

Goal Area #1

Goal Area - Student/Staff Opportunities

Goal: Create and sustain an environment that supports quality educators with adequate resources and extensive programming to achieve the district's mission.

Objective: Provide greater opportunities for professional growth within the district.

Objective: Strive to ensure adequate staffing to support district/student needs.

Objective: Create and sustain k-12 character education program.

Objective: Design and implement programs to support struggling students.

Objective: Establish community service initiative for secondary students.

Objective: Create and sustain programs to address vocational/career oriented opportunities.
(Note: collect data beyond the graduation rate – Where are our students? Have we met our mission statement?)

Objective: 1:1 Student/computer with digital learning focused curriculum.

Goal Area #2

Goal Area – Facilities/Finance

Goal: To create a funding structure that adequately addresses various needs of students.

Objective: Explore and develop grant writing opportunities.

Objective: Find ways to cut expenses/"wasted" funds.

Objective: Find alternative methods for student transportation (i.e. sidewalks, bike racks)

Objective: Develop early childhood programs and facilities.

Objective: Collaborate with the township to minimize the property tax burden.

Objective: Expand student access to technology.

Objective: Provide professional development opportunities for teachers.

Objective: Increase student programs for college/career prep.

Goal Area #3

Goal Area – Partnerships

Goal: The district endeavors to create meaningful alliances, collaborations and partnerships across communities.

- governments
- non-public school populations
- families, parents, staff
- educational institutions
- local businesses

Objective: Government - Partner with all agencies and community based organizations to work as one unit. Also work with thriving communities to mirror ideas that work for them.

Objective: Non-Public School Populations – Work together to build a sense of community with students.

Objective: Families/parents/staff – Work together to build a sense of community with non-public school populations

Objective: Educational Institutions – collaborate on programs to create experiential education and STEM programs

Objective: Local businesses – work with town council to lower the financial obstacles that discourage business creation/growth to attract new business and maintain current businesses

Objective: Build a partnership with businesses to promote opportunities for students.

Objective: Family outreach – create outreach programs giving parents/guardians/caretakers the means and opportunity to participate in school/community events

Goal Area #4

Goal Area – Communication

Goal: To effectively communicate with all district stakeholders.

Objective: Explore social media options as a means to communicate.

Objective: Disseminate clear and effective messages

Objective: Speak with one voice with transparency
