

Maintaining Professional Staff/Student Boundaries

Purpose

This policy provides all staff, students, volunteers, and community members with information about their role in protecting children from inappropriate conduct by adults. This policy applies to all district staff and volunteers. For purposes of this policy and its procedure, the terms “district staff,” “staff member(s),” and “staff” also include volunteers.

General Standards

The board expects all district staff to maintain the highest professional standards when they interact with students. District staff are required to maintain an atmosphere conducive to learning by consistently maintaining professional boundaries.

Professional staff/student boundaries are consistent with the legal and ethical duty of care that district employees have for students.

The interactions and relationships between district staff and students should be based upon mutual respect, trust, and commitment to the professional boundaries between staff and students in and outside of the educational setting, and consistent with the educational mission of the district.

District staff will not intrude on a student’s physical and emotional boundaries unless the intrusion is necessary to serve a demonstrated educational purpose. An educational purpose is one that relates to the staff member’s duties in the district. Inappropriate boundary invasions can take various forms. Any type of sexual conduct with a student is an inappropriate boundary invasion.

Additionally, staff members are expected to be aware of the appearance of impropriety in their own conduct and the conduct of other staff when interacting with students. Staff members will notify and discuss issues with their building administrator or supervisor whenever they suspect or question whether their own or another staff member’s conduct is inappropriate or constitutes a violation of this policy.

The board recognizes that staff may have familial and pre-existing social relationships with parents or guardians and students. Staff members should use appropriate professional judgment when they have a dual relationship to students to avoid violating this policy, the appearance of impropriety, and the appearance of favoritism. Staff members shall pro-actively discuss these circumstances with their building administrator or supervisor.

Use of Technology

The board supports the use of technology to communicate for educational purposes. However, district staff are prohibited from communicating with students by phone, e-mail, text, instant messenger, or other forms of electronic or written communication when unrelated to school work or other legitimate school business, except in case of a familial or pre-existing social relationship subject to the standards set forth above. District staff members are also prohibited from

engaging in any conduct on social networking websites that violates the law, district policies or procedures, or other generally recognized professional standards. This prohibition includes prohibiting staff from “friending” “following”, or otherwise interacting with students on social media unless done solely for educational purposes, in the context of an authorized formal school relationship, and only through an account that is strictly limited to and used only for the performance of job responsibilities. Any such account must be created and maintained in accordance with the district procedures implementing this policy and will be subject to District Board Policy numbers 5252 and 5252P. The district reserves the right to specifically direct or limit any particular staff usage of social media governed by this policy.

Staff whose conduct violates this policy may face discipline and/or termination consistent with the district’s policies and procedures, acceptable use agreement, and collective bargaining agreements, as applicable.

The superintendent/designee will develop protocols for reporting and investigating allegations and develop procedures and training to accompany this policy.
