General Notes:

- Enrollment is based on the end-of-term (EOT) census for each term.

- For Unique Enrollment, each student is counted once per program during the academic year. If a student changes programs during the year, they are counted once in each program.

- Fall-to-spring retention is based on the student's declared program in the fall term. Students who complete a terminal credential in that program are excluded. The remaining students are considered retained if they enroll in the same program in the following spring term.

- Graduation rate is calculated by comparing current-year completers of the highest-level award offered by the program to the unique enrollment from the first year of the three-year period.

Program Specific Notes:

- Retention rate is not applicable for short-term training programs.

- Program named changed from Cardiovascular Medical Clinical Assistant to Medical Clinical Assistant effective AY 2019-2020.

- Program CIP changed from 510901 to 510801 effective AY 2019-2020.
