

# Summer Enrichment University

## Mannheim District 83

Our passions and interests enrich all our lives. This summer, Mannheim District 83 would like to provide enrichment opportunities for our Gr. 5, 6, & 7 students during the week of June 11-15, 2018.

Mannheim District 83 will be applying for a one-time only State sponsored grant to provide summer enrichment opportunities for our Gr. 5-7 students. The program will be held at MMS. Are you excited about coding, graphic design, hands-on science experiences, anime, etc.? Let your passions enrich and excite our students by planning and teaching a summer enrichment course!

The program will run from 9:00 a.m. to Noon each day. Your schedule will include teaching your course twice each day with two identical sessions that will last approximately 1 hour and 20 minutes. Students will therefore have the opportunity to explore two strands during the week. During the transition time between courses, students will be provided a snack.

We are looking to have class sizes from 10 – 20 students with one to two teachers planning and preparing each session. Teachers will be compensated at our extra duty rate, be provided a \$100 planning stipend, and will also have up to \$250 to purchase materials for their course. Any Mannheim District 83 teacher can propose a course to teach to our Gr. 5-7 students.

Please complete the attached form and return it to Mrs. Petrsek by March 16, 2018 if you are interested in providing an enrichment course for this summer's Student Enrichment University. This will allow us to plan and budget for the grant proposal to ISBE.
