Chromebook Policy, Procedures, and Information
2019-2020

The focus of the District Technology Initiative at Elmwood Park CUSD 401 is to provide tools and resources for the 21st century learner. Excellence in education requires that technology is seamlessly integrated throughout the educational curricula. Increasing access to technology is essential to build upon college and career readiness skills. The individual use of Chromebooks is a way to empower students to maximize their full potential and to prepare them for college and the workplace.

The policies, procedures, and information within this document apply to all Chromebooks and other technological devices used at Elmwood Park CUSD 401 considered by the Administration to come under this policy. Students and their parents/guardians are reminded that use of technology is a privilege and not a right and that everything done on any device, network, or electronic communication device may be monitored by the school authorities. Inappropriate use of the technology can result in limited or banned computer use, disciplinary consequences, removal from courses, loss of credit, receiving a failing grade, and/or legal action. Students and their parents/guardians are responsible for reviewing the Chromebook Agreement.

The Chromebook is school property and all users will follow this policy and the Elmwood Park CUSD 401 Acceptable Use Policy.

- Snack time and screen time are NOT the same time: keep food and drinks away from the device.
- Cords and cables must be inserted carefully into the Chromebook to prevent damage.
- Do not stack any books, heavy materials, etc. on top of the Chromebook as it could cause the device to break.
- Chromebooks must never be left in an unlocked locker, unlocked car, or any unsupervised area.
- Students are responsible for keeping their Chromebook's battery charged for school each day.
- Chromebooks are very sensitive to extreme heat and extreme cold therefore leaving devices in cars, direct sunlight, etc. that may expose them to these conditions is potentially harmful to the device and should be avoided.
- Chromebooks have a unique identification number and at no time should the numbers or labels be modified, damaged, or removed.
- The District can and will locate, access, and modify Chromebooks remotely, even when in a student's possession. Modifying, disabling, or attempting to disable the locator or any District software used for tracking or accessing a Chromebook is a violation of the Acceptable Use Policy and grounds for disciplinary action.
- Jailbreaking or otherwise attempting to change the operating system or access District settings of or to the device will be subject to disciplinary action.
- It is the responsibility of the student who is issued the Chromebook to protect that Chromebook. A student who damages, loses, or misplaces the Chromebook will be responsible for its cost, whether or not the damage or loss was the student's fault. Students should not lend any Chromebook to another person.
- Do not contact Acer, Google, or any other service for repair questions. The District makes any and all repairs to Chromebooks.

2.2 Carrying Chromebooks

The protective shell of the Chromebook will only provide basic protection from everyday use. The cases provided with Chromebooks have sufficient padding to protect the Chromebook from normal wear and tear and provide a suitable means for carrying the device within the school. - Chromebooks should always be within the protective case when carried. Failure to do so may result in disciplinary action.
- Chromebooks must remain in a protective case when not in use to prevent unintended damage.

- Do not place anything near the Chromebook that could put pressure on the screen.
- Do not place anything in the carrying case that will press against the cover.
- Clean the screen with a soft, dry cloth or anti-static cloth. Liquid type cleaners such as Windex should be avoided at all times.

  - If a loaner is available, the student maintains responsibility of the device as if it were their own for the school day. They are responsible for any damage or loss of the issued device.
  - The student must return the device at the end of the school day.
- If a student repeatedly (three or more times as determined by any staff member) leaves their Chromebook at home, they may be required to "check out" their Chromebook. "Checking out" identifies that the student will only be able to utilize the Chromebook during school hours. The Chromebook will be checked out in the morning from a central location and returned at the end of the school day to the same central location.

- If a student leaves their Chromebook at home for three consecutive days, they will be required to bring in the device and have a mandatory inspection of said device.
