2 (Pages 2 - 5)

Page 6 1 CHAIRMAN LEWIS: We can get to it later. That's 2 fine. 3 MR. VEGA: Okay. 4 CHAIRMAN LEWIS: All right. So I did have a 5 request from Steven Splaine. He's got to go a work call, so 6 I'm going to allow -- I guess, honestly I -- I guess we'll 7 go ahead and just move all audience comments to this point, 8 David, unless you have an objection to that? 9 MR. SYLVANOWICZ: No, that's fine. 10 CHAIRMAN LEWIS: Okay. So Steven, I know you got 11 to get going, you asked me if you could speak --12 MR. SPLAINE: Thank you. 13 CHAIRMAN LEWIS: -- so have you it. 14 MR. SPLAINE: For the Court Reporter, Steve 15 Splaine, 10404 Acelia Way, in the Greens. I'm the HOA representative for the Greens. So I have an ask to the 16 17 board, but before I make the ask, I'll just provide a little 18 bit of context. I think some of you -- hopefully, all of 19 you are now aware there was an incident about a week or so 20 ago where some children were allegedly assaulted on the 21 bridge that connects the tennis courts on Linebaugh over 22 into the Greens. As terrible of a situation that that is, 23 it came to light that the cameras -- we've got two cameras, 24 one at either end of the bridge to view the bridge, were 25 inoperable when the sheriff's asked to get the footage of

the sheriff, which is the right thing to do, but that -that can happen within a reasonable kind of timeframe; whether or not we see vandalism taking place, being there are inappropriate activities happening on the bridge as opposed to three weeks after the event, finding out that the cameras weren't working.

So I've spoken to -- to Dave, I know he is working on some solutions. I've spoken to Mark. My ask, if Dave or Mark come back with a technical solution that requires us to spend a little bit of money, speaking on behalf of the residents of the Greens, we would be more than willing to pay a small incremental fee in order to improve the security of that bridge.

I've been to many police officer, watch-dog type meetings and they'll emphasize that you can lock your front door and put bolts, but if you leave your side window wide open, you're not really protecting yourself and that's how we fell with this bridge. It's not the kind of level of access that we would like being monitored compared to the front door where the guards are. I realize people can walk across the golf course, but it seems like the bridge comes coming up as a source of -- of problems.

So my ask is if -- if, indeed, the staff do need to spend a little bit of money, please, can you approve it? I'm more than happy to go to the HOA and ask them to assist

the event. Unfortunately, we weren't able to help in the -in that investigation.

It came to light that potentially, these cameras can be inoperable for an extended period of time, for weeks, months, a -- their primary purpose to protect the property. I understand we're not in the security, surveillance business, but it would've been a nice byproduct to have been able to have helped the sheriff. Unfortunately, the camera set up as is, it's failing to meet that primary need and to my own personal knowledge, the bridge has been vandalized 10 three times and for -- for various things, we've not been 11 able to react in a timely manner. 12

The root -- well, I say a root cause, one of the major deficiencies is the video cameras record the video to a chip that's at the bridge and if nobody happens to be monitoring it or -- again, we can go weeks without knowing 16 that the cameras are inoperable. If you look at the chip, you may have to go back days or weeks to try to find what took place.

So an ask that Bradley, the other VM for the Greens and I have had for the last couple of years is, please, could we get a live streaming feed from the cameras to the guardhouse. I realize that in the guardhouse, they are not policed, they're not sheriffed, they're not going to respond to an attack. All they'll do is pick up the phone and call

Page 9

Page 8

us. They've got a building within 50 yards with broadband, we already have power at the bridge. I've got to believe we can come up with a reasonable solution to get a live feed as opposed to relying on little SD chips that we, unfortunately, find out don't work until we wait too late.

CHAIRMAN LEWIS: Okay. Thanks, Steven. Yeah, I just heard about this -- I think it was yesterday or maybe Sunday afternoon from Sherida and then -- and I've had some issues, so I got the e-mails last night. So yeah, an unfortunate situation. I -- this actually brought up questions for me and I'll be honest, I didn't realize we had two cameras there. I knew in the past, people were driving golf carts this thing and I think we rebuilt it within the last ten years. I -- but it -- it brought up some questions for me and -- and I'm with you. If we can put people in space, I got to think we could have some better connection to those cameras.

David does have, on his field manager's -- field manager's agenda to talk about some camera upgrades because we have had some issues with some of the other technology we have at the parks, so I think we'll -- we'll come up with something about -- about probably -- I don't know if we can do it at the guardhouse, but I guess what -- what I was thinking in my mind was at our office, where we have all of the other video feeds.

|----|--|-----|---|
| 1  | MR. SPLAINE: Well, that downside is these guys               | 1   | MR. SPLAINE: Yes.   |
| 2  | don't work 24/7. Since we have the guardhouse staffed        | 2   | CHAIRMAN LEWIS: you know, that's that's                     |
| 3  | 24/7   | 3   | another thought that popped into my head is maybe we don't  |
| 4  | CHAIRMAN LEWIS: Fair point, yeah.                            | 4   | put cameras back there. I I'm not saying we're saying       |
| 5  | MR. SPLAINE: So that would be the and I realize              | 5   | that, I'm just just a topic for discussion.                 |
| 6  | they have other duties that they're like letting people      | 6   | MR. SYLVANOWICZ: That's the only location that's            |
| 7  | in and out, but at the same time, there is somebody there    | 7   | not a public park or a gate.                                |
| 8  | and if there is an event that is taking several minutes to   | 8   | CHAIRMAN LEWIS: Right.                                      |
| 9  | evolve, there's a good chance that they would notice and     | 9   | MR. SPLAINE: It seems to be a sight of                      |
| 10 | certainly a better chance than relying on a like I said,     | 10  | mischiefness (phonetic), if that's an appropriate word and  |
| 11 | an SD card that gets checked every few weeks.                | 11  | yeah, if we can actually put some realtime eyeballs on      |
| 12 | CHAIRMAN LEWIS: Go ahead.                                    | 12  | there, then it's not going to solve all the problems, but   |
| 13 | MR. SYLVANOWICZ: Just it's well, what it is is               | 13  | maybe it solves one or two of them.                         |
| 14 | it's two cameras hooked to an NVR, which is a higher end     | 14  | CHAIRMAN LEWIS: Right. Were you going to say                |
| 15 | DVR. That's what's in there, it's not on a chip. I spoke     | 15  | something?  |
| 16 | with Charlie, our IT guy and he looked into doing that with  | 16  | MR. CHESNEY: I was just going to say it is                  |
| 17 | Sonny and I guess the issue with Spectrum is that they don't | 17  | important to recognize that the cost associated with        |
| 18 | like to give accounts to things that don't have an address,  | 18  | monitoring those live is important. Like the I forget       |
| 19 | so that doesn't have an address. That being said, we're      | 19  | what our internet bill is now, but it's all these little    |
| 20 | still going to reach out to Spectrum once again because I    | 20  | cameras, you have an address everywhere, it's a hundred     |
| 21 | believe from talking to Sonny and Doug and and we've kind    | 21  | bucks a month for each camera. It adds up, so and I         |
| 22 | of gone around a couple of times with them on this, so we    | 22  | remember the last time I looked at it, I think it was 1,400 |
| 23 | might have to either use a neighbor's address and make sure  | 23  | a month or something.                                       |
| 24 | it's specific, that there has to be a workaround, but        | 24  | MR. SYLVANOWICZ: Static IP addresses is well over           |
| 25 | we're getting to that point.                                 | 25  | a \$100 a month.  |
|    | Page 11  |     | Page 13   |
| 1  | Charlie also told me that they explored connecting           | 1   | MR. VEGA: Yeah.   |
| 2  | to the HOA office and then they met resistance because there | e 2 | MS. PASAWICZ: Well, here's some of the other                |
| 3  | was going to be a cable that had to be run to the roof or to | 3   | things that I've seen                                       |
| 4  | the side of the building, so and maybe that situation is     | 4   | CHAIRMAN LEWIS: I'm sorry, if you could, please             |

5 5 different now with Inframark being there and Mark being 6 here, so we can try to figure something out and the hope --6 7 7 well, what I -- what the initial discussion was was we need 8 to get internet so that we can then send that to the 8 9 guardhouse and put it on a dedicated -- couple of screens, 9 10 10 probably another computer. So that was the initial 11 11 discussion about that solution. 12 MR. SPLAINE: Yeah, once we get it broadband, into 12 13 the access, everything else kind of falls into place. I 13 14 don't know, maybe we can even use the HOA office address, 14 15 The tennis court is right there. 15 16 16 MR. SYLVANOWICZ: Yeah. 17 17 CHAIRMAN LEWIS: Well -- and this may not be a 18 popular thought, but one of the questions that popped into 18 19 my mind the other day is do we even need these cameras 19 20 20 there? I realize what just happened, but is this an asset

that -- that we need to see? I mean, I'm -- I'm just

vandalized, at least by my understanding, so --

throwing it out there for topic because sometimes it -- like

anything, if we have a camera there, we have to, you know,

feel like we -- it should be working and I realize it was

CHAIRMAN LEWIS: I'm sorry, if you could, please state your name and address?

MS. PASAWICZ: I'm Karen Pasawicz, 10559 Greensprings, in the Greens.

CHAIRMAN LEWIS: Thank you.

MS. PASAWICZ: From all of the other -- speaking for the Greens -- from all the other things that I've read that we've been contemplating spending money on, this is a safety thing. I see a lot of the activity that goes on even in the daytime on that bridge and there's tons of stuff that could be less than desirable. This is more of a safety thing.

CHAIRMAN LEWIS: Mm-hmm.

MS. PASAWICZ: I mean, it's -- it's -- this is what we should be focused on.

CHAIRMAN LEWIS: Yeah, I understand your point. Again, those cameras weren't put up for public safety. They were put up to protect the property that we have because we did have some vandalism at Glencliff Park when we redid --

MS. PASAWICZ: Understood.

CHAIRMAN LEWIS: -- the parks, things like that, so I'm not -- I'm not trying to discourage your point or not

Page 14 Page 16 1 understand it or -- or not listen to you, I'm just trying to you know, it's such a cool community, it's unique for having 2 2 tell you what we -a Tampa address. I mean, we have, you know, a lot of green 3 3 areas, animals, walking, lots and lots of eyeballs going MS. PASAWICZ: No, totally understood, but that is 4 4 -- that's a piece of property that connects into the Greens back and forth across Linebaugh from east, West Tampa. Most 5 that is behind the gate --5 don't really understand maybe the significance of Westchase, 6 CHAIRMAN LEWIS: Yeah. 6 but we do as -- as owners and stuff like this and I'm just 7 MS. PASAWICZ: -- that we pay additional money for. looking for like something -- but I -- I don't know the --8 CHAIRMAN LEWIS: Agreed, but there's a lot of other 8 I'm just here to get a preliminary hot, cold, you know, is 9 things, too and -- and I guess that was my point about do we 9 it feasible, costs, engineering, blah, blah, blah. But I'm 10 even need cameras here at this -- at this location. 10 looking at that lake across from the fountain we have now on 11 MR. SPLAINE: I think if I were to pull the 11 Linebaugh by the village by the school. It's big, I don't 12 residents of the Greens --12 know the depth of it, I don't know what it takes, but 13 CHAIRMAN LEWIS: No, no, I --13 looking into possibly getting a -- what's called a jet 14 14 MR. SPLAINE: -- they would be very in favor -fountain. I sent pictures in an e-mail to some people, but 15 CHAIRMAN LEWIS: I know, Steven and I'm not saying 15 -- but, you know, in Lake Geneva, Geneva, Switzerland, our that I -- I'm going to vote to remove the cameras, I -- I'm Lake Geneva, it's so iconic for them that it's on their city 17 17 just -- it was a thought for topic. logo for Geneva, Switzerland. 18 MR. SPLAINE: The other thing is we've got over 500 18 I just think it would look so cool for Westchase, 19 units behind the gate, so if there is a cost -- hard to say 19 but once again, I don't know the feasibility of the costs, 20 20 \$100 a month, split 500 ways, we're talking, you know 25 but I'm just trying to see if I can get any traction, see if 21 cents here. 21 it's feasible and blah, blah, blah. And that's kind of --22 CHAIRMAN LEWIS: Yeah, I -- again, I -- like I 22 that's why I'm here in front of the board. 23 23 said, I prefaced it with I'm sure it wasn't a popular topic CHAIRMAN LEWIS: Okay. Thank you. Yeah, I did see 24 24 your e-mail. I -- it's something that we can discuss and 25 MR. SPLAINE: Yeah, thank you. 25 talk about. We typically -- I say typically, if there's a Page 15 Page 17 CHAIRMAN LEWIS: -- for thought, but I wanted to lot of topics to talk about, we have a workshop in between 1 2 2 get it out there. meetings --3 3 MR. SPLAINE: Okay. That was it, that was my ask. MR. COOK: Sure. 4 4 Thank you for letting me speak. CHAIRMAN LEWIS: -- which is less formal, not CHAIRMAN LEWIS: Do you have anything? 5 5 recorded by our Court Reporter, things like that. We cannot 6 MR. WIMSATT: No. 6 take action, but it could be something we can take up for 7 7 CHAIRMAN LEWIS: Reggie? discussion. You know, a big part of what we do is -- is 8 8 MR. GILLIS: No. take care of infrastructure, ponds, irrigation, landscaping, 9 CHAIRMAN LEWIS: Okay. Steven, thank you. things like that, but -- you know, it's something that we 10 10 Did anybody else have anything they wanted to say? can talk about. 11 Yes, sir. 11 MR. COOK: Yeah, I'm just here to start -- and I --12 12 MR. COOK: Hi, I'm Darren Cook, 10312 Greenhedges and believe me, I'm not looking for the 500-foot like 13 13 Drive and I'm the one that sent the e-mail to the board Geneva. I'm talking about 100 footer. As long as it's just 14 14 about the possibility of a fountain, the jet fountain. I'm the biggest in Tampa, that's what I ask for, so we have some 15 15 a -- first of all, spoiler alert here, I am cuckoo for Cocoa bragging rights, you know and those jet fountains, man, it 16 Puffs for fountains and I think we have one of the most best 16 17 17 ones by The Village there, the multi-spraying one right by CHAIRMAN LEWIS: I think if we put one ten feet, 18 Linebaugh where it splits into, you know, east, west and 18 it's probably going to be the biggest. Is there another one 19 19 stuff like that and I just -- I've been to Geneva, in Tampa? 20 20 Switzerland twice and have seen their jet fountain which is MR. COOK: I don't know, I don't know, that's -- I 21 the most iconic, beautiful, majestic thing there is, but 21 don't know how you would start this. Would you need to like 22 22 get -- I'm sure we have a fountain company that takes care that one was 500 feet, granted. They say jet airplanes can 23 23 see it at 32,000 feet. of current fountains we have, you know and they could kind 24 But I'm just wondering, Westchase is such a cool --24 of give us an idea of what a cost would be, engineering, is you know, I've lived here about a year and a half now and, the lake deep enough. I mean, I don't know, I'm just here

5 (Pages 14 - 17)

Page 18 1 just to start just the -- potentially the ball rolling and 2 see if I can get some -- some thoughts. 3 CHAIRMAN LEWIS: Well, thank you for the comment. 4 Appreciate it. 5 All right. Anyone else? Yes, sir. 6 MR. BADER: Bob Bader, 10518 Brentford and I just 7 had a quick question. I saw that the attorney engagement 8 letter was on here and looking at the budget, I think we 9 budget 105,000 for next year, somewhere in that range. Is 10 -- can I divide the hourly rate by that -- that amount by 11 the hourly rate to get the 300 hours? Is that fair or are 12 there other costs? 13 MS. McCORMICK: So that letter that's in the agenda 14 package actually was approved by the board back in -- I 15 think it was 2017, so it's not based on my current rates 16 that I charge and it provided that, you know, the rates 17 would be adjusted on a yearly basis, but when the district 18 manager was reviewing the records to respond to a public 19 records request, we didn't locate the engagement letter. We 20 located the one in 2017 that was executed by The Chair at 21 that time, but it hadn't been -- is that right -- it was

residents are just clearly not aware of how big Westchase is in comparison to the places you just mentioned. If you look at the number of units per those places, they are much smaller. Waterchase, for example, is about a fifth, Eagles is a third and just about everywhere around here, we're much larger -- a much larger community, so a lot of times when I hear comparisons, it's not in the context of the size of the community and the breath of -- you know, you raised the budget. That's why it's 3.4 million dollars, not two million like in some of the other places. So I would just say make sure your -- you make sure there's a comparison in size because of our size. MR. BADER: No, I think that's a fair point. I did

find some of these had overall budgets similar to ours and some of the communities were the same size, plus I think -and correct me if I'm wrong -- unless we have some really complex legal issues we're dealing with -- you know, you file all the forms for 3,000 homes or 2,000 homes. I don't think it necessarily scales up to, "Unfortunately, it's the size of the community." I'm just raising this issue of -again, they are all over the place and are some firms more efficient in terms of providing the services we need? Is this something that we're looking at? We're talking about cameras here and safety. If we could save \$50,000 on our legal expenses -- and Erin, again, no offense.

all that that is intended to do is to allow the board to have the current Chair re-execute it.

MS. McCORMICK: -- but not by The Chair, even

though the minutes clearly reflect that it was executed. So

executed -- it was executed by me --

MR. VEGA: Yes.

MR. BADER: But am I right in that the legal expenses aren't that rate times the hours?

MS. McCORMICK: Well, the legal expenses I think for this year and last year were significantly less than what was budgeted, but that's what is budgeted by the district because we don't really know at the beginning of the fiscal what legal issue might come up and they are billed at my hourly rate.

MR. BADER: So the 105 -- the number in the budget, is that accurate for '26 or no?

CHAIRMAN LEWIS: If that's what we -- I don't have 13 if in front of me. I haven't gotten to the thing yet, but 14 if that's what we had budgeted --15

MR. BADER: Yeah, so then I was -- and the regular -- the rate at least I'm seeing on there would be in line with the market, I'm sure you (indiscernible) so I'm sure it's fine, but I was just looking at other CDD legal expenses and they are all over the place. I mean, I -- and I don't understand any of this. Waterchase is 9,000, Tampa Pines is nine, Fishhawk is 72, Avalon Park is 24, Lexington Oaks is 30, so we just seem to be way above other CDDs.

MR. GILLIS: I want to make a comment. I -- I brought this up a number of times and I think a lot of our Page 21

Page 20

MS. McCORMICK: No, I understand. MR. BADER: This is a little awkward here. Something just to look at is, perhaps say -- you know, if it's 300 hours, roughly on at least -- or 335, it would be the hours and that would be a little less, I guess, of a reasonable amount. Still just -- just wanted to pose the subject.

CHAIRMAN LEWIS: Very fair point and I think to Reggie's point, too, I mean, I -- I think, you know, there are five individual supervisors on all of those boards that you mentioned, you know, so poll anybody in the room, they're going to come up with a different opinion than even yourself, so it's -- I almost chalk it up to maybe one of those as well as maybe the scale of the neighborhood. Maybe they just feel like they only need \$30,000 a year or -- or you know, maybe what their experience has been in the past.

I'll even tell you -- not to be jokey, but I've had conversations with David and Sherida like, "I don't know if I should Erin right now, maybe I can get this done without calling her and she can charge me 30 minutes of time." I personally think about stuff like that. I mean, same with Robert. I mean, they are both hourly rated professionals, so obviously, we want to use them for the best of the community, but I'm very cognitive of the time that I spend with them.

|    | Page 22  |    | Page 24  |
|----|--|----|--|
| 1  | MR. BADER: Yeah, so I reached out to Inframark               | 1  | it wouldn't work there because it was some electrical        |
| 2  | because they manage some of these properties, just to        | 2  | something there. What's what happened to the discussion?     |
| 3  | understand how we can do it so a little. Again, just         | 3  | Couldn't it go between a couple of other houses that doesn't |
| 4  | wanted to if you're looking for savings, maybe that's        | 4  | have the electrical thing to the I live across the street    |
| 5  | some place to consider.                                      | 5  | and I look out my front window and when it rains hard, I see |
| 6  | CHAIRMAN LEWIS: Okay. Thank you.                             | 6  | a river coming down between two houses to the street and     |
| 7  | All right. Yes, ma'am?                                       | 7  | going down the drain. Shouldn't there be some drainage       |
| 8  | MS. WILCOX: Pam Wilcox, 9817 Bayboro Bridge Drive.           | 8  | somewhere in between houses?                                 |
| 9  | I know we're going to get to pond 128, but I just had a      | 9  | CHAIRMAN LEWIS: Yeah, so if you we did have                  |
| 10 | thought of you know, we are we're having issues with         | 10 | Robert design a with the berm some drainage inlets and       |
| 11 | the water coming to the pond and then getting out of the     | 11 | some pipe that were going to be behind the berm. There were  |
| 12 | pond. Has there any been kind of look at an easement north   | 12 | two residents, two houses, on your street that did not allow |
| 13 | of the pond so it doesn't even come our way? Instead of      | 13 | the CDD an easement to put in the connection pipe to the     |
| 14 | coming north, through, out, is there anyway to do an         | 14 | street curb and the street inlet to to drain that water      |
| 15 | easement before it even gets to us?                          | 15 | and this was I mentioned this at the last meeting, but       |
| 16 | CHAIRMAN LEWIS: I'd like to correct you, I think             | 16 | we've mentioned it at several meetings before, that that     |
| 17 | you said 128, but it's                                       | 17 | because we didn't do that, obviously the rainwater was going |
| 18 | MS. WILCOX: I meant 125.                                     | 18 | to pond. That's not pond water, actually, that's just        |
| 19 | CHAIRMAN LEWIS: 125. I'd really like to save that            | 19 | rainwater.   |
| 20 | for our discussion   | 20 | MS. SMITH: Right, right.                                     |
| 21 | MS. WILCOX: Yeah, I know, but I just you know,               | 21 | CHAIRMAN LEWIS: There's been a lot of discussion             |
| 22 | if I do it at the wrong spot, I don't want to miss my        | 22 | with BDI and Robert about other avenues that are that        |
| 23 | comments and opportunity, so                                 | 23 | we've used terms like the longer term plan and he's he's     |
| 24 | CHAIRMAN LEWIS: I I don't want anybody to think              | 24 | got something that we're going to talk about when his time   |
| 25 | that that if you say something and we keep moving on,        | 25 | is on this agenda regarding related to pond 125 and he's     |
|    | Page 23  |    | Page 25  |
| 1  | that we're not have we ever not come back and come on.       | 1  | actually got another idea and we talked about it I think     |
| 2  | Okay.  | 2  | we talked about it at the last meeting?                      |
| 3  | MR. WIMSATT: I mean, we've always let everybody              | 3  | MR. DVORAK: Yeah, briefly. I was going to kind of            |
| 4  | speak.   | 4  | go over it today.  |
| 5  | MS. WILCOX: Absolutely. I just want to make sure             | 5  | CHAIRMAN LEWIS: Okay. Yeah, so we do have another            |
| 6  | that that thought is in there if it's already been addressed | 6  | he does have another thought and idea that will hopefully    |
| 7  | and already been reviewed and there's no easement up there   | 7  | relieve that and we can continue with that plan.             |
| 8  | and and just thought why would that water come to us when    | 8  | MS. SMITH: Okay. Thank you.                                  |
| 9  | it can go right down Sheldon and out before it hits ours, so | 9  | CHAIRMAN LEWIS: Thank you for bringing that up.              |
| 10 | just a thought.  | 10 | All right. Yes, sir?   |
| 11 | CHAIRMAN LEWIS: Thank you.                                   | 11 | MR. SANTOS: Marlon Santos, 11836 Derbyshire Drive.           |
| 12 | MS. WILCOX: Thank you.                                       | 12 | When I was here in the meeting when those two residents      |
| 13 | CHAIRMAN LEWIS: Okay. Anybody else? Anybody else             | 13 | publicly said they don't want it right and I remember        |
| 14 | that has any comments? Yes, ma'am.                           | 14 | I brought it up, the point, "Should we make a record that    |
| 15 | MS. SMITH: Judy Smith, 9823 Bayboro Bridge Drive.            | 15 | they are refusing so that in the future, if this comes up    |
| 16 | I know you're tired of Bayboro Bridge Drive.                 | 16 | again, we'd know," but we can't find the information         |
| 17 | CHAIRMAN LEWIS: No, ma'am.                                   | 17 | anywhere in the records. I think somebody I think Pam        |
| 18 | MS. SMITH: I know you're taking care of the pond.            | 18 | was looking at it, she couldn't find it.                     |
| 19 | I'm concerned about the backyards of the houses that live on | 19 | So my point is, next time, let's make it a record            |
| 20 | the pond. And you put the berm up, that's great, that keeps  | 20 | that this happened because this is like the third or fourth  |
| 21 | the pond down, but when it rains fairly heavily, all those   | 21 | time that this came up again and you guys have to keep       |
| 22 | backyards are flooded up to their porches and almost to      | 22 | saying, "The residents declined," but there's no record of   |
| 23 | their backdoors. I just wondered, at one time, there was a   | 23 | it and I was here. I remember, I                             |
| 24 | discussion about a pipeline going between a couple of houses | 24 | MR. SYLVANOWICZ: They sent us an e-mail.                     |
| 25 | out to the street and then water would go down the drain and | 25 | CHAIRMAN LEWIS: It was an e-mail?                            |

7 (Pages 22 - 25)

| Page 26  1 MS. COOK: They sent an e-mail to give you guys 2 notice that they were refusing. That's why they 3 CHAIRMAN LEWIS: Okay. Thank you. I honestly 4 couldn't remember. I know there was discussion about it at 5 a meeting, whether the like I said, that those two 6 residents wouldn't allow it, but it must have been in an 9 e-mail. 8 So yeah, thank you. Okay. Anybody else? 9 (No response.) 10 CHAIRMAN LEWIS: All right. Seeing none, we'll 11 move on to David, field manager's report. 12 MR. SYLVANOWICZ: Yep. Hello, everybody. So I'm 13 going to start in West Park Village. So if you remember, 14 county put up over 60 signs that look like that now because 15 they got new fire trucks and they have in turn, made the 16 change and it's tied in there. So they put up we have 57 17 counted, so the the ask, obviously, for you guys to 18 consider is to excuse me, let me go back there is to 19 Reid has a proposal for decorative sign posts, signs, 20 backings much like the to keep in character of that. 21 Basically, it's so it will have a flat black 22 backing to it. It has a raised frame on the front. Let me 23 show you the front. I know you're all used to seeing them, 24 but it's quite a few differences that I've learned. So the 25 proposal I have for from John Reid Industries is to  Page 27  1 sorry, I'm trying to do too many things here. I think it's 2 that one. It's basically \$57,000 to give us decorative 3 signs to that community to keep in kind with all the no 4 parking signs. That did cause a little bit of controversy 5 because they were put up, people didn't like them, they were  1 the summary of t                           | And so the VM for anity wanted. a while, but en asking for yeah. e have a motion to  Does the \$50,000 a you please state upointe. Does the |

| 5 because they were put up, people didn't like them, they were 5 MS. McCORMICK: 25 on construc   | 00 on services,   |
|  |   |
| C 44-11  | tion  |
| 6 too tall, so county kind of went back and forth. We finally 6 MR. VEGA: 325 on construction.   |   |
| 7 have the final signs that are up. We had John from Reid 7 MS. McCORMICK: but yeah, the   |   |
| 8 Industries go and audit them. I've met with him, we've gone 8 threshold like for I think you said 45,00  | ), that's not a   |
| 9 through all of them, so this is the posts, the backing, the 9 bid threshold for the purchase (indiscern  | ible.)  |
| 10 signs it's actually two signs included on that because 10 MS. STONE: Then why did you all   |   |
| 11 it's the no parking sign and then it says either this way or 11 MS. McCORMICK: If the board wa  | nted to get a second  |
| that way and they kind of alternate depending on their use.  | -   |
| 13 He is ready to go to do that. He has 55,535 13 CHAIRMAN LEWIS: Right, yeah.   | I mean, we have in  |
| MR. GILLIS: Question. 57 signs? 14 the past and I think we do that on I mean   | ı, I can't  |
| 15 MR. SYLVANOWICZ: 57 signs. Yep. 15 vividly remember, but there are some thin  | gs that we don't  |
| MR. GILLIS: That's like a thousand dollars a 16 we've worked with some vendors on a cou  | ple of occasions on   |
| 17 piece. 17 multiple things and we decided that we fee  | l like it's   |
| 18 MR. SYLVANOWICZ: Yep. 18 something that is worth it. So all right.  |   |
| 19 CHAIRMAN LEWIS: And and these would replace 19 MR. GILLIS: I just wanted to clarify   |   |
| 20 every sign that the county put up that's on a regular 20 community is asking for it, so the HOA   |   |
| 21 MR. SYLVANOWICZ: We're going to reuse the signs 21 that community is  | y that the  |
| 22 and take the poles. 22 MR. SYLVANOWICZ: In the past,  | y that the  |
| 23 CHAIRMAN LEWIS: Just the poles? 23 This was when Sonny was still here, when   | y that the representative for   |
| 24 MR. SYLVANOWICZ: Yep. So then the pole gets that 24 ongoing and she was being told, even by C   | y that the representative for yep, they were.   |
| 25 decorative 25 make sure this gets done in a timely fashio   | y that the representative for yep, they were. this project was  |

|----------|--|-------|--|
| 1        | and  | 1     | CHAIRMAN LEWIS: Okay. I'll move to approve with  |
| 2        | CHAIRMAN LEWIS: Okay.  | 2     | the caveat that we can get the appropriate I don't know  |
| 3        | MS. McCORMICK: So do we have something from the              | 3     | what you call it   |
| 4        | county that indicates that these signs are acceptable to     | 4     | MS. McCORMICK: Agreement in place with Reids.  |
| 5        | them?  | 5     | CHAIRMAN LEWIS: Yeah, that it's going to meet the  |
| 6        | MR. SYLVANOWICZ: They've might flick at the                  | 6     | county requirements or I guess would it be MUTC or   |
| 7        | Hillsborough County sign requirement. He signed off and      | 7     | MR. VEGA: Yeah, it would be MUTC.  |
| 8        | said, "We're done, where they are is where they're staying." | 8     | CHAIRMAN LEWIS: Okay. Is there a second?   |
| 9        | MS. McCORMICK: But the new the new posts that                | 9     | MR. WIMSATT: Seconded.   |
| 10       | are being put in and decorative features, they don't have    | 10    | CHAIRMAN LEWIS: All right. Jim.  |
| 11       | any issue with that?   | 11    | Any other discussions, questions?  |
| 12       | MR. SYLVANOWICZ: No.   | 12    | MS. WILCOX: Just to finish your question. And  |
| 13       | MS. McCORMICK: Okay. I mean, we could get                    | 13    | then who pays for the \$57,000? Is that just The Villages  |
| 14       | something from the contractor or from the company that's     | 14    | people or is that everybody?   |
| 15       | providing a to Reid saying that it complies with all of      | 15    | CHAIRMAN LEWIS: Uh   |
| 16       | the requirements that that the county has.                   | 16    | MS. WILCOX: I don't think we finished her.   |
| 17       | MR. SYLVANOWICZ: Yes, well, the signs are staying.           | 17    | MR. VEGA: Everybody would.   |
| 18       | This is just the decorative boarder                          | 18    | CHAIRMAN LEWIS: Is that everybody?   |
| 19       | MS. McCORMICK: Right.  | 19    | MR. VEGA: Yeah, it benefits everyone because it's  |
| 20       | MR. SYLVANOWICZ: and the black pole and the                  | 20    | public space.  |
| 21       | concrete and all that and the instillation.                  | 21    | CHAIRMAN LEWIS: Oh, right, it's not behind a gate.   |
| 22       | MS. McCORMICK: Yeah, we just don't want the county           | 22    | Okay.  |
| 23       | to come back and say for some reason, those decorative       | 23    | All right. All in favor?   |
| 24       | features are an issue with respect to the signage.           | 24    | (All board members signify in the affirmative.)  |
| 25       | CHAIRMAN LEWIS: She does have a point because the            | 25    | CHAIRMAN LEWIS: Carries four to zero.  |
|          | •  |       |  |
|          | Page 31  | 1     | Page 33  |
| 1        | U-Channel post, the silver ones that nobody likes, those are | 1 2   | (Motion passes.)   |
| 2        | yeah, those are break away and there's a three pound and     | 3     | MR. CHESNEY: I have one comment, though.   |
| 3        | four pound, so there's different ratings to them in terms    |       | CHAIRMAN LEWIS: Sure.  |
| 4        | of   | 4     | MR. CHESNEY: So in the past, some of you talked  |
| 5        | MR. SYLVANOWICZ: I   | 5     | about the amounts the bid amounts  |
| 6        | MS. McCORMICK: So we could either have an                    | 6     | MS. McCORMICK: Yes, thresholds, right.   |
| 7        | agreement with this company that they're warranting that it  | 7     | MR. CHESNEY: thresholds, so in the past, we've   |
| 8        | meets all of the applicable regulations and that would       | 8     | had lower thresholds. Those are the current ones and so in   |
| 9        | probably be the best way to do it and then we can also, you  | 9     | the past, we have had thresholds and this board has, over  |
| 10       | know, make sure they're proving the appropriate insurance to | 10    | time, changed those thresholds. Right? So I mean, we   |
| 11       | the district, et cetera.                                     | 11    | could have lower thresholds. I know at some point, we went   |
| 12       | MR. SANTOS: I have a question.                               | 12    | to the state ones, but we've had   |
| 13       | CHAIRMAN LEWIS: Yes.   | 13    | MS. McCORMICK: Yeah, the state statute and we  |
| 14       | MR. SANTOS: If we replace them, are we responsible           | 14    | amended our rules of procedure to be consistent with those.  |
| 15       | for them as opposed to the county that the county I          | 15    | MR. CHESNEY: Yes, right. For a number of years,  |
| 16       | don't know how it works now, if the county puts them, are    | 16    | we had them as low as 5,000.   |
| 17       | they responsible, but if we replace, who's responsible to do | 17    | CHAIRMAN LEWIS: Really?  |
| 18       | CHAIDMAN I EWIS, I think we are Dight?                       | 18    | MR. CHESNEY: We did, if you go back to anyway.   |
| 19       | CHAIRMAN LEWIS: I think we are. Right?                       | 19    | CHAIRMAN LEWIS: Okay. Thank you.   |
| 20       | MR. SYLVANOWICZ: Yes, correct.                               | 20    | David, what else you got?  |
| 21       | CHAIRMAN LEWIS: Because they are decorative, but             | 21    | MR. SYLVANOWICZ: Okay. So cameras in the parks.  |
| 22       | it's something that West Park Village that they've been      | 22    | Back to cameras. We have three public parks actually,  |
| 23       | wanting for a while. I think it's been there for the         | 23    | now four if you want to count the fountain park with the   |
| 24       |  |       |  |
| 24<br>25 | since their inception. Right?  MR. SYLVANOWICZ: Yep.         | 24 25 | excuse me the West Park Village and the bell tower. The main thing is that most of the cameras or the DVRs or some |

9 (Pages 30 - 33)

Page 34 Page 36 1 component of it is not operating appropriately. being a fountain service tech for the apartments thinking he 2 So it was about this time last year, maybe a few 2 was supposed to throw these pucks in. 3 months -- it was in the summer that I got a proposal from 3 Now, anybody who has a pool you don't put the puck 4 BCI to address this. They basically wanted to redo the on the bottom or it stains, but he was doing that, so it did 5 system, create a DVR there or a network there that then 5 take her some time to find that, but it was solved in that 6 sends it back to the office. 6 way. 7 So just for everybody, we have two vendors. We 7 So example of protecting -- you know and then what 8 have Charlie from Federated who has been doing all of our 8 Steven was talking about also. 9 gates and just recently did our bell tower and then we have 9 CHAIRMAN LEWIS: Okay. So the way that I added 10 BCI who was the vendor that was chosen by the board in the 10 this up was three F -- Federated Security Solutions was 11 past to do the parks. 11 about 32,000 --12 They are -- they've given me a proposal because the 12 MR. SYLVANOWICZ: Correct. 13 cameras are all in the front, so I was just going to go with 13 CHAIRMAN LEWIS: -- and then the one with BCI, with 14 the width cameras. So for all three parks, it's about 50 --14 cameras, as you mentioned, is 52 and change. 15 well, they have tax in there. That's a mistake. So about 15 MR. SYLVANOWICZ: Yep. 16 \$52,000. 16 CHAIRMAN LEWIS: Okay. And then would be 17 So then I worked with Charlie and so he gave me 17 obviously, we had the discussion earlier with Steven about 18 three different proposals. Personally, working with 18 19 Charlie, he is a -- he is a person that has a few workers 19 MR. SYLVANOWICZ: Mm-hmm. 20 with him. He is able to respond pretty quickly. BCI is 20 CHAIRMAN LEWIS: -- about getting those two tied in 21 more of a corporation. We get into their queue, we call a 21 there at the bridge. 22 call center, they come out and they are -- they're 22 MR. SYLVANOWICZ: He thinks it's doable. He 23 reasonable when they come out and help us with whatever 23 understands the difficulties. He still thinks that -- he is 24 24 malfunction that we are having. going to look into also putting it on a cell service so it 25 25 I personally prefer working with Charlie. He is would get the data to our network that way. Page 35 1 kind of that day or the next. He doesn't like the idea of 1 So for example, the Peabody gate, that is on a cell 2 2 having the parks send all the information to the office and service because we -- we don't have good Wi-Fi there, so she the reason that BCI wants to do that is because all this can't update the codes or that line can go down very easily equipment is in a lockbox behind a bathroom. It's exposed 4 and then the residents can't call in. So that's been put on 5

3 4 5 to the elements in some ways because the heat and whatnot 6 and they'd put all the equipment in the office, where with 7 Charlie, he would rather have the DVRS there and he -- or 8 the NVRs they're called and he puts the right infrastructure in there. Then, if we lose network at the office, it's 10 still recording. If we lose network and Spectrum goes down, 11 then we don't have the footage and like we said, this is to 12 protect our property and whatnot. 13 CHAIRMAN LEWIS: So I have a question. BCI has one 14 with cameras and one without, but did I just hear you say 15 that they are -- when you say defunct, what does that mean? 16 MR. SYLVANOWICZ: Most of the cameras are working, 17 they are just really out of date. I think it's 2016, 2017. 18 We have seen the affect -- we had the incident where we have 19 our new fountain at the bell tower and we were getting 20 reports from our new fountain vendor that he was finding 21 pucks in there and it was staining the bottom of the new 22 fountain, the pebble tank and Sherida was able to use the

new video that was there -- it was crystal clear, we could

thought it was someone angry at us, a kid, but it ended up

see the type of car, the person that was doing it. We

Page 37 a cell service, which is a much more -- yes. MR. CHESNEY: So -- so I'm assuming there's a cost to that, but who is that through? What is --MR. SYLVANOWICZ: It would be an additional cost. like through a data carrier. MR. CHESNEY: Okay. So it hasn't been done? MR. SYLVANOWICZ: No, no, we haven't done any of that. MR. CHESNEY: Yeah, yeah, okay. You don't have an idea what that cost would be for what it is, approximately? MR. SYLVANOWICZ: I don't, yeah. MR. CHESNEY: Okay. I was just curious as to how it relates to Spectrum because I know Spectrum is complex when we put it in. MR. SYLVANOWICZ: Mm-hmm. MR. CHESNEY: Thank you. CHAIRMAN LEWIS: Well, I was trying to see if we could roll it into -- if we made a motion to vote on this, but we may just need to keep that separate. MR. SYLVANOWICZ: Right, I don't have any of the

solid numbers yet since this was all kind of happening this

|    | Page 38  |     | Page 40   |
|----|--|-----|---|
| 1  | week or last.  | 1   | CHAIRMAN LEWIS: No, we're have going to if this   |
| 2  | CHAIRMAN LEWIS: Okay. All right.                             | 2   | goes through, we'll get a price David is just   |
| 3  | Do we have a motion to approve?                              | 3   | MS. PASAWICZ: Okay. Just making sure that we  |
| 4  | MR. CHESNEY: Just to make sure I understand, so              | 4   | understand.   |
| 5  |  | 5   |   |
| 6  | are we I mean, the the BCI stuff is four times the           | 6   | CHAIRMAN LEWIS: Yeah, we'll get that probably   |
|    | cost than Federated. Is that right? Okay. I just             |     | if you can't get anything, I think we're scheduled to have a<br>workshop in a couple of weeks if and we can't take action |
| 7  | wanted to make sure I'm understanding.                       | 7   |   |
| 8  | MR. SYLVANOWICZ: It's probably                               | 8   | there, but we could at least possibly review something and  |
| 9  | MR. CHESNEY: For the record, I thought it was a              | 9   | make a take action on it next month.  |
| 10 | mistake we went with BCI in the first place back in whatever | 10  | Ms. Wilcox?   |
| 11 | year it was, but yeah.                                       | 11  | MS. WILCOX: Pam Wilcox. So I'm just confused,   |
| 12 | MR. SYLVANOWICZ: It's more than what we need, what           | 12  | you're going with the quote from Federated?   |
| 13 | BCI is proposing.  | 13  | CHAIRMAN LEWIS: Mm-hmm.   |
| 14 | MR. CHESNEY: I yeah.   | 14  | MS. WILCOX: Yes?  |
| 15 | CHAIRMAN LEWIS: So that was a motion?                        | 15  | CHAIRMAN LEWIS: Yes.  |
| 16 | MR. CHESNEY: Sure, I'll make a motion that we                | 16  | MS. WILCOX: Okay. I just  |
| 17 | we have Federated fix our cameras.                           | 17  | CHAIRMAN LEWIS: Not yet, officially, but  |
| 18 | CHAIRMAN LEWIS: Okay. For how many not to                    | 18  | MS. WILCOX: Okay. But that was the okay.  |
| 19 | exceed \$33,000? I don't want to put words in                | 19  | CHAIRMAN LEWIS: That was the motion.  |
| 20 | MR. CHESNEY: Well, I have multiple invoices here,            | 20  | MS. WILCOX: Okay. I got lost somewhere along the  |
| 21 | so I   | 21  | line. Thank you.  |
| 22 | MR. SYLVANOWICZ: Yeah, you know what, I                      | 22  | CHAIRMAN LEWIS: Welcome.  |
| 23 | MR. CHESNEY: haven't added them up like you                  | 23  | All right. Any other comments, questions?   |
| 24 | have.  | 24  | (No response.)  |
| 25 | MR. SYLVANOWICZ: I apologize, usually I have them            | 25  | CHAIRMAN LEWIS: All right. All in favor?  |
|    | Page 39  |     | Page 41   |
| 1  | all added up, but I don't.                                   | 1   | (All board members signify in the affirmative.)   |
| 2  | MR. WIMSATT: I think it was like 32. Right?                  | 2   | CHAIRMAN LEWIS: All right. Motion carries four to   |
| 3  | MR. CHESNEY: I mean, I can we just accept the                | 3   | zero.   |
| 4  | invoices that are here? It's                                 | 4   | (Motion passes.)  |
| 5  | MR. SYLVANOWICZ: I have 10,550, I have 8,800 for             | 5   | CHAIRMAN LEWIS: All right.  |
| 6  | West Park Village, I have 12,550 for Glencliff.              | 6   | MR. SYLVANOWICZ: All right. So I have some  |
| 7  | MR. CHESNEY: Glencliff? Yeah, Glencliff, I'm                 | 7   | pictures to show you. This is in an alley behind Belgrave.  |
| 8  | sorry.   | 8   | Let me make it bigger so everyone can see. It was brought   |
| 9  | MR. SYLVANOWICZ: That's going to give us a camera            | 9   | to my attention by a few residents that use this alleyway,  |
| 10 | that is controllable since we have such a large range, you   | 10  | they live on Belgrave. So this is the corner that turns   |
| 11 | know, the field, the basketball courts and then the parking  | 11  | back to Belgrave from the alley from the shops from behind  |
| 12 | lot associated with it. We have had incidents in the past    | 12  | West Park Village. That those are large potholes. This  |
| 13 | where the police was looking for footage and it's just too   | 13  | is the concrete that, from talking to my guys in the past,  |
| 14 | far away or whatnot. So                                      | 14  | they have repaired. Repaired concrete doesn't hold up to  |
| 15 | MR. VEGA: So it's a pan tilt zoom?                           | 15  | trash trucks and other people driving. It's it's one of   |
| 16 | MR. SYLVANOWICZ: Correct.                                    | 16  | the alleys that gets used as a cut through. It does show  |
| 17 | CHAIRMAN LEWIS: Okay. Do we have a second?                   | 17  | some wear and tear.   |
| 18 | MR. GILLIS: I'll second.                                     | 18  | I had Jason Azzarelli from Azzarelli Paving out   |
| 19 | CHAIRMAN LEWIS: All right. Any other comments,               | 19  | there. They gave me a proposal, so that's showing   |
| 20 | questions?   | 20  | basically, it's showing more than what my staff can do with   |
| 21 | MS. WILCOX: I'm just confused                                | 21  | some coal pack and just tamping it in and which we've   |
| 22 | CHAIRMAN LEWIS: Hold on, Miss, hold on.                      | 22  | done in the past, so that's a larger area and for another   |
| 23 | MS. PASAWICZ: Karen Pasawicz, 10559 Greensprings             | 23  | example let me see what I have here nope, wrong one.  |
| 24 | and with the motion you just made, are you also including    | 24  | This is another section that holds water. It's getting  |
|    | Jou made, and jou also including                             | - ' | Getting   |
| 25 | the bridge cameras?  | 25  | larger and that roadway is coming directly from behind West   |

11 (Pages 38 - 41)

|    | Page 42  |    | Page 44  |
|----|--|----|--|
| 1  | Park Village, behind the Irish bar and whatnot, that parking | 1  | MR. VEGA: Oh, no, I was just asking on the curb,             |
| 2  | lot.   | 2  | is this how they're going to be putting rebar in the curb?   |
| 3  | CHAIRMAN LEWIS: And just for clarification, even             | 3  | MR. SYLVANOWICZ: Yes, he would try to reenforce it           |
| 4  | though this isn't behind the gate, it's under the CDD        | 4  | so that it would take the weight of the heavy vehicle. Yep.  |
| 5  | control to maintain those alleyways?                         | 5  | CHAIRMAN LEWIS: Robert, have you been have you               |
| 6  | MR. SYLVANOWICZ: Yeah, so the road is not, but the           | 6  | guys talked about this at all or                             |
| 7  | alleys behind the houses are all CDD property.               | 7  | MR. SYLVANOWICZ: I haven't talked to him about               |
| 8  | CHAIRMAN LEWIS: Okay.  | 8  | this, no.  |
| 9  | MR. CHESNEY: Why weren't we able to get rid of               | 9  | MR. DVORAK: I mean, one of the things it looks               |
| 10 | these? Erin, how come we weren't able to get rid of these    | 10 | like on some of this it might have some base damage, too,    |
| 11 | alleyways?   | 11 | like   |
| 12 | MS. McCORMICK: Get rid of them completely?                   | 12 | MR. SYLVANOWICZ: Right.                                      |
| 13 | MR. CHESNEY: Well, to the county. How come we                | 13 | MR. DVORAK: So I mean, that's not cheap.                     |
| 14 | weren't able to.   | 14 | MR. SYLVANOWICZ: Well, the the other way I                   |
| 15 | MS. McCORMICK: Oh, because they don't meet                   | 15 | just in discussion for you guys is I looked at that whole    |
| 16 | probably, I I don't recall, but probably because they        | 16 | section and then that takes care of it all. 35 that's        |
| 17 | don't meet the standards for, you know, what the county      | 17 | not the curb, that's just the paving. So that's where they   |
| 18 | would have accepted.   | 18 | would bridge it down, redo the base, come up an inch and a   |
| 19 | CHAIRMAN LEWIS: So in that can you go back to                | 19 | half of pavement on 12,852 square feet.                      |
| 20 | that last picture you showed?                                | 20 | MR. VEGA: So that's all the alleys?                          |
| 21 | MR. SYLVANOWICZ: Mm-hmm.                                     | 21 | MR. SYLVANOWICZ: That no, no, that's that                    |
| 22 | CHAIRMAN LEWIS: The yeah, 5266. So does that                 | 22 | alley.   |
| 23 | match up that entire length all the way to the top of the    | 23 | MR. VEGA: That one alley?                                    |
| 24 | picture, like what you were just showing on the screen?      | 24 | MR. SYLVANOWICZ: Yes, and if you want so that                |
| 25 | MR. SYLVANOWICZ: Yeah, let me see if I can get               | 25 | would be here. So that's the red.                            |
|    | Page 43  |    | Page 45  |
| 1  | that other picture up there.                                 | 1  | MR. WIMSATT: But we'd still have to add the cost             |
| 2  | This one?  | 2  | of the curb on to that.                                      |
| 3  | CHAIRMAN LEWIS: Yeah, so                                     | 3  | MR. SYLVANOWICZ: And then we'd right, so look                |
| 4  | MR. SYLVANOWICZ: So that is the one that well,               | 4  | at the curb as like an al la carte.                          |
| 5  | the it's the first one on the left. That's what that         | 5  | MR. WIMSATT: So that's still an additional 4,870             |
| 6  | section is and then the smaller section correspond with      | 6  | for the curb.  |
| 7  | where people pull out and turn and and take out the          | 7  | MR. SYLVANOWICZ: Correct. So in looking at this              |
| 8  | pavement and then the corner is on the far right of the      | 8  | and like thinking about it, I could also go back to him      |
| 9  | east.  | 9  | obviously, I can get other proposals, but maybe the well,    |
| 10 | CHAIRMAN LEWIS: Yeah.  | 10 | this is on its side, so maybe the the north section where    |
| 11 | MR. SYLVANOWICZ: So I mean, with that being said             | 11 | the curb is, maybe that's something that we can look at as a |
| 12 | and, you know, I can always go back. So in talking with      | 12 | full pave and then you have the section that's on the other  |
| 13 | him, because of the traffic, because of the type of traffic, | 13 | side, you know, you can just do that patch there and I can   |
| 14 | just doing simple patches like three by fives, four by       | 14 | certainly work work to see which direction I'm not           |
| 15 | sixes, it's not going to last us long. It's going to cost    | 15 | looking for you guys to approve it or I'm looking for you to |
| 16 | thousand of dollars and then and then it's going to need     | 16 | approve it and point me in the direction that you guys would |
| 17 | to be patched up again or it's going to just tear way.       | 17 | like me to explore.  |
| 18 | So we were looking at patches that went from curb            | 18 | CHAIRMAN LEWIS: I'm not a huge fan of the patching           |
| 19 | to curb. So I don't have a price for simple small patches,   | 19 | just because it allows water to get in over time and I mean, |
| 20 | but the general area for those three sections or four        | 20 | to me, if I don't know this thing may not have been          |
| 21 | sections mapped out, the 1,600 square foot, is 7,890. The    | 21 | repaired in the last 30 years, who knows.                    |
| 22 | curb that we saw the first picture of that considering       | 22 | MR. CHESNEY: I don't think it's ever been                    |
| 23 | that's 30 linear feet, that's about \$4,800. That is keeping | 23 | repaired, which is what I was wondering like I we don't      |
| 24 | in turn with other repairs we've done with different vendors | 24 | have a road reserve in this month's packet? Like to me,      |
| 25 | in whether it be on Gretna Green at the what's that?         | 25 | this seems like something we should incorporate when we do   |
| 23 | m whether it be on Greuna Green at the what's that?          | 23 | ans seems tike something we should incorporate when we do    |

12 (Pages 42 - 45)

Page 46 Page 48 1 other paving. I mean, it has got a big hole in the middle 1 that one. 2 2 of it, though, but, you know, if you're not driving in the MR. SYLVANOWICZ: Okay. Moving on, I have -- we 3 3 middle, you should be fine. all know Reid from A & B and you're looking at the picture 4 4 MR. SYLVANOWICZ: Yeah, if you drive the southern of a much talked about canal that the county cleaned out for 5 part of it, which is on the left, then you have a little bit 5 us that went from Countryway Boulevard heading east. I can 6 6 of a dip in, like where it's just worn away -put up another picture. It doesn't really portray it well. 7 CHAIRMAN LEWIS: Yeah. Those are basically weeds that we've already -- Reid has 8 MR. SYLVANOWICZ: -- and it's mainly from the water 8 already had treated, but we want to get this on a no-grow 9 9 zone because this is 100 percent CDD property and this was a running and --10 10 MR. CHESNEY: I don't know when the next, you know, -- well overgrown with Brazilian pepper and weeds and all of 11 11 road paving is scheduled, but -that and I really would like to keep it that way. I have 12 CHAIRMAN LEWIS: Okay. Any interest in -- to push 12 pictures of -- unfortunately, I don't have it here, but I 13 this? Do we want to get another price for what David just 13 have pictures of other areas that were very, very overgrown 14 14 talked about or -where the water exited the Greens and it wasn't -- it wasn't 15 MR. CHESNEY: I say at least hold it until we look 15 roots. It was just plant material and whatnot and can trap 16 any storm debris that comes through and cause issues. 16 at the road reserves. 17 17 CHAIRMAN LEWIS: Yeah, let's -- let's do that. You Brought it to A & B and Reid's attention and Mark 18 good with that? 18 sprayed it down and has stayed on it and now, it is wide 19 MR. WIMSATT: Sure, sounds good. 19 open. It's on a no-grow zone -- it's a no-grow zone now. 20 20 CHAIRMAN LEWIS: Okay. The water has no problems getting out. 21 David, is that good? 21 So just so everybody knows, any of the water that 22 MR. SYLVANOWICZ: Sure. 22 comes to the Greens comes from -- even Countryway Boulevard, 23 23 MR. DVORAK: We did a road reserve on the --it has to kind of come through the wetlands in or associated 24 24 CHAIRMAN LEWIS: Two years ago. around Glencliff and they eventually have to either cross 25 MR. DVORAK: -- the roads that the CDD is 25 the tracks or go down this way on this side of the tracks, Page 47 Page 49 responsible for and laid out like everything in -go under Countryway Boulevard and keep going out of the 1 2 2 MR. CHESNEY: All I'm saying is it's just not in community and continuing. 3 3 month's packet --So what Reid has offered is just basically to his 4 4 MR. DVORAK: Right. monthly contract, a hundred dollar add to this section. It goes for hundreds of feet all along pond one and if you --5 MR. CHESNEY: -- and I don't want to search through 5 6 it. 6 bear with me, I'm trying to see -- just my simple math. So 7 7 MR. DVORAK: No, I get it, but I'm just saying, if this is -- this is the train tracks. This right here is the you guys are going to own these perpetually, we could do the 8 8 crossing that's now very much wide open, a no-grow zone. 9 same kind of thing, you know, do an assessment and look at This is another area where the canal from the Greens exits 10 what it would take going forward and how far out. Like some 10 out. This is another one and those are all no-grow zones, 11 alleys might be in way better condition than other alleys 11 so this area that runs along pond one to the outskirts of 12 12 kind of thing. where Westchase ends is that -- I would like to have on one 13 CHAIRMAN LEWIS: You don't remember if they were 13 of our monthly just treatments. 14 CHAIRMAN LEWIS: Oh, so it's just the -- it's along 14 included or not in that amount? 15 MR. DVORAK: I don't think they were, I'd have to 15 that --16 MR. SYLVANOWICZ: It's along that and to the end --16 look. 17 17 CHAIRMAN LEWIS: Okay. Not just right there at CHAIRMAN LEWIS: Could you maybe pull that up or I 18 don't know if David or Sherida have that and we could --18 19 19 MR. DVORAK: Let me look for that. MR. SYLVANOWICZ: It's -- it's -- yeah, it's 20 MR. SYLVANOWICZ: What's that, the --20 basically -- and it's not even in the canal, it's along the 21 CHAIRMAN LEWIS: The analysis that he did on the 21 train tracks, but you can see what's going to happen is that 22 22 the -- we get weeds there, then we're going to get Brazilian paving. I feel like it's been the last two weeks --23 23 MS. McCORMICK: I thought that the alleys weren't pepper, then we're going to get -- in a few years, we're 24 CDD, but I might be wrong. 24 going to be hacking it back and having to deal with it 25

13 (Pages 46 - 49)

again. If we could just keep it wide open and, you know,

CHAIRMAN LEWIS: All right. So we'll just table

Page 50 Page 52 1 the train tracks to the other end of the canal, that will 1 MR. SYLVANOWICZ: Yeah, I think we've made some 2 2 make me personally feel better for the community getting the improvements. Understand that when they do repairs, they 3 water out of it. 3 don't -- especially like that type of repair, they --4 4 CHAIRMAN LEWIS: Okay. basically, what happens is that the pipe comes up from the 5 MR. SYLVANOWICZ: So it's just basically -- I know 5 under the street, goes up, goes this way and then when a car 6 6 Mark has told me that we just need a motion from you guys to comes on it, it just stuffs it all down and it breaks the 7 make addendum to the A & B contract. elbow that's like five and a half feet down and it's a very 8 MR. CHESNEY: So moved. 8 wet section, it's a low section, so we're always battling 9 CHAIRMAN LEWIS: So moved, all right. 9 the water. Everything has now been reenforced with metal, 10 MR. CHESNEY: You said the estimate was 100? 10 so it's not the repair that was done by a previous vendor, 11 MR. SYLVANOWICZ: \$100. Yep. 11 it is a more robust repair. 12 CHAIRMAN LEWIS: I'll second. 12 CHAIRMAN LEWIS: Okay. Thank you. 13 Any questions, comments? 13 MR. SYLVANOWICZ: Mm-hmm. Clock 11, which is in 14 14 (No response.) that same vicinity, it's on the other side of train tracks. 15 CHAIRMAN LEWIS: All right. All in favor? 15 There is irrigation and it is controlled by a well pump that 16 (All board members signify in the affirmative.) 16 was installed there some ten years ago or so. The pump, due 17 17 CHAIRMAN LEWIS: Carries four to zero. to age and whatnot, had burnt out. Not wanting to get too 18 18 much sod damage, I got two proposals. They were right on (Motion passes.) 19 CHAIRMAN LEWIS: Thank you, Reid. 19 track with each other at about \$6,500. Mark suggested the 20 20 MR. SYLVANOWICZ: Lastly -- well, unfortunately, if vendor we used -- he's used it at other CDDs and they were 21 you've been driving around, you saw us in what -- what I 21 responsive. It's already been done, I just need a -- a 22 would call many things, but the hole in Gretna Green and 22 blessing from you guys that we already did that repair for 23 23 Linebaugh. Unfortunately, we had another irrigation break, the \$6,500. 24 24 we have another no parking sign, but unfortunately, whether CHAIRMAN LEWIS: Okay. I'll move to approve for 25 it be Spectrum, TECO, whatnot, pulled up on the curb, broke 25 6,500 is the amount? Page 53 Page 51 1 it, so we were in it for days and days, spending a lot of MR. SYLVANOWICZ: Yeah, it was 65 and change. 2 2 money to do yet another irrigation repair and that's -- just CHAIRMAN LEWIS: Do we have a second? 3 wanted to bring it to your attention. That was the only way MR. WIMSATT: Second. 4 I could manage it. I got a verbal estimate from them to 4 CHAIRMAN LEWIS: Seconded by Jim. 5 move all the boxes to a separate location like in -- and 5 MR. SYLVANOWICZ: And I definitely consulted with 6 bore underneath, but it was like rough estimates of 40 grand 6 Mark about this because I was concerned about --7 and I said, "Nope, just get in there and fix it." 7 MR. VEGA: Yeah, he was worried by losing a lot of 8 It was all hands on deck for a couple of days, but 8 landscaping, losing more landscaping than the well would 9 it's fixed. We got it under the sidewalk, so now some of 9 10 the stuff is away because it seems like everyone needs to 10 CHAIRMAN LEWIS: Okay. All right. 11 pull up on that section. Yeah, it just was yet another 11 All in favor? 12 repair where we've already repaired. That's where the 12 (All board members signify in the affirmative.) 13 curbing was repaired, that where the paving was repaired, 13 CHAIRMAN LEWIS: Four to zero. 14 that's where we still have to -- I brought it to his 14 (Motion passes.) 15 attention, the paver, Jason, that we're still in between. 15 MR. SYLVANOWICZ: My last line item is just staff 16 They like to see it settled and the more time it settles, 16 annual pay raises and bonuses. I know we've discussed it 17 they have to come back and still do the cutaway and regrade 17 and I know you're going to want to do it at the workshop. 18 and put on a top coat, if I'm not mistaken. So we're still CHAIRMAN LEWIS: Yeah, I put in -- and I saw this 19 in between those, so I -- I believe we're going to be okay. 19 late last night. If you guys could just get us the -- what 20 I hope we're going to be okay, but --20 last year's was. 21 CHAIRMAN LEWIS: Well, I think this comes with 21 MR. SYLVANOWICZ: I did. 22 discussion at our workshop about-- and I know we've had it 22 CHAIRMAN LEWIS: You already e-mailed it? Okay, 23 23 before and I think Red Tree has come in and -- with sorry. 24 proposals about how do we need to move forward with this 24 MR. VEGA: No, I just got it and I e-mailed it to 25 issue because it is aging for sure. 25 you.

|  | Dec. 54   |  | P 56   |
|--|---|--|--|
| ,                                      | Page 54   | ,                                      | Page 56  |
| $\begin{vmatrix} 1 \\ 2 \end{vmatrix}$ | MR. CHESNEY: Okay, because I didn't see it.  MS. McCORMICK: So you're going to discuss it and | $\begin{vmatrix} 1 \\ 2 \end{vmatrix}$ | three inlets and that would connect all the way to<br>between the two homes where the inlet was located. So that |
| 3                                      | then approve it next month. Is that plan?   | 3                                      | was the original plan and it just didn't sit right with the  |
|  | •   | 4                                      |  |
| 4                                      | CHAIRMAN LEWIS: Yeah.   |  | two people that were where the pipe went.  |
| 5                                      | MR. CHESNEY: I think he put it in the consent   | 5                                      | So we changed that, took the pipe system out and   |
| 6                                      | agenda. I think that's what   | 6                                      | then basically, this is the plan from which the contractor   |
| 7                                      | CHAIRMAN LEWIS: Is that all you got, David?   | 7                                      | used to to build the berm. So what I've been doing   |
| 8                                      | MR. SYLVANOWICZ: I think that's all I got.  | 8                                      | and there was an engineer at the last meeting. I was   |
| 9                                      | CHAIRMAN LEWIS: All right. Great job, thank you.  | 9                                      | looking for another place to outfall this system if we   |
| 10                                     | MR. SYLVANOWICZ: Reid's going to stick around   | 10                                     | wanted to build that drainage system and he was saying,  |
| 11                                     | because he is going to tie into pond 120 with Robert.   | 11                                     | "Well, why don't you take it up here to the north and dump   |
| 12                                     | CHAIRMAN LEWIS: Okay. Well, moving on to I  | 12                                     | that drainage system into this pond," and which is not a   |
| 13                                     | guess it's Robert next.   | 13                                     | bad idea actually because it's it's not that far away,   |
| 14                                     | MR. DVORAK: Oh, do could I have that  | 14                                     | but it's a Hillsborough County school pond. It's not a CDD   |
| 15                                     | MR. SYLVANOWICZ: Yeah, give us a minute so we can   | 15                                     | owned pond. It belongs to Davidson.  |
| 16                                     | switch over.  | 16                                     | MR. CHESNEY: That's really?  |
| 17                                     | MR. GILLIS: David, one question. What happened  | 17                                     | MR. DVORAK: Yeah, yeah.  |
| 18                                     | is there somewhere else we're doing any resident's requests,                                  | 18                                     | MR. CHESNEY: Okay. Didn't realize that.  |
| 19                                     | like the one for the driveways?   | 19                                     | MR. DVORAK: And so it's very unlikely.   |
| 20                                     | MR. SYLVANOWICZ: Oh, does that I don't have   | 20                                     | MR. CHESNEY: We've been maintaining that pond for  |
| 21                                     | that. Is that with you?   | 21                                     | decades.   |
| 22                                     | MS. McCORMICK: That's under my report.  | 22                                     | MR. DVORAK: Yeah, no, that's part of their master  |
| 23                                     | MR. SYLVANOWICZ: Okay. So and I can always  | 23                                     | drainage system for the school. It's permitted with the  |
| 24                                     | take this back from Robert.   | 24                                     | school. You know what, let me check and see if there's an  |
| 25                                     | MS. McCORMICK: Do you want me to talk about that  | 25                                     | easement on it and the only reason I say that, it is part of   |
|  | Page 55   |  | Page 57  |
| 1                                      | now while we're waiting?  | 1                                      | the Davidson Middle School permit. That's not to say that  |
| 2                                      | MR. GILLIS: If you want to.   | 2                                      | the CDD may have built it as a master planned pond and there   |
| 3                                      | MS. McCORMICK: There was a little bit of an issue,  | 3                                      | may be some easement if I look at the plat that would  |
| 4                                      | it's a little bit different.  | 4                                      | indicate that the CDD has an easement for maintenance and  |
| 5                                      | CHAIRMAN LEWIS: We'll we'll stick with Robert   | 5                                      | that may be the case and if that's the case, that's a viable   |
| 6                                      | for now, Erin.  | 6                                      | option.  |
| 7                                      | All right. Sorry about that. We're still trying   | 7                                      | But the other one I wanted to point out to   |
| 8                                      | to figure out technology.   | 8                                      | everybody was that down here, right in between this these  |
| 9                                      | MR. DVORAK: I got it.   | 9                                      | two little subareas is a ten foot CDD easement that I was  |
| 10                                     | CHAIRMAN LEWIS: All right. We're going to get   | 10                                     | searching, groping for some other option here and came   |
| 11                                     | back to the meeting, sorry. I had to step out for just a                                      | 11                                     | across that when I was reviewing the plats and so there's an   |
| 12                                     | second.   | 12                                     | actual you know, there's a route that you could come down  |
| 13                                     | Robert, go ahead.   | 13                                     | the pond to the south and go through an easement that's  |
| 14                                     | MR. DVORAK: I guess we'll start with the 125 and  | 14                                     | already in the name of the CDD and connect into the drainage   |
| 15                                     | for the benefit of the lady that was asking about the   | 15                                     | system and Montague.   |
| 16                                     | drainage, I'll kind of go backwards just a little bit for a                                   | 16                                     | And so what I've done is I've looked at the old  |
| 17                                     | few minutes, but the area that we're going where the  | 17                                     | construction plans and it looks like physically, the   |
| 18                                     | homes were that got inundated during Milton are right along                                   | 18                                     | connection can be made. There's a there would be enough  |
| 19                                     | in here. There's like four or five of them.   | 19                                     | slope on a pipe to get there. It wouldn't optimum, but the   |
| 20                                     | MS. WILCOX: Six.  | 20                                     |  |
|  |   |  | what we've learned in like looking at our old plans out  |
| 21                                     | MR. DVORAK: Six of them, okay. And so we when   | 21                                     | here, if they are not as builts, that we I've ordered  |
| 22                                     | we talked about this berm project as being a short term                                       | 22                                     | survey for that area and the inlet that it would connect to  |
| 23                                     | solution, this is the first plan that we did and like Matt                                    | 23                                     | just to make sure that that's you know, that that is what  |
| 24                                     | said, you know, we've got the berm out here along the edge                                    | 24                                     | we think it is and it's at the elevation that we think it  |
| 25                                     | of the bank and then behind the berm, we have one, two,                                       | 25                                     | is. So as soon as I get that survey back, I'll be able to  |

15 (Pages 54 - 57)

Page 58 Page 60 confirm whether or not that's a viable -- just from a 1 1 as to the modeling, how this modeling was done for the 2 physical standpoint, if it's a viable connection. 2 grade, the volume of the water and flow and I've heard 3 MR. CHESNEY: Yeah, the only thing about doing 3 comments on and off since all of this started with the pipe 4 that, Robert, is that from there, it drains this way versus that some of the people would not allow or did not want. 5 that way and this way, we already have trouble on Montague 5 What would be preventing it from being placed between two 6 when water --6 other homes in that area? I'm -- I'm still having an issue 7 MR. DVORAK: Exactly, and that would be one of with understanding the water that comes in or that's sitting 8 things -- that's a really good point because it -- it may after the berm and coming into people's backyard. How is 9 change like maybe the way we approach this because if you 9 that actually going to be drained? Are there going to be 10 wanted everything to run into the inlet and run down the underground pipes that --11 pipe and disappear in realtime as opposed to maybe bleeding 11 MR. DVORAK: Yes. 12 down over a longer period of time, it might be very -- given 12 MR. SMITH: -- drains -- okay. I wasn't sure. 13 that, it might be very difficult to prove that we're not MR. DVORAK: Yes, yes, it would be like inlets, 20 14 creating or exacerbating an existing problem and we don't 14 by 24, go underground and the pipe would run underground and 15 want to do that and the county is not going to give us a 15 16 permit to do that. So that is a concern and it just may 16 MR. SMITH: Would it be like a four-inch pipe or 17 have to change the way we think about what type of project 17 something? 18 this is. As opposed to sizing a storm sewer system that 18 MR. DVORAK: No, we have a 12-inch pipe. 19 takes the water and gets rid of it immediately, it might be 19 MR. SMITH: 12 inch, all right. 20 there there's ponding there for several hours or half a day, 20 CHAIRMAN LEWIS: And the other answer to your 21 but then it bleeds away and disappears. You know, you're 21 question on why those two houses is because there was an 22 using a --22 inlet at the street at Bayboro. 23 23 MR. CHESNEY: But I know on the other side, it MR. DVORAK: Right. 24 24 would drain the other way because that -- the way it was MS. WILCOX: Yeah, we're right across the street. 25 built, if you go up, it was built this and then that, so --25 MR. SMITH: (Indiscernible.) Yeah, it's right when Page 59 Page 61 and that way -you cross the street --2 CHAIRMAN LEWIS: One at a time, Pam. 3 MR. SMITH: -- from me and I have one outside my 4 house and on the other side, there's a -- there's a utility box. I've heard people say, "Oh, it's owned by TECO." I 5 don't know, you know, I've been had here since '97 when that

| 1  | and that way   |
|----|--|
| 2  | MR. DVORAK: Yeah, two separate                               |
| 3  | MR. CHESNEY: Right, and that way, it would drain             |
| 4  | the other way. I mean, that pond would actually be better.   |
| 5  | I didn't realize we didn't own it.                           |
| 6  | MR. DVORAK: Well, I'm going to find out. I'm glad            |
| 7  | you said something because I can research that.              |
| 8  | CHAIRMAN LEWIS: So I may be able to I know it's              |
| 9  | the school barred, but I guess depending on what you find, I |
| 10 | can talk to Kim Beyer who is the assistant county            |
| 11 | administer.  |
| 12 | MR. DVORAK: Yeah.  |
| 13 | CHAIRMAN LEWIS: I know more name's come up before            |
| 14 | and she's offered to help with with this topic with your     |
| 15 | longer term solution.  |
| 16 | MR. DVORAK: Yep.   |
| 17 | CHAIRMAN LEWIS: I mean, maybe I know the school              |
| 18 | board and the county kind of work independently sometimes,   |
| 19 | but maybe we can get her to help us if if you find that      |
| 20 | that's a feasible option.                                    |
| 21 | Is it Mr. Smith?   |
| 22 | MR. SMITH: Yes.  |
| 23 | CHAIRMAN LEWIS: Did you have a question or                   |
| 24 | MR. SMITH: Question, couple comments. It's Graham            |
| 25 | Smith, 9823 Bayboro Bridge. First of all, I got a question   |
|    |  |

7 street was built. That box has been there. I've never seen TECO at that box. That may be an old AT&T or Verizon utility box. I don't know. I don't see any markings on it 10 that say TECO. CHAIRMAN LEWIS: Yeah, I've got one outside my house, too. MR. SMITH: Yeah, why couldn't the pipe be put between other homes? CHAIRMAN LEWIS: Only because -- and I don't want to speak for Robert, but the intent was because it went -is a direct line from -- from that area to that inlet that's in front of that box that you're talking about. MR. SMITH: But there are new owners in those homes now, too, since all of this started. MR. WIMSATT: Only in one of them. MR. SMITH: Only in one of them, yeah, right. CHAIRMAN LEWIS: Yeah, unfortunately, we probably would need both if we chose to do that. I think -- I think the other ideas that Robert had, I think it's something that

16 (Pages 58 - 61)

we're going to -- excuse me -- we're going to abandon that plan and look at these other solutions that we had because this other one was intriguing, going down to the southwest corner that somebody brought up or you brought up at the last meeting. So -
MR. DVORAK: And then the next thing I wanted to

1

2

3

4

25

5 6 MR. DVORAK: And then the next thing I wanted to 7 talk about is I was working on -- you remember I was talking 8 about a longer term -- you know, doing something regionally 9 that's on CDD property that would, you know, provide some 10 benefit in terms of lowering, you know, these peek flood 11 stages in -- in 125. And so I used the county's watershed 12 model to look at some different alternatives and just as a 13 -- as sort of -- this is something the board's seen before, 14 but just for a -- for everyone's sort of knowledge, this box 15 basically more or less represents the drainage that ends up 16 coming down and into -- a portion of it into our lake 125. 17 Everything from Sheldon, this community, all these ponds 18 that were built in concurrence with that development 19 discharges to the road side ditches and everything heads to 20 the -- to the west, down to the TECO easement. This is the 21 TECO easement. This community has been in -- predates 22 almost everything in our area. It discharges into the TECO 23 easement. This community of townhomes is relatively new and 24 it --

MR. CHESNEY: That's who we took pond 125 from

the south side of this lake, there's a control structure and it's -- I mean, a box, a concrete box and it's got slots to let the water flow out. So all this drainage from all this

4 area comes down, down to this point and goes through this

one box and then it comes over from there down into this
 sump in this corner and Westchase owns this wetland area as

well. But it discharges from there into this wetland andthen a portion of it goes to the east -- or to the west this

9 way and a portion of it goes to the east over here into the 10 creek and that's basically where it leaves our property.

So if you think about like what Westchase CDD could do, it's limited to the property. We can't go downstream a quarter of a mile and make improvements to, you know, the pipe under Sheldon. We don't own it, we don't control it, but the county can and so what I did when I did this analysis was sort of get us something that we can look at and do on our property, but also maybe hand it off to the county and have them look at it more holistically from the things that are -- you know, the drainage features that are outside of our property.

But anyway, I went ahead and wrote up the improvements that I identified and I -- I put them together in a report and I submitted that to SWFWMD when I scheduled the pre-application meeting that I had on the 18th, which was just this past 18th, after the last board meeting and I

Page 65

Page 64

1 2 MR. DVORAK: From. 3 MR. CHESNEY: -- we didn't think they had the 4 ability to manage it. 5 MR. DVORAK: Right, so -- and they charge into --6 into 125. There is nothing from Westchase that discharges 7 into 125, lake 125. All of our drainage system is separate 8 storm -- permitted storm water ponds. Lake 125 is not a 9 permitted storm-water pond, it's an old burrow pit and so 10 what's happened over the years is all these lakes -- and it 11 goes back originally to the farmer that owned the property, 12 but all these lakes from 125 down to this lake -- and I 13 forget the name of this lake -- but it's connected with a --14 a pipe system. There's like three or four pipes, three 15 pipes, that route the water from 125 into this lake and then 16 there's a connection to the ditch where all this drainage 17 comes down and even when you look at the county's model, 18 what happens is there's so much water coming down from this 19 direction, that when it gets to this point, which is sort of 20 the junction of all of this, a portion of it is back flowing 21 into lake 125, which is -- in addition to -- to going into 22 this lake. 23 So what I did was I looked at all the components

and then -- let's keep following it. There's a pipe under

-- under Linebaugh, goes into this lake system and then on

just got their meeting minutes back yesterday. So met on the 18th, got their meeting minutes back and -- and

3 basically, so what I wanted to do before I go through that

 $4\,$   $\,$  is take a look at the report. So what I did -- this is the

report that I submitted and it goes through everything that
 I -- I used the county's watershed model and I wrote it up

7 just as if we were doing a design project, figuring that we

8 could use it if we move forward with a project and also, it

would be something that we could hand off to the county and
 they'd be able to make heads or tails out of it; but it

11 verbally describes the project and then I have all the

modeling results with the stage data and then I have the survey that we picked up that are key -- this is the

survey that we picked up that are key -- this is the
 drainage system in the TECO right of way to show that we've,

you know, researched that and we understand what's going on
 there and then I attached part of their own watershed study
 as an exhibit.

But basically, the basic components of what we want to do is really pretty simple. The pipe system that interconnects lake 125 and the lake to the south and the east, which is both CDD lakes, are connected by -- like I said, there's a -- three sets of pipes, a -- there's an existing 24-inch pipe, there's a piece of CMP, Corrugated Metal Pipe and then there's a larger 42-inch reenforced concrete pipe, which has been installed more recently than

17 (Pages 62 - 65)

24

1 the other two. The other two have been in there probably --2 the CMP has been in there probably since the farmer owned 3 the property 30 years ago, but the -- the layout of these pipes is such that the inverts don't match up, the bottom of 5 the flowline of the pipes, so one of projects would be to 6 just replace the sections of pipe that we need to make 7 everything on the --- the same flowline. 8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

The other option or the other part of the project is to prevent this water from backing into lake 125, which would require a simple flap gate or backflow preventer device to keep the water from going back into 125 and then we would add a pipe to get the water -- move the water, you know, from this ditch because if it's not going into 125, it would be backing up on people upstream, so we would want to get this -- this water into the southeast lake quicker.

So all that is pretty much self contained, CDD has an easement over -- it's TECO property, but CDD has an easement over that and so that's -- that's a doable part of the project and then when you get to the lake that's on the south side of Linebaugh, my proposal included modifying this control structure, which I said is -- is a regular control structure box and modifying the weirs to lower the -- the starting elevation. In other words, lower the weir and what that does is that initially creates more storage in all of these interconnected lakes.

Page 67

Page 66

1 So if -- if you just can wrap your head around, you 2 know, 40 or 50 acres worth of lakes, but you are lowering 3 it, it -- it starts at a lower elevation, there's a ton of 4 extra storage in there and -- and so when you do that and 5 you -- I ran the model for the 100-year storm event and 6 that's something else I was going to talk about, but when 7 you run it for the 100-year storm event, the -- the 100-year 8 flood level in lake 125 is reduced by over four inches and I 9 know that sounds minor. It sounds like hardly anything, but 9 10 we're talking about a few houses, the six houses -- seven 11 houses -- that got flooded by literally a few tenths of a 12 foot and so for a relatively -- for something that we can 13 do, it could potentially have -- we're playing with minute 14 numbers here, but it could have a significant benefit, you 15 know, in these larger storm events and -- and during the 16 normal course, you know, of the regular rainy season, for 17 sure. 18 Like when you look at, there's a -- there's the --19 let's see --20 MR. CHESNEY: So what does it take to do that? 21 MR. DVORAK: Well, you have to do what I just did. 22. MR. CHESNEY: Yeah, I understand, but so what is -23 what does -- what's -- is this an us -- let's start with the

MR. DVORAK: Well, that's what I'm saying is that

1 we're at kind of a crossroads here. We could probably go to

2 the county with what I have and have them take a look at it

3 and then they can maybe take it further by looking outside

4 of our boundary. I didn't go in a -- you know, outside of

our property.

22

23

24

6 MR. CHESNEY: Yeah, but I remember when we -- we've 7 added pipe back there before, so I mean, that alone 8

shouldn't be a huge thing.

MR. DVORAK: No, it isn't.

MR. CHESNEY: Just a -- to do that. So --

MR. DVORAK: But the only reason this would need a SWFWMD approval is because that control structure, if you modify that -- it was permitted years ago, but if you modify it, they are going to require you to modify the permit. Otherwise, the things that I'm talking about are things that are on CDD property and wouldn't necessarily require modification, but --

MR. CHESNEY: Yeah.

CHAIRMAN LEWIS: So at the SWFWMD pre-app meeting last week -- and you said you just got their report. Right?

21 MR. DVORAK: I got their notes, yeah.

CHAIRMAN LEWIS: So was there any --

MR. DVORAK: The only feedback -- they did have some things that I jotted down. Environmentally, when you lower this water level, there's -- it's not much, so I don't

Page 69

Page 68

expect to get a lot of pushback from them on an

environmental standpoint, but there's also a waste of water

resource component to it because if you -- if you have a

4 water level that the -- it naturally cycles up and down and

5 that's where that weirs at and then you put it lower, then

6 theoretically, you're dewatering an area. If you get a --

7 if you can kind of imagine what -- what their interpretation

8 is, so I'm not sure what we would need to do to demonstrate

it. They didn't say that, you know, that was a deal

10 breaker. It happens in other projects, I know that for a

fact. It might be something that, you know, engineering

12 wise, you might have to demonstrate to them that it's not

13 going to affect any wells in the area or it's not going to

do any -- you know, any other environmental harm. You might

need an environmental scientist or something to help.

The other thing they said was is I ran this for just the 100-year storm event and they said you're going to end up having to do it -- at minimum, the 25 and then possibly the ten year so they see what happens during smaller storm events to make sure that we're not creating offsite, which is no big deal.

And then the last thing they said was that if -- if this became an actual submittal, that they would look at any type of historic present problems down the streams. They would follow the -- follow where this project discharges to

18 (Pages 66 - 69)

top -- is this an us or the county?

24

25

Page 70 Page 72 1 and if there are any known problem areas, they would impose MR. DVORAK: So what we had with all those 2 2 other -- other analyses on us. In other words, if they went consistent months of extra rainfall, like double the 3 3 and said, "Oh, gee, the crossing at Sheldon is bad," and rainfall and then Milton on top of that was the equivalent 4 4 this has a potential -- potentially has an impact to it, of a 500-year storm. I mean, that was the reality to that 5 they may ask us to run more battery of storms to prove that 5 situation. That was a very, very --6 6 we're not affecting it. MR. CHESNEY: So what -- what was the improvement 7 CHAIRMAN LEWIS: Which is why -- sorry to you think you can get by making these changes? What was the 8 interrupt, but this is why you thought get the county 8 improvement? 9 involved. 9 MR. DVORAK: Close to -- well, it was close to four 10 MR. DVORAK: Right, right. So -- I mean, at this 10 inches, a little over four inches. point, like -- and there's -- I actually -- this is -- the 11 MR. CHESNEY: It was significant. 11 12 report that I have is a draft report. I went ahead and the 12 MR. DVORAK: Yeah. 13 surveyor that we have, you know, that does our little 13 MR. CHESNEY: Well, that looks awesome. 14 14 individual project surveys, I had him survey those two MR. SMITH: To get this implemented, how long of a 15 15 control structures at the very south end so that I was 100 time are we --16 MR. CHESNEY: Hold on, I'm not done with my percent certain of what the elevations of everything were, 17 knowing that this -- this -- in the meeting -- was a 17 questions, please, sir. So because -- so -- because this 18 18 potential issue, I wanted to be absolutely certain that we has been a problem ever since it was developed and so the 19 had the right elevation in the model. The county is 19 prior engineer, prior to you, they -- they were the ones 20 20 probably right, but I went ahead and did a survey request that added some of the pipe and added some size to the pipe 21 and proposal for getting that data. 21 just because it wasn't connected and even down here, it 22 22 wasn't -- like a lot of this was built separately --But like -- but either way, I can finalize the 23 23 report that we already have and not spend any more time on MR. DVORAK: Yeah, it was. 24 24 it and leave it just the way it is and we can go engage, if MR. CHESNEY: -- and it wasn't connected, so -- but 25 you wanted to -- I can go with you and explain to them what 25 you're the first one that's actually made some suggestions Page 71 Page 73 I did. Any of their water resources people would be able to to improve the system. So yeah, I think that would be great 1 2 2 understand and follow what I did and just see if there's if you -- if you would be willing to go and check that out 3 something that they want to -- you know, maybe they want to and -- but I don't -- I guess my point is that I don't think 4 look at -- look at stuff that they own that -- that would be 4 a lot of these, from what you're describing, is going to be 5 further downstream. That could be even more of a positive 5 a significant expense regardless. 6 benefit. 6 MR. DVORAK: No, it's the -- the things that are 7 CHAIRMAN LEWIS: Okay. Yeah, I'd be willing to set 7 here are not --8 MR. CHESNEY: We just have to get approval, 8 that up, for sure. 9 MR. CHESNEY: Yeah, sounds like a good --9 permission. 10 10 MR. DVORAK: I mean, it might be a way to offload MR. DVORAK: Approval is the key and it -- it's 11 it and give --11 just time -- it's time and when you get into the permitting 12 12 MR. CHESNEY: Well, it seems way more effective process, like I said, they do the best they can giving you 13 than this little berm. I mean, the cost of the berm and 13 the guidance in the pre-application meeting, but when you 14 then --14 get into a review and they start going -- tearing through 15 MR. DVORAK: Well, that was the other thing that I everything, you can end up with a lot more stuff -- more 16 16 was going to point out -questions to answer and things like that. 17 17 MR. CHESNEY: (Indiscernible.) Would've agreed to I mean, this is not straightforward. I mean, this 18 the easement. is not the typical pre-app, you know, project that gets 19 19 brought to SWFWMD. This is -- this is -- normally, they are MR. DVORAK: -- I was going to point out was when 20 20 looking at subdivisions and commercial projects and things you -- in this KMZ file that the county puts out that has 21 their watershed models, the Z-100 is the 100-year flood 21 like that. 22 level in lake 125 and this is the 500-year level. Okay? If 22 MR. CHESNEY: And stuff that's new and --23 23 you look at -- look at that, 19.78, the finished floors of MR. DVORAK: Brand new, right, stuff that's brand 24 the homes that got inundated were like 19.5, 19.6, 19.7. 24 new. 25 MR. CHESNEY: Yeah. 25 CHAIRMAN LEWIS: And just so -- Mr. Smith, I know

19 (Pages 70 - 73)

|                      | Page 74   |                | Page 76  |
|----------------------|---|----------------|--|
| 1                    | you've got a question, but it sounds like if we can go to   | 1              | they created all of that. I don't know if that really is                           |
| 2                    | the county and get them to take a look at it and whether  | 2              | relevant, but you know, like from here, this is where I                            |
| 3                    | they feel like something needs to be done or not, that  | 3              | live and they they had a pipe going across the road. The                           |
| 4                    | take that back to SWFWMD and that would probably improve our  | 4              | road used to end right here and that's where all that got                          |
| 5                    | chances of getting them getting a permit modification   | 5              | drained into here when they built it.  |
| 6                    | from them.  | 6              | MR. DVORAK: Yep.   |
| 7                    | MR. DVORAK: Yeah, if you had the county engaged in  | 7              | CHAIRMAN LEWIS: So I hold on just a second, Mr.                                    |
| 8                    | this and onboard with it, for sure, that would be very  | 8              | Dale. So I guess I think I heard you say timeline when                             |
| 9                    | positive.   | 9              | you were going to ask a question a minute ago. So I so                             |
| 10                   | CHAIRMAN LEWIS: Is that all you   | 10             | I'm going to work with Robert to set up a meeting with the                         |
| 11                   | MR. CHESNEY: I'm good. Thank you.   | 11             | county administrator or assistant county administer to work                        |
| 12                   | CHAIRMAN LEWIS: Mr. Smith, did you want to  | 12             | on this longer term solution, as we've called it, but I'm                          |
| 13                   | MR. SMITH: I and I understand what he is  | 13             | also going to engage her to see if she could help us with                          |
| 14                   | talking about, I agree with it, 100 percent, but again,   | 14             | that smaller pond and and maybe having that as a solution                          |
| 15                   | coming back to the existing issue of water basically  | 15             | as well for that issue, for the stuff behind the berm.                             |
| 16                   | flooding the backyards of the property. By doing all of   | 16             | So I'm going to go to Mr. Dale first.  |
| 17                   | this, how is that going to prevent the water from   | 17             | MR. DALE: Brad Dale, 9818 Bayboro Bridge Drive.                                    |
| 18                   | infiltrating on the backyards?  | 18             | Can you zoom in all that sounds great, by the way, but                             |
| 19                   | MR. DVORAK: Well, that's two different things,  | 19             | can you zoom into like the pipe structure on the southeast?                        |
| 20                   | really.   | 20             | MR. DVORAK: What are you   |
| 21                   | CHAIRMAN LEWIS: Yeah, that's two different things   | 21             | MR. DALE: I don't know if I ever saw it before                                     |
| 22                   | and they are not connected.   | 22             | here.  |
| 23                   | MR. SMITH: So what's how what's being done  | 23             | MR. CHESNEY: You mean over here?   |
| 24                   | then, I guess, about the water in the backyards?  | 24             | MR. DALE: Like take take the water off and then                                    |
| 25                   | CHAIRMAN LEWIS: So what we talked about earlier,  | 25             | go back to   |
|                      | Page 75   |                | Page 77  |
| 1                    | Robert's going to look to see Robert, maybe if you can go   | 1              | MR. DVORAK: Oh.  |
| 2                    | back to zoom in on that so  | 2              | MR. DALE: where those three pipes are and it                                       |
| 3                    | MR. SMITH: Was that the small pond by the school?   | 3              | just kind of explained   |
| 4                    | CHAIRMAN LEWIS: Yes, sir, yes. So that one up   | 4              | MR. DVORAK: Yeah.  |
| 5                    | towards the track area for Davidson Middle School, we're  | 5              | MR. DALE: Can you zoom in any further? That's the                                  |
| 6                    | going to look and see if we can access that and flow into   | 6              | set up there, it just doesn't look   |
| 7                    | that.   | 7              | MR. DVORAK: Efficient.   |
| 8                    | MR. SMITH: Well, that I have a question on that   | 8              | MR. DALE: doesn't seem yeah.   |
| 9                    | then because that pond has been there since I moved on the  | 9              | MR. DVORAK: It's not.  |
| 10                   | street in '97. Who owned it then to give it to Davidson   | 10             | MR. DALE: Did that set up, I guess, cause a  |
| 11                   | Middle School because the school was not built at the time?   | 11             | bottleneck at 125 because or did it just not move fast                             |
| 12                   | MR. DVORAK: That's what I am going to research.   | 12             | enough? Like what happened there, I guess, in your opinion                         |
| 13                   | CHAIRMAN LEWIS: Well, that's what we don't know   | 13             | when the storm hit?  |
| 14                   | if that's a school board pond or if it's something that   | 14             | MR. DVORAK: Yeah, well, first of all, this storm                                   |
| 15                   | MR. DVORAK: It may have been the way this was   | 15             | was so big that when this filled up, all of this was                               |
| 16                   | developed, they always know this was going to be a school   | 16             | inundated. It didn't matter what pipes it didn't matter                            |
| 17                   | and they built that pond and designed it to for future  | 17             | what pipes were doing. This whole area and this entire                             |
| 18                   | development and that's that's why it could be there's   | 18             | easement would have been, you know, under water.                                   |
| 1.10                 | an easement over that a property was given to the school  | 19             | MR. DALE: These people   |
| 19                   |   | 20             | MR. DVORAK: The water would have been going  |
| 20                   | board, but there's an easement in place for the CDD to  |                |  |
| 20<br>21             | maintain it.  | 21             | wherever the lowest point is, but during   |
| 20<br>21<br>22       | maintain it.  MR. CHESNEY: So I live near you know, up on   | 21<br>22       | MR. DALE: So these people must've been high enough                                 |
| 20<br>21<br>22<br>23 | maintain it.  MR. CHESNEY: So I live near you know, up on this side and I remember when they because my house was | 21<br>22<br>23 | MR. DALE: So these people must've been high enough not to get anything right here? |
| 20<br>21<br>22       | maintain it.  MR. CHESNEY: So I live near you know, up on   | 21<br>22       | MR. DALE: So these people must've been high enough                                 |

| 1  | Page 78   | 1  | Page 80   |
| 1  | going on here is there's a pipe that goes from the lake to  | 1  | else  |
| 2  | here and this is an open sort of ditch area. There's a pipe   | 2  | MR. DVORAK: Listen, you you make a very valid   |
| 3  | that goes from here across this, which is their TECO's  | 3  | point and the way a lot of these developments happened over   |
| 4  | maintenance drive, one of them and then this ditch, like I  | 4  | the last 30 years is you looked at things in isolation and  |
| 5  | said, comes all the way down from the north and then there's  | 5  | there was not until recently the ability to look at   |
| 6  | a 42-inch pipe that comes from here all the way down and  | 6  | things holistically. Then, the county is now engaged in   |
| 7  | then discharges into the lake. So there's three different   | 7  | these watershed models that cover the entire county and when  |
| 8  | pipes that interconnect this and and what I am saying is  | 8  | you do a development, yeah, you do the ponds on your  |
| 9  | this one that's right here in the middle is like this much  | 9  | property, but you also look at what it does to all the  |
| 10   | higher than the other ones on either side of it.  | 10   | surrounding properties and they didn't do that 20 years ago.  |
| 11   | MR. DALE: It's almost like our water never had a  | 11   | MS. WILCOX: Well, I mean, behind Davidson, they   |
| 12   | chance to get to the 42-foot or 42-inch pipe.   | 12   | are not 20 years old, that development.   |
| 13   | MR. DVORAK: Right, it doesn't, it's very  | 13   | MR. DVORAK: No, it isn't, but there were it was   |
| 14   | inefficient. Is it flows, but not at a very good capacity.  | 14   | ten or 15 years ago or whatever.  |
| 15   | You're correct.   | 15   | MS. WILCOX: All right. So it goes back to my  |
| 16   | MR. DALE: Well, there you go.   | 16   | original when we had the open comments from the audience  |
| 17   | MR. DVORAK: Yep.  | 17   | was is there any other northeast exit of the water easement   |
| 18   | MR. DALE: Let's fix it.   | 18   | other than the Davidson easement? Is there any other way we   |
| 19   | CHAIRMAN LEWIS: Ms. Wilcox?   | 19   | can go northeast and  |
| 20   | MS. WILCOX: So back in June, you said the fix   | 20   | MR. DVORAK: No, everything more or less drains  |
| 21   | would be about \$100,000 in that June meeting when we talked  | 21   | from north to south and then, you know, maybe northeast to  |
| 22   | about this whole lowering the is that that's still  | 22   | southwest. Everything just is coming you know, the  |
| 23   | about the price?  | 23   | natural flow of things is from north to south. So   |
| 24   | MR. DVORAK: I think that's probably the magnitude.  | 24   | MS. WILCOX: Yeah, that's why I'm concerned, A,  |
| 25   | MS. WILCOX: Okay. Is that something we can do   | 25   | about moving that water from the rainwater, berm water,   |
|  | Page 79   |  | -   |

If I need to rerun the model or whatever, I will, but my point is is I'll get that finalized when I get that squared away and then we |

21 (Pages 78 - 81)

Page 82 1 notice tomorrow. 2 MR. DVORAK: Yep. 3 CHAIRMAN LEWIS: Just as a heads up. Okay. 4 Robert, thank you very much for that. 5 MR. DVORAK: And then I don't know how much we --6 at the last meeting, we talked a little bit about the pond 7 120, the sump 120 where the residents had encroached into 8 our pond and we went and got a survey to show how much they 9 were -- had encroached and we got that survey like in the 10 last 48 hours or whatever, but the more urgent -- or the 11 more immediate need was getting that sump dredged because it 12 had filled up and it's affecting -- potentially affecting 13 the -- you know, when it would rain, it would affect the 14 drainage and the connecting system that drains to it. And so we had a proposal at that last meeting and Chris said, 15 "Wow, that's a lot of money, can you get some other 16 17 proposals," and so we did. We got two other proposals. 18 The initial was from Bayside Dredging and they were 19 \$86,000 and then we had A & B Aquatics and Crosscreek 20 Environmental provide proposals and just so you are aware, 21 you don't need to read all of that, the proposals were all 22 very consistent in the way they would go about doing the 23 work in terms of hydraulic dredging and then the quantities 24 were pretty much all in the same ballpark from 300 to 350

20 is is I had them continue the survey around the back of the 21 property because it was -- there was some things in the back

going to send a letter to the homeowner.

them, too, to get rid of their crap.

and there's a -- like a brick -- like a barbecue grill thing
 that's in the -- on CDD property in a wetland. So in
 addition to getting stuff out of this drainage easement,

they are going to have to take things out of our property in

really good dry last half of the wet season, so this is work

MR. CHESNEY: Well, we want the residents to

MR. DVORAK: Well, the whole parcel is covered by

MS. McCORMICK: Yeah, so I -- we talked about this

MR. CHESNEY: Sometimes we got to -- we have engage

MR. DVORAK: Stuff, right. Well, the other thing

come -- right -- because the contractor is going to require,

an easement for -- the CDD has an easement, to maintain it.

you know, I'd imagine some type of agreement. Right?

last month, you know, about putting the homeowner or

homeowners on notice who built the structures that are

right -- that shows exactly what it is that they have put

survey and you're going to go over it at the workshop, I

mean, I definitely want to be in the loop because we're

encroaching and I think we were waiting on the survey --

there that needs to be removed. So now that we've got the

that can, you know, probably happen --

1 And then the other thing they were very consistent 2 on is that if they did the work and somehow these guys's, 3 you know, these resident's wooden seawalls that they 4 installed themselves, if they were to fall over or get --5 you know, something happened as you were taking material out 6 and there was nothing pressing up against them, if one broke 7 open or fell over, there -- no one's going -- would be 8 liable for that. So the survey I think we should probably 9 save for like the next workshop just to look over like what 10 has happened there on this property, but like in terms of 11 these -- oh, so let me finish the proposals we got. 12 Crosscreek was in the \$85,000 range and A & B Aquatics was 13 41,000 -- or 40,000 and some change, but all the same specs 14 and maybe more efficient, better equipment, I don't know, 15 but their proposal was like half of what the original, 16 Bayside, proposal was for. 17 CHAIRMAN LEWIS: Okay. So -- I'm sorry, hold on, 18 Marlon. Do we need action on this tonight or are we going 19 to look at this at the workshop first? 20 MR. DVORAK: We can look at it at the workshop so 21 that you guys can understand with pictures and with the 22 survey of what has gone on here because once you see it, you 23 -- you can absorb like what it is -- you know, you can see

what's going on and then understand what's happened and then

-- you know, we are headed into the dry season. We've had a

cubic yards of material to come out, which is a lot.

Page 85
a wetland, which is a violation. I mean, nothing is going
to happened if no one reports us, but -- I mean, if SWFWMD
happened to go out there, take a look at it for whatever
reason, they would send a letter to the CDD and say, "Get
this barbecue out of the" -- "out of the wetland."

So I think that would be something we would want to include in terms of, you know, remedying this before -- sooner rather than later.

CHAIRMAN LEWIS: Okay.

MR. SYLVANOWICZ: I think it was discussed that it's two parts. There's -- the CDD is the owner -- well, the operator and maintainer of the pond even though it's on private resident's property. So that is our certificate of inspection, that is our permit, that is why we are responsible, the CDD, of cleaning it out because we need to maintain it. So if you have questions about the clean out, you do have Reid here about what he would do, whatever he has to -- or if you want to wait for a workshop, that's why he kind of stuck around for that.

I do -- if you want to switch back, I do have the survey, I do have the pictures of what it looks like and all of that for information, but kind of what we discussed in a roundabout way is that the second part is then involving the residents because we want to be able to maintain it for all the streets that drain to that and then start the process,

22 (Pages 82 - 85)

24

25

Page 84

Page 86 Page 88 1 which is going to get in the -- in the weeds with legal and 1 extension of pavers at 12102 Clear Harbor Drive and I was 2 2 who did what and when. talking with Sherida about this and looking over it. So 3 3 CHAIRMAN LEWIS: Okay. I mean, I -- unless -- I this is, you know, different than the typical request that 4 4 would say let's push it to the workshop and go from there. we get to allow pavers to be installed within the existing 5 So -- but thanks for that, David. 5 driveway and over the sidewalk area that the CDD owns 6 MR. SYLVANOWICZ: Yeah, sure. 6 because in this particular case, this homeowner wants to 7 CHAIRMAN LEWIS: Marlon, did you have a question? actually extend their driveway further within their lot 8 MR. SANTOS: Yeah, you guys answered partially 8 where there's currently, you know, sod that is in that area. 9 because my concern was about the residents. As we start the 9 So part of this is a WCA issue as it relates to the 10 10 job -- because it seems like we need to start quickly and if lot itself, but then part of the request deals with the 11 11 they are going to be affected, some structures might be property that is owned by the CDD for Clear Harbor Drive and 12 damaged and they might blame us and all of that. So I think 12 I think there's only been one other case where we've allowed 13 we -- it's a good idea and as soon as possible -- right -a homeowner to modify the dimensions of their driveway and 14 14 so we can protect us legally. that was a situation that involved a corner lot and access 15 But also what Robert said about us having to remove 15 issues. that -- like that barbecue pit, I don't think it -- we 16 In this particular case, you know, I think that 16 17 17 should pay for it. We should tell the resident he should they have indicated that they are having problems with the 18 18 remove it -- right -- or else we're going to be setting the shrubs that are on the lot because they are getting into the 19 precedent for other folks that when we tell them, "You got 19 air conditioner handler and they showed -- you know, they 20 20 to remove that structure," but you guys removed that, so you showed some pictures of that on the request that you have in 21 take care of that. I'm just saying we should be careful 21 front of you. But before we start, you know, allowing 22 22 residents to expand their driveway aprons, I thought this 23 23 MR. DVORAK: Yeah, I just meant that because the needed to be an issue considered by the board and whether 24 24 CDD was the owner, that's who the county or the Water you want to set that precedent. 25 25 Management District would come at. You know, they would be MR. GILLIS: Just to clarify, that is a corner lot. Page 87 Page 89 sending letters to the board and then the board would send Hearing from the resident and seeing the request, it was 1 2 2 very similar to the one that was already done in the same letters to the homeowner. 3 MR. SANTOS: Okay. 3 area. 4 4 CHAIRMAN LEWIS: Robert, thank you very much. MS. McCORMICK: Okay. CHAIRMAN LEWIS: So I -- can you go up one, David? 5 MR. DVORAK: Yep. 5 6 CHAIRMAN LEWIS: Erin? 6 MR. SYLVANOWICZ: Yep. 7 7 MS. WILCOX: Excuse me, I just have one more CHAIRMAN LEWIS: I think it's under survey. So question. Pam Wilcox again. I know we talked about it last 8 8 this -- if you can zoom in, if you don't mind --9 9 time, but is someone contacting the association so they can MR. SYLVANOWICZ: Yep. 10 10 notify their residents that there could be potential fines? CHAIRMAN LEWIS: -- just a little bit. So the red 11 I don't think we had an action item on that part. 11 area -- is the sidewalk new there? Let me -- is this -- is 12 12 MS. McCORMICK: Well, this is CDD property that this new that they are wanting to do? 13 13 we're talking about, though. This is not HOA property. MS. McCORMICK: Yeah, that's on the --- that does 14 14 MS. WILCOX: So you would be notifying them not involve the CDD property. So what involves the CDD 15 property is the area that -- of the driveway apron that is 15 directly? I think last time we spoke about it, you said 16 someone was maybe going to speak to the HOA about borders --16 on -- (indiscernible.) 17 17 oh, okay. I'll look at my notes. MR. GILLIS: Right, this is what we're talking 18 CHAIRMAN LEWIS: I don't recall -- I'm not saying 18 about right back there. 19 19 it wasn't said, I just don't recall that, but to me, I'm CHAIRMAN LEWIS: Okay. I read the description 20 with Erin. I mean, this is a CDD issue, so we can -- yeah, 20 again and it was a little bit confusing, but --21 I know you're involved, so you can let them know. 21 MS. McCORMICK: Yeah, and if the board approves 22 MS. WILCOX: I already did. 22 this, I mean, I would just crosshatch the area that we're 23 23 CHAIRMAN LEWIS: I figured. talking about, which would not be everything that is in red. 24 MS. McCORMICK: Okay. So are you ready for me? On 24 It would just be --

23 (Pages 86 - 89)

CHAIRMAN LEWIS: Yeah, thanks for that. What's

25

page two, there is a request that Sherida had gotten for the

|                     | Page 00   |    | Page 92  |
|---------------------|---|----|--|
| 1 your concern v    | Page 90   | 1  | don't think they'll have a problem like doing their the      |
| ,                   | CORMICK: That we're allowing residents now      | 2  | pavers for their sidewalk.                                   |
|                     | limensions of their driveway apron, so they     | 3  | MR. CHESNEY: A lot of people have been expanding             |
| •                   | e taking up as an easement more or they're      | 4  | their  |
|                     | a license agreement that's going to expand the  | 5  | MS. McCORMICK: Within their own lots.                        |
|                     | their driveway from what was originally         | 6  | MR. CHESNEY: Right.  |
| 7 constructed.      | their driveway from what was originally         | 7  | CHAIRMAN LEWIS: Okay. All right. I have do we                |
|                     | MAN LEWIS: Okay. But we allow this in other     | 8  | need a motion and action on this?                            |
|                     | maybe not behind a gate, but definitely in      | 9  | MS. McCORMICK: Yeah, so you can just authorize us            |
| •                   | ·   | 10 | 1  |
| -                   | Westchase, too. Right?                          |    | to proceed with the paid for license agreement that will     |
|                     | CORMICK: I think we've only in one other        | 11 | allow the expansion of the driveway and unless you tell me   |
|                     | omebody to expand their driveway apron. I       | 12 | otherwise, if we have more requests, we'll just include it   |
|                     | ve had other requests that have come to the     | 13 | in the agenda package and                                    |
| 14 board.           |   | 14 | MR. VEGA: So you are possibly looking for a motion           |
|                     | OK: And the one that was allowed was done       | 15 | to do an all encompassing paver extension?                   |
| 16 recently like in |   | 16 | MS. McCORMICK: It sounds like they want to                   |
|                     | MAN LEWIS: Okay. I think closer to the gate     | 17 | consider them on a case by case basis.                       |
| •                   | ourse. Correct? Do I remember that right?       | 18 | CHAIRMAN LEWIS: Yeah, we don't want to do a policy           |
|                     | LIS: That's where this is.                      | 19 | change.  |
|                     | MAN LEWIS: Okay.                                | 20 | MR. VEGA: Okay.  |
|                     | LIS: They are both in Harbor Links and it's     | 21 | CHAIRMAN LEWIS: Yeah, I'll move to approve the               |
| 22 yeah.            |   | 22 | 12102 Clear Harbor Drive for the expansion to the what       |
|                     | MAN LEWIS: All right. Yeah, I don't I           | 23 | direction is that I guess that's the east, right side, of    |
|                     | is and I read through it and I wasn't sure      | 24 | the driveway, if you're looking at the house.                |
| 25 a lot of discuss | ion, but I mean, I, personally, don't have      | 25 | MR. GILLIS: I'll second.                                     |
|                     | Page 91   |    | Page 93  |
| 1 any issues with   | n this.   | 1  | CHAIRMAN LEWIS: All right. All in favor?                     |
| 2 MS. McG           | CORMICK: And if the board wants to, you         | 2  | (All board members signify in the affirmative.)              |
| 3 know, as a pol    | icy say that we're going to allow any           | 3  | CHAIRMAN LEWIS: Carries four to zero.                        |
| 4 residents to ex   | pand their driveway aprons, we don't need to    | 4  | (Motion passes.)   |
| 5 consider these    | one by one. I mean, you can do that today.      | 5  | MS. McCORMICK: The second issue that I have that I           |
| 6 If you want to,   | you know, have the engineer check to just       | 6  | already talked about in answering the question is the        |
| 7 make sure that    | there's not like any irrigation lines within    | 7  | engagement letter that was approved when back in             |
| 8 that expanded     | area that might be impacted by what's being     | 8  | September of 2017 and I know at the time, Brian Ross had     |
| 9 requested, we     | can do that.                                    | 9  | reviewed it and I had made some changes to the engagement    |
| 10 CHAIRN           | IAN LEWIS: I mean, I guess. I don't know, I     | 10 | letter, so I didn't want to, you know, start this process    |
| 11 how do you       | guys feel about making it a policy?             | 11 | all over. The only thing really that you would be doing      |
| 12 MS. McC          | CORMICK: I don't know if there's any pipes      | 12 | would be authorizing Matt to reexecute this original letter. |
| 13 in that area.    |   | 13 | MR. CHESNEY: Are you talking about your engagement           |
| 14 CHAIRN           | MAN LEWIS: I dont know, I kind of feel like a   | 14 | letter?  |
| 15 case by case ba  | asis because it's not really                    | 15 | MS. McCORMICK: Yeah, yeah, because it was at                 |
| 16 MR. CH           | ESNEY: To me, if the HOA does it, then          | 16 | that time, James Mills was The Chair.                        |
| 17 CHAIRN           | MAN LEWIS: Yeah, I I guess that's where I       | 17 | MR. CHESNEY: Okay. It's my understanding from                |
| 18 was thinking, t  | 00.   | 18 | some of these the records requests is that some of these     |
| 19 MR. GIL          | LIS: It's just that this issue was              | 19 | agreements are old and dated, like I don't think they are    |
| 20 specifically pa  | rt of our easement, that's why and that's why   | 20 | I don't know, did you find a current one for the engineer?   |
| 21 I pointed to the | at corner.                                      | 21 | MS. McCORMICK: We do have one from when BDI was              |
| 22 MS. McC          | CORMICK: Yeah, and Sherida, do we know if       | 22 | MR. VEGA: We have the the new one from the                   |
| 23 the WCA has o    | considered this request yet or are they waiting | 23 | engineer, from 2023.   |
| 24 for the CDD to   | make a determination?                           | 24 | MR. CHESNEY: From '23, okay. And like and, you               |
| 25 MS. COO          | OK: I think they're waiting for us because I    | 25 | know, any time you guys update your pricing, we should be    |

24 (Pages 90 - 93)

|        | D 04   |        | P. 06  |
|--------|--|--------|--|
|        | Page 94  |        | Page 96  |
| 1      | approving that, so it should be in the agenda packages.      | 1      | professionals, but you guys you guys change your rates as        |
| 2      | MS. McCORMICK: Well, okay. We haven't done that              | 2      | normal professionals do. To me, that should be something         |
| 3      | in the past because  | 3      | that should be approved each time.                               |
| 4      | MR. CHESNEY: Well, you used to send a letter. Any            |        | CHAIRMAN LEWIS: Yeah, I mean, I personally agree                 |
| 5<br>6 | time your rate changed I'm talking not I'm not talking about | 5<br>6 | with that, too.  MS. McCORMICK: Okay. Well, I can submit that to |
| 7      | MS. McCORMICK: I never have                                  | 7      | you and they   |
| 8      | MR. CHESNEY: That's not true, Erin. Come on.                 | 8      | MR. CHESNEY: I mean, even what the current rates                 |
| 9      | MS. McCORMICK: No, I never have since 2017.                  | 9      | are. Someone might ask me what the current rate is, I            |
| 10     | MR. CHESNEY: Oh, yeah, since 2017, yeah, yeah.               | 10     | really have no idea what you guys anymore. That was like         |
| 11     | MS. McCORMICK: But I don't recall doing it before            | 11     | 330, I would think it's more than that.                          |
| 12     | that, but  | 12     | MS. McCORMICK: Yeah, it's I was just looking at                  |
| 13     | MR. CHESNEY: Well, when you okay. My I                       | 13     | that. So for Westchase CDD, my current rate is \$440, so         |
| 14     | don't want to get off track here, but in general, I mean, we | 14     | it's increased about three and a half percent per year.          |
| 15     | should have updated contracts. Right?                        | 15     | MR. CHESNEY: Okay. And I don't know how often you                |
| 16     | MS. McCORMICK: We can do a new engagement letter.            | 16     | change your  |
| 17     | MR. CHESNEY: I mean, for where this is going is              | 17     | MR. DVORAK: We've changed it once since we've                    |
| 18     | because we're also going to look at their contract, but      | 18     | been   |
| 19     | anytime for our professionals, we should have an updated     | 19     | MR. CHESNEY: Since 20 you were 2017 or 2019?                     |
| 20     | contract that has the current pricing. Right?                | 20     | MR. DVORAK: At JMT, I don't think we ever we                     |
| 21     | MS. McCORMICK: Yeah. I mean, I guess I just want             | 21     | never changed our rates at JMT.                                  |
| 22     | to make a distinction because we don't have like a contract  | 22     | MR. CHESNEY: I'm just trying to remember when you                |
| 23     | with like we do for district manager or district             | 23     | first came on.   |
| 24     | engineer. I mean, with counsel, whether it's, you know, my   | 24     | MR. DVORAK: I think since Steven and I have been                 |
| 25     | district counsel position or it is bond counsel, we have an  | 25     | gone, we changed it once and we're not changing it this          |
|        | Page 95  |        | Page 97  |
| 1      | engagement letter that's accepted by the district and we     | 1      | year. So   |
| 2      | can, you know, make changes to it if we                      | 2      | MR. CHESNEY: Okay.   |
| 3      | MR. CHESNEY: Well, okay. Maybe I'm just like I               | 3      | MR. DVORAK: It would be like every two                           |
| 4      | said, someone asked me some questions the other day and like | 4      | MR. VEGA: The current agreement is with BDI from                 |
| 5      | I said, I've been doing a lot of long time, so sometimes     | 5      | 2023. Even though, same engineer, different firm.                |
| 6      | things blend together as you know, but like I recall that    | 6      | MR. CHESNEY: Right, right. Okay.                                 |
| 7      | whenever the rates changed, we would approve something. In   | 7      | MR. DVORAK: But it did come up. Andy put it in                   |
| 8      | my mind, it was a letter, so which would be an addendum      | 8      | the as a discussion when we had a change.                        |
| 9      | to whatever the agreement was we had with that professional  | 9      | MR. CHESNEY: I remember that part.                               |
| 10     | and I'm talking about you, specifically.                     | 10     | MR. DVORAK: I mean, you guys just said how much                  |
| 11     | MS. McCORMICK: Yeah. I mean, I was with Fowler               | 11     | what percent is this kind of thing and it was average of         |
| 12     | White for 25 years before I started my own firm and I know   | 12     | like two and a half or three percent and                         |
| 13     | that we, typically, at the beginning of the year, would send | 13     | MR. CHESNEY: I'm not trying to I feel that                       |
| 14     | out send out something to the client saying, you know,       | 14     | yours was more current. I was surprised that that the            |
| 15     | this is the rate change that we have we have done for our    | 15     | agreement was not available, but I understand it was found.      |
| 16     | engagement of you. I mean, we didn't do that all the time,   | 16     | MR. VEGA: Yes.   |
| 17     | but sometimes we would, but I don't recall that it was ever  | 17     | MR. CHESNEY: Okay. That's all.                                   |
| 18     | that there was ever action taken by the board on it.         | 18     | MS. McCORMICK: So because they typically adjust my               |
| 19     | MR. CHESNEY: Okay. Well, how about this: I mean,             | 19     | rates January 1st, but do you want me to submit something        |
| 20     | I think anytime any of our professional's rate change and    | 20     | now or do you want me to do it January 1st?                      |
| 21     | our district management company is a different animal        | 21     | CHAIRMAN LEWIS: Well, I think if we're going to                  |
| 22     | because their rate change was built into the contract, but   | 22     | if we're to execute this letter that we just got, we             |
| 23     | I'm really thinking of you two and whoever else that I can   | 23     | probably need to have that or what was brought in January        |
| 24     | think of that I mean, I don't know I guess A & B has         | 24     | 1 of 2025.   |
| 25     | always been the same. I'm just trying to think of different  | 25     | MS. McCORMICK: Okay. I can do that.                              |

25 (Pages 94 - 97)

|    | Page 98  |    | Page 100  |
|----|--|----|---|
| 1  | CHAIRMAN LEWIS: And then if it changes in 2026.              | 1  | MS. McCORMICK: No, I have a few other things,               |
| 2  | MR. VEGA: So we'll just do that at the next                  | 2  | but   |
| 3  | meeting or do you want to modify that?                       | 3  | CHAIRMAN LEWIS: Can I I'm sorry to interrupt.               |
| 4  | CHAIRMAN LEWIS: We can well, I guess they can                | 4  | Are you good, Whitlie? Break, do you need a break or        |
| 5  | I can give myself power to when she changes it, power        | 5  | anything?   |
| 6  | to execute it. Right?  | 6  | THE COURT REPORTER: Oh, yeah, I'm fine. Thank               |
| 7  | MR. VEGA: We can do that.                                    | 7  | you, though.  |
| 8  | MR. CHESNEY: Don't over think it. Just put it in             | 8  | CHAIRMAN LEWIS: You sure?                                   |
| 9  | for next months. You know, a lot of times, these things,     | 9  | THE COURT REPORTER: I'm all good.                           |
| 10 | when we agree on I was just thinking about some you          | 10 | CHAIRMAN LEWIS: All right. It's right at 6:00.              |
| 11 | know, I met with some people and some of the complaints      | 11 | So okay.  |
| 12 | about how we operate our business. I mean, that's what we    | 12 | MS. McCORMICK: So just quickly and this is                  |
| 13 | have and and I mean, honestly, we've since COVID             | 13 | something that can be discussed further at the workshop and |
| 14 | especially, I feel our recordkeeping has been a little       | 14 | if you wanted Ivy to attend I don't know if she was         |
| 15 | slack, so this is to me, she should submit a new             | 15 | scheduled to attend at this point, but I had asked her the  |
| 16 | agreement, we approve it. It can be in the consent agenda.   | 16 | question that came up at last month's meeting about the BHB |
| 17 | You don't have to over think this.                           | 17 | agreement and whether the landscape assessment work that    |
| 18 | MS. McCORMICK: Yeah, no, and I guess what I would            | 18 | they are working on included the pocket parks and she said  |
| 19 | just say is because I know there were some comments on it by | 19 | no, it did not. So if the board wants to, you know,         |
| 20 | one of board members when we did this in 2017, so if between | 20 | incorporate that or do a separate agreement for or add it   |
| 21 | now and next month, if anybody has anything that they want   | 21 | to the scope of the services, she said to let her know and  |
| 22 | to talk to me about, feel free to reach out to me. I mean,   | 22 | she would be happy to work on that.                         |
| 23 | I'm happy to revisit anything that's in the engagement       | 23 | CHAIRMAN LEWIS: I think that we want to.                    |
| 24 | letter.  | 24 | MR. WIMSATT: Yeah, I think we want to look at the           |
| 25 | CHAIRMAN LEWIS: Yeah, next month's minutes.                  | 25 | pocket parks, definitely.                                   |
|    | Page 99  |    | Page 101  |
| 1  | MR. VEGA: And we'll put it on the consent?                   | 1  | CHAIRMAN LEWIS: I agree.                                    |
| 2  | CHAIRMAN LEWIS: Yeah, that's fine.                           | 2  | MS. McCORMICK: So do were you planning on                   |
| 3  | Yes, sir?  | 3  | having her come to the workshop or not or                   |
| 4  | MR. BADER: Bob Bader, 10518 Brentford Drive. My              | 4  | CHAIRMAN LEWIS: Well, one thing I wanted to bring           |
| 5  | comment respectfully, I would hope there is a urge to        | 5  | up and I guess this is a good time is the manager           |
| 6  | scrutinize these these rate increases right and not          | 6  | proposals that we had. So at some point                     |
| 7  | just accept them. I mean, if the cable had been going up,    | 7  | MR. CHESNEY: That's where I was going.                      |
| 8  | you know, ten percent over seven years, you probably would   | 8  | CHAIRMAN LEWIS: So at some point, we need to bring          |
| 9  | be looking for another cable company. That that increase     | 9  | those people in because it kind of got lost in the whole    |
| 10 | from the 335, which is kind of the market rate, to 440,      | 10 | trail discussion, but                                       |
| 11 | we're at the high end of legal expenses with the CDD.        | 11 | MS. McCORMICK: Yeah, so so that was next on my              |
| 12 | Granted, there's some Lakewood Ranch was higher, but         | 12 | list or one of the things I was going to talk about. So we  |
| 13 | they're ten times bigger than we are; but when I did some,   | 13 | did get three statements of qualifications from district    |
| 14 | you know, research on it, we're at the top end of that.      | 14 | managers and I think at last month's meeting, we had talked |
| 15 | So you know, I urge the board to look at the                 | 15 | about having them come to the next workshop in a couple of  |
| 16 | CDD's budget as if it were your own money and spend it       | 16 | weeks. I I was contacted by another district management     |
| 17 | wisely and not like, "Oh, we got three million dollars and   | 17 | company that didn't see the advertisement that ran in the   |
| 18 | we like Erin, she's great," but you know, at some point,     | 18 | paper that, you know, would be interested in the event that |
| 19 | you say, "Well, no, this is a little expensive," so let's    | 19 | the board wanted to open it up to additional proposals and  |
| 20 | entertain other offers and maybe save 50,000 that could help | 20 | then I saw, Matt, that you were contacted by somebody as    |
| 21 | fund like, you know, Robert's engineering projects and       | 21 | well. So  |
| 22 | things like that.  | 22 | CHAIRMAN LEWIS: Two, actually and I I guess I               |
| 23 | MR. CHESNEY: I appreciate that. And we we have               | 23 | I can't remember if I shot you an e-mail last night or      |
| 24 | a system that I think we're going to talk about here. Are    | 24 | not.  |
| 25 | you done with your part because I have some questions        | 25 | MR. CHESNEY: Halifax, yeah, I saw that, too.                |

26 (Pages 98 - 101)

Page 102 1 CHAIRMAN LEWIS: I mean, at this point, I mean, I through it and then we voted at the next meeting. 2 don't know if it's considered nonresponsive or if we wanted 2 CHAIRMAN LEWIS: Yeah. 3 to allow it, I guess we'd have to make --3 MR. GILLIS: It just gives us a little more time to 4 MS. McCORMICK: Well, what I would say is that the 4 5 statements that we received did -- and this wasn't something 5 MR. WIMSATT: Reflect. 6 companies were required to do, but they did include pricing 6 MR. GILLIS: Like for the irrigation system. 7 in there, so that's, you know, out there and public record 7 MR. CHESNEY: Okay. It's going to go until what --8 right now and when we did the request for proposals, we 8 9 said, "It has to be submitted by this date." 9 10 10 Now, like statutorily, there's not a requirement of 11 11 how you go through the district management selection okay. 12 process, but I'm just saying, this is what the board said it 12 13 was going to do when we started this process. 13 don't mind. MR. CHESNEY: And we have -- we haven't created a 14 14 15 measuring rubric yet, so I mean we've -- I know you -- they 15 16 include pricing, but we don't know what that is going to 16 17 17 count for yet. 18 MS. McCORMICK: Right, right. 18 19 CHAIRMAN LEWIS: I mean, to me, I would want to 19 20 bring in those people at the next workshop. I've already 20 21 21 got a couple of things written down for other things, 22 22 camera, irrigation, pay rates, survey of pond 120, I mean --23 23 so I mean, we're -- we're filling it up here, so I would 24 personally want to hold off Ivy from coming out on the 24 25 25 landscaping at this point. Page 103 1 MS. McCORMICK: Right, okay. curb with an angle. Right? 2 2 CHAIRMAN LEWIS: Maybe look at November, possibly 3 January. 3 hard time following you. 4 MS. McCORMICK: Do you want me to just ask her for 4 5 like a proposal for the pocket parks in the meantime? 5 CHAIRMAN LEWIS: Yes, I'm sorry, we didn't round 6 6

I can't go to the workshop, I don't think, but --CHAIRMAN LEWIS: You can call in. MR. CHESNEY: Yeah, I can call in. This gets --CHAIRMAN LEWIS: Yeah, I -- let's do that, if you Okay. Yes, sir? Quickly, sorry. MR. SANTOS: I'll be quick. I know you approved the paver extension for the driveway, but can we consider -since this is going to be a one -- you know, case by case scenario, can we consider that at least it follow the same patterns because it's going to look kind of wonky, you know, the consistency looks good for the neighborhood where this curb is going to be like -- like a straight line. Maybe if we're going to approve it, we should tell them, "Okay. Follow the same as the other side," so that if other people start doing it, at least we have it consistently it's not going to be like one side is straightened outside with the Page 105 CHAIRMAN LEWIS: Oh, okay. I -- I was having a MR. SANTOS: I think maybe if bring the map, it -it's just to be consistent. Right? CHAIRMAN LEWIS: So instead of the driveway --MR. VEGA: Yeah, one side is --CHAIRMAN LEWIS: (Indiscernible.) MR. VEGA: The apron was like this. MR. SANTOS: Because the -- all the houses are like this following the angling at this curb. MR. VEGA: It's on the screen. MR. SANTOS: If we can approve it, maybe we should ask them, "Okay. Make the other side have the angle as well on the curb." Right? CHAIRMAN LEWIS: Well, I mean, I guess that's in the eye of the beholder. I don't know if I necessarily have a problem with it personally, but --MR. SANTOS: Just consistency of the --(indiscernible.) MR. CHESNEY: We always let the HOA decide what the look of the community should be. MS. COOK: I would assume, too, by where they

haven't asked to widen it is probably where the mailbox is,

there's going to be restrictions there, too.

back to that again. Thank you.

MS. McCORMICK: I will do that.

workshop, to review the proposals for the --

there any -- I will reach out to that --

push that to the actual meeting, I'm not --

MR. CHESNEY: You would like the -- us to, at the

date. I mean, my personal opinion is -- from somebody that

does this -- if you miss the date, you miss the date. So

call me a hard ass or whatever. Excuse me my language.

CHAIRMAN LEWIS: For the three that were within the

MS. McCORMICK: Okay. So I will reach -- well, is

MR. CHESNEY: I understand -- to me, the -- the

workshops are great for resident input and things that --

management company is strictly kind of how we're doing

business. I don't know if -- you set the agenda, but if we

MR. GILLIS: We did it at workshop, we talked

CHAIRMAN LEWIS: Why did we do -- I thought we did

you know, cameras and things like that. I mean, the

Page 104

|    | Page 106  |       | Page 108  |
|----|---|-------|---|
| 1  | MR. SANTOS: But the the county put like the   | 1     | because there's not   |
| 2  | the county puts a skirt thing. Right? They approved the   | 2     | MR. SYLVANOWICZ: We're not taking any new ones.   |
| 3  | extension of that. I don't know. So   | 3     | MR. CHESNEY: The insurance company has told you   |
| 4  | CHAIRMAN LEWIS: I don't know, I feel like you   | 4     | not to?   |
| 5  | might be over thinking that a little bit, with all due  | 5     | MS. McCORMICK: Our insurance company has said they  |
| 6  | respect.  | 6     | had several complaints.   |
| 7  | MR. SANTOS: I just I thought of a few months  | 7     | MR. VEGA: I can send the e-mail out to everybody,   |
| 8  | ago. So   | 8     | but the insurance's concern is now, if the district   |
| 9  | CHAIRMAN LEWIS: Yeah, no, fair point, Marlon.   | 9     | wanted to get a bounce house, we're covered   |
| 10 | Thank you.  | 10    | MR. CHESNEY: Oh, yeah.  |
| 11 | Erin, sorry.  | 11    | MR. VEGA: but when a resident wants to get a  |
| 12 | MS. McCORMICK: Okay. I have two other quick   | 12    | bounce house, normally the agreement  |
| 13 | things. And Mark, you might be planning to talk about the   | 13    | MR. CHESNEY: But are they not are they aware  |
| 14 | insurance issue regarding the bounce houses.  | 14    | that the vendors have insurance?  |
| 15 | MR. VEGA: You can bring it up.  | 15    | MR. VEGA: Yes, they are aware that the vendors  |
| 16 | MS. McCORMICK: Okay. Well, so I think Mark had  | 16    | have insurance, but they're also aware that most of the   |
| 17 | met with AEGIS and then had talked with Sherida and AEGIS is  | 17    | agreements even though they'll give you a certificate   |
| 18 | concerned about the liability caused by bounce houses, water  | 18    | saying, "Here's our certificate of insurance," the agreement  |
| 19 | slides, other types of features that are used within our  | 19    | itself says that they are held harmless and they are  |
| 20 | parks for when people make a reservation and Sherida sent me  | 20    | indemnified, so they are not responsible  |
| 21 | the current website link about when somebody is making a  | 21    | MR. CHESNEY: They're in agreement with their  |
| 22 | reservation for a park and then she also sent me the current  | 22    | with the resident you mean?   |
| 23 | agreement that we have them sign. I didn't sign I see in  | 23    | MR. VEGA: Correct, so they have no responsibility   |
| 24 | there the any requirements on the liability insurance,  | 24    | for any injury even though they have insurance. So that's   |
| 25 | but I believe that we do require the resident who is making   | 25    | come up and they said if there is an injury, if we're not   |
| -  |   | -     |   |
|    | Page 107  |       | Page 109  |
| 1  | the reservation to have liability insurance and to add the  | 1     | listed if the insurance company does not indemnify us   |
| 2  | CDD as an additional insured.   | 2     | according and add us to the insurance accord, they're still   |
| 3  | MS. COOK: We no, for the residents, we do not and we have insurance with the vendors and we are listed as | 3     | going to be   |
| 4  | and we have insurance with the vendors and we are listed as an additional insured with the vendors.       | 4     | MR. CHESNEY: Send that to me. I'm going to have   |
| 5  | MS. McCORMICK: Okay.  | 5     | someone look at that. Yes, send me that insurance letter.  MR. VEGA: Will do.                       |
| 7  | •   | 6     |   |
| 8  | MS. COOK: I keep and list and MS. McCORMICK: By the vendor?   | 8     | MS. McCORMICK: So right now, we're not taking   |
| 9  | MS. COOK: Yes, if the residents request a bounce  | 9     | bounce house requests.  CHAIRMAN LEWIS: Water, no water, just any. Right?                           |
|    | house, whatever, I share that list with them and I depict   | 10    | MR. SYLVANOWICZ: Correct.   |
| 10 | from who  |       |   |
| 12 | MS. McCORMICK: Okay. Well, AEGIS's concern seems  | 11 12 | CHAIRMAN LEWIS: Okay. Just wanted to make sure.  MR. SYLVANOWICZ: There was also from our insurance |
| 13 | to be residents should be providing liability insurance   | 13    | company kind of like a brochure and I think you guys all got  |
| 14 | because we don't necessarily know what the agreements are   | 14    | it and it was like rules to follow. The main thing that I   |
| 15 | between the residents and the vendor, but in light of what  | 15    | wanted to present was that if the vendor is not having it be  |
| 16 | you just said, I think if the vendor is, you know, listing  | 16    | manned and attended to by one of their associates, then the   |
| 17 | the CDD as an additional insured, that might be okay and  | 17    | district should do that. We do not do that and they do not  |
| 18 | they might not have an issue with that. So I think at this  | 18    | do that.  |
| 19 | point, what they've asked is for us to just submit our  | 19    | MR. CHESNEY: Okay.  |
| 20 | procedures that we're doing, but you know, they did raise   | 20    | CHAIRMAN LEWIS: I don't want to get into that   |
| 21 | this issue of bounce houses and water slides and I think for  | 21    | business.   |
| 22 | the time being, right now, Sherida is not allowing people to  | 22    | MR. SYLVANOWICZ: Then the other part of this is   |
| 23 | use those outside vendors for bounce houses. I'm not sure   | 23    | that the homeowners insurance that we speak of that could be  |
| 24 | what you're water slides, either. Right?  | 24    | could be protecting the CDD, if they put it right around  |
| 25 | MS. COOK: That was the instruction right now  | 25    | their own, we haven't been doing that and for the   |
|    | 1.12. COOK. That was the instruction right now  |       | and only we haven't been doing that and for the   |

28 (Pages 106 - 109)

Page 110 Page 112 1 MR. CHESNEY: No one's going to do it. 1 required in June of this year for us to execute an off duty 2 2 MR. SYLVANOWICZ: No one's going to do it. Some of sheriff's indemnification agreement. That does not go way 3 3 these people are -- the reason that they are having these unless the county, you know, terminates it and that requires 4 4 parties there is because they don't have a yard or they us to indemnify them and provide workers' comp insurance and 5 don't have that kind of possibility, so now -- and then in 5 so I have called the sheriff's attorney's office to, you 6 many ways, Sherida has found that these are Hillsborough 6 know, try to delve into this and see if we can get that 7 County residents, but not necessarily Westchase residents. indemnification agreement canceled. I also talked to Deputy 8 CHAIRMAN LEWIS: Oh, that -- I remember when I 8 Gunderson because nobody was answering the sheriff's 9 wrote this down. Does the county allow bounce houses at --9 attorney's office and he and I talked and he said he could 10 MR. SYLVANOWICZ: Well, that's another -- go ahead. 10 follow up if I didn't hear back. So I just -- I wanted you 11 CHAIRMAN LEWIS: -- other county parks? I feel 11 to know that that's in process, but in the meantime, I told 12 like we've had that discussion and I'm sorry, I don't --12 Mark not for us to cancel any of our insurances that we 13 MS. COOK: Yes, and I -- I talked Donna actually 13 currently have. 14 14 MR. CHESNEY: Correct, that would be a huge -again today to clarify, again, water slides are a no. Water 15 slides are only allowed if -- like the rec center, if it's a 15 that's a significant expense. county party. That's the only time that water slides are 16 MS. McCORMICK: Yeah, yeah, and I don't know -- I 17 17 allowed. Similar to what David was just saying, not all mean, I don't know if we need to know the -- the 18 county parks allow bounce houses. They basically are also 18 ramifications of --19 attended. 19 MR. VEGA: We'll be over budget by 14 percent. 20 20 MS. McCORMICK: Okay. So that's all I had for CHAIRMAN LEWIS: But some do, some allow --21 MS. COOK: Some do, some do not. 21 right now. 22 MR. CHESNEY: But they are attended? 22 CHAIRMAN LEWIS: All right. Thank you, Erin. 23 23 MS. COOK: Yes. Mr. Mark, on to you. 24 24 MR. CHESNEY: Yes, that's a significant difference. MR. VEGA: Two of the things were -- Erin just 25 MS. COOK: And again, too, you know, if you recall covered, those are my major concerns, were the bounce house Page 111 Page 113 1 when I looked into this like six months ago, the county does insurance and the HCSO, so the only thing I have on there is 2 not allow them to use the electricity. It is generate -- I 2 the approval of the minutes and the financials. 3 don't know why that is, but it is that way. So yes, not all 3 CHAIRMAN LEWIS: Okay. So moved on to those two. 4 county parks and the other reason why, too, not all county 4 Any second? 5 parks is some county parks do not take reservations. It's 5 MR. WIMSATT: Second. 6 first come, first serve and those are the ones that are not 6 CHAIRMAN LEWIS: Seconded by Jim. Any comments, 7 attended. 7 questions? 8 8 MR. VEGA: And I can answer the -- the county (No response.) 9 doesn't want to -- doesn't want you to use their 9 CHAIRMAN LEWIS: None. All in favor? 10 electricity. This has come up in another district, I think 10 (All board members signify in the affirmative.) 11 Tampa Palms, because they don't want to be liable if the 11 CHAIRMAN LEWIS: Four to zero. 12 power goes out and there's kids in a bounce houses, so you 12 (Motion passes.) 13 have to bring your own power. 13 MR. VEGA: Thank you, gentlemen. 14 MR. CHESNEY: Okay. 14 CHAIRMAN LEWIS: Passes four to zero. Sorry. All 15 CHAIRMAN LEWIS: Okay. Thank you. 15 right. That's all you got? 16 MS. McCORMICK: And the last thing I wanted to 16 MR. VEGA: Yes, as I said, my biggest things were 17 mention is that, you know, for our off duty sheriff's 17 -- were the insurance on the bounce houses and on the 18 officers, the county has switched the -- I guess the 18 deputy's and we've been working on that behind the scenes. 19 management accounting company that does the billing to the 19 So --20 CHAIRMAN LEWIS: Okay. All right. So one real district and that company also charges a fee to the district 20 21 that we pay and the letter that we received from the 21 quick other thing I asked. I talked to you guys about the 22 sheriff's office, you know, justified it by saying that that 22 trespass authorization with the sheriff's department. Where 23 23 Off Duty Management Company -- that's actually what it's do we stand with that? Did you ever get a chance to look at 24 called, the Off Duty Management, is providing insurance to 24 that? 25 the district. The question I have is that the county MR. SYLVANOWICZ: Well, in our workshop, I did talk

29 (Pages 110 - 113)

|    | P 114   |    | Dec. 1   |
|----|---|----|--|
| 1  | Page 114 to Gunderson and he said something can be set up, but it | 1  | Page 1 potential sale of that. I've met with him twice now. We |
| 2  | takes we have to list all the addresses.                          | 2  | have not had a discussion about it and it's probably not the   |
| 3  | CHAIRMAN LEWIS: Oh, okay. So                                      | 3  | best place to do in phone meetings, but in workshops is a      |
| 4  | MR. SYLVANOWICZ: And we do have Gunderson slated                  | 4  | good place. Same with prioritization of projects. I see        |
|    |   |    |  |
| 5  | to come in here for the workshop.  CHAIRMAN LEWIS: This month?    | 5  | that we are really getting to where we have a lot of things    |
| 6  |   | 6  | that maybe we have budgeted, things that are not and trying    |
| 7  | MR. SYLVANOWICZ: Yes.   | 7  | to separate the two so that we can kind of plan to get at      |
| 8  | CHAIRMAN LEWIS: Okay. (Indiscernible.)                            | 8  | those things one at a time.                                    |
| 9  | MR. SYLVANOWICZ: (Indiscernible.)                                 | 9  | So I just hope that we can carve a little bit of               |
| 10 | MR. CHESNEY: My neighborhood is coming to the                     | 10 | time to look a little bit forward because I think a lot of     |
| 11 | workshop for to see the sheriff. So                               | 11 | things are piling up that we really need to walkthrough.       |
| 12 | CHAIRMAN LEWIS: We need some Burns' reservations                  | 12 | CHAIRMAN LEWIS: Okay. Thank you, Reggie. Greg,                 |
| 13 | here. Two months and a day. That's a joke, sorry. So              | 13 | anything?  |
| 14 | okay.   | 14 | MR. CHESNEY: Yeah, I have three. So let's                      |
| 15 | MR. SYLVANOWICZ: I actually would like to have a                  | 15 | let's go to the workshop. I one of the suggestions I've        |
| 16 | discussion with so that I know what you want to talk to           | 16 | heard in the community to make the workshop is to change the   |
| 17 | Gunderson about so that he can either come a little               | 17 | time to 6:30 from 4 o'clock. I think for the workshop, that    |
| 18 | CHAIRMAN LEWIS: Well, I think street parking is                   | 18 | makes some sense if we want to garner resident input. It's     |
| 19 | MR. SYLVANOWICZ: Yes, some of it was that. We                     | 19 | less of a business meeting, so I would like to propose that    |
| 20 | also talked about we have towing signs with no towing             | 20 | starting as soon as possible. I don't know if we can change    |
| 21 | agreement   | 21 | it for the next workshop.                                      |
| 22 | CHAIRMAN LEWIS: Okay.   | 22 | MS. McCORMICK: You can do an I mean, you have                  |
| 23 | MR. SYLVANOWICZ: and that was part of the issue                   | 23 | to do seven days notice, so you                                |
| 24 | with our parking lots, so that was another topic. I know          | 24 | MR. VEGA: We have plenty of time.                              |
| 25 | the parking in cul-da-sacs, parking on curbs, parking             | 25 | MR. CHESNEY: Yeah, that's my suggestion. I think               |
|    | Page 115  |    | Page 1   |
| 1  | elsewhere and now, the no trespassing since we've had a           | 1  | it also would help with the the sheriff's things in this       |
| 2  | couple of incidents that we want                                  | 2  | particularly meeting. I'd like to make a motion we chang       |
| 3  | CHAIRMAN LEWIS: All right. Well, let's talk about                 | 3  | it to 6:30.  |

CHAIRMAN LEWIS: All right. Well, let's talk about 4 the -- maybe offline, talk about scheduling the people because I think maybe Sheriff Gunderson -- Deputy Gunderson 5 6 can come in and then we can do the -- maybe the interviews 7 for the manager. So -- all right. Real quick. Let me just 8 run through that again. Manager presentations, sheriff deputy coming in to talk about that, survey of pond 120, 10 irrigation in general, cameras for the bridge and staff pay 11 raises is what I have on the list. MR. SYLVANOWICZ: And I might give you a second 12 13 paving, for that alley that we talked about. 14 CHAIRMAN LEWIS: Okay. Thank you. All right. 15 MR. SYLVANOWICZ: Yep. 16 CHAIRMAN LEWIS: All right. Reggie, anything? 17 MR. GILLIS: I think the biggest thing is that list 18 is pretty long and I've raised this before. I think at 19 least at some portion in the workshop, we need to talk about 20 scheduling the workshops. We've got a lot of things that 21 are just continuing to pile up. Tomorrow, I'm meeting with 22 the golf course owner again along with the owner of --23 former owner of Cheval. We talked some things over, but it 24 gets -- it's not about the sale or anything, but we're continuing the work on the different aspects of the

s in this n we change MR. WIMSATT: I'll second it. CHAIRMAN LEWIS: All right. All in favor? (All board members signify in the affirmative.) CHAIRMAN LEWIS: All right. (Motion passes.) CHAIRMAN LEWIS: That's just for the workshops. MR. CHESNEY: Yes, just for the workshops and then the second thing is I used to -- this was another suggestion, not mine, but I thought this was a good one. So back in the day, I used to get the check register with the agenda package and that way, I could kind of see what we're spending money it and I understand, we took it out, we don't need to rehash it that, but someone suggested, "Well, why don't I just have the invoices of what was paid that month"? MR. VEGA: That's fine. MR. CHESNEY: I mean, could we do that instead of the old check register? And that way, we can see the running fund balance, too, throughout the year. I think it has some advantage -- right now, I look at -- and granted, I look at it because I've been doing this a long time, but I look at it each year when I get the audit, but if we did it

on a monthly basis, I think that could help us, but I don't

| 23 "Oh, yeah," because a lot of people don't understand county 23 Motion to adjourn.   |   |
| 24 HOA, you know, those kinds of things. 24 MR. WIMSATT: Second.   |   |
| 25 CHAIRMAN LEWIS: Yeah, that's a good idea. 25 CHAIRMAN LEWIS: Seconded by Jim. A   | All in favor?   |
| Page 119   | Page 121  |
| 1 MR. CHESNEY: Yeah, so I don't know when you would 1 (All board members signify in th   | e affirmative.)   |
| 2 like to do that or if anyone would have additional input. I 2 CHAIRMAN LEWIS: Four to z  | ero.  |
| 3 don't want to hog it. 3 (Motion passes.)   |   |
| 4 CHAIRMAN LEWIS: 1 4 CHAIRMAN LEWIS: Thank yo   | ou guys.  |
| 5 MR. WIMSATT: I think it's good. 5 (At 6:30 p.m., all proceedings we  | ere concluded.)   |
| 6 CHAIRMAN LEWIS: I was going to make a motion to 6  |   |
| 7 approve that right now. 7  |   |
| 8 MR. WIMSATT: That's fine. I'll second it. 8  |   |
| 9 MR. CHESNEY: First and second.   |   |
| 10 CHAIRMAN LEWIS: Okay. You guys okay with that? 10   |   |
| 11 You want to think about it, Reggie or   |   |
| 12 (All board members signify in the affirmative.)   12   Matt Lewis, Chairman   |   |
| 13 MR. CHESNEY: You can vote against it. 13  |   |
| 14 MR. GILLIS: Since Greg did it, I should vote 14   |   |
| 15 against it. 15  |   |
| MR. CHESNEY: You should, yeah, I've done that to   |   |
| 17 him. See see, just just so you can see, Reggie and I  |   |
| 18 are friends and we disagree on things.  |   |
| 19 (Motion passes.)  |   |
| 20 MR. WIMSATT: Wait, wait, that's not possible.   |   |
| 21 CHAIRMAN LEWIS: All right. So we're all in 21   |   |
| 22 agreement with your with our mission statement. 22  |   |
| 23 MR. CHESNEY: Our mission statement. 23  |   |
| 24 MR. VEGA: So we'll put it on the website?   |   |
| 25 MR. CHESNEY: Yes. 25  |   |

#### Erin McCormick, Esq.

October 28, 2025

Westchase Community Development District Board of Supervisors c/o Mark Vega, District Manager 2005 Pan Am Circle, Suite 300 Tampa, Florida 33607

Re: Engagement Agreement

Dear Board Members,

Erin McCormick Law, PA ("Erin McCormick Law, PA" or the "Law Office") is pleased to accept the request of the Westchase Community Development District (the "**District**") for legal representation. In accordance with the Rules of Professional Conduct and the Law Office's procedures, this engagement agreement (the "Agreement") confirms the terms on which Erin McCormick Law, PA will provide legal services to the District in connection with representation on governmental matters and other matters as to which we accept your request for legal representation.

#### **Billing Matters**

I will be the attorney in the Law Office principally responsible for the District's matters. My current hourly rate for services performed for the District will be \$440.00. Billing rates and charges for the District may be revised annually, and applied to the District's account.

Erin McCormick Law, PA will provide a monthly statement with a brief description of each item of work. Monthly billings will also include expenses incurred in connection with each service matter. Expenses include items such as filing fees, travel costs, delivery/messenger services, photocopy, telephone and fax charges, and computerized legal research service charges. Disbursements in excess of \$250 will normally be forwarded to the District for direct payment. As is usually the case, disbursement charges may not be current at the time of each monthly billing and will be billed later. If you have questions concerning a billing statement, please call or email me. Payment of our statements is due upon receipt of our invoice.

The District's execution of this Agreement indicates its understanding of and agreement with the foregoing. The Law Office reserves the right to decline to continue to provide services to clients who do not comply with this Agreement. The District agrees that the Law Office may, at its election, and subject to withdrawal requirements as may apply, withdraw from this representation if the District fails to comply with the terms of this Agreement. The District agrees not to contest the Law Office's withdrawal from any court proceeding in such an event.

# Westchase CDD Board of Supervisors McCormick Law, PA

Engagement Letter October 28, 2025

Erin McCormick, Esq.

Page - 2 -

Upon withdrawal or termination of the representation, the Law Office will deliver the files to the District.

#### Scope of Representation

The District is our sole client with respect to this engagement. Individuals or entities that are affiliated with the District, such as Board members, officers, and employees, are not clients of Erin McCormick Law, PA, unless we otherwise agree in writing.

I will keep the District informed about the status of this representation. I may express my views about the prospects of the District's matters; however, these views are not a prediction or guarantee of the outcome and do not constitute a promise or assurance of success.

#### Public Communications

The Law Office may sometimes identify clients in various public communications including (but not limited to) press releases, the Law Office website and brochures used to describe the Law Office and its capabilities. We ask that your signature on this letter also acknowledge your consent to including the District's name in these communications.

#### **Document Procedures**

The Law Office's policy is to deliver to the client, upon request, all documents and property the client has provided the Law Office and documents and materials prepared as part of the representation. To the extent not inconsistent with Chapter 190, Florida Statutes, we may exclude our internal memoranda and records, attorney notes, drafts not intended for external distribution and similar lawyer working materials. We may also elect to retain a copy of other portions of the file at our expense. In accordance with the Law Office's records retention program, we will retain any files relating to the District's matters that it does not ask to have returned. In accordance with Chapter 190, Florida Statutes, and to the extent applicable, the Law Office will coordinate with the District's custodian of public records, to provide public records relating to the legal services provided to the District, upon completion of our engagement. To avoid indefinite storage, to the extent that such records are not retained by the custodian of public records, we reserve the right to dispose of any documents or other materials retained by us within a reasonable time after the completion of our engagement. Before disposing of any such documents or materials, we will offer the District an opportunity to obtain such documents or materials within a reasonable time frame.

#### Effective Date

This Agreement will govern all legal services performed by the Law Office on behalf of the District commencing with the date the Law Office first performed services. Even if this

Engagement Letter October 28, 2025

Agreement does not take effect, the District will be obligated to pay the Law Office the reasonable value of any services the Law Office may have performed for the District.

#### Assent

Please acknowledge your understanding and agreement regarding the terms of our engagement as described in this Agreement by signing one of the enclosed copies in the space provided below and returning it to me at: 3314 Henderson Boulevard, Suite 100D, Tampa, Florida 33609. The District should retain the second copy duplicate for its records.

I greatly appreciate your confidence in us, and look forward to continuing to work with the District.

Sincerely,

ERIN MCCORMICK LAW, PA

Erin R. McCormick

October 27, 2025

To Board of Supervisors Westchase Community Development District 2005 Pan Am Circle, Suite 300 Tampa, FL 33607

We are pleased to confirm our understanding of the services we are to provide Westchase Community Development District, Hillsborough County, Florida ("the District") for the fiscal year ended September 30, 2025. We will audit the financial statements of the governmental activities and each major fund, including the related notes to the financial statements, which collectively comprise the basic financial statements of Westchase Community Development District as of and for the fiscal year ended September 30, 2025. In addition, we will examine the District's compliance with the requirements of Section 218.415 Florida Statutes. This letter serves to renew our agreement and establish the terms and fee for the 2025 audit.

Accounting principles generally accepted in the United States of America provide for certain required supplementary information (RSI), such as management's discussion and analysis (MD&A), to supplement the District's basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the District's RSI in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We will not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The following RSI is required by generally accepted accounting principles and will be subjected to certain limited procedures, but will not be audited:

- 1) Management's Discussion and Analysis
- 2) Budgetary comparison schedule

The following other information accompanying the financial statements will not be subjected to the auditing procedures applied in our audit of the financial statements, and our auditor's report will not provide an opinion or any assurance on that information:

1) Compliance with FL Statute 218.39 (3) (c)

#### **Audit Objectives**

The objective of our audit is the expression of opinions as to whether your financial statements are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles and to report on the fairness of the supplementary information referred to in the second paragraph when considered in relation to the financial statements as a whole. Our audit will be conducted in accordance with auditing standards generally accepted in the United States of America and the standards for financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and will include tests of the accounting records of the District and other procedures we consider necessary to enable us to express such opinions. We will issue a written report upon completion of our audit of the District's financial statements. We cannot provide assurance that an unmodified opinion will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion or add emphasis-of-matter or other-matter paragraphs. If our opinion on the financial statements is other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed an opinion, we may decline to express an opinion or issue a report, or may withdraw from this engagement.

We will also provide a report (that does not include an opinion) on internal control related to the financial statements and compliance with the provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a material effect on the financial statements as required by *Government Auditing Standards*. The report on internal control and on compliance and other matters will include a paragraph that states (1) that the purpose of the report is solely to describe the scope of testing of internal control and compliance, and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control on compliance, and (2) that the report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. The paragraph will also state that the report is not suitable for any other purpose. If during our audit we become aware that the District is subject to an audit requirement that is not encompassed in the terms of this engagement, we will communicate to management and those charged with governance that an audit in accordance with U.S. generally accepted auditing standards and the standards for financial audits contained in *Government Auditing Standards* may not satisfy the relevant legal, regulatory, or contractual requirements.

#### **Examination Objective**

The objective of our examination is the expression of an opinion as to whether the District is in compliance with Florida Statute 218.415 in accordance with Rule 10.556(10) of the Auditor General of the State of Florida. Our examination will be conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and will include tests of your records and other procedures we consider necessary to enable us to express such an opinion. We will issue a written report upon completion of our examination of the District's compliance. The report will include a statement that the report is intended solely for the information and use of management, those charged with governance, and the Florida Auditor General, and is not intended to be and should not be used by anyone other than these specified parties. We cannot provide assurance that an unmodified opinion will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion or add emphasis-of-matter or other-matter paragraphs. If our opinion on the District's compliance is other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the examination or are unable to form or have not formed an opinion, we may decline to express an opinion or issue a report, or may withdraw from this engagement.

#### **Other Services**

We will assist in preparing the financial statements and related notes of the District in conformity with U.S. generally accepted accounting principles based on information provided by you. These nonaudit services do not constitute an audit under *Government Auditing Standards* and such services will not be conducted in accordance with *Government Auditing Standards*. The other services are limited to the financial statement services previously defined. We, in our sole professional judgment, reserve the right to refuse to perform any procedure or take any action that could be construed as assuming management responsibilities.

#### **Management Responsibilities**

Management is responsible for compliance with Florida Statute 218.415 and will provide us with the information required for the examination. The accuracy and completeness of such information is also management's responsibility. You agree to assume all management responsibilities relating to the financial statements and related notes and any other nonaudit services we provide. You will be required to acknowledge in the management representation letter our assistance with preparation of the financial statements and related notes and that you have reviewed and approved the financial statements and related notes prior to their issuance and have accepted responsibility for them. In addition, you will be required to make certain representations regarding compliance with Florida Statute 218.415 in the management representation letter. Further, you agree to oversee the nonaudit services by designating an individual, preferably from senior management, who possesses suitable skill, knowledge, or experience; evaluate the adequacy and results of those services; and accept responsibility for them.

Management is responsible for designing, implementing and maintaining effective internal controls, including evaluating and monitoring ongoing activities, to help ensure that appropriate goals and objectives are met; following laws and regulations; and ensuring that management and financial information is reliable and properly reported. Management is also responsible for implementing systems designed to achieve compliance with applicable laws, regulations, contracts, and grant agreements. You are also responsible for the selection and application of accounting principles, for the preparation and fair presentation of the financial statements and all accompanying information in conformity with U.S. generally accepted accounting principles, and for compliance with applicable laws and regulations and the provisions of contracts and grant agreements.

Management is also responsible for making all financial records and related information available to us and for the accuracy and completeness of that information. You are also responsible for providing us with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the financial statements, (2) additional information that we may request for the purpose of the audit, and (3) unrestricted access to persons within the government from whom we determine it necessary to obtain audit evidence.

Your responsibilities include adjusting the financial statements to correct material misstatements and for confirming to us in the written representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the government involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the government received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the government complies with applicable laws, regulations, contracts, agreements, and grants and for taking timely and appropriate steps to remedy fraud and noncompliance with provisions of laws, regulations, contracts or grant agreements, or abuse that we report.

Management is responsible for establishing and maintaining a process for tracking the status of audit findings and recommendations. Management is also responsible for identifying and providing report copies of previous financial audits, attestation engagements, performance audits or other studies related to the objectives discussed in the Audit Objectives section of this letter. This responsibility includes relaying to us corrective actions taken to address significant findings and recommendations resulting from those audits, attestation engagements, performance audits, or other studies. You are also responsible for providing management's views on our current findings, conclusions, and recommendations, as well as your planned corrective actions, for the report, and for the timing and format for providing that information.

With regard to the electronic dissemination of audited financial statements, including financial statements published electronically on your website, you understand that electronic sites are a means to distribute information and, therefore, we are not required to read the information contained in these sites or to consider the consistency of other information in the electronic site with the original document.

#### Audit Procedures—General

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We will plan and perform the audit to obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the government or to acts by management or employees acting on behalf of the government. Because the determination of abuse is subjective, *Government Auditing Standards* do not expect auditors to provide reasonable assurance of detecting abuse.

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because we will not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us, even though the audit is properly planned and performed in accordance with U.S. generally accepted auditing standards and *Government Auditing Standards*. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. Our responsibility as auditors is limited to the period covered by our audit and does not extend to later periods for which we are not engaged as auditors.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, and may include tests of the physical existence of inventories, and direct confirmation of receivables and certain other assets and liabilities by correspondence with selected individuals, funding sources, creditors, and financial institutions. We will request written representations from your attorneys as part of the engagement, and they may bill you for responding to this inquiry. At the conclusion of our audit, we will require certain written representations from you about your responsibilities for the financial statements; compliance with laws, regulations, contracts, and grant agreements; and other responsibilities required by generally accepted auditing standards.

#### Audit Procedures—Internal Control

Our audit will include obtaining an understanding of the government and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures. Tests of controls may be performed to test the effectiveness of certain controls that we consider relevant to preventing and detecting errors and fraud that are material to the financial statements and to preventing and detecting misstatements resulting from illegal acts and other noncompliance matters that have a direct and material effect on the financial statements. Our tests, if performed, will be less in scope than would be necessary to render an opinion on internal control and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to *Government Auditing Standards*.

An audit is not designed to provide assurance on internal control or to identify significant deficiencies or material weaknesses. However, during the audit, we will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards and *Government Auditing Standards*.

#### **Audit Procedures—Compliance**

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of the District's compliance with the provisions of applicable laws, regulations, contracts, agreements, and grants. However, the objective of our audit will not be to provide an opinion on overall compliance and we will not express such an opinion in our report on compliance issued pursuant to *Government Auditing Standards*.

#### Engagement Administration, Fees, and Other

We understand that your employees will prepare all confirmations we request and will locate any documents selected by us for testing.

The audit documentation for this engagement is the property of Grau & Associates and constitutes confidential information. However, subject to applicable laws and regulations, audit documentation and appropriate individuals will be made available upon request and in a timely manner to a cognizant or oversight agency or its designee, a federal agency providing direct or indirect funding, or the U.S. Government Accountability Office for purposes of a quality review of the audit, to resolve audit findings, or to carry out oversight responsibilities. We will notify you of any such request. If requested, access to such audit documentation will be provided under the supervision of Grau & Associates personnel. Furthermore, upon request, we may provide copies of selected audit documentation to the aforementioned parties. These parties may intend, or decide, to distribute the copies or information contained therein to others, including other governmental agencies. Notwithstanding the foregoing, the parties acknowledge that various documents reviewed or produced during the conduct of the audit may be public records under Florida law. The District agrees to notify Grau & Associates of any public record request it receives that involves audit documentation.

Our fee for these services will not exceed \$7,900 for the September 30, 2025 audit, unless there is a change in activity by the District which results in additional audit work or if additional Bonds are issued.

Grau & Associates and its subcontractors warrant compliance with all federal immigration laws and regulations that relate to their employees. Grau agrees and acknowledges that the District is a public employer subject to the E-Verify requirements as set forth in Section 448.095, Florida Statutes, and that the provisions of Section 448.095, Florida Statutes apply to this Agreement. If the District has a good faith belief that the Grau has knowingly hired, recruited or referred an alien who is not authorized to work by the immigration laws or the Attorney General of the United States for employment under this Agreement, the District shall terminate this Agreement. If the District has a good faith belief that a subcontractor performing work under this

Agreement knowingly hired, recruited or referred an alien who is not duly authorized to work by the immigration laws or the Attorney General of the United States for employment under this Agreement, the District shall promptly notify Grau and order Grau to immediately terminate the contract with the subcontractor. Grau shall be liable for any additional costs incurred by the District as a result of the termination of a contract based on Grau's failure to comply with E-Verify requirements evidenced herein.

We will complete the audit within prescribed statutory deadlines, with the understanding that your employees will provide information needed to perform the audit on a timely basis.

The audit documentation for this engagement will be retained for a minimum of five years after the report release date. If we are aware that a federal awarding agency or auditee is contesting an audit finding, we will contact the party(ies) contesting the audit finding for guidance prior to destroying the audit documentation.

Our invoices for these fees will be rendered each month as work progresses and are payable on presentation. Invoices will be submitted in sufficient detail to demonstrate compliance with the terms of this agreement. In accordance with our firm policies, work may be suspended if your account becomes 60 days or more overdue and may not be resumed until your account is paid in full. If we elect to terminate our services for nonpayment, our engagement will be deemed to have been completed upon written notification of termination, even if we have not completed our report. You will be obligated to compensate us for all time expended and to reimburse us for all out-of-pocket costs through the date of termination. The above fee is based on anticipated cooperation from your personnel and the assumption that unexpected circumstances will not be encountered during the audit. If significant additional time is necessary, we will discuss it with you and arrive at a new fee estimate.

This agreement may be renewed each year thereafter subject to the mutual agreement by both parties to all terms and fees. The fee for each annual renewal will be agreed upon separately.

The District has the option to terminate this agreement with or without cause by providing thirty (30) days written notice of termination to Grau & Associates. Upon any termination of this agreement, Grau & Associates shall be entitled to payment of all work and/or services rendered up until the effective termination of this agreement, subject to whatever claims or off-sets the District may have against Grau & Associates.

We will provide you with a copy of our most recent external peer review report and any letter of comment, and any subsequent peer review reports and letters of comment received during the period of the contract. Our 2022 peer review report accompanies this letter.

We appreciate the opportunity to be of service to Westchase Community Development District and believe this letter accurately summarizes the significant terms of our engagement. If you have any questions, please let us know. If you agree with the terms of our engagement as described in this letter, please sign the enclosed copy and return it to us.

Very truly yours,

Grau & Associates

Antonio J. Grau

# RESPONSE:

This letter correctly sets forth the understanding of Westchase Community Development District.

Dear Antonio Grau:

It is my pleasure to notify you that on March 16, 2023, the Florida Peer Review Committee accepted the report on the most recent System Review of your firm. The due date for your next review is December 31, 2025. This is the date by which all review documents should be completed and submitted to the administering entity.

As you know, the report had a peer review rating of pass. The Committee asked me to convey its congratulations to the firm.

Thank you for your cooperation.

Sincerely,

FICPA Peer Review Committee

Re: Legislative Report – Committee Week Ending October 17

# Perez Unveils Sweeping Property Tax Proposals for 2026 Ballot

House Speaker Daniel Perez, R-Miami, announced a broad slate of property tax reform measures filed this week that could allow voters to reshape how property taxes are levied across the state. In a memo to House members on Thursday, Perez said the proposals stem from the work of the House Select Committee on Property Taxes and reflect an effort to let Florida voters "be a part of the conversation about the taxes they pay." Eight Republican lawmakers filed seven Joint Resolutions to be placed on the 2026 ballot, and one accompanying general bill. "It is our position that the House does not need to limit itself in presenting one single plan but instead allow the people of Florida the ability to choose some, all, or none of the proposals on the 2026 Ballot," Perez wrote. The proposals range from eliminating non-school property taxes on homesteads to expanded exemptions and portability reforms. Perez emphasized that each plan includes two guardrails: a ban on reducing law enforcement funding and an exemption for school taxes, which comprise about 46% of school funding, or \$21 billion statewide. Perez also said the resolutions will not have accompanying implementation bills until voters decide which measures to approve, adding that lawmakers "can devise an appropriate statutory framework that accounts for how the various provisions might work together."

Among the categorical eliminations is a measure (HJR 201) by Rep. Kevin Steele that would eliminate non-school property taxes on primary residences, a bill (HJR 203) by Rep. Monique Miller that would phase out such taxes over 10 years by increasing the exemption to an additional \$100,000 annually, and a proposal (HJR 205) by Rep. Juan Carlos Porras that would exempt Florida residents over age 65 from paying non-school property taxes. Additional exemption proposals include legislation (HJR 207) by Rep. Shane Abbott that would create a new 25% homestead exemption for non-school property taxes, which aims to benefit both current and first-time homeowners, and a measure (HJR 209) by Rep. Demi Busatta that would give homeowners with property insurance an additional \$100,000 exemption by establishing a new property insurance relief homestead tax exemption. Several other proposals seek to reform existing tax structures, including HJR 211 by Rep. Toby Overdorf, which would remove the cap on the "Save Our Homes" portability by

allowing homeowners to transfer their entire accumulated benefit to a lower-valued home, and HJR 213 by Rep. Griff Griffitts, which would limit assessed-value growth to 3% over three years for homestead properties — down from 3% per year — and 15% over three years for non-homestead properties, down from 10% per year. Additionally, a general bill (HB 215) filed by Rep. Jon Albert would require a two-thirds vote to raise local millage rates and allow newly married couples to combine their "Save Our Homes" benefits, among other things.

The wide-ranging tax overhaul comes after Gov. Ron DeSantis has made property tax relief a priority. Florida requires a constitutional amendment to decrease or increase property taxes because the state's constitution sets the tax structure and caps. Joint resolutions need supermajority approval in both chambers before being eligible for the ballot. Subsequently, at least 60% of Florida voters must approve each constitutional amendment in the 2026 general election to ratify it.

# Republicans Select Jim Boyd as Next Senate President

Senate Republicans on Tuesday formally chose Sen. Jim Boyd, R-Bradenton, as the next president of the Florida Senate. Boyd, a veteran legislator and head of an insurance and investment firm, currently serves as Senate majority leader and will succeed Senate President Ben Albritton, R-Wauchula, following the November 2026 elections. The move comes a week after House Republicans designated Rep. Sam Garrison, R-Fleming Island, to take over as House speaker after next year's elections, succeeding House Speaker Rep. Daniel Perez, R-Miami. The move sets the stage for the next generation of GOP leadership in the Legislature so long as both chambers maintain a Republican majority in the general election.

# **Grand Jury Hears from Andrade in Hope Fla Probe**

A grand jury in Tallahassee met for two hours with state Rep. Alex Andrade, a Pensacola Republican who has led an effort to investigate allegations of financial fraud by private social services organization Hope Florida. Andrade confirmed he met with the grand jury on Tuesday but said he couldn't disclose what was asked or what he said. Andrade has alleged publicly in the past that two nonprofits were used by the DeSantis administration to illegally divert \$10 million from a \$67 million Medicaid settlement the state negotiated with a health care contractor to be used in a political campaign to defeat proposed constitutional amendments.

## State Moves to Clarify Voting Eligibility for Former Felons

The state will now provide clear and timely information about whether former felons have met financial obligations needed to regain their eligibility to vote after a constitutional amendment and years of confusion. The change follows negotiations between the state and the Florida Rights Restoration Coalition, which dropped a 2023 lawsuit against the

DeSantis administration after alleging that Florida had created "such a bureaucratic system around the implementation of Amendment 4" that it effectively blocked many citizens from voting. Approved by more than 65% of voters in 2018, Amendment 4 was meant to automatically restore voting rights to most people who completed their sentences. But a 2019 law (SB 7066) required them to pay all fines, fees, and restitution before becoming eligible — an issue that led to confusion and high-profile arrests in 2022 when several ex-felons were charged with voter fraud after registering with state-issued cards. Under the new process, people unsure of their eligibility can now submit a standardized form to the Department of State, which must confirm within 14 days whether the form is complete and issue an advisory opinion within 90 days. The department will determine if the applicant is eligible to register, ineligible, or if there is insufficient information, meaning "nothing precludes you from registering and voting," according to the newly finalized rule. FRRC President Desmond Meade said the new system is "a great first step" toward transparency and fairness, removing confusion that has led to wrongful prosecutions but emphasized that the form should be more accessible and available online. Democratic lawmakers have pushed for a centralized database tracking financial obligations over the past several years, with bills filed in 2024 (HB 1525, SB 904) and again for the upcoming 2026 session (HB 73, SB 132).
