2013-14 Tentative Budget

The *Illinois School Code* requires a public school to adopt its annual budget prior to the end of the first quarter of the fiscal year (*September 30th*). By satisfying this legal requirement, a school district may than expend funds and levy taxes. However, more importantly, the budget tells a story of the services and opportunities that are available to the students of District 64.

The 2013-14 budget is one of controlled growth, which continues to fulfill referendum initiatives and provides for the implementation of the fourth year of activities scheduled under the District's strategic plan and other District-wide priorities. The 2013-14 budget also accommodates the facility master plan and the 2013 summer capital projects at Carpenter, Field, Franklin and Lincoln.

This budget update now represents the actual revenues and expenditures as of June 28.

It should be noted that both the revenue and expenditure budgets will continue to be modified based on current information until the budget is adopted in its final form.

If you have questions prior to the Board meeting on July 8, please feel free to contact me in advance to clarify any of the information presented.

Executive Summary

Investments in Student Learning 2013-14

District 64 will enter the fourth year of implementation of its Strategic Plan, "Journey of Excellence" in 2013-14. The five strategies include accelerating the use of advanced technology; building a model for personal student goals; collaboration with our partnership; expectations for student learning and instructional practices; and providing support and tools for change.

In 2013-14, Strategic Plan implementation activities will continue to be embedded within the District's overall initiatives:

- The main priority for all staff will be the implementation of Priority Standards (developed through the Strategic Plan) /Common Core State Standards (CCSS) with technology integrated into the instruction of these standards, and the professional development needed to support this work. Now in their second year, seven instructional technology coaches will continue to provide jobembedded coaching to teachers in 2013-14.
- Work on the other Strategic Plan strategies also will move forward through specific committees.

In conjunction with the new Priority Standards/ Common Core State Standards for Mathematics (CCSSM), new mathematics curriculum materials have been adopted for grades K-8 based on recommendations from the Math Curriculum Review Committee as presented in spring 2013. A combination of online resources, consumable student "guides," and print textbooks will be utilized to support the delivery of high quality math instruction aligned with the CCSSM to all District 64 students.

A comprehensive professional development plan has been designed to support not only the implementation of the new math resources, but also the instructional shifts required to successfully implement the CCSSM. While the newly adopted mathematics materials will provide teachers with a critical resource to support student learning, teachers need continued opportunities to design rigorous instructional activities. In addition to planned, year-long professional development opportunities, representatives from grade-level teams will convene this summer and during the school year to design additional learning experiences that support the CCSSM. Through this curriculum writing project, rich performance tasks will be identified from a number of resources and shared with all staff.

In the area of English Language Arts, half-day release time for teachers will be provided for professional development on writing, literature, and informational text to continue implementation of 21st century learning skills.

Curriculum writing funds will also support Middle School science teachers with aligning instruction to the newly released Next Generation Science Standards.

New materials are being evaluated for the current curriculum of the Transitional Program of Instruction (TPI) serving English language learners in all grades. New materials based on student need will be phased in over a two-year period.

For our Response to Intervention (RtI) efforts, District 64 will continue to explore simple, computer-based tools like STAR Reading and Math for measuring our students' responses to instruction. In addition, we will provide teachers serving on building-based Response to Intervention teams with release time to plan and implement building-based professional development related to RtI.

The District will continue to invest in technology to maintain, refresh, and provide additional resources for student learning. Guided by recommendations from the Board Advanced Technology Committee in spring 2013, the District will provide additional resources for each building and students to support the Strategic Plan goal of accelerating the use of advanced technology.

- Additional SmartBoards will be added throughout the District as we continue
 this initiative, which began four years ago. If approved, all classrooms in grades
 K-5 will have access to the SmartBoard technology, as well as all math
 classrooms in grades 6-8 to support the new math resources.
- Chromebooks will be purchased to introduce our students and teachers to these
 devices. The focus for 2013-14 will be exploration and exposure as students and
 teachers become familiar with the device and learn ways of integrating this
 technology into the curriculum.
- Additional iPads will be purchased to increase the number of devices available to students, with a goal of achieving a 1:4 ratio for grades K-2. iPads will continue to be available to support teaching and learning at all grade levels.

- The technology budget will also include funds to support and monitor a robust infrastructure to provide for a reliable network for student learning.
- The District is maintaining an array of on-line subscriptions that are used to support student learning. All of our core textbooks have online resources associated with them for both student and teacher use. Additional supplemental resources such as *Study Island* and *Raz Kids* provide students dynamic and differentiated opportunities to practice instructional skills during school hours as well as at home. Digital media tools such as *CCC Video Streaming* and *World Book Online* provide teachers and students with current resources connected to their curricular studies.

In accordance with the Strategic Plan parameter to always maintain safe, supportive learning environments, the District will continue to invest in facilities in the following ways for summer 2013:

- At Carpenter School, phase 2 of a two-year mechanical upgrade project will be completed with the installation of a new heating plant to replace the original boilers. Air conditioning also will be completed, which will allow for better humidity and even temperature control throughout the school.
- At Lincoln Middle School, mechanical upgrades will include the installation of newer, more efficient boilers for heating.
- At Franklin School, a mechanical upgrades project will include replacing boilers along with making system improvements in the school's heating and air conditioning. The drinking water pipe system also will be replaced.
- At Field School, air conditioning will be added to the north gym.
- To continually refresh the learning environment, the District will replace classroom desks/chairs, and re-paint and -carpet selected areas in several schools.

In addition, a Facility Master Plan was initiated in 2011-12 to provide comprehensive data about the interior and exterior conditions at all District 64 schools and the central office. Several studies needed to complete the plan were deferred in 2012-13. *Pending Board approval*, an educational adequacy study that compares curriculum needs with facilities will be undertaken in 2013-14.

^{**}Fund Balance Policy: The District's operating fund balances shall end each fiscal year with four (4) months of operating expenditures for the fiscal year ended. Expenses shall be measured against a cumulative total operating funds that include: education, operations and maintenance, transportation Illinois municipal retirement and working cash.

Highlights of the 2013-14 Operating Fund Budget

REVENUES

As page 5 indicates the Operating Funds (Educational, Tort Immunity, Operations & Maintenance, Transportation, Retirement, and Working Cash) shows a budgeted surplus of \$2,106,344.

When you factor in the Capital Projects Fund, the budget deficit is \$2,965,042. The budgeted surplus turns into a budgeted deficit because the Capital Projects Fund is drawing down its June 30, 2013 fund balance.

Real Estate Property Taxes:

Real estate property taxes are the largest source of revenue for District 64.

Since 1994, schools in Cook County have been subject to the Property Tax Extension Limitation Law (PTELL) or as it is commonly referred to as the "tax cap formula". Unfortunately, the tax cap formula does not take into account changes in a school district's budgetary needs, but limits the increase in taxes to the lesser of 5% or the rate of inflation as measured by the Consumer Price Index (CPI-U) issued by the Department of Labor. In addition, the tax cap formula allows for an increase above the CPI-U for new construction.

| Tax Year | CPI-U (Tax year previous December) |
|-------------|--|
| 2006 | 3.4 |
| 2007 | 2.5 |
| 2008 | 4.1 |
| 2009 | 0.1 |
| 2010 | 2.7 |
| 2011 | 1.5 |
| 2012 | 3.0 |
| 2013 | 1.7 |

The following chart demonstrates that the 2011 tax collections are pacing at the same level of tax collections in prior years.

| Tax Year | % of Tax Collections |
|-------------|----------------------|
| 2004 | 98.0% |
| 2005 | 98.3% |
| 2006 | 98.6% |
| 2007 | 97.6% |
| 2008 | 98.1% |
| 2009 | 98.4% |
| 2010 | 99.2% |
| 2011 | 98.6% |

<u>Corporate Personal Property Replacement Taxes (CPPRT)</u>:

Funds that have personal property replacement taxes as a revenue source are the educational and the municipal retirement/social security fund. CPPRT is driven by the health of the state's economy. The following table identifies the most recent collections of CPPRT:

| Fiscal Year | CPPRT |
|-------------|-------------|
| 2007-08 | \$1,327,617 |
| 2008-09 | \$1,163,859 |
| 2009-10 | \$926,354 |
| 2010-11 | \$1,192,124 |
| 2011-12 | \$1,051,421 |
| 2012-13 | \$1,112,831 |

Several years ago, during the State budget process, the Governor transferred CPPRT funds to pay for the Regional Offices of Education, which is the reason public schools have seen the loss of CPPRT funds since 2010-11.

Other Local Revenue:

Other local revenue includes summer school tuitions, Jefferson pre-school tuition for community students, investment income, all student fees, milk and lunch fees, Jefferson Extended Day-Care fees, Park Ridge TIF payment, Before-school fees and other miscellaneous revenues.

The Park District Before and After School Program at Roosevelt will result in a reduction in both Jefferson after school care and the District before school program fees. Actual participation in these programs will ultimately determine revenue, but currently, the reduction is estimated at \$87,357.

A one-time Low Incidence Cooperative Agreement (LICA) dissolution payment will be eliminated (\$34,776) and the Maine Township Special Education Program (MTSEP) dissolution payment will be reduced from \$439,600 to \$259,364.

The Uptown Tax Increment Financing (TIF) revenue is currently being projected at the same level as 2012-13.

State Revenue:

The General State Aid (GSA) formula is designed to ensure that all students in Illinois have access to educational services valued at a basic "foundation level." The GSA formula factors a local school district's wealth (Equalized Assessed Valuation per student) and then categorizes each Illinois school district into one of three classifications:

| GSA Classification | Number of Schools in Illinois |
|--------------------|-------------------------------|
| | Per Classification |
| Foundation Formula | 620 Schools (71.9%) |
| Alternate Formula | 170 Schools (19.7%) |
| Flat Grant | 72 Schools (8.4%) |

The 2012-13 foundation level was \$6,619; Illinois State Board of Education (ISBE) prorated this amount by 89%. District 64 is an alternate formula district and receives approximately \$385 per student (based on the prior year's average daily attendance). The state is once again discussing the proration of this amount; currently it is projected to be reduced by \$76,414. The actual GSA for the 2013-14 school year will be known in August 2013.

The State's cash-flow continues to create problems for local schools. Currently the State is one (June) categorical payment behind. These revenues are due and payable.

Federal Revenue:

The Educational Fund currently receives the following federal revenues: Special Milk, IDEA, Title II Teacher Quality, and Medicaid.

EXPENSES

Expenses have not been modified for this version (Draft #2) of the budget document.

Currently, 2013-14 salaries are expected to increase by \$3,108,323 or 7.0% from the prior year budget which is aligned with collective bargaining agreements negotiated during the 2012-13 school year. In addition, the increase accommodates seven certified teachers for enrollment changes, the addition of one support staff to support the implementation of Senate Bill 7, and the reduction of the purchasing coordinator's position due to retirement.

The benefit area is expected to increase by \$708,410 or 8.4%. The PPO health insurance plans will increase by 7.8% and the HMO health insurance plan will increase by 0.2%. Within the benefit section, there are reductions in retirement incentives.

Purchased Services are anticipated to increase by \$862,880 or 15.7%. The Educational Fund will see a 14.1% increase, the Operations and Maintenance Fund will see a 2.9% increase and the Capital Project Fund will realize an increase in architect and other engineering fees of 147.47%.

Supplies are anticipated to increase by \$478,037 or 19.3%.

Capital equipment and capital improvements are projected to increase by \$2,892,253 or 116.5%. The Educational Fund capital outlay is projected to increase by \$336,349 and includes the first year recommendation from the Board Advanced Technology Committee (BATC). The Operations and Maintenance Fund is expected to increase by \$434,744 and is intended to allow for small maintenance projects throughout the school year (this line will be reduced by \$200,000 in future budget drafts). The Capital Project fund is expected to increase by \$2,121,160 with summer projects at Carpenter, Lincoln, Field and Franklin.

The other expense area includes membership dues, other miscellaneous fees and tuitions to other schools and private placements for the District's special needs students. This area is expected to increase by \$290,856 when the inter-fund transfer is not considered.

ALL FUND BUDGET DRIVERS

The following analysis provides notes to the detailed tables of revenues (Tab 1) and expenditures (Tab 2) by objects. Comparison percentages are measured against the 2012-13 budget until fiscal year end. The tentative budget will be adjusted at the close of the fiscal year to reflect a comparison against the unaudited actuals.

Educational Fund (10)

Purpose: The most varied and the largest volume of transactions will be recorded in the Educational Fund. This is due mostly because the Educational Fund covers transactions that are not specifically covered in another fund. Certain expenditures that must be charged to this fund include the direct costs of instruction, health and attendance services, lunch programs, all costs of administration and related insurance costs. Certain other revenues that must be credited to this fund include educational tax levies, tuition and textbook rentals.

Revenue Review

- Total Educational Fund revenues are anticipated to increase by \$2,495,732 or 4.5%.
- Property taxes have the greatest impact on the variance and are expected to increase by 2,991,295 or 6.6%. As previously mentioned, property taxes are restricted by the tax cap legislation.
- Corporate Personal Property Replacement Taxes (CPPRT) are expected to remain at the 2012-13 collection rate.
- The before school program fees were increased by Board action on March 18.
- All other student fees are anticipated to remain at the 2012-13 level.
- The decrease in other local income is estimated at \$299,789 or 7.6%. This reduction is caused by a one-time LICA dissolution payment that will be eliminated (\$34,776) and the MTSEP dissolution payment being reduced from \$439,600 to \$259,364.
- General State Aid (GSA) is estimated to decline by \$76,414 because of the State prorating District allocations. The budget for GSA will be amended in August once the claim has been filed with ISBE.
- Other state revenue will decline by \$94,914 or 4.5% because of the State's failure to fund programs previously funded. The budget in this area will be adjusted once final allocations from ISBE are known.
- Federal revenues are estimated to decrease by \$26,812 or 2.0% because of the Federal government own budget problems. The budget in this area will be amended once final allocations are known.

• Consistent with past practice an interest transfer totaling \$186,900 is budgeted from the debt service and the working cash funds.

Expenditure Review

• Salary:

The salary area is the largest category in the Educational Fund budget. The salary line accounts for 77.8% (\$44,831,858) of the total Educational Fund budget. The salary category is estimated to increase by \$3,016,761 or 7.2% over the previous year's June 30 actual expenditures.

Teacher salaries account for 52.2% of the Education Fund budget: the following chart provides a reconciliation of the teacher salary category.

| Description | Dollars |
|--|--------------|
| 2012-13 PREA Scattergram Cost | \$30,659,523 |
| Cost of step movement | \$322,218 |
| Change in Staffing: | \$385,000 |
| Reduction of 5.0 FTE at elementary | |
| Increase 2.0 FTE at middle school | |
| Increase 7.0 for class section variation | |
| Longevity | \$220,164 |
| Overloads | \$25,000 |
| Total of (1200) teacher budget line | \$33,048,299 |

This area will be modified prior to adoption of the final budget based on replacement salaries of those retiring or hired for enrollment variations.

Benefits:

The benefit area is the second largest category of the Educational Fund budget. The benefit line item accounts for 10.8% of the total education fund budget and is anticipated to increase by 7.9% or \$454,809. The following contributes to the increase in this area:

| Description | Dollars |
|-----------------------------------|-------------|
| PPO insurance | \$626,323 |
| HMO insurance | \$966 |
| Dental insurance | \$32,977 |
| Health Insurance waiver | (\$10,660) |
| Life Insurance | (\$1,925) |
| TRS – Federal salaries | \$2,018 |
| TRS Early Retirement Option (ERO) | \$122,333 |
| TRS Retirement Penalty | (\$27,451) |
| Retirement Incentive | (\$398,284) |
| Retirement Sick Leave | (\$32,956) |
| Retirement Health Insurance | \$37,043 |

• Purchased Services, Supplies and Capital Outlay:

The areas of purchased services, supplies and capital outlay account for 7.8% of the total Educational Fund budget and are expected to increase by approximately \$919,071. This increase accommodates the first year infrastructure BATC recommendation.

Purchased services pay for staff development, the food service contract, and legal fees.

Supplies and capital outlay provide the needed resources for student learning.

Other Objects

The other object category accounts for 3.6% of the total Educational Fund budget and is expected to increase by \$290,856 (when the inter-fund transfer is not considered). The major expenditure (\$1,950,000) in this category is special education tuition.

Operations & Maintenance Fund (20)

Purpose: All costs of maintaining, improving, or repairing school buildings and property, renting buildings and property for school purposes, or for the payment of premiums for insurance on school buildings are charged to the Operations and Maintenance Fund and paid from the tax levied for that purpose.

Revenue Review

- The anticipated decrease in revenues is \$339,783 or 3.9%. Property taxes have the greatest impact on the variance, and, as previously mentioned, are restricted by the tax cap legislation.
- The reduction of revenue is driven by the elimination of state and federal funds for construction and/or maintenance projects received the preceding year for FAA sound abatement improvements.

Expenditure Review

Salary

Salaries are anticipated to increase by \$90,940 or 3.5%.

Benefits

The increase for employee benefits is driven by the increased rates for health insurance.

Purchased Services

In addition to architect and other engineering fees, the purchased service area covers the following types of expenses: repair and maintenance of equipment, telephones, water fees and crossing guards.

Supplies

The supply area covers the following types of expenses: gasoline for District vehicles, natural gas, electricity, and custodial and maintenance supplies.

Capital Outlay

The capital outlay area covers the expenses for equipment and furniture.

Other Expense

The other object category covers the transfer of funds to the Capital Project Fund.

For a fair comparison of the ongoing expenses in the Operations & Maintenance Fund the following analysis is net of capital outlay (construction):

| | 2012-13 | 2013-14 | % |
|--|---------------------|------------------|----------|
| | Actual Expenditures | Tentative Budget | Increase |
| Total Budget | \$8,751,915 | \$5,982,372 | -31.6% |
| Less: Building Improvement | (\$279,056) | (\$713,800) | 155.8% |
| Less: Architect, Construction Manager and other Engineering Fees | (\$92,403) | (\$300,000) | 224.7% |
| Less: Transfer to Capital Projects | (\$3,500,000) | | |
| Net Operations & Maintenance Budget | \$4,880,456 | \$4,968,572 | 1.8% |

Debt Service Fund (30)

Purpose: Bonds are generally issued to finance the construction of buildings, but may also be issued for other purposes. Taxes are levied to provide cash to retire these bonds and to pay related interest. To protect the bondholders, these tax collections must be accounted for in the Debt Service Fund and maintained in separate bond and interest accounts for each bond issue.

Revenue Review

The levy in this fund has been increased to correspond to the debt repayment schedule. All District 64's current obligations will be retired with a final payment in fiscal year 2016-17.

Expenditure Review

The expenditures from the Debt Service Fund are for the principal and interest on outstanding debt.

Consistent with past practice, an interest transfer of \$11,600 to the Educational Fund is budgeted.

Transportation Fund (40)

Purpose: Costs of transportation, including the purchase of vehicles and insurance on buses, are to be paid from this fund. Moneys received for transportation purposes from any source must be deposited into this fund.

Revenue Review

- Revenues are anticipated to decline by 10.5% or \$194,797. Property taxes have the greatest impact on the variance, and, as previously mentioned, are restricted by the tax cap legislation.
- The state transportation reimbursement claim has two separate reimbursement formulas, one for regular education and one for special education transportation. Governor Quinn's budget eliminates regular transportation as a funding source.

Expenditure Review

The expenditure budget is expected to increase by 0.4% or \$5,853.

Municipal Retirement / Social Security Fund (50)

Purpose: This fund is created if a separate tax is levied for the school district's share of municipal retirement / social security benefits for covered employees or a separate tax is levied for the purpose of providing resources for the District's share of Social Security and/or Medicare only payments for covered employees. If any of these taxes are not levied, payments for such purposes shall be charged to the fund where the salaries are charged.

Revenue Review

 Revenues are anticipated to decrease by 7.3% or \$132,325. Revenue types include: property taxes, CPPRT and interest income. Property taxes are expected to decrease.

Expenditure Review

- The Medicare portion of the Social Security rate is charged to all certified staff.
- Illinois Municipal Retirement Fund (IMRF) and Social Security are charged to all support staff.
- The IMRF rate includes a "catch-up" factor for the loss of investment income over the last several years.

Capital Projects Fund (60)

Purpose: If a capital improvement tax is levied in accordance with Section 17-2.3 of the Illinois School Code (105 ILCS 5/17-2.3). The moneys received from such levy shall be accumulated until spent for the capital improvements described in the resolution and on the ballot, per Section 17-2.3.

Revenue Review

• Interest income is the only source of revenue.

Expenditure Review

Expenditures which would ordinarily be charged to the Operations and
Maintenance Fund, but are required to be charged to the Capital Projects Fund,
include the actual construction costs, builder's risk insurance, purchase of land and
other site costs, landscaping, parking lots, sidewalks, utility connections, etc., and
other items directly related to the construction project.

Working Cash Fund (70)

Purpose: If a separate tax is levied for working cash purposes or if bonds are sold for this purpose, this fund shall be created. Cash available in this fund may be loaned to any fund for which taxes are levied.

Revenue Review

• Revenues in the working cash fund are expected to decrease by \$57,571 or 9.3%.

Expenditure Review

• Consistent with past practice, an interest transfer of \$240,100 to the Educational Fund is budgeted.

Tort Immunity Fund (80)

Purpose: This fund is created if taxes are levied or bonds are sold for tort immunity or tort judgment purposes. The Tort Immunity Fund provides for the risk management activities of the District. Insurance policies such as workers compensation, property casualty, and school board legal liability are the major expenditures of this fund.

Revenue Review

• Revenues in the Tort Immunity Fund are expected to decrease by \$58,254 or 8.9%. The main revenue source is property taxes.

Expenditure Review

• The tentative budget will increase by \$217,540 or 35.4%. \$150,000 of the increase is being driven by projected security improvements in all District 64 buildings.

FUND BALANCE POLICY

As stated in Board Policy 4:20: The District's operating fund balances shall end each fiscal year with four (4) months of operating expenditures for the fiscal year then ended. Expenses shall be measured against a cumulative total of operating funds that include: educational, operations and maintenance, transportation, Illinois municipal retirement/social security and working cash.

The tentative budget projects an operating fund balance of 59.8% as of June 30, 2014 or almost \$44.2 million.

Other Financial Indicators

Illinois State Board of Education Financial Profile

The goal of the financial profile is to objectively assess the financial health of all school districts in order for the public to gain a better understanding of where their schools rank in comparison to others. This is done through a process of benchmarking five indicators for school districts. The highest ranking given by the state board is "4.0 Recognition". Park Ridge-Niles District 64 was awarded this highest designation in the spring of 2013 for the fourth consecutive year.

| | ISBE | ISBE |
|----------------|----------------------------------|-------------------------|
| Fiscal Year | Financial Profile Designation | Financial Profile Score |
| 2012 | Financial Recognition | 4.00 |

| 2007 | Financial Recognition | 3.55 |
| 2006 | Financial Review | 3.45 |
| 2005 | Financial Early Warning | 2.75 |

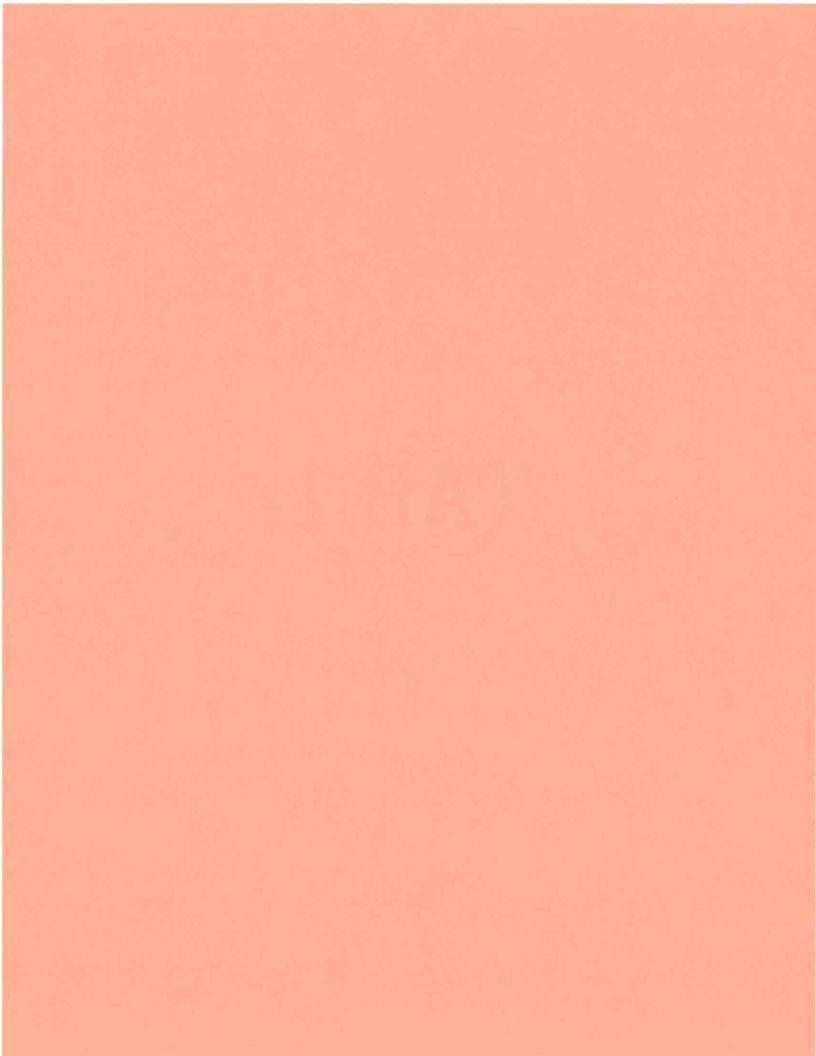

Rating Services

- Standard & Poor's (S&P) long-term bond rating was affirmed as AA/Stable (January 2012).
- Moody's has moved to the Global Rating System, meaning that they are now rating
 issuers on the likelihood of default, not their more stringent municipal rating. As of
 August 2011, Moody's reaffirmed District 64's rating of "Aa2" with a positive
 outlook.

Financial Projection

Will Be Adjusted in September 2013
