glance:

What is the definition of a “homeless youth” under McKinney-Vento?

“Homeless” is defined as “anyone lacking a fixed, adequate, regular nighttime residence.”

What situations fit this definition?

- Staying in the home of other people due to unavailable housing, financial hardship, or similar circumstances
- Living in motels, hotels, trailer parks (in some instances – examples: leaking roof, no heat, etc.), public places, or campgrounds due to unavailable suitable housing options
- Living in an emergency shelter or transitional housing
- Unaccompanied (not living in direct care of legal parent or guardian) or runaway youth
- Refugee and migrant youth

How does McKinney-Vento help these students?

The law makes sure that these students receive a free and suitable public education by removing barriers to school enrollment and full, basic, daily participation in school activities. This includes:

- Immediate enrollment
- Free and Reduced School Lunch

- Help from school with any necessary enrollment documents
- Help from school setting up transportation service (if the student qualifies)
- Help from school with getting basic uniform clothing
- Help from school with basic school supplies
- Help from school with any basic clothing needs

NOTICE OF PRIVACY PRACTICES

THIS NOTICE DESCRIBES HOW HEALTH INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION.

PLEASE REVIEW IT CAREFULLY.

THE PRIVACY OF YOUR HEALTH INFORMATION IS IMPORTANT TO US.

OUR LEGAL DUTY

We are required by applicable federal and state law to maintain the privacy of students' health information. In most cases, this requirement arises from the Family Educational Rights and Privacy Act ("FERPA"). A separate notice required by FERPA is provided annually in the Student Handbook. However, in certain circumstances, another federal law also applies to students' health information. This other federal law is called the Health Insurance Portability and Accountability Act ("HIPAA"). HIPAA requires us to provide this Notice describing our privacy practices, our legal duties, and students' rights concerning their health information. We must follow the privacy practices described in this Notice while it is in effect as those practices relate to the types of students' health information protected by HIPAA ("Protected Health Information" or "PHI"). Although this Notice is written from the perspective of a student's health information, most decisions concerning PHI will be made by the student's parent or guardian. This Notice takes effect on the effective date indicated below.

We reserve the right to change our privacy practices and the terms of this Notice at any time, provided such changes are permitted by applicable law. We reserve the right to make the changes in our privacy practices and the new terms of our Notice effective for all PHI that we maintain, including PHI we created or received before we made the changes. Before we make a significant change in our privacy practices, we will change this Notice and make the new Notice available upon request.

Students, parents, and legal guardians of students may request a copy of our Notice at any time. For more information about our privacy practices, or for additional copies of this Notice, please contact us using the information listed at the end of this Notice.

USES AND DISCLOSURES OF HEALTH INFORMATION

Unless further restricted by any applicable state law, we may use and disclose PHI as follows:

Treatment: We may use or disclose PHI to another physician or other healthcare provider providing treatment to a student. For example, if a student transfers to another school, we may disclose PHI to the new school, or if a student needs to be sent to the hospital for emergency medical treatment, we may disclose PHI to the ambulance service and to the hospital.

Payment: In some circumstances, we may be able to receive reimbursement for the medical care, including mental health care and physical therapy that we provide to students. We may use and disclose PHI to obtain payment for such services. For example, we may provide PHI to Medicaid or the ACCESS program in order to get paid for taking care of a student. To do this, we will provide PHI to the billing company that handles our reimbursement claims.

Healthcare Operations: We may use and disclose PHI in connection with our healthcare operations. Healthcare operations include quality assessment and improvement activities, reviewing the competence or qualifications of healthcare professionals, evaluating practitioner and provider performance, conducting training programs, accreditation, certification, licensing or credentialing activities.

To Your Family and Friends: We may disclose PHI to a student's parents, family members, other relatives, close personal friends or other persons identified to us as involved in a student's healthcare or with payment for a student's healthcare. We may also use or disclose PHI to notify, or assist in the notification of (including identifying or locating) a family member, a personal representative or another person responsible for a student's care, regarding a student's location or general condition. If a student is present, then prior to the use or disclosure of PHI, we will provide the student with an opportunity to agree to or object to such uses or disclosures. In the event of a student's incapacity or in emergency circumstances, we will disclose PHI based on a determination using our professional judgment, disclosing only PHI that is directly relevant to the person's involvement in the student's healthcare.

Disaster Relief Purposes: We may disclose PHI to an entity assisting in a disaster relief effort so that a student's family can be notified about their general condition or location.

Marketing: We may use and disclose PHI to tell a student about or recommend possible treatment options or alternatives or other health-related benefits or services that may be of interest to them. However, we will not otherwise use PHI for marketing communications without the student's written authorization.

Required by Law: We may use or disclose PHI when we are required to do so by federal, state or local law.

Abuse or Neglect: We may disclose PHI to appropriate authorities for public health activities, for example, if we reasonably believe that a student is a possible victim of abuse, neglect, or domestic violence or the possible victim of other crimes. We may disclose PHI to the extent necessary to avert a serious threat to a student's health or safety or the health or safety of others.

National Security: We may disclose PHI to authorized federal officials as required for lawful intelligence, counterintelligence, and other national security activities. We may disclose to law enforcement officials having lawful custody of students under certain circumstances.

Other Special Situation: We may use or disclose PHI in certain special situations such as for workers' compensation programs, health oversight agencies for purposes of auditing, inspections, and licensure, legal proceedings, law enforcement purposes, and to coroners, medical examiners and funeral directors.

Your Authorization: In addition to our use or disclosure of PHI for treatment, payment or healthcare operations, a student may give us written authorization to use or disclose PHI about them for any other purpose. If a student gives us an authorization, the student may revoke that authorization in writing at any time. The student's revocation will not affect any uses or disclosures permitted by the authorization while it was in effect. Unless we receive a written authorization, we cannot use or disclose a student's PHI for any reason except those described in this Notice.

PATIENT RIGHTS

Access: Students have the right to look at or get copies of their health information, with limited exceptions. A student may request that we provide copies in a format other than photocopies. We will use the format the student requests unless we cannot practicably do so. (The student must make a request in writing to obtain access to PHI. We may charge a student a reasonable, cost-based fee for expenses such as copies and staff time needed to make copies of PHI. If a student prefers, we will prepare a summary or an explanation of the PHI for a fee. Contact us using the information listed at the end of this Notice for a full explanation of our fee Structure.)

Disclosure Accounting: Students have the right to receive a list of instances in which we or our business associates disclosed their PHI for purposes, other than treatment, payment, healthcare operations and certain other activities, for the last 6 years, but not before April 14, 2003. If a student requests this accounting more than once in a 12-month period, we may charge the student a reasonable, cost-based fee for responding to these additional requests. (A student must make a request in writing to obtain an accounting of our disclosures.)

Restriction: Students have the right to request that we place additional restrictions on our use or disclosure of their health information. We are not required to agree to these additional restrictions, but if we do, we will abide by our agreement (except in an emergency).

Alternative Communication: Students have the right to request that we communicate with them about their PED by alternative means or to alternative locations. (The student must make their request in writing.) Such requests must specify the alternative means or location, and provide satisfactory explanation how payments will be handled under the alternative means or location the student request. We will accommodate all reasonable requests.

Amendment: Students have the right to request that we amend their health information. (A student's request must be in writing, and it must explain why the information should be amended.) We may deny such requests under certain circumstances.

Electronic Notice: If you receive this Notice on our Website or by electronic mail (e-mail), you are entitled to receive this Notice in written form.

QUESTIONS AND COMPLAINTS

If students, parents, or guardians want more information about our privacy practices or have questions or concerns, please contact us.

If students are concerned that their privacy rights have been violated, or if students disagree with a decision we made about access to their health information or in response to a request a student made to amend or restrict the use or disclosure of his or her own PHI or to have us communicate with a student by alternative means or at alternative locations, the student may complain to us using the contact information listed at the end of this Notice. Students may also may submit a written complaint to the U.S. Department of Health and Human Services. We can provide the address to file your complaint with the U.S. Department of Health and Human Services upon request.

CRAWFORD SCHOOL CENTRAL DISTRICT

Dear Parent(s)/Legal Guardian(s):

Your child's school receives Federal Title I funds to assist students in meeting state achievement standards. Throughout the school year, we will be providing you with important information about this law and your child's education. This letter lets you know about your right to request information about the qualifications of the classroom staff working with your child.

At Crawford Central School District we are very proud of our teachers and feel they are ready for the coming school year and are prepared to give your child a high-quality education. As a Title I school, we must meet federal regulations related to teacher qualifications as defined in ESEA. These regulations allow you to learn more about your child's teachers' training and credentials. We are happy to provide this information to you. At any time, you may ask:

- Whether the teacher met state qualifications and certification requirements for the grade level and subject he/she is teaching,
- Whether the teacher received an emergency or conditional certificate through which state qualifications were waived, and
- What undergraduate or graduate degrees the teacher holds, including graduate certificates and additional degrees, and major(s) or area(s) of concentration.

Transportation / Review for 2020-2021 School Year

We will post bus routes on our website, www.craw.org, 7-10 days prior to the first day of school. Please check for your route information on our website prior to contacting our office.

The District recognizes the need to maintain proper standards of conduct for the safety of students who ride school buses and for the drivers who drive them. The use of video/audio recordings are intended to assist the administration, contractors, and drivers in observing behavior and preventing violations of bus rules and regulations. (Policy 810.4)

Regular routes for morning transport of students and afternoon return will be as follows:

1. Student(s) Pick-up and Drop-off

Student will only be permitted to have one pick-up location and one drop-off location. The pick-up location and drop-off location do not need to be the same. Both locations must be within the school's attendance area. An example would be (AM pick-up at *home address* and PM drop-off at *care provider*).

Split days per week with multiple pick-up and drop-off locations are not permitted. An example would be (*M,W,F* AM pick-up/drop off at *home address* *T,TH* at *daycare*).

We will provide transportation to daycares that are located in your student's school zone but not if they are in the school's walk zone. Schedules will follow same directive as above for split days.

Past practice in transporting students in a split custody situation, by court order, will remain the same with parents submitting the requests to the school or the Transportation Office prior to school starting and only to the school after the year has begun.

2. Group Stops

Implementing more group stops along the routes will continue in 2020-2021 school year. As routes are set, consideration for group stops will be closely monitored for safety as well as efficiency.

3. Use of Bus Notes

Handwritten bus notes are not permitted. Only approved transportation forms found on the district website or at the schools are to be used.

4. Route Elimination/Consolidation

As the routes are being constructed for 2020-2021 school year, the District will attempt to consolidate existing routes for full ridership as permitted by statutes. Again, safety and ride time of the students will be the prominent thought as these routes are designed to run as efficiently as possible.

Parents/guardians - please recognize that bus assignments cannot be customized to meet every individual need and still be part of an efficient and economical transportation system. Please have your student(s) to their stop on time, dressed for conditions, and following appropriate safety practices.

Thank you for your consideration.

Mr. Thomas K. Washington, Superintendent

****Please read the following agreement and keep this page for your information. ****

Please complete and return the signature page for computer access.

The following form must be read and signed by you **and** your parent or legal guardian. By signing this consent and waiver form, I agree to abide by the guidelines set forth in the Internet Acceptable Use Policy No. 815. I have discussed these rights and responsibilities with my parent(s) or guardian(s).

Further, my parent(s)/guardian(s) and I have been advised that the district does not have control of the information on the Internet, although it attempts to provide prudent and available barriers. Other sites accessible via the Internet may contain material that is illegal, defamatory, inaccurate, or potentially offensive to some people. While the Crawford Central School District's intent is to make Internet access available to further its educational goals and objectives, account holders have the ability to access other materials as well.

The district believes the benefits to educators and students from access to the Internet, in the form of information resources and opportunities for collaboration, far exceed any disadvantages of access. Ultimately, the parent(s)/guardian(s) of minors are responsible for setting and conveying the standards that their student should follow. To that end, the district supports and respects each family's right to decide whether or not to apply for the Crawford Central School District network access.

The student and his/her parent(s)/guardian(s) must understand that access to the Crawford Central School District network exists to support the district's educational responsibilities and mission. The specific conditions and services that are offered will change from time to time. By signing this acceptance waiver, you are agreeing to the use of various applications, email and internet access in general to accomplish the educational goals of the district. The internet is a compilation of many networks that supports the open exchange of information for research and educational purposes. The internet can be accessible to anyone, anywhere, anytime. Students must understand that by using the network, their actions can be monitored at any time by a teacher or administrator.

Students are expected to:

1. Respect and protect the privacy of others.
 - Use only assigned accounts
 - Not view, use, or copy passwords, data, or networks to which they are not authorized
 - Not distribute private information about others or themselves
2. Respect and protect the integrity, availability, and security of all electronic resources.
 - Observe all network security practices
 - Report security risks or violations to a staff member or network administrator
 - Not destroy or damage data, networks, or other resources that do not belong to them
 - Conserve, protect, and share these resources with other students and Internet users
3. Respect and protect the intellectual property of others.
 - Follow all copyright law; i.e. do not make illegal copies of music, games, or movies
 - Not plagiarize
4. Respect and practice our district values.
 - Communicate only in ways that are kind and respectful
 - Report threatening or discomfoting materials to a staff member
