Message from Mr. Timpano:

2026 is off to a fast start! This month grades 3-6 students will complete a simulation of Computer Based Testing in ELA and Math. This allows students to become comfortable with testing on the computer before they do so on the state tests later on this year.

With the state tests approaching, it is vital you have conversations with your child about taking their time and doing their best. We would like 5th and 6th grade students to spend at least 90 minutes on the state test. We would like 3rd and 4th grade students to spend at least 60 minutes on the state tests. Students will have incentives to do so.
