

Study Skills Group

Homework Help Group

This group is led by Care Manager, Nicole Ortega, who has three years of teaching experience.

The goal of this group is to help kids age 9-18, who are struggling with their academics, develop strong study skills and to practice those skills in real time. Skills at this time will be related to the transition to doing schoolwork virtually in the home setting. After a brief check-in and study skills lesson, participants will be able to work on their school-work for an opportunity to practice the skills with help from a former teacher.
