908 4th Ave NE
Watford City, ND 58854
701-444-3626 #6

The following information is for parents of McKenzie County School District #1 that live in the outlying areas. This is in regard to what we call a "Blue Day". "Blue day" is when the weather is questionable if school buses can get through to the outlying area, due to snow or other road conditions. A school bus cannot always get in and out of areas like a 4-wheeled drive vehicle can. Bus routes will still run on "Blue day's", but we may ask that you bring your student to the main line of the route. We will take your student to school and pick them up for PM route and will drop off where the bus picked them up in the AM. A "Blue Day" may be called for all of McKenzie County or in just certain areas of the county. It will depend on what area is in question. An instant alert will be sent out district wide or just to the affected area. If it affects only to a few families, Harlow's will call you directly. It will also be posted to the school district Facebook page.

As always, you as parents make the decision if you want your child on the bus or not. We are happy to provide service to get your student to and from school.

The following are the Blue Day location Stops for the county. The route that will be affected by blue day are posted in each stop locations. Just to be clear, "blue day" may be called for all or a part of each route. If you have any questions, please call Harlow's.

Location of Stop- 41V Stans Hwy 1806
