AUGUST 27TH - NOVEMBER 2ND

ARTS & CRAFTS Mondays: Starts August 27th

Does your child love the experience of creating something he or she can use, or making a work of art for others to enjoy? In Arts & Crafts Club we teach young Apollo students many techniques to turn their ideas into reality. Our staff will help club members use their creativity and imagination to make gifts, decorations, or objects for their own practical use.

WORLD EXPLORERS Tuesdays: Starts August 28th

We teach our students about mysterious rainforests, towering mountains, sweltering volcanoes, exotic cultures, and many other wonders this amazing planet has to offer. We will teach children travel tips and the great explorers whose daring gave us the maps and charts we use today.

APOLLO BRICKS Wednesdays: Starts August 29th

Everybody likes to build! Creating new objects has always been at the core of human existence, and is one of the most rewarding and fulfilling activities for the old as well as the young. In our club, children will learn many basic building techniques and will be encouraged to put their imaginations and hands to work to make their ideas turn into reality.

SCIENCE CLUB Thursdays: Starts August 30th

We help students learn how to ask the questions that are the beginning of all scientific discoveries, how to make hypotheses, and of course the fun part – testing them safely to see how they work. Through our hands-on exciting curriculum, we will help your child become more curious and have a deeper understanding about how the world works.

STORYTELLING CLUB Fridays: Starts August 31st

While it may seem like everywhere your child turns there is a touch-screen calling to them, there is still nothing that opens the world of imagination and possibility like a good book. By reading both quietly and out loud, Book Club students will greatly improve their ability to determine meaning from the written word along with public speaking skills and listening skills. Watch your child discover more about their world through a book - great readers often become great thinkers!

APOLLO ENRICHMENT ACTIVITIES

OUR APPROACH

The Apollo After School program develops skills and interests that will help children succeed both in and out of school.

Our clubs create a fun and healthy learning environment for our students through a mix of physical, intellectual, and social activities.
