

## AUTOMOTIVE TECHNOLOGY I & II 2020 - 2021 MATERIALS LIST

Required for the first day of the school year:

- Safety glasses – clear, not tinted – standard goggles or prescription glasses with side shields. Must have even if you have regular glasses. If regular glasses are safety lenses, they need side shields.
- Two pairs of dark blue work pants
- Two dark blue work shirts  
For safety issues, uniforms must fit properly – no loose-fitting clothing
- Slip resistant leather-type work shoe to be used for lab only
- Auto mechanic's tool kit
- 3” notebook with 6 dividers for notes, handouts, tests, etc.

Tennis shoes are not permitted in the lab. You will need a change of clothes and shoes for both the related and academic classes. A lab locker, as well as a hall locker, will be provided for storage.

The tool kit list is essential to your program. You should purchase good quality tools or provide tools from what you already have.
