Work Performed

Bates Electric provided the following services:

1. Meet Jacob sub contractor onsite to review scope of work
2. Supply & Install (1) new 20A 2 Pole Ground Fault Circuit Breaker for Pump
3. Found loose neutral bar in panel. Installed jumper wire from neutral lug to neutral bar
3. Test for proper operation

Note: Bates noticed that the existing panel has some further issues that the customer should take care of. The main lugs on the panel have been double tapped and should only have 1 set of wires under the lug. The neutral bar needs to be permanently installed as it is running off of the jumper wire for now. (See Attached pics)

Identification Number and Certification**
Go to www.irs.gov/FormW9 for instructions and the latest information.

Give form to the
requester. Do not
send to the IRS.

Before you begin. For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type. See Specific Instructions on page 3.	1 Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.) Goat Plumbing Company LLC	
	2 Business name/disregarded entity name, if different from above.	
	3a Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only one of the following seven boxes. ☐ Individual/sole proprietor ☐ C corporation ☐ S corporation ☐ Partnership ☐ Trust/estate ☒ LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) P Note: Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner. ☐ Other (see instructions)	4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3): Exempt payee code (if any) _____ Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any) _____ (Applies to accounts maintained outside the United States.)
	3b If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions ☐	
	5 Address (number, street, and apt. or suite no.). See instructions. 715 Meadow Ridge Way	Requester's name and address (optional)
6 City, state, and ZIP code Marysville, OH 43040		
7 List account number(s) here (optional)		

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

	On site emergency visit to troubleshoot men's restroom clogged. Once onsite the women's restroom was checked out and found to be in working order. The tank is filling slowly most likely from a old flap. I recommend replacing. The men's restroom was locked and no key onsite. The door had to pried open as it was locked from the inside. Once inside the toilet was clogged and not flushing correctly and had not been cleaned in sometime and was showing residue around the inside of the bowl from water and feces sitting for some time. A tiny toy was found in the toilet which was most likely causing the issue. Once removed the toile began to flush. While onsite I cleaned the toilet removing all sitting residue and wiped down all surfaces. I put tape on the door to help it from being locked again from the inside. A separate proposal will be sent for correcting and bringing the doors to a better locking solution	325.00	325.00

Division Manager- Field Services

Item 1

Assigned To: [Pine Lake](#)

Remove the creeping fig from the Highland Park sign on Ecclesia Drive. Make sure to monitor this area during each visit.

Item 2

Assigned To: [Pine Lake](#)

Treat the Indian Hawthorn at the Ecclesia Drive entrance sign for Entomosporium leaf spot. I recommend removing this variety of plant in the future due to its susceptibility to the disease."

Item 3

Assigned To: [Pine Lake](#)

Clean up the sucker growth along the fence line on Race Track Road in the crape myrtles.

Item 4

Assigned To: [Pine Lake](#)

The Schilling hollies along Race Track Road need to be trimmed.

Item 5

Assigned To: Board

The Fakahatchee grass has been cut back on the inbound side of Ecclesia Drive.

Item 6

Assigned To: Pine Lake

During service visits, make sure to police the property for trash in both the turf areas and the beds.

Item 7

Assigned To: Pine Lake

On the inbound side of the entrance on Ecclesia Drive, remove the palmettos that are growing over the sidewalk.

Item 8

Assigned To: Pine Lake

Prune out the dead areas in the ixora on the inbound side of Bournemouth Road.

Item 9

Assigned To: Board/Pine Lake

During the spring, I would plan on doing an 80% cutback to the gold mound duranta on the inbound side of Bournemouth Road. We will need to replace two or three plants, but this will

give the remaining ones a chance to improve.

Item 10

Assigned To: [Pine Lake](#)

Cut back the Fakahatchee grasses and remove the palmetto suckers and other weeds in the planting material on the south side of Bournemouth Road along the main lake.

Item 11

Assigned To: [Board/ Pine Lake](#)

Pond 7 is in good shape, but water levels are very low. There is significant encroachment from the conservation area, which is blocking access for mowers. Can Pine Lake provide a proposal to push these areas back?

Item 12

Assigned To: Pine Lake

Remove the sucker growth in the Schilling hollies on the east side of Cotswolds Drive. Monitor the recently installed ixora to ensure they are thriving.

Item 13

Assigned To: Pine Lake

During visits, we need to do our best to remove any low-hanging moss in the district. This area is on Cotswold Drive along the main lake side.

Item 14

Assigned To: [Pine Lake/District Manager](#)

Remove the limbs from the bus stop that are touching the structure. Can Pine Lake also remove the ferns or spray growing on the top of the structure?

Item 15

Assigned To: [District Manager](#)

There are missing bricks in multiple places at the bus stop on Ecclesia Drive. I suggest having a paver company inspect this area.

Item 16

Assigned To: [Inframark Maintenance Service](#)

A new cover needs to be installed on the outlet box at the bus stop on Ecclesia Drive.

Item 17

Assigned To: [Pine Lake](#)

Pine Lake should ensure that all limbs are being removed from the bed spaces at Canopy Drive Park.

Item 18

Assigned To: [Pine Lake](#)

Ensure that annual tags are removed when annuals are installed.

Item 19

Assigned To: [District Manager](#)

One of the fountain heads at the park on Canopy Drive was not operating during my inspection.

Item 20

Assigned To: [Pine Lake](#)

Treat the tip fungus on the agapanthus near the building at the canopy drive park.

Item 21

Assigned To: [Inframark Maintenance Service](#)

At the Canopy Drive Park, in the building area, someone has spray-painted the sitting bench and sidewalk.

Item 22

Assigned To: [Board/ District Manager](#)

During my inspection, I noticed some areas being cleared behind 17412 Canopy Drive, Tampa, Florida. The area that was accessed is part of the CDD. Was there an access agreement in place for this clearing?

Item 23

Assigned To: [Pine Lake](#)

Remove the palm fronds debris at the entrance to Whisper Lake Trail.

Item 24

Assigned To: [Pine Lake](#)

We propose to remove the dead tree on Whisper Lake Trail that was struck by lightning. Additionally, all tree debris in the pond will be cleared to ensure safety and maintain the area's natural appearance.

Item 25

Assigned To: [Sitex Aquatics](#)

Continue work on removing invasive plant material from Pond Number 5.

Item 26

Assigned To: [Pine Lake](#)

Treat the agapanthus for tip fungus at Perfect Place park.

Item 27

Assigned To: [Pine Lake](#)

Ensure that tree debris is regularly monitored and removed at the park on Perfect Place.

Item 28

Assigned To: [Inframark Maintenance Service](#)

Please be advised that the side gate at the park on Canopy Drive is missing its handle and needs repair.

Item 29

Assigned To: Board

Along the conservation area behind 14752 Canopy Drive, there are multiple basketball goals and a golf net set up on district property.

Item 30

Assigned To: Board

Would the board like to receive a proposal from Pine Lake to remove the dead Schilling Hollies on the north side of Fountain Head Drive?

Item 31

Assigned To: Pine Lake

The palms in the district need to be pruned.

Item 32

Assigned To: Pine Lake

Please remove the weeds in the bed spaces next to 11564 Fountain Head Drive. The plant material in this bed needs to be replenished. Would the board like to receive a proposal for this work?

Item 33

Assigned To: Pine Lake

In the center medians on Race Track Road, the dayflower is overtaking the St. Augustine grass. We need to get these areas treated with selective herbicide before the St. Augustine is completely lost.

Item 1

Assigned To: Pine Lake

The palms throughout the main entrance need to be trimmed.

Item 2

Assigned To: District Manager

On the inbound side of the main entrance, bricks are missing from the lower half of the monument.

Item 3

Assigned To: Board

Would the board like to receive a proposal to remove the ligustrum in the center island and replace it with plant material better suited for the area?

Item 4

Assigned To: Pine Lake Irrigation

Pine Lake is requested to check the irrigation in the small island on the inbound side of the main entrance.

Item 5

Assigned To: [District Manager](#)

The main entrance is missing a sign. Are we currently having this repaired?

Item 6

Assigned To: [Pine Lake Irrigation](#)

It looks like we have another irrigation break on the outbound side of the main entrance, under the Mandolin Estates sign.

Item 7

Assigned To: [Board](#)

The main pond looks good, and the fountain is working. However, the water levels are very low.

Item 8

Assigned To: [Pine Lake](#)

Remove the broken stalk from the philodendron on the inbound side of the main entrance, next to 11301 Minaret Drive.

Item 9

Assigned To: [Pine Lake](#)

Push back the overgrowth encroaching on the sidewalk across from 11319 Minaret Drive.

Item 10

Assigned To: [Board](#)

Does the board want a proposal to remove the willow branch next to 1134 Minaret Drive that is growing across the sidewalk? I'm concerned it could fall if conditions become wet in the conservation area.

Assigned To: [District Manager](#)

There is a broken light on the outbound side of the entrance that needs to be replaced. Additionally, another broken light is located in the center island behind the annual beds and requires replacement.

Item 2

Assigned To: [Pine Lake](#)

Pocket prune the dead growth from the Schilling Hollies in the raised containers on the outbound side and fertilize them. In my opinion, this plant material will likely need to be replaced.

Item 3

Assigned To: [Pine Lake](#)

Please note that the palms throughout the entrance require trimming.

Item 4

Assigned To: [Pine Lake](#)

Improve weed control throughout the main entrance and remove the vines from the coontie palms.

Item 5

Assigned To: Board

Both aerators in Pond Number 15 are running; however, pond levels are decreasing.

Item 6

Assigned To: Pine Lake

The palms in the island at the end of Greensleeve Avenue need to be pruned.

Item 7

Assigned To: Board

The fountain in Pond 13 is functioning properly; however, water levels are very low.

Item 1

Assigned To: [Pine Lake](#)

Continue to work on the St. Augustine sod. During my inspection, I noticed nutsedge. Let's just make sure we are using the correct amount of water.

Item 2

Assigned To: [Pine Lake](#)

Lift the oak trees along the wall to ensure they are growing vertically, and remove any sucker growth as well.

Item 3

Assigned To: [Landscape Replacements](#)

There are multiple Yaupon Hollies that are dead or missing and need to be replaced. I would estimate around 50, though I haven't seen the plans.

Item 4

Assigned To: [Landscape Replacements](#)

There are also missing coontie palms that need to be replaced. I would estimate around 30 to 40, though I haven't seen the plans.

Item 5

Assigned To: [Pine Lake](#)

Remove the sucker growth from the crape myrtles.

Item 6

Assigned To: [Pine Lake](#)

Make sure crews are not string-trimming bed weeds and that the weeds are being treated with herbicide.

2. Install agreed upon repair.
3. Internal reinstatement of all service connections as directed by the Customer or their representative (not applicable)
4. CCTV inspection of the pipe post repair (if requested in writing before mobilization)
5. Standard ITLLC one-year warranty from date of installation, excluding any required warranty TV inspection and/or testing if required per contract documents.
6. Standard insurance coverage with the following limits:
 - General Liability: \$2,000,000 per occurrence/\$4,000,000 aggregate
 - Auto: \$2,000,000 Combined Single Limit
 - Workers Compensation: Statutory with \$1,000,000 Employer's LiabilityThe above insurance shall not include Primary and Non-Contributory Coverage and ITLLC shall not provide a Waiver of Subrogation endorsement.

NOTE: Modifications to the Scope of Work/Responsibilities of ITLLC may result in a change in price and/or duration.

EXCLUSIONS:

The following items are excluded from ITLLC's above Pricing and Scope of Services / Responsibilities stated in this Proposal. These items, if necessary, applicable or otherwise required, shall be furnished by Customer, at Customer's direction and at no cost to ITLLC or may, upon mutual agreement in writing between ITLLC and Customer, be provided by ITLLC at an additional cost:

1. Permits, licenses and construction easements.
2. Prime contractor/Owner shall be responsible for locating all manholes and or access points on the project and ensuring access is possible.
3. Environmental/erosion controls, unless specifically included as a line item.
4. Prime Contractor/Owner to provide water to jobsite for Insituform and its subcontractors.
5. Traffic control, including without limitation, police details, flagmen and special traffic control setups.
6. Repair of pipe damaged during any industry standard high-pressure jet cleaning operations, preparation or lining and any subsequent cleaning necessary to remove debris that has fallen into the pipe as a result of any such collapse or repair.
7. Locations of and access (of ITLLC equipment and/or personnel and its contractors) to all manholes associated with the project and as required by ITLLC's work plan.

8. Payment and Performance bonds. If payment and performance bonds are required, add 2.5% to the total Project cost.
9. Removal and disposal of any hazardous or toxic materials encountered during the Project.
10. Holiday work, rush delivery or adverse weather work (as defined by ITLLC).
11. Independent testing of soil, density testing or pressure testing
12. Certified Professional Engineer stamped designs.
13. Sales tax on materials is included in this proposal.
14. Additional premiums for special insurance coverage(s) specific to this project.

GENERAL TERMS AND CONDITIONS:

1. ITLLC's Proposal is conditioned upon Customer's acceptance of the terms and conditions set forth herein. Customer's ordering of material or services by purchase order or otherwise, shall be treated as Customer's acceptance of such terms and conditions. All terms and conditions in Customer's purchase order or in any other communication to ITLLC, whether submitted previously or subsequently to this Proposal, which are additional to or inconsistent with the terms and conditions of this Proposal are not binding upon ITLLC and shall not be applicable to this Proposal, except to the extent accepted in writing by ITLLC. Any change or amendment to this Proposal, to be binding upon ITLLC, must be accepted in writing by ITLLC.
2. ITLLC has based its Proposal on the best available information at the time of this Proposal.
3. Specific service connections will be reconnected only when written directions are received from the Customer. The Customer will indemnify and hold ITLLC harmless from all claims arising from backups and other effects of such actions or inaction's from services not opened at the owner's request. In the event that Insituform is unable to locate or reconnect a service lateral internally, the Customer will externally reconnect the service at no cost to ITLLC.
4. This Proposal is valid for 30 days, unless otherwise extended by ITLLC.
5. PAYMENT: Payment is due in full, without exception or retention, within 30 days of the date of the invoice. Monthly partial progress payments may be requested for the value of work in progress or completed, including materials delivered to the Project site. Payments due and unpaid shall bear interest at the rate of 1½ % per month from the date payment is due. Should ITLLC incur costs or expenses to collect monies claimed due hereunder from Customer, Customer shall pay to ITLLC, in addition to all other sums due to ITLLC, attorneys' fees, consultants' costs, and other expenses and costs, including but not limited to litigation and/or arbitration expenses and arbitrator compensation, in connection therewith.
6. ITLLC is not a union shop and shall not be subject to any union requirements or agreements or project labor agreements. On public projects where required, ITLLC will pay prevailing wages as identified by Customer prior to submission of this Proposal.
7. Should ITLLC learn of any information that causes ITLLC concern about Customer's ability to pay and/or perform any of its obligations owing to ITLLC under Proposal, ITLLC has the right to request Customer to provide ITLLC adequate assurance of due performance on such terms as are deemed reasonable by ITLLC when acting in good faith, including the right to await full or partial payment from Customer as required by ITLLC. In such an instance, ITLLC may suspend its performance pending ITLLC's receipt of adequate assurance of due payment and/or performance in a manner found acceptable by ITLLC.
8. ITLLC shall not be responsible for any inability to perform under this Proposal or for any loss or damage due to delays or disruptions resulting directly or indirectly from, or contributed to by, any act of God, action or omission of Customer, act of civil or military authorities, fire, strike or other labor dispute, accident, flood, adverse weather, war, riot, terrorism, transportation delay, inability to obtain material or fuel supplies, or any other circumstances beyond ITLLC's reasonable control, whether similar or dissimilar to any of the foregoing. If ITLLC crews are delayed on site for reasons beyond the control of ITLLC, then ITLLC's standby time will be invoiced to Customer at an hourly rate of \$1,800.00 per hour.
9. Claims for Changed, Concealed or Unknown Conditions: If conditions are encountered at the site which are (1) materially changed; (2) subsurface or otherwise concealed physical conditions which differ materially from the information upon which this Proposal is based or (3) unknown physical conditions of an unusual nature, which differ materially from those ordinarily found to exist and generally recognized as inherent in construction activities of the character provided for herein, then the Proposal Price and Time shall be equitably adjusted to address the conditions, where prior written notification and approval of claims exist.

10. LIMITED WARRANTY: ITLLC WARRANTS TO CORRECT ANY DEFECT IN THE MATERIALS OR SERVICES PROVIDED BY ITLLC WHICH ARE BROUGHT TO THE ATTENTION OF ITLLC IN WRITING WITHIN ONE YEAR FOLLOWING COMPLETION OF ITLLC'S WORK, PROVIDED CUSTOMER AFFORDS ITLLC SUITABLE ACCESS AND WORKING CONDITIONS TO ACCOMPLISH SUCH CORRECTION.
11. Except for the express warranty forming a part of this Proposal, ITLLC DISCLAIMS ALL EXPRESS AND IMPLIED WARRANTIES, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY. ITLLC'S LIABILITY TO CUSTOMER, WHETHER IN CONTRACT, WARRANTY, TORT OR OTHERWISE, IS LIMITED TO THAT PERMITTED UNDER THIS PROPOSAL, ITLLC Shall NOT BE LIABLE TO CUSTOMER FOR ANY SPECIAL, INCIDENTAL, INDIRECT OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION DAMAGES FOR LOSS OF USE, LOST TIME, DELAY, DISRUPTION, INTERFERENCE, LOSS OF PRODUCTIVITY, INCONVENIENCE, LOST INCOME, OR LOST PROFITS.
12. If, during the performance of this contract, any cost price determining factor considered by Subcontractor in determining the contract price significantly increases, through no fault of Subcontractor, the price of this contract shall be equitably adjusted by an amount reasonably necessary to cover any such significant price increases. As used herein, a significant price increase shall mean any increase in price exceeding 5% experienced by Subcontractor from the date of the contract signing. Price increases resulting from increased costs of materials, labor, fuel, freight, and other cost inputs shall be verified, in writing, by Subcontractor's Vice President of Procurement. Due to the confidential nature of Subcontractor's pricing from Vendors, verification shall consist of a statement of percentage change in cost from the date of Subcontractor's estimate through the date of the change order request. Where the delivery of any material is delayed, through no fault of Subcontractor because of the shortage or unavailability of any raw materials, including resin, Subcontractor shall not be liable for any additional costs or damages associated with such delay(s). Nothing contained in this clause shall preclude Subcontractor from entitlement to more than one equitable adjustment if its costs continue to significantly (as defined above) rise during the duration of the project
13. This agreement may be terminated by either party upon seven (7) days written notice should the other party fail substantially to perform in accordance herewith through no fault of the party initiating the termination.
14. The terms and conditions of this Proposal form the entire agreement between the parties. All other terms, proposals, negotiations, representations, recommendations, statements or agreements, whether made or issued contemporaneously or previously, are excluded from and are not a part of this Proposal and have no binding or enforceable effect. This Proposal, if accepted, shall be binding on the parties and their respective successors and assigns.

EASEMENT ENCROACHMENT AGREEMENT

THIS EASEMENT ENCROACHMENT AGREEMENT (the "Agreement") is entered into as of the 31 day of October, 2025 (the "Effective Date"), between Efstathios Kalantiris collectively, the "Landowner"), whose mailing address is 11642 Renaissance View Ct Tampa, Florida 33626 and the Park Place Community Development District (the "District") whose mailing address is 2005 Pan Am Circle, Suite 300, Tampa, Florida 33607.

WITNESSETH:

THAT FOR AND IN CONSIDERATION of the sum of Ten Dollars (\$10.00), in hand paid, the receipt and sufficiency of which is hereby acknowledged, and the mutual promises contained herein, the parties agree as follows:

1. Landowner is the fee simple landowner of the real property ("Property") situated in Hillsborough County, Florida, more particularly described on **Exhibit "A"**, attached hereto and adopted by reference herein. Landowner agrees that it will not convey the Property shown on **Exhibit "A"** until this Agreement is recorded in the official records of the Clerk of the Circuit Court of Hillsborough County.

2. The District has an easement ("Easement") on and/or abutting the Property, as shown on **Exhibit "B"**, attached hereto and adopted by reference herein.

Landowner desires to encroach into the Easement area with certain improvements and/or structures (the "Improvements"), more particularly described and shown on **Exhibit "C"**, attached hereto and adopted by reference herein.

3. The Improvements shall be undertaken, completed and at all times maintained by Landowner in a good and workmanlike manner, using sound engineering, construction and maintenance techniques and practices, strictly as described herein and in the location shown herein, and so as not to impede, impair, obstruct, damage or interfere with drainage facilities or other facilities, structures or improvements within and along the easement area or the use of the

easement for public purposes. Landowner shall apply for and obtain, at its sole cost and expense, all necessary federal, state and/or local permits necessary to construct and maintain the Improvements, prior to the construction of the Improvements.

4. The term of this Agreement is five (5) years from the Effective Date of this Agreement. By the last day of this Agreement, at the Landowner's sole cost and expense, the Landowner shall remove the Improvements and restore the Easement to the condition that existed before the Improvements were installed. If the Landowner does not remove the Improvements and restore the Easement to the condition that existed before the Improvements were installed by the last day of this Agreement, the District may remove the Improvements and restore the Easement to the condition that existed before the Improvements were installed, and the Landowner shall repay the District for all costs and expenses incurred by the District.

5. Landowner agrees to indemnify, defend and hold harmless the District, its Board of Supervisors and its members, employees, agents and assigns for: (1) any liability which may be incurred as a result of the approval, preparation and execution of this Agreement; (2) any damage to the Improvements caused by the District or its agents; (3) any damage to the Easement area or to any District or Hillsborough County improvements or structures located within the Easement area; and (4) any claims for injury to any person or damages to any property because of the Improvements.

6. Throughout the term of this Agreement, the Landowner shall maintain liability insurance, with limits of not less than \$2,000,000, covering any injuries or damages that may occur as a result the Improvements. The Landowner shall furnish the District with the Certificate of Insurance evidencing compliance with this requirement.

7. The District expressly reserves the right, at any time, to require Landowner, at its sole cost and expense, to remove the Improvements, upon ten (10) days written notice to Landowner at its address in the event the District determines that the Improvements either: (1) have not been constructed or maintained strictly in accordance with this Agreement; (2) are impeding, impairing, obstructing, damaging or interfering with drainage facilities or other facilities of the District; or (3) are interfering with the use of the Easement for public purposes. In the event Landowner fails to comply with District's notice and direction in a timely manner, the District may remove the Improvements at Landowner's sole cost and expense.

8. Upon termination of this Agreement, the District may record a Notice of Termination of Easement Encroachment Agreement in the official records of the Clerk of the Circuit Court of Hillsborough County.

9. The provisions of this Agreement shall be deemed covenants running with the title to the Property and shall be binding on and inure to the benefit of the parties and their respective successors and assigns.

10. This Agreement and the provisions contained in this Agreement shall be construed, interpreted, and controlled according to the laws of the State of Florida with venue in Hillsborough County, Florida.

11. In the event that either party is required to enforce this Agreement by court proceedings or otherwise, then the prevailing party shall be entitled to recover all fees and costs incurred, including reasonable attorneys' fees and costs for trial, alternative dispute resolution, or appellate proceedings.

12. Both parties acknowledge and agree that this Agreement was drafted at the request of the parties without the benefit of a title search.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date first written above.

Re: Mandolin Estates Entry Sign
West Chase, Florida 33626
AO#

We thank you for the opportunity to submit our proposal for Professional Architectural and Engineering services to Erica Lindermann (hereinafter "Client") for the above-referenced project (hereinafter the "Project"). Sharp Design Studio, LLC (hereinafter the "Architect") will provide its services and scope of work as outlined in this Professional Services Agreement (hereinafter the "Agreement").

Project Description:

This proposal outlines the conceptual design for an entry feature intended to serve as the signature gateway and first impression for [Mandolin Estates]. The design will establish a cohesive visual identity, reinforce the project's branding, and enhance the arrival experience for visitors, residents, or customers.

Deliverables:

- 2D Proposed elevation for existing entry wall.
- 2D Proposed elevation for gate entry wall.

We propose to provide the above referenced services for the fees listed below:

1. Conceptual Design – \$ 2,250.00

If the conceptual design is approved, future service phases can be commissioned to advance the project toward construction drawings for implementation. At which time a new separate proposal will be required.

Billing/Payment:

Billing shall be phased as indicated below and based on percentage of work completed. Invoices shall be payable within 10 days after receipt of the invoice and/or as noted on the invoice.

1. Conceptual Design completion - \$2,250.00

Addendum:

The following terms shall also be a part of the Agreement between Client and Architect:

- Architect is an independent contractor of Client.
- At each stage of the design process, Client shall review the work product provided by Architect and Architect will make one round of changes. More than one round of revisions will result in additional charges based on the supplemental services list. After acceptance of the drawings, which is deemed to be 15 days after receipt by Client, any additional services requested will be based on the supplemental services list.
- The parties to this Agreement understand and agree that Architect has not undertaken any analysis of the subsurface and soil conditions at the Project and shall not be responsible for any damages related to, arising out of, or resulting from the subsurface and soil conditions at the Project.
- Architect shall have no liability for any matters regarding the survey of real property or the location of any improvements.
- Architect may, at times, identify certain building materials and/or suppliers and/or manufacturers. Architect shall not be responsible for the failure of such products or any defect in such product. Client shall bear responsibility to independently ascertain the proper installation methodology including, without limitation, compliance with all manufacturers' instructions and/or any applicable building code.
- Client shall have an independent obligation to carefully review the work product provided by Architect upon receipt. Client shall be charged with knowledge of all matters which could have been ascertained by such review.
- Client and Designer mutually agree that neither should be liable to the other for any lost profits, incidental, special or consequential damages arising out of or in connection with this Agreement.
- As circumstances out of Architect's control may arise during the Project, additional services outside of the scope listed in this proposal may be required for Architect to complete this project. Upon approval of these additional services, Client will be responsible for the agreed upon fees. If Client fails to respond to a request for additional services, then Architect will deem the non-response as a failure to approve the request. If Client fails to approve a request for additional services, Architect shall have no obligation to perform the additional services requested.
- Architect assumes no responsibility for any acts or omissions by the contractor, subcontractors, materials suppliers, equipment suppliers, or any other agent or employee not directly working on behalf of Sharp Design Studio, LLC.
- The drawings provided are solely for use under the terms of the signed agreement and are designed specifically for the use outlined in the proposal. These drawings shall not be used for any other occupancy group. Specifically, while we may have designed a single-family home, apartment, or townhouse, these projects should not be converted into a condominium during or after construction. Our office does not provide design or construction drawings for condominiums. Any unauthorized use of our drawings will waive any liability of Sharp Design and Client will hold Sharp Design harmless from any future claim arising out of the unauthorized use of the drawings.

- If applicable, Architect's review of submittals by any contractor or subcontractor shall not be seen as a certification that the information presented is accurate and complete but rather that the information presented represents a review for conformity with the design concept. Quantities, dimensions, installation and performance of all materials and equipment is the responsibility of the contractor or subcontract.
- To the maximum amount permitted by law, Client agrees that its damages for any claim (in contract, tort, statute or otherwise) are limited to the contract amount in this Agreement. Client expressly waives any claims beyond that contract amount and, further, waives any claim for consequential damages.
- **PURSUANT TO FLORIDA STATUTES SECTION 558.0035 DESIGN PROFESSIONALS; CONTRACTUAL LIMITATION ON LIABILITY, AN INDIVIDUAL EMPLOYEE OR AGENT OF CONSULTANT MAY NOT BE HELD INDIVIDUALLY LIABLE FOR NEGLIGENCE.**
- Architect shall be entitled to rely on any data, documents or other information provided by Client or Client's consultants without verifying the accuracy of such information. Architect shall have no liability for any consequences of any kind relating to the inaccuracy of such information.
- Any documents prepared or generated as a result of the work performed by Architect under this Agreement (hereinafter the "Documents") shall be owned by Architect. Client agrees that the Documents are to be used solely for this Project and are not to be used by any third-party. Client expressly accepts all risks associated with the use of the Documents on a different project without Architect's involvement. Client agrees to indemnify Architect for any third-party claims relating to the use of the Documents on a different project.
- Prior to the institution of any suit, Client shall provide written notice by U.S. Mail specifically identifying the alleged default in the performance of this Agreement. The notice shall state in capital letters that it is a NOTICE OF DEFAULT. Architect shall have 30 days (or longer if reasonably necessitated under the circumstances) to cure the alleged default. If Architect cures the default, Architect shall have no liability.
- As a condition precedent to either party initiating any legal proceeding, Client and Designer agree to (1) have an in-person meeting with the decision-makers of Client and Designer to attempt to resolve any disputes with such meeting taking place within fifteen (15) days of notice of any dispute and (2) mediate the dispute using a mutually agreeable mediator with such mediation taking place within forty-five (45) days of notice of any dispute. Nothing in this paragraph prohibits the filing of legal action if required to satisfy the requirements of any applicable statute of limitations, in which case such action shall be stayed until such in-person meeting and mediation has occurred. Any such in-person meeting and mediation shall be conducted in Hillsborough County, Florida.
- Venue for any dispute relating to this Agreement shall be exclusively in Hillsborough County, Florida.
- This Agreement shall be governed by Florida law.
- This Agreement may be executed in any number of counterparts, each of which shall be deemed an original, for purposes of enforcement.
- This Agreement constitutes the entire agreement between the parties and supersedes all prior written or oral discussions. This Agreement can only be amended by a written instrument signed by both parties.
- This Agreement only binds the Client and the Architect and does not create any contractual agreement with a third party.

Proposal Acceptance:

If the terms of this Agreement meet your approval, please sign below. Acceptance of this Agreement and receipt of executed copy and retainer shall serve as our notice to proceed with Professional Architectural and Engineering Services.

Again, we thank you for this opportunity to be of service and look forward to the successful completion of this important project. As always, if you have any questions, please do not hesitate to contact us.

Thank you,

Irrigation Enhancement:		\$10,725.00
PROJECT TOTAL:		\$10,725.00

Terms & Conditions

Terms & Conditions

Payment Terms

Any proposal exceeding \$5,000 for an enhancement to a Maintenance property, a 50% deposit will be required upon acceptance to schedule job. The remaining 50% balance will be due upon completion of job.

Payments made via credit card will be accepted up to \$4,750 and will include an additional 3% credit card fee.

Interest will accrue on all invoices over thirty days old. Past due amounts will accrue interest at a rate of 1.5% per month (18% APR). Client agrees to pay any costs associated with collection, including but not limited to court and attorney's fees as additional sums owed.

Exclusions

The Following matters are excluded from the Work, unless specified in writing to the contrary:

This Proposal price is valid for thirty (30) days. We reserve the right to modify pricing after that time to reflect current market prices.

Site work is excluded unless specified in writing within the Proposal. Site should be at finished grade (within 1" of final grade), with all soils in sod and planting areas to be loose, not compacted, and ready to install landscape material. If site is not at finished grade, Contractor reserves the right to delay until site is properly prepared.

Removal of base material and/or aggregate material within all landscape planting areas, sod areas and other green space areas that impedes or impacts proper planting of plant material and sod.

Soil replacement where base material and/or aggregate material was removed for proper planting

Drainage: Should the Client's property be the lowest elevation in relation to surrounding property or buildings, the Contractor reserves the right to retain an expert to evaluate and propose drainage solutions. All costs for engineering services, as well as the actual drainage work will be at the Client's expense. Unless the Client has a detailed Topographical survey completed, the above clause may come into effect.

Soil, Sod and/or Mulch quantities are estimates only. They do not account for disturbed construction areas or other fluctuations. Invoices will reflect actual quantities used at proposed price per unit.

Conduit and connections for electrical, gas, and all other utilities and services

Site Unknowns: Including, but not limited to, sub-surface conditions/obstacles that create unforeseen labor, equipment, material, or disposal charges

MOT for temporary traffic control

Any Irrigation or utility trenching thru roads, road base, concrete, or rock will incur additional costs

Any cutting or repairing of any hard surface such as asphalt, concrete, pavers or curbs for irrigation or landscape

We need 72 hours' notice prior to road base material or concrete work is installed so that sleeves and/or road bores are installed

Backflow Connection

Water source for irrigation is based on specifications at the dedicated meter of the location marked on irrigation plan sheet. If a different location of the dedicated water source is established during construction a change order will be entered into to adjust for the costs associated with the new route for mainline and connections.

Man hours required to find installed buried irrigation sleeves or irrigation piping in areas where

asphalt, concrete, curbs, or other hard surfaces are installed prior to completing the irrigation system and where markings or stubs have been placed to show location of irrigation sleeves or piping and these markers have been damaged, buried, or removed by others.

Additional man hours required to maintain plant material and/or sod of a landscape and irrigation installation project that:

Has been started by Pine Lake Nursery and Landscape and/or its subcontractors and is interrupted, delayed, impeded, or prohibited, by others from being worked on continuously until the landscape and irrigation project is completed. Pine Lake Nursery and Landscaper and its subcontractors are excluded.

Upon completion of the landscape and irrigation installation project as specified in the landscape and irrigation plan sets is considered complete but will not be accepted as completed until the project as a whole is accepted as complete.

Existing tree preservation, barricading, pruning, root pruning, or inventory

Repairs to any erosion control measures that are damaged or inoperative prior to commencement of landscape and irrigation work

Any planting of sod or other ground cover as required by any municipality when construction of landscape and irrigation has ceased or been suspended for more than 30 days that is no fault of the landscape or irrigation contractor or subcontractors

Warranty on transplanted plant material from the project site

Warranty on plant material that is not rated to grow in established USDA plant hardiness growth zone(s)

Procedure for Extra Work, Changes and Escalation

If it shall become necessary for the Contractor to make changes in any designs, drawings, plans, or specifications for any part of the project or reasons over which we have no control, or we are put to any extra work, cost or expense by reason of any act or matter over which it has no control, the Customer will pay to the Contractor a fee for such changed or extra Work calculated on a time and materials basis. All changes to Work or pricing or the terms of this Agreement will be read and understood within the context and meanings of this Agreement unless stated explicitly to the contrary.

Change Order: The quantities or specifications of material as outlined in the Proposal could be adjusted at any time with approval in the form of a signed Change Order. Change Orders will be executed using current market prices

Escalation Clause

In the event of significant delay or price increase of material, equipment, or energy occurring during the performance of the contract through no fault of the Construction Manager, the Contract Sum, time of completion or contract requirements shall be equitably adjusted by Change Order in accordance with the procedures of the Contract Documents. A change in price of an item of material, equipment, or energy will be considered significant when the price of an item increases 5% percent between the date of this Contract and the date of installation

Warranty and Tolerances

Payments Received: The Warranty for the contract is only valid if payment is received in full on

acceptance of the work

Diligence: The Contractor agrees to carry out its Work diligently and to provide sufficient supervision and inspection of its staff and subcontractors and that its work will be of proper and professional quality, and in full conformity with the requirements of the contract

Competence: The Contractor warrants that it is competent to perform the Work and that it has the necessary qualifications including knowledge and skill with the ability to use them effectively.

Site Unknowns: It is the responsibility of the Client or the Client's Representative to fully inform the Contractor of all the information regarding site unknowns that may include difficult buried materials, cables, and pipes, tree stumps, drainage or water table issues, rock, and shale sub surfaces and/or other impediments, issues or factors that could otherwise impact the quality, cost and timeliness of project completion. Failure to notify the Contractor may lead to additional costs to the Client (at the Contractor's discretion) and schedule time not included in the proposal and may require changes in design and construction to overcome such problems – all for which the

Client will be responsible. Client can avoid such risks by permitting the Contractor to do appropriate soil and ground tests, review the site, and to secure additional required site information from appropriate government and other authorities.

Damaged Utilities: Should damage occur to utilities during construction, the Contractor is only liable for the cost of the repair. the Contractor is not liable in any way for inconvenience to the Client caused by damage to the utilities

Damage to neighbors buried utilities, on the Client's property, are the responsibility of the Client

Damage to installed material (plants, trees, sod, etc.) by foot traffic, machinery, equipment, other trades, owner neglect or acts of nature will be excluded from any warranty and will not be replaced at the cost of Contractor

Damage due to pest infestation is excluded from warranty and any damaged material will not be replaced at the cost of the Contractor. If, however, the Contractor has a separate maintenance contract with the client, pest control would fall under that contract and would be subject to those warranty parameters.

Damage due to improper watering after final acceptance will not be replaced at the cost of the Contractor

Material Tolerances

Wood: Pressure treated wood cannot be guaranteed against warp age, checking, or cupping.

Stone: Natural stone has color variations that vary from stone to stone. In addition, mineral deposits such as lime, iron, etc. can change the stone and even bleed. This is the nature of the product, and the Client accepts this as a natural and acceptable quality of the stone

Metal: Metal, which is not galvanized, is not guaranteed from rusting commencing immediately after installation

Concrete: Spider cracks (hairline stress-fractures) are considered a normal characteristic of all types of concrete. Concrete may crack substantially over time due to proximity of tree roots.

Warranty Time Period: The Contractor warrants all construction and installation for a period of one (1) year, providing that they have been maintained properly. All construction materials are

subject to manufacturer's specific warranties/guarantees. Planting is warranted for one (1) year if there is an approved irrigation system

Client Responsibilities: The Client recognizes and agrees that they have a responsibility to maintain constructions, plants, bushes, trees, and other installations in keeping with standard quality maintenance requirements for the Warranty to remain in effect. Failure to properly maintain materials or horticulture installations will void the warranty. Client further recognizes and agrees that damage to construction, materials, horticulture elements and other warrantable items of the project will not be warranted if the damage or loss is due to elements beyond the control of the Contractor. For example, flooding eaves, troughs that damage plants, fallen branches, animal caused damage, damaged/ burst irrigation or drainage pipes that were not maintained properly, use of improper chemicals, improper maintenance, extreme or unusual weather conditions, and similar and/or related situations – void all warranties provided by the Contractor

Terms & Conditions

Terms & Conditions

Payment Terms

- Any proposal exceeding \$5,000 for an enhancement to a Maintenance property, a 50% deposit will be required upon acceptance to schedule job. The remaining 50% balance will be due upon completion of job.
- Payments made via credit card will be accepted up to \$4,750 and will include an additional 3% credit card fee.
- If payment requires Pine Lake to create and/or setup an account in an additional software, Pine Lake reserves the right to charge an administrative fee along with passing along any software fees charge.
- Interest will accrue on all invoices over thirty days old. Past due amounts will accrue interest at a rate of 1.5% per month (18% APR). Client agrees to pay any costs associated with collection, including but not limited to court and attorney's fees as additional sums owed.

E x c l u s i o n s

The Following matters are excluded from the Work, unless specified in writing to the contrary:

- **This Proposal price is valid for Thirty (30) days. We reserve the right to modify pricing after that time to reflect current market prices.**
- Site work is excluded unless specified in writing within the Proposal. Site should be at finished grade (within 1" of final grade), with all soils in sod and planting areas to be loose, not compacted, and ready to install landscape material. If site is not at finished grade, Contractor reserves the right to delay until site is properly prepared.
- Removal of base material and/or aggregate material within all landscape planting areas, sod areas and other green space areas that impedes or impacts proper planting of plant material and sod.
- Soil replacement where base material and/or aggregate material was removed for proper planting
- Drainage: Should the Client's property be the lowest elevation in relation to surrounding property or buildings, the Contractor reserves the right to retain an expert to evaluate and propose drainage solutions. All costs for engineering services, as well as the actual drainage work will be at the Client's expense. Unless the Client has a detailed Topographical survey completed, the above clause may come into effect.
- Soil, Sod and/or Mulch quantities are estimates only. They do not account for disturbed construction areas or other fluctuations. Invoices will reflect actual quantities used at proposed price per unit.
- Conduit and connections for electrical, gas, and all other utilities and services
- Site Unknowns: Including, but not limited to, sub-surface conditions/obstacles that create unforeseen labor, equipment, material, or disposal charges
- MOT for temporary traffic control
- Any Irrigation or utility trenching thru roads, road base, concrete, or rock will incur additional costs
- Any cutting or repairing of any hard surface such as asphalt, concrete, pavers or curbs for irrigation or landscape
- We need 72 hours' notice prior to road base material or concrete work is installed so that sleeves and/or road bores are installed
- Backflow Connection
- Water source for irrigation is based on specifications at the dedicated meter of the location marked on irrigation plan sheet. If a different location of the dedicated water source is established during construction a change order will be entered into to adjust for the costs associated with the new route for mainline and connections.
- Man hours required to find installed buried irrigation sleeves or irrigation piping in areas where asphalt, concrete, curbs, or other hard surfaces are installed prior to completing the irrigation system and where markings or stubs have been placed to show location of irrigation sleeves or piping and these markers have been damaged, buried, or removed by others.
- Additional man hours required to maintain plant material and/or sod of a landscape and irrigation installation project that:
- Has been started by Pine Lake Nursery and Landscape and/or its subcontractors and is interrupted, delayed, impeded, or prohibited, by others from being worked on continuously until the landscape and irrigation project is completed. Pine Lake Nursery and Landscaper and its subcontractors are excluded.
- Upon completion of the landscape and irrigation installation project as specified in the landscape and irrigation plan sets is considered complete but will not be accepted as completed until the project as a whole is accepted as complete.
- Existing tree preservation, barricading, pruning, root pruning, or inventory
- Repairs to any erosion control measures that are damaged or inoperative prior to commencement of landscape and irrigation work
- Any planting of sod or other ground cover as required by any municipality when construction of landscape and irrigation has ceased or been suspended for more than 30 days that is no fault of the landscape or irrigation contractor or subcontractors
- Warranty on transplanted plant material from the project site
- Warranty on plant material that is not rated to grow in established USDA plant hardiness growth zone(s)

Procedure for Extra Work, Changes and Escalation

- If it shall become necessary for the Contractor to make changes in any designs, drawings, plans, or specifications for any part of the project or reasons over which we have no control, or we are put to any extra work, cost or expense by reason of any act or matter over which it has no control, the Customer will pay to the Contractor a fee for such changed or extra Work calculated on a time and materials basis. All changes to Work or pricing or the terms of this Agreement will be read and understood within the context and meanings of this Agreement unless stated explicitly to the contrary.
- Change Order: The quantities or specifications of material as outlined in the Proposal could be adjusted at any time with approval in the form of a signed Change Order. Change Orders will be executed using current market prices

Escalation Clause

- In the event of significant delay or price increase of material, equipment, or energy occurring during the performance of the contract through no fault of the Construction Manager, the Contract Sum, time of completion or contract requirements shall be equitably adjusted by Change Order in accordance with the procedures of the Contract Documents. A change in price of an item of material, equipment, or energy will be considered significant when the price of an item increases 5 percent between the date of this Contract and the date of installation

Warranty and Tolerances

- Payments Received: The Warranty for the contract is only valid if payment is received in full on acceptance of the work
- Diligence: The Contractor agrees to carry out its Work diligently and to provide sufficient supervision and inspection of its staff and subcontractors and that its work will be of proper and professional quality, and in full conformity with the requirements of the contract
- Competence: The Contractor warrants that it is competent to perform the Work and that it has the necessary qualifications including knowledge and skill with the ability to use them effectively.
- Site Unknowns: It is the responsibility of the Client or the Client's Representative to fully inform the Contractor of all the information regarding site unknowns that may include difficult buried materials, cables, and pipes, tree stumps, drainage or water table issues, rock, and shale sub surfaces and/or other impediments, issues or factors that could otherwise impact the quality, cost and timeliness of project completion. Failure to notify the Contractor may lead to additional costs to the Client (at the Contractor's discretion) and schedule time not included in the proposal and may require changes in design and construction to overcome such problems – all for which the

Client will be responsible. Client can avoid such risks by permitting the Contractor to do appropriate soil and ground tests, review the site, and to secure additional required site information from appropriate government and other authorities.

- Damaged Utilities: Should damage occur to utilities during construction, the Contractor is only liable for the cost of the repair. the Contractor is not liable in any way for inconvenience to the Client caused by damage to the utilities
- Damage to neighbors buried utilities, on the Client's property, are the responsibility of the Client
- Damage to installed material (plants, trees, sod, etc.) by foot traffic, machinery, equipment, other trades, owner neglect or acts of nature will be excluded from any warranty and will not be replaced at the cost of Contractor
- Damage due to pest infestation is excluded from warranty and any damaged material will not be replaced at the cost of the Contractor. If, however, the Contractor has a separate maintenance contract with the client, pest control would fall under that contract and would be subject to those warranty parameters.
- Damage due to improper watering after final acceptance will not be replaced at the cost of the Contractor

Mate

rial Tolerances

- Wood: Pressure treated wood cannot be guaranteed against warp age, checking, or cupping.
- Stone: Natural stone has color variations that vary from stone to stone. In addition, mineral deposits such as lime, iron, etc. can change the stone and even bleed. This is the nature of the product, and the Client accepts this as a natural and acceptable quality of the stone
- Metal: Metal, which is not galvanized, is not guaranteed from rusting commencing immediately after installation
- Concrete: Spider cracks (hairline stress-fractures) are considered a normal characteristic of all types of concrete. Concrete may crack substantially over time due to proximity of tree roots.
- Warranty Time Period: The Contractor warrants all construction and installation for a period of one (1) year, providing that they have been maintained properly. All construction materials are subject to manufacturer's specific warranties/guarantees. Planting is warranted for one (1) year if there is an approved irrigation system
- Client Responsibilities: The Client recognizes and agrees that they have a responsibility to maintain constructions, plants, bushes, trees, and other installations in keeping with standard quality maintenance requirements for the Warranty to remain in effect. Failure to properly maintain materials or horticulture installations will void the warranty. Client further recognizes and agrees that damage to construction, materials, horticulture elements and other warrantable items of the project will not be warranted if the damage or loss is due to elements beyond the control of the Contractor. For example, flooding eaves, troughs that damage plants, fallen branches, animal caused damage, damaged/ burst irrigation or drainage pipes that were not maintained properly, use of improper chemicals, improper maintenance, extreme or unusual weather conditions, and similar and/or related situations – void all warranties provided by the Contractor
- Use of Client Selected and Approved Substandard Materials: Client recognized and agrees that if the Client has chosen and approved the use of substandard materials for any application that the one-year warranty will be void or otherwise limited in writing on those items so impacted but will remain in effect for all other elements of the project not impacted directly or indirectly by use of substandard materials. the Contractor will notify in writing to the Client any material that the Client has selected that would negatively impact the one-year warranty of the Contractor – prior to purchasing and/or installing such materials
- Material Grades: The Client recognizes that all materials come in a range of grades of quality and finishes, and that natural materials are not perfect. Natural wood has knots, and other natural materials have variability in color due to a wide range of factors, and that sample while useful in material selection decision-making, cannot be expected to accurately represent the total completed installation. The Contractor shall endeavor to enable the Client to see or understand the representative range of color, texture, and related of all materials installed on a project, however, acceptable Florida Grades and Standards will be used for the final selection of those materials. Once the selection has been approved by the Client, the Client will be responsible for all costs associated with changing any given material should the Client change their mind during or after material is purchased or installed.
- Plant specified height and width are used as primary sizes for sourcing plant material. This may result in minor deviation from container and caliper size specifications.

Damage to neighbors buried utilities, on the Client's property, are the responsibility of the Client

Damage to installed material (plants, trees, sod, etc.) by foot traffic, machinery, equipment, other trades, owner neglect or acts of nature will be excluded from any warranty and will not be replaced at the cost of Contractor

Damage due to pest infestation is excluded from warranty and any damaged material will not be replaced at the cost of the Contractor. If, however, the Contractor has a separate maintenance contract with the client, pest control would fall under that contract and would be subject to those warranty parameters.

Damage due to improper watering after final acceptance will not be replaced at the cost of the Contractor

Material Tolerances

Wood: Pressure treated wood cannot be guaranteed against warp age, checking, or cupping.

Stone: Natural stone has color variations that vary from stone to stone. In addition, mineral deposits such as lime, iron, etc. can change the stone and even bleed. This is the nature of the product, and the Client accepts this as a natural and acceptable quality of the stone

Metal: Metal, which is not galvanized, is not guaranteed from rusting commencing immediately after installation

Concrete: Spider cracks (hairline stress-fractures) are considered a normal characteristic of all types of concrete. Concrete may crack substantially over time due to proximity of tree roots.

Warranty Time Period: The Contractor warrants all construction and installation for a period of one (1) year, providing that they have been maintained properly. All construction materials are subject to manufacturer's specific warranties/guarantees. Planting is warranted for one (1) year if there is an approved irrigation system

Client Responsibilities: The Client recognizes and agrees that they have a responsibility to maintain constructions, plants, bushes, trees, and other installations in keeping with standard quality maintenance requirements for the Warranty to remain in effect. Failure to properly maintain materials or horticulture installations will void the warranty. Client further recognizes and agrees that damage to construction, materials, horticulture elements and other warrantable items of the project will not be warranted if the damage or loss is due to elements beyond the control of the Contractor. For example, flooding eaves, troughs that damage plants, fallen branches, animal caused damage, damaged/ burst irrigation or drainage pipes that were not maintained properly, use of improper chemicals, improper maintenance, extreme or unusual weather conditions, and similar and/or related situations – void all warranties provided by the Contractor

Terms & Conditions

Terms & Conditions

Payment Terms

Any proposal exceeding \$5,000 for an enhancement to a Maintenance property, a 50% deposit will be required upon acceptance to schedule job. The remaining 50% balance will be due upon completion of job.

Payments made via credit card will be accepted up to \$4,750 and will include an additional 3% credit

card fee.

Interest will accrue on all invoices over thirty days old. Past due amounts will accrue interest at a rate of 1.5% per month (18% APR). Client agrees to pay any costs associated with collection, including but not limited to court and attorney's fees as additional sums owed.

Exclusions

The Following matters are excluded from the Work, unless specified in writing to the contrary:

This Proposal price is valid for thirty (30) days. We reserve the right to modify pricing after that time to reflect current market prices.

Site work is excluded unless specified in writing within the Proposal. Site should be at finished grade (within 1" of final grade), with all soils in sod and planting areas to be loose, not compacted, and ready to install landscape material. If site is not at finished grade, Contractor reserves the right to delay until site is properly prepared.

Removal of base material and/or aggregate material within all landscape planting areas, sod areas and other green space areas that impedes or impacts proper planting of plant material and sod.

Soil replacement where base material and/or aggregate material was removed for proper planting

Drainage: Should the Client's property be the lowest elevation in relation to surrounding property or buildings, the Contractor reserves the right to retain an expert to evaluate and propose drainage solutions. All costs for engineering services, as well as the actual drainage work will be at the Client's expense. Unless the Client has a detailed Topographical survey completed, the above clause may come into effect.

Soil, Sod and/or Mulch quantities are estimates only. They do not account for disturbed construction areas or other fluctuations. Invoices will reflect actual quantities used at proposed price per unit.

Conduit and connections for electrical, gas, and all other utilities and services

Site Unknowns: Including, but not limited to, sub-surface conditions/obstacles that create unforeseen labor, equipment, material, or disposal charges

MOT for temporary traffic control

Any Irrigation or utility trenching thru roads, road base, concrete, or rock will incur additional costs

Any cutting or repairing of any hard surface such as asphalt, concrete, pavers or curbs for irrigation or landscape

We need 72 hours' notice prior to road base material or concrete work is installed so that sleeves and/or road bores are installed

Backflow Connection

Water source for irrigation is based on specifications at the dedicated meter of the location marked on irrigation plan sheet. If a different location of the dedicated water source is established during construction a change order will be entered into to adjust for the costs associated with the new route for mainline and connections.

Man hours required to find installed buried irrigation sleeves or irrigation piping in areas where asphalt, concrete, curbs, or other hard surfaces are installed prior to completing the irrigation

system and where markings or stubs have been placed to show location of irrigation sleeves or piping and these markers have been damaged, buried, or removed by others.

Additional man hours required to maintain plant material and/or sod of a landscape and irrigation installation project that:

Has been started by Pine Lake Nursery and Landscape and/or its subcontractors and is interrupted, delayed, impeded, or prohibited, by others from being worked on continuously until the landscape and irrigation project is completed. Pine Lake Nursery and Landscaper and its subcontractors are excluded.

Upon completion of the landscape and irrigation installation project as specified in the landscape and irrigation plan sets is considered complete but will not be accepted as completed until the project as a whole is accepted as complete.

Existing tree preservation, barricading, pruning, root pruning, or inventory

Repairs to any erosion control measures that are damaged or inoperative prior to commencement of landscape and irrigation work

Any planting of sod or other ground cover as required by any municipality when construction of landscape and irrigation has ceased or been suspended for more than 30 days that is no fault of the landscape or irrigation contractor or subcontractors

Warranty on transplanted plant material from the project site

Warranty on plant material that is not rated to grow in established USDA plant hardiness growth zone(s)

Procedure for Extra Work, Changes and Escalation

If it shall become necessary for the Contractor to make changes in any designs, drawings, plans, or specifications for any part of the project or reasons over which we have no control, or we are put to any extra work, cost or expense by reason of any act or matter over which it has no control, the Customer will pay to the Contractor a fee for such changed or extra Work calculated on a time and materials basis. All changes to Work or pricing or the terms of this Agreement will be read and understood within the context and meanings of this Agreement unless stated explicitly to the contrary.

Change Order: The quantities or specifications of material as outlined in the Proposal could be adjusted at any time with approval in the form of a signed Change Order. Change Orders will be executed using current market prices

Escalation Clause

In the event of significant delay or price increase of material, equipment, or energy occurring during the performance of the contract through no fault of the Construction Manager, the Contract Sum, time of completion or contract requirements shall be equitably adjusted by Change Order in accordance with the procedures of the Contract Documents. A change in price of an item of material, equipment, or energy will be considered significant when the price of an item increases 5% percent between the date of this Contract and the date of installation

Warranty and Tolerances

Payments Received: The Warranty for the contract is only valid if payment is received in full on

acceptance of the work

Diligence: The Contractor agrees to carry out its Work diligently and to provide sufficient supervision and inspection of its staff and subcontractors and that its work will be of proper and professional quality, and in full conformity with the requirements of the contract

Competence: The Contractor warrants that it is competent to perform the Work and that it has the necessary qualifications including knowledge and skill with the ability to use them effectively.

Site Unknowns: It is the responsibility of the Client or the Client's Representative to fully inform the Contractor of all the information regarding site unknowns that may include difficult buried materials, cables, and pipes, tree stumps, drainage or water table issues, rock, and shale sub surfaces and/or other impediments, issues or factors that could otherwise impact the quality, cost and timeliness of project completion. Failure to notify the Contractor may lead to additional costs to the Client (at the Contractor's discretion) and schedule time not included in the proposal and may require changes in design and construction to overcome such problems – all for which the

Client will be responsible. Client can avoid such risks by permitting the Contractor to do appropriate soil and ground tests, review the site, and to secure additional required site information from appropriate government and other authorities.

Damaged Utilities: Should damage occur to utilities during construction, the Contractor is only liable for the cost of the repair. the Contractor is not liable in any way for inconvenience to the Client caused by damage to the utilities

Damage to neighbors buried utilities, on the Client's property, are the responsibility of the Client

Damage to installed material (plants, trees, sod, etc.) by foot traffic, machinery, equipment, other trades, owner neglect or acts of nature will be excluded from any warranty and will not be replaced at the cost of Contractor

Damage due to pest infestation is excluded from warranty and any damaged material will not be replaced at the cost of the Contractor. If, however, the Contractor has a separate maintenance contract with the client, pest control would fall under that contract and would be subject to those warranty parameters.

Damage due to improper watering after final acceptance will not be replaced at the cost of the Contractor

one-year warranty will be void or otherwise limited in writing on those items so impacted but will remain in effect for all other elements of the project not impacted directly or indirectly by use of substandard materials. the Contractor will notify in writing to the Client any material that the Client has selected that would negatively impact the one-year warranty of the Contractor – prior to purchasing and/or installing such materials

- **Material Grades:** The Client recognizes that all materials come in a range of grades of quality and finishes, and that natural materials are not perfect. Natural wood has knots, and other natural materials have variability in color due to a wide range of factors, and that sample while useful in material selection decision-making, cannot be expected to accurately represent the total completed installation. The Contractor shall endeavor to enable the Client to see or understand the representative range of color, texture, and related of all materials installed on a project, however, acceptable Florida Grades and Standards will be used for the final selection of those materials. Once the selection has been approved by the Client, the Client will be responsible for all costs associated with changing any given material should the Client change their mind during or after material is purchased or installed.
- Plant specified height and width are used as primary sizes for sourcing plant material. This may result in minor deviation from container and caliper size specifications.
