AIA POSITION STATEMENT

SUPPLEMENTS, DRUGS AND PERFORMANCE ENHANCING SUBSTANCES

PURPOSE OF FORM: All AIA Member schools are required to **ANNUALLY** communicate this AIA Position Statement on the use of supplements, drugs and performance enhancing substances to every participant in interscholastic activities. (See Article 14, Section 14.13.2)

The Arizona Interscholastic Association (AIA) views sport, and the participation of student-athletes in sport, as an activity that enhances the student-athlete's well-being by providing an environment and stimulus that promotes growth and development along a healthy and ethically based path.

- It is the position of the AIA that a balanced diet, providing sufficient calories, is optimal for meeting the nutritional needs of the growing student-athlete.
- It is the position of the AIA that nutritional supplements are rarely, if ever, needed to replace a healthy diet.
- Nutritional supplement use for specific medical conditions may be given individual consideration.
- The AIA is strongly opposed to "doping", defined as those substances and procedures listed on the World Anti Doping Agency's Prohibited List (www.wada-ama.org).
- It is the position of the AIA that there is no place for the use of recreational drugs, alcohol or tobacco in the lifestyle of the student-athlete. The legal consequences for the use of these products by a student-athlete are supported by the AIA.

In pursuit of **Victory with Honor**, the AIA promotes the use of exercise and sport as a mechanism to establish current fitness and long-term healthy lifestyle behaviors. It is the position of the AIA that the student-athlete, who consumes a balanced diet, practices sport frequently and consistently, and perseveres in the face of challenges, can meet these goals.

Introduction

Every Year over 70,000 students in the state of Arizona participate in interscholastic activities at the high school level. The Arizona Interscholastic Association is comprised of member schools that establish eligibility criteria for students, such as yourself, to be able to participate.

When you become a member of the interscholastic team at your high school, you will find that both your school and the AIA will have rules you must follow in order to be eligible for interscholastic participation. AIA rules must be followed as minimum standards for all interscholastic competition in any member school. Your high school may have additional requirements. But they may not be less stringent than these statewide minimums.

This information contained in this packet will acquaint you with the major rules and regulations you must follow in order to maintain and protect your high school eligibility. Any questions you have concerning these essential requirements or athletic eligibility should be checked with your school principal or athletic director. These administrators in your school have a complete copy of all the AIA eligibility requirements.
