Authority

The Board shall adopt policies and procedures which will enable them to act as the representatives of the public and ensure public control of education, while also conducting a quality system of education in accordance with state and federal law and regulations.[1]

Guidelines

The Board encourages the public, Board members, staff and students to provide input for Board policies. The Board shall consider all legitimate suggestions.

In the event the district has a need to create a new policy or to revise an existing policy, the Superintendent or his/her designee may request sample policies from the Pennsylvania School Boards Association for reference. The Policy Committee and administration shall review the existing policies, sample policies, applicable law and regulations, and all pertinent information on the topic to create or revise a policy that will be in the best interests of all parties involved.

Once the administration has developed the new or revised policy in a written form, it shall be presented to the Board for approval, in accordance with Board procedures.[2][3]
