## Chromebook Loan Agreement Grades 5-8

Your child is being assigned a Chromebook computer for his/her use during the school year. Each student is responsible for the care and proper use of the device assigned to him/her. The same device will be assigned to the student for multiple years. This device will be given to the student at the end of eighth grade so it is important to take good care of the device.

This equipment is, and at all times remains, the property of Kimberly Area School District and is lent to the student for educational purposes only for the academic school year.

The Chromebook may not be defaced or destroyed in any way. The device must be used in accordance with the District's Acceptable Use Policy as well as, local, state, and federal statutes. Inappropriate use of the machine may result in the student losing his/her right to use this Chromebook.

The equipment will be returned to the school if the student withdraws from Kimberly Area School District prior to the end of the school year or when requested by Kimberly Area School District.

Identification and inventory tags have been placed on the Chromebook. These tags are not to be removed or modified. If they become damaged or missing, contact tech support for replacements. Additional stickers, labels, tags, or markings are not to be added to the Chromebook.

The District will obtain reimbursement from, or on behalf of, students for any damage to, loss of, or failure to return school property. To help reduce the financial impact of damage the District offers a voluntary insurance plan.
