

Student and Parent/Guardian Digital Citizenship AUP Contract

The Elmwood Park School Board recognizes that as new technology changes the way that information may be accessed and communicated by society, those changes may also alter instruction and student learning. The Board generally supports access by students to rich information resources along with the development by staff of appropriate skills to analyze and evaluate such resources. In a free and democratic society, access to information is a fundamental right of citizenship. Internet access is consistent with the goals and objectives of the district, including preparing our students to be citizens of the 21st century. District 401 continues to provide this access to teachers, students, and the community in order to facilitate resource sharing, innovation, and communication.

Elmwood Park CUSD 401 educators will provide guidance and instruction to the students in the appropriate use of such resources. The board of education expects that students will use appropriate and responsible behavior on the school network and in the accessing of all electronic information as independent researchers. Elmwood Park CUSD 401 retains the following rights and recognizes the following obligations:

- To monitor the use of online activities. This may include real-time monitoring of network activity, file storage and/or maintaining a log of all activity for later review. EPCUSD 401 reserves the right to restrict online destinations through software or other means.
- To supervise students, control electronic equipment, or otherwise have occasion to observe student use of equipment online. Staff members shall make reasonable efforts to monitor the use of this equipment to assure that it conforms to the mission and goals of EPCUSD 401.
- To provide internal and external controls as appropriate and feasible. Such controls shall include the right to determine who will have access to EPCUSD 401-owned equipment and, specifically, to exclude those who do not abide by the District Acceptable Use Policy, Board Policy Section 6:235, and any other policies governing the use of school facilities, equipment, and materials.

Access to the Elmwood Park CUSD 401 network is a privilege, not a right; therefore, students will be permitted to use these resources upon the submission of an agreement form signed by the student and the student's parent/guardian upon entry to the school district. The signed Digital Citizenship AUP Contract will be kept on file as a legal binding document. Failure to comply with the agreement for acceptable use may result in the student's loss of access to the network as well as other disciplinary actions, up to and including out-of-school suspension and/or expulsion, and referral to law enforcement authorities where appropriate.

Technology use in EPCUSD 401 is governed by the Children's Online Privacy Protection Act (COPPA) and Family Educational Rights and Privacy Act (FERPA). More information can be found
