Budget Information Meeting

Data current as of 8/19/19
School District Overview

About our District:
1,000 Staff
6,800 Students
16 School Sites

School Budgeting Process:
The goal of the budgeting process is to create a balanced four-year budget.
District Budget Basics

The District projects a **budget deficit of 1.6 million for the 19-20 year without a levy increase** due to changes in the state school funding model and subsequent salary and benefit-cost increases, in addition to declining enrollment projections. Approximately 4.5 million in cuts were made by the District for the 19-20 school year.

**Budget Challenges**
- Increase in salary costs is exceeding funding
- **School Employee Benefits Board (SEBB)** - District cost has increased, number of staff who qualify has increased.
- **Projected Enrollment Decline** - Birth rate decreases, charter school
- **Regionalization** - State allocation rate decreasing resulting in approximately 3 million loss in revenue over six years.
McCleary 101

The Legislature increased the state school tax to provide extra funding for school employee compensation but reduced the local operating levy collection amount.

- Public schools are funded by state and federal dollars, grants and local voter-approved levy dollars.
- Wenatchee voters approved a local levy of $2.92.
- The State capped local school levies at $1.50 as part of “levy equalization” and increased the state tax.
- The McCleary decision contributed to the budget deficit in 19-20 and beyond.
Budget Reductions

**District cut 4.5 million** in staffing and operational cost in 18-19 and 19-20

- Like many school districts in our state, we were faced with budget challenges that will impact our district in the foreseeable future.

- In February the Board approved a budget reduction scenario that included **4.5 million** in staffing and operational cost reductions to put us in a healthier financial position.

- It has taken several years and many converging factors to get us where we are and it will take time and many cooperating factors to get us back on solid financial footing.

Assessed Value Growth Assumption - 4% per Year 2020 thru 2023.
Levy Request

The District is proposing **an increase to the levy estimated at 30-cents per $1,000 of assessed value. This increase is a necessary measure to avoid deeper staff cuts** and will lessen the impact on the District’s budget for the next two years.

- The legislature lifted the levy lid to $2.50 during the last legislative session, giving school districts authority to restore previously voter-approved levies rates.
- The proposed levy increase would provide about $806,000 in revenue for the 2019-20 school year and $1.58 million for the 2020-21 school year.
- The estimated 30-cent levy increase is estimated to increase the levy rate from $1.50 to $1.80 for every $1,000 of assessed value.
Estimated Ending Fund Balance
with and Without Levy Increase

ESTIMATED ENDING FUND BALANCE

19-20: $9,124,739
20-21: $8,609,757
21-22: $7,758,334
22-23: $5,896,926

5% Fund Balance
Estimated Fund Balance Reduction
With and Without Levy Increase

**ESTIMATED FUND BALANCE REDUCTION**

- **With Levy**
  - 19-20: $875,261
  - 20-21: $541,982
  - 21-22: $851,423
  - 22-23: $2,854,132

- **Without Levy**
  - 19-20: $1,661,232
  - 20-21: $2,057,903
  - 21-22: $3,050,920
  - 22-23: $4,904,202
Effect of No Levy Increase

- The District projects deeper additional staffing cuts will need to be made in 2020 and beyond if the estimated 30-cent levy increase is not approved.
- The District’s fund balance will decrease at a faster rate.
- The continued declining fund balance could lead to a bond credit rating downgrade.
