INSTRUCTION

HIGH SCHOOL GRADUATION REQUIREMENTS

A. The board shall award a regular high school diploma to every student enrolled in the district who meets the requirements of graduation established by the district. Only one diploma shall be awarded with no distinctions being made between the various programs of instruction which may have been pursued.

The board shall establish graduation requirements which, as a minimum, satisfy those established by the State Board of Education:

WHS – Wenatchee High School
INSTRUCTION

WSHS – WestSide High School

The board will approve additional graduation requirements as recommended by the superintendent. In addition to the minimum credit requirements, to earn a diploma each student must:

1. Pass the reading and writing portions of the statewide assessment or a state approved alternative; Students in the classes of 2015, 2016, 2017 and 2018 must pass one of the following comprehensive English Language Arts (ELA) exit exams: reading and writing portions of the statewide assessment or new ELA exit exam (administered beginning spring 2015) or new 11th Grade Smarter Balanced Comprehensive ELA Test (administered beginning spring 2015). Students in the class of 2019 and beyond must pass the 11th Grade Smarter Balanced Comprehensive ELA Test; and

2. Complete a High School and Beyond Plan: Within the first year of high school enrollment, each student will develop a plan for satisfying the state and district’s high school graduation requirements and for their first year after high school completion. The plan should be developed in collaboration with the student, parent and district staff. The plan should include how the student will satisfy the district’s academic credit requirements, preparation for successfully completing the statewide assessment, and the student’s goals for the year following graduation. Each student plan should be reviewed annually at the beginning of the school year to assess student progress, to adjust the plan, and to advise the student on steps necessary for successful completion of the plan;

3. Complete math requirements: Students in the classes of 2013 and 2014 must pass one end of course assessment (either Algebra 1 or Geometry or their integrated math equivalents) or state-approved alternative. Students in the classes of 2015, 2016, 2017 and 2018 must pass one end of course assessments (Algebra I or Geometry or an integrated math equivalent; or, beginning spring 2015, New Algebra/Integrated Math 1 EOC Exit Exam or New Geometry/Integrated Math 2 EOC Exit Exam or New 11th Grade Smarter Balanced Comprehensive Math Test or a state-approved alternative. Students in the class of 2019 and beyond must pass the 11th Grade Smarter Balanced Comprehensive Math Test; and

4. Complete science requirements: Students in the classes of 2015, 2016, 2017 and 2018 must pass the biology end-of-course assessment or a state-approved alternative.

B. Students, in the class of 2013 and beyond, must complete mathematics courses in one of the following progressive sequences:

1) Algebra I, Geometry, and Algebra II;
3) Any combination of (a) and (b) in progressive sequence.

In lieu of a third credit of mathematics, students may choose an alternative mathematics course, if the parent/guardian agrees that the third credit mathematics elective is supportive of the student’s education and career goals. Before approval of the elective third mathematics credit a meeting will be held with the student, the parent/guardian and the school staff to discuss the
INSTRUCTION

student’s High School and Beyond Plan and the mathematics requirements for post-secondary and career choices.

The district will obtain a signed consent from the parent for the student to enroll in the alternative third credit of mathematics. The consent form will confirm the meeting, that the parent understands the impact of the selection on the student’s educational and employment options, and that the alternative is most appropriate for the needs of the student.

Students may also satisfy the mathematics requirements by earning equivalency based credit in career and technical education mathematics courses. Those credits must be recorded using the equivalent academic high school department designation.

C. Certificate of Academic Achievement: A student will receive a certificate of academic achievement only if they earn the appropriate number of credits required by the district, complete a culminating project, complete the high school and beyond plan, and meet the reading, writing and math standards on the high school statewide assessment or an appropriate alternative assessment.

Students qualifying for special education services will earn a certificate of individual achievement as determined by their individual education plan.

D. High school credit will be awarded for successful completion of a specified unit of study. In this district, successful completion of a specified unit of study means:
   1. Earning a passing grade according to the district’s grading policy; and/or
   2. Demonstrating proficiency/mastery of content standards as determined by the district (See Appendix A: HSPE/EOC Credit Matrix); and/or
   3. Successfully completing an established number of hours of planned instructional activities to be determined by the district.

The district will establish a process for determining proficiency/mastery for credit-bearing courses of study.

E. The superintendent will develop procedures for implementing this policy which include:
   1. Establishing the process for completion of the High School and Beyond Plan;
   2. Recommending course and credit requirements which satisfy the State Board of Education requirements and recognize the expectations of the citizens of the district;
   3. Determining which courses satisfy particular subject area requirements and whether a particular course may satisfy more than one subject area requirement, including a process for determining the credits the district will recognize for courses taken through another program recognized by the state (e.g. another public school district or an approved private school) or those courses taken by students moving into the state from another state or country. Decisions regarding the recognition of credits earned before enrolling in the district will be based on the professional judgment of the high school principal or designee based on an evaluation of the student’s former program and demonstrated knowledge and skills in the discipline for which credit is sought. The decision of the principal may be appealed to the superintendent within fifteen school days;
   4. Making graduation requirements available in writing to students, parents and members of the public;
   5. Providing for a waiver of graduation requirements for an individual student when permitted.
INSTRUCTION

All state graduation requirements must be satisfied unless a waiver is permitted by law;

6. Granting credit for learning experiences conducted away from school, including National Guard high school career training;

7. Granting credit for correspondence, vocational-technical institutes and/or college courses for college or university course work the district has agreed to accept for high school credit.
   State law requires that the district award one high school credit for every five quarter hour credit or three semester hour credit successfully earned through a college or university, except for community college high school completion programs where the district awards the diploma. Tenth and eleventh grade students and their parents will be notified annually of the Running Start Program;

8. Granting credit for work experience;

9. Granting credit based upon competence testing, in lieu of enrollment;

10. Granting credit for high school courses completed before a student attended high school, to the extent that the course work exceeded the requirements for seventh or eighth grade;

11. Counseling of students to know what is expected of them in order to graduate;

12. Preparing a list of all graduating students for the information of the board and release to the public;

13. Preparing suitable diplomas and final transcripts for graduating seniors;

14. Planning and executing graduation ceremonies; and

15. Developing student learning plans for students who are not successful on one or more components of the statewide assessment.

E. In the event minimum test requirements are adopted by the board, a student who possesses a disability will satisfy those competency requirements which are incorporated into the Individualized Education Program (IEP). Satisfactory completion of the objectives incorporated into the IEP will serve as the basis for determining completion of a course.

A student will be issued a diploma after completing the district's requirements for graduation. In lieu of the certificate of academic achievement, special education students may earn a certificate of individual achievement. A student will also be advised that he/she may receive a final transcript.

However, a student's diploma or transcript may be withheld until the student pays for any school property that has been lost or willfully damaged. Upon payment for damages, or the equivalency through voluntary work, the diploma or transcript will be released. When the damages or fines do not exceed $100, the student or his/her parents will have the right to an appeal using the same process as used for short-term suspension as defined in Policy 3241, Classroom Management, Corrective Actions or Punishments. When damages are in excess of $100, the appeal process for long term suspension as defined in Policy 3241, Classroom Management, Corrective Actions or Punishments, will apply.

Graduation requirements in effect when a student first enrolls in high school will be in effect until that student graduates unless such period is in excess of ten years.

In the event that other forms of corrective actions are imposed for violations of school rules, the student may be denied participation in graduation ceremonies. Such exclusion will be regarded as a school suspension. In such instances, the diploma will be granted.

## Wenatchee School District’s

### End of Course Exam Credit Considerations

With the implementation of End of Course Exams in the area of mathematics and science, the following credit procedure will be used for the student’s academic transcript and graduation requirements. The Wenatchee School District transcript is a historical document of the student’s progress and meeting standard on an EoC should not replace a failing grade. However, by meeting standard on the state assessments, the student is eligible to earn credit for the assessments that they pass in Biology, Algebra, and Geometry.

## HSPE Exam Credit Considerations

With the implementation of HSPE Exams in Reading and Writing, the following credit procedure will be used for the student’s academic transcript and graduation requirements. The Wenatchee School District transcript is a historical document of the student’s progress and meeting standard on the HSPE should not replace a failing grade. However, by meeting standard on the state assessments, the student is eligible to earn credit for meeting standard in the area of Reading and Writing.
