T

ALTERNATIVE EDUCATION

Heather Ridge School

Heather Ridge School provides an alternative educational program for students who require a highly structured setting. The school uses individual and group counseling, behavior management services and academics classes to enable students to learn the educational and behavioral objectives necessary for success in a school setting or job site. Heather Ridge offers three programs designed to help students with behavioral challenges: middle school, high school and an evening (Twilight) program.

The Day Program serves students in the middle school program (grades 6-8) and the high school program (grades 9-12). The middle school program uses a Project Based Learning approach to academics. The high school students follow the same block schedule for academic classes as their counterparts in the comprehensive schools and earn the same credits. It is possible to earn a diploma (from the student's home school) upon completion of graduation requirements at Heather Ridge School.

Students needing alternative placement, who have severe behavioral issues such as aggression, fighting and use of weapons in an aggressive incident (regardless of age or grade level) or students who need a specialized completer course to graduate, participate in the Twilight Program, from 3:15- 6:15 PM, Mondays through Thursdays. Students take two academic classes per semester and those who are of age for a work permit are encouraged to work during the day to gain job skills as well as credit towards graduation.

All students in these programs regularly meet with a school staff therapist to address behavioral issues in the academic setting. All students carry daily progress reports throughout the school hours and earn points for displaying the expected behaviors. As they earn points over time, students advance through the Behavioral Management system and acquire more independent skills and expectations. The Day Program and Twilight Program also offers the support of a School Resource Officer. Success in all programs is measured by grades, attendance and improved behavior. Our goal is for students to be productive citizens and have the skills necessary for post-graduate work or job skills upon completion of our program.

Virtual School

The Frederick County Virtual School (FCVS) provides an alternative education. The office is located on the campus of Governor Thomas Johnson Middle School (GTJMS), where wireless access to computers (10-12 rooms/night) and face-to-face learning sessions with teachers are planned within a master schedule. The cafeteria is frequently utilized to hold mandatory orientation sessions with students and parents. There are ten full-time staff members for the 2018-2019 school year. The office is staffed with six positions while five full-time digital learning teachers will serve students in multiple programs. The full-time teachers are provided a comprehensive work space in the classroom next to the office. The school principal has an adjacent office. A small records room secures confidential documents and materials of instruction, and another is utilized for private counseling needs of students and families.

The Virtual School offers seven different programs using a variety of blended learning models; three focused on credit recovery courses and four serving the enrichment needs of students with primarily honors and Advanced Placement courses. One of the credit recovery programs is the Flexible Evening High School, which serves students ages 15-21. The Virtual School also supervises “traditional” face-to-face high school and middle school summer sessions that meet every day. Last year, more than 1600 high school credits were earned by students in all programs.

The majority of students meet face-to-face with certified FCPS teachers at designated points in time (a condition of participation) at GTJMS. Some students are involved in site-based programs held at comprehensive high schools with additional support from an on-site mentor. Communication between students and teachers occurs during and beyond the school day via email, text, skype, or other methods beyond face-to-face meetings.

FCPS teachers facilitate learning and provide feedback with the online course as the primary instructional resource. Courses available to students reflect the wide range of offerings found in the FCPS Course Guide.

The school programs address student access issues in a variety of ways. The most common reasons students take a course with the Virtual School include:

- 1- Scheduling conflict
- 2- A course of interest is not offered at school
- 3- Internship or work study opportunities
- 4- Want to graduate on time with friends
- 5- Improve a previously earned grade
- 6- Successful learning in an alternate setting
- 7- Schedule school time for specialized courses

Appendix U: Special Education Program Description

Source: Frederick County Public Schools, May 2019

SPECIAL EDUCATION

The Special Education program serves the instructional needs of eligible students with educational disabilities that affect their educational performance from age 3 through the school year that the student reaches age 21. Priorities are to identify students with disabilities, provide proper evaluation and, with parents, make decisions regarding appropriate instruction through an Individualized Education Program (IEP) team process.

Students receive services in the least restrictive environment. A small percentage of students with disabilities are educated in special day settings, and a very small number require private placement outside the public school system. Extended School Year services are available for eligible students as determined by the school IEP team.

Every Frederick County Public School has an IEP team that determines a student's eligibility for special education and related services. In addition, the team follows the process of developing IEPs for eligible students, determining services required to implement IEPs, and makes recommendations for the students' programs and placements. Parents are invited and encouraged to participate in IEP team meetings. A separate county-level IEP team reviews cases that are referred by local schools whose existing staff and resources cannot meet students' needs.

Special Education Pre-Kindergarten

Based upon children's needs, students ages 3-5 may require support through an inclusive special education pre-k classroom. Inclusive pre-k classes educate all students using academic standards while implementing Individualized Education Programs (IEPs) for eligible children who have been identified with a disability. Participation in this program provides opportunities for all students to strengthen their social and academic skills through an inclusive preschool setting.

Rock Creek

Rock Creek is a special education program that serves diverse functional academic, medical and behavioral needs, as appropriate, for students; ages 3-21 who have significant cognitive disabilities and are working on a Maryland High School Certificate of Completion. While there is an emphasis on functional academics, instruction is also based on the Maryland College and Career-Ready Standards. Communication, decision-making, interpersonal, career/vocational, recreational/leisure and community-based skills as well as other IEP needs are addressed, as appropriate. Related services may include adapted art, music and physical education, assistive technology, occupational and physical therapy, and hearing, vision and speech/language services.

Rock Creek works closely with the Arc of Frederick County, Frederick County Developmental Center, Division of Rehabilitative Services and Developmental Disabilities Administration to coordinate services for students and their families. There is a Rock Creek Design Committee in place and the plans for a new facility are ongoing and in the Schematic Design phase.

Challenges Program

Challenges provides integrated support to students with autism and/or severe communication disorders in a small structured classroom with opportunities for inclusion with non-disabled peers, as appropriate, within a general education school. Students learn functional academic and life skills while receiving instruction in modified Common Core Standards, also known as the Core Content Standards. Students are provided with a variety of communication methods as they develop verbal speech and/or a functional communication system. After 3rd grade, most pursue a High School Certificate of Completion. Graduation status is reviewed annually.

Pyramid Program

Pyramid provides integrated support to students with significant social, emotional, and behavioral needs identified with a variety of education disabilities. Intensive special education and therapeutic services are provided in a small, structured setting within a general education school. Students have opportunities for inclusion in general education classes with non-disabled peers, as appropriate, and most are pursuing a high school diploma.

Learning for Life

Learning for Life provides integrated support to students with a variety of developmental and cognitive disabilities in a small, structured classroom with opportunities for inclusion with non-disabled peers, as appropriate, within a general education school. Students learn functional academic and life skills while receiving instruction in modified Common Core Standards, also known as the Core Content Connectors. After 3rd grade, students pursue a High School Certificate of Completion. Graduation status is reviewed annually.

SUCCESS Program

SUCCESS is a transition-education program for students ages 18-21 who have an IEP and are pursuing a Maryland High School Certificate of Completion. Students considered for the program have completed at least 4 years in a comprehensive high school, have had work experience and exhibit potential for competitive employment. The program focuses on developing skills for independent living and functional academics and offers students a range of employment opportunities.

Infants and Toddlers Program

This interagency program provides early-intervention services for children with developmental delays ages birth through the beginning of the school year following their 4th birthday. Services are provided during naturally occurring family routines. Services address each family's unique priorities for their child in areas such as social relationships; using knowledge and skills (reasoning, problem solving, early literacy and math skills); and taking action to meet needs (feeding, dressing, self-care and following health and safety rules).

Early-intervention experts assist families in knowing their rights to services, communicate with people who work with the child and family, and help the child develop and learn. Services are provided at no cost. The Frederick County Health Department is the lead agency, working with FCPS, the Frederick County Department of Social Services and Maryland School for the Deaf.

Partners for Success/Family Support Services

The Partners for Success program facilitates parental involvement for children and youth with disabilities ages 3 through 21 as a means of improving services and results. Partners for Success staff provides special education resources, individual consultations, seminars, workshops, newsletters, a lending library and assistance with the IEP process. FCPS sends FindOutFirst communications to parents about workshops and fun family events through FCPS Communication subscribers who select Special Education news as an area of interest. The office of Partners for Success is open throughout the school year.

Child Find Services

Child Find is the process for locating, evaluating and identifying all children from birth through age 21 who are suspected of having a disability. Parents who suspect their child may have an educational disability should speak with staff at their child's school. If a child is 2 years, 9 months or older and not enrolled in FCPS, parents may contact the Child Find Office to discuss their child's needs.

Special Education Citizens Advisory Committee (SECAC)

The Frederick County SECAC represents the interests of students with disabilities. SECAC works in collaboration with students, families, FCPS staff, and the community to advise the Office of Special Education and the Board of Education. Meetings are open to the public, and new members are solicited each year.

Sign Language Interpreting

Sign language interpreting services are provided upon request for all school-related events and functions of groups in partnership with FCPS, with 10 business days' notice. Any FCPS student, staff, family member or community stakeholder may request an interpreter.

Psychological Services

FCPS assigns school psychologists to every school. They provide direct support and interventions to students; consult with teachers, families and other school-employed mental health professionals (i.e., school counselors, school therapists) to improve academic and mental health support strategies; work with school administrators to improve school-wide practices and policies; and collaborate with community providers to coordinate needed services. School psychologists conduct psychological assessments to address potential educational disabilities and plan appropriate academic, social-emotional and behavioral interventions. They participate on Individualized Education Program (IEP), Student Services and Behavior Intervention teams to address student needs.

School psychologists offer short-term individual and groups counseling and provide crisis intervention. They also provide training to school, parent and community groups on a variety of mental health, learning and developmental topics.

RISE Program

The Forbush School at Frederick County also known as The RISE Program (Responsive Interventions for Student Excellence) is a partnership with Sheppard Pratt Health Systems, Inc. The program provides integrated supports to students with autism spectrum disorders, emotional disabilities, or other educational disabilities. The RISE Program provides instructional, related services such as individual and group counseling, social skills training, speech and language therapy, crisis intervention, and mental health support to meet the needs of students. The program serves students in Grades 1-5 who are expected to earn a high school diploma learning the Common Core Standards. Students have opportunities for inclusion in general education classes with non-disabled peers, as appropriate.

Career and Technology Center

This specialized high school offers 22 career preparatory programs, most open to students in grades 10-12 who have demonstrated good attendance and met other requirements. Most programs require two years, and many prepare students for national and state certification and offer college credits. Programs include:

- Agricultural and Commercial Metals Technology
- Automotive Technology
- Biomedical Technology
- Computer-Aided Design (CAD)/Architectural (Dual Enrollment offered)
- Computer-Aided Design (CAD)/Engineering (Dual Enrollment offered)
- Carpentry
- CISCO Computer Networking Academy (Dual Enrollment offered)
- Collision Repair
- Computer Technician/Analyst
- Construction Electricity
- Cosmetology
- Culinary Arts
- Academy of Health Professions
- Digital Design & Printing Methods
- Electricity
- Environmental Landscape Management and Design and Advanced Floral
- HVACR/Plumbing
- Homeland Security and Criminal Justice (Dual Enrollment offered)
- Interactive Media
- Security +
- TV\Multimedia Production (Dual Enrollment offered)
- Teacher Academy of Maryland

The Career and Technology Center and each high school offer programs for students who have identified specific interests in post-secondary employment, further career education or both. Many programs offer college credit through agreements with Frederick Community College and other post-secondary institutions.

Appendix W: Staffing Ratios

Source: Frederick County Public Schools, May 2019

ELEMENTARY SCHOOLS

Classroom Teacher (Tier I):	Kindergarten: 1.0 teacher position per 23.0 full-time equivalent students Grades 1 - 5: 1.0 teacher position per 24.8 full-time equivalent students
Classroom Teacher (Tier II):	Grades K - 2: 1.0 teacher position per 22.0 full-time equivalent students Grades 3 - 5: 1.0 teacher position per 24.8 full-time equivalent students
Art/Music/PE Teacher:	3.0 specials teachers for every 15 classroom teachers in grades K-5
Instrumental Music:	0.4 FTE per elementary school
English Learner Teacher:	1.0 teacher position per 30 students based on the English Language projection for June 30 of the prior year.
Special Education:	1.0 teacher per 10-15 special education students

MIDDLE SCHOOLS

Classroom Teacher:	Calculation uses a value of 25.8 full-time equivalent students adjusted by a factor of 0.746 to allow for teacher planning time. This results in a student-teacher ratio of 18.5 full-time equivalent students per teacher.
English Learner Teacher:	1.0 teacher position per 30 identified students
Special Education:	1.0 teacher per 15-20 special education students

HIGH SCHOOLS

Classroom Teacher:	Calculation uses a value of 23.51 full-time equivalent students adjusted by a factor of 0.90 to allow for teacher planning time. This results in a student-teacher ratio of 20.25 full-time equivalent students per teacher.
English Learner Teacher:	1.0 teacher position per 30 identified students
Special Education:	1.0 teacher per 15-20 special education students

Elementary School Staffing Formula

	Enrollment 350 or Fewer Students	Enrollment of 351 - 449 Students		Enrollment of 450 - 699 Students		Enrollment of 700 - 899 Students		Enrollment of 900 or More Students
