

2017 HITTING LEAGUES-BASEBALL

HITTING LEAGUES

The Hitting Leagues are designed to help players become better offensive players, though defensive techniques will be implemented at times as well. Players will perform drills to improve their “feel” for their own swing. They will also learn defensive drills that can help them become better players. Players are met at their developmental level and advanced according to their pace based on how much they are able and want to put into the skills and the preparation and reflection of the learning process.

- The leagues are tailored to create smarter, better, more efficient baseball players who learn “feel” for their swing and for their overall game. We also want to help instill a strong desire to compete.
- All hitters will be videotaped and shared with your son.
- Players will also work on several defensive skills throughout the leagues.
- Teams are created and compete in World series tournament-style brackets throughout the duration.
