

STUDENT VOLUNTEERS FOR SCHOOL AND PUBLIC SERVICE

The Board encourages the utilization of student volunteers in the educational program (e.g., student librarians, student office helpers, etc.) and in useful community services. However, student volunteers must be capable of carrying out the additional load without endangering their academic achievement. Therefore, all student volunteers shall be expected to maintain their grades, attend all classes, and recognize that the activity to which they are volunteering their services is secondary to their primary goal of getting an education.

Teachers and members of the community are encouraged to check with the guidance counselor and the principal before students are sought for volunteer help, to make sure that the students can afford academically to undertake the additional responsibility.

Students during school time or as part of a school project may produce services and materials for community organizations or groups only to the extent that such production furthers such students' educational development. Care must be exercised by the administration in interpreting this policy to avoid the exploitation of students.
