

Quality Profile

Perry Local Schools | 2018-2019

A successful school district places a high degree of importance on ensuring that all children have the opportunity to reach their full potential inside and outside of the classroom. This profile helps characterize the overall educational value of our school district in areas that matter most in our community.

Fiscal Stewardship

Financial responsibility ensures that the majority of funding is spent on classroom instruction.

Perry Local School District's excellent record keeping has qualified it, once again, for the Auditor of State Award with Distinction.

43 years since the District has been on the ballot for an operating levy

From the Superintendent

Many variables determine how well a school district performs, but nothing has more of a positive impact than community support.

We are proud to present you with the 2018 – 2019 edition of Perry Local School's Quality Profile. The categories within have been mutually agreed upon by districts throughout Ohio. This profile is designed to show trends in various areas to provide us with a transparent picture of our district.

Some of the areas where we have seen growth have, in part, stemmed from our focus on culture. For example, our belief in the pursuit of greatness has resulted in more than 200 hours of additional professional development for our staff and the addition of 6 authentic learning opportunities for our students. Believing in the power of relationships has led to 437 new community and parent volunteers since 2015, and the investment of over 5,000 additional community service hours from our students, helping us be stronger together. Taking personal responsibility to own our actions and improve situations, has created over \$85,000 in scholarships awarded to high school students this past year alone giving our students a significant boost in the never ending journey to be prepared for life.

We are continually striving to stay on path and do whatever it takes for as long as it takes, to inspire all students to achieve personal excellence, pursue world class standards, and become self-directed lifelong learners. Thank you for your interest in the Perry Schools and your time as you review this year's Quality Profile.

Dr. Jack Thompson *Superintendent*

Mission Statement

"Inspire all students to achieve personal excellence, pursue world-class standards and be self-directed, lifelong learners."
