SUMMER ACADEMY

Grades K - 2

Class: Science Seekers

Dates: 2 weeks, June 8th - June 19th

Cost: \$75

Register: bit.ly/scienceseekers2020

Energy, gravity, electricity, oh my! Do you like to know the science behind *everything* in your world? Then this is the class for you! In this class, we will learn about various topics through exploration, experiments, and engineering.

Class: Writer's Workshop

Dates: 2 weeks, June 8th - June 19th

Cost: \$75

Register: bit.ly/writersworkshop2020

In this class, students research background information on topics that interest them and use this information to design an informational brochure. Through this fun and engaging project, students will strengthen their writing skills and practice the use of various writing conventions.

Grades 3 - 5

Class: STEM Camp

Dates: 5 weeks, June 2nd - July 2nd

Cost: \$175

Register: bit.ly/stemcamp2020

Do you love to be challenged? In this class, you will build your knowledge and interest about STEM through teamwork, scientific investigations, and challenging engineering tasks! Bring your creativity, imagination, and inventive mind to this class.

Class: Limitless Minds

Dates: 5 weeks, June 2nd - July 2nd

Cost: \$175

Register: bit.ly/limitlessminds35

Students will collaborate with classmates on challenging problem-solving activities and learn how to reach their limitless potential in all subject areas through a "limitless mind" approach to learning.

Grades 6 - 8

Class: Stained Glass Class

Dates: 2 weeks, June 8th - June 19th

Cost: \$125 (\$75 registration, \$50 materials)

Register: bit.ly/stainedglass2020

Elmwood Park and nearby Oak Park have a rich history of decorative architectural stained glass. Many bungalow windows and Frank Lloyd Wright structures boast this beautiful craft. In this class, each student will design and execute a unique glass ornament and small panel. Due to the cost of materials, this class will have an additional fee.

Class: Limitless Minds

Dates: 2 weeks, June 8th - June 19th

Cost: \$75

Register: bit.ly/limitlessminds68

Students will collaborate with classmates on challenging problem-solving activities and learn how to reach their limitless potential in all subject areas through a "limitless mind" approach to learning.
