4. Describe the action steps the school/district will take to reduce the opportunity gap in student possession of ASB cards and/or participation in extracurricular activities for the upcoming school vear.

Compare School Data with other schools with similar demographics.

Evaluate required factors for participation. Some would include transportation, materials, uniforms etc. I have met with our coaches to talk about barriers to participation. We review this at the end of each season also. The ideas are to have necessary items available to the students so the kids do not have to pay for them. We have talked about fundraising and incorporating uniform costs such as hats, socks and swimsuits into the uniform allocation each year.

We have also discussed an activity bus to help transport kids home after practices. Unfortunately the district is short on drivers and on the funds to make this happen.

All students who qualify this next year will have ASB digitally loaded onto their digital card and they can get an actual sticker also. This will allow more students to have ASB stickers.
