INDEPENDENT AUDITORS' REPORT ON FINANCIAL STATEMENTS

Board of Education
Hudsonville Public Schools
Hudsonville, Michigan

We have audited the accompanying financial statements of Hudsonville Public Schools which comprise the statements of governmental activities, each major fund and the aggregate remaining fund information as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Hudsonville Public Schools as of June 30, 2017, and the respective changes in financial position for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and net pension liability information on pages 5 through 13 and pages 48 through 50 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the School District's basic financial statements. The other supplementary information contained on pages 52 and 53 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The remaining supplemental information on pages 54 through 62 has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Governmental Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 12, 2017 on our consideration of Hudsonville Public Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting, or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Hudsonville Public School's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Hudsonville Public Schools

MANAGEMENT DISCUSSION and ANALYSIS

For Year Ending June 30, 2017

MD & A June 30, 2017

This section of the Hudsonville Public School annual financial report presents the Administration's discussion and analysis of the District's financial performance during the year ended June 30, 2017.

Generally Accepted Accounting Principles (GAAP) according to GASB 34 require the reporting of two types of financial statements: District-Wide Financial Statements and Governmental Fund Financial Statements. The statements are organized to provide the reader with an understanding of the district as a whole and a more detailed examination of specific financial activities.

District-wide financial statements are full accrual basis statements. They report all of the District's assets and liabilities regardless of their "current availability" status. In similar fashion, all of the current year's revenues and expenses are taken into consideration regardless of when cash is received or paid. Capital assets and long-term obligations of the District are reported in the Statement of Net Position of the district-wide financial statements.

Governmental fund financial statements are reported on a modified accrual basis. To be reported as an asset an item must be "measurable" and "currently available". Liabilities are recognized if they are expected to be paid with current financial resources.

The financial statements reporting the activities of these funds reflect the requirements of the State of Michigan Department of Education. The District's major instructional and instructional support activities are reported in the General Fund. Additional activities are reported in their respective funds as follows: Debt Retirement, Capital Projects and School Service Funds. In governmental fund financial statements, purchased capital assets are reported as expenditures in the year of acquisition. The issuance of debt is recorded as a financial resource. The current year's payments of principal and interest on long term obligations are recorded as expenditures. Future year's debt obligations are not recorded, but, disclosed in the Schedule of Bond Maturities.

Pension Expense

GASB 68 and 71 now require the District to account for its payments to the Michigan Public School Employees' Retirement System in a manner that has a significant effect on the District's Change in Net Position. Based on various factors, the District may report an increase or decrease in net position depending on whether the District's proportionate share of the net pension liability increases or decreases in any given year. For the year ended June 30, 2017, the District's net pension liability increased by more than \$6,581,000 before the impact of pension related net deferred outflows of approximately \$14,723,000.

State of Michigan Unrestricted Aid (Foundation Grant)

The foundation grant for Hudsonville Public Schools is calculated using the following variables:

- A. State of Michigan State Aid Act
- B. Student Enrollment – For years ended June 30, 2016 and June 30, 2017, a blended count at 90% of current year fall enrollment and 10% of current year winter enrollment was used to calculate payments from the State.
- C. The District's non-homestead tax levy

Per Student Foundation Grant

The State of Michigan establishes the per student foundation grant on an annual basis. For the 2015-2016 and 2016-2017 school years the per student allocation, including one-time state allocations, for Hudsonville was \$7,391 per student and \$7,511 per student, respectively.

Student Enrollment

The district's student enrollment for 2016-2017 was 6,735 students. The following summarizes the student enrollments for the past five years.

	<u>Student FTE</u>	<u>Change From Prior Year</u>
2016 – 2017	6,735	+233
2015 – 2016	6,502	+ 56
2014 – 2015	6,446	+128
2013 – 2014	6,318	+ 49
2012 – 2013	6,269	+ 92

Past Bond Refunding

In May of 2016 the Board of Education issued \$12,270,000 of General Obligation Bonds with fixed interest rates to refinance substantially all of the outstanding variable rate School Bond Loan Revolving Fund debt. The new 2016 bonds were sold at an average interest rate of 2.37%. The outstanding balance in the school bond loan fund carries a variable interest rate. The refinancing saved taxpayers over \$1,100,000 in interest expense.

Hudsonville Public Schools

MD & A June 30, 2017

Future Bond Refinancing

The Board of Education is planning to refinance the 2011 bonds in November of 2017 as well as undertake a refinance of the 2008 bonds in the winter of 2018. Both projects will result in interest expense savings for the Hudsonville taxpayers.

2015 Bond Issue for Safety, Technology and School Additions

On August 4, 2015 the voters approved a bond issue for up to \$21,880,000. The major projects included in this bond are the addition of secure entrances at all of the buildings, renovation and expansion of the former Heritage Elementary School as the new site for South Elementary, expansion of Riley Middle, Alward and Bauer Elementary, 10 new school buses and classroom technology improvements. Less than \$3,900,000 of the original bond proceeds remained unspent on those projects as of the close of the 2016-17 fiscal year.

Property Taxes Levied For General Operations

The District levies eighteen mills of property taxes for General Fund operations on Non-Homestead properties. The District's non-homestead property tax revenue for 2015-2016 fiscal year was \$4,018,189. Non-homestead property tax revenue for 2016-2017 fiscal year was \$4,137,586. No significant changes affected the tax base during the 2016-2017 fiscal year.

Debt Fund Property Taxes

The District's debt fund levy which is used to pay the principal and interest on bond obligations is based on the taxable valuation of all properties (homestead and non-homestead). For 2015-2016 and 2016-2017 the District debt millage levy was seven mills. Revenue generated was \$9,114,451 and \$9,516,855, respectively.

Building & Site Sinking Fund Taxes

The District levied 0.9983 mill in 2015-16 and 0.9883 mill in 2016-17 of property tax on all properties (homestead and non-homestead). Revenue generated was \$1,298,740 and \$1,343,445, respectively, and was used to purchase property for district use and to complete building projects.

Budget Highlights

The Uniform Budget Act of the State of Michigan requires that the local Board of Education approve the original budget for the upcoming fiscal year prior to July 1, the beginning of the new year. For the 2016-17 fiscal year, the District amended the General Fund budget in June 2018. The following schedule shows a comparison of the original General Fund budget, the final amended General Fund budget and actual totals from operations.

	<u>Original</u>	<u>Final</u>	<u>Actual</u>	<u>Variance With Final Budget- Over (Under)</u>	<u>Percent Variance</u>
Total Revenues and Other Financing Sources	\$63,820,355	\$67,094,984	\$67,007,879	\$(87,105)	(0.13%)
Expenditures					
Instruction	\$42,721,687	\$44,055,378	\$43,469,446	\$585,932	1.33%
Support services	20,561,869	21,268,424	21,178,040	90,384	0.42%
Community services	1,723,975	1,750,171	1,727,737	22,434	1.28%
Total Expenditures	\$65,007,351	\$67,073,973	\$66,375,223	\$698,750	(1.04%)

The actual revenues and other financing sources for the General Fund were \$67,007,879. This is more than the original budget estimate of \$63,820,355 and less than the final amended budget of \$67,094,984. The actual General Fund expenditures were \$66,375,223. This is more than the original budget estimate of \$65,007,351 and less than the final amended budget of \$67,073,973.

The variance between the final revenue budget and actual revenue amounts was caused by a carryover calculation for both State and Federal grants. Those revenues not recognized in the 2016-17 fiscal year will be carried over and recognized in the 2017-18 fiscal year.

The variance between the final expenditure budget and actual expenditure amounts was a reflection of increased concern over the stability of state funding levels and include the following:

- Conservative budget estimates during development and amendment of the budget.
- Realizing positive budget variances in most areas, particularly the non-instructional areas.
- On-going efforts to reduce spending levels and management of employee attrition whenever possible.

NOTES TO FINANCIAL STATEMENTS

June 30, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Hudsonville Public Schools (School District) have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

Reporting Entity

The School District is the lowest level of government that has oversight responsibility and control over all activities related to public school education in the Hudsonville Public School district and is governed by an elected seven-member Board of Education. The School District receives funding from local, state, and federal government sources and must comply with the requirements of these entities. The School District is not included in any other governmental "reporting entity."

The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational and financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity, and which organizations are legally separate component units of the School District. The School District has no component units.

District-Wide and Fund Financial Statements

The district-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the School District's government-wide activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes: 1) charges to recipients who purchase, use or directly benefit from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Property taxes, state aid foundation and certain other items not classified as program revenues are reported as general revenue.

HUDSONVILLE PUBLIC SCHOOLS

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2017

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

District-Wide Statements

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid, and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the district-wide financial statements.

Amounts reported as program revenue include 1) charges to recipients for goods, services, or privileges provided; 2) operating grants and contributions; and 3) capital grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes and unrestricted State aid.

Fund-Based Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized when susceptible to accrual (i.e., when it becomes both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The government considers revenues to be available if they are collected within 60 days after year-end. Expenditures generally are recorded when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, unrestricted State aid, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenue of the current fiscal period.

HUDSONVILLE PUBLIC SCHOOLS

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2017

Taxes are levied on June 1, and are payable through September 15. Property taxes attach as an enforceable lien on property as of September 15. Various governmental units (including the school) collect the property taxes for the School District and the County remits to the School District any delinquent real property taxes by June 30. All other revenue items are considered to be available only when cash is received by the government.

Fiduciary fund statements also are reported using the economic resources measurement focus and the accrual basis of accounting.

The School District reports the following major governmental funds:

General Fund - The General Fund is the primary operating fund. It accounts for all financial resources and expenditures of the School District except for those required to be accounted for in another fund.

2015 Capital Projects Fund - The fund is used to account for the acquisition and construction of major capital facilities funded by the 2015 bond issue, as well as for the proceeds thereof.

Debt Service Fund - This fund is used to account for the accumulation of resources for and payment of principal, interest, and other expenses on general long-term debt.

Additionally, the School District reports the following fund types:

Sinking Fund Levy Capital Projects Fund - The fund is used to account for the acquisition or construction of major capital facilities (other than those included in the 2011 and 2015 Capital Projects Fund).

2011 Capital Projects Fund - The fund is used to account for the acquisition and construction of major capital facilities funded by the 2011 bond issue, as well as for the proceeds thereof.

Community Education Fund - The fund is used to account for the operation of community based programs including childcare services, preschool, youth enrichment, and adult recreation activities.

Food Service Fund - The fund is used to account for the operation of the food service program, primarily in the childcare and preschool services.

HUDSONVILLE PUBLIC SCHOOLS

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2017

Fiduciary Funds - These funds are used to account for the changes in assets and liabilities of the activity funds of individual schools and groups. While they are under the supervision of the Board and enhance the Board's educational programs, these funds belong to the individual schools or student groups and are not available for use by the Board. Fiduciary Fund net position and results of operations are not included in the district-wide financial statements. Agency Funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, followed by unrestricted resources as needed.

Assets, Liabilities and Net Position

Cash and Investments

Cash and cash equivalents include demand deposits, certificates of deposit, savings accounts, and short-term investments in Michigan School District Liquid Asset Fund (MILAF) with a maturity of three months or less when acquired. The MILAF invests in financial investment vehicles approved by the State of Michigan.

Investments are valued at fair value as determined by quoted market prices or by estimated fair values when quoted market prices are not available. Certain investments are valued at cost (or amortized cost) when they are of a short-term duration, the rate of return is fixed, and the district intends to hold the investment until maturity.

Receivables and Payables

In general, outstanding balances between funds are reported as "due to/from other funds." Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "advances to/from other funds." All trade and property tax receivables are shown as net of allowance for uncollectible amounts.

Amounts due from other governmental units consist primarily of state aid payments from the State of Michigan and other program support.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2017

Capital Assets

Capital assets, which include land, buildings, equipment, and vehicles, are reported in the applicable governmental activities column in the district-wide financial statements. Capital assets are defined by the School District as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized when appropriate. The School District does not have infrastructure-type assets.

Buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

Building and improvements	10 - 50 years
Buses and other vehicles	3 - 10 years
Furniture and other equipment	5 - 20 years

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. Items that qualify for reporting in this category are (1) the deferred charge on the bond refunding reported in the district-wide statement of net position, (2) the changes in experience and assumptions for determining the net pension liability as determined by the Office of Retirement Services, (3) the difference between the projected and actual earnings on pension plan investments, and (4) the pension contributions made by the School District subsequent to the measurement date of September 30, 2016.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until then. The items that qualify for reporting in this category are (1) the net difference between the projected and actual experience in the pension plan and (2) changes in proportionate share of contributions as determine by the Office of Retirement Services.

June 30, 2017

Accumulated Sick Leave and Vacation Liability

No liability has been established for accumulated sick leave. Employees have no vested rights to unused sick leave, and they may use accumulated leave for limited purposes as specified in the individual contracts.

Vacation pay is expensed when paid. Vacation days are built into the school year calendar for teachers and other ten-month employees and must be fully utilized during each fiscal year since carryover to subsequent years is not permitted. Certain full year employees are awarded vacation days and allowed to carryover a maximum amount of days to subsequent years. No liability has been established as the value of the vested rights to unused vacation days has not been material to financial statements.

Long-Term Obligations

In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are recorded at cost and amortized over the life of the underlying debt in the district-wide financial statements. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses in the year in which they are incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period.

Net Pension Liability

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public School Employees Retirement System (MPERS) and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The net pension liability is recorded as a governmental activity expected to be paid out from the General Fund.

HUDSONVILLE PUBLIC SCHOOLS

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2017

Net Position and Fund Balances

In the district-wide financial statements, net position represents the difference between assets and liabilities. Net investment in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition or construction of those assets. Net position is reported as restricted when there are limitations imposed on their use either through legislation or through external restrictions imposed by creditors, grantors, laws or regulations from other governments.

In the governmental fund financial statements, fund balance is classified as follows:

For *nonspendable* fund balance, amounts are not in spendable form, such as prepaids and inventory, or are required to be maintained intact.

For *restricted* fund balance, amounts are constrained to specific purposes by their providers, such as creditors, grantors, contributors, or laws and regulations, or imposed by law through constitutional provisions or enabling legislation.

For *committed* fund balance, amounts are constrained to specific purposes determined by Hudsonville Public School's highest level of decision-making authority, the Board of Education. Formal action by the board is required to be taken to establish, modify, or rescind a fund balance that is committed.

For *assigned* fund balance, amounts are neither restricted nor committed but the district intends to use the amounts for a specific purpose; intent can be expressed by the Board of Education or by the superintendent and/or assistant superintendent of business to which the board has delegated the authority to assign amounts for specific purposes.

For *unassigned* fund balance, amounts are available for any purpose.

For the classification of fund balances, Hudsonville Public Schools considers restricted amounts to have been spent when an expenditure is incurred for the purposes for which both restricted and unrestricted fund balance is available. Hudsonville Public Schools also considers committed amounts to be spent first when expenditures are incurred for purposes for which both committed and unassigned fund balance could be used.

Subsequent Events

Management has evaluated significant events or transactions occurring subsequent to June 30, 2017 for potential recognition or disclosure in these financial statements. The evaluation was performed through October 12, 2017 the date the financial statements were available for issuance. A subsequent event is disclosed in Note 10.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Adopted Accounting Pronouncements

The GASB has issued GASB Board Statement No. 77, "*Tax Abatement Disclosures*" which is effective for periods beginning after December 15, 2015. This statement requires governments that enter into tax abatement agreements to disclose information related to those agreements which enables various users of the financial statements to evaluate and assess the financial health of governments. Management has determined the reduction in property tax revenues due to tax abatements granted by other governmental units are not significant to the financial statements as of June 30, 2017.

Pending Pronouncements

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, which will be effective for the year ending June 30, 2018. This statement requires governments that participate in defined benefit other post-employment benefit (OPEB) plans to report in the statement of net position a net OPEB liability. The net OPEB liability is the difference between the total OPEB liability (the present value of projected benefit payments to employees based on their past service) and the assets (mostly investments reported at fair value) set aside in a trust and restricted to paying benefits to current employees, retirees, and their beneficiaries. GASB 75 requires cost-sharing employers to record a liability and expense equal to their proportionate share of the collective net OPEB liability and expense for the cost-sharing plan.

HUDSONVILLE PUBLIC SCHOOLS

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2017

GASB has also issued several statements that will become effective in future years including Statement Nos. 81 (Irrevocable Split-Interest Agreements), 83 (Certain Asset Retirement Obligations), 84 (Fiduciary Activities), 85 (Omnibus 2017), 86 (Certain Debt Extinguishment Issues), and 87 (Leases). Management has not yet determined the impact of these statements on the School District's financial statements.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

The Michigan Uniform Budgeting and Accounting Act requires the establishment of the General Fund, Special Revenue Fund and Debt Service Fund, each with an annual budget adopted by the Board at the beginning of the fiscal year.

State law requires operation under a balanced budget and budgetary control to the functional, activity or line item level as defined in the Uniform Budgeting and Accounting Act.

The original and final budget figures in the accompanying financial statements have been reported at the activity level and the final budget reflects approved amendments made during the year.

The budgets are adopted on a basis consistent with U.S. generally accepted accounting principles and state law. The budget is prepared and controlled by the Superintendent and is approved by the Board of Education.

Michigan Public Act 621 of 1978, Section 18(1), as amended, provides that a school shall not incur expenditures in excess of the amount budgeted. For the year ended June 30, 2017, the School District did not have significant expenditure budget variances.

NOTE 3 - DEPOSITS AND INVESTMENTS

State statutes and the School District's investment policy authorize the district to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations which have an office in Michigan. The District is allowed to invest in U.S. Treasury or Agency obligations, U.S. Government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The School District's deposits are in accordance with statutory authority.

HUDSONVILLE PUBLIC SCHOOLS

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2017

At year-end, the School District's deposits and investments were reported in the basic financial statements in the following categories:

	Governmental Activities	Fiduciary Funds	Total Primary Government
Cash and cash equivalents	\$ 9,279,882	\$ 691,559	\$ 9,971,441
Unexpended bond proceeds	4,731,349	-	4,731,349
	\$ 14,011,231	\$ 691,559	\$ 14,702,790

As of June 30, 2017, the School District had the following investments, including cash management funds held by Michigan Liquid Asset Fund (MILAF).

Investment	Maturities	Cost
Cash management funds	N/A	\$ 4,731,349

MILAF is an external pooled investment fund of "qualified" investments for Michigan school districts. MILAF is not regulated nor is it registered with the SEC. MILAF reports as of June 30, 2017, the fair value of the District's investments is the same as the value of the pool shares.

Interest Rate Risk - The School District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk - State law limits investments in commercial paper, corporate bonds, and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. The School District has no investment policy that would further limit its investment choices. As of June 30, 2017, the School District's investment in the state investment pool was rated AAAM by Standard & Poor's and Aaa by Moody's Investor Service, Inc.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of the School District investment in a single issuer. The School District places no limit on the amount the School District may invest in any one issuer.

HUDSONVILLE PUBLIC SCHOOLS

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2017

Custodial Credit Risk - In the case of deposits, this is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. As of June 30, 2017, \$9,564,717 of the School District's bank balance of \$10,685,987 was exposed to custodial credit risk because it was uninsured and uncollateralized. The above investment held by The Michigan School District Liquid Asset Fund (MILAF) is uninsured.

“School District Sinking Fund” Compliance

Hudsonville Public Schools has created a “School District Sinking Fund” from local tax levy proceeds for the purpose of purchasing real estate sites for, and the construction or repair of, school buildings. The activity in this “Sinking Fund” is contained within the Capital Projects Fund for financial reporting purposes. Section 1212 of the School Code (PA 451 of 1976, as amended) allows for the proceeds from a “School District Sinking Fund” to be used only for the purposes for which bonds (Section 1351a) may be issued including:

purchasing, erecting, completing, remodeling or repairing facilities, or parts of or additions to those facilities; acquiring, preparing, developing, improving or repairing sites, or parts of or additions to sites, for school buildings, including library buildings, structures, athletic fields, playgrounds, or other facilities; and acquiring or installing technology in school buildings.

In accordance with Section 1212(i) of the Revised School Code, as well as the State of Michigan Department of Treasury Letter Number 2004-4, the activity in this “School District Sinking Fund” was subject to audit procedures performed in connection with an independent audit of the general purpose combined financial statements. Hudsonville Public Schools was in compliance with the above stated regulations during the year ended June 30, 2017.

School Bond Construction Compliance

The 2011 and 2015 Capital Projects Funds include capital project activities funded with bonds issued after May 1, 1994. For these capital projects, the school district has complied with the applicable provisions of Section 1351a of the Revised School Code. As of June 30, 2017, the School District has reported cumulative receipts of \$563,823 and expenditures of \$81,847,266 in the 2011 Capital Projects Fund and cumulative receipts of \$106,615 and expenditures of \$19,876,525 in the 2015 Capital Projects Fund.

NOTE 6 - LONG-TERM DEBT

The School District issues bonds, notes, and other contractual commitments to provide for the acquisition and construction of major capital facilities and the acquisition of certain equipment. General obligation bonds are direct obligations and pledge the full faith and credit of the School District. Other long-term obligations include early retirement benefits and funding from the School Bond Loan Fund.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2017

In prior years, the District defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust accounts, assets and liabilities for the defeased bonds are not included in the District's financial statements. At June 30, 2017, there were no amounts outstanding on the defeased bonds.

The annual requirements to amortize the bonds payable are as follows:

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2017

The District is required to obtain loans from the School Bond Loan Revolving Fund (Fund) for the payment of the annual maturities of its general obligation bonds. There is no fixed maturity schedule for the repayment of these loans. Instead, the principal and interest are payable when taxes levied for debt service are no longer needed to retire bonded debt.

During the year, \$65,478 of accrued interest was added to the District's liability to the Fund. In the calculation of net position on the statement of net position, the outstanding principal and accrued interest for this bond are included in "unrestricted net position."

The annual requirements to amortize the benefits under the Early Retirement Incentive Plan payable are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Totals</u>
2018	\$ 138,547	\$ 22,979	\$ 161,526

As of the report date, the District is in the process of refunding the 2011 bonds.

NOTE 7 - MICHIGAN PUBLIC SCHOOL EMPLOYEES' RETIREMENT SYSTEM (MPERS), NET PENSION LIABILITY AND OTHER POST RETIREMENT BENEFITS

Plan Description

The Michigan Public School Employees' Retirement System (System or MPERS) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the board's authority to promulgate or amend the provisions of the System. The board consists of twelve members - eleven appointed by the Governor and the State Superintendent of Instruction, who serves as an ex-officio member.

The System is administered by the Office of Retirement Services (ORS) within the Michigan Department of Technology, Management & Budget. The Department Director appoints the Office Director, with whom the general oversight of the System resides. The State Treasurer serves as the investment officer and custodian for the System.

The System's financial statements are available at www.michigan.gov/mpers-cafr.

Benefits Provided

Benefit provisions of the defined benefit pension plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan. Depending on the plan option selected, member retirement benefits are determined by final average compensation, years of service, and a pension factor ranging from 1.25 percent to 1.50 percent. DB members are eligible to receive a monthly benefit when they meet certain age and service requirements. The System also provides disability and survivor benefits to DB plan members.

A DB plan member who leaves Michigan public school employment may request a refund of his or her member contributions to the retirement system account if applicable. A refund cancels a former member's rights to future benefits. However, returning members who previously received a refund of their contributions may reinstate their service through repayment of the refund upon satisfaction of certain requirements.

Contributions and Funded Status

Employers are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis. The unfunded (overfunded) actuarial accrued liability as of the September 30, 2016 valuation will be amortized over a 20 year period for the 2016 fiscal year.

The schedule below summarizes pension contribution rates in effect for fiscal year 2016.

<u>Benefit Structure</u>	<u>Member</u>	<u>Employer</u>
Basic	0.0 - 4.0%	18.95%
Member Investment Plan	3.0 - 7.0%	18.95%
Pension Plus	3.0 - 6.4%	17.73%
Defined Contribution	0.0%	14.56%

Required contributions to the pension plan from the District were \$9,280,568 for the year ended September 30, 2016.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability of \$103,111,660 for its proportionate share of the MPERS net pension liability. The net pension liability was measured as of September 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation rolled forward from September 2015. The District's proportion of the net pension liability was determined by dividing each employer's statutorily required pension contributions to the system during the measurement period by the percent of pension contributions required from all applicable employers during the measurement period. At September 30, 2016, the District's proportion was .4133 percent, which was an increase of .0181 percent from its proportion measured as of September 30, 2015.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the Plan year ended September 30, 2016, the District recognized pension expense of \$10,871,878.

At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 1,285,044	\$ 244,377
Changes of assumptions	1,612,070	-
Net difference between projected and actual earnings on pension plan investments	1,713,715	-
Changes in proportion and differences between Reporting Unit contributions and proportionate share of contributions	3,881,583	266,863
Reporting Unit contributions subsequent to the measurement date	6,741,578	-
Total	<u>\$ 15,233,990</u>	<u>\$ 511,240</u>

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2017

Contributions subsequent to the measurement date of \$6,741,578 reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2018.

Other amounts of deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended September 30	Net Deferred Outflows of Resources
2017	\$ 1,856,046
2018	1,721,254
2019	3,470,440
2020	933,432
	\$ 7,981,172

Actuarial Valuations and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Additional information as of the latest actuarial valuation follows:

Summary of Actuarial Assumptions

Valuation Date	September 30, 2015
Actuarial Cost Method	Entry Age, Normal
Wage Inflation Rate	3.5%
Investment Rate of Return	
MIP and Basic Plans (Non-Hybrid)	8.0%
Pension Plus Plan (Hybrid)	7.0%
Projected Salary Increases	3.5% - 12.3%, including wage inflation at 3.5%
Cost-of-Living Pension Adjustments	3% Annual Non-Compounded for MIP Members
Mortality	RP-2000 Male and Female Combined Healthy Life Mortality Tables, adjusted for mortality improvements to 2025 using projection scale BB. This assumption was first used for the September 30, 2014 valuation of the System. For retirees, 100% of the table rates were used. For active members, 80% of the table rates were used for males and 70% of the table rates were used for females.

Long-Term Expected Return on Plan Assets

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2016, are summarized in the following table:

Investment Category	Target Allocation	Long-term Expected Real Rate of Return*
Domestic Equity Pools	28.00%	5.90%
% Alternative Investment Pools	18.00%	9.20%
International Equity Pools	16.00%	7.20%
Fixed Income Pools	10.50%	0.90%
Real Estate and Infrastructure Pools	10.00%	4.30%
Absolute Return Pools	15.50%	6.00%
Short Term Investment Pools	2.00%	0.00%
	100.00%	

*Long term rate of return does not include 2.1% inflation

Discount Rate

A discount rate of 8.0% was used to measure the total pension liability (7.0% for the Pension Plus plan, a hybrid plan provided through non-university employers only). This discount rate was based on the long term expected rate of return on pension plan investments of 8.0% (7.0% for the Pension Plus plan). The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Benefit Provisions- Other Postemployment

Benefit provisions of the postemployment healthcare plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions. Retirees have the option of health coverage, which, through 2012, was funded on a cash disbursement basis. Beginning fiscal year 2013, it is funded on a prefunded basis. The System has contracted to provide the comprehensive group medical, prescription drug, dental and vision coverage for retirees and beneficiaries. A subsidized portion of the premium is paid by the System with the balance deducted from the monthly pension of each retiree healthcare recipient. For members who first worked before July 1, 2008, (Basic, MIP-Fixed, and MIP Graded plan members) the subsidy is the maximum allowed by statute. To limit future liabilities of Other Postemployment Benefits, members who first worked on or after July 1, 2008, (MIP-Plus plan members) have a graded premium subsidy based on career length where they accrue credit towards their insurance premiums in retirement, not to exceed the maximum allowable by statute. Public Act 300 of 2012 sets the maximum subsidy at 80% beginning January 1, 2013; 90% for those Medicare eligible and enrolled in the insurance plan as of that date.

HUDSONVILLE PUBLIC SCHOOLS

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2017

Public Act 75 of 2010 requires each actively employed member of MPSERS after June 20, 2010 to annually contribute 3% of their compensation to offset the employer contributions for health care benefits of current retirees.

Public Act 300 of 2012 granted all active members of the Michigan Public School Employees Retirement System, who earned service credit in the 12 months ending September 3, 2012, or were on an approved professional services or military leave of absence on September 3, 2012, a voluntary election regarding their retirement healthcare. Any changes to a member's healthcare benefit are effective as of the member's transition date, which is defined as the first day of the pay period that begins on or after February 1, 2013.

Under Public Act 300 of 2012, members were given the choice between continuing the 3% contribution to retiree healthcare and keeping the premium subsidy benefit described above, or choosing not to pay the 3% contribution and instead opting out of the subsidy benefit and becoming a participant in the Personal Healthcare Fund (PHF), a portable, tax-deferred fund that can be used to pay healthcare expenses in retirement. Participants in the PHF are automatically enrolled in a 2% employee contribution into their 457 account as of their transition date, earning them a 2% employer match into a 401(k) account. Members who selected this option stop paying the 3% contribution to retiree healthcare as of the day before their transition date, and their prior contributions were deposited into their 401(k) account.

The District's required and actual postemployment healthcare contributions to MPSERS for the years ended June 30, 2017 and 2016 were approximately \$227,000 and \$233,000, respectively.

NOTE 9 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES AND COMMITMENTS

Risk Management

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The School District purchases commercial insurance to cover substantially all potential losses. Settled claims covered by the commercial insurance did not exceed the amount of insurance coverage in any of the past three fiscal years.

Litigation

In the normal course of its activities, the School District becomes a party in various legal actions. Management of the School District is of the opinion that the outcome of such actions will not have a material effect on the financial position of the School District and, therefore, has not included a reserve for such losses in the financial statements.

Federal Funding

The School District participates in a number of federally assisted grant programs. These programs are subject to a compliance audit. The audit for the year ended June 30, 2017, has been conducted and has been reported in the Single Audit Report. However, the compliance audit report has not yet been accepted by the grantors. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the School District expects such amounts, if any, to be immaterial.

Commitments

The School District has entered into contracts for construction and architecture services relating to the development of a new elementary school, district wide secure entrances, and various additions and improvements at various school across the district. The total contract costs are approximately \$70,915,000. As of June 30, 2017, the amount remaining on these contracts is approximately \$3,244,000.

NOTE 10 - SUBSEQUENT EVENT

In July 2017, Hudsonville Public Schools Board of Education approved the purchase of a piece of real estate that will be used for additional parking as well as other uses in the future. The purchase price was \$1,100,000.
