General Notes:

- Enrollment is based on the end-of-term (EOT) census for each term.

- For Unique Enrollment, each student is counted once per program during the academic year. If a student changes programs during the year, they are counted once in each program.

- Fall-to-spring retention is based on the student's declared program in the fall term. Students who complete a terminal credential in that program are excluded. The remaining students are considered retained if they enroll in the same program in the following spring term.

- Graduation rate is calculated by comparing current-year completers of the highest-level award offered by the program to the unique enrollment from the first year of the three-year period.

Program Specific Notes:

- Retention rate is not applicable for short-term training programs.

- CTC-NURS award is in the process of being phased out as of academic year 2025-2026.

- Graduation rate is calculated using only CTC-NASS as the terminal award.
