21 Item Identified

21 Item Incomplete

A handwritten signature in black ink, appearing to read "Jason Liggett".

Jason Liggett

Department Manager- Field Services

### Item 1

Assigned To: Onsite

Please remove the piping from the first pond on the right-hand side as you enter the community (Pond #1).

Once removed, store the piping in the field for the time being. We will keep it there until we can confirm that it is no longer needed.

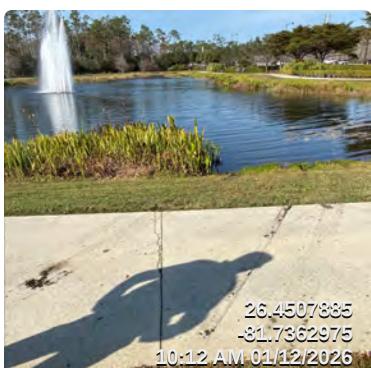

### Item 2

Assigned To: Board

Pond #1 is in good shape overall. There is a small amount of filamentous algae along the sides.

During my inspection, all aeration systems appeared to be operating properly.

### Item 3

Assigned To: Aquatics

Please make sure we are being careful when using boats in Pond #1. We are starting to see ruts forming on the east side of the pond.

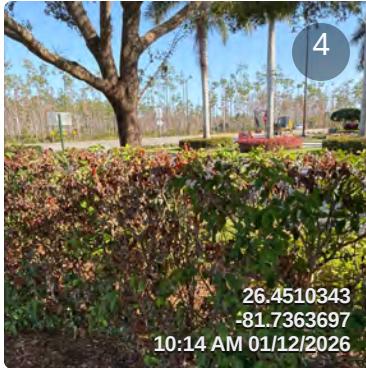

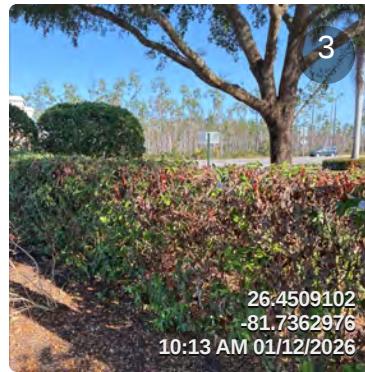

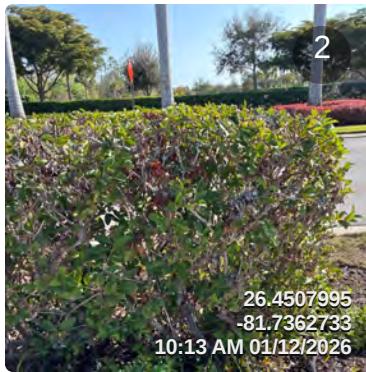

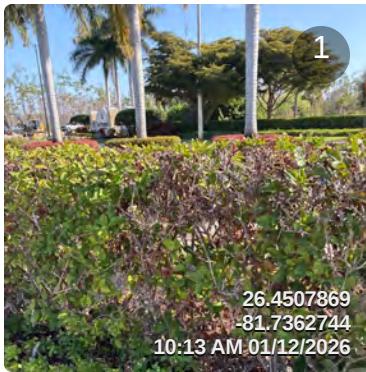

Let's be mindful of this moving forward to prevent further damage.

### Item 4

Assigned To: Board

The Viburnum Odoratissimum on the west side of the entrance are declining due to the work along Corkscrew Road.

We need to address this and get the affected plants replaced or restored as soon as possible.

## Item 5

[Assigned To: Landscaper](#)

Please treat the ant mounds located behind the main entrance monument on the inbound side.

Additionally, if the philodendron in this area does not recover, it will need to be removed.

Please monitor the situation and provide an update as needed.

## Item 6

[Assigned To: Landscaper](#)

Please remove the large seedpods located behind the entrance monument on the inbound side of the main entrance.

## Item 7

Assigned To: Board

It is important that we document all irrigation that has been displaced or is out of the ground along Corkscrew Road due to the recent work.

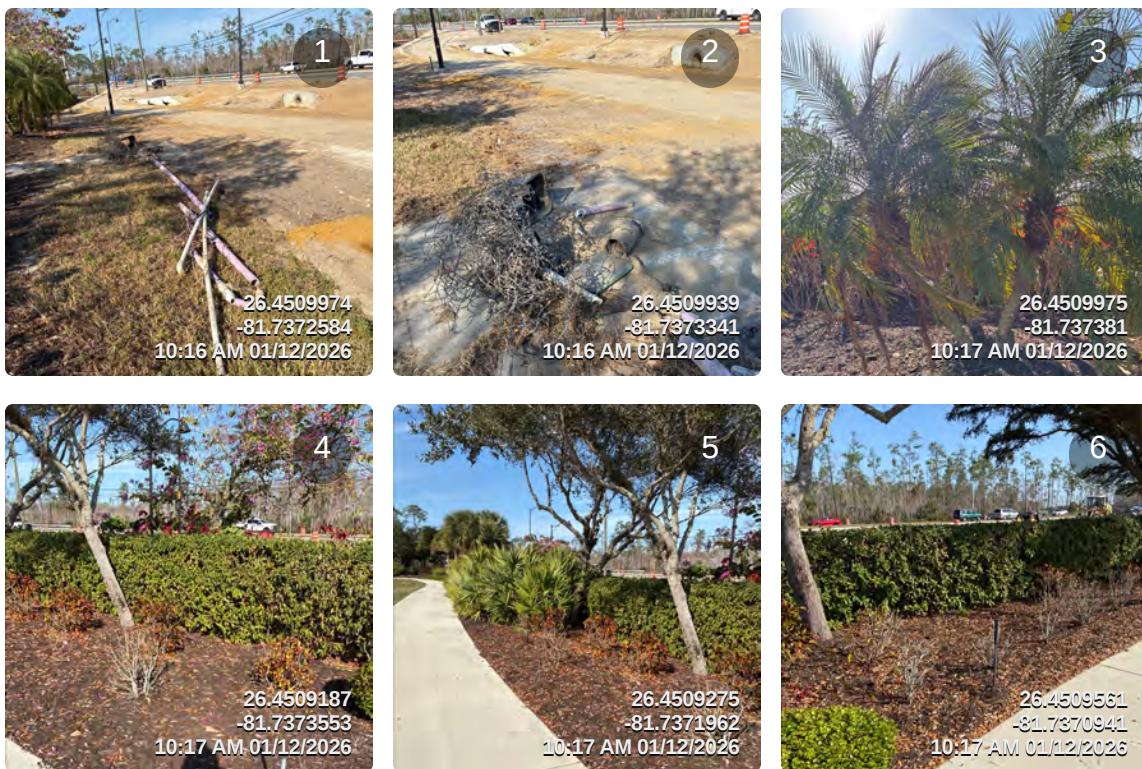

If the county is responsible for completing the repairs, we need to ensure that our irrigation team is inspecting their work to confirm it is done correctly.

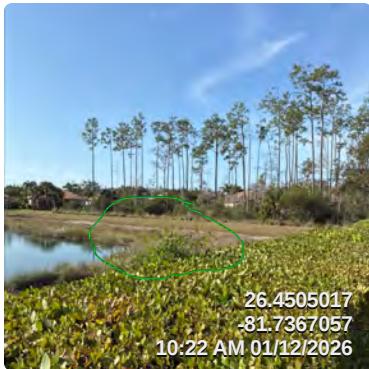

## Item 8

Assigned To: Board

More documentation of the work on Corkscrew with documentation of dead plant material from the result of the irrigation not working.

### Item 9

[Assigned To: Landscaper](#)

Please remove the unwanted growth within the Viburnum hedges along the sidewalk between Pond 1 and Pond 3.

Make sure the area is cleaned up and restored to maintain a neat appearance.

### Item 10

[Assigned To: Aeration Vendor](#)

We currently have lines entering Pond #1 that may pose a safety concern.

What is the possibility of having these lines buried at least until they enter the water?

Please review this and let me know the feasibility, timeline, and any associated costs.

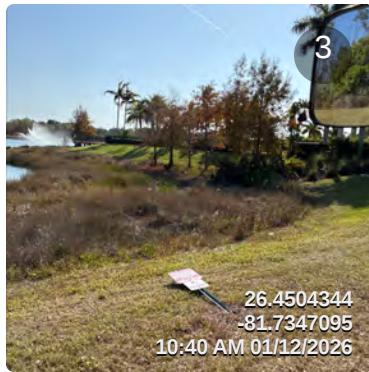

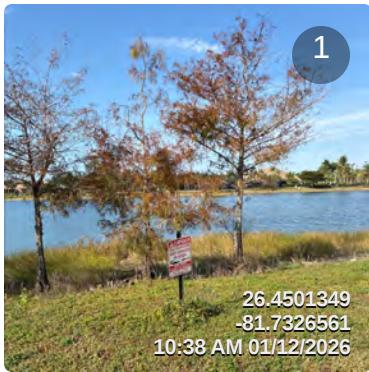

### Item 11

[Assigned To: Board](#)

During my recent inspection, I noted that many of the pond signs are leaning and/or broken.

I believe this may have been discussed in the past, but I wanted to confirm what direction the Board would like us to take.

We can straighten the signs and have them reinstalled if that is the preferred approach. Please advise on how you would like us to proceed.

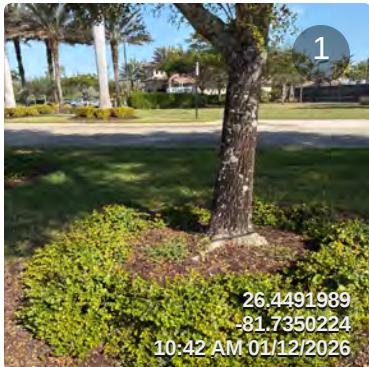

## Item 12

Assigned To: Landsacaper

During my recent inspections, I noticed that the weeds in the landscape beds on the inbound side of Cypress Shadows Blvd were not in good condition.

I did observe spraying being performed; however, we also need to ensure that hand pulling is being done in these areas to fully address the issue.

Please make sure this is being incorporated into the maintenance routine moving forward.

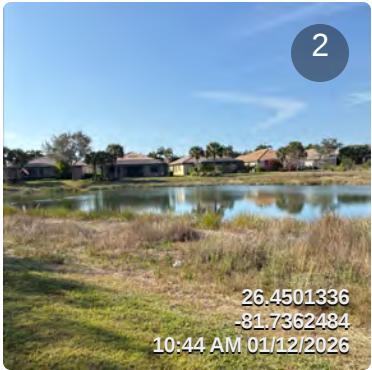

## Item 13

Assigned To: Aquatics

Please make sure that during all pond aquatic maintenance events, any trash and debris along the pond banks are removed.

Keeping these areas clean is important for safety and overall appearance.

### Item 14

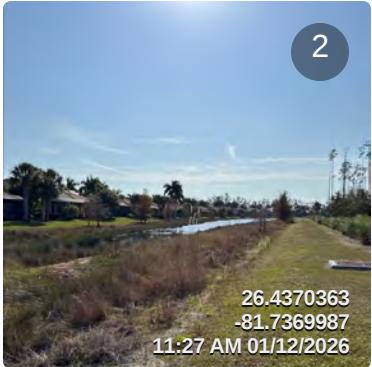

Assigned To: Landscaper

We need to focus on improving the Saint Augustine grass throughout the main boulevard. With the cooler weather, this is a good time to concentrate on weed control. As we move into spring, we will begin fertilizing and continue working on overall turf improvement.

### Item 15

Assigned To: Board

The aeration system on Pond #15 was not operating at the expected capacity during the inspection. However, the pond water level was also very low at the time, which may have impacted system performance.

### Item 16

Assigned To: Board

During the inspection, lighting was observed behind the home at 20498 Black Tree Lane that appears to have been installed on District property.

## Item 17

[Assigned To: Landscaper](#)

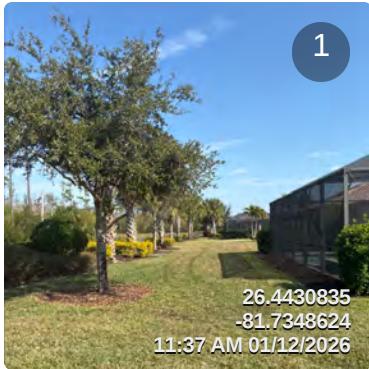

Please check the irrigation system at the dead end of Tripoli Court. During my inspection, it appeared that the system was not functioning properly.

## Item 18

[Assigned To: Board](#)

During my inspection, we reviewed the easement requested by a homeowner to access the rear of their property for pool installation. Based on our observations, the homeowner would need to use their own yard for access.

## Item 19

[Assigned To: Board](#)

During my inspection, a broken sign was observed lying on the ground. Would the Board like me to arrange for a vendor to address this issue?

## Item 20

Assigned To: Board

As shown in the photos below, there is increased laying over of the spike rush due to the low water levels.

## Item 21

Assigned To: Aquatics

At Pond 3, white piping is currently visible. Please request that the aquatics vendor provide a proposal to install crushed rock around these pipes or present alternative solutions.
