

PUBLIC NOTICE
Oyster River School District – SAU 5

Mandatory Report to Voters on School Expenses

Pursuant to RSA 189:76, the Oyster River School District hereby provides this required report to voters on school expenses. The statute requires school districts to publicly disclose specified financial information related to educational spending and administrative compensation prior to the school district adopts a budget. A copy of the RSA and its requirements are attached to this notice.

Per RSA 189:76 our report includes:

- **10-Year Comparisons:** Graphs showing trends in cost-per-pupil, teacher salaries, and administrator pay. Per the RSA, these figures are adjusted for inflation so the community can see true spending changes over time.
- **Administrative Salaries:** A list of the current salaries of the four highest-paid administrators employed or contracted by the district or corresponding school administrative unit.
- **Public Access:** As mandated by law, this information is available for review at least one week before the budget is adopted.

The report is available at the SAU Office, posted at the high school, middle school and the SAU, and on our website. We encourage residents to review these materials as we prepare for the upcoming fiscal year.
