

Smarter Balanced Interim Assessments

Interims provide assessment results and can be used to guide instructional next steps and progress monitor. This is not the Training Test. The Training Test is used to show the formatting and tools students will need to be aware of to successfully take the SBA on-line assessments. The Training Test will not give you data, it just provides experience with the software

We administer SBA IAB's the same way we administer the SBA Summative Assessments:

Test Administration

First Time Login This School Year?

The password you used during the previous school year has expired.

[Request a new one for this school year.](#)

Log in using your school e-mail and password.

Click + by Interim SBA

Choose Block or Comprehensive - Click +

- Blocks assess specific content strands within the grade level standards
- Comprehensive assesses a variety of the grade level standards (similar to the end of the year Summative CAT...Computer Adaptive Test)

Keep Clicking + to open different content & grade level options

Scroll down to find the grade level and/or content strand assessment you want to assign and click your choice

Reason for Session (keeps testing data separate if you administer IAB more than once...)

Start Session... You will be given a session #

Your students will need the session # AND

their 10 digit district ID #s (collect tickets back after use so you have them for next time)

Have students login and take assessment on Chromebooks...Chromebooks need to be put into **TESTING MODE** by Tech...send a Help Desk a couple days in advance telling them the time frame you want specific Chromebook numbers put into and then taken out of testing mode

Review and Analyze student IAB data results...see other document
