CES took 2nd place on Saturday, March 9th at the regional Destination Imagination tournament. This is the first year CES had a team. They attended the state tournament April 5-6 in Denver.

The challenge the team picked was On Target. It is a technical challenge that prompts students to complete tasks by using engineering research, strategic planning, and related skills:

- Design and build an aircraft that takes off, flies, and lands.
- Design the aircraft to deliver a team-created payload.
- Create and present a story about one or more characters exploring a remote place.
- Create and present two Team Choice Elements that show off the team's interests, skills, areas of strength, and talents.

Lincoln school competed in the Fine Arts Challenge--Game on at the Destination Imagination South Region Tournament. They had to research a game and compose a skit that portrayed the history of the game along with inventing a technical component. Our students researched Twister and built their own human spinner. They placed second and advanced to the state competition which was held in Denver on April 6th.
