

TEAM MEETING MINUTES

FCPS BUS FACILITY FEASIBILITY STUDY

JUNE 23, 2016

Attendees:

Steve Bolling
Ruth Biser
Tom Buckley
Holly Nelson
Brad Ahalt
Amanda Rhoderick
Mark Maggitti

1. Bus Garage Presentation Review

Ms. Nelson reported on the presentation she made to the bus garage staff. As part of this discussion she learned that at the time the school system was using contractor buses, the garage only did B inspections, so there was not as much work for the garage. A suggestion made by the group was to move more of the other offices located at 7446 down to the central office in downtown Frederick. However, it was the opinion of the group that this is not likely to happen. The garage group was skeptical that the study will produce any results. Mr. Buckley said he feels it is long overdue and that steps need to be taken in order to get any results.

2. Presentation to the Board of Education

Ms. Nelson discussed the presentation to the Board of Education on July 13 during their afternoon work session. Mr. Buckley asked who should attend this presentation. Ms. Nelson would like 4 or 5 to help with the presentation, and any others who can. Mr. Buckley will be out of town on that date. Ms. Nelson assigned parts of the presentation to members of the committee. She would also like a mechanic and a router to be present to answer questions specific to their work.

The group rehearsed the presentation.

The next meeting will be July 7, 2016 to begin Phase II.
